Date: December 20, 1991

Subject: PROFILES OF ACADEMIC MAJORS -- FALL 1991 UPDATE

Attached is a copy of the Fall 1991 update to the Profiles of Academic Majors which is intended to provide the most recent data available for each major as well as a historical perspective. The data presented in each profile attempts to address the most

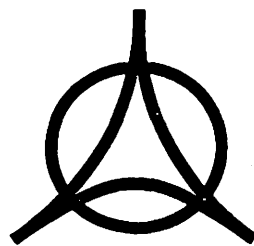

frequently requested information about individual majors. These profiles were developed in an effort to provide information useful for annual academic reviews, IBHE cyclical reviews, and program planning and budgeting. Each profile consists of two facing pages: the first (top) page shows fall term demographic data on students in the major and the second page shows annual statistics on degrees, credit hours, and costs. For undergraduate majors, the second page also contains a table displaying retention/attrition data for each cohort of entering students from Fall 1983 through Fall 1991.

Two features included again in this year's update are: 1) a single page summary profile that displays the most recent data for selected items for all majors, and 2) a measure of instructional F.T.E. based on teaching cues for tenured and non-tenured faculty. These latter data were the same as those reported in the B.G.U. Annual Academic Program Status Reviews.

If you have any questions regarding the data or suggestions for improving these profiles, please contact the staff in Institutional Research.

PROFILES OF ACADEMIC MAJORS -- FALL 1991

These Profiles of Academic Majors provide a ten-year longitudinal snapshot of the selected enrollment and demographic statistics arranged by fall term and fiscal or academic year as appropriate.

The profiles are arranged by level (undergraduate / graduate) within academic major. Majors are grouped by division within college. University summary profiles for classified (degree-seeking) students by level appear first, followed in order by collegial sections: CAS, CBPA, CE, and CHP; and then by Board of Governors Baccalaureate Degree program and students-at-large. Each collegial section begins with summary profiles by level for all degree programs in the college. Indices appearing on the inside of the front and back covers list all majors alphabetically for those readers unfamiliar with collegial/divisional affiliation of academic programs. An **OVERVIEW** of majors, shown on the facing page and arranged alphabetically by level, provides a display of current data for frequently used statistics. The overview includes a page reference for the corresponding detail profile with historical data.

Historical data provided in the profile for each major are grouped into two sections: fall term (top page) and annualized statistics (bottom page).

The fall term component shows demographic data in terms of counts, as well as percentages based upon the number of enrolled majors. In the annualized statistics section, comparative cost information was taken from the published IBHE Program/Major Cost Studies by fiscal year, and thus coincides with the cost figures used in the BGU Annual Program Status Reviews. Student credit hours (SCH) are shown on an academic year basis and reflect the credit hours that are: a) taken by student majors in courses assigned to their program (line 2); b) taken by majors in courses assigned to other programs (line 3); and taken by non-majors in courses assigned to the respective program (line 4). For undergraduate programs, a retention/attrition profile is included which shows the progression of each cohort of new undergraduate transfers admitted to the major.

Comments on the suggestions for improving these profiles would be appreciated.
