This Report is brought to you for free and open access by the Office of Institutional Research and Effectiveness at OPUS Open Portal to University Scholarship. It has been accepted for inclusion in Profiles of Academic Majors by an authorized administrator of OPUS Open Portal to University Scholarship. For more information, please contact opus@govst.edu.

PROFILES OF ACADEMIC MAJORS

FALL 1989

PROFILES BY ACADEMIC MAJOR -- FALL 1989

These profiles by academic major provide an eight-year longitudinal snapshot of selected enrollment and performance statistics.

The profiles are arranged by level (undergraduate/graduate) within academic major, and majors are grouped by division within college. University summary profiles for classified (degree-seeking) students by level appear first, followed in order by collegial sections: CAS, CBPA, CE, CHP, BOG, and students-at-large. Each collegial section begins with summary profiles by level for the degree programs in the college. An index in alphabetical order by major appears on the inside cover for those readers unfamiliar with collegial/divisional affiliation of programs.

Data provided for each major are separated into fall term (top page) and annualized (bottom page) components.

The fall term component shows demographic data in terms of counts, as well as percentages based upon the number of enrolled majors. In the annualized statistics section, comparative cost information was taken from the IBHE Program/Major Cost Study by fiscal year, and thus coincides with the cost figures used in the BOG Annual Program Status Reviews. SCH are shown on an academic year basis and reflect the credit hours: taken by student majors in courses assigned to their program (line 2); taken by majors in courses assigned to other programs (line 3); and taken by non-majors in courses assigned to the respective program (line 4). For undergraduate programs, a retention/attrition profile is included also which shows the progression of each cohort of new undergraduate transfers admitted to the major.

Comments on and suggestions for improving these profiles would be appreciated.
