This Book is brought to you for free and open access by OPUS Open Portal to University Scholarship. It has been accepted for inclusion in Catalogs by an authorized administrator of OPUS Open Portal to University Scholarship. For more information, please contact opus@govst.edu.
Notice

Information in the catalog is subject to change and does not constitute a contract or warranty that the university will continue indefinitely to offer the program in which a student is enrolled. The university expressly reserves the right to change, phase out, or discontinue any policy or program. Such changes take precedence over catalog statements.

This catalog is for the 1997-98 academic year. Together with the addendum published in 1998, it also is the catalog for the 1998-99 academic year. Students should keep the catalog for referral throughout their academic career. Students who first enroll at Governors State University during the 1997-98 and 1998-99 academic years must fulfill the requirements stated in this catalog and its addendum, as applicable, or they may elect to substitute the requirements in any subsequent catalog published while they are enrolled in the university. A student must, however, meet the requirements from one catalog only, rather than choosing a portion from one catalog and the remainder from another.

Affirmative Action Statement

Governors State University is an affirmative action/equal employment opportunity university which administers its educational and employment programs in compliance with federal, state, and local laws and does not discriminate on the basis of race, color, national origin, religion, gender, age, or disability.

Governors State will not discriminate against students for observing religious holidays and will reasonably accommodate the religious observance of individual students regarding admissions, class attendance, and the scheduling of examinations and academic work requirements. Students seeking such accommodation should contact the Affirmative Action Office for assistance.

The general university phone number is (708) 534-5000.

Financial Aid Priority Date for the 1998-99 Academic Year is May 1, 1998. Contact the Financial Aid Office for Final Deadlines for Each Trimester.
GENERAL INFORMATION

History
Governors State was chartered by the General Assembly in 1969. It is designed to serve undergraduate transfer students and those seeking master's degrees.

The university's main campus is located in University Park, thirty-five miles south of Chicago and easily accessible by car or commuter train. The campus is located on 750 acres of wooded landscape with several lakes and nature trails and includes the nationally renowned Nathan Manilow Sculpture Park. The curricula of the university are offered through four colleges: the College of Arts and Sciences, the College of Business and Public Administration, the College of Education, and the College of Health Professions.

Role and Mission
Governors State University's primary mission is teaching. It provides an affordable and accessible undergraduate and graduate education to its culturally and economically diverse lifelong learners. The liberal arts and sciences are the foundation of the university's academic programs, which generally emphasize professional preparation.

Governors State University has a strong commitment to cultural diversity in every facet of university life. The university values its multicultural community of students, faculty, and staff as they learn together throughout their lives. It addresses the needs of the traditional and nontraditional learners through the breadth of its curriculum, through flexible teaching strategies, and through advanced instructional technologies.

Governors State University is an active partner in the economic and social development of the surrounding metropolitan regions, preparing informed and concerned citizens and providing them a global perspective in an interdependent world.

Alumni Association
The Governors State University Alumni Association provides an opportunity for graduates of the university to continue involvement in the development of their university. Through its publications and programs, the association keeps graduates in touch with one another and informed about their alma mater.

Governance
A seven-member board appointed by the governor of Illinois governs this university. One student serves as a nonvoting member of the Board of Trustees. The president of the Faculty Senate is invited to attend the board meetings. The president of the university is responsible to the Board of Trustees for the operation and general welfare of the university. The provost/academic vice president has general responsibility in the areas of academic personnel and programs. Governors State University's four colleges are directly administered by their respective deans. Faculty and students participate in university affairs through membership on the Faculty Senate, Student Senate, and academic and administrative committees. These groups consider and recommend policies and procedures to the president.

Academic Year
The academic year consists of three, fifteen-week trimesters: fall, winter, and spring/summer. Within each trimester, courses can be scheduled in Block 1, Block 2, or Block 3 as follows:

Block 1: Classes scheduled for the entire 15 weeks
Block 2: Classes scheduled for the first 7 1/2 weeks
Block 3: Classes scheduled for the last 7 1/2 weeks

Information on specific trimester dates for block designations can be found in the schedule of classes.

Accreditation
Governors State University is accredited by the North Central Association of Colleges and Secondary Schools. The university is also a member of the Illinois Council of Baccalaureate and Higher Degree Programs, and many programs are accredited by their respective professional accrediting agencies.
ADMISSIONS INFORMATION

Admission to the University
Governors State University encourages applications from qualified applicants of all cultural, racial, religious, and ethnic groups. Applicants for degree programs are admitted directly into the major in which they are seeking a degree.

Application forms and other information needed for admission to the university may be obtained by writing to:

Office of Admissions
Governors State University
University Park, IL 60466-0975

You may call 1-800-GSU-8GSU for information. The university's World Wide Web address is http://www.govst.edu.

Admission documents sent in support of applications are not returnable or transferable.

Application and Credentials Filing Periods

DEGREE-SEEKING

Students are strongly encouraged to apply early. Those who submit applications close to the final deadline may not be directly admitted to their major as some majors have limited enrollment. Also, students who apply close to the deadline may have difficulty scheduling classes once admitted.

FALL 1997

Filing Period Notification Time
March 3 - June 30, 1997 April - July

Applications for all colleges* will be considered if all required credentials have been received during this period.

May 15, 1997 April - July

Priority Filing Date. Completed applications by this date may have the advantage when space is limited and for registration priority.

July 1 - July 15, 1997 Approximately four-six weeks from the time all materials are received.

Applications with all required credentials will be taken on a space available basis. Contact the Admissions Office for openings.

WINTER 1998

Filing Period Notification Time

Applications for all colleges* will be considered if all required credentials have been received during this period.

Priority Filing Date. Complete applications by this date may have the advantage when space is limited and for registration priority.

Nov. 3 - Nov. 17, 1997 Approximately four-six weeks from the time all materials are received.

Applications with all required documents will be taken on a space available basis. Contact the Admissions Office for openings.

SPRING/SUMMER 1998

Filing Period Notification Time
Nov. 3, 1997 - March 16, 1998 Feb. - April

Applications for all colleges* will be considered if all required credentials have been received during this period.

Priority Filing Date. Completed applications by this date may have the advantage when space is limited and for registration priority.

March 16 - March 31, 1998 Approximately four-six weeks from the time all materials are received.

FALL 1998

Filing Period Notification Time
March 2 - June 30, 1998 April - July

Applications for all colleges* will be considered if all required credentials have been received during this period.

May 15, 1998 April - July

Priority Filing Date. Completed applications by this date may have the advantage when space is limited and for registration priority.

July 1 - July 15, 1998 Approximately four-six weeks from the time all materials are received.

Applications with all required credentials will be taken on a space available basis. Contact the Admissions Office for openings.
**WINTER 1999**

March 15 - March 31, 1999 | Approximately four-six weeks from the time all materials are received.

Applications with all required documents will be taken on a space available basis. Contact the Admissions Office for openings.

*Refer to section majors with Special Admissions Requirements.

---

**UNDECLARED/NONDEGREE-SEEKING**

You may apply as a nondegree-seeking or undeclared student by telephone at (708) 534-7890 or by completing and submitting the application form available in the Admissions Office and in any schedule of classes. Five days after applying, you may call (708) 534-4502 to obtain your P.I.N. (Personal Identification Number) and your earliest registration date for Touchtone registration. Applications by mail will be accepted up to the first day of the given trimester.

---

**Admission Classifications and Requirements**

**Undergraduate Degree-Seeking**

**Transfer Students**

Students who declare an undergraduate major.

All baccalaureate programs offered by the university are designed for students who have successfully completed two years of college, including a well-developed program of general education.

**Requirements:** Applicants must:

1. have earned (or will have earned by the term they wish to enroll) an associate of science or an associate of arts degree from a regionally-accredited institution of higher education; OR have earned (or will have earned by the term they wish to enroll) at least 60 semester hours (or 90 quarter hours) of credit from a regionally-accredited institution of higher education with at least a "C" average (2.0 on a scale of 4.0); in any 60 semester (or 90 quarter) hours;

2. be in good academic standing at the last institution attended; and

3. have satisfied any applicable collegial and/or major admission criteria for undergraduate study in the specific major to which they apply. (Please refer to the information related to specific major areas of interest in this publication. Special collegial and/or major admission criteria and additional credentials may be required.)

**To apply:** submit an application, credentials, and official transcripts from each post-secondary institution sent directly to the Office of Admissions.
Undergraduate Undeclared Students

Students who have not declared an undergraduate major.

Students in this classification are not eligible for university administered financial aid.

Students classified as undeclared will be assigned a counselor in the Division of Student Development.

Undeclared students who have not decided on a career path will receive career counseling from their counselors and develop a program of course work that will facilitate the career decision-making process.

Once a career decision is made, the student will apply to a degree program. Upon admission, an academic advisor will be assigned and a study plan completed.

Students classified as undeclared who choose not to seek a degree at GSU must change their status to nondegree seeking.

After registering for twelve credit hours, students who have not applied and been admitted to a major must secure authorization before registering for a subsequent trimester.

Course work completed in this status may or may not be applicable to a major, subject to approval by the advisor and appropriate dean.

Requirements: Applicants must:

1. have earned (or will have earned by the term they wish to enroll) an associate of arts or an associate of science degree from a regionally accredited institution of higher education; or have earned (or will have earned by the term they wish to enroll) at least sixty semester hours (or 90 quarter hours) of credit from a regionally accredited institution of higher education with at least a “C” average (2.0 on a scale of 4.0), in any sixty semester (or 90 quarter) hours; and

2. be in good academic standing at the last institution attended.

To apply: Submit an application, credentials, and official transcripts from each post-secondary institution sent directly to the Office of Admissions.

Undergraduate Nondegree-Seeking Students

Students who do not intend to earn a degree.

Course work completed as a nondegree-seeking student is not applicable to any degrees offered by GSU. Students in this classification are not eligible for university administered financial aid.

Requirements: Applicants must have earned an associate of arts or an associate of science degree from a regionally accredited institution OR have earned at least sixty semester (or ninety quarter) hours of credit with at least a “C” average (2.0 on a scale of 4.0) from a regionally accredited institution.

Persons on F-1 visas are not eligible to enroll as nondegree-seeking students unless they are working toward a baccalaureate degree at another postsecondary institution. Verification from the sponsoring institution must be presented at the time of application.

To apply: Submit an application for admission to the Office of Admissions.

Second Bachelor’s Degree

Students who have earned a bachelor’s degree and wish to earn a second undergraduate degree.

NOTE: Tuition and fees will be assessed at the graduate degree rate.

Requirements: Applicants must:

1. provide evidence of a bachelor’s degree from an accredited post-secondary institution.

2. be in good academic standing at the last institution attended; and

3. have satisfied any applicable collegial and/or major admission criteria for undergraduate study in the specific major to which they apply.

To apply: Submit an application, credentials, and official transcripts from each post-secondary institution to the Office of Admissions.
Graduate Degree-Seeking Students

Students who declare a graduate major.

Requirements: Applicants must:
1. have earned (or will have earned by the term they wish to enroll) a bachelor’s degree from a regionally accredited post-secondary institution;
2. be in good standing at the last institution attended; and
3. have satisfied any applicable special admissions requirements for graduate study in the specific major to which they apply. For specific majors, please refer to this catalog for further information.

To apply: Submit an application, credentials, and official transcripts from each post-secondary institution to the Office of Admissions.

Graduate Undeclared Students

Students with a bachelor’s or higher degree who have not declared a graduate major.

Students in this classification are not eligible for university administered financial aid.

Students classified as undeclared will be assigned a counselor in the Division of Student Development. After registering for six credit hours, students who have not applied and been admitted to a major must secure authorization before registering for a subsequent trimester.

Students classified as undeclared who choose not to seek a degree at GSU must change their status to nondegree seeking.

Course work completed in this status may or may not be applicable to a major, subject to approval by the advisor and appropriate dean.

Requirements: Applicants must:
1. have a bachelor’s or master’s degree from a regionally accredited post-secondary institution and
2. be in good academic standing at the last institution attended.

To apply: Submit an application for admission to the Office of Admissions.

Graduate Nondegree-Seeking Students

Students with bachelor’s or master’s degrees who do not intend to earn a degree at Governors State.

Course work completed as a nondegree-seeking student is not applicable to any degrees offered by GSU.

Students in this classification are not eligible for university administered financial aid.

Requirements: Applicants must have a bachelor’s or master’s degree from a regionally accredited institution.

Persons on F-1 visas are not eligible to enroll as nondegree-seeking students unless they are working toward a graduate degree at another post-secondary institution.

To apply: Submit an application for admission to the Office of Admissions.

Persons on F-1 visas must have their sponsoring university verify enrollment in a degree program.

Second Master’s Degree

Students who have earned a master’s degree and seek a second graduate degree.

Requirements: Applicants must:
1. provide evidence of a master’s degree from a regionally accredited post-secondary institution;
2. be in good academic standing at the last institution attended; and
3. have satisfied any applicable collegial and/or major admission criteria for graduate study in the specific major to which they apply. Please refer to the information related to specific major areas of interest in this publication for special collegial and/or major admission criteria and additional credentials which may be required.

To apply: Submit an application, credentials, and official transcripts from each post-secondary institution to the Office of Admissions.
International Students

Students from other countries who are studying in the United States under an F-1 visa.

International students are eligible for admission to degree programs only and may be admitted as nondegree-seeking or undeclared students only if pursuing a degree at another institution. The institution must provide written verification.

Requirements:

Satisfactory educational record.

A score of 500 for undergraduates and 550 for graduates on the Test of English as a Foreign Language (TOEFL).

Evidence of financial support to meet all financial needs for the duration of their studies at GSU.

To apply:

1. Submit an application for admission as a degree-seeking student.

2. Submit official academic credentials. These may include any or all of the following:
   a. National examination results;
   b. diploma and/or certificate.
   c. complete records of all college, university, or other post-secondary work.
   d. college or university transcripts, if applicable.

   Official documents must be accompanied by certified English translations. These records must be certified by an official of the educational institution issuing them or by an appropriate United States or national government official.

3. Submit official TOEFL score report.

4. Submit a Governors State University Certificate of Finances and supporting documents. All information must be in exact U.S. dollar amounts.

NOTE: Students must submit application and all credentials at least two months before the trimester in which enrollment is sought.

Governors State University is authorized under federal law to enroll nonimmigrant alien students studying under an F-1 visa. Although applicants on J-1 visas may enroll, the university does not participate in the Exchange Visitor Program and is not authorized to issue Form IAP-66, which is required to extend the J-1 visa status. Applicants on F-1 visas are not eligible to be classified as residents of the State of Illinois for tuition purposes, regardless of actual length of residence in the State of Illinois.

A credentials evaluator is available to assist students in obtaining visas and legal documents and to evaluate credentials. Since the university is a commuter institution, students are responsible for arranging their own housing and transportation to and from the campus. Many students live in the immediate area or in Chicago and commute either by car or train to Governors State. For further information, please contact the Office of International Students.

MAJORS WITH SPECIAL ADMISSION REQUIREMENTS

The majors listed below have special admission criteria beyond the general university requirements. This could include additional materials and/or different application dates. Please refer to the specific major sections for the criteria and deadlines.

Board of Governors B.A. Degree Program

Students

Applicants may be admitted to the Board of Governors Bachelor of Arts Degree Program, which features maximum transfer of credit from courses taken elsewhere, credit for prior experiential learning, and individually designed degree programs.

Requirements: Applicants must have a total of sixty semester or ninety quarter hours of academic work from regionally accredited institutions or the equivalent. One may apply for conditional admission to the BOG/B.A. Degree Program with 30-60 semester hours.

To apply:

1. Submit an application for admission to the Office of Admissions.
2. Request that official transcripts from each post-secondary institution attended be sent directly to the Office of Admissions.
3. Submit prior learning portfolio materials, if any, to the Board of Governors Degree Program Office.

NOTE: Students may apply for academic credit for prior learning through the preparation of a portfolio which documents specific learning gained through non-academic experiences. Contact the Board of Governors Degree Program Office for additional information on portfolio seminars.

SUPPLEMENTAL ADMISSION INFORMATION

Readmission

Reapplication and readmission to the university is required in the following instances:

1. If a student has completed a degree at GSU and wishes to reenter into another major or as an undeclared/nondegree seeking student.
2. If a student has been admitted as an undeclared/nondegree seeking student and is seeking admission to a major.
3. If a student has lost continuing student status* as defined by the university policy.
4. If a student is seeking a level change, i.e., from undergraduate status to graduate status; from graduate status to undergraduate status.

Special Admissions

1. Applicants not meeting one or more of the published minimum university criteria for admission and/or who fall into one or more of the categories cited below must petition for admission under the Policy on Readmissions and Special Admissions:
   a. Applicants who are not in good standing at the last institution attended. (Applicants who have been suspended [dismissed] may petition for admission for a trimester no earlier than one year from the date of suspension [dismissal].)
   b. Undergraduate applicants with less than a 2.0 grade point average on a 4.0 scale for at least sixty semester hours of earned college credit, regardless of academic standing at the last institution attended.
   c. Undergraduate applicants who have earned at least fifty-four, but less than sixty semester hours of college credit.
   d. Applicants seeking admission based on credit/degree(s) earned from a nonregionally-accredited institution(s).

2. Applicants who meet minimum university criteria for admission, but who do not meet more selective criteria established by the desired major, should petition the appropriate college through the Office of Admissions, which will make a recommendation to the dean of that college.

3. Applicants not in good conduct standing at the last institution attended must petition for admission to the dean of Student Affairs and Services.
All petitions to the Committee on Readmissions and Special Admissions must be submitted no later than April 15 for spring/summer, July 15 for fall, and November 15 for winter admission consideration. Additional information regarding special admission opportunities and petitions for admission are available from the Office of Admissions.

English Language Proficiency Requirement

The university wishes to ensure that applicants have attained sufficient mastery of the English language necessary to achieve academic success. Applicants to a degree program whose native (primary) language is not English or who submit credentials from any country other than the United States to meet admission requirements must provide evidence of having attained a minimum score of 500 for undergraduate admission consideration, or 550 for graduate consideration on the Test of English as a Foreign Language (TOEFL). This requirement does not take the place of the university proficiency requirement in writing or language proficiency requirements for specific majors as stated in this catalog.

Admission to a Degree Program - Non-U.S. Credentials

The university will consider applications to any degree program for those citizens, resident aliens, or for those on temporary visas (other than F-1 or J-1) who submit credentials from any country other than the United States. Any applicant as defined must:

1. Submit an application by published deadlines as outlined in this catalog.
2. Submit official academic credentials. These may include any or all of the following:
   a. National examination results;
   b. diploma and/or certificate;
   c. complete records of all college, university, or other post-secondary work; and
   d. college or university transcripts, if applicable.

   Official documents must be accompanied by certified English translations. These records must be certified by an official of the educational institution issuing them or by an appropriate United States or national government official.
3. Submit official TOEFL report (500 minimum for undergraduate consideration; 550 minimum for graduate consideration);
4. Additional special admission credentials for desired major. Please refer to other sections for any necessary special admission requirements.

NOTE: Applicants on or seeking F-1 or J-1 visas should refer to the section Admission Information for International Students.

Proficiency Examination Interim Policy

All undergraduate degree-seeking and undeclared students must attempt the mathematics and English proficiency examinations before or during the first trimester of enrollment. Students will not be permitted to register for a second trimester unless both examinations have been taken.

Mathematics:

Students will not be permitted to register for a third trimester unless both mathematics exams have been passed.

English:

1. If the requirement is not met by the end of the second trimester, the student MUST enroll in ENGL381 in order to register for other courses during the third trimester of enrollment.
2. Students who enroll in ENGL381 and pass the final examination in that course will have met the university proficiency requirement. This requirement must be met during the third trimester of enrollment or further registration may be limited.

The following information identifies those examinations you are required to take:

1. English Examination (all students)
2. Math I Examination (all students except CBPA majors)
3. Math II Examination (all students)
4. Math III (CBPA only)
5. Reading Examination (CE elementary education majors only)

Registration

Orientation. All undergraduate degree-seeking students are encouraged to attend an orientation program before registering for classes. Notification of the orientation schedule will be sent to students along with admission material.

Undergraduate Proficiency Examination Requirements. All undergraduate degree-seeking students must pass university-approved examinations to assess their proficiency in English and basic mathematics. These examinations must be taken before or during the first trimester of enrollment. Undergraduate students
classified as degree-seeking students will be permitted to register for a second trimester only if both examinations have been taken. To enroll for a third trimester, students must have passed both examinations or be enrolled in instructional activities related to the proficiency examinations.

**Maximum Credit Hour Load.** Students may register for up to sixteen hours during any trimester or up to nine hours in either Block 2 (courses in the first half of the trimester) or Block 3 (courses in the last half of the trimester). Permission from the college dean is required to exceed these credit hour maximums.

**Course Prerequisites and Corequisites.** A prerequisite is a course that must be completed before registration in a particular course. A corequisite is a course that must be taken simultaneously with another course. Prerequisites and corequisites for courses are indicated in the listing of courses later in this catalog.

**Continuing Student Status.** Continuing students at Governors State University are defined as degree-seeking students whose enrollment at Governors State has not been interrupted for more than two consecutive trimesters. Enrollment is defined as registration for one or more credit hours or audit (noncredit programs/courses are excluded). Degree-seeking students are subject to the curricular requirements in effect at the time of their initial admission provided they maintain continuing student status.

Degree-seeking students who lose continuing status must reapply and be readmitted. They will be subject to the admission and curricular requirements of the university, college, and specific major in effect at the time of readmission.

**Drop and Add.** Students may add or drop courses during registration up to the tenth day of regularly scheduled classes with no penalty.

**Deadline for Withdrawals.** No withdrawals will be accepted after specified deadlines unless approved by the registrar.

Tuition and applicable fees are due as billed. See the schedule of classes for the specified dates for each trimester.

Governors State University has an installment payment plan that allows students to pay tuition over a period of time. Students having no scholarship allowance are eligible. See the schedule of classes for additional information.

As a convenience to students, the university accepts tuition and fee payment via MasterCard or VISA credit cards.

---

**Illinois Articulation Initiative (IAI)**

Governors State University is a participant in the Illinois Articulation Initiative (IAI), a statewide agreement that allows transfer of the completed Illinois transferable General Education Core Curriculum between participating institutions. Completion of the General Education Core Curriculum at any participating college or university in Illinois assures transferring students that lower-division general education requirements for an associate or bachelor's degree have been satisfied. This agreement is in effect for students entering an associate or baccalaureate degree-granting institution as first-time freshmen in summer 1998 (and thereafter). The following IAI codes identify qualifying general education courses:

IAI C (Communications)
IAI M (Mathematics)
IAI F (Fine Arts)
IAI P (Physical Sciences)
IAI H (Humanities)
IAI S (Social/Behavioral Sciences)
IAI L (Life Sciences)

Tuition and fees apply only to 1997-98 for both on-campus and Extended Learning courses.

Mandatory Fees

All students registered for one or more on-campus credit hours at Governors State University must pay these fees.

**Student Activity Fee.** The Student Activity Fee is $25 per trimester; $12.50 per 7 1/2 week block. The fee supports programs and activities to enrich the extracurricular life of students. Some of the programs and activities receiving funding support are the Child Care Center, the student newspaper, musical and cultural events, student clubs and organizations, the Student Senate, and student leadership development.

**Student Center Fee.** The Student Center fee is $20 per trimester. The fee supports the operation of the Student Center which provides facilities for meetings, student offices, a typing center, lounges, recreation areas, study areas, and a number of other related programs and services.

**Counseling and Career Services Fee.** The Counseling and Career Services fee is $20 per trimester. The fee supports programs that will increase the academic success and retention of all students. Also, this fee will assist students in the transition process from student to first professional job following graduation. Some of the programs receiving funding support are job development, on-campus job recruitment, resume writing services, and career and academic counseling programs and services.

**Computer Technology Fee.** A fee of $20 per trimester is assessed to all currently enrolled on-campus students. These fees are used for expanding computer access to students and upgrading computer hardware and software.

Program and Service Fees

**Parking Fee.** The university maintains five (5) parking lots adjacent to its main building. Operation and maintenance of the lots, snow removal, repair/replacement, etc., along with quick-start/escort service, are funded from parking fees paid by staff and students. Staff pay for parking by payroll deduction. Students are assessed parking fees with their enrollment fees.

**Student Health Insurance.** Participation in a student health insurance program is optional. A basic annual plan for a single student is available from a private company. Information on the health insurance plan and fee rates for spouse and/or dependent coverage is available in the Student Life Division.

**Audit Fee.** A non-refundable fee of $50 is assessed per audited course.

**Assessment Fee.** Participants in the Board of Governors B.A. Degree Program are charged a one-time fee of $50, a one-time course assessment fee of $50, and $20 for each course included in the final portfolio.

**Library Fees.** The University Library charges library fines and replacement fees for materials that are overdue, lost, or damaged. All transactions resulting in the preparation of a bill also involve a processing fee.

**Graduation Fee.** A non-refundable graduation fee is assessed to cover the cost of application processing, diploma, cap and gown, and commencement. The fee is $20 for a baccalaureate degree and $25 for a master's degree.
Determination of Undergraduate/Graduate Tuition Rates

Undergraduate tuition rates apply to all students who have not earned a baccalaureate degree, including degree-seeking, undeclared, and nondegree-seeking students.

Graduate tuition rates apply to all students holding a baccalaureate degree, regardless of the level of course work in which they intend to enroll. This policy includes degree-seeking, undeclared, and nondegree-seeking students.

Students will be billed for tuition based on their status at the time of fee assessment. However, if delayed posting or retroactive changes to a student's record affect this status, tuition will be reassessed and the student billed or refunded any difference in tuition. Tuition adjustments will only be made for the current trimester.

Residency

To be considered residents, students must have lived in Illinois for a period of at least six consecutive months immediately preceding the beginning of any trimester for which they register at the university and must continue to maintain bona fide residence in the state.

To establish resident status, a person who is not a citizen of the United States of America generally must have a permanent resident status with the United States Immigration and Naturalization Service and must also meet and comply with all other applicable requirements of these regulations.

In requesting a change of their nonresident status, students will be required to provide satisfactory evidence to the Registrar's Office of in-state residence in compliance with the above residency classification rules.

See the appendix of this catalog for additional information on resident status.

Refunds

Students, including students attending the university for the first time, who withdraw from courses on or before the tenth day of regularly scheduled classes for a trimester or block, are entitled to a full refund of tuition and fees. Students who withdraw from courses after the tenth day, but before the twenty-first day of regularly scheduled classes for a trimester or block, are entitled to a fifty percent refund of tuition and fees. Refund periods are listed in the schedule of classes for each trimester.

Students attending the university for the first time who withdraw from all courses after the tenth day of regularly scheduled classes, or who otherwise fail to complete the trimester shall be eligible for a pro-rata refund in accordance with regulations governing federal financial assistance programs. Any such student shall have deducted from such refund an administrative fee of the lesser of five percent of tuition and fees or $100.

Fees may be refunded if a scholarship is awarded which covers those fees and an application for refund is made no later than sixty calendar days after the close of the trimester. Refunds of fees also may be made because of the student's death or disability, extreme hardship, or institutional error. Additional information is available from the Business Office.

Refunds are mailed via check approximately three weeks from the request date. Both VISA and MasterCard refunds are processed for account credit within three days of the request date.

Unsatisfied Financial Obligations

Unsatisfied financial obligations to the university are pursued through placement with a collection agency, litigation, and/or placement in the Illinois Comptroller's Offset System. Collection costs incurred by the university in collecting monies due to it will be assessed to the debtor.
FINANCIAL ASSISTANCE

The primary purpose of the financial aid program at Governors State University is to assist students in obtaining the financial resources necessary to cover their educational costs. The Office of Financial Aid encourages all students to apply for financial assistance.

Financial aid programs are designed to supplement student or family resources by bridging the gap between costs and the student's or family's measured ability to pay. The analysis of a student's or family's financial strength includes consideration of current income, assets, family size, number of family members in college, and any other factors that seriously alter a student's or family's financial situation.

Eligibility Criteria

Requirements for federal and state sponsored financial aid vary, but generally, a student must:
1. be a U.S. citizen or a permanent resident;
2. be admitted to a degree program; and
3. be enrolled at least on a half-time basis (six hours) for most forms of aid.

Programs Available

The Office of Financial Aid administers and coordinates aid funds from federal, state, university, and private sources. The various aid programs available may be divided into four broad categories: grants/scholarships, loans, work, and tuition waivers. Grants and scholarships are referred to as "gift aid" since they are not repaid. Loans (generally low interest) must be repaid, with payments usually beginning six months after leaving school. Work is often available during the academic year either on or off campus. In addition, tuition waivers covering in-state tuition for both undergraduate and graduate students are available.

Application Procedures

The Office of Financial Aid handles applications on a year-round basis. Students should apply for financial assistance when the decision to enroll at Governors State University is made.

Students should contact the Office of Financial Aid for detailed information on available programs and application forms. The application process varies from institution to institution, and students must follow the procedures required at Governors State University to ensure timely processing. The financial aid application is not complete until all required forms, need analysis reports, and supporting documents are on file with the Office of Financial Aid.

To determine eligibility for all forms of need-based aid, students must complete a Free Application for Federal Student Aid (FAFSA) form. The forms are available at college counseling offices and the Governors State University Office of Financial Aid. Students with FAFSA's received at the Financial Aid Office by May 1 will receive first priority for college-based financial aid.

In addition to the FAFSA form, students must complete a Governors State University Application for Financial Aid. Additional information and supporting documentation also may be requested if your application is selected for verification.

In applying for financial aid, students need not limit their request to a specific grant or form of aid. Many students qualify for a combination of scholarships and need-based assistance.
FINANCIAL ASSISTANCE

Federal/State/Outside Agency Loans, Scholarships, Grants, Waivers, Awards, Assistance through Employment

**Pell Grant** (Federal)
Undergraduates based on need. Must be degree-seeking and enrolled for at least six credit hours.
Applies to tuition, fees, and other educational expenses. No repayment obligation.
*Apply to:* GSU Office of Financial Aid

**ISAC Monetary Award**
Undergraduates based on need. Must be degree-seeking, enrolled in at least six credit hours, and an Illinois resident.
Applies to tuition and fees only. No repayment obligation.
*Apply to:* GSU Office of Financial Aid

**SEOG (Supplemental Education Opportunity Grant) (Federal)**
Undergraduates with exceptional need. Must also be eligible for the Pell Grant.
A source of funds to supplement other federal aid programs (such as the Pell Grant) if the student continues to show need. Applies to tuition, fees, and other educational expenses. No repayment obligation.
*Apply to:* GSU Office of Financial Aid

Up to $1,000 is usually available, dependent on annual contribution from the funders and number of hours for which the winner is registered. Open to graduate and undergraduate, full- or part-time degree seeking students in CBPA. Applicant must have completed at least nine hours at GSU, have a GPA of 3.5 or better, and be enrolled for at least six hours of credit; must document need for financial assistance to remain in school and be a U.S. citizen.

Apply to: Students must send a letter (approx. 750 words) describing the importance of the degree to his/her career plans and the reasons for needing financial assistance. Application, letter, and transcript are to be sent to the Dean of CBPA.

Percy and Elizabeth Wagner Endowed Scholarship in Real Estate
Undergraduate and graduate who wishes to pursue career in real estate or finance. $300-$500. Degree-seeking, 3.0 GPA. Financial need is not a factor.

Apply to: Applicants should send letter to coordinator of academic advising. Letter should show commitment to real estate and experience, if any. Finance students may also apply.

CE
Michael Lewis Family Endowed Scholarship in Prevention
Open to graduate, degree seeking College of Education students in counseling working or committed to working in the human services field of prevention. $750 for each of two awards.

Apply to: Application, documentation of GPA, letter of 1,000 words or less describing current work and commitment to a career in the field and at least one letter of reference testifying to present work (volunteer or paid) or interest in the field to be sent to the GSU Office of Financial Aid.

Dr. W. Prince McLemore Tuition Scholarship
Undergraduate Elementary Education majors. $250-$500. Degree-seeking, 3.0 GPA. Financial need is not a factor.

