Date: March 19, 1997

Subject: PROFILES OF ACADEMIC MAJORS -- FALL 1996 UPDATE

Attached is a copy of the Fall 1996 update to the Profiles of Academic Majors which is intended to provide the most recent data available for each major as well as a historical perspective. The data presented in each profile attempts to address the most frequently requested information about individual majors. These profiles were developed in an effort to provide information useful for annual academic reviews, IBHE cyclical reviews, and program planning and budgeting.

The Profiles of Academic Majors has been completely revised this year. Each profile now consists of four pages:

- ◆ The first page shows various slices of fall term enrollment data based upon demographics of students enrolled in the major;
- ◆ Page two of each set displays annual statistics on credit hours, degrees, and costs;
- ◆ The third page provides historical perspective on annual instructional FTE and academic year applications, admissions, and enrollments with some yield percentages; and lastly,
- ◆ Page four presents the pattern of course section offerings by types and location of courses.

In addition to presenting a fuller portrait of each major, the profiles now include comparative percentages on selected variables, as well as, 6-year and 3-year trend averages.

If you have any questions regarding the data or suggestions for improving these profiles, please contact the staff in Institutional Research.

PROFILES OF ACADEMIC MAJORS -- FALL 1996

These Profiles of Academic Majors provide a ten-year longitudinal snapshot of the selected enrollment and demographic statistics arranged by fall term and fiscal or academic year as appropriate.

The profiles are arranged by level (undergraduate / graduate) within academic major. Majors are grouped by division within college. University summary profiles for all students, all undergraduates, all graduates, and classified (degree-seeking) students by level appear first, followed in order by collegial sections: CAS, CBPA, CE, and CHP, and then by Board of Governors Baccalaureate Degree program and sections for undeclared/non-degree-seeking students. Each collegial section begins with summary profiles by level for all degree programs in the college. Indices appearing on the inside of the front and back covers list all majors alphabetically for those readers unfamiliar with collegial/divisional affiliation of academic programs. An OVERVIEW of majors, shown on the facing page and arranged alphabetically by level, provides a display of current data for frequently used statistics. The overview includes a page reference for the corresponding detail profile with historical data.

Historical data provided in the profile for each major are displayed on four pages for each major or summary grouping.

The first page for each major shows fall enrollment data by selected demographic characteristics and presents counts, as well as percentages based upon the number of enrolled majors. The remaining three pages present annualized data for each major. In the annualized statistics section, student credit hours (SCH) are shown on an academic year basis and reflect the credit hours that are: a) taken by student majors in courses assigned to their program (line 1); b) taken by majors in courses assigned to other programs (line 4); and taken by non-majors in courses assigned to the respective program (line 2). Degrees counts are shown by fiscal year as reported to IBHE and other federal and state agencies. The comparative cost information was taken from the published IBHE Program/Major Cost Studies by fiscal year, and thus coincides with the cost figures used in the academic program reviews. Instructional FTE are based upon teaching CUEs assigned. The annual counts for applications, admissions, and enrollment were derived from internal trimesterly reports. The last section of annual data present data on sections offered and enrollment.

Comments on or suggestions for improving these profiles would be appreciated.

March 1997
