MEMORANDUM

TO: All Civil Service Employees
FROM: Lura Jean Dekker, Chairperson
       CS Affairs Subcommittee

The Civil Service Affairs Subcommittee has worked hard to serve you. With the implementation of the new Constitution, we will have considerably more representation in dealing with our own governance. PLEASE! Become involved. The Senate itself will consist of 30 ELECTED members (10 exempt--20 non-exempt). If you are not interested in a place in the Senate, there will also be standing committees. These will be appointed by the Senate. Let the new Senate know if you are interested. REMEMBER--this is YOUR Senate. If you are not interested in Civil Service Affairs--who will be?

TALLYING THE VOTES... Below is a breakdown of the voter turnout for the recent GSU constitutional referendum. Elections will soon be conducted to establish the Faculty, Civil Service and Student Senates, as provided for in the approved Constitution. Once again, you are urged to make your voice heard and vote!

"It's the heart of an institution of higher education--the first place students come when they have a problem," remarked Diane Cole as she described the Registrar's Office where she is a Computer Aide. In that position her responsibilities include add/drop activities, student registration and fee assessments. Diane is among those who greet students as they request transcripts, registration materials and add/drop forms. She is also among those faced with the problems that those requests sometimes bring. "The Registrar's Office is the first place a student comes when there's a problem; it doesn't matter whether it's with the instructor or the College, the students come to our office first," she added.

"So many times, all of our deadlines fall at once and everything has to be done at once," Diane explained. With advance registration already underway, and recently graduated students putting in requests for transcripts, the office is also faced with fall registration in September. Diane never forgets the main purpose of the Registrar's Office--"to serve the students." She said they do that best when they have the necessary information. She pointed out that in the past there has been a communication problem, but she has seen progress made in that area since coming to GSU four years ago. At one time, she explained, "you almost had to be a detective to locate information" but now other units and personnel understand that there is a proper procedure to follow before the Registrar's Office can function effectively and meet student needs.

Diane came to GSU with a varied background. She had been in sales and was a store manager at two Lee Optical branch offices, an information operator with C & P Telephone Company and a dispatcher with a Norfolk, Va. taxi company. Originally from Norfolk, Diane and her family moved to this area seven years ago. "It offers so much within a short distance," she concluded. She and her husband, Marvin, live with their three children in Park Forest South. Marvin, a native of this area who everybody calls "Cole," is a data processing manager with Hillman's, Inc. in the Loop. Their children are: Leslie, 12, Natalie, 8, and Dorian, 2 1/2.

Diane can sometimes be seen at dawn on tennis courts in PFS. She finds that a good time to enjoy the fresh air, get an energetic start, and besides, "it's before the onlookers are up to see what a klutz you are." She has been taking tennis lessons this summer and predicts with a smile, "I might be ready for the Virginia Slims Classics by the end of the summer." Diane also enjoys reading mystery novels, playing softball with other GSU staff members and "working in an academic oriented field." Diane is concerned with serving GSU's student population--and for someone who is on the staff of the Registrar's Office, that is a very good attitude to maintain.

I am always impressed by the constancy of the stars.

It gives me a feeling of security to look up and know that the star I see will always be there, and will...