Apply to: Candidates must send letter of application to chair of Division of Education. Letter should feature candidate’s qualifications. Chair selects the winner. Office of Alumni Relations coordinates selection process.

Dr. Basil Sklan Endowed Scholarship in Mental Health
Undergraduate and graduate CE students with commitment to field of mental health. $400-$600. Degree-seeking, 3.5 GPA. Financial need is a factor. U.S. citizen and resident of Illinois. Enrolled or about to enroll for at least six units of credit.

Apply to: Nominations are made by Division Chair of Psychology. Student must write an essay describing his/her commitment to mental health field.

Dr. Peggy Williams Memorial Endowed Scholarship
Undergraduate Elementary Education majors who are specializing in Reading/Language Arts. $250-$500. Degree-seeking, 3.0 GPA. Financial need is not a factor.

Apply to: Candidates must send letter of application to Division of Education Chair. Letter should feature candidate’s qualifications. Chair selects the winner. Office of Alumni Relations coordinates selection process.

Contact GSU Office of Financial Aid.
Other GSU Scholarships and Awards

CHP

Marie Gray Bertz Memorial Endowed Scholarship
Undergraduate women returning to school who have not been enrolled at another institution for at least two years before coming to GSU, pursuing career in health professions. $250-$500. Good academic standing. Financial need is not a factor. Degree-seeking, registered for at least six credit hours. Recipient will be required to volunteer at least two nights during the Alumni Phonathon.

Apply to: Students submit letter of interest to the dean. Nominations may also be submitted to the dean by division chairs, faculty, etc. Office of Alumni Relations coordinates selection process. Contact GSU Office of Financial Aid.

Kimberly Edwards Endowed Scholarship in Nursing
Undergraduate and graduate CHP nursing students, who have a special commitment to work in pediatrics and with children. $100-$300. Degree-seeking, good academic standing. Financial need is a factor. U.S. citizen, enrolled or about to enroll for at least six hours.

Apply to: Director of Nursing Program selects recipients. Students write letter to director describing their commitment to a career in work with children.

Virginia M. Pizza Endowed Scholarship in Geriatric Care
Undergraduate and graduate students preparing for careers in geriatric nursing and/or services. $500-$750 each for two. Degree-seeking, 3.25 GPA. Financial need is not a factor. U.S. citizen and resident of Illinois. Enrolled for at least six hours (graduate) or nine hours (undergraduate).

Apply to: Deans of colleges nominate. Students may write their deans to present their cases.

Psi Iota Xi Sorority Scholarship in Communication Disorders
Interested students should inquire about this award in the College of Health Professions Dean’s Office. The award is usually $250, depending on the success of the sorority’s fundraising activities each year.

Apply to: Eligibility and application rest with that office and its faculty. Contact College of Health Professions Dean’s Office.

AVAILABILITY NOT BASED ON ACADEMIC PROGRAM

Tessa Anderson College After 30 Scholarship
Undergraduate student over the age of 30 admitted to the College of Arts and Sciences, College of Education, or the Board of Governors Degree Program has priority. $500-$1,000. Degree-seeking, good academic standing. Financial need is a factor. U.S. citizen and resident of Illinois. Enrolled for at least 6 credit hours. Does not qualify for federal/state funds. Recipient will be required to volunteer at least two nights during the Alumni Phonathon.

Apply to: Students submit letter of interest to the dean, and write an essay explaining tuition hardship and what they will do with the college experience. Office of Alumni Relations coordinates the selection process. Contact director of alumni relations.

Collegial Minority Scholarship Program
Undergraduate and graduate minority students in the four colleges. Full tuition. Degree-seeking, Undergraduate 3.0, Graduate 3.25 GPA. Financial need is a factor. U.S. citizen or permanent resident, registered for a minimum of six credit hours. Recipient will be required to volunteer at least two nights during the Alumni Phonathon.

Apply to: Deans of colleges nominate. Office of Alumni Relations coordinates the selection process. Contact Financial Aid Office.

Dr. Lowell Goldberg Health and Community Service Endowed Award
Undergraduate and graduate. Any student with commitment to service. $250-$500. Degree-seeking, 3.5 GPA. Financial need is not a factor. U.S. citizen and resident of Illinois. Commitment to health service and/or community service.

Apply to: Selection is made by the director of the Institute for Public Policy and Administration, CBPA. Students may write to the director arguing their case and present evidence of service commitment.

Donald W. Hansen Memorial Endowed Scholarship
Undergraduate and graduate. Any student. $1,200. Degree-seeking, 3.8 GPA. Financial need is not a factor. Registered for a minimum of six credit hours; must have completed at least 15 hours of graded work at GSU within the previous two years, able to document leadership and/or community service. Recipient will be required to volunteer at least two nights during the Alumni Phonathon.

Harry P. McHale Memorial Endowed Scholarship
Undergraduate and graduate, CAS student full-time, or employed classroom teacher enrolled at GSU. $350-$600.
Degree-seeking, 3.5 GPA. Financial need is not a factor. Must be registered voter. Must have completed at least two
math courses, the lower of which may not be below Algebra I.
Apply to: Applicants must submit essay to Foundation Office reflecting on the high school teacher who most
influenced them and must address reasons for pursuing a degree. Proof of voter registration and math requirement
satisfaction (transcript) must accompany application.

Lewis Manilow Scholarships for Students to Whom They Will Make a Difference
Two tuition waivers available to graduate and undergraduate, full- or part-time, degree-seeking students in all
colleges and BOG degree program who demonstrate drive, determination, and ability to succeed in the field of their
choice.
GPA and financial need become a factor only in the event of equally compelling essays (500 to 1,000 words) which
describe the student’s history, work experience (if applicable), personal and career goals, and how the scholarship
will help them achieve those goals. Special consideration given to students in the fields of health, technology, and
business.
Apply to: Application, essay, and supporting letters and documentation to be sent to the GSU Office of
Financial Aid.

Phi Theta Kappa
Undergraduate member of Phi Theta Kappa. Full tuition. Degree-seeking, 3.5 GPA. Financial need is not a factor.
Must commit to community service and be enrolled full time beginning in the fall term.
Apply to: Applications available in the Financial Aid Office. The application deadline is July 1 for the academic year
beginning in September.

Dr. Keith W. Smith Memorial Endowed Scholarship
Graduate students who wish to pursue a career in higher education. $1,000. Degree-seeking, good academic
standing. Financial need is a factor. Applicant is selected based on scholarship, need, and career goals.
Apply to: Deans nominate. Students may write to their deans arguing their case, but must be clear about their plans
for a career working in higher education (teaching, research, administration, etc.).

Civil Service Scholarship
Undergraduate civil service employee or dependent child of a civil service employee. Must be degree-seeking, $200-
$400. Financial need is not a factor. Must be a GSU civil service employee for at least two years or be a dependent
child of a civil service employee.
Apply to: Contact Human Resources.

GSU Learning Excellence Award for Persisters (LEAP) Program
The GSU Foundation and the GSU Alumni Association sponsor the Learning Excellence Award for Persisters
Program to provide monetary awards to students with financial need who are enrolled for less than six hours
per trimester. A one-page application form has been developed for LEAP applicants. To be eligible, students
must be in good academic standing (2.0 GPA for undergraduate and 3.0 GPA for graduate students) and
must remain in good standing to receive the awards in subsequent trimesters. Applicants may receive the grant
for one trimester while not admitted to a degree program, but must be admitted to a degree program to receive it
the second trimester. Students may not be in default or owe a refund on a PELL Grant or SEOG received from
any institution.

Eligibility will be based on financial need as determined by the Office of Financial Aid, using criteria similar to
that used to determine eligibility for federal/state need-based assistance. Grants of $50 per credit hour will be
awarded based on financial need.

The number of awards will be based on current funding levels. Applicants will be processed on a first-come,
first-served basis. Applications may be submitted at any time and are available in the Office of Financial Aid.
STUDENT SERVICES, ACTIVITIES, AND INFORMATION

University Library

The University Library provides reference and information services seventy-five hours per week. Library staff are available to help students at three locations: the main reference desk, the documents/serials information desk, and the circulation desk. The library staff offers tours of the library, and the library faculty provide bibliographic instruction to individuals and groups upon request.

The library maintains an extensive collection of print and audiovisual materials. These materials are, with few exceptions, on open shelves, readily accessible to users. The collection encompasses more than 290,000 volumes; 24,000 media items, including 16mm films, video cassettes, records, filmstrips, slides, and kits; more than 580,000 microfiche/films; and more than 2,000 periodical subscriptions. The library is a depository for both U.S. and Illinois government documents.

Library resources and facilities include curriculum materials, sample elementary and secondary textbooks, and juvenile literature that supports the teacher education program; a test file containing sample materials used for educational and psychological testing and measurement; videocassettes for the university telecourses; and reserve materials assigned by faculty to support current courses. The library provides student lounge and study areas, equipment for using audiovisual materials, and coin-operated photocopiers and microform reader-printers.

Material in the library is identified and located through Illinet Online (IO), a catalog providing users with on-line access to the collection and its holdings by author, title, and subject, as well as various print and electronic indexes and abstracts. IO also provides users with information on the holdings of other libraries in Illinois, including more than forty full participants in the Illinois Literary Computer System Organization (ILCSO). Computer-assisted bibliographic searches are also available.

Books and journal articles not available in the Governors State University Library often can be obtained for students through cooperative networks or interlibrary loans. The library also has cooperative agreements with other academic institutions that permit Governors State University students access to these collections.

Academic Computing Services

Academic Computing Services (ACS) provides microcomputer facilities for students, faculty, and staff. The ACS Lab comprises classrooms and an open lab area. Some computers are connected to the Educational Computing Network (ECN), a telecommunications and computing service that provides Internet access. Students can obtain an ECN account from the ACS Lab coordinator.

Hardware in the ACS Lab includes Pentiums, 486s, Power Computing PCs, Macintoshes, dot-matrix and laser printers, and a scanner. Operating systems include Windows 3.11, Windows 95, and Macintosh 7.5. Software categories include office technology, programming languages, graphics, and clients such as Netscape Navigator.

Students enrolled at Governors State and holding a valid student I.D. card may use the ACS facilities. ACS is located on the second floor of the D Wing, just past the library. Lab hours are Monday through Thursday, 8:30 a.m.-10:30 p.m.; Friday, 8:30-9 p.m.; Saturday, 8:30 a.m.-5 p.m.; and Sunday, 1-9 p.m. Student lab aides are available during these hours to answer questions and assist users.

Affirmative Action Office

The Affirmative Action Office offers information and assistance for students who believe that they have been discriminated against because of race, color, national origin, religion, gender, age, sexual orientation, marital status, disability, unfavorable discharge from military service, or veteran status.

The office also offers information and assistance to students who believe they have been victims of sexual harassment.

Assistance for Students with Disabilities

Governors State University makes every effort to facilitate learning by those persons with disabilities. Students who believe they will need assistance to participate in course work must notify the Division of Student Development to request assistance and information concerning auxiliary learning aids, physical accessibility, and other special services.
The Student Center
Housed in A Building, this area has been designed to bring students together through a variety of programs and services. It has a swimming pool, gymnasium, fitness room (free weights and exercise machines), racquetball court, locker, and shower facilities. Also included are a television lounge; table recreation area; vending, dining, and study areas; computer/word processing area; student leader offices; and meeting room. The student newspaper, *The INNOVATOR*, and the Student Life staff have offices in the center. The student commons area is a gathering place for student interaction within the center. The Student Center is open seven days a week during the fall and winter trimesters and closed only Sundays during the summer trimester.

Career Services
The Office of Career Services offers a broad variety of programs and services to assist students and alumni in the areas of career planning, resume development, job search strategies, computer assisted job searches as well as job placement. The office maintains a career library which contains numerous career planning and job search resources.

Child Care
Students, staff, faculty, alumni, and Campus Community Center members may register to enroll their children ages two through thirteen in one of the university’s child care programs. The programs are licensed by the Illinois Department of Children and Family Services and participate in the State Subsidized Child Care Food Program. Programs are available with all day, before/after school, evening, day camp, and weekend options. The center and office is located south of Stuenkel Road (University Parkway), adjacent to the barn.

Clubs and Organizations
Students may take advantage of the many clubs and organizations that exist at Governors State University. These clubs provide students with the opportunity to meet others with the same majors or special interests. The majority of organizations are related to academic programs, while others support a variety of social and special interests. New clubs and organizations can be formed by any group of students. For information or assistance, contact the Student Life Service and Box Office at (708) 534-4550.

Counseling Center
Among the various services offered by the Counseling Center are individual and group counseling, study skills seminars, stress management workshops, career counseling, and relaxation training. The professional staff of the Counseling Center offers confidential counseling for students seeking to resolve academic, career, social, interpersonal, and other personal questions and concerns. Counselors provide academic advising to undeclared students and facilitate the Student Transition Orientation Program.

Quick Start/Escort Service
Quick Start/Escort Service provides students, staff, and visitors safe conduct to their cars, especially late at night. Both services are available seven days a week. Quick Start/Escort Service helps motorists with battery problems, frozen locks, and empty gas tanks. Quick Start attendants also assist in fixing flat tires. The attendant will refer the motorist to a local towing service if unable to fix the problem with the car. If a motorist is locked out of his/her car, personnel from the Department of Public Safety will assist in unlocking it. The Quick Start/Escort Service attendant can be located by dialing the Department of Public Safety at extension 4900.

Identification Cards
Picture/I.D. cards are available for all students at the Student Life Service Office in A Building. I.D. cards are required for use of all university facilities, including the library and the computer centers; free or reduced admission to events requires this card.

Information and Records
Information concerning student enrollment, grade reports, the university hold list, certification for graduation, diplomas, commencement, and transcripts can be obtained from the Registrar’s Office. This office also processes changes of address, name, and residence classification.

Intramural and Recreational Activities
Students, faculty, staff, and community members can participate in activities, such as recreational racquetball, basketball, and tournaments. They can also enroll in recreational classes taught on campus. The Family Outing Center, Student Life, provides for on-and off-campus use of recreational equipment. For additional information contact the Student Life Service and Box Office at extension 4550.
Leadership Development
Opportunities for students to expand their leadership potential are offered each trimester. This can include seminars, workshops, and retreats. Additional information may be obtained from the Student Life Service Office at extension 4550.

Center for Learning Assistance
The Center for Learning Assistance helps students meet their educational goals by enhancing basic academic and course-related skills. Services are provided free of charge and include individual and group tutorials, workshops in study skills and note-taking techniques, research paper writing, and test anxiety reduction. The center offers workshops each trimester for students who plan to take the university English and mathematics proficiency examinations, as well as tutorials for a large number of courses.

Teaming for Success: The Minority Student Mentoring Program
Enhancing minority student achievement is a priority at Governors State University. Teaming for Success is a mentoring program designed to motivate students to achieve their educational goals at Governors State University or any institution higher learning and to improve the retention rate of students at Governors State University. The overall goal of the program is to provide meaningful experiences that enhance the total personal and professional development of GSU's minority students. A student (protégé) is matched with a faculty, staff, administrator, alumnus, or friend of the university (mentor) for a full academic year. The program will allow for both individual and group meetings. Contact Glen Abbott at (708) 534-4132 if you wish to have a mentor.

Multicultural Programs
Governors State University is committed to celebrating the ethnic and cultural diversity of the campus. Through the Office of the President, the Council for Cultural Pluralism, and the Student Life Division, the university encourages special events, workshops, meetings, and programs that recognize the ethnic and cultural diversity of the campus as a community strength.

The Center for Performing Arts
This 1,200-seat performing arts center opened in December 1995. The Center is dedicated to providing a wide array of quality arts, popular, educational, and technological programming to the immediate community and its surrounding metropolitan region. Major star attractions are featured as well as a variety of Illinois artists and performing arts companies. The Center also is the "meeting place" for area businesses and organizations.

Public Safety
Police, public safety, and emergency medical services are available at all times from the university's Department of Public Safety, extension 4900.

Student Government
The university is governed by three senates representing the faculty, civil service, and students. The Student Senate is charged with the responsibility of representing student interests in all policies governing the university. A student is elected to be a representative to the GSU Board of Trustees. Students are also elected to represent our university on the Student Advisory Committee to the Illinois Board of Higher Education.

Student Life Services
The following services are available from the Student Life Service and Box Office.

Student I.D. Cards
Student Lockers
Word processing & typewriter use,

Information provided on:
Housing
Leadership Development
Health Insurance
Carpool
Bus Shuttle
Student Governance

Clubs & Organizations
Student Newspaper
Student Committees
Student Media
Events & Activities
Recreation

Box Office Services can be obtained through the Student Life Service and Box Office, located, 1st floor, in the Student Center. Services are as follows: reduced price sales to special events, student fax Service, recreation facility program membership, complimentary student event tickets, movie theater tickets, I.D. replacement purchase.
Special Events

Lecture/Concert Series
A lecture or concert is offered to the university community each trimester. These events are coordinated through the Student Life Division.

Student Life
Special events are held to celebrate the following:
- Welcome Week
- Hispanic Heritage Month
- African-American History Month
- Women's History Month
- Festival of Lights
- Chinese Festival
- Native American Day

Student Travel/Conference Fund
Some assistance is available through the Student Life Division for students to represent GSU at local and national conferences. Students may not receive university credit for these experiences.

Student Media
The INNOVATOR is the bimonthly student newspaper and is the main source of information about campus life. Staff positions on The INNOVATOR are open to all students. Students interested in starting additional student publications should contact the Student Life Service Office.

Testing Office
Through the Testing Office, students can obtain information about and register for the university English and mathematics proficiency examinations. Also, they can obtain information and registration materials for national tests such as the Graduate Record Examination (GRE), the Graduate Management Admissions Test (GMAT), and the Law School Admission Test (LSAT). The Testing Office administers the U.S. and Illinois Constitution examination required for Illinois teacher certification, a proficiency examination battery which uses the College Level Exam Program (CLEP), and the ACT Proficiency Exam Program (PEP).

Veterans Assistance
The Office of Veterans Affairs administers all veteran-related services and programs and serves the student veteran by providing advising and counseling. The office is located in the Office of Financial Aid.
STUDENT LIFE POLICIES

Affirmative Action/Equal Opportunity
Governors State University recognizes and is fully committed to both its moral and legal obligations to provide equal opportunity to its employees as well as its students. Recognizing these obligations, the university will not discriminate on the basis of race, color, national origin, religion, gender, age, sexual orientation, marital status, disability, unfavorable discharge from military service, or veterans status in any area of university employment or in services to its students. Furthermore, this university is pledged to the affirmative action process to ameliorate patterns of employment which indicate under-utilization of members of minority groups and women, whether in the faculty, the civil service, or among the students. The Affirmative Action Plan explains more fully the university's commitment and may be reviewed by all concerned in the University Library.

Accommodating Religious Observances
Governors State University will not discriminate against students for observing religious holidays and will reasonably accommodate the religious observance of individual students regarding admissions, class attendance, and the scheduling of examinations and academic work requirements. Students seeking such accommodation should contact the Affirmative Action Office for assistance.

Sexual Harassment
Governors State University will not tolerate sexual harassment of students or employees and will take action to provide remedies when such harassment is discovered. The university environment must be free of sexual harassment in work and study. Students who believe they have been victims of sexual harassment should contact the Affirmative Action Office for information and assistance.

Services for Students with Disabilities
Governors State University complies with the Americans with Disabilities Act of 1992 and with Section 504 of the Rehabilitation Act of 1973 and other federal and state legislation which states that “No otherwise qualified person with a disability in the United States... shall, solely on the basis of disability, be denied access to, or the benefits of, or be subjected to discrimination under any program or activity provided by any institution receiving federal financial assistance.” Inquiries about assistance to meet special needs should be directed to the Division of Student Development, through which the appropriate academic and service areas will be notified. Provision of such assistance will be based upon the individual student's need to have equal access to the learning environment. If requests for auxiliary aids, academic adjustments, or other special services necessitate a modification of academic standards or create an undue hardship on the university, the requests may be denied.

Drug and Alcohol Abuse
Consistent with its educational mission, Governors State University is committed to providing education about the effects of the use of drugs and alcohol and to furthering efforts to prohibit possession, use, or abuse of these substances. The Division of Student Development provides periodic workshops and seminars about health risks and university disciplinary action, as well as the legal sanctions related to the use, manufacture, sale, and/or distribution of drugs and alcohol. In addition, the office assists in preventative education by the distribution of informational materials. These informational materials are distributed to newly admitted students at orientation and are available in division offices, Student Affairs and Services offices, or can be picked up from academic advisors.

Smoking
In compliance with the Illinois Clean Indoor Air Act, as of July 1, 1993, smoking is prohibited in the university.
ACADEMIC REGULATIONS

Student Responsibility

Students are responsible for knowledge of, and adherence to, all university requirements and regulations. Students are also responsible for knowing the degree requirements for their major and enrolling in courses that meet those degree requirements. Students are strongly encouraged to seek information and assistance from appropriate staff should they have any questions regarding requirements or regulations.

Student Grade Reports

Approximately two weeks after the end of each trimester, the Registrar’s Office mails a grade report to each student indicating courses taken, grades received, credits earned, and grade point average. Also included in the report is a cumulative record of credit hours earned and grade point average for course work completed at Governors State University.

Grading

At the completion of the work for a course, a letter grade will be assigned by the instructor. Grades provide academic evaluation and are the basis for determining academic standing. Following are the letter grades used at Governors State University and the grade points used to determine the grade point average of the student:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Grade Points Per Credit Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Superior performance</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Above average performance</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Average performance</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Marginal performance</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>0</td>
</tr>
<tr>
<td>P</td>
<td>Pass</td>
<td></td>
</tr>
<tr>
<td>NC</td>
<td>No credit</td>
<td></td>
</tr>
<tr>
<td>W</td>
<td>Student initiated withdrawal</td>
<td></td>
</tr>
<tr>
<td>X</td>
<td>Administrative withdrawal</td>
<td></td>
</tr>
<tr>
<td>I</td>
<td>Incomplete</td>
<td></td>
</tr>
<tr>
<td>E</td>
<td>Extended incomplete</td>
<td></td>
</tr>
<tr>
<td>M</td>
<td>Grade missing at time of processing</td>
<td></td>
</tr>
<tr>
<td>R</td>
<td>Repeated course</td>
<td></td>
</tr>
<tr>
<td>V</td>
<td>Audit</td>
<td></td>
</tr>
</tbody>
</table>

Grade Point Average

The student’s grade point average (GPA) is calculated by dividing the total number of grade points by the total number of credit hours attempted. The cumulative grade point average is computed by dividing the total number of grade points that a student has earned in all courses taken at Governors State University by the total number of semester hours represented by those courses. Transfer hours and courses in which a “P”, “NC”, “W”, “X”, “I”, or “E” grade is earned are not used to calculate the grade point average.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Credit Hours</th>
<th>Grade Points Value</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>3</td>
<td>4</td>
<td>12</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
<td>3</td>
<td>9</td>
</tr>
<tr>
<td>C</td>
<td>3</td>
<td>2</td>
<td>6</td>
</tr>
<tr>
<td>D</td>
<td>3</td>
<td>1</td>
<td>3</td>
</tr>
<tr>
<td>F</td>
<td>3</td>
<td>0</td>
<td>0</td>
</tr>
</tbody>
</table>

An example of the GPA calculation: A student attempted five three-hour courses (a total of 15 hours), receiving an “A”, a “B”, a “C”, a “D”, and an “F”. The total number of grade points earned in the five courses is 30. The GPA is 30 (grade points) divided by 15 (hours attempted) equals 2.0.

Incomplete Course Work

The grade of “I” (incomplete) shall be assigned to indicate that the student’s general performance was passing but that the student has not performed some specific course requirements. Upon written request by the student, an instructor may assign a grade of incomplete provided that reasons for not completing the course work are acceptable to the instructor. The instructor will determine the time allowed to complete the course work, provided it does not go beyond the twelfth week of the next trimester. When the course work is submitted, the instructor will replace the incomplete with the appropriate grade. After the deadline for submitting work has passed, the incomplete will be changed to an “F” grade (or an “NC” for pass/no credit courses) unless the instructor has submitted a request for an extension of incomplete (“E”) in writing.

Any request for an extension of an incomplete must be based on extenuating circumstances beyond the student’s control or for valid academic reasons and is subject to the dean’s approval. The extension shall not go beyond the twelfth week of the next trimester. All incomplete grades must be removed before graduation.
Grade Appeals
Once a grade has been recorded by the Registrar's Office, corrections may be made only as the result of either of the following:

1. A formal grievance proceeding completed within the time limits set forth in the university grievance procedures.

2. A grade correction petition approved by the faculty member, division chairperson, dean and provost and filed with the registrar on or before the end of Block 2 of the trimester subsequent to that in which the erroneous grade was given.

Pass/No Credit Option
To encourage undergraduate students to participate in areas of learning outside their major interests and to stimulate intellectual curiosity, Governors State University has a pass/no credit option. To receive credit ("P"), the grade must be "D" or better. A grade of "F" will carry a No Credit ("NC") designation. Pass/no credit designations are not calculated into the grade point average.

Only undergraduate degree-seeking students may elect to take graded courses on a pass/no credit basis. The courses can only be applied toward the elective requirements within the student's degree program. A student may earn a maximum of twelve hours of credit in the pass/no credit option which can be applied toward elective degree requirements. (Note: Students who do not intend to earn a degree from GSU, either undergraduate or graduate, may also use this option.)

Changes from the pass/no credit option to traditional grade status are permitted through the end of the registration period for the trimester in which the course is offered. Additionally, selected courses are graded only on a pass/no credit basis. These courses are identified by the "P/NC" designation in the Course Description section of this catalog.

Repeating Courses
A student may elect to repeat a course. The most recent grade will be used in the GPA calculation; the grade for the prior attempt will be replaced by an "R". Students electing to repeat a course should obtain a Repeated Course Request Form from the Registrar's Office.

Independent Study
Independent study enables a student to pursue individual research and reading in a field of special interest under the guidance of a faculty member. A written proposal for an independent study, planned and developed by the student, must be approved by the division chairperson in consultation with the faculty sponsor. Independent study credit may be used to meet elective credit only. A maximum of nine undergraduate credit hours and six graduate credit hours of independent study may be applied to degree requirements. Individual colleges and programs may have more restrictive policies. A student may enroll for a maximum of three credit hours of independent study in any one trimester.

Mathematics Placement
Students will be permitted to enroll in designated courses requiring quantitative skills (for example, statistics, calculus, and algebra) based upon their performance on a mathematics placement examination. Information on these designated courses and the mathematics placement examination is available from the Division of Student Development and from academic advisors.

Degree Requirements
Students who are admitted to Governors State University for the 1997-98 and 1998-99 academic years must fulfill the degree requirements stated in this catalog and its addendum, as applicable, or they may elect to substitute the requirements in any subsequent catalog published while they are enrolled in the university. A student must, however, meet the requirements from one catalog only rather than choosing a portion from one catalog and the remainder from another.

A student who is readmitted to Governors State University who did not attend at least one of the past three consecutive trimesters must meet the requirements of the current catalog unless written approval to continue under an earlier catalog is obtained from the dean of the college in which the student is enrolled. The written permission must be filed in the Registrar's Office before submission of a graduation application.

Concurrent Registration
Students may enroll at another institution while working toward a degree at Governors State University. Students who wish to do so must obtain written permission from their academic advisor and dean of the college before taking course work at another institution.

Audit Registration
A student who is interested in a particular course(s) but does not wish to take it for credit may audit the course(s). All attendance and work is voluntary. A student may register to audit a course during the registration period upon paying the required fee and
obtaining the instructor’s approval. Audit registrations do not appear on the academic transcript. A change from audit to credit registration or from credit to audit registration must be made during the registration period. See the schedule of classes for complete information on auditing a class.

Change in Major
Degree-seeking students who wish to change their major and/or concentration must complete the appropriate forms available in the Registrar’s Office. Students who change their course of study are subject to any special admission and degree requirements in effect for the new major and/or concentration at the time of the change.

Confidentiality of Records
The Registrar’s Office assumes responsibility for the maintenance and integrity of student records. As an agent for the university and official custodian of student academic records, the office will release nondirectory information only at the student’s request and with his/her approval. For specific information see the university policy on Release of Information Pertaining to Students as required by the Family Educational Rights and Privacy Act of 1974 in the appendix of this catalog.

University Holds
University holds are a means of identifying students with unsatisfied financial or academic obligations to the university. Students with holds may not register until holds are released.

English Proficiency of Instructors
Governors State University has adopted a policy that all instructional staff shall be proficient in oral English. Students who have difficulty understanding an instructor should address their concerns to the chair of the division in which the instructor is teaching. If the division chair finds that the instructor’s oral English proficiency is satisfactory, the chair will so notify the student, who may appeal the finding to the dean of the college in which the division is housed.

Honors
Governors State University recognizes outstanding academic performance of undergraduate degree-seeking students by giving special attention to those students who achieve excellence in their work. At the end of each trimester, degree-seeking students who have completed at least six hours of graded course work without any incomplete grades, with a grade point average of 3.70 or better, will be included on the Dean’s List. Undergraduate students who maintain a cumulative grade point average at Governors State University of 3.80 or better, and complete at least twenty-four graded credit hours in Governors State University course work, are given special recognition upon graduation. The honors categories are:

- GPA of 3.80 to 3.94 Honors
- GPA of 3.95 to 4.00 High Honors

The achievement of “honors” or “high honors” will be designated on the student’s transcript and diploma.

Transcripts
Students may request official transcripts of their records by writing to the Registrar’s Office. Students should allow three working days for processing time from the date the transcript request is received. Students who have an outstanding financial obligation to the university or who have not satisfied certain academic obligations may not receive transcripts until the obligation is met.

Academic Honesty
Students are expected to fulfill academic requirements in an ethical and honest manner. This expectation pertains to the following: use and acknowledgment of the ideas and work of others, submission of work to fulfill course requirements, sharing of work with other students, and appropriate behavior during examinations. These ethical considerations are not intended to discourage people from studying together or from engaging in group projects. The university policy on academic honesty appears in the student handbook.

Academic Standing
Undergraduate students who maintain a minimum cumulative GPA of 2.0, and graduate students who maintain a minimum cumulative GPA of 3.0 are in good academic standing. Students must be in good academic standing to graduate.

Academic Probation/Suspension
If, at the end of a trimester, a student’s cumulative GPA in courses taken at Governors State University falls below the minimum grade point average, the student will be placed on academic probation for the next trimester. If the student enrolls for credit and does not achieve good academic standing within the subsequent two trimesters, the student will be academically suspended for one year from the university. Students who are suspended and plan to enroll will be subject to the provisions of the Policy on Readmissions and Special Admissions (see Admission Information section). Students may appeal the length of the suspension.
Reinstatement Following Academic Suspension

At the end of the suspension period, students dismissed for the first time will be eligible for reinstatement and may reenter the university provided they apply and petition for readmission before established deadlines. Reinstated students reenter the university with the cumulative GPA they had upon dismissal and are placed on extended probation. Students will remain on extended probation each trimester of enrollment as long as they meet the required minimum grade point average each trimester. Upon achieving the minimum cumulative grade point average, they are restored to good standing. Students failing to make satisfactory progress are suspended and may not be reinstated a second time.

Withdrawal from the University

Any student who wishes to withdraw from Governors State University before the end of the trimester who is receiving any form of financial aid or who has any outstanding accounts at the university must meet with a representative of the Financial Aid Office. Unofficial withdrawal from the university may result in a failing grade being assigned.

Academic Amnesty

Academic amnesty allows students to have their grade point averages calculated from the point of readmission for the purpose of establishing academic standing. The request for academic amnesty must be made at the time of application for readmission. The following restrictions apply.

