HAVE YOU MET ERIC?

by Mimi Kaplan
HLD Liaison Librarian

ERIC stands for Educational Resources Information Center and was conceived in the U.S. Office of Education in 1966 as a system to provide access to educational literature. In 1972 it moved to the National Institute of Education.

A monthly journal, Resources in Education (RIE) prints the abstracts of documents processed and indexed into the ERIC system. About 1200 abstracts from all the ERIC clearinghouses appear each month and are arranged under ED number as well as descriptor term (subject). Each volume of RIE has four indexes: main entry, subject (descriptor term) author and institution. Semi-annual and Annual Subject indexes are also published.

Most ERIC documents are available in either microfiche or paper copy form. GSU is one of the more than 600 libraries around the world subscribing to ERIC microfiche collections, and RIE is distributed to just about every major library in the world. As of 1976 there were 120,367 document titles in RIE and it was growing at the rate of 15,000 items per year.

EDRS (ERIC Document Reproduction Service) puts all non-copyrighted material on microfiche and sells either microfiche or paper copies made from the microfiche. Individual on-demand microfiche are sold at a standard price of $0.83; individual on-demand paper copies are sold on a graduated scale dependent on size.

The ERIC Thesaurus of Descriptors contains over 600 terms (descriptors) and acts as a key to using RIE and CIJE. Computer ERIC searches are available at several universities in and around the Chicago area on a fee basis.

Current Index to Journal in Education (CIJE) is also an ERIC publication and indexes articles from nearly 700 educational journals. These articles are not available from ERIC but must be obtained by locating the journal in a library.

Resources in Education and Current Indexes to Journals in Education are shelved in the Index and Abstract area of the LRC. A large bulletin board display outside the Reference Office charts a simple procedure for using ERIC and the reference staff prepared bookmark handouts that give additional information on the system. The ERIC microfiche are currently stored behind the Circulation Desk; ask for it by the ED number. You may use the microfiche in the library by using a Reader or, if you wish to have a paper copy, use the Reader/Printer in the Media area which costs 10¢ a page. If you prefer to have your own microfiche, the Media department has a duplicating machine and if you give them 24 hours notice, you can purchase your own microfiche for 10¢ (this is a bargain as the going rate through ERIC for individual fiche is 83¢). Portable readers may be checked out at the Media Desk.

For further information or help in using ERIC ask the librarian at the Reference Desk.

IN HONOR OF NATIONAL SECRETARIES' WEEK:

We, the willing
led by the unknowing
are doing the impossible
for the ungrateful.

We have done so much
with so little
for so long.

We are now qualified
to do anything
with nothing.
