ABOUT THE GSU STAFF...Thirty-five of the GSU staff have earned degrees at other Illinois colleges and universities with the University of Illinois leading the way granting six doctorates, nine masters, and five bachelors. The University of Chicago is second, granting GSU staff four doctorates and four masters degrees.

ABOUT GSU STUDENTS...Although 692 of the 695 students enrolled in the first session come from Illinois, they previously have attended institutions of higher education in 29 states and Great Britain, Korea, Israel, West Indies, Pakistan and Puerto Rico. The largest number of students, 111, last attended Prairie State with 60 coming from the Chicago City Colleges.

WHERE HAVE ALL THE COUNSELORS GONE? Jon Carlson, in a coauthored article in Elementary School Guidance and Counseling reports that in 19 cities surveyed (including Chicago) with a total of 10,693,000 children enrolled in kindergarten through sixth grade "assuming a counselor-pupil ratio of 1:1000, less than 5 percent of the children in the cities are in buildings that have a counselor."

BOG ENROLLMENT... reported at the Board of Governors October meeting was an increase of 4.4 percent (1,324 full time equivalent students) for the four institutions operating last year (Chicago State, Northeastern Illinois, Eastern and Western Illinois). It was noted that GSU's first enrollment was 578 or 78 full time equivalent more than projected, the increase due to more students attending full time than anticipated.

MEANWHILE AT THE BHE...The Board of Higher Education's College Common Market Task Force held its first meeting in Chicago October 6. The Task Force which may have significant impact on higher education in Illinois is studying the feasibility of pooling resources available in higher education throughout the state and to suggest mechanisms for implementation in appropriate areas. GSU's Ted Andrews is one of the 18 Task Force members.