1. Only students who have previously been placed on probation or suspended and have not attended Governors State University for at least three trimesters are eligible.
2. The academic record of courses and grades will not be changed upon readmission with amnesty. The transcript will indicate that academic amnesty has been granted.
3. Students will not be readmitted to the major in which they previously were enrolled.
4. Governors State University course work taken before readmission with amnesty may be applied to the requirements of the new major if approved by the appropriate division chair and dean. Undergraduate students must complete these courses with a grade of "C" or better. Graduate students must complete these courses with a grade of "B" or better. These grades will not be included in the calculations of the grade point average after readmission with amnesty.
5. Undergraduate students readmitted with amnesty must complete a minimum of twenty-four graded credit hours after readmission before graduation in the new major.
6. Graduate students readmitted with amnesty must complete at least one-half of the number of credit hours required for the degree in the new major after readmission before graduation in the new major.
7. Academic amnesty may be granted to a student only once.

Withdrawal from Courses

Students who register for a course but who do not attend classes must officially withdraw from the course to avoid receiving a failing grade. Students may officially withdraw from any or all course(s) through the end of the tenth week of classes for any Block 1 course or through the end of the fifth week in any Block 2 or Block 3 course by calling Governors State University’s touchtone registration system. Specific dates for withdrawal are published in the schedule of classes for each trimester. Students may appeal for exceptions to these deadlines. The appeals must be in writing and received in the Registrar’s Office no later than the last day of the trimester in which the course is scheduled. If the appeal is rejected, the student may appeal to the dean of Student Affairs and Services.

A student receiving any form of financial aid who withdraws from one or more courses must see a representative of the Office of Financial Aid for a review of the award. Withdrawals will appear on the student’s academic record as "W" and will not be included in calculating a student’s cumulative grade point average or academic standing. Withdrawals will be subject to the university’s tuition refund policy, which is stated in this catalog and the schedule of classes.

The registrar may withdraw a student from all courses for written, verified notification of illness, disciplinary reasons, and for other reasons within established university policy. The Registrar’s Office will notify the Student Development Office, Business Office, Financial Aid Office, and faculty member(s) of the withdrawal as appropriate. The appropriate offices will contact the student regarding the withdrawal. Such withdrawals will appear on the student’s academic record as “X” (administrative withdrawal) and with an appropriate message. Administrative withdrawals do not appear on the official transcript.
SPECIAL ACADEMIC PROGRAMS AND OPPORTUNITIES

Center for Extended Learning and Communications Services (CELCS)

The Center for Extended Learning and Communications Services (CELCS) provides a variety of academic services and information technology resources in support of the university's degree programs both on and off campus. In addition, CELCS is a critical facilitating mechanism in support of the university's priorities for diversity, internationalization, and service to the region. CELCS is committed to assisting the colleges in developing, delivering, and supporting programs designed primarily for non-traditional students. The unit develops opportunities and provides mechanisms to expand GSU's student population, making the university's educational programs highly accessible. CELCS also facilitates uses of information technology to make learning more efficient and productive for students. Our goal is to use technology in its best forms to achieve academic excellence.

Board of Governors Bachelor of Arts Degree Program

The BOG B.A. Degree program is designed to enable mature adults with job and family commitments to complete a bachelor's degree. BOG students may receive credit for prior learning towards their degrees from:

- courses taken at other accredited higher education institutions;
- proficiency examinations; and/or
- portfolios that document college-level learning from work and life experience.

BOG students take the remaining courses required for their degrees in the four colleges of Governors State University on campus, at GSU's many off-campus sites in the Chicago area, through telecourses, or at other accredited universities in the region. It is possible, for example, to take most courses for the BOG degree through distance learning technologies.

The BOG/B.A. is a learner-centered degree program that allows students maximum flexibility to select and tailor courses to their individual career goals. BOG students may concentrate their course work in one college, perhaps to obtain the qualifications to enroll in an M.A. degree program. Or they may select a broad, interdisciplinary set of courses for a well-rounded education. (Students who want a degree in a specific field of study should apply directly to the appropriate GSU college rather than to the BOG program.) BOG advisors will advise students as they select the courses that will advance them toward personal and professional goals while fitting into the constraints of their family and work commitments.

Since 1973 nearly 3,000 adults have graduated from GSU through the BOG Program. Many have gone on to graduate degree programs at GSU or elsewhere. Most graduates have advanced in their careers as a direct result of securing a B.A. degree. The average age of a BOG student is 41 years. More than sixty percent are women, many of whom are returning to the workforce after raising children. The BOG/B.A. program is ideal for accomplished mid-career professionals who are encountering barriers to promotion or job mobility because of the lack of a degree. Each trimester nearly 400 BOG students enroll in courses throughout the university, on campus or beyond.

Admissions Requirements to the BOG B.A. Program

Candidates should complete the general GSU application form and submit it to the BOG Office at GSU by the deadline for the trimester they wish to enroll. Most BOG students begin their studies at GSU with at least sixty credit hours. As outlined above, these credits may come from three sources: (1) transfer credits from a regionally accredited institution, (2) proficiency examinations such as the College Level Examination Program (CLEP) conducted at GSU and most community colleges, and (3) the portfolio of prior learning (see below). Students currently enrolled in an associate degree program in a community college and having a minimum of thirty credit hours may be jointly enrolled in the BOG/B.A. program. They may apply up to eighty credit hours of community college credits toward the 120 credits required for the BOG/B.A.

Applicants for admission to the BOG/B.A. program must request that all the colleges and universities they attended send transcripts to the BOG Office at GSU. These transcripts should reflect all course work attempted and completed, including grades. Admission decisions are made on a rolling basis throughout the year. The BOG Office may deny admission to applicants by reason of either poor academic record, lack of significant prior learning, or both.
Prior Learning Assessment

Most adult students at GSU, and especially those enrolled in the BOG/B.A. program, bring to the university a wealth of prior learning which they have acquired outside formal schooling. Portfolios enable BOG students to apply their experiential learning for college credit toward the B.A. degree. Prior learning from life experience, whether through work, in-service training, community service, avocational pursuits, or systematic individual study, may be assessed by a GSU faculty or outside evaluator to be equivalent to what a student learns by completing a college course in that field.

Researching and writing a portfolio is a challenging self-study process. The BOG Office offers seminars, both on and off campus, throughout the year to assist students with writing their portfolios. Print materials and a computer software program provide step-by-step guidance in assembling, analyzing, writing, and documenting one's case for academic credit for prior learning. GSU faculty and/or outside experts evaluate the portfolio and make final decisions on the credit awards.

The BOG Office also works with GSU colleges to evaluate experiential learning for academic credit for students enrolled in other B.A. and M.A. programs offered by the four colleges at GSU. Students seeking Credit through Evaluation of Experiential Learning for any GSU degree program are encouraged to contact their college advisors about doing a CEEL portfolio.

Graduation Requirements for the BOG/B.A. Program

BOG students must meet the following requirements to graduate from GSU:

1. Complete at least 120 total credit hours or their equivalent.
2. At least 40 of these 120 hours must be at the upper-division level. Up to 80 credit hours may be in lower-division courses. Students must have a minimum G.P.A. of 2.0 to graduate.
3. Complete at least fifteen (15) credit hours through GSU. These courses may be taken on the University Park campus, at GSU's off-campus sites, or through GSU's various distance learning media. These fifteen credit hours may also be taken at any of the four other Illinois state universities that participate with GSU in the BOG/B.A. Program: Chicago State University, Eastern Illinois University (Charleston), Northeastern Illinois University (Chicago), and Western Illinois University (Macomb).
4. Satisfy general education requirements, i.e., 12 credit hours in each of the humanities, social sciences, and the natural sciences/math over the course of one's college career.
5. Pass an English writing and a basic mathematics examination.

Most BOG students take one or two courses each trimester. Credit-bearing short courses and workshops at GSU also apply toward the BOG/B.A. While we encourage BOG students to attend courses at the GSU campus, it is also possible to complete all requirements for the BOG Bachelor of Arts degree through distance learning courses. For more information call (708) 534-4092. Our e-mail address is bog@govst.edu; on the Web our address is: http://www.govst.edu/bog. Our fax number is (708) 534-1645.

Weekend Programming

Weekend Programming is designed for students in a number of majors, and is an alternative to weekday classes for students who work full time or who have other commitments during the week that keep them from attending weekday classes. GSU offers a variety of undergraduate and graduate level classes each trimester on Fridays, Saturdays, and Sundays in a rotation that allows students the opportunity to progress towards earning a degree. Weekend Programming offers sequences of courses that enable students to fulfill some of the requirements for bachelor's degrees in Business Administration, Psychology, and the Board of Governors B.A. Degree program. Students may complete course requirements for the minor in Computer Science and Psychology through a combination of weekend and media-based courses. For information about Weekend Programming, consult the trimester schedule of classes, or call (708) 534-3044, or (708) 534-3143.
The Center for Training and Educational Development at Governors State University (TED)

The TED Center specializes in the needs of the adult learner. The TED Center staff collaborates with on- and off-campus clients to deliver a variety of professional development and training programs which can be taken for credit or non-credit. On-site training programs can be delivered through laptop computers, media-based instruction, the interactive classroom, or satellite broadcasts. Services also include conference planning, implementation, and evaluation. Certificate programs can be created to meet specific workplace requirements. For more information call (708) 534-4099.

Extended Learning Programming

Governors State University recognizes that providing service to a diverse clientele over a wide geographic area requires significant levels of off-campus instruction. In support of its outreach efforts, the university offers a selection of degree and professional development courses at approximately twenty-five locations in the Chicago Metropolitan area and Joliet. Sequences of courses from degree programs are offered at a number of off-campus teaching sites, including undergraduate Business & Technology at the College of DuPage, Moraine Valley Community College and Triton College; Criminal Justice courses at Triton College and the Cook County Sheriff's Administration Building in Chicago; and the Board of Governors B.A. degree program at Richard J. Daley College and the James R. Thompson Center. Sequences of courses at the master's degree level include Public Administration at Parkland College in Champaign and the James R. Thompson Center in Chicago; the master's in Political and Justice Studies at the Cook County Sheriff's Administration Building; and the Addictions Studies sequence from the Master's in Health Science (M.H.S.) at the Thompson Center.

For additional information about these and other regularly scheduled courses offered in the region, call the office of Extended Learning at (708) 534-4582.

Media-Based Instruction

Governors State University provides alternative access to university programs in all of the colleges through independent study by correspondence courses and through television courses. These mediated courses provide instruction for the place-bound student and convenience for the on-campus student. Television course videotapes can be obtained through the University Library and other library sites. Some course videotapes are available from Follett's GSU Bookstore. Further information about these courses may be obtained by contacting Media-Based Instruction at (708) 534-4088 or 4089. Mediated courses are designated with either a ☒ for correspondence courses or a ☐ for telecourses in the Course Description section of this catalog.

Interactive Electronic Classroom Courses

The South Metropolitan Regional Higher Education Consortium composed of Governors State University (GSU), the College of St. Francis, Joliet Junior College (JJC), Moraine Valley Community College (MVCC), Prairie State College (PSC), Kankakee Community College (KCC), South Suburban College (SSC), Lewis University, Olivet Nazarene University, and St. Xavier University are bringing courses and programs to each campus via a live, interactive telecommunications television relay system. This system uses the technology of live color television via compressed video. All students are able to see the instructor and interact with both their fellow students and the instructor at all times. Discussions, assignments, and other activities take place the same as in any other college classroom.

Each consortium institution can serve as either a sending or a receiving institution. Because of this arrangement, we are able to receive lower-division courses from the community colleges in the consortium, providing GSU students with courses that serve to fulfill general education or prerequisite requirements. Information about courses sent by GSU, or received by GSU from other institutions, is listed in the GSU schedule of classes each trimester. Because consortium colleges have some variations in their academic calendars, start dates for each class may vary. The name and telephone number(s) of the registration contact(s) at the other sending institutions are included with the course information. Students registering for GSU's interactive courses should follow the regular registration procedures. To learn more about the interactive electronic classes call (708) 534-3143. All interactive sections held at GSU meet in Room B2215 or A2150 as assigned.
TEACHER CERTIFICATION

The following information is intended to serve as a general guide for students wishing to qualify for an Illinois teaching certificate. More detailed information is available from the education advisors, located on the third floor in the Office of the Division of Education.

Governors State University has been approved by the Illinois State Board of Education (ISBE) to offer programs of study leading to the corresponding certificate (or endorsement) as follows:

<table>

**Requirements for Certification through Approved Programs**

To be recommended by Governors State University for any of the above certificates (or endorsements), an applicant must:

1. have earned the required degree from an institution recognized by the ISBE for teacher education;
2. have acquired requisite experience for the Administrative Certificate;
3. have completed a Governors State University state-approved program leading to the desired certificate (or endorsement);
4. have passed the university examinations in writing and basic mathematics for Early Childhood, Elementary, or High School Certificate;
5. be at least 19 years of age;
6. be in good health;
7. possess good character.
Applicants for certificates or endorsements based on approved programs must seek and receive the recommendation of the university within one calendar year of completing an approved program and must meet any applicable requirements established by Illinois statute or rules and regulations during this one-year period.

Individuals applying for any of these certificates or endorsements must successfully pass examinations required by the Illinois State Board of Education to receive the certificate or endorsement.

**General Education Requirements**

Course work for meeting general education requirements must be college-level work and may not include remedial courses even if college credit is granted. Generally, this course work must be at the 100-level or higher and applicable toward a degree at the institution providing the instruction. Courses with grades below "C" will not be applied toward the general education requirements even if such course(s) were used for prior degree(s).

Students must have a GPA of 2.75 or higher in general education courses taken at Governors State University.

Students seeking the Elementary Education Certificate or the Early Childhood Certificate must complete the general education requirements of the B.A. in Elementary Education or the B.A. in Early Childhood Education in this catalog.

Students seeking the M.A. in Early Childhood Education must complete the following general education requirements, including at least one three-hour course in non-Western or third world cultures:

```

```

**Professional Education Requirements**

Students who are seeking the early childhood, elementary, standard high school, or standard special certificate endorsed in educable mentally handicapped, learning disabilities, and social/emotional disorders must complete all professional education requirements, except EDUC499, with a GPA of 3.0 or higher, completing all courses with a grade of "C" or better. These requirements include 100 hours of field experience.

Students seeking the Early Childhood Certificate or the Elementary Education Certificate must complete the professional education requirements listed under the description of degree requirements of the B.A. in Elementary Education or Early Childhood Education in this catalog.

