PROFILES OF ACADEMIC MAJORS -- FALL 1992

These Profiles of Academic Majors provide a ten-year longitudinal snapshot of the selected enrollment and demographic statistics arranged by fall term and fiscal or academic year as appropriate.

The profiles are arranged by level (undergraduate / graduate) within academic major. Majors are grouped by division within college. University summary profiles for classified (degree-seeking) students by level appear first, followed in order by collegial sections: CAS, CBPA, CE, and CHP; and then by Board of Governors Baccalaureate Degree program and sections for undeclared/non-degree-seeking students. Each collegial section begins with summary profiles by level for all degree programs in the college. Indices appearing on the inside of the front and back covers list all majors alphabetically for those readers unfamiliar with collegial/divisional affiliation of academic programs. An OVERVIEW of majors, shown on the facing page and arranged alphabetically by level, provides a display of current data for frequently used statistics. The overview includes a page reference for the corresponding detail profile with historical data.

Historical data provided in the profile for each major are generally grouped into two sections: fall term (top page) and annualized statistics (bottom page). The exception being the header information and data on annual faculty instructional FTE.

The fall term component shows demographic data in terms of counts, as well as percentages based upon the number of enrolled majors. In the annualized statistics section, comparative cost information was taken from the published IBHE Program/Major Cost Studies by fiscal year, and thus coincides with the cost figures used in the BGU Annual Program Status Reviews. Student credit hours (SCH) are shown on an academic year basis and reflect the credit hours that are: a) taken by student majors in courses assigned to their program (line 2); b) taken by majors in courses assigned to other programs (line 3); and taken by non-majors in courses assigned to the respective program (line 4). For undergraduate programs, a retention/attrition profile is included which shows the progression of each cohort of new undergraduate transfers admitted to the major.

Comments on or suggestions for improving these profiles would be appreciated.

January 28, 1993
