The error of youth is to believe that intelligence is a substitute for experience; while the error of age is to believe that experience is a substitute for intelligence.

GSU VETERANS OF INNOVATION ... GSU is no longer new, not yet old ... but some of the rougher edges are certainly worn, and a sense of dignity that comes with shared trials and triumphs can be discerned in the faces of GSU. Faze I feels it's time to salute some of that original band of pioneers who have weathered our short but exciting history and still prevail. Thanks to their belief and hard work the GSU dream is still alive and well - and thriving in Park Forest South, Illinois.

6 years:

GRANTED ... A special education fellowship has been granted to graduate George O. Bair of Steger for the 1975-76 academic year. The Illinois Office of Education fellowship provides payment of a $1,000 grant to be administered by the university. Bair received a bachelor of arts in human learning and development this year.

ANOTHER RECORD REGISTRATION ... was set at GSU for the July/August summer session. The new 3,086 student count compares with 2,160 just a year ago, 1,263 in 1973, and 469 for the 1972 summer registration. According to trends noted in the current Fall trimester registration by A&R suggest more record breaking figures to come.

Faze I will continue to salute our 5 year veterans as their anniversaries occur.

"Boy! ... you sure know how to break a vow of silence."
RESEARCH AND EVALUATION STUDIES ... Task Force Projects and Mini Grant Faculty Projects reflect the diverse nature of the studies felt to be needed at GSU. It is our intent to conduct as many as possible of the R & E studies. We have asked the Executive Committee of the University Assembly to appoint task forces to study the seven areas listed under that heading. R & I staff will take leadership roles in task force efforts as appropriate. We are soliciting faculty applications for mini-grants to conduct the studies listed in that category.

OTHER STUDIES

1. Perception Study of the "Innovative" Features of GSU
   Study of faculty, student and administrator perceptions of such features as competency-based instruction, narrative transcript, no grades, single-faculty rank, open admission, upper-division (capstone) university.

2. Compilation of Reports about GSU sent to Outside Agencies
   A project to identify, list and analyze the contents of reports completed by the numerous offices at GSU so the information can be known to administrators. Perhaps coordination of material and information can result.

3. Extension of Macro Model of Evaluation at GSU
   Assess whether R & I has done what the Macro Model proposed for the first years and a projection of the Macro Model elements over the next 3-5 years.

TASK FORCE PROJECTS

1. Study of the 20% Cooperative Education Goal
2. Study of the 25% Self-Instructional Module Goal
3. University Model for Professional Staff-Faculty Evaluation
4. Professional Personnel System, Five-Year Study
5. Student Advising Model and Evaluation Process
6. Develop System for Staff Orientation to GSU
7. Mechanism for Reporting Unique Features of GSU to Other Agencies

MINI-GRANT--FACULTY PROJECTS
(Projects for which faculty sponsor is sought and making mini-grant funds available to assist)

1. Review Value of GSU participating in a Chicago ETV Station
2. A Comparative Study between the Same Module being offered in an 8-week session and a 16-week session with differences measured by SEI and an evaluation instrument for determining professors' reactions to the two classes.
3. Economic Impact of GSU on Surrounding Communities.