Students seeking a Standard High School Certificate, valid for grades 6 through 12, must complete the following professional education requirements:

```
<table>
<thead>
<tr>
<th>Credit Hours</th>

**Admission to Student Teaching**

Students must apply for admission to student teaching before enrolling in EDUC499, Student Teaching. An application for admission to student teaching must be submitted to the coordinator of field experiences in the Division of Education. The application must be submitted by March 1 for the fall trimester or by June 1 for the winter trimester (student teaching is not offered in the spring/summer trimester). This application for student teaching will certify that the student applying has or will have met the following requirements:

1. Completed at least 42 hours of general education requirements with a GPA of 2.75 or higher in courses taken at Governors State University.
2. Completed professional education course requirements, except EDUC499, including 100 hours of field experience with a GPA of 3.0 or higher, completing all courses with a grade of "C" or better.
3. Have no more than six hours remaining to be completed in the major in which he/she is enrolled.
4. Met all state qualifications applicable to areas of student teaching assignments as outlined in the "Illinois Program for Evaluation, Supervision, and Recognition of Schools, Part I, Subpart G: Staff Qualifications."
BACHELOR'S DEGREE REQUIREMENTS

The goal of undergraduate programs is to encourage the development of the individual's values and talents which may be employed in solving the problems of a complex society. Special emphasis is directed to the development of the student's capacity for independent judgment and creative thought. Undergraduate study combines both theory and practice to educate students and to prepare them for the world of work.

Governors State University is a senior-level university offering transfer students from community colleges, as well as those from four-year institutions, the opportunity to further their education. The fundamental charge of undergraduate study at Governors State University is to extend the educational opportunities for students who have completed the equivalent of two or more years of college work. Baccalaureate degree programs build on this foundation and offer an integrated two years of study to fulfill degree requirements. Degree candidates should approach their academic careers with a sense of what they have already accomplished as well as that which remains to be achieved.

Undergraduate Student Status

Undergraduate degree-seeking students are those students admitted to an undergraduate degree program.

Articulation Agreements

To minimize transfer problems for students, Governors State University and area community colleges have developed articulation agreements that help students plan four-year degree programs beginning at the community college and finishing at Governors State University. These agreements assure smooth transition from lower-division study to upper-division study and completion of a bachelor's degree.

Student Study Plan

Student study plans are developed with advisors before the end of the first trimester of enrollment. The advisor will explain the degree program and, with the student, develop a study plan that will lead to degree completion of the selected major. The student study plan will detail the degree requirements for the major selected in effect at the time of admission as a degree-seeking student. It will specify the amount of transfer credit, proficiency credit, and credit for experiential learning applied toward the degree requirements; the total credit hour requirement for the degree; required and elective courses; and the maximum number of credit hours and/or courses that can be taken off campus and applied toward the degree.

Students are encouraged to contact faculty members in specific discipline areas in which they have interests for additional academic advisement.

The study plan must be reviewed and updated whenever a student:

1. applies for acceptance of transfer credit earned from another institution after enrollment at Governors State University;
2. wishes to substitute course work specified on the plan;
3. changes majors; or
4. is readmitted.

Students choosing to take courses not specified in their study plan may find that such credit may not apply toward the degree requirements.

Orientation

Research, combined with the experience of numerous colleges and universities, makes a convincing case that a thorough orientation for students of all ages leads to a greater probability of their success and ultimate graduation. Therefore, all undergraduate students are encouraged to attend an orientation program before registering for classes. Notification of the orientation schedule will be sent to students with their admission material. Academic advising as a part of the orientation program is required before a student may register.
Undergraduate Degree Programs Offered

Each undergraduate degree program includes a major, and in some cases, a concentration, teaching sequence, or minor.

**Student Responsibility**

Students are responsible for knowledge of, and adherence to, all university requirements and regulations. Students are also responsible for knowing the degree requirements for their major and enrolling in courses that meet those degree requirements. Students are strongly encouraged to seek information and assistance from appropriate staff should they have any questions regarding requirements or regulations.

**General Requirements**

The following general requirements for the bachelor's degree are minimum standards established by the university. Colleges and individual majors determine additional, more specific requirements that will be incorporated into an approved student study plan. To graduate with a bachelor's degree, an undergraduate student must meet the following minimum university degree requirements:

1. Complete a minimum of 120 credit hours.
2. Satisfy the university writing and basic mathematics proficiency examination requirements.
3. Complete a minimum of 45 upper-division credit hours, which may include upper-division transfer credit.
4. Satisfy the university general education requirements.
5. Apply to degree requirements no more than 12 credit hours earned as an undeclared student.
6. Apply to degree requirement no more than 12 credit hours earned in the pass/no credit grading option.
7. Apply to degree requirements no more than nine credit hours earned in independent studies.
8. Be in academic good standing.
9. Satisfy the residency requirements.
10. Demonstrate that all degree requirements as defined in the approved student study plan have been met.
11. Remove all grades of incomplete (I or E) by the graduation processing date.
12. Meet all financial obligations to the university.
13. Complete the collegial and university procedures that cover implementation of the above requirements.

**Transfer Credit for Undergraduate Students**

The following requirements apply to courses being transferred from colleges and universities accredited by the North Central Association or other regional accrediting agencies. Students seeking to apply transfer credit from non-accredited institutions toward degree requirements must petition the dean of the college in which the major is offered. Transfer credits that are accepted toward degree requirements will be entered in the student study plan.

**Transfer of Prior Credits.** Credits earned in courses at other universities or earned as an undeclared student at Governors State University will be accepted in accordance with the following rules:

1. Up to 75 semester hours of lower-division transfer credit may be applied toward degree requirements.
2. Ordinarily only credits earned with a grade of "C" or better or "P" (pass) will be considered for transfer credit at the lower-division level. Credits with grades of "D" may be considered for transfer if the cumulative grade point average for transfer credit is at least 2.00 (on a 4.00 scale) or if the credit was accepted for the associate's degree.
3. Only credits earned with a grade of "C" or better or "P" (pass) will be considered upper-division transfer credit or satisfactory completion of course prerequisite or corequisite.
4. No more than twelve credit hours earned as an undeclared student may be applied toward degree requirements.
5. Only credits earned with a grade of "C" or better or "P" (pass) may be applied to meet university general education requirements.
6. Transfer credits are applied toward specific degree requirements on a course-by-course basis by the academic advisor.
7. Some individual degree programs have limited the time period within which transfer course credit must have been earned in order to be applied toward degree requirements.

Transfer credit should be reviewed before admission to Governors State University to avoid duplication of course work. The review of transfer credit must be completed no later than the end of the first trimester of enrollment as a degree-seeking student.
Transfer Credit Earned After Admission. Credits earned in courses taken at another institution after admission to a degree program will only be accepted if permission to apply such credit toward degree requirements was obtained from the student's academic advisor and the dean before taking course work at the other institution. Only courses with grades of "C" or better will be applied toward degree requirements.

University General Education Requirement

The university currently is reviewing its general education requirement in order to ensure that graduates of Governors State University have a broad foundation in the liberal arts and sciences. Until the review is complete, the following general education requirement will be in effect.

All undergraduate degree-seeking students are required to meet the university general education requirement before graduation.

Students may fulfill this requirement in any one of three ways:

1. Transfer to Governors State University having earned an A.A. or A.S. degree from a regionally-accredited Illinois community college.
2. Complete an approved undergraduate teacher education program at Governors State University.
3. Complete the following course requirements, with a grade of "C" or better in each course, either by presenting acceptable transfer courses or completing specific courses at Governors State University.

Communication: 3 courses (9 semester credits*), including a two-course sequence in writing (6 semester credits) and one course (3 semester credits) in oral communication

Mathematics: 1 to 2 courses (3 to 6 semester credits)

Physical and Life Sciences: 2 courses (7 to 8 semester credits), with one course selected from the life sciences and one course from the physical sciences, including at least one laboratory course

Humanities and Fine Arts: 3 courses (9 semester credits), with at least one course selected from humanities and at least one course from the fine arts

Social and Behavioral Sciences: 3 courses (9 semester credits), with courses selected from at least two disciplines

TOTAL: 12 to 13 courses (37 to 41 semester credits)

*For colleges and universities on the quarter calendar system, 3 quarter credits equal 2 semester credits.

Information on specific courses that may be applied to the general education course requirements may be obtained from the Admissions Office or from academic advisors.

Academic Standing

Undergraduate students who maintain a minimum cumulative grade point average of 2.0 are in good standing.

Writing Across the Curriculum Requirement

Governors State University recognizes that today's successful graduates must be excellent communicators. To ensure that GSU graduates meet this standard of excellence, the university is developing a program that emphasizes written and oral communication in a variety of degree areas. Known as Writing Across the Curriculum, or WAC, the program allows faculty and students to use writing as a vehicle for learning. Pilot courses currently are offered in the College of Arts and Sciences and the College of Health Professions. These courses are designated as "writing-intensive" because they help students master the language conventions used by members of given fields. Such mastery is a key factor not only in academic success but also in professional success after graduation.

Program advisors can provide information on which courses have been identified as writing-intensive.

Residency Requirements

All undergraduate degree-seeking students, except students enrolled in the Board of Governors Degree Program, are required to earn a minimum of 24 credit hours of course work from Governors State University before being awarded the bachelor's degree.

University Minors

Various academic divisions within the university offer minors available to degree-seeking students who wish to pursue organized course work in addition to their major field of study. The requirements for each minor are listed elsewhere in this catalog.

To earn a minor, a student must do the following:

1. meet all university and collegial requirements for the baccalaureate degree;
2. complete the specific course requirements for the minor as described in the catalog and detailed in a study plan approved by a faculty advisor in the minor discipline. Credit hours can count toward both a major and a minor, provided they are accepted on both study plans;
3. earn at least one-half of the required credit hours from Governors State University. Transfer courses should be submitted to the minor advisor for approval by the first week of the trimester in which graduation is intended;
4. satisfy all applicable collegial requirements, including minimum grade requirements for courses applied to the minor;
5. complete and apply for the minor at the time of degree completion by submitting an approved student study plan for each minor with the application for graduation.

Second Bachelor’s Degree
A student who has earned one bachelor’s degree at Governors State University or another accredited institution may earn a subsequent bachelor’s degree at Governors State University, provided that all specified requirements for both degrees are fully met. The Board of Governors B.A. Degree may not be awarded to a student who already holds a bachelor’s degree. A student who wishes to earn a second bachelor’s degree at Governors State University must:
1. Apply and be admitted to the undergraduate degree program. Students seeking to earn the degrees concurrently must make arrangements with the appropriate deans.
2. Meet university, college, and major degree requirements for the second degree.
3. Complete all requirements of the subsequent degree program as stipulated in the student study plan as well as general requirements for the bachelor’s degree; and
4. Meet the requirements of the university residency policy for the subsequent degree by taking a minimum of twenty-four hours at Governors State University. Hours applied toward the first degree may not be included in the hours required to meet residency requirements.

Application for Graduation
Students should apply for review of their degree requirements within the first month of the last trimester before graduation. Students should complete both an Application for Graduation form and a Student Progress Report form, available in the Registrar’s Office. Upon completion of these forms, students should arrange to meet with their assigned academic advisors to review the student study plan and verify expected completion of degree requirements. Students should have no more than sixteen credit hours outstanding toward degree requirements, either as incomplete work or as current enrollment at the time of application. The application is approved by the advisor, division chair, and dean. A $20 fee is billed to the student, covering the cost of application processing, diploma, cap and gown, and commencement.

Commencement
Commencement is held once a year in early June. Participation is optional. Students who have graduated in August or December of the previous year or April of the current year may participate in commencement. Participation in commencement is limited to students who have been certified by the registrar as having completed all requirements for the degree.

Diplomas
Diplomas are awarded only upon verification of completion of all degree requirements and satisfaction of all financial obligations to the university. Diplomas are inscribed with the type of degree, the date, and the student name on record at the time the degree was conferred.
MASTER'S DEGREE REQUIREMENTS

Graduate education is the pursuit of knowledge at an advanced level. Graduate education is distinct and different from undergraduate education both in kind and in degree. It demands of students greater intellectual maturity and autonomy, a deeper responsibility for their own learning, more intense study, and the mastery of different and more complex skills. An earned graduate degree is a distinction. Award of the degree symbolizes both the student's accomplishment and the university's endorsement. A student may judge his or her own achievement, but the university must decide what it will or will not endorse. Specifically, graduate education imposes certain obligations, and a student receiving a master's degree must have demonstrated the following:

1. an in-depth knowledge of significant theories, issues and findings, and mastery of appropriate skills within a specific discipline;
2. the ability to apply such knowledge and skills;
3. the ability to read, interpret, and evaluate research literature and to relate results to selected areas of interest;
4. the ability to analyze problems and to critique attempted solutions, especially within the student's own discipline;
5. the ability to integrate knowledge from a variety of disciplines;
6. the ability to design and implement a research, scholarly, or creative project; and
7. the ability to communicate scholarly thought to professional colleagues through writing and discussion.

Student Study Plan

Student study plans are developed with advisors before the first trimester of enrollment. The advisor will explain the degree program and, with the student, develop a study plan that will lead to degree completion of the selected major. The student study plan will detail the degree requirements for the major selected in effect at the time of admission as a degree-seeking student. It will specify the amount of transfer credit, proficiency credit, and credit for experiential learning applied toward the degree requirements; the total credit hour requirement for the degree; required and elective courses; and the maximum number of credit hours and/or courses that can be taken off campus and applied toward the degree.

Students must have an approved study plan, signed by their advisor, to register. Students are encouraged to contact faculty members in specific discipline areas in which they have interests for additional academic advisement.

The study plan must be reviewed and updated whenever a student:

1. applies for acceptance of transfer credit earned from another institution after enrollment at Governors State University;
2. wishes to substitute course work specified on the plan;
3. changes a major; or
4. is readmitted.

Students choosing to take a course not specified in their study plan may find that such credit may not apply toward the degree requirements.

Graduate Student Status

There are two categories of graduate degree-seeking students.

Graduate degree-seeking students are those students admitted to a graduate degree program.

Master's degree candidates are those degree-seeking students who have applied for and been admitted to candidacy.

### Student Responsibility

Students are responsible for knowledge of, and adherence to, all university requirements and regulations. Students are also responsible for knowing the degree requirements for their major and enrolling in courses that meet those degree requirements. Students are strongly encouraged to seek information and assistance from appropriate staff should they have any questions regarding requirements or regulations.

### Master’s Degree Candidacy

A graduate degree-seeking student is granted master’s degree candidacy status when the student:

1. has an approved graduate study plan;
2. is in academic good standing;
3. completes the candidacy requirements specified by the major; and
4. receives approval of an application for admission to candidacy.

### General Requirements

The following general requirements for the master’s degree are minimum standards established by the university. Colleges and individual majors determine additional, more specific requirements that will be incorporated into an approved student study plan.

To graduate with a master’s degree, a graduate student must meet the following minimum university degree requirements:

1. Complete the number of credit hours specified by program requirements (minimum 32) by taking graduate-level courses of which at least two credit hours are designated as a master’s final project.
2. Complete a minimum of 12 graded credit hours in graduate-only courses (numbered 800-999).
3. Complete all course work for the degree requirements with a grade of “C” or better.
4. Be admitted to master’s degree candidacy at least one trimester before the trimester in which the degree is to be awarded.
5. Complete a master’s final project which can include a thesis, project, practicum/internship, or in some other way demonstrate an integration of graduate work that is accepted by a committee of three approved faculty.
6. Complete all course work for the degree, except the final project, within four years of admission to candidacy. The final project must be completed within five years of admission to candidacy.

7. Complete no more than 17 credit hours from the same faculty member, including credit hours related to the master's final project.

8. Apply to degree requirements no more than eight graduate credit hours awarded for experiential learning through the established procedures.

9. Apply to degree requirements no more than six graduate credit hours earned as an undeclared student.

10. Apply to degree requirements no more than six credit hours earned in independent studies.

11. Be in academic good standing.

12. Satisfy the residency requirement.

13. Demonstrate that all degree requirements have been met as stipulated in the approved study plan.

14. Remove all grades of incomplete (I or E) by the graduation processing date.

15. Meet all financial obligations to the university.

16. Complete the collegial and university procedures that cover implementation of the above requirements.

**Master's Final Project**

A master's degree candidate prepares a thesis or project, does a practicum/internship, or in some other way demonstrates an integration of work that is accepted by a committee of three approved faculty.

The master's final project may differ in each major; however, a student is required to do one or more of the following:

1. **Master's Thesis**—The master's thesis presents evidence of a thorough review and understanding of the literature germane to the subject; the ability to do independent research; and the preparation of a manuscript which conforms to generally recognized standards of scientific and scholarly writing in the discipline.

2. **The Master’s Project**—The master's project is a sustained work that intellectually supports the degree program but which may not be, in its entirety, a written document or an internship (for example, creative project in the fine arts). It provides evidence of the ability and effort to carry out a major application of theory or advanced methods relative to the master's level work in the profession or discipline.

3. **The Graduate Practicum/Internship**—The graduate practicum/internship provides an opportunity for the student to evaluate the relevance of theoretical and academic perspectives in the professional field.

4. **Additional Study**—One or more graduate-only (numbered 800-999) courses may be designated as a master's final project alternative.

5. **Comprehensive Examination**—A comprehensive examination in combination with one or more of the above alternatives may be designated as a master's final project alternative.

**Transfer Credit for Graduate Students**

The following requirements apply to courses being transferred from colleges and universities accredited by the North Central Association. The College of Business and Public Administration and some individual degree programs have more restrictive limits on the amount of transfer credit accepted and the time period within which transfer credit must have been earned to be applied toward degree requirements.

**Transfer of Prior Credits.** Credit earned in courses taken before enrollment as a degree-seeking student at Governors State University or earned as an undeclared student at Governors State University will be accepted in accordance with the following rules. Transfer credits that are accepted toward degree requirements will be entered in the student study plan:

1. The number of transfer hours accepted shall not exceed 25 percent of the total hours required in the major.

2. Only credits earned with a grade of “B” or better or “P” (pass) will be considered for transfer credit.

3. Transfer credits earned ten or more years before the student's admission to a degree program at Governors State University will not be accepted toward the degree requirements unless approved by the appropriate academic dean.

4. No more than six credit hours earned as a graduate undeclared student may be applied toward degree requirements.

5. No more than nine credit hours earned as graduate credit beyond the bachelor's degree requirements, earned as an undergraduate degree-seeking student at Governors State University may be applied toward graduate degree requirements.

6. Transfer credits are applied toward specific degree requirements on a course-by-course basis by the academic advisor.

Transfer credit should be reviewed before admission to Governors State University to avoid duplication of course work. The review of transfer credit must be completed no later than the end of the first trimester of enrollment as a degree-seeking student.
Transfer Credits Earned After Admission. Credits earned in courses taken at another institution after admission to a degree program will only be accepted if permission to apply such credit toward degree requirements was obtained from the student’s academic advisor and the dean before taking course work at the other institution. Only courses with grades of “B” or better will be applied toward degree requirements.

Academic Standing
Graduate students who maintain a minimum cumulative grade point average of 3.0 are in good standing.

Residency Requirements
All graduate degree-seeking students are required to earn a minimum of twenty-four credit hours of course work from Governors State University before the award of the master’s degree.

Requirements for a Second Master’s Degree
A student who has earned a master’s degree at Governors State University or another institution may earn a second master’s degree at the university, provided that all specified requirements for both degrees are fully met. A student who wishes to earn a second master’s degree must:

1. Apply and be admitted to the graduate degree program.
2. Meet university, college, and/or major degree requirements for the subsequent degree.
3. Complete all requirements of the subsequent degree program as stipulated in the student study plan; and
4. Meet the requirements of the university’s residency policy for the subsequent degree by taking a minimum of twenty-four hours at Governors State University. Hours applied toward the first degree may not be included in hours required to meet residency requirements.

Application for Graduation
Students should apply for review of their degree requirements within the first month of the last trimester before graduation. Students should complete an Application for Graduation form and a Student Progress Report form, available in the Registrar’s Office. Upon completion of these forms, students should arrange to meet with their assigned academic advisor to review the student study plan and verify expected completion of degree requirements. Students should have no more than sixteen credit hours outstanding toward degree requirements, either as incomplete work or as current enrollment at the time of application. The application is approved by the advisor, division chair, and dean and should be forwarded to the Registrar’s Office two months before the end of the last trimester of enrollment. A $25 fee is billed to the student, covering the cost of application processing, diploma, cap and gown, and commencement.

Commencement
Commencement is held once a year in early June. Participation is optional. Students who have graduated in August or December of the previous year or April of the current year may participate in commencement. Participation in commencement is limited to students who have been certified by the registrar as having completed all requirements for the degree.

Diplomas
Diplomas are awarded only upon verification of completion of all degree requirements and satisfaction of all financial obligations to the university. Diplomas are inscribed with the type of degree, the date, and the student name on record at the time the degree was conferred.
The College of Arts and Sciences provides educational opportunities founded upon the traditions of the liberal arts and evolving within the learning opportunities they afford. In addition to providing the background necessary for entry into a variety of careers, the undergraduate degree programs offered by the college develop critical thinking and problem solving abilities while assisting students in discovering new knowledge and forms of knowledge, preparing for the future, and opening avenues for the continued learning required by today’s workplace.

The curriculum of each program within CAS is structured to provide students with the opportunity to perceive themselves within the historical, cultural, scientific, technological, international, and intellectual experience of humanity. They are assisted in this endeavor by faculty who have distinguished records as teachers and scholars and who understand the needs of students within a rapidly changing world of information and resources.

In natural, physical, and computer sciences students develop a solid conceptual background and develop the skills and techniques required to apply scientific concepts to the solution of problems in areas as diverse and interconnected as environmental protection, resource utilization, and industrial development. The social sciences allow students meaningful engagement with the concerns of individuals and groups living together in the modern world, while the humanities and fine arts focus on human values and perspectives as expressed in intellectual and artistic works. Communication and media courses provide learning experiences that range from interpersonal communication to the communications technology revolution and its implementation in the workplace.

Technology is rapidly changing the workplace, requiring that students in all majors learn and use information and other technologies and develop intercultural skills. CAS students have the opportunity of learning in extensive facilities on campus and at the university’s satellite sites. The well equipped facilities include computer, biology, chemistry, and electronic imaging laboratories; language training laboratories; film and television studios with sophisticated production and editing equipment; photography facilities; and art studios and galleries.

CAS sponsors educational events and provides extracurricular activities for students and residents of the region. The calendar of events includes concerts, art exhibits, workshops, and symposia on a wide range of subjects related to social, natural, and physical sciences.

Throughout the year, the intellectual life of the university community is enriched by the Distinguished Scholar-Statesman-Artist-Scientist Lecture Series, the Third World Conference, and Media Symposia series. The college also offers a series of courses in the Arts and Sciences Practicing Professional Series. This series is designed to enhance the knowledge and skills of people employed in fields related to the degree programs in the college.

The college is committed to creative exploration of important issues and developments, addressing diverse topics—such as language and culture, global studies, the environment, energy, new communications/information technologies; and national and local informational infrastructures—and discovering the interconnections. Through sponsored activities and the individual actions of students and faculty, the College of Arts and Sciences will continue to play a leadership role in the university’s process of addressing the concerns of our time—their identification, their investigation, and their ultimate solutions.

DEGREE REQUIREMENTS FOR UNDERGRADUATE PROGRAMS

The university degree requirements for undergraduate programs are listed in the Bachelor's Degree Requirements section of this catalog.

Bachelor of Arts in Art

The undergraduate major in Art offers a wide range of courses. Studio courses in painting, drawing, design, printmaking, photography, digital imaging, and sculpture enable students to become mature artists in command of diverse materials and capable of expressing an individual view. Capacity for heightened perception and imagination is combined with an awareness of visual elements, principles of design, artistic statement, and criticism. Classes in art history treat art objects as historical documents related in subject, style, technique, and material to other works of art and interpret their context and purpose. Courses range from contemporary international and regional artistic expressions to those of ancient America, Africa, and Asia. Individualized instruction and advisement are offered by dedicated faculty who view themselves not only as teachers, but as producing and exhibiting artists, and publishing scholars. This undergraduate major enables students to become practicing artists and gives them the broad intellectual
background sought by professional schools, cultural institutions, and the business community. With the expanding use of the arts in contemporary life and the heightened visual awareness of our society, the employment outlook for Art majors continues to be promising.

Special Admissions Requirements
In addition to meeting university admissions criteria, students must submit examples of previous works, such as drawings, prints, photographs, research papers, paintings, or sculptures which will be reviewed during an admissions interview.

Degree Requirements
Students must meet all university and program requirements for a bachelor's degree.

I. General Education Requirement
   See front of catalog for General Education Requirements.

II. Recommended Lower-Division Preparation (18 Hours)
The following courses should be taken at the lower-division level:
   - Art History
     9 Hours in Art History
     9 Hours in related fields: history, literature, anthropology, philosophy, and art
   - Art Studio
     6 Hours Drawing
     3 Hours 2-D Design
     3 Hours 3-D Design
     6 Hours in Art History
   - Photography
     6 Hours Photography
     3 Hours 2-D Design
     6 Hours Drawing
     3 Hours Art History

*60 total transfer hours.
Art courses up to 75 hours may be transferred based on portfolio review only.

III. Upper-Division Art Requirements (18 Hours)
The following courses must be taken at the upper-division level:
   - ART 304 Drawing: Studio .......................... 3
   - ART 305 Drawing: Life Study ....................... 3
   - ART 325 Advanced Problems in Design ............ 3
   - ART 360 Art Seminar: Concepts and Methods ...... 3
   - ART 515 20th Century Art: Europe & Americas .... 3
   - ART 501 Drawing: Life Study ....................... 3
   - ART 435 Photographic Imaging Methods ............ 3
   - ART 490 Senior Project ............................. 3

IV. Upper-Division Non-Western Art Selective (3 Hours)

Select one of the following:
   - ART 521 Art & Cultures of the South Pacific (3)
   - ART 523 Pre-Columbian Art & Cultures (3)
   - ART 525 Native American Art & Societies (3)
   - ART 527 African Art & Cultures (3)
   - ART 530 Asian Art & Thought (3)

V. Upper-Division Western Art Selective (3 Hours)
Select one of the following:
   - ART 514 American Art... (3)
   - ART 516 Great Artists (3)
   - ART 518 Women Artists: Europe & the Americas (3)
   - ART 520 Art in Context (3)
   - PHOT 500 History of Photography (3)

VI. Upper-Division Art Selectives (12 Hours)
In consultation with advisor, select twelve hours from among one or more of the following areas:
   - Art History
   - Digital Imaging
   - Painting/Drawing
   - Printmaking
   - Photography
   - Sculpture

VII. Electives (63 Hours), up to fifteen hours of art, humanities, education, or similar liberal arts lower-division credits may apply at discretion of advisor. May include credit hours needed to meet General Education Requirements.

VIII. Total - 120 Hours

Bachelor of Science in Biology

The curriculum for the undergraduate major in Biology provides a strong background in the basic concepts of molecular, organismic, and population biology. In addition, laboratory courses provide the training needed for highly developed laboratory skills. Graduates are qualified for a wide range of entry level positions as biologists in areas such as pharmaceutics, genetic engineering, education, microbiology, and the environment. Students also are prepared for advancement to medical, dental, and veterinary studies, or for graduate level work in biology, including the master's program in Environmental Biology at GSU.

Degree Requirements
Students must meet all university requirements for a bachelor's degree.

In addition, only grades of "C" or better will be accepted for transfer for the following courses normally taken at the lower-division level: eight hours of general biology with laboratory, three hours of botany with laboratory, three hours of zoology with laboratory, eight hours of general chemistry with laboratory, eight hours of organic chemistry with laboratory, and college algebra.
I. General Education Requirement
See front of catalog for General Education Requirements.

II. Required Courses (72 Hours)
The following courses must be taken at the
lower-division level:
- General Biology with Laboratory ............. 8
- General Chemistry with Laboratory .......... 8

The following courses can be taken at either the
lower-division or upper-division level:
- Botany with Laboratory ............................ 3
- Zoology with Laboratory .......................... 3
- Organic Chemistry with Laboratory .......... 8
- BIOL 360 Comparative Anatomy .............................. 3
- BIOL 361 Comparative Anatomy Laboratory ............ 1
- BIOL 430 Microbiology ............................................. 2
- BIOL 431 Microbiology Laboratory ................. 2
- MATH 355 Applied Calculus ......................... 3
- PHYS 352 Intermediate Physics I ................. 3
- PHYS 353 Intermediate Physics I Laboratory ........ 1
- PHYS 362 Intermediate Physics II ................. 3
- PHYS 363 Intermediate Physics II Laboratory ..... 1

The following courses must be taken at the
upper-division level:
- BIOL 322 Ecology ........................................ 2
- BIOL 323 Ecology Laboratory ....................... 1
- BIOL 340 Genetics .............................................. 3
- BIOL 370 Cell Biology ....................................... 1
- BIOL 371 Cell Biology Laboratory .................... 2
- BIOL 450 Animal Physiology ........................... 3
- BIOL 451 Animal Physiology Laboratory ............. 1
- BIOL 455 Behavioral Ecology ........................... 3
- BIOL 460 Plant Physiology Lecture ................. 3
- BIOL 461 Plant Physiology Laboratory ............... 1
- STAT 520 Statistical Methods ........................ 3

III. Computer Science Selective (3 Hours)
Select one of the following which may be taken at
either the lower-division or upper-division level:
- CPSC 305 Introduction to Computer Technology (3)
- CPSC 320 Computer Programming: BASIC (3)
- CPSC 330 Computer Programming: FORTRAN (3)
- CPSC 340 Computer Programming: Pascal (3)

IV. Upper-Division Applications Selectives (9 Hours)
Select nine hours from the following courses:
- BIOL 510 Biological Literature (1)
- BIOL 522 Ornithology (1)
- BIOL 523 Ornithology Laboratory (2)
- BIOL 555 Mammalogy (2)
- BIOL 556 Mammalogy Laboratory (1)
- BIOL 560 Plant Systematics (2)
- BIOL 561 Plant Systematics Laboratory (1)
- BIOL 570 Immunology (3)
- CHEM 315 Analytical Chemistry (3)
- CHEM 316 Analytical Chemistry Laboratory (2)

Other science courses as approved by the
academic advisor.

V. Electives (36 Hours)
May include credit hours needed to meet General
Education Requirements.

VI. Total - 120 Hours

Biology Minor

An undergraduate minor in Biology is offered for
students who wish to supplement a major in another
discipline with significant preparation in biology. The
minor will generally enhance prospects for employment
in education, industry, or the health professions, and for
admission to graduate or professional school.

General Requirements
Students must meet all university requirements for a
minor. In addition, students must:
1. complete at least one course at the upper-division
level;
2. submit transfer courses potentially applicable to the
minor to the biology advisor during the first week of
the trimester of intended graduation.

I. Required Courses (14 Hours)
The following courses must be taken at the
lower-division level:
- General Biology I & II with Labs ............. 8

The following courses can be taken at either the
lower-division or upper-division level:
- BIOL 316 Plant Diversity ................................. 2
- BIOL 317 Plant Diversity Laboratory ............... 1
- BIOL 320 Animal Diversity ............................... 2
- BIOL 321 Animal Diversity Laboratory ............... 1

II. Selective (6 Hours or more)
Select at least 6 hours from Category A and/or Category B

Category A
- BIOL 322 Ecology (2)
- BIOL 323 Ecology Laboratory (1)
- BIOL 360 Comparative Anatomy (3)
- BIOL 361 Comparative Anatomy Laboratory (1)
- BIOL 455 Behavioral Ecology (3)

Category B
(These courses also require a minimum background
of four hours of general chemistry and four hours
of organic chemistry.)
- BIOL 340 Genetics (3)
- BIOL 370 Cell Biology (1)
- BIOL 371 Cell Biology Laboratory (2)
- BIOL 430 Microbiology (2)
- BIOL 431 Microbiology Laboratory (2)
- BIOL 444 Human Physiology I (2)
- BIOL 445 Human Physiology I Laboratory (1)
- BIOL 446 Human Physiology II (2)
- BIOL 447 Human Physiology II Laboratory (1)

Other upper-division level biology courses may
be accepted in these categories at the discretion
of the advisor for the minor.

III. Total - 20 Hours
Bachelor of Science in Biology with a Teacher Education Sequence

The curriculum for the undergraduate major in Biology with a teacher education sequence provides a strong background in the basic concepts of molecular, organismic, and population biology for the student who is interested in a career in science teaching at the secondary level.

Teacher Certification

This program is approved by the Illinois State Board of Education and leads to the Standard High School Certificate qualifying students to teach biology and general science. Students who major in Biology with a sequence in Secondary Education may obtain an endorsement that prepares them for teaching in the middle school. Students wishing to pursue this endorsement must take three hours in the psychology of early adolescent development and three hours in curriculum instruction and methods related to the middle school. Students should contact the Office of Secondary Education for specific course numbers.

Admission to Student Teaching

Before enrolling in EDUC499, Student Teaching, an application for admission to student teaching must be submitted to the Office of Secondary Education in the College of Arts and Sciences. The application must be submitted by March 1 for the fall trimester and June 1 for the winter trimester. Student teaching is not offered in the spring/summer trimester. Contact the CAS Office of Secondary Education at (708) 235-2112 for further information.

Degree Requirements

Students must meet all university requirements for a bachelor's degree, and in addition, students must complete the General Education Requirement for Teacher Certification, Standard High School Certificate listed below. Completion of this requirement meets the General Education Requirement.

In addition, students must:
1. have a cumulative GPA of 2.5 or higher;
2. earn a grade of "C" or better in all general education courses;
3. have a GPA of 2.75 or higher for all general education courses taken at Governors State University;
4. have a GPA of 3.0 or higher in biology and chemistry courses with a grade of "C" or better in each course;
5. have a GPA of 3.0 or higher for EDUC310, PSYC320, EDUC433, EDUC434, and SPED510, with a grade of "C" or better in each course;
6. earn a grade of "C" or better in EDUC499;
7. complete a minimum of 100 hours of supervised pre-student teaching experiences;
8. provide evidence of successful completion of the Illinois and U.S. Constitution examinations;
9. complete at least one three-hour course in non-Western or third world cultures;
10. meet any additional requirements listed in the Teacher Certification section of this catalog; and
11. complete the following course work with a grade of "C" or better: eight hours of general biology with laboratory, three hours of botany with laboratory, three hours of zoology with laboratory, eight hours of general chemistry with laboratory, eight hours of organic chemistry with laboratory, and college algebra.

I. General Education Requirements for Teacher Certification, Standard High School Certificate, Biology (54 Hours)

The following courses must be taken at the lower-division level:

- General Chemistry with Lab ................. 8
- General Biology with Lab ...................... 8

The following courses can be taken at either the lower-division or upper-division level and must include at least one three-hour course in non-Western or third world cultures:

- Written Communication ..................... 6
- Oral Communication ........................... 3
- Literature in English ......................... 3
- American History ............................. 3
- U.S. Government .............................. 3
- Humanities .................................... 9
- Social Sciences ............................... 6
- Health ......................................... 2

MATH355 Applied Calculus .......................... 3

II. Required Courses (74 Hours)

The following courses can be taken at either the lower-division or upper-division level:

- Botany with Laboratory ....................... 3
- Zoology with Laboratory ...................... 3
- Organic Chemistry with Laboratory ........ 8
- BIOL 360 Comparative Anatomy .................. 3
- BIOL 361 Comparative Anatomy Laboratory ...... 1
- BIOL 430 Microbiology ......................... 2
- BIOL 431 Microbiology Laboratory ............ 2
- EDUC 310 Foundations of Education ........... 3
- PHYS 352 Intermediate Physics I .............. 3
- PHYS 353 Intermediate Physics I Laboratory .... 1
- PHYS 362 Intermediate Physics II ................ 3
- PHYS 363 Intermediate Physics II Laboratory ... 1
- PSYC 320 Educational Psychology .............. 3
- SPED 510 Survey of Exceptional Students ........ 3
The following courses must be taken at the upper-division level:

III. Computer Science Selective (3 Hours)

Select one of the following which may be taken at either the lower-division or upper-division level:

- CPSC 305 Introduction to Computer Technology (3)
- CPSC 500 Introduction to Microcomputers in Education (3)

IV. Total - 131 Hours

Bachelor of Science in Chemistry

The curriculum for the undergraduate major in Chemistry provides a strong background in the basic concepts of analytical, organic, physical, and inorganic chemistry. Laboratory courses provide hands-on experience in the operation of a number of modern scientific instruments. Upon graduation, the student is prepared for employment in government and industrial laboratories in a variety of entry level positions. The student also has the necessary preparation for graduate work in chemistry and meets all requirements for admission to the M.S. in Analytical Chemistry at Governors State University.

Degree Requirements

Students must meet all university requirements for a bachelor's degree.

In addition, only grades of "C" or better will be accepted for transfer for the following courses normally taken at the lower-division level: eight hours of general chemistry with laboratory, eight hours of organic chemistry with laboratory, eight hours of physics with laboratory, and eight hours of calculus.

I. General Education Requirement

See front of catalog for General Education Requirements.

II. Required Courses (66 Hours)

The following courses must be taken at the lower-division level:

- Calculus: 8 hours
- General Chemistry with Laboratory: 8 hours
- Organic Chemistry with Laboratory: 8 hours
- Physics with Laboratory: 8 hours
- CHEM 315 Analytical Chemistry: 3 hours
- CHEM 316 Analytical Chemistry Laboratory: 2 hours
- MATH 455 Differential Equations: 3 hours

The following courses must be taken at either the lower-division or upper-division level:

- CHEM 366 Physical Chemistry I: Lecture: 3 hours
- CHEM 367 Physical Chemistry I: Laboratory: 1 hour
- CHEM 368 Physical Chemistry II: Lecture: 3 hours
- CHEM 369 Physical Chemistry II: Laboratory: 1 hour
- CHEM 426 Instrumental Analysis: 3 hours
- CHEM 427 Instrumental Analysis Laboratory: 1 hour
- CHEM 433 Advanced Inorganic Chemistry: 3 hours
- CHEM 434 Advanced Inorganic Chemistry Laboratory: 1 hour
- CHEM 450 Organic Synthesis and Structural Methods: 2 hours
- CHEM 455 Chemical Literature: 1 hour
- CHEM 544 Biochemistry: Lecture: 3 hours
- CHEM 545 Biochemistry: Laboratory: 1 hour
- STAT 520 Statistical Methods: 3 hours

III. Advanced Selectives (6 Hours)

Select six hours from the following courses.

- BIOL 641 Toxicology (3)
- CHEM 499 Chemistry Research (1-4)
- CHEM 505 Environmental Chemistry Lecture (3)
- CHEM 506 Environmental Chemistry Laboratory (1)
- CHEM 535 Industrial Chemistry (3)
- CHEM 550 Polymer Chemistry (3)
- Other science courses as approved by academic advisor.

V. Electives (42 Hours)

May include credit hours needed to meet General Education Requirements.

VII. Total - 120 Hours
Chemistry Minor

An undergraduate minor in Chemistry is offered to students majoring in other fields who wish to supplement their preparation in a major discipline with a substantial amount of course work in chemistry. The minor in Chemistry is particularly appropriate for those students who would like to develop a theoretical understanding of chemistry and fundamental laboratory skills. A minor in Chemistry will generally enhance the prospects of students for employment in industry and education, and for admission to graduate or professional schools.

Requirements for the Minor

Students must meet all university requirements for a minor.

In addition, students must:

1. complete at least one course at the upper-division level; and
2. submit transfer courses to the advisor for the minor for approval by the first week of the trimester of intended graduation.

I. Required Courses (16 Hours)

The following courses must be taken at the lower-division level:

- General Chemistry I and II with labs ........ 8

The following courses can be taken at either the lower-division or upper-division level:

- CHEM 341 Organic Chemistry I: Lecture .................... 3
- CHEM 342 Organic Chemistry I: Laboratory .............. 1
- CHEM 343 Organic Chemistry II: Lecture .................. 3
- CHEM 344 Organic Chemistry II: Laboratory ............. 1

II. Selective (4 or more Hours)

Select one course with its corresponding lab:

- CHEM 315 Analytical Chemistry (3)
- CHEM 316 Analytical Chemistry Laboratory (2)
- CHEM 544 Biochemistry (3)
- CHEM 545 Biochemistry Laboratory (1)

Other upper-division level chemistry courses may be accepted in this category at the discretion of the advisor for the minor.

III. Total - 20 to 21 Hours

Bachelor of Science in Chemistry with a Teacher Education Sequence

The curriculum for the undergraduate major in Chemistry with a teacher education sequence provides a strong background in the basic concepts of analytical, organic, physical, and inorganic chemistry for the student who is interested in a career in science teaching at the secondary level.

Teacher Certification

This program is approved by the Illinois State Board of Education and leads to the Standard High School Certificate qualifying students to teach chemistry. Students who major in Chemistry with a sequence in Secondary Education may obtain an endorsement that prepares them for teaching in the middle school. Students wishing to pursue this endorsement must take three hours in the psychology of early adolescent development and three hours in curriculum instruction and methods related to the middle school. Students should contact the Office of Secondary Education for specific course numbers.

Admission to Student Teaching

Before enrolling in EDUC499, Student Teaching, an application for admission to student teaching must be submitted to the Office of Secondary Education in the College of Arts and Sciences. The application must be submitted by March 1 for the fall trimester and June 1 for the winter trimester. Student teaching is not offered in the spring/summer trimester. Contact the CAS Office of Secondary Education at (708) 235-2112 for further information.

Degree Requirements

Students must meet all university requirements for a bachelor's degree. Students must complete the General Education Requirement for Teacher Certification, Standard High School Certificate listed below. Completion of this requirement meets the General Education Requirement.

In addition, students must:

1. have a cumulative GPA of 2.5 or higher;
2. earn a grade of "C" or better in all general education courses;
3. have a GPA of 2.75 or higher for all general education courses taken at Governors State University;
4. have a GPA of 3.0 or higher in chemistry and physics courses with a grade of "C" or better in each course;
5. have a GPA of 3.0 or higher for EDUC310, PSYC320, EDUC433, EDUC434, and SPED510, with a grade of "C" or better in each course;
6. have earned a grade of "C" or better in EDUC499;
7. complete a minimum of 100 hours of supervised pre-student teaching experiences;
8. provide evidence of successful completion of the Illinois and U.S. Constitution examinations;
9. complete at least one three-hour course in non-Western or third world cultures;
10. meet any additional requirements listed in the Teacher Certification section of this catalog, and
II. complete the following course work with a grade of "C" or better: eight hours of general chemistry with laboratory, eight hours of organic chemistry with laboratory, eight hours of physics with laboratory, and eight hours of calculus.

I. General Education Requirement for Teacher Certification, Standard High School Certificate, Chemistry (59 Hours)

The following courses must be taken at the lower-division level:
- General Chemistry with Laboratory .......... 8
- Calculus ..................................................... 8

The following courses can be taken at either the lower-division or upper-division level and must include at least one three-hour course in non-Western or third world cultures:
- Written Communication ............................ 6
- Oral Communication ..................................... 3
- Physics with Laboratory ............................ 8
- American History ....................................... 3
- Literature in English .................................... 3

- Literature in English .................................... 3
- Cultural Geography, Economics, Psychology, and/or Sociology .......... 6
- Health ........................................................ 2

II. Required Courses (64 Hours)

The following courses can be taken at either the lower-division or upper-division level:
- Organic Chemistry with Laboratory .......... 8
- CHEM315 Analytical Chemistry ..................... 3
- CHEM316 Analytical Chemistry Laboratory .......... 2
- EDUC 310 Foundations of Education ................. 3
- PSYC 320 Educational Psychology ................... 3
- SPED 510 Survey of Exceptional Students .......... 3

The following courses must be taken at the upper-division level:
- CHEM366 Physical Chemistry I: Lecture .............. 3
- CHEM367 Physical Chemistry I: Laboratory .......... 1
- CHEM368 Physical Chemistry II: Lecture .............. 3
- CHEM369 Physical Chemistry II: Laboratory .......... 1
- CHEM426 Instrumental Analysis ...................... 3
- CHEM427 Instrumental Analysis Laboratory .......... 1
- CHEM433 Advanced Inorganic Chemistry ............. 3
- CHEM434 Advanced Inorganic Chemistry Laboratory ................................................. 1
- CHEM505 Environmental Chemistry Lecture .......... 3
- CHEM506 Environmental Chemistry Laboratory ....... 1
- CHEM544 Biochemistry: Lecture ...................... 3
- CHEM545 Biochemistry: Laboratory .................... 1
- EDUC 433 Principles of Science Education .......... 3
- EDUC 434 Teaching Secondary School Science .......... 3
- EDUC 499 Student Teaching: Secondary Chemistry .. 9
- STAT 520 Statistical Methods ...................... 3

III. Computer Science Selective (3 Hours)

Select one of the following which may be taken at either the lower-division or upper-division level:
- CPSC 305 Introduction to Computer Technology (3)
- EDUC 500 Introduction to Microcomputers in Education (3)

IV. Biology Selective (3 Hours)

Select three hours of lower-division or upper-division biology course work.

V. Total - 129 Hours

Bachelor of Science in Computer Science

The undergraduate major in Computer Science provides a balance between theoretical and applied study and is intended for students who are primarily interested in the application of computers and information technology to problem solving. The curriculum is designed to prepare students for entry-level positions in business and industry, in local, state, and federal government agencies, and in research and technical organizations as programmers, information analysts, systems designers, and software engineers. The curriculum also prepares students for graduate work in computer science.

Degree Requirements

Students must meet all university requirements for a bachelor's degree.

In addition, students must complete the following course work with a grade of "C" or better: three hours of high-level computer languages, three hours of C or Pascal programming, three hours of assembly language, three hours of systems analysis, three hours of college algebra, CPSC345, CPSC405, CPSC415, and MATH340.

I. General Education Requirement

See front of catalog for General Education Requirements.

II. Required Courses (39 Hours)

The following courses may be taken at the lower-division level:
- Computer Programming, high-level languages (e.g. COBOL, FORTRAN, BASIC etc.) ................................................. 3
- C or Pascal Programming ............................... 3
- Assembly Language ..................................... 3
- Systems Analysis ........................................ 3

The following courses must be taken at the upper-division level:
- CPSC 345 Computer Programming: C++ ............... 3
- CPSC 405 Computer Organization .................... 3
- CPSC 415 Data Structures ............................. 3
- CPSC 435 Operating Systems ......................... 3
III. Additional Requirements (23 Hours)

Must include at least six hours of CPSC courses numbered 400 or above.
May include credit hours needed to meet General Education Requirements.

V. Total - 120 Hours

Computer Science Minor

An undergraduate minor in Computer Science is offered for students majoring in other fields who wish to supplement their preparation in a major discipline with a substantial amount of course work in computer science. The minor in Computer Science is particularly appropriate for those students who anticipate significant use of a computer during the pursuit of their chosen majors or who would like to develop additional marketable skills to supplement and complement their major studies.

Requirements for the Minor

Students must meet all university requirements for a minor.

In addition, students must:
1. have earned a grade of "C" or better in the prerequisite(s) for 400-level courses in computer science and mathematics;
2. complete at least one course at the upper-division level; and
3. submit transfer courses to the advisor for the minor for approval by the first week of the trimester of intended graduation.

II. Total - 24 Hours

Bachelor of Arts in Communications

Students in the undergraduate major in Communications have an opportunity to develop speech communication, journalism, public relations, TV/video production, and multimedia communications skills, as well as a practical and theoretical understanding of the processes of human communication and impact of media communications and technology on individuals, groups, and society. In addition to a common core of communication skills, students majoring in Communications may choose a sequence in Journalism, Multimedia Communications, Public Relations, Speech Communication, and TV/Video Production. Each sequence includes practical skills as well as the general understanding necessary to function well in a job. The sequences also fit within the degree program's focus on the human and the ethical in communications, as well as the impact of media communications and technology on individuals, families, organizations, and societies. Students may apply for internships in commercial and not-for-profit organizations, as well as Chicago area media, or in the university's Communications Services center. Graduates of the program also may work in career areas such as advertising, consulting, customer service, human resources, instructional design and development, media management, media writing, public affairs, TV production/direction, and training. The university has full access to the Internet and is interconnected with the world through a satellite uplink.

Degree Requirements

Students must meet all university requirements for a bachelor's degree. In addition, students must maintain a grade of "C" or better in all required Communications courses.

I. General Education Requirement

See front of catalog for General Education Requirements.

II. Required Courses (13-16 Hours)

The following courses should be taken at the lower-division level:

- Communication Skills (including speech, TV production, and media writing) | 6

The following courses can be taken at either the lower-division or upper-division level:

- COMS 310 Concepts of Human Communications | 3
COMMUNICATIONS

MCOM420 Media and Society .................................. 3
The following course must be taken at the
upper-division level:
COMS 300 Introduction to Communications .......... 1
COMS 420 Communication Research ..................... 3
COMS 561 Technology and Human
Communications ......................................... 3
MCOM468 Senior Seminar .................................. 3
MCOM511 Communication Ethics .......................... 3
Advanced Writing choose from:
ENGL 525 Advanced Writing II ............................ 3
MCOM450 Writing for Print Media ......................... 3

III. Communications Sequences (14-18 Hours)
Select one of the following five sequences:
Journalism Selective Courses (14-16 Hours)
MCOM450 Writing for Print Media ......................... 3
MCOM480 Internship ........................................ 3
Select one of the following:
MCOM510 Theory and History of a Free Press ....... 3
MCOM512 Media Communications Law ............... 3
Select two of the following:
MCOM550 Newswriting and Reporting .................... 3
MCOM555 Broadcast Journalism .......................... 3
MCOM570 Media Workshop: Desktop Publishing .... 3
TV/Video Production Selective Courses (14-18 Hours)
MCOM440 Television Production ......................... 4
MCOM480 Internship ...................................... 2-4
Select one of the following:
MCOM556 Broadcasting in America ..................... 3
MCOM556 Broadcast Programming History ............... 3
Select one of the following:
MCOM510 Theory and History of a Free Press ....... 3
MCOM512 Media Communications Law ............... 3

IV. Communications Electives (6-9 Hours)
Select six to nine hours of communications courses
with advisor approval.

V. Electives (65-72 Hours)
May include credit hours needed to meet General
Education Requirements.

VI. Total - 120 Hours

Speech-Communications Minor
An undergraduate minor in Speech-Communications is
offered for students majoring in other fields. This minor
is particularly appropriate for those students who
anticipate significant use of communications skills in
their chosen field and who wish to develop additional
marketable skills.

Requirements for the Minor

COMS 310 Concepts of Human Communication .......... 3
COMS 330 Interpersonal Skills .......................... 3
COMS 435 Persuasive Speaking .......................... 3
Nine hours from communication
courses, 500-level or below ............................ 9

Total - 18 Hours
Bachelor of Arts in Criminal Justice

Criminal Justice as a field of study covers the traditional aspects of the criminal justice system: law enforcement, courts and the judiciary, corrections, and juvenile justice. It also recognizes the interdependence of social traditions, values, and legal structures that necessarily impact on policy questions in a democratic society. The major focuses on the social problems of crime and delinquency and the methods of managing these problems for the social good.

The requirements of the B.A. in Criminal Justice include the development and effective use of interpersonal communication skills, a broad social behavioral approach to the understanding of crime, the process and issues relevant to each component of the criminal justice system and its agencies, and crime prevention; supervisory and management skills, constitutional rights and restraints, substance abuse, alcoholism, and related curricular applications to criminal justice; the development of analytical skills through research, statistics, and computer applications; and lastly a synthesis through an internship experience.

This major examines the various aspects of criminal justice from a broad perspective developed primarily from the social sciences. In this process, emphasis is placed on critical thinking, particularly in analyzing current problems, completing an internship, and carrying out a research project. Special attention is also given to the role of cultural similarities and differences as they manifest themselves in the area of criminal justice. Graduates of the program will have the theoretical background for pursuing graduate work in several of the social sciences or professional education in areas such as law and will have the practical skills that are in high demand in the justice related professions.

Degree Requirements

Students must meet all university requirements for a bachelor's degree.

I. General Education Requirement

See front of catalog for General Education Requirements.

II. Required Courses (57 Hours)

The following courses should be taken at either the lower- or upper-division level:

III. Electives (63 Hours)

May include credit hours needed to meet General Education Requirements.

IV. Total - 120 Hours

NOTE: Students in this major are encouraged to complete a minor in Addictions Studies, Business Administration, Psychology, or another field that complements their degree and career objectives.

Criminal Justice Minor

Requirements for the Minor

Students must meet all university requirements for a minor.

In addition, students must:

1. complete nine hours of course work at Governors State University; and
2. submit transfer courses to the advisor for the minor for approval by the end of the first week of the trimester of intended graduation.

Bachelor of Arts in English

The undergraduate major in English offers students a strong academic background in English studies—the creative analysis of literature and extensive practice in the process of writing that will enable them to analyze, understand, and appreciate the diversity of the human experience and to meet controversy and challenge in appropriate, practical, and intellectually satisfying ways. Additionally, as a program that is foundational to the university's commitment to adult education and lifelong learning, it meets a continually increasing demand nationally and locally for liberally educated individuals in any discipline.

Within this major, students may pursue course work in language, literature, composition, and related studies in the humanities. The curriculum emphasizes a variety of approaches to an expanded literary tradition and relates the works studied to social, political, and historical contexts. In pursuit of the program goals, the student acquires the necessary knowledge and skills of creative analysis and expression (written and oral) that mark the liberally educated person, one who is prepared to meet the practical and analytical challenges of virtually any profession.

In addition, the undergraduate major in English with a concentration in English Teacher Education prepares students to meet the specific needs and challenges of teaching English in the secondary classroom.

Degree Requirements

Students must meet all university requirements for a bachelor's degree.

I. General Education Requirement

See front of catalog for General Education Requirements.

II. Required Courses (36 Hours)

The following courses can be taken at either the lower-division or upper-division level:

American Literature I & II .................. 6
English Literature I & II .................. 6

The following courses must be taken at the upper-division level:

ENGL 501 Introduction to Linguistics .......... 3
ENGL 510 Major English Authors .......... 3
ENGL 515 Major Black Authors ........... 3
ENGL 520 Major American Authors ........... 3
ENGL 540 Bible as Literature in Social Context .. 3
ENGL 551 Shakespeare's Plays ............. 3
ENGL 570 Rhetorical Theory and Practice .......... 3
PHIL 542 Ethics ........................................... 3

III. Electives (84 Hours)

May include credit hours needed to meet General Education Requirements.

IV. Total - 120 Hours

Bachelor of Arts in English with a Teacher Education Sequence

The undergraduate major in English with a teacher education sequence enables the student to acquire the necessary skills of analysis and expression found in the liberally educated person who is interested in a career in teaching English at the secondary level.

Teacher Certification

This program is approved by the Illinois State Board of Education and leads to the Standard High School Certificate in English. Students who major in English with a concentration in Secondary Education may obtain an endorsement that prepares them for teaching in the middle school. Students choosing to pursue this endorsement must take three (3) hours in the Psychology of Early Adolescent Development and three (3) hours in Curriculum Instruction and Methods related to the middle school. Students should contact the Office of Secondary Education for specific course numbers.

Admission to Student Teaching

Before enrolling in EDUC499, Student Teaching, an application for admission to student teaching must be submitted to the Office of Secondary Education in the College of Arts and Sciences. The application must be submitted by March 1 for the fall trimester and June 1 for the winter trimester. Student teaching is not offered in the spring/summer trimester. Contact the CAS Office of Secondary Education at (708) 235-2112 for further information.

Degree Requirements

Students must meet all university requirements for a bachelor's degree, except students must complete the General Education Requirement for Teacher Certification, Standard High School Certificate below instead of the University General Education Requirements.

In addition, students must:

1. have a cumulative GPA of 2.5 or higher;
2. earn a grade of "C" or better in all general education courses;
3. have a GPA of 2.75 or higher for all general education courses taken at Governors State University;
4. have a GPA of 3.0 or higher in English core courses and for EDUC310, PSYC320, EDUC465, EDUC520, and SPED510, with a grade of "C" or better in each course;
5. earn a grade of "C" or better in EDUC499;
6. complete a minimum of 100 hours of supervised pre-student teaching experiences;
7. provide evidence of successful completion of the Illinois and U.S. Constitution examinations;
8. complete at least one three-hour course in non-Western or third world cultures; and
9. meet any additional requirements listed in the Teacher Certification section of this catalog.

I. General Education Requirement for Teacher Certification, Standard High School Certificate, English (41 Hours)
The following courses can be taken at either the lower-division or upper-division level and must include at least one three-hour course in non-Western or third world cultures:

- Written Communication ........................................ 6
- Oral Communication ........................................... 3
- Mathematics .................................................... 3
- Biological and Physical Science (including one laboratory course) .......... 9
- American History ............................................. 3
- U.S. Government ............................................... 3
- Political Science, Anthropology, Cultural Geography, Economics, Psychology, and/or Sociology .............. 6
- Health ............................................................ 2

II. Required Courses (57 Hours)
The following courses can be taken at either the lower-division or upper-division level:

- English Literature I & II ....................................... 6
- American Literature I & II .................................... 6
- EDUC 310 Foundations of Education .......................... 3
- PSYC 320 Educational Psychology .............................. 3
- SPED 510 Survey of Exceptional Students ................... 3

The following courses must be taken at the upper-division level:

- ENGL 501 Introduction to Linguistics .......................... 3
- ENGL 510 Major English Authors ................................ 3
- ENGL 515 Major Black Authors ................................. 3
- ENGL 520 Major American Authors .............................. 3
- ENGL 540 Bible As Literature in Social Context .............. 3
- ENGL 551 Shakespeare's Plays .................................. 3
- ENGL 570 Rhetorical Theory and Practice .................... 3
- EDUC 465 Methods of Teaching English ...................... 3
- EDUC 499 Student Teaching: Secondary English .......... 9
- EDUC 520 Developmental Reading in Middle and Secondary Schools ................ 3

III. Electives (22 Hours)

IV. Total - 120 Hours

Mathematics Minor
An undergraduate minor in Mathematics is offered to students who wish to supplement their preparation in a major discipline with a substantial amount of course work in mathematics. It is especially appropriate for students who would like to develop additional quantitative and qualitative reasoning skills. A minor in Mathematics will generally enhance the prospects of students for employment and for admission to graduate or professional study.

Requirements for the Minor
Students must meet all university requirements for a minor. A full Calculus I & II sequence is needed to meet the Calculus requirement for the minor. Governors State does not offer a Calculus I & II sequence. Thus, students pursuing a Math minor at Governors State should not take MATH 355 as part of the calculus requirement. However, a Calculus I & Calculus II sequence taken at the lower-division level will satisfy the MATH355 course requirement in the Computer Science major.

In addition, students must:
1. complete at least one course at the upper-division level; and
2. submit transfer courses to the advisor for the minor for approval by the first week of the trimester of intended graduation.

I. Required Courses (14 Hours)
The following courses must be taken at the lower-division level:

- Calculus I & II .................................................. 8

The following courses can be taken at either the lower-division or upper-division level:

- MATH 340 Discrete Mathematics ............................... 3
- MATH 440 Linear Algebra ...................................... 3
- MATH 450 Principles of Operations Research ............... 3
- MATH 455 Differential Equations ............................ 3

II. Selectives (9 Hours)
The following courses must be taken at the upper-division level:

Select nine hours:

- CPSC 462 Numerical Algorithms (3)
- MATH 330 Geometry (3)
- MATH 450 Principles of Operations Research (3)
- MATH 455 Differential Equations (3)

Other upper-division level mathematics courses may be accepted in this category at the discretion of the advisor for the minor.

III. Total - 23 Hours
Bachelor of Arts in Integrative Studies

The Integrative Studies program provides an opportunity for students to obtain a broadly based education and forge relationships among the elements of their educational experience. It provides bridges among elements in the undergraduate learning experience by emphasizing multiple perspectives and comparative, global, interdisciplinary, and intercultural forms of learning. This program is on the leading edge of undergraduate education, reflecting the interconnections of fields of knowledge and learning in our contemporary world.

Students experience a special program of learning fundamentals for life and work in a variety of coexistent contexts. The program integrates forms of learning and disciplines with creative, learner-centered, and interactive instruction. The curriculum is organized around a core of courses which emphasize the interconnections between theory and implementation, values and knowledge, and experiment and evidence made available by discoveries in the arts, humanities, sciences, ethnic and gender studies, and professional studies.

Core courses are scheduled in a two-year sequence structured to provide a solid, interdisciplinary educational foundation in the arts and sciences and professional studies, culminating with a senior thesis or project devised by the learner in collaboration with faculty from the appropriate disciplines or areas of study.

A central goal of the Integrative Studies program is the teaching of concepts and techniques which generate new knowledge, with learners and faculty from a variety of disciplines collaborating in educational contexts. Up-to-date computing and communication technologies are employed to facilitate individual and group instruction and to give each learner experience in utilizing these new tools for both personal and career advancement.

Opportunities for interaction with leaders in a wide variety of fields provide students with a broadly-based understanding of the changing world. Students also have the opportunity to become involved in activities which provide positive change for their local communities.

As a declared major, the curriculum is appropriate for individuals who have a strong interest in achieving an integrated education in the arts and sciences. The structure of the Integrative Studies major also effectively prepares learners for graduate level work in multiple disciplines, offering excellent preparation for academic or professional directions such as law, business, education, public administration, policy studies, or international studies.

III. Electives/Minor (18 Hours)

IV. Total Hours - 120

Electives and Minors

Eighteen hours of elective course work provide each student the opportunity either for great flexibility and diversity or for depth and focus, enabling students to individualize their course of study. Some students may select a range of courses from different disciplines throughout the university, thus continuing to broaden their scopes. Others may choose to minor in another program or focus on an area of concentration, thereby increasing depth in a particular area of interest. Electives may include hours needed to meet general education requirements.

Students are not required to declare a minor. However, doing so will allow the student to pursue closely an area of specialization and integration.

Senior Project/Tutorial/Field Experience

The senior project is designed as a capstone or culminating experience for Integrative Studies majors. Students are required to integrate their course work experience in the context of action in the world at large. The experience may take any of several forms, including but not limited to, goal-oriented international and/or cross-cultural travel, work in the community, internship or completion of a research project in the sciences, humanities, arts or professional studies. The specific direction taken will be decided by the student in consultation with the professors overseeing the course. The project will be reviewed by a committee of three faculty. The final assessment of student progress will take place through this project/experience.

Bachelor of Arts in Social Sciences

Students who major in Social Sciences at the undergraduate level are exposed to an interdisciplinary curriculum of courses in the social sciences, e.g., anthropology/sociology, applied economics, history, and political science. Emphasis is given to the common interdisciplinary pursuit of critical thinking as it is applied to the analysis of social problems. Special attention also is given to the study of cultural similarities and differences which define the human experience. Graduates of the program, depending upon their career goals and objectives, will have the theoretical understanding for graduate work in the social science disciplines and the practical skills that are highly in demand in government, public service, education, industry, and business.

A bachelor of arts in Social Sciences provides a strong background for students who are interested in the master of arts in Political and Justice Studies at GSU.

It is recommended that students obtain a Social Science based preparatory curriculum as required by the general education requirements. It is further recommended that students complete introductory courses in anthropology, economics, political science, sociology, and international relations. In lieu of this, students should seek their advisor’s assistance to find the appropriate courses to fulfill this requirement.

Degree Requirements

Students must meet all university requirements for a bachelor’s degree.

I. General Education Requirements

See front of catalog for General Education Requirements.

II. Required Courses (39 Hours)

A. Foundations Core

  - Society and Culture in the Social Sciences
  - Anthropology
  - Sociology of Institutions and Culture

  - History and the Social Sciences
  - Issues in Modern U.S History
  - Any European History Course
  - Any non-Western History Course

  - Economics and the Social Sciences
  - Comparative Economic Theory
  - American Economic History

  - Politics and the Social Sciences
  - Principles and Theories of Political Science
  - Transformation of the Global System

The following required courses are intended to develop general analytical skills needed for social analysis.
B. Skills Core
PHIL 386 Logic or SOSC 550, Language in Cross-Cultural Analysis .................. 3
SOSC 450 Social Science Research: Design and Methodology .......................... 3
SOSC 560 Computer Applications in Social Science Research .......................... 3
SOSC 490 Seminar: Values, Technology, and Social Change ............................ 3

III. Career Selectives (21 Hours)
Students, with the assistance of their advisor, will select an additional twenty-one hours of upper-division courses in the social sciences, policy studies, intercultural studies, language, or a relevant field, with the degree of generalization or specialization that best suits their personal and professional goals.

IV. Electives (60 Hours)
May include credit hours needed to meet General Education Requirements.

V. Total - 120 Hours
The College of Business and Public Administration’s primary mission is to deliver quality instruction which is accessible to a diverse student body, and to create a dynamic learning environment for students, faculty, staff, and the community.

Students will obtain the skills necessary for initial employment and career advancement in business, industry, and government, and the general knowledge expected of an educated person.

The college encourages students to make a commitment to lifelong learning and to understand that there are more questions than answers. With that in mind, the college will encourage scholarship and research by both faculty and students and will recognize scholarship and research as being inherently valuable activities.

The College of Business and Public Administration supports and encourages its faculty, students, and staff to make meaningful contributions as citizens, professionals, and scholars to the community external to the college.

In support of its mission, it is the goal of the College of Business and Public Administration to meet the diverse educational needs of students and society by providing:

- Flexible instructional and scheduling alternatives
- Contemporary business and educational technologies and instruction which impart current practice
- Content which is consistent with the needs and standards of business, industry, government, and community organizations which employ our graduates
- Strong theoretical foundations in knowledge of the field, with development and application of practical skills, supported by liberal learning
- Instruction which is challenging, engaging, and rewarding
- Valuable knowledge obtained through research and scholarship

The College of Business and Public Administration has designed its undergraduate majors to prepare students for careers in business, government, and industry. Because all the functions of a complex business or government organization are interrelated, students are required to be familiar with the functional areas of administration.

Announcements

Students are responsible for checking the college bulletin boards located in the college entrance hall for announcements concerning scheduling, policies, job and financial aid opportunities and collegial activities.

DEGREE REQUIREMENTS FOR UNDERGRADUATE PROGRAMS

The university degree requirements for undergraduate programs are listed in the Bachelor’s Degree Requirements section of this catalog.

In addition to university degree requirements, the College of Business and Public Administration has the following collegial degree requirements for its bachelor’s degree programs:

1. Students must take and pass a proficiency examination in intermediate algebra. This examination is required in addition to the university required proficiency tests. The university policy requires that students attempt the test prior to registering for a second term. No math courses are to be attempted until after proficiency has been demonstrated. Those students who are unsuccessful in passing the intermediate algebra examination may re-test once. Students who do not pass the second attempt will be required to enroll in a specified math course. The math proficiency requirement must be satisfied (by testing or by course completion) before enrollment beyond twenty-one hours. Since this requirement can impact on an individual’s enrollment and financial aid plans, it is necessary to address the requirement immediately.

2. A minimum of thirty credit hours must be completed in course work at Governors State University.

3. Only credits earned with a grade of “C” or better in transfer course work can be applied toward degree requirements.

4. The total number of credits applied toward degree requirements earned in independent studies, internships, and practica cannot exceed six hours, unless approved by the dean.

5. A student who has enrolled in the same course three times without receiving a passing grade must receive permission from the dean to register for that class a fourth time.

6. Students in the College of Business and Public Administration must complete each of their concentration courses (or accounting core/selectives) with a grade of “C” or better to be eligible for graduation.

7. All electives which may be applied to a degree must be approved by the dean or designee.

8. A maximum of six credit-hours of graduate course work earned in the last trimester of an undergraduate program, and prior to official acceptance in the graduate program, may be applied toward graduate requirements, with permission of the division chairperson and the dean.

9. Students in business degree programs may be required to take a standardized assessment test in business during the final trimester of their program.
10. All students must have a signed study plan completed in the CBPA Academic Advising Office during the first trimester of enrollment in the degree program.

Requirements for specific degree programs follow.

**Bachelor of Science in Accounting**

The bachelor of science in Accounting degree program is designed to provide students with the basic body of knowledge, skills, and attitudes needed to enter the accounting profession (public, government, or business and industry).

Students planning to obtain the CPA certificate after the year 2000 should complete 150 credit hours.

**Degree Requirements**

Students must meet all university requirements for a bachelor's degree.

Students must meet the collegial degree requirements listed at the beginning of this section.

I. **General Education Courses (48 Hours)**

   This includes the following program requirements:

   - College Algebra ........................................ 3
   - Calculus .................................................. 3
   - ECON 301 Principles of Microeconomics ................... 3
   - ECON 302 Principles of Macroeconomics ..................... 3
   - MIS 301 Basics of Information Technology ............... 3
   - STAT 361 Statistics for Management I ..................... 3

II. **Business Core Courses (30 Hours)**

   - ACCT 301 Financial Accounting .................................. 3
   - ACCT 302 Managerial Accounting ................................ 3
   - BLAW 325 Business Law I ..................................... 3
   - BLAW 326 Business Law II .................................... 3
   - FIN 301 Principles of Financial Management ............... 3
   - MGMT301 Introduction to Management Strategies............... 3

   Select either of the following:

   - MGMT340 Production Management ................................ 3
   - MGMT401 Organizational Behavior ................................ 3
   - MGMT360 Business Communications ............................ 3
   - MGMT469 Business Policy ...................................... 3
   - MKTG301 Introduction to Marketing Management ............... 3

III. **Accounting Core Courses (21 Hours)**

   - ACCT 331 Cost Accounting I ................................... 3
   - ACCT 351 Intermediate Accounting I .......................... 3
   - ACCT 352 Intermediate Accounting II ......................... 3
   - ACCT 353 Intermediate Accounting III ....................... 3
   - ACCT 421 Tax Accounting I .................................... 3
   - ACCT 440 Audit Concepts and Standards ....................... 3
   - ACCT 452 Accounting Information Systems ................. 3

IV. **Accounting Selectives (6 Hours)**

   Select two of the following courses:

   - ACCT 332 Cost Accounting II ................................ 3
   - ACCT 410 Advanced Accounting ................................ 3
   - ACCT 422 Tax Accounting II .................................. 3
   - ACCT 423 Estate Planning ...................................... 3
   - ACCT 430 Accounting and Computer Integration ............ 3
   - ACCT 431 Accounting and Computer Integration: Advanced .... 3
   - ACCT 441 Advanced Auditing Concepts and Standards ........ 3
   - ACCT 456 International Accounting ............................ 3
   - ACCT 480 Internship in Accounting ............................ 3

   **Bachelor of Arts in Business and Administration with a Finance Concentration**

The undergraduate major in Business and Administration with a finance concentration prepares students for positions of leadership in business, government, and industry. Students are prepared for the challenges of professional life through the study of the functional area of finance.

**Degree Requirements**

Students must meet all university requirements for a bachelor’s degree.

Students must meet the collegial degree requirements listed at the beginning of this section.

I. **General Education Requirement (48 Hours)**

   NOTE: This includes the following program requirements:

   - College Algebra ........................................ 3
   - Calculus .................................................. 3
   - ECON 301 Principles of Microeconomics ................... 3
   - ECON 302 Principles of Macroeconomics ..................... 3
   - MIS 301 Basics of Information Technology ............... 3
   - STAT 361 Statistics for Management I ..................... 3

   These courses can be taken at either the lower-division or upper-division level:

   - Calculus .................................................. 3
   - ECON 301 Principles of Microeconomics ................... 3
   - ECON 302 Principles of Macroeconomics ..................... 3
   - MIS 301 Basics of Information Technology ............... 3
   - STAT 361 Statistics for Management I ..................... 3
This course must be taken at the upper-division level:
STAT 362 Statistics for Management II .......................... 3

II. Program Requirements (36 Hours)
The following courses can be taken at either the lower-division or upper-division level:
ACCT 301 Financial Accounting .................................. 3 *
ACCT 302 Managerial Accounting .................................. 3 **
Business Law Selective (3 Hours):
Select one of the following:
BLAW 320 Legal Environment of Administration .......... 3 
or
BLAW 325 Business Law I ........................................ 3
The following courses must be taken at the upper-division level:
ECON 420 Managerial Economics:
The Economics of the Firm ........................................ 3
FIN 301 Principles of Financial Management ................. 3
MGMT301 Introduction to Management Strategies ....... 3 ***
MGMT340 Production Management ................................ 3
MGMT360 Business Communications .............................. 3
MGMT401 Organizational Behavior ................................ 3
MGMT469 Business Policy ........................................... 3

Bachelor of Arts in Business and Technology

The undergraduate major in Business and Technology is a capstone program to the many varied technical programs offered at community colleges. It is intended to prepare students for careers that require both technical skills and business knowledge. It is ideal for technical program graduates interested in continuing their education in careers involving business and management.

Special Admission Requirements

In addition to the university criteria, applicants must have earned an associate of applied science degree in a technical major from a regionally-accredited institution of higher education. Students not meeting the admission requirement of an A.A.S. in a technical program, but who have completed twenty-seven or more hours in technical course work and have met other university admission criteria, may be considered for admission.

Degree Requirements

Students must meet all university requirements for a bachelor's degree.

Students must meet the collegial degree requirements listed at the beginning of this section.

I. General Education Requirement (48 Hours)

NOTE: This includes the following program requirements:

This course should be taken at the lower-division level:

College Algebra ......................................... 3

These courses can be taken at either the lower-division or upper-division level:

ECON 301 Principles of Microeconomics ................. 3

V. Total - 120 Hours

* Students must complete two trimesters of lower-division financial accounting or take ACCT301 at the upper-division level.

** A transfer course in cost accounting will be accepted in lieu of ACCT302.

*** Students who have taken a similar lower-division course must take MGMT410, International Business, in place of this course.

Minors available through the College of Business and Public Administration

Five undergraduate minors are available to students outside the College of Business and Public Administration. These minors are particularly appropriate for students whose career goals include management in addition to their chosen field of study.

Requirements for a Minor

Students must meet all university requirements for a minor.

In addition, students must:

1. complete a study plan with the Academic Advising Office;
2. complete all courses required for the minor with a grade of "C" or better;
3. complete at least nine hours of the course work required for the minor at Governors State University; and
4. submit transfer course documentation to the Academic Advising Office for approval prior to the first week of the trimester of intended graduation.

The College of Education prepares teachers and psychology-related professions personnel to function effectively in a variety of roles. The elementary education program offered by the college is designed to meet the future educational needs of those working with our young children. In addition, the college offers an undergraduate program in psychology to meet the needs of adults who often face an uncertain world of conflicts and choices.

The undergraduate curricula emphasize a solid combination of liberal studies to enhance thinking, speaking, and writing skills.

Instruction combines traditional classroom lectures with extensive field experience. The College of Education maintains excellent relationships with school districts in Cook and Will counties where student teaching and field work take place. Schools and mental health facilities throughout the Chicago area provide rich and diverse settings for experiences in psychology.

Undergraduate Programs
- Early Childhood Education (B.A.)
- Elementary Education (B.A.)
- Psychology (B.A.)
  - Mental Health
  - Minor
  - Psychology

Certifications and Accreditations
The college offers undergraduate programs approved by the Illinois State Board of Education for teacher certification in elementary education. The Early Childhood Education is pending approval of the ISBE.

DEGREE REQUIREMENTS FOR UNDERGRADUATE PROGRAMS

The university degree requirements for undergraduate programs are listed in the Bachelor's Degree Requirements section of this catalog.

Requirements for specific degree programs follow.

Bachelor of Arts in Early Childhood Education

The bachelor of arts in Early Childhood Education will be available beginning in fall of 1997 pending Illinois State Board of Education approval.

The undergraduate major in Early Childhood Education prepares future teachers for teaching children, birth through third grade. Students successfully completing the degree program obtain a) the bachelor's degree in Early Childhood Education and b) upon meeting other eligibility requirements, eligibility for the Early Childhood Education Certificate issued by the Illinois State Board of Education. After acceptance at Governors State University, there are four key components in obtaining the bachelor's degree and Certification in Early Childhood Education:

• Acceptance into the Early Childhood Education Program.
• Successful completion of 78 credit hours in General Education including 18 hours in a subject matter discipline such as art, math, science, history, or English as outlined below.
• Successful completion of 48 credit hours of professional course work in Early Childhood Education as outlined below.
• Successful completion of student teaching as outlined below

Students choosing to pursue this program should contact the Division of Education advisors before enrolling in any courses.

Special Admissions Requirements

In addition to meeting university admissions criteria, applicants must have a cumulative GPA of 2.5 for the last 60 hours of undergraduate work attempted. Clinical hours and general education course work completed at other colleges and universities will be considered on an individual basis and accepted where possible. GSU subscribes to the Illinois Articulation Initiative with community colleges and credit for clinical hours, course work in early childhood education, and general education course work is granted in accordance with this agreement.

Degree Requirements

Students must meet all university requirements for a bachelor's degree. In addition, students must complete the seventy-eight hour general education requirements for teacher certification.

Students must also:
1. complete all course work (48 professional and 78 hours of general education with a grade of "C" or better in each course);
2. maintain a GPA of 3.0 or higher in professional education courses;
3. maintain a GPA of 2.75 or higher in all general education courses taken at Governors State University with a grade of "C" or better in each course;
4. complete at least one three-hour course in non-Western or third world cultures;
5. complete all course work at Governors State University within five calendar years;
6. maintain satisfactory student progress as defined in the "Handbook for Undergraduate Students, Bachelor of Arts in Early Childhood Education." This handbook is available from the Division of Education advisors. Each student's progress will be reviewed periodically by the Professional Standards Committee. Students not maintaining satisfactory progress may be dismissed from the major.

Admission to Teacher Education

Admission to teacher education is required before enrolling in the early childhood teaching laboratory sequences. To be admitted to teacher education students must:
1. meet all university admission requirements;
2. pass the university writing and mathematics proficiency examinations;
3. satisfactorily complete EDUC 320, Introduction to Teaching and EDUC 321, Effective Teaching and laboratory; and
4. maintain satisfactory student progress as defined in the "Handbook for Undergraduate Students, Bachelor of Arts in Early Childhood Education."

Admission to Student Teaching

Before enrolling in student teaching, students must:
1. complete at least seventy-five hours of general education requirements with a GPA of 2.75 or higher;
2. complete all professional education requirements with a grade of "C" or better in each course;
3. complete 100 hours of prestudent teaching field experiences; and
4. complete at least fifteen hours in the subject matter discipline with a GPA of 2.75 or higher.
Teacher Certification

This program is pending Illinois State Board of Education approval for recommendation of the Early Childhood Certificate by entitlement. To be recommended for certification by Governors State University, students must complete at least seventy-eight hours in general education and 48 credit hours in professional education requirements in early childhood education. General education courses may include both lower- and upper-division course work. Students must earn a grade of "B" or better in EDEC 499, Student Teaching.

Students must also provide evidence of successful completion of the Illinois and United States Constitution examinations and meet other requirements for certification through approved programs listed in the Teacher Certification section in this catalog.

To be recommended by Governors State University, students must apply for the certificate within one year of completing the program.

I. General Education Requirement for Teacher Certification, Early Childhood Certificate (78 Hours)

Course work acceptable for meeting these requirements must be college level work and may not include remedial courses even if college credit is granted. Generally, this course work must be at the 100-level or higher and applicable toward a degree at the institution providing the instruction. Courses with grades below "C" will not be accepted toward the degree.

The following course work must include at least one three-hour course in non-Western or third world cultures.

The following courses should be taken at the lower-division level:

- Written Communication .................................. 6
- Oral Communication ...................................... 3
- Mathematics Structures and Concepts .................. 6
- Biological and Physical Science (including laboratory) .................................. 9
- Survey of American History ................................ 3
- Art and Music .............................................. 3
- Literature ................................................... 3
- U.S. Government .......................................... 3
- Psychology .................................................. 3
- Sociology .................................................... 3
- Health/Nutrition ........................................... 2
- Humanities (equivalent to LAS 420) ...................... 3
- General Linguistics (equivalent to ENGL 301) ............. 3

The following courses or their equivalent must also be taken:

- EDEC 322 Speech and Language Development ............ 3
- EDEC 415 Child and Family in the Community ............ 3
- LAS 430 Investigations in Scientific Thought ............ 3

Total general education requirements (including 18 credit hours in one of the following subject matter specializations: art, biology, English, history, or mathematics) - 78 Hours

II. Professional Course Work

The following courses must be taken at the upper-division level:

- EDUC 320 Introduction to Teaching .......................... 3
- EDUC 321 Effective Teaching and Laboratory .............. 4
- SPED 510 Survey of Exceptional Students ................. 3
- EDEC 310 Growth and Development of Young Children ......... 3
- EDEC 410 Foundations of Early Childhood Education .......... 2
- EDEC 325 Preprimary Curriculum Development ............. 3
- EDEC 326 Early Childhood Laboratory A ..................... 1
- EDEC 340 Methods of Teaching Primary Reading, Writing, and Language Arts ......................... 5
- EDEC 330 Early Childhood Laboratory 1 ................. 1
- EDEC 440 Methods of Teaching Primary Math/Science/Social Studies and Computer Use ......................... 5
- EDEC 430 Early Childhood Laboratory 2 ..................... 1
- EDEC 540 Methods of Teaching in the Arts .................... 2
- EDEC 510 Integration of Curriculum ......................... 3
- EDUC 499 Student Teaching in Early Childhood .............. 12

Total - 48 Hours

Total Professional Early Childhood Education credit hours (including 100 hours of clinical experience): 48 Hours

Total General Education and Professional Credit Hours: 126 Hours

III. Teaching Specializations (18 Hours)

Included in the 78 hours are the following 18-hour teaching specialization options: art, biology, English, history, or mathematics.

- Art
  - ART 305 Drawing: Life Study .............................. 3
  - ART 502 Drawing: Combined Media ......................... 3
  - ART 325 Advanced Problems in Design ..................... 3
  - ART 310 Ceramics .......................................... 3
  - ART 412 20th Century Art and Architecture ............... 3
  - ART 525 20th Century Art: Europe and the Americas ...... 3

Select at least three hours from the following non-Western contexts:

- ART 527 African Art and Cultures: ......................... 3
- ART 523 Pre-Columbian Art and Cultures: ................... 3
- ART 530 Asian Art and Thought: ............................ 3
- ART 525 Native American Art and Societies ............... 3

Total - 18 hours

- Biology
  - BIOL 306 Biological Science Foundations II ............. 3
  - BIOL 316 Plant Diversity .................................. 2
  - BIOL 317 Plant Diversity Laboratory ..................... 1
  - BIOL 320 Animal Diversity .................................. 2
  - BIOL 321 Animal Diversity Laboratory .................... 1
  - BIOL 322 Ecology .......................................... 3
  - LAS 430 Investigations in Scientific Thought ............ 3
Select at least three hours from the following:

BIOL 430 Microbiology (2)
BIOL 431 Microbiology Laboratory (2)
BIOL 455 Behavioral Ecology (3)
BIOL 516 Human Genetics (3)
BIOL 522 Ornithology (1)
BIOL 523 Ornithology Laboratory (2)

Total - 18 Hours

English
Survey of American Literature (equivalent to ENGL321) ........................................ 3
Literature other than children's literature .................................................... 6
Shakespeare ......................................................................................... 3
ENGL 570 Rhetorical Theory and Practice ............................................. 3

Select one of the following:
ENGL 532 Literature of Immigrant Children (3)
ENGL 535 Literature and History (3)
ENGL 545 Persuasion Analysis (3)

Total - 18 Hours

History
American History .............................................. 3
European History .................................................. 3
Non-American History ........................................... 3
LAS 410 Investigations in the Social Sciences .................. 3

Select two of the following:
HIST 310 American Economic History (3)
HIST 505 Modern African History (3)
HIST 510 Ascent of Man (3)
HIST 520 American Urban History (3)
HIST 540 Black Experience in the U.S. (3)
HIST 547 Latin American History (3)

Total - 18 Hours

Mathematics
Students planning to teach mathematics at the junior high level should consult with an advisor.
Calculus ............................................................... 3-6
Geometry (equivalent to MATH330) ........... 3
Probability and Statistics .................................. 3
LAS 440 Investigations in Mathematical Thought .... 3

Select from the following to total eighteen hours:
Algebra
Number Theory
Computer Programming (no more than three semester hours)
Discrete Mathematics

Total - 18 Hours

Bachelor of Arts in Elementary Education

The undergraduate major in Elementary Education prepares preservice teachers for teaching kindergarten through grade nine. Professional education courses provide preparation for teaching, and general education courses expand students' knowledge of elementary school curricula and their understanding of pupils. This curriculum provides a combination of classroom instruction, prestudent teaching field experiences, as well as the supervised student teaching experience.

Special Admissions Requirements

In addition to meeting university admissions criteria, applicants must have a cumulative GPA of 2.5 or higher for the last 60 hours of undergraduate work attempted.

Teacher Certification

This program is approved by the Illinois State Board of Education for recommendation of the Standard Elementary Certificate by entitlement. To be recommended for certification by Governors State University, students must complete at least 80 hours in general education and the professional education requirements in Elementary Education. General education courses may include both lower- and upper-division course work. Students must earn a grade of “B” or better in ELED499, Student Teaching.

Students must meet other requirements for certification through approved programs listed in the Teacher Certification section in this catalog.

To be recommended by Governors State University, students must apply for the certificate within one year of completing the program.

Admission to Teacher Education

Admission to teacher education is required before enrolling in the Elementary Education teaching laboratory sequences. To be admitted to teacher education students must:

1. meet all university admission requirements;
2. pass the university writing, mathematics, and reading placement examinations;
3. satisfactorily complete EDUC320, Introduction to Teaching; EDUC321, Effective Teaching and Laboratory; and
4. maintain satisfactory student progress as defined in the “Handbook for Undergraduate Students, Bachelor of Arts in Elementary Education.”
Admission to Student Teaching
All professional course work must be completed before enrolling in student teaching. For those student teaching in a content area at the middle-grades level, all endorsement requirements must also be completed.
To be admitted to student teaching, students must:
1. complete the required course work with a grade of "C" or better in each course;
2. complete at least 71 hours of general education requirements with a GPA of 2.75 or higher;
3. complete all professional education requirements with a GPA of 3.0 or higher;
4. complete 100 hours of prestudent teaching field experiences; and
5. complete at least 15 hours in the teaching specialization with a GPA of 2.75 or higher.
An application certifying that these requirements have been met must be submitted by March 1 for fall or by June 1 for the winter trimester to the coordinator of field experiences. Student teaching is not offered in the spring/summer trimester.

Degree Requirements
Students must meet all university requirements for a bachelor's degree, except students must complete the 80 hour General Education Requirement for Teacher Certification (Standard Elementary Certificate) below instead of the university General Education Requirement. Students must also:
1. complete all course work (44 hours of professional education and 80 hours of general education) with a grade of "C" or better in each course;
2. maintain a GPA of 3.0 or higher in professional education courses;
3. maintain a GPA of 2.75 or higher in all general education courses taken at Governors State University with a grade of "C" or better each course;
4. complete at least one three-hour course in non-Western or third world cultures;
5. complete all course work at Governors State University within five calendar years; and
6. maintain satisfactory student progress as defined in the "Handbook for Undergraduate Students, Bachelor of Arts in Elementary Education." This handbook is available in the Division of Education Advising Office. Each student's progress will be reviewed periodically by the Professional Standards Committee. Students not maintaining satisfactory progress may be dismissed from the major.

I. General Education Requirement for Teacher Certification, Standard Elementary Certificate (80 Hours)
Course work acceptable for meeting these requirements must be college level work and may not include remedial courses even if college credit is granted. Generally, this course work must be at the 100-level or higher and applicable toward a degree at the institution providing the instruction. Courses with grades below "C" will not be accepted toward the degree.
The following course work must include at least one three-hour course in non-Western or third world cultures. This course work should be completed at the lower-division level:

| Written Communication | 6 |
| Oral Communication | 3 |
| Mathematics Structures and Concepts | 6 |
| Biological and Physical Science (including laboratory) | 12 |
| Survey of American History | 3 |
| Art and Music | 3 |
| Literature | 3 |
| U.S. Government | 3 |
| Psychology | 3 |
| Sociology | 3 |
| Health/Nutrition | 2 |
| Humanities (equivalent to LAS420) | 3 |
| General Linguistics | 3 |
| Computer Education (equivalent to EDCP500) | 3 |
| Child Growth and Development (equivalent to EDUC330) | 3 |

Select one of the following courses. This course cannot be one that is required in the teaching specialization.

| LAS 410 Investigations in the Social Sciences | 3 |
| LAS 430 Investigations in Scientific Thought | 3 |
| LAS 440 Investigations in Mathematical Thought | 3 |

Teaching Specialization ........................................ 18

Select one of the teaching specializations listed in the Teaching Specializations section on the following page. At least nine upper-division hours must be in upper-division courses.

II. Professional Education Courses (44 Hours)
The following courses must be taken at the upper-division level:

| EDUC 320 Introduction to Teaching | 3 |
| EDUC 321 Effective Teaching and Laboratory | 4 |
| EDUC 440 Educational Psychology: Psychology Applied to Teaching | 3 |
| EDUCS40 Educational Psychology: Early Adolescent Psychology Applied to Teaching | 3 |
| SPED 510 Survey of Exceptional Students | 3 |
| ELED 301 Teaching Laboratory I | 1 |
| ELED 302 Teaching Language Arts in Elementary Schools | 3 |
| ELED 303 Developmental Reading in Elementary Schools | 3 |
ELED 401 Teaching Laboratory II ......................... 1
ELED 450 Corrective Reading Instruction ............... 2
ELED 460 Teaching Science in Elementary Schools .... 3
ELED 463 Teaching Mathematics in Elementary Schools .......................................................... 3
ELED 466 Teaching Social Studies in Elementary Schools ......................................................... 3
ELED 499 Student Teaching ........................................... 12

Additional credits will be required for students seeking middle-grades endorsement (see your advisor).

III. Total - 124 Hours

Teaching Specializations

In consultation with a program advisor, students will select 18 hours of course work within one of the following teaching specializations. At least nine hours must carry upper-division credit.

Biology
BIOL 306 Biological Science Foundations II ............ 3
BIOL 316 Plant Diversity ........................................... 2
BIOL 317 Plant Diversity Laboratory ......................... 1
BIOL 320 Animal Diversity ....................................... 2
BIOL 321 Animal Diversity Laboratory ...................... 1
BIOL 322 Ecology ..................................................... 3
LAS 430 Investigations in Scientific Thought .......... 3

Select at least three hours from the following:
BIOL 430 Microbiology (2)
BIOL 431 Microbiology Laboratory (2)
BIOL 455 Behavioral Ecology (3)
BIOL 516 Human Genetics (3)
BIOL 522 Ornithology (1)
BIOL 523 Ornithology Laboratory (2)

Chemistry
CHEM 308 Chemical Science Foundations II ............ 3
CHEM 315 Analytical Chemistry .............................. 3
CHEM 316 Analytical Chemistry Laboratory ............. 2
CHEM 322 Introduction to Organic Chemistry ......... 3
CHEM 323 Introduction to Organic Chemistry Laboratory .......................................................... 1
CHEM 506 Environmental Chemistry Laboratory ........ 1
LAS 430 Investigations in Scientific Thought .......... 3

English
Survey of American Literature (equivalent to ENGL321) .... 3
Literature other than children’s literature .......... 6
Shakespeare ......................................................... 3
ENGL 570 Rhetorical Theory and Practice ................. 3

Select one of the following:
ENGL 532 Literature of Immigrant Children (3)
ENGL 535 Literature and History (3)
ENGL 545 Persuasion Analysis (3)

History
At least one of the following is required:
American History ................................................. 3
European History ................................................. 3
Non-American History ........................................... 3
LAS 410 Investigations in the Social Sciences .......... 3

Select two of the following:
HIST 310 American Economic History (3)
HIST 505 Modern African History (3)
HIST 510 Ascent of Man (3)
HIST 520 American Urban History (3)
HIST 540 Black Experience in the U.S. (3)
HIST 547 Latin American History (3)

Mathematics

Students planning to teach mathematics at the junior high level should consult with an advisor.

Calculus .......................................................... 3-6
Geometry (equivalent to MATH330) .................... 3
Probability and Statistics ................................. 3
LAS 440 Investigations in Mathematical Thought .... 3

Select from the following to total 18 hours:
Algebra
Number Theory
Computer Programming (no more than three semester hours)
Discrete Mathematics

Middle Grades Endorsement

Students who are majoring in Elementary Education may obtain an endorsement which prepares them for teaching in the middle grades. Students choosing to pursue this endorsement must take three hours in the psychology of early adolescent development and three hours in curriculum, instruction, and methods related to the middle grades. Students should contact the Division of Education office for the specific course numbers.

Bachelor of Arts in Psychology

The undergraduate major in Psychology provides students with a knowledge of the factors that affect human behavior and the techniques that treat behavioral and psychological disorders. The curriculum provides many opportunities for development of special interests, personal growth, and research in the behavioral sciences, under faculty supervision.

Undergraduate students who expect to do graduate study in psychology should, with the assistance of their advisor, carefully select the courses that will qualify them for admission to a graduate program. Graduate programs commonly require twenty-four to thirty hours in undergraduate psychology, including statistics, research methodology, cognitive or learning psychology, developmental psychology, experimental psychology, social psychology, and abnormal psychology.

Degree Requirements

Students must meet all university requirements for a bachelor’s degree.
I. General Education Requirement (18 Hours)
   Note: Up to twenty-one hours of the courses marked with (*) below may be applicable to general education requirements.

II. Required Courses (36 Hours)
   The following courses can be taken at either the lower-division or upper-division level:
   * PSYC 310 Principles of Psychology ......................... 3
   * PSYC 410 Personality Theories ................................ 3
   * PSYC 430 Abnormal Psychology .................................. 3
   * PSYC 445 Social Psychology .................................... 3

   The following courses must be taken at the upper-division level:
   * PSYC 422 Learning Cognition ................................... 3
   * PSYC 440 History and Systems of Psychology ............... 3
   PSYC 460 Professional Standards in Human Service and Research .......................................... 3
   * PSYC 512 Child Development ................................... 3
   PSYC 524 Principles of Behavior Change ....................... 3
   PSYC 544 Theories and Treatment of Life Problems ........ 3
   PSYC 560 Research Methodology ................................ 3
   STAT 468 Statistics ................................................. 3

III. Upper-Division Laboratory Selective (2 or 3 Hours)

Select one of the following:
   PSYC 412 Laboratory in Transactional Analysis (2)
   PSYC 506 Laboratory in Personal Stress Management (2)
   PSYC 532 Laboratory in Assertiveness Training (3)
   PSYC 538 Laboratory in Feelings and Meanings (3)
   PSYC 573 Laboratory in Alternative Lifestyles and the Helping Professions (3)

IV. Electives (63-64 Hours)

V. Total - 120 Hours

Bachelor of Arts in Psychology with a Mental Health Concentration

Students with an interest in the area of mental health may pursue the undergraduate major in Psychology with a concentration in mental health. The mental health concentration focuses on recent trends and legislation to provide services in the community, providing treatment in the least restrictive environment, and to broaden the perspective of mental health from servicing patients to servicing persons experiencing emotional difficulties because of economic hardships, family problems, or physical or social handicaps. Graduates are prepared for employment in both privately and publicly funded agencies providing mental health services.

Undergraduate students who expect to do graduate study in psychology should, with the assistance of their advisor, carefully select the courses that will qualify them for admission to a graduate program. Graduate programs commonly require twenty-four to thirty hours in undergraduate psychology, including statistics, research methodology, cognitive/learning, developmental psychology, experimental psychology, social psychology, and abnormal psychology.

Degree Requirements

Students must meet all university requirements for a bachelor’s degree.

I. General Education Requirement (18 Hours)
   Note: Up to twenty-one hours of the courses marked with (*) below may be applicable to general education requirements.

II. Required Courses (41 Hours)
   The following courses can be taken at either the lower-division or upper-division level:
   * PSYC 310 Principles of Psychology ......................... 3
   * PSYC 410 Personality Theories ................................ 3
   * PSYC 430 Abnormal Psychology .................................. 3
   * PSYC 445 Social Psychology .................................... 3
   PSYC 412 Laboratory in Transactional Analysis ........ 2
   * PSYC 422 Learning Cognition ................................... 3
   PSYC 440 History and Systems of Psychology ............... 3
   PSYC 446 Psychological Issues and Values .................... 3
   PSYC 460 Professional Standards in Human Service and Research .......................................... 3
   * PSYC 512 Child Development ................................... 3
   * PSYC 524 Principles of Behavior Change .................. 3
   PSYC 544 Theories and Treatment of Life Problems ........ 3
   PSYC 560 Research Methodology ................................ 3
   STAT 468 Statistics ................................................. 3

III. Introduction to Therapy Selective (3 or 4 Hours)
   Select one course:
   PSYC 545 Introduction to Short-Term Dynamic Psychotherapy (3)
   PSYC 555 Introduction to Therapy with Children (4)
   PSYC 558 Introduction to Therapy with Adults (4)
   COUN 544 Introduction to Family Dynamics (3)

IV. Mental Health Selective (3 Hours)
   Select one course:
   ADAS 500 Substance Abuse: Current Concepts (3)
   COUN 510 Physical and Sexual Abuse of Children (3)
   PSYC 480 Field Experience (3)
   PSYC 505 Introduction to Stress Management (3)

V. Developmental Psychology Selective (3 Hours)
   Select one course:
   PSYC 510 Adolescence (3)
   PSYC 514 Understanding Men (3)
   PSYC 515 Adulthood (3)
   PSYC 519 Psychosocial Aspects of Aging (3)
   PSYC 529 Psychology of Women (3)
VI. Laboratory Selective (2 or 3 Hours)

Select at least two hours from the following:
- PSYC 506 Laboratory in Personal Stress Management (2)
- PSYC 532 Laboratory in Assertiveness Training (3)
- PSYC 538 Laboratory in Feelings and Meanings (3)
- PSYC 573 Laboratory in Alternative Lifestyles and the Helping Professions (3)

VII. Electives (48-50 Hours)

VIII. Total - 120 Hours

Psychology Minor

An undergraduate minor in Psychology is offered to students majoring in other fields. This minor is particularly appropriate for those students whose area of study relies heavily upon knowledge of psychology, as well as for those students who simply desire additional work in psychology.

Requirements for the Minor

Students must:
1. complete at least nine hours of course work at Governors State University; and
2. submit transfer courses to the minor advisor for approval by the first week of the trimester of intended graduation.

I. Required Courses (3 Hours)
- PSYC 310 Principles of Psychology (3)

II. Developmental Selective (3 Hours)

Select one course:
- PSYC 510 Adolescence (3)
- PSYC 512 Child Development (3)
- PSYC 515 Adulthood (3)
- PSYC 519 Psychosocial Aspects of Aging (3)

III. Personality Selective (3 Hours)

Select one course:
- PSYC 410 Personality Theories (3)
- PSYC 430 Abnormal Psychology (3)
- PSYC 435 Personality and Patterns of Adjustment (3)

IV. Application Selective (3 Hours)

Select one course:
- PSYC 340 Industrial Psychology (3)
- PSYC 445 Social Psychology (3)

V. Cognitive Selective (3 or 4 Hours)

Select one course:
- PSYC 422 Learning Cognition (3)
- PSYC 523 Cognitive Development (4)
- PSYC 536 Motivation and Emotional Development (4)

VI. Research Selective (3 Hours)

Select one course:
- PSYC 524 Principles of Behavior Change (3)
- PSYC 560 Research Methodology (3)
- STAT 468 Statistics (3)

VII. Total - 18 or 19 Hours
The undergraduate degree programs in the College of Health Professions prepare students for a variety of employment opportunities in the health field or for further education in graduate programs.

All majors provide extensive community-based field experiences and exposure to, or participation in, research activities through a vast network of hospitals and alternative delivery systems in the Chicago region. Traditional lecture-discussion technology-based presentations and seminar courses provide the theoretical bases for clinical and research experiences. The college offers some courses of general and interdisciplinary interest to students in the other colleges, but most courses are designed to meet the professional education needs of the various majors.

Undergraduate Programs

Communication Disorders (B.H.S.)
Health Administration (B.H.A.)
Nursing (B.S.)
Social Work (B.S.W.)

Minors
Addictions Studies
Social Work

Accreditations

The undergraduate Nursing major is approved by the Illinois Department of Professional Regulation and accredited by the National League for Nursing.

The undergraduate Health Administration major has full membership status in the Association of University Programs in Health Administration.

The undergraduate Social Work major is nationally accredited by the Council on Social Work Education.

DEGREE REQUIREMENTS FOR UNDERGRADUATE PROGRAMS

The university degree requirements for undergraduate programs are listed in the General Education Requirements section of this catalog. Requirements for specific degree programs follow.

Addictions Studies Minor

An undergraduate minor in Addictions Studies is available to students majoring in other fields. This minor is particularly appropriate for those students whose chosen career area will bring them into contact with substance abusers and their collaterals.

Requirements for the Minor

Students must meet all university requirements for a minor. In addition, students must:

1. complete at least nine hours of the required course work listed below at Governors State University and
2. submit transfer courses to the minor advisor for approval by the first week of the trimester of intended graduation.

Bachelor of Health Science in Communication Disorders

The undergraduate major in Communication Disorders offers preprofessional education in speech-language pathology, audiology, and related areas. The curriculum includes courses in fundamental areas necessary to understand normal aspects of speech, language, and hearing. Course work also is offered to give the student basic knowledge concerning disorders of speech, language, and hearing and approaches to their assessment and remediation. Education at this level is considered prerequisite to a graduate degree program.

Certification

As a preprofessional curriculum, the undergraduate major does not qualify students for state teaching and national certification, but rather provides the foundation necessary for the graduate curriculum which leads to certification. Students who plan to pursue the Standard Special Certificate in Speech and Language Impaired should refer to the Teacher Certification section of this catalog for requirements for certification through approved programs, professional education requirements, and general education requirements that must be met to be recommended for teacher certification. Such students should contact an advisor as soon as possible to identify course work required in addition to that listed below.

Degree Requirements

Students must meet all university requirements for a bachelor's degree except students are to fulfill either the university General Education Requirement or complete the General Education Requirement for the Standard Special Certificate. One of these two requirements must be completed in its entirety.

Students planning to pursue the Standard Special Certificate in Speech and Language Impaired should take as electives the required professional education courses for the Standard Special Certificate as specified in the Teacher Certification section of this catalog.

I. General Education Requirement (21 Hours)

or

General Education Requirement for the Standard Special Certificate (47 Hours)

Students planning to pursue the Standard Special Certificate in Speech and Language Impaired should elect the General Education Requirement for the Standard Special Certificate.

Note: Up to fifteen hours of the courses marked with (*) below may be applicable to university general education requirements.

II. Required Courses (48 Hours)

The following courses can be taken at either the lower-division or upper-division level:

- Child Development ................................ 3
- Statistics ............................................. 3
- PSYC 301 Principles of Psychology ................. 3
- CDIS 304 Phonetics ..................................... 3
- CDIS 310 Introduction to Communication Disorders ......................................................... 3
- CDIS 322 Speech and Language Development ....... 3
- CDIS 330 Speech and Hearing Science ............... 3
- CDIS 345 Anatomy and Physiology of the Speech and Hearing Mechanisms .......................... 3
- CDIS 401 Articulation Disorders ..................... 3
- CDIS 410 Introduction to Audiology ................. 3
- CDIS 435 Introduction to Childhood Language Disorders ............................................. 3
Bachelor of Health Administration

The undergraduate major in Health Administration trains administrators who will be able to develop and manage health services organizations and programs. The curriculum is designed to be an educational mechanism through which students obtain the understanding and skills necessary for health administration. Specifically, the major is designed to train administrators for unit or department head positions in large and complex health care institutions such as hospitals; and for executive director positions in small and/or less complex health care institutions, such as clinics, nursing homes, insurance, medical group management, ambulatory care management, and family service agencies.

Accreditation

The undergraduate major has full membership status granted by the Association of University Programs in Health Administration (AUPHA).

Degree Requirements

Students must meet all university requirements for a bachelor's degree.

All required courses and the upper-division selectives must be completed with a grade of "C" or better.

In addition, all students must complete a pregraduation survey.

I. General Education Requirement (39 Hours)

II. Required Administrative and Management Courses (24 Hours)

V. Total Credit Hours - 120 Hours

Bachelor of Science in Nursing

The undergraduate major in Nursing provides registered nurses who are graduates from either an associate degree or a diploma program an opportunity to obtain a baccalaureate degree in Nursing. This major is designed to prepare nurses to practice as generalists in health care settings with clients of all ages and acquaints the nurse with the historical development of nursing and trends affecting nursing and health care delivery. Leadership abilities of the professional nurse are emphasized. The theoretical basis of nursing and the changing scope of nursing practice are analyzed. Beginning research activities are developed. This major also prepares students for future graduate nursing education.

Accreditation

This major is accredited by the National League for Nursing and is approved by the Illinois Department of Professional Regulation.

Special Admission Requirements

In addition to meeting university admissions criteria, applicants must:

1. have earned at least twenty-six hours of lower-division nursing credits with a grade of "C" or better in each course. Applicants with an associate degree in nursing from a National League for Nursing (NLN) accredited program may transfer this credit; applicants with an associate degree in nursing from a non-NLN accredited program may receive this credit.
by taking the NLN Nursing Mobility Profile II tests in Care of the Adult Client (#01-5313) and Care of the Client During Childbearing/Care of the Child (#02-5323). These examinations must be passed with a standard score of eighty-five or better. Applicants who have graduated from a diploma program may receive this credit by taking the American College Testing (ACT) Proficiency Examinations in Maternal and Child Nursing (AA#453), Adult Nursing (AA#554), and Psychiatric/Mental Health Nursing (AA#503). These examinations must be passed with a standard score of forty-five or better. Examination reports reflecting acceptable scores on each examination must be on file before admission to the major. These examinations are administered by the Office of Student Development at Governors State University.

2. have completed the following lower-division course work: four hours of anatomy and physiology, four hours in microbiology, four hours in general chemistry, and four hours in organic chemistry, six hours in English (English 101 and 102), three hours in general psychology, and three hours in general sociology. Applicants lacking these lower-division course requirements are encouraged to take the College Level Examination Program (CLEP) tests in these areas. These examinations are administered at various institutions of higher education throughout the Chicago metropolitan area;

3. be currently licensed as a registered professional nurse in the State of Illinois; and

4. carry current nursing malpractice/liability insurance.

Applicants with credentials from countries other than the United States must have their credentials evaluated through the Office of Admissions to determine eligibility for admission. These applicants will be required to take and pass the Test of English as a Foreign Language (TOEFL) with a score of 500 or better.

Applicants must assume all responsibility for fees associated with testing.

All required credentials must be on file in the Office of Admissions before applicants can be admitted to the program.

Degree Requirements

Students must meet all university requirements for a bachelor’s degree.

In addition, all nursing courses must be completed with a grade of “C” or better. A student may repeat a nursing course only once to earn a grade of “C” or better without being academically dismissed from the degree program.

I. General Education Requirement (18 Hours)

Note: Up to twenty-four hours of the courses marked with (*) below may be applicable to general education requirements.

II. Required Courses (99 Hours)

The following courses must be taken at the lower-division level:

Lower-Division Nursing Course Work

*Anatomy and Physiology ......................... 4
*General Chemistry ............................... 4
*Microbiology ...................................... 4
*English 101 ...................................... 3
*English 102 ...................................... 3
*General Psychology .............................. 3
*General Sociology .............................. 3

The following courses can be taken at either the lower-division or upper-division level:

*Organic Chemistry ............................... 4
Statistics ......................................... 3

*ANTH 310 Trends in Cross-Cultural Analysis ........ 3
Humanities Elective ................................ 3
Social Science Elective ............................ 3

The following courses must be taken at the upper-division level:

* BIOL 444 Human Physiology I ................. 2
* BIOL 445 Human Physiology I Laboratory .... 1
* BIOL 446 Human Physiology II ................ 2
* BIOL 447 Human Physiology II Laboratory .. 1
* CHEM 544 Biochemistry: Lecture ............... 3
* CHEM 545 Biochemistry: Laboratory .......... 1
PHIL 386 Logic .................................... 3
NURS 304 Conceptual Basis for Professional Nursing .............................................. 3
NURS 306 Gerontological Nursing: Health Promotion for Older Adults ..................... 3
NURS 311 Collaboration in Nursing ............... 3
NURS 320 Teaching of Individuals/Families/ Community ........................................... 3
NURS 330 Nursing Health Assessment ............ 5
NURS 400 Nursing Research: Analysis and Utilization ............................................. 3
NURS 410 Management in Nursing Care .......... 3
NURS 420 Community Health Nursing ............ 7
NURS 430 Episodic Nursing ........................ 7
NURS 440 Nursing Seminar and Practicum ....... 4

III. Total - 120 Hours
**Bachelor of Social Work**

The undergraduate major in Social Work prepares students for entry level professional social work practice. Graduates practice as generalists in agencies and organizations throughout the region in a wide variety of health and human service fields. They are prepared to assist people as individuals, in families, groups, organizations, and communities to deal with social and emotional difficulties related to the many stresses and strains of modern life. Requirements include the acquisition of an ecological perspective on human behavior for understanding of the ways people influence and are affected by all of the environments they experience, such as family, work, school, the economy, politics, and the spiritual.

A belief in the capacity of people to grow and change, to make positive, constructive decisions on their own and others’ behalf, and an appreciation of the value of human diversity is emphasized. Students are provided learning opportunities for the development of cultural competence, critical thinking skills, and research knowledge and skills, especially those which facilitate the evaluation of one’s own practice. Professional values and ethics, systems theories and principles, practice theories and methods, social policy issues and processes, and knowledge and skills for effective interprofessional teamwork are important aspects of the social work curriculum. Agency experiences, including an advanced field practicum, provide the student with opportunities for integration and synthesis of learning as well as exploration of fields of social work practice. Graduates have the background to pursue graduate studies in social work, psychology, addictions, law, and other related fields.

**Accreditation**

The Social Work major is nationally accredited by the Council on Social Work Education.

**Special Admission Requirements**

In addition to meeting university admission criteria, applicants must:

1. have completed three hours of course work in oral communication and an additional three hours of course work in written communication with a grade of "C" or better;
2. submit two recommendations from former instructors and employers. Recommendation forms are available in the university Admissions Office; and
3. participate in an interview that will review academic preparation and appropriateness of a social work career choice.

Students are normally admitted to the major during the fall trimester. A limited number of part-time students are admitted during the year.

**Degree Requirements**

Students must meet all university requirements for a bachelor’s degree.

In addition, students must:

1. earn a grade of "C" or better in course work in human biology and logic;
2. maintain a cumulative GPA of 2.0 or higher;
3. earn a grade of "C" or better in social work courses; and
4. complete supervised practicum experiences totaling 430 clock-hours in approved human service organizations.

I. **General Education Requirement (12 Hours)**

   Note: Up to twenty-seven hours of the courses marked with (*) below may be applicable to general education requirements.

II. **Required Courses (73 Hours)**

   The following courses should be taken at the lower-division level:
   - *American or English Literature ...................... 3
   - *American History .................................... 3
   - Abnormal Psychology .................................. 3
   - *Cultural Anthropology ............................... 3
   - *Human Biology ....................................... 3
   - Logic .................................................. 3
   - *Sociology of Social Problems ........................ 3
   - *U.S. Government .................................... 3

   The following courses can be taken at either the lower-division or upper-division level:
   - *Macroeconomics .................................. 3
   - Statistics ............................................. 3

   The following courses must be taken at the upper-division level:
   - ADDS 500 Substance Abuse: Current Concepts ........ 3
   - SOCW320 Social Welfare Services and Professional Roles ............................................. 3
   - SOCW350 Social Work Perspectives on Human Behavior .............................................. 3
   - SOCW380 Social Work Practice: Ethics, Values and Interviewing .................................. 3
   - SOCW390 Field Practicum and Proseminar I ............ 3
   - SOCW415 Field Practicum Assessment and Planning ............................................. 1
   - SOCW444 Social Work Practice: Intervention Strategies I ........................................ 3
   - SOCW445 Social Work Practice: Intervention Strategies II ........................................... 3
   - SOCW455 Human Diversity: Myths, Realities, and Opportunities ................................. 3
   - SOCW490 Field Practicum and Proseminar II ............ 6
SOCW 530 Urban Dynamics .......................... 3  
SOCW 565 Interprofessional Teamwork in  
Health and Human Services ..................... 3

III. Upper-Division and Social Work Selectives (9 Hours)  
Select nine hours from among the following courses  
or other courses that support student interests, with  
approval of advisor:  
SOCW 459 Law for Human Service Professionals (3)  
SOCW 570 Social Work in Health Care (3)  
SOCW 575 Children and Families: Problems,  
Issues, and Services (3)  
SOCW 595 Management and Supervision in the  
Human Services (3)

IV. Electives (26 Hours)  
V. Total - 120 Hours

Social Work Minor  
An undergraduate minor in Social Work is offered for  
students majoring in other university curricula. The  
minor is particularly appropriate for students who have  
chosen to pursue another human service or health  
profession career. Such students will benefit from the  
expansion of their knowledge, skill, and value base  
provided by the minor. The minor provides alternative  
career possibilities as well as enhancement to prepare for  
another chosen profession. It also provides useful  
knowledge for any student about social welfare systems,  
policies, issues, intervention strategies, and services  
which impact on the lives of every individual in the  
United States.

Requirements for the Minor  
Students must meet all university requirements for a  
minor. Entrance into the minor must be approved by the  
program. Before applying for the social work minor,  
students should complete a minimum of nine hours at the  
lower-division level, from a combination of three out of  
the five following disciplines:  

Anthropology  
Human Biology  
Political Science  
Psychology  
Sociology

I. Required Courses (18 Hours)  
SOCW 320 Social Welfare Services and  
Professional Roles .................................. 3  
SOCW 350 Social Work Perspectives on  
Human Behavior ................................... 3  
SOCW 510 Social Welfare Policy:  
Issues and Processes .............................. 3

Select one of the following:  
SOCW 565 Interprofessional Teamwork in  
Health and Human Services ................... 3  
SOCW 595 Management and Supervision in  
Human Services .................................... 3

Select two of the following:  
SOCW 455 Human Diversity: Myths, Realities,  
and Opportunities ............................ 3  
SOCW 459 Law for Human Service Professionals .... 3  
SOCW 570 Social Work in Health Care .......... 3  
SOCW 575 Children and Families: Problems,  
Issues, and Services ............................ 3

II. Total - 18 Hours
The College of Arts and Sciences provides advanced educational opportunities founded upon the traditions of the liberal arts and sciences and evolving within the learning opportunities they afford. The curriculum of each program within CAS is focused on the specialized body of knowledge relevant to the student's field of study and builds on that knowledge to create an intellectual foundation which will enable graduates to meet future challenges. To this end, the graduate curriculum consists of a combination of advanced coursework and research. Students are assisted in this endeavor by faculty who have distinguished records as teachers and scholars and who understand the needs of students within a world of rapidly changing information and resources.

Technology is changing the workplace, requiring that students in all majors learn and use information and other technologies. CAS graduate students have the opportunity of learning in extensive facilities on campus and at the university's satellite sites. The well-equipped facilities include computer, biology, chemistry, and electronic imaging laboratories; film and television studios with sophisticated production and editing equipment, photography facilities; and art studios and galleries.

CAS sponsors educational events and provides extracurricular activities for students and residents of the region. The calendar of events includes concerts, art exhibits, workshops, and symposia on a wide range of subjects related to social, natural, and physical sciences.

Throughout the year, the intellectual life of the university community is enriched by the Distinguished Scholar-Statesman-Artist-Scientist Lecture Series, the Third World Conference, and the Media Symposia. The college also offers a series of courses in the Arts and Sciences Practicing Professional Series. This series is designed to enhance the knowledge and skills of people employed in fields related to the degree programs in the college.

The college is committed to creative exploration of important issues and developments, addressing diverse topics—such as language and culture, global studies, the environment, energy, new communications/information technologies, and national and local informational infrastructures—and discovering the interconnections. Through sponsored activities and the individual actions of student and faculty, the College of Arts and Sciences will continue to play a leadership role in the university's process of addressing the concerns of our time—their identification, their investigation, and their ultimate solutions.

Graduate Programs

Analytical Chemistry (M.S.)
Art (M.A.)
Communications and Training (M.A.)
Computer Science (M.S.)
English (M.A.)
Environmental Biology (M.S.)
Political and Justice Studies (M.A.)
DEGREE REQUIREMENTS FOR GRADUATE PROGRAMS

The university degree requirements for graduate programs are listed in the Master's Degree Requirements section of this catalog. Requirements for specific degree programs follow.

Master of Science in Analytical Chemistry

The graduate major in Analytical Chemistry prepares students for employment as analytical chemists in public and private laboratories that specialize in the application of wet chemical and instrumental procedures to problem solving. This graduate major is designed to build upon an undergraduate background in chemistry or a related field, providing a theoretical base in analytical chemistry while emphasizing practical experience with analytical instrumentation. Hands-on experience with instrumentation is the focus of the curriculum and is its most important asset. Recognizing the importance of future genetic engineering technology and the analytical techniques that will need to be developed to support it, the curriculum also has a biochemistry component.

Faculty research interests range widely and include topics such as photochemistry, spectrochemistry, trace analysis of organic pesticides, chromatography and gas chromatography/mass spectrometry, electrochemistry, analysis of metals in the environment, water analysis, biochemistry, computational chemistry, equations of state, particular aspects of science education, bio-organic chemistry, organometallic chemistry, and catalysis.

Recommended Preparation

Before admission, applicants should have completed the following course work with a grade of "C" or better in each course: four hours of analytical chemistry with lab (CHEM315, CHEM316); eight hours of physical chemistry with lab (CHEM366, CHEM367, CHEM368, CHEM369); eight hours of organic chemistry with lab (CHEM341, CHEM342, CHEM343, CHEM344); three hours of biochemistry (CHEM544); three hours of advanced inorganic chemistry (CHEM433); three hours of statistical methods (STAT520); three hours of computer programming in either an Introduction to (equivalent to CPSC305), BASIC (equivalent to CPSC320), FORTRAN (equivalent to CPSC330), or Pascal (equivalent to CPSC340); and one hour of chemical literature (equivalent to CHEM455). Students lacking one or more of these courses or having less than a "C" in a course may be admitted to the program. However, they will have to complete or repeat the appropriate course(s) at Governors State.
Thesis/Project Option
As part of this degree program, students must choose between a thesis or project option.

In the thesis option, students develop a thesis proposal usually related to a faculty member's research, carry out a formal research study under the supervision of the faculty member and a degree committee, prepare a final manuscript, and make a presentation in CHEM899, Research Presentation in Chemistry. The thesis option would be appropriate for students who have focused research interests or who intend to pursue doctoral study.

In the project option, students develop a master's project proposal, complete a master's project in conjunction with a faculty member, and prepare a final report. The project student makes a presentation of the relevant literature in CHEM899, Research Presentation in Chemistry.

Admission to Candidacy
After admission as a degree-seeking student, a student also must be admitted to candidacy. To qualify for degree candidacy, a student must:
1. complete the prerequisite course work listed above with a grade of "C" or better in each course;
2. complete at least half of the courses listed under Required Courses below with a GPA of 3.0 or higher; and
3. complete an approved proposal for a thesis topic or a master's project.

More detailed candidacy information is available through the division office or the student's advisor.

Degree Requirements
Students must meet all university requirements for a master's degree.

I. Required Courses (22 Hours)
   - CHEM622 Chromatography ........................................ 3
   - CHEM623 Chromatography Laboratory .......................... 1
   - CHEM661 Organic Spectrochemistry ............................ 2
   - CHEM662 Organic Spectrochemistry Laboratory .......... 1
   - CHEM663 Inorganic Spectrochemistry ......................... 2
   - CHEM664 Inorganic Spectrochemistry Laboratory ......... 1
   - CHEM744 Analytical Biochemistry ......................... 2
   - CHEM745 Analytical Biochemistry Laboratory ............ 1
   - CHEM855 Electrochemistry .................................... 3
   - CHEM856 Electrochemistry Laboratory ..................... 1
   - CHEM895 Chemistry Colloquium .............................. 1
   - STAT 820 Experimental Design for the Natural Sciences ........................................ 4

II. Select 7 Hours:
   - CHEM810 Special Topics: (3)
   - CHEM822 Gas Chromatography/Mass Spectrometry (3)
   - CHEM823 Gas Chromatography/Mass Spectrometry Laboratory (1)
   - BIOL 610 Advanced Microbiology (1)
   - BIOL 611 Advanced Microbiology Laboratory (2)
   - BIOL 630 Aquatic Systems (2)
   - BIOL 631 Aquatic Systems Laboratory (2)
   - BIOL 641 Toxicology (3)
   - BIOL 810 Special Topics: (3)
   - CPSC 610 Computing for Scientists (3)

   Other graduate level science courses as approved by the academic advisor.

III. Thesis/Project Option (4 Hours)
   - CHEM890 Graduate Thesis/Project (3)
   - CHEM899 Research Presentation in Chemistry (1)

IV. Total - 33 Hours

Master of Arts in Art
The graduate major in Art stresses intellectual curiosity, self-discipline, and technical proficiency. With course work in painting, printmaking, photography, digital imaging, sculpture, or ceramics, the art studio student is directed to become a mature artist in command of the medium and capable of expressing an individual view. Students are encouraged to develop perception and imagination, combined with an awareness of visual elements, principles of design, artistic statement, and criticism.

The graduate Art program enables students either to become practicing artists or to achieve a level of scholarship that can help them to be art experts or professional educators. With a growing interest and expanding use of the arts in contemporary life, the employment outlook for art majors continues to be promising.

Classes in art history treat art objects as historical documents related in subject, style, technique, and material to other works of art and interpret their context and purpose. Courses range from contemporary international and regional artistic expressions to those of ancient America, Africa, and Asia. Students with an interest in art history elect a specific subject area.

Special Admission Requirements
In addition to meeting university criteria, applicants must:
1. have an undergraduate major in one of the humanities; and
2. have submitted a proposal, acceptable to the degree program advisor, that outlines academic goals with supporting rationale and plan of study and includes
examples of previous work (e.g., sculptures, research papers, drawings, prints, or paintings, etc.). Students will not be admitted to the major until the proposal reflecting potential for graduate work has been approved by the degree program advisor.

**Thesis Requirement**

As part of this degree program, students are to select with advisor’s approval either an art history or studio option.

The art history thesis consists of an analytical and historical approach to the study of a particular artist, art object, movement, or theme in the visual arts. In the thesis option, the student develops a thesis proposal in an area of art history acceptable to the program advisor, completes a research project, and prepares a formal thesis manuscript.

In the art studio option, the student prepares a one person exhibition of a consistent body of work in the student’s area of interest and written documentation of the work and development.

**Admission to Candidacy**

Application for candidacy should be made after nine hours of graduate studio or graduate art history courses have been completed. To qualify for degree candidacy, a student must:

1. complete nine hours of graduate studio or graduate art history courses with a GPA of 3.0 or higher and
2. complete an approved thesis proposal.

More detailed candidacy information is available through the student’s advisor.

**Degree Requirements**

Students must meet all university requirements for a master’s degree.

I. **Required Courses (15 Hours)**

   ART 615 Contemporary American Ideas and Cultures ..................................................... 3
   ART 805 Art and Society ........................................ 3
   ART 810 Studies in Art ........................................ 3
   ART 820 Art Seminar ........................................ 3
   ART 890 Graduate Thesis ........................................ 3

II. **Non-Western Art Selective (3 Hours)**

   Select one of the following:
   ART 521 Art and Cultures of the South Pacific (3)
   ART 523 Pre-Columbian Art and Cultures (3)
   ART 525 Native American Art and Societies (3)
   ART 527 African Art and Cultures (3)
   ART 530 Asian Art and Thought (3)

III. **Art Selectives (14 Hours)**

   Select fourteen hours from courses in one of the following areas with advisor’s approval:
   - Art History
   - Painting/ Drawing
   - Photography
   - Printmaking/Design
   - Sculpture
   - Digital Imaging

IV. **Total - 32 Hours**

**Master of Arts in Communications and Training**

The graduate major in Communications and Training provides an in-depth study leading to specialized knowledge and skills in human communications, media, and human performance and training technology. Students have the opportunity to receive a broad theoretical framework in their field as well as the specific skills needed in the professional world. The major prepares students as working professionals through three sequences: Communication Studies, Media Communications, and Human Performance and Training. The major also prepares students for further graduate study in the communications and training fields. Beyond taking the common required courses, students adapt the major to their individual needs and backgrounds by pursuing one of the three sequences and choosing appropriate elective courses. Students plan their specific programs in consultation with their advisors. Graduates of the program are in career areas such as advertising, cable TV, college teaching, consulting, customer service, human resource development, instructional design and development, journalism, media management, media writing, public affairs, public relations, TV production/ direction, and training.

**Recommended Preparation**

While admission to the major does not require an undergraduate major in Communications, Media Communications, Human Performance and Training, or a related field, an undergraduate major in one of the following fields is recommended: business, education, media, multimedia, communications, English, psychology, speech, or liberal arts. In addition, students are expected to have competence in oral and written communication skills demonstrable in their course work.
Internship/Thesis Option

As part of this degree program, students are to select an internship or thesis/project option, depending on the sequence chosen.

In the communication studies internship option, the student selects an internship and develops an internship agreement with the assistance of the internship site coordinator. Upon approval of the coordinator, the student may register for COMS880.

In the thesis/project option, the student develops a project or prepares a formal thesis/project manuscript. The project is prepared under the direction of a committee consisting of three faculty. Students may register for COMS890, MCOM890, or HP&T891 once the selection of the committee has been approved by the student’s program advisor.

Admission to Candidacy

After admission as a degree-seeking student, a student must apply for candidacy. Application for candidacy should be made at the beginning of the trimester in which the student expects to fulfill the candidacy requirements. To qualify for candidacy a student must complete 15 hours of course work in the major with a grade point average of "B" or higher.

More detailed candidacy information is available through the division office or the student’s advisor.

Degree Requirements

Students must meet all university requirements for a master’s degree and complete all required and sequence courses with a grade of "B" or higher in each course.

The M.A. in Communications and Training requires a common core of courses. The core concentrates on the essential connections between the sequences, awareness of the common aspects in research, and finally, the application to various media and technology.

Electives (12-15 Hours)

In consultation with advisor, select twelve to fifteen hours of graduate credit appropriate to the student’s career interest(s). At least six hours must be taken within the Division of Liberal Arts.

IV. Total - 36 Hours
Master of Science in Computer Science

The graduate major in Computer Science is an applications-focused program with a software engineering orientation. It is designed to prepare students for employment as software engineering professionals in a wide range of business, industrial, and government settings. It includes the theoretical base necessary to provide flexibility for meeting future professional needs, as well as enabling students to pursue doctoral studies at another institution should they wish to do so.

The program is designed for the practicing professional in the field. The principal themes are the design and development of software, systems programming, applications programming, and the effective use of software resources. As new kinds of computers emerge, software based on the most modern theories and procedures will be needed. Economic pressures will require effective and efficient linking of hardware and software systems. Those who best understand the development and management of software resources will be in the strongest position to derive benefits from these changes.

Faculty research interests range widely and include object-oriented programming, Windows programming, operating systems, artificial intelligence, and database systems. Research interests are reflected in the regularly scheduled courses and the special topics courses offered by the faculty.

Special Admissions Requirements

In addition to meeting university admissions criteria, applicants must have completed a bachelor’s degree with a GPA of 2.75 or higher and maintained a GPA of 3.0 or higher for any graduate work attempted.

Recommended Preparation

The graduate curriculum is based upon the completion of an undergraduate major in Computer Science that possesses a significant software engineering orientation. A bachelor’s degree in Computer Science, however, is not required for admission into the graduate program. Students who have earned their baccalaureate degrees in other areas will be required to complete appropriate prerequisite courses in addition to those required for the master’s degree. Essentially, applicants should have completed the equivalent of the following courses with a grade of “C” or better in each course:

- CPSC 345 Computer Programming: C++ ........................ 3
- CPSC 360 or CPSC 365 Assembly Language
  (A course in the assembly language of any computer will satisfy this requirement.) .... 3
- CPSC 370 Software Engineering: Design and Analysis or
- CPSC 465 Software Engineering: Project ..................... 3
- CPSC 405 Computer Organization ............................ 3
- CPSC 415 Data Structures ................................. 3
- CPSC 435 Operating Systems ............................... 3
- CPSC 445 Database Systems ............................... 3
- MATH 340 Discrete Mathematics ............................ 3
- MATH 355 Applied Calculus ................................. 3

Other courses may appear among the prerequisites for elective courses and therefore be required.

Thesis/Project Option

As part of this degree program, students may choose between a thesis or a project option.

In the thesis option, students develop a thesis proposal usually related to a faculty member’s research, carry out a formal research study under the supervision of the faculty member and a degree committee, prepare a final manuscript, and make a research presentation in a seminar. The thesis option is appropriate for students who have focused research interests or who intend to pursue doctoral study.

In the project option, students develop a master’s project proposal, complete the project in conjunction with a faculty member, and prepare a final report. This option allows students to broaden their practical experience and to gain more depth in a particular area of computer science in preparation for employment.

Admission to Candidacy

After admission as a degree-seeking student, a student also must be admitted to candidacy. To qualify for degree candidacy, a student must:

1. complete the prerequisite course work listed above with a grade of “C” or better in each course;
2. complete at least half of the courses listed under Required Courses below with a GPA of 3.0 or higher; and
3. complete an approved proposal for a thesis topic or a master’s project.

More detailed candidacy information is available through the division office or the student’s advisor.

Degree Requirements

Students must meet all university requirements for a master’s degree.

I. Required Courses (9 Hours)

- CPSC 735 Advanced Operating Systems ..................... 3
- CPSC 810 Formal Language and Application ................ 3
- CPSC 840 Design and Analysis of Algorithms ............. 3

II. Data/Software Management Selective (3 Hours)

Select one of the following:

- CPSC 820 Planning and Management of Software Projects (3)
- CPSC 845 Advanced Database Theory (3)
III. Hardware/Software Selective (3 Hours)
Select one of the following:
- CPSC 630 Computer Architecture (3)
- CPSC 660 Artificial Intelligence (3)

IV. Thesis/Project Option (3 or 6 Hours)
Select one of the following options:
- Thesis Option (6 Hours):
  - CPSC 890 Graduate Thesis (5)
  - CPSC 899 Thesis Presentation in Computer Science (1)
- Project Option (3 Hours):
  - CPSC 890 Graduate Project (3)

V. Electives (12 to 15 Hours)
With advisor’s approval, students will select from twelve to fifteen hours of Computer Science graduate courses. Graduate courses from related disciplines may be included with the approval of the advisor.

VI. Total - 33 Hours

Master of Arts in English
The master of arts degree in English leads to concentrated knowledge and understanding of civilization and culture as manifested in literature and other texts. The curriculum demands that students explore, analyze, and debate texts in their critical, social, and political contexts, and determine the implications of their differing cultural, historical, and philosophical perspectives. Students gain not only a comprehensive grasp of great literature in English, and of issues in critical theory, language, and rhetoric but also a variety of reading and interpretive strategies that can be applied to challenging personal, professional, and societal conditions.

The master’s degree requires a greater and more sophisticated scope and proficiency in interpretation, analysis, writing, and the analytical skills that one acquires through the study of literature, theory, and rhetoric than is required of the bachelor’s degree. This study of English is designed to meet not only the needs of persons involved in the teaching of English but also those of adult students who wish to develop abilities that transcend any narrow specialization or particular career orientation. The program enriches lives and improves the work of those who undertake it.

Special Admission Requirements
In addition to meeting university criteria, applicants must have an undergraduate major in English, literature, language, linguistics, or a related field.

Recommended Preparation
Students without the following undergraduate prerequisite course work will be required to complete any deficiencies as early as possible during graduate study:
- three hours in English Literature I
- three hours in English Literature II
- three hours in American Literature I
- three hours in American Literature II
- three hours in Shakespeare
- three hours in literary criticism

Completion of deficiencies is required in addition to graduate degree requirements noted.

Admission to Candidacy
After admission as a degree-seeking student, a student will also apply for candidacy after completing her or his course work. Application for candidacy should be made at the beginning of the trimester in which the student expects to fulfill the candidacy requirements (successful completion of ENGL890). Application forms are available in the college office. To qualify for degree candidacy, a student must do the following:
1. complete all courses with a GPA of 3.0 or higher; and
2. complete a detailed, approved proposal for a master’s thesis.

More detailed candidacy information is available through the M.A. advisor of the division office.

Degree Requirements
I. Required Courses (21 Hours)
- ENGL 590 Research Techniques ................................. 3
- ENGL 830 Seminar: Advanced Composition and Rhetorical Theory ....................................... 3
- ENGL 840 Seminar: Philosophy in Literature ............ 3
- ENGL 845 Seminar: English Literature ...................... 3
- ENGL 850 Seminar: American Literature ................... 3
- ENGL 870 Graduate Research .................................... 3
- ENGL 890 Graduate Thesis/Project ............................ 3

II. Additional Requirements (12 Hours)
With the advisor’s approval, students will select at least four courses in literature, rhetoric and composition, linguistics, or closely related fields. (Depending on the student’s areas of interest, the electives might include such pre-professional courses as ENGL 690: Professional Seminar for Teachers of Writing.) Generally, the graduate thesis or project will not be done until after completing the other core courses and the four additional courses.

III. Total - 33 Hours
Master of Science in Environmental Biology

The graduate major in Environmental Biology prepares students as professional biologists with a strong environmental emphasis. Required courses cover the spectrum of environmental biology from toxicology and physiology and ethology to population biology and community ecology, emphasizing the applied aspects of these disciplines. Students are trained in the application of quantitative methods and in the design of field and laboratory studies.

Graduates have obtained employment in biological and related fields or have pursued advanced degrees. A number of graduates work as naturalists at county, state, and national parks. Others have found employment in the private sector as waste management consultants or with planning agencies as habitat assessment experts. The curriculum also serves certified secondary school biology teachers who wish to develop an environmental focus.

Faculty research interests range widely, including topics such as common loon behavior and population dynamics, resource partitioning in aquatic communities, forest ecology, rodent population dynamics, avian reproduction physiology, biological clocks, plant adaptation in wetland habitats, and curriculum development in biology education.

Recommended Preparation

Before admission, applicants should have completed the following course work with a grade of "C" or better in each course: eight hours of general biology with lab, eight hours of general chemistry with lab, four hours of organic chemistry with lab; three hours of ecology with lab, four hours of physiology with lab, and three hours of statistical methods (STAT520). A student may be provisionally admitted to the program pending completion of this list of courses or the retaking of courses for which the original grade was less than "C." A second course in organic chemistry and a course in computer science are strongly recommended.

Thesis/Project Option

As part of this degree program, students must choose between a thesis or project option.

In the thesis option, students develop a thesis proposal, complete the project in conjunction with a faculty member, and prepare a final report. The project students are not required to complete a formal manuscript or make a presentation.

Admission to Candidacy

After admission as a degree-seeking student, a student also must be admitted to candidacy. To qualify for degree candidacy, a student must:
1. complete the prerequisite course work listed above with a grade of "C" or better in each course;
2. complete at least half of the courses listed under Required Courses below with a GPA of 3.0 or higher; and
3. complete an approved proposal for either a thesis topic or a master's project.

More detailed candidacy information is available through the division office or the student's advisor.

Degree Requirements

Students must meet all university requirements for a master's degree.

I. Required Courses (18 Hours)
   - BIOL 657 Ecological Methods: Populations .......... 2
   - BIOL 660 Ecological Methods: Communities ........... 2
   - BIOL 665 Ecological Methods: Behavior .................. 2
   - STAT 820 Experimental Design for the Natural Sciences ..................................................... 4
   - BIOL 830 Plant Microenvironments ..................... 3
   - BIOL 831 Plant Microenvironments Laboratory ...... 1
   - BIOL 850 Environmental Physiology ...................... 3
   - BIOL 851 Environmental Physiology Laboratory .... 1

II. Thesis/Project Option (2-4 Hours)
   - BIOL 890 Graduate Project (2)
   - BIOL 890 Graduate Thesis (4)

III. Selectives (10-12 Hours)
   - BIOL 510 Biological Literature (1)
   - BIOL 610 Advanced Microbiology (1)
   - BIOL 611 Advanced Microbiology Laboratory (2)
   - BIOL 622 Natural Areas Ecology (3)
   - BIOL 630 Aquatic Systems (2)
   - BIOL 631 Aquatic Systems Laboratory (2)
   - BIOL 640 Toxicology (3)
   - BIOL 755 Field Studies (3)
   - BIOL 810 Special Topics in: (3)
   - CHEM 810 Special Topics in: (3)
   - CPSC 610 Computing for Scientists (3)

Other graduate level science courses as approved by the academic advisor.

IV. Total - 32 Hours
Master of Arts in Political and Justice Studies

The graduate major in Political and Justice Studies is designed to develop the conceptual abilities and substantive knowledge needed to acquire an understanding of political behavior, current policy issues, problems, and changes in government and society. The curriculum addresses the areas of American politics, justice studies, public policy formulation and evaluation, comparative politics, and international relations. The major and its related course offerings provide individuals with the opportunity to study areas such as American government and public policy, justice studies, comparative politics, and international affairs. The graduate program provides an academic foundation for students seeking careers in higher education, the legal profession, state or local governments, the non-profit sector, the federal bureaucracy, justice related fields, or organizations that monitor political and social processes or influence the content of public policy.

Recommended Preparation

An undergraduate major or minor in Political Science, Criminal Justice or a major in one of the social sciences or humanities, including anthropology, economics, sociology, history, philosophy, international studies, black studies, or area studies, is recommended. Students may be required to demonstrate competency for graduate work by satisfying the following undergraduate preparatory courses at Governors State University or another accredited university: Principles and Theories in Political Studies (POLS505) or Criminal Justice Organization and Process (CJUS310). These courses must be completed with a grade of "C" or better and are required in addition to the degree requirements listed below. Research preparation such as SOSC450 or CJUS560 is also highly recommended.

It is also highly recommended that students enroll in POJS815, Theories and Approaches to Political and Justice Studies, and attend a program orientation at the earliest possible opportunity they have.

Degree Requirements

Students must meet all university requirements for a master's degree.

I. Required Courses (15 Hours)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POJS815</td>
<td>Theories and Approaches to Political and Justice Studies</td>
<td>3</td>
</tr>
<tr>
<td>POJS820</td>
<td>The Presidency, Congress, and the Courts</td>
<td>3</td>
</tr>
<tr>
<td>POJS821</td>
<td>American Government and Policy</td>
<td>3</td>
</tr>
<tr>
<td>POJS830</td>
<td>Comparative Political and Justice Systems I</td>
<td>3</td>
</tr>
</tbody>
</table>

or

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POJS831</td>
<td>Comparative Political and Justice Systems II</td>
<td>3</td>
</tr>
<tr>
<td>POJS841</td>
<td>Research Methods</td>
<td>3</td>
</tr>
</tbody>
</table>

II. Thesis/Internship Paper/Directed Readings Options (3 or 6 Hours)

Select one of the following options:

A. Thesis/Project Option 3 Hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POJS 890</td>
<td>Graduate Thesis/Project</td>
<td>3</td>
</tr>
</tbody>
</table>

The thesis must be approved by two faculty members, one of which is the thesis director.

B. Directed Readings Option (6 Hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POJS 869</td>
<td>Directed Readings in... (3)</td>
<td></td>
</tr>
</tbody>
</table>

The directed readings option requires students to take the directed readings course twice covering two distinct areas of study. Readings are selected from the following areas: American Politics and Policy, Comparative Politics/International Relations, and Justice Studies. Students must successfully pass two comprehensive examinations covering the two areas selected.

C. Internship Project and Paper Option (6 Hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POJS 885</td>
<td>Internship Project (6)</td>
<td>6</td>
</tr>
</tbody>
</table>

Students may select the internship project for a total of six credits. The internship paper option involves the application of the student's knowledge and skills in a culminating experience approved by a faculty committee and resulting in a major paper which must be approved by two faculty members, one of which is the internship director.

Admission to Candidacy

After admission as a degree-seeking student, a student also must apply for candidacy. Application for candidacy should be made at the beginning of the trimester in which the student expects to fulfill the candidacy requirements. Application forms are available in the college office. To qualify for degree candidacy, a student must:

1. complete each of the core courses listed above with a grade of "B" or better in each core course.
2. complete the selectives course work with a grade of "B" or better.
3. complete an approved proposal for either a thesis topic, internship project, or directed readings and obtain approval to study for the comprehensive examination.

More detailed candidacy information is available through the division office or the student’s advisor.

III. Selectives (15 Hours)

In consultation with an advisor, students select at least fifteen hours from the areas below. Courses must be taken in at least two areas of concentration. The following courses are suggestive of those that will fulfill this requirement.
A. American Politics and Policy
- POJS 610 Race, Class, Politics, and Justice .......... 3
- POJS 615 Civil and Human Rights ...................... 3
- POJS 620 Community Conflict Resolution .............. 3
- POJS 705 Law, Society, and Public Policy .............. 3
- POJS 709 Gender, Political Culture, and the Law .... 3
- POJS 725 American Political Behavior .................. 3
- POJS 810 Seminar: Labor Force Participation .......... 3
- POJS 824 Intergovernmental Relations .................. 3
- POJS 835 Topics in Policy Analysis ..................... 3
- HLAB 718 Health Care Policy ............................ 3
- CHEM 810 Special Topics: Environmental Policy .... 3
- HIST 840 Research in African-American History .... 3
- POLS 538 Urban Politics ................................ 3
- POLS 540 Political Economy of Urban
  Development .............................................. 3

B. Comparative Politics and International Relations
- POJS 615 Civil and Human Rights ...................... 3
- POJS 715 U.S. Foreign Policy ........................... 3
- POJS 735 Third World in Global Development ....... 3
- POJS 836 Topics in Comparative Politics and
  International Relations .............................. 3
- POJS 845 International Law and Organization ....... 3
- ECON 704 Current Global Economic Problems ....... 3
- POLS 536 Problems in International Politics ....... 3
- HIST 505 Modern African History ..................... 3
- HIST 530 Modern Middle Eastern History .......... 3
- HIST 547 Latin American History ..................... 3
- HIST 565 Europe in the 20th Century ................ 3
- ICS 535 Third World Conference ....................... 3
- ICS 532 African Politics ............................... 3

C. Justice Studies
- POJS 610 Race, Class, Politics, and Justice ....... 3
- POJS 615 Civil and Human Rights ...................... 3
- POJS 620 Community Conflict Resolution .............. 3
- POJS 705 Law, Society, and Public Policy .............. 3
- POJS 709 Gender, Political Culture, and the Law .... 3
- POJS 710 Constitutional Law: Process and Change .. 3
- POJS 837 Topics in Justice Studies ................... 3
- ADAS 825 Etiology and Epidemiology of
  Substance Abuse ........................................ 3
  or
- ADAS 835 Planning, Managing, and Evaluating
  Substance Abuse Programs ................................ 3
- POLS 538 Urban Politics ................................ 3
- POLS 540 Political Economy of Urban
  Development .............................................. 3

IV. Total with Thesis/Project (33 Hours)
Total with Directed Readings/Internship
Project (36 Hours)
The College of Business and Public Administration presents strong theoretical and pragmatic programs at the graduate level which prepare students for careers in business, government, and industry. The majors are designed with the understanding that students enrolled in the college are pursuing management degrees for careers in the public or private sector. Accordingly, the college offers rigorous programs of study which challenge students and provide them with the preparation to assume positions of leadership and responsibility. To this end, the college emphasizes clearly defined instructional methods and curricula that reflect the growing sophistication of modern management techniques. Graduate majors are designed to accommodate those with undergraduate degrees in business, as well as those with undergraduate degrees in liberal arts, sciences, engineering, education, and other disciplines.

All of the college's business programs are fully accredited by the Association of Collegiate Business Schools and Programs.

**Graduate Programs**

- Accounting (M.S.)
- Business Administration (M.B.A.)
- Public Administration (M.P.A.)

**Faculty of the College of Business and Public Administration**

**Division of Accounting/Finance/Economics**
- Anthony Jackson, Division Chair
- Anthony Andrews
- Eugene Blue
- Richard Finkley
- Richard Fosberg
- Philip Karpik
- Dale Max
- Donald Miller
- Paul O'Brien
- Aida Shekib
- Mary Washington

**Division of Management/Administrative Sciences/Marketing/Public Administration**
- Akkanad Isaac, Acting Division Chair
- Lowell Culver
- David Curtis
- Robert Donaldson
- Bruce Fischer
- Donald Fricker
- Efraim Gil
- Paul Green
- Marsha Katz
- Zafar Malik
- Margaret Neumann
- Charles Olson
- David Parmenter
- Carlos Rodriguez
- Farouk Shaaban
- Carl Stover
- William Toner
- Richard Vorwerk
- William Wilkinson

**Announcements**

Students are responsible for checking the college bulletin board located in the college entrance hall for announcements concerning scheduling, policies, job and financial aid opportunities and collegial activities.
DEGREE REQUIREMENTS FOR GRADUATE PROGRAMS

The university degree requirements for graduate programs are listed in the Master's Degree Requirements section of this catalog.

In addition to university degree requirements, the College of Business and Public Administration has the following collegial degree requirements for the master's degree programs:

1. Students must earn an overall GPA of 3.0 or higher in all course work required for the degree.
2. Only credits earned with a grade of "B" or better will be considered for transfer credit.
3. Transfer credits earned more than five years before the request to transfer will not be accepted toward meeting degree requirements.
4. Transfer credits can be applied toward required courses only with the permission of the dean.
5. Credits for experiential learning will not be accepted toward meeting degree requirements unless approved by the dean.
6. A readmitted student may not apply credits earned more than five years before readmission to degree requirements, unless approved by the dean.
7. The total number of credits applied toward degree requirements earned in independent studies, internships, and practica cannot exceed six hours, unless approved by the dean. A maximum of three hours in internships can be counted toward this total.
8. A student who has enrolled in the same course three times without receiving a passing grade must receive permission from the dean to register for that class a fourth time.
9. A maximum of six credit hours of graduate course work earned in the last semester of an undergraduate program and before official acceptance in the graduate program may be applied toward graduate requirements, with permission of the division chair and the dean.
10. All students must have a signed study plan completed in the CBPA Academic Advising Office during the first trimester of enrollment in the degree program.

Student Course Load

Graduate students may not take more than twelve hours a trimester without obtaining permission from the dean of the college or designee.

Requirements for specific degree programs follow.

Master of Science in Accounting

The College of Business and Public Administration offers a graduate major in Accounting leading to the degree of Master of Science in Accounting (M.S.). This degree program is an applications-focused program designed to provide students with the required body of knowledge, skills, and attitudes needed to be a successful leader in the accounting profession (public, government, or business and industry).

The M.S. in Accounting degree is an extension of an undergraduate major in Accounting. A bachelor's degree in Accounting, however, is not required for admission to the program. However, students who have earned their baccalaureate degrees in other academic areas will be required to complete appropriate preparatory courses in business and accounting in addition to those required for the master's degree.

Special Admission Requirements

In addition to university admission requirements, applicants must have taken the Graduate Management Admissions Test (GMAT) before admission and attain at least 950 based upon the following formula: Undergraduate GPA x 200 + GMAT score > 950. Scores received must be from tests administered within five years of the date of admission. A cumulative graduate GPA can be substituted in the above formula for those students who have earned a graduate degree.

Recommended Preparation

If a student's undergraduate degree is not in accounting, additional undergraduate course work will be required. Applicants should have completed the equivalent of the following preparatory courses with a grade of "C" or better in each course:

- ACCT 301 Financial Accounting
- ACCT 302 Managerial Accounting
- ACCT 331 Cost Accounting I
- ACCT 351 Intermediate Accounting I
- ACCT 352 Intermediate Accounting II
- ACCT 353 Intermediate Accounting III
- ACCT 421 Tax Accounting I
- ACCT 440 Audit Concepts and Standards
- ACCT 452 Accounting Information Systems
- BLAW 325 Business Law I
- BLAW 326 Business Law II
If the undergraduate degree is not in accounting, applicants will be required to complete the preparatory course work for the master’s program. The specific courses an individual will be required to complete will depend on previous course work. With permission of the dean, students can enroll in graduate level courses for which they have completed the prerequisites before completing all of the preparatory courses.

Candidacy Requirements

After admission as a degree-seeking student, a student must also apply for candidacy. Application forms are available in the Academic Advising Office. To qualify for candidacy, a student must:

1. Satisfy any conditions of admission;
2. Complete all preparatory courses with a grade of “C” or better in each course;
3. Satisfy the written communication and intermediate algebra proficiency requirements;
4. Apply for candidacy after earning a minimum of nine and a maximum of twelve graduate credit hours. Students who complete more than fifteen hours of degree requirements before attaining candidacy status may still be required to complete up to eighteen additional hours, approved by the dean, as a candidate before being approved for graduation by the college; and
5. Maintain an overall GPA of 3.0 or higher for all course work completed at Governors State University as a graduate student.

Degree Requirements

Students must meet all university requirements for a master’s degree.

Students must meet the collegial graduation requirements listed at the beginning of this section.

Students must show proficiency in intermediate algebra and written communication by either:

1. Successfully passing proficiency examinations in intermediate algebra and written communications; or
2. Completing appropriate courses in algebra and/or written communication; or
3. Scoring at an acceptable level on the GMAT.

Information on these alternatives can be obtained from the Academic Advising Office.

I. Core Accounting Courses (12 Hours)

<table>
<thead>

IV. Career Selectives (6 Hours)

Select at least six hours from accounting, economics, finance, or management courses numbered 800 or above that are appropriate to the student’s study plan, with the advisor’s approval.

V. Total - 33 Hours

Master of Business Administration

The College of Business and Public Administration offers a graduate major in Business Administration leading to the degree of Master of Business Administration (M.B.A.). This degree program prepares students for positions of executive leadership. It is a general management program of study designed primarily, but not exclusively, for students with business undergraduate degrees. The major is also designed to accommodate those with undergraduate degrees in the liberal arts, sciences, engineering, education, and other disciplines. A broad core of courses provides an understanding of business operations and management. In addition, selective courses may be used to undertake a modest degree of concentration in a single functional area if desired.

Special Admission Requirements

In addition to university admission requirements, applicants must have taken the Graduate Management Admissions Test (GMAT) before admission and attain at least 950 based upon the following formula: Undergraduate GPA x 200 + GMAT score > 950. Scores received must be from tests administered within five years of the date of admission. A cumulative graduate GPA can be substituted in the above formula for those students who have earned a graduate degree.
Recommended Preparation

To ensure that students have a satisfactory command of business fundamentals before taking graduate level courses, at least twenty-seven hours of undergraduate preparatory course work or their equivalent are required of all M.B.A. students. Students who do not have an undergraduate major in Business may be prepared to enroll immediately in graduate-level courses. Students who do not have an undergraduate major in Business are expected to satisfy the prerequisite preparatory courses. With permission of the dean, students can enroll in graduate level courses in areas for which they have completed the prerequisites before completing all of the preparatory courses.

Preparatory Courses (27 to 33 Hours)

- ACCT 302 Managerial Accounting ............................................. 3
- BLAW 325 Business Law I ................................................... 3
- ECON 501 Foundations of Economics or ECON301 and ECON302 .............. 3 to 6
- FIN 301 Principles of Financial Management ........................................... 3
- MATH 355 Applied Calculus ................................................... 3
- MGMT 301 Introduction to Management Strategies ........................................... 3
- MGMT 510 Foundations of Managerial Statistics or STAT 261 and STAT 262 .............. 3 to 6
- MIS 370 Information Systems for Managers ................................................... 3
- MIS 610 Information Systems for Managers ................................................... 3
- MKTG 301 Introduction to Marketing Management ........................................... 3

Master’s Final Project:

MGMT 849, Business Policy and Strategy, is the capstone course of the M.B.A. program. It is designed, through intensive case analysis and study, to integrate the various operating functions of a business, and to demonstrate the student’s overall knowledge and skills. Applications for enrollment in MGMT 849 are required and available in the CBPA Academic Advising Office.

Thesis Option:

A thesis is optional for M.B.A. students. The thesis provides an opportunity for intensive study of a problem chosen by the student. The thesis option is limited to outstanding students who have been recommended by a minimum of two faculty in the College of Business and Public Administration and approved by the dean. Each student selecting to do a thesis will be required to submit a thesis proposal to a faculty member. If the proposal is approved, a thesis advisor and examining committee will be appointed by the dean or designee. A candidate who is approved for a thesis will be required to take a research methods course as approved by the advisor and to defend the thesis orally.

Candidacy Requirement

After admission as a degree-seeking student, a student also must apply for candidacy. Application forms are available in the Academic Advising Office. To qualify for candidacy, a student must:

1. satisfy any conditions of admission;
2. complete all preparatory courses with a grade of “C” or better in each course;
3. satisfy the written communication and intermediate algebra proficiency requirements;
4. apply for candidacy after earning a minimum of nine and a maximum of twelve graduate credit hours. Students who complete more than fifteen hours of degree requirements before attaining candidacy status may still be required to complete up to eighteen additional hours, approved by the dean, as a candidate before being approved for graduation by the college; and
5. maintain an overall GPA of 3.0 or higher for all course work completed at Governors State University as a graduate student.

Degree Requirements

Students must meet all university requirements for a master’s degree.

Students must meet the collegial graduation requirements listed at the beginning of this section.

Students must show proficiency in intermediate algebra and written communication by either:

1. successfully passing proficiency examinations in intermediate algebra and written communication; or
2. completing appropriate courses in algebra and/or written communication; or
3. scoring at an acceptable level on the GMAT.

Information on these alternatives can be obtained from the Academic Advising Office.

I. Required Courses (21 Hours)

- ACCT 801 Accounting for Administrative Control ................................................... 3
- ECON 801 Problems in Managerial Economics ................................................... 3
- FIN 801 Problems in Financial Management ................................................... 3
- MGMT 810 Problems in Organizational Behavior ................................................... 3
- MGMT 840 Problems in Production Management ................................................... 3
- MGMT 860 Issues in Public and Private Management ................................................... 3
- MKTG 801 Problems in Marketing Management ................................................... 3

* Students with an accounting background must take ACCT 815, 831, or 861 instead of ACCT 801 to satisfy the M.B.A. core requirement in accounting.
II. Master's Final Project—MGMT 849, Business Policy and Strategy (3 Hours)

III. Career Selectives (9 Hours)

Select six hours from among courses numbered 800 or above and three hours from among courses numbered 500 or above, with approval of advisor. A graduate thesis may be selected with approval of the dean. Students electing to take the thesis option will be required to take a research course as approved by the advisor.

IV. Total - 33 Hours

Master of Public Administration

The College of Business and Public Administration offers graduate study in Public Administration leading to the degree of Master of Public Administration (M.P.A.). The mission of the Master of Public Administration program is to prepare students to serve effectively as citizens and as professional managers in the administrative branches of American governments (federal, state, and local).

The public administration faculty recognizes that these governments are complex systems designed for the purpose of realizing American ideals, of which there are several, and among which there are inherent tensions and partial contradictions. Accordingly, the primary emphasis of the M.P.A. program is to imbue the students with an understanding and respect for the normative, ethical, and political environment within which American public administration is conducted, and the ability to apply sound reasoning (critical thinking) to develop viable solutions to problems within this environment. The program also teaches specific concepts, techniques, and skills of management in the public sector.

Special Admission Requirements

In addition to meeting university criteria, applicants must have an undergraduate degree with a cumulative GPA of at least 2.50.

Recommended Preparation

To ensure that students have a satisfactory command of public administration fundamentals before taking graduate-level courses, at least nine hours of undergraduate preparatory course work or their equivalent are required of all M.P.A. students. Students with an undergraduate major in Public Administration may be prepared to enroll immediately in graduate level courses. Students who do not have an undergraduate major in Public Administration are expected to complete the prerequisite preparatory courses. With permission of the dean, students can enroll in graduate-level courses in areas for which they have completed the prerequisites before completing all of the preparatory courses.

Research Project/Practicum Option

As part of this degree program, students must choose either a master's research project (PADM855) or a practicum option (PADM867). Both options involve a demonstration of the student's knowledge and skills through the development of a major project and written report approved by a committee of three faculty members.

Before registering for either PADM855 or PADM867 students must:

1. complete all required courses;
2. select a committee and have the chairperson approved by the dean;
3. complete a written proposal approved by their committee and chairperson.

Further information, instructions, and forms are available through the Academic Advising Office.

Candidacy Requirement

After admission as a degree-seeking student, a student also must apply for candidacy. Application forms are available in the Academic Advising Office. To qualify for candidacy, a student must:

1. satisfy any conditions of admission;
2. complete all preparatory courses with a grade of "C" or better in each course;
3. satisfy the written communication proficiency requirement;
4. apply for candidacy after earning a minimum of nine and a maximum of twelve graduate credit hours. Students who complete more than fifteen hours of degree requirements before attaining candidacy status may still be required to complete up to eighteen additional hours, approved by the dean, as a candidate before being approved for graduation by the college; and
5. maintain an overall GPA of 3.0 or higher for all course work completed at Governors State University as a graduate student.
**Degree Requirements**

Students must meet all university requirements for a master's degree.

Students must meet the collegial degree requirements listed at the beginning of this section.

Students must show proficiency in written communication by either:

1. successfully passing a proficiency examination in written communication or
2. completing appropriate course work in written communication.

Information on these alternatives can be obtained from the Academic Advising Office.

**I. Required Courses (36 Hours)**

MIS 610 Information Systems for Managers ........... 3
MGMT 810 Problems in Organizational Behavior ................... 3
MGMT 860 Issues in Public and Private Management .................. 3
PADM 802 Economic Analysis in Public Administration .................. 3
PADM 810 Seminar in Public Human Resource Administration ............ 3
PADM 812 Seminar in Public Budgeting ..................... 3
PADM 820 Seminar in Urban Government ................... 3
PADM 840 Seminar in Public Policy ..................... 3
PADM 851 Seminar in Public Planning ................... 3
PADM 852 Seminar in Research Methods ..................... 3
FOLS 863 Seminar in American Institutions and Values ................ 3
PADM 880 Internship: Public Administration ..................... 3

**II. Master's Final Project (3 Hours)**

Select one of the following:

- PADM 855 Master’s Research Paper ......................... 3
- PADM 867 Practicum ........................................... 3

**III. Total - 39 Hours**

* Students with career experience in the public sector may substitute three hours of course work for PADM 880. The course work should be appropriate to educational and career goals and is subject to the advisor's approval.
The College of Education prepares counselors, psychologists, and teachers to function effectively in a variety of instructional, guidance and counseling, and administrative roles. The graduate programs in early childhood and multicategorical special education programs offered by the college are designed to meet the future educational needs of those working with our children. In addition, the college offers programs in psychology, counseling, and educational administration to meet the needs of adults who often face an uncertain world of conflicts and choices.

The graduate programs in multicategorical special education, school counseling, school psychology, and educational administration lead to appropriate certificates issued by the Illinois State Board of Education. Students completing the graduate programs described below are prepared to pursue doctoral programs at other institutions.

Instruction combines traditional classroom lectures with extensive field experience. Field experience takes place in school districts and in mental health facilities throughout the Chicago area.

### Graduate Programs
- Counseling (M.A.)
- School Counseling
- Early Childhood Education (M.A.)
- Education (M.A.)
- Educational Administration (M.A.)
- Multicategorical Special Education (M.A.)
- Psychology (M.A.)
- School Psychology

### Certifications and Accreditations
The college offers programs approved by the Illinois State Board of Education for teacher certification in the areas of elementary education, general administration, special education, school counseling, and school psychology. The Early Childhood Education program is pending approval by the ISBE.

The counseling program is accredited by the Council for the Accreditation of Counseling and Related Educational Programs.

DEGREE REQUIREMENTS FOR GRADUATE PROGRAMS

The university degree requirements for graduate programs are listed in the Master's Degree Requirements section of this catalog. Requirements for specific degree programs follow.

Master of Arts in Counseling

The graduate major in Counseling offers a choice of three sequences: community counseling, marriage and family counseling, or school counseling. Individuals are prepared to enter the counseling profession with a special focus on urban settings. Students interested in counseling receive skill preparation for direct service to clients; for diagnostic, consultative, and evaluative services; and for preventive intervention. Possible employing agencies and institutions include mental health clinics and hospitals, corporations, governmental social agencies, public and private schools, community colleges, various community intervention programs, and correctional institutions. This major also prepares students for advanced graduate work at other institutions. A 600-hour internship placement is required.

Accreditation

All three counseling sequences, school counseling, community counseling, and marriage and family counseling are accredited by the Council for the Accreditation of Counselor Education and Related Programs (CACREP). The Illinois State Board of Education (ISBE) has approved the School Counseling sequence as leading to the School Service Personnel Certificate with an endorsement in Guidance. Applicants for this certificate must hold, or be eligible for, a standard Illinois teaching certificate. Students applying for certification must pass the Illinois certification tests in basic skills and in guidance and counseling.

Admission Criteria

In addition to the Governors State University graduate application, applicants must:

1. Submit a statement of reasons for pursuing a graduate program in Counseling, including intended career goal.
2. Have a GPA of 2.5 or higher for all undergraduate work attempted or a GPA of 2.75 for the last 60 hours of undergraduate work attempted or a GPA of 2.25 or higher for all undergraduate work attempted and a score of at least 1050 on the verbal and quantitative portions of the Graduate Record Examination General Test.
3. Have completed all prerequisite courses with a GPA of 3.0 or higher. Prerequisite courses for the Community Counseling and Marriage and Family Counseling sequences include statistics (STAT468); a course in developmental psychology (PSYC510, PSYC512, PSYC514, PSYC515, or PSYC529); a course in research methodology (PSYC560), and a course in abnormal psychology (PSYC430). Applicants for the School Counseling sequence must have completed a course in statistics (STAT468); a course in research methodology (PSYC560); a course in adolescence (PSYC510), a course in child development (PSYC512), and course work in Addictions Studies at the 500 level or above totaling three semester hours.
4. Participate in an on-campus group screening experience with faculty in the first trimester after admission for the purpose of assessing oral communication, writing, interpersonal skills, and the applicant's potential for the counseling field. An applicant will not be reviewed or invited to a group screening until the first three requirements have been met. As space in clinical course work is limited, not all applicants are admitted to the program.

Applications should be completed by June 15th for fall admission, October 15th for winter admission and March 15th for spring/summer admission.

Admission to Candidacy

After admission as a degree-seeking student, a student must apply for candidacy. Application forms are available in the division office. Application for candidacy should be made within two weeks of the start of the trimester in which degree candidacy is sought. To qualify for degree candidacy, a student must:

1. complete the prerequisite course listed under Recommended Preparation with a grade of "B" or better in each course; and
2. complete COUN630, COUN730, COUN810, and COUN847 with a grade of "B" or better in each course.

The candidacy committee will review the applications and inform the students of their candidacy status within six weeks of application. Students should refer to the "Division of Psychology and Counseling Student Handbook" for further details.

Degree Requirements

Students must meet all university requirements for a master's degree.

Enrollment in COUN842, COUN844, COUN845, COUN852, and COUN856 requires prior admission to candidacy and completion of course prerequisites.
A 600-hour internship is required for all counseling students. The internship may be completed in one trimester full time or two trimesters part time. Application deadlines for internship are as follows: fall trimester, July 15; winter trimester, November 15; spring/summer trimester, March 15.

I. Required Courses (36 Hours)

- PSYC 610 Measurements and Evaluation .................. 3
- PSYC 720 Social and Cultural Foundations ............... 3
- COUN 620 Life Span Developmental Issues ............... 3
- COUN 630 Counseling Theories and Ethics ............... 3
- COUN 633 Community Counseling and Professional Orientation .................. 3
- COUN 725 Family Systems: Theory and Practice ...... 3
- COUN 730 Life Style and Career Development ......... 3
- COUN 810 Beginning Counseling and Human Relation Skills .................. 3
- COUN 842 Practicum in Vocational Counseling ........ 3
- COUN 847 Group Dynamics and Intervention ........... 3
- COUN 868 Counseling Internship I ............................ 3
- COUN 869 Counseling Internship II ............................ 3

II. Counseling Sequences

Select one of the following sequences:

Community Counseling Sequence (15 Hours)
- COUN 848 Practicum in Individual Counseling: Adult (3)

Assessment and Treatment Planning (3)
- COUN 859 Family Counseling Techniques (3)

With advisor's approval, select one of the following courses:
- COUN 852 Practicum in Group Counseling: Child and Adolescent (3)
- COUN 856 Practicum in Group Counseling: Adult (3)

With advisor's approval, select an additional three hours of course work.

Marriage and Family Counseling Sequence (24 Hours)
- ADDS 630 Families and Addictions (3)
- COUN 845 Practicum in Individual Counseling: Adult (3)
- COUN 853 Parent Education: Prevention and Intervention (3)

Assessment and Treatment Planning (3)
- COUN 859 Family Counseling Techniques (3)

Marriage and Couple Counseling (3)
- COUN 860 Marriage and Couple Counseling (3)

With advisor's approval, select one of the following courses:
- COUN 852 Practicum in Group Counseling: Child and Adolescent (3)
- COUN 856 Practicum in Group Counseling: Adult (3)

With advisor's approval, select an additional three hours of course work.

School Counseling Sequence (18 Hours)
- COUN 638 Introduction to School Services (3)
- COUN 844 Practicum in Individual Counseling: Child and Adolescent (3)
- COUN 851 Consultation and School Staff Development (3)
- COUN 852 Practicum in Group Counseling: Child and Adolescent (3)
- COUN 853 Parent Education: Prevention and Intervention (3)
- COUN 858 Development of School Counseling Programs (3)

III. Total - 51, 54, or 60 Hours

Master of Arts in Education

The graduate major in Education provides for professional development of teachers at all levels, early childhood through adult education. The required courses are designed to broaden students' understanding of contemporary educational issues, curriculum development, research methods, and psychology applied in schools. Specializations provide students with in-depth study in one of these areas: computer education, curriculum and instruction, early childhood education, language arts, mathematics education, reading, or science education.

Additional information is included in the "Handbook for Graduate Students, Master of Arts in Education," available in the Division of Education Advising Office.

Teacher Certification

Completion of the degree program does not lead to certification in the State of Illinois.

Special Admission Requirements

In addition to meeting university criteria, applicants must have a GPA of 2.75 or higher in the last 60 hours of undergraduate course work and a GPA of 3.0 or higher in any graduate work attempted.

Thesis/Research Project Option

As part of this degree program, students may choose either a thesis or research project option after the completion of twenty-seven hours. Both the thesis and the research project options require students to investigate an educational problem by applying research methods. Generally, theses take longer to complete than do research projects, due to the nature of the research problems in each type of study.

In the thesis option, students must complete their projects within one calendar year and will make an oral defense of their research acceptable to their respective committees. The thesis option is limited to students who have a GPA of 3.5 or higher in all graduate courses and who are recommended by at least two faculty in the Division of Education and approved by the chair of the Division of Education.
In the research project option, students must complete their projects within six months and must pass a written comprehensive examination. Students may take this examination after completing 33 hours of degree course work.

Additional information about these options is available from the coordinator of graduate studies.

Admission to Candidacy

After admission as a degree-seeking student, a student also must apply for candidacy. To qualify for degree candidacy, a student must:

1. complete prerequisites for courses in the specialization selected;
2. complete EDUC630, EDUC810, and one additional course in the area of specialization with a GPA of 3.0 or higher, with a grade of "C" or better in each course; and
3. pass a qualifying examination after completing the nine hours specified in Part 2 but before completion of fifteen hours of course work.

Students who pass the examination will be admitted to candidacy and assigned to a faculty advisor in the appropriate specialization. Students who fail the examination may counsel with the coordinator of graduate studies about ways to improve the possibility of passing the examination on the next attempt. Qualifying exams can be retaken only once. Failure to pass this examination means that students will not be permitted to register in courses in the degree program.

Students must submit to the Division of Education Advising Office an application to take the examination by September 30 for fall trimester, January 31 for winter trimester, or May 31 for spring/summer trimester. The application certifies that all candidacy requirements have been met. Application forms are available in the Division of Education Advising Office.

Degree Requirements

Credit hours earned in EDPD or undergraduate courses cannot be applied toward degree requirements.

Students must meet all university requirements for a master's degree.

In addition, students must:

1. apply a maximum of six hours of graduate credit earned from other accredited institutions or as a non-degree seeking student toward the degree requirements, subject to approval by the coordinator of graduate studies;
2. maintain a GPA of 3.0 or higher, with a grade of "C" or better in each course; and
3. complete all course work, including transfer credits, within six calendar years.

Students must complete the following:

1. Required Courses (12 Hours)

2. Specialization (15 or 18 Hours)

3. Additional courses as approved by the advisor and the coordinator of graduate studies.

4. Degree Requirements

5. Total with Thesis Option - 36 Hours

6. Total with Research Project Option - 39 Hours
Computer Education
EDCP 610 Evaluating Software for Instruction .......... 3
EDCP 810 Multimedia in Education .......................... 3
EDCP 820 Telecommunications in Education ............ 3
EDCP 850 Integrating Microcomputer-Based Education ................................................... 3

Select either the applications or programming course work. Students selecting course work in programming must have previously completed all prerequisite course work or be able to demonstrate adequate proficiency.

Applications
Select one of the following courses:
EDCP 732 Educational Applications of the Microcomputer: Mathematics (3)
EDCP 735 Educational Applications of the Microcomputer: Reading and Writing Development (3)
EDCP 736 Educational Applications of the Microcomputer: Science (3)
EDCP 737 Educational Applications of the Microcomputer: Special Education (3)
EDCP 770 Administrative Uses of Microcomputers (3)

Programming
Select six hours:
CPSC 505 Programming in LOGO (3)
EDCP 640 Programming in Pascal (3)
EDCP 645 Programming in C (3)

Curriculum and Instruction
EDUC 700 Instructional Design .............................. 3
EDUC 824 Academic Evaluation and Assessment .......... 3

Select nine hours from courses that clearly relate to the student's written goals for graduate study. These courses must be approved by the student's faculty advisor and the coordinator of graduate studies.

Language Arts
EDUC 712 Developmental Issues in Language Arts Instruction .............................................. 3
EDUC 714 Evaluating Learning in the Language Arts ............................................................... 3
EDUC 719 Teaching Writing in the Elementary Classroom ....................................................... 3
EDUC 835 Integrating Language Arts Instruction Across the Curriculum ............................ 3

Select one of the following:
EDUC 716 Developing Writing Models from Children's Literature (3)
EDUC 718 Teacher As Writer (3)
EDUC 759 Teaching Higher Order Thinking Skills (3)
EDUC 838 Supervising Language Arts Instruction (3)
EDCP 735 Educational Applications of the Microcomputer: Reading and Writing Development (3)

Mathematics Education

EDUC 860 Practicum in Reading ................................................. 3
EDUC 848 Teaching Reading in the Content Areas .... 3

Select one of the following:
EDUC 834 Developing and Supervising Reading Programs (3)
EDCP 735 Educational Applications of the Microcomputer: Reading and Writing Development (3)
ENGL 531 Literature for Children and Adolescents (3)

Science Education
EDUC 625 Models and Strategies for Science Education .......................................................... 3
EDUC 820 Teaching Problem Solving in Science ....................................................................... 3
EDUC 830 Science, Technology, and Education ................ 3

Select six hours from courses that clearly relate to the student's written goals for graduate study. These courses must be approved by the student's faculty advisor and the coordinator of graduate studies.

Middle Grades Endorsement
Graduate students may obtain an endorsement which prepares them for teaching in the middle grades. Students choosing to pursue this endorsement must take three hours in the psychology of early adolescent development and three hours in curriculum, instruction, and methods related to the middle grades. Additional courses may also be required. Students should contact the Division of Education office for the specific course numbers.
**Master of Arts in Early Childhood Education**

The master of arts in Early Childhood Education will be available beginning in fall of 1997 pending Illinois State Board of Education approval.

The graduate degree in Early Childhood Education offers two options. Both specializations are intended to serve students who have completed a B.A. in a field other than education as well as those already holding teaching certificates in elementary or special education.

**Master of Arts in Early Childhood Education with a Specialization in Teaching and Certification in Early Childhood Education.** The first specialization, a master of arts and Certification in Early Childhood Education, prepares the student to teach in public or other school settings for children from birth through third grade.

**Students With a Teaching Certificate.** Students already holding elementary teaching certificates are not required to do additional methods coursework or clinical hours in those areas where they have significant coursework and experience. They are not required to repeat student teaching if they provide documentation from the institution at which they completed student teaching that their student teaching was in kindergarten through third grade and they have had teaching experience at these grade levels. Students who have a standard teaching certificate do not need to complete additional general education requirements.

**Students Who Do Not Have a Teaching Certificate.** Students who do not have certification in elementary education are required to take EDEC 499, Student Teaching, in addition to the course work listed below. If they do not possess a standard teaching certificate, they may be required to do additional undergraduate general education course work including the completion of a subject matter specialization. Please see an education advisor for further details.

**Master of Arts in Early Childhood Education with a Specialization in Infant/Toddler Studies and Endorsement in Early Intervention.** The second specialization, a graduate degree in Early Childhood Education with an Endorsement as an Early Intervention Specialist, consists of a set of core courses and a five course sequence that emphasizes early intervention with infants and toddlers who may be "at risk." This option prepares students to work in various agencies and schools that serve the needs of at-risk infants and their families. For those students wishing to take the early intervention sequence but who do not want to pursue the full master's degree, a master's or bachelor's degree is required in early childhood education or a closely related field such as social work.

Students seeking to complete this program successfully with specialization in either of the two above options must:
- Complete all prerequisite coursework
- Be accepted into the Early Childhood Education Program as a degree seeking student
- Pass a qualifying exam and be admitted to candidacy
- Successfully complete all professional course work
- Successfully complete a thesis or master's project

Additional information is included in the "Handbook for Graduate Students, Master of Arts in Early Childhood Education," available in the Academic Advising Office.

**Special Admission Requirements**

In addition to meeting university criteria, applicants must have a GPA of 2.75 or higher in the last sixty hours of undergraduate coursework and a GPA of 3.0 or higher in any graduate work attempted. Clinical hours and general education course work completed at other colleges and universities will be considered on an individual basis and accepted where possible. GSU subscribes to the Illinois Articulation Initiative and credit for clinical hours, course work in early childhood education, and general education course work is granted in accordance with this agreement.

**Recommended Preparation**

Before admission, applicants must have completed the following prerequisite course work: Survey of Exceptional Students (SPED510), Growth and Development of Young Children (EDEC310), and Educational Psychology (PSYC320 or EDUC440). These courses must be completed with a "C" or better and are required in addition to the degree requirements listed below.

**Acceptance as a Degree Seeking Student**

Students apply for acceptance as a degree seeking students through the university Admissions Office. Upon admission, students will be required to meet with an advisor to enroll in classes.
Admission to Candidacy and the Qualifying Exam

After admission as a degree-seeking student, a student also must apply for candidacy. To qualify for degree candidacy, a student must:

1. complete the prerequisite course work listed above with a grade of "C" or better in each course;
2. complete EDUC630, EDUC810, and one additional course in the area of specialization with a GPA of 3.0 or higher, with a grade of “C” or better in each course; and
3. pass a qualifying examination after completing the nine hours specified in Part 2 but before completion of fifteen hours of course work.

Students who pass the exam will be admitted to candidacy. Students who fail the exam may counsel with the coordinator of graduate studies about ways to improve the possibility of passing the exam on the next attempt. Qualifying exams can be retaken only once. Failure to pass this exam means that students will not be permitted to register in courses in the degree program.

Students must submit an application by September 30 to take the exam for fall trimester, by January 31 for winter trimester, or May 31 for spring/summer trimester. The application certifies that all candidacy requirements have been met. Application forms are available in the Academic Advising Office.

Thesis/Research Project Option

As part of this degree program, students may choose either a thesis or research project option after the completion of twenty-seven hours. Both the thesis and the research project options require students to investigate an educational problem by applying research methods. Generally, theses take longer to complete than do research projects, due to the nature of the research problems in each type of study.

In the thesis option, students must complete their projects within one calendar year and will make an oral defense of their research acceptable to their respective committees. The thesis option is limited to students who have a GPA of 3.5 or higher in all graduate courses and who are recommended by at least two faculty in the Division of Education and approved by the chair of the Division of Education.

In the research project option, students must complete their projects within six months and must pass a written comprehensive examination. Students may take this examination after completing 33 hours of degree course work.

Additional information about these options is available from the Coordinator of Graduate Studies.

Degree Requirements

Students must meet all university requirements for a master’s degree.

In addition, students:

1. must complete all required course work;
2. may apply a maximum of six hours of course credit earned from other accredited institutions or as a student-at-large toward the degree requirements, subject to approval by the coordinator of graduate studies;
3. must maintain a GPA of 3.0 or higher, with a grade of “C” or better in each course; and
4. must complete all course work, including transfer credits, within six calendar years;

Required Core Courses for a Master’s in Early Childhood Education:

- EDUC 630 Issues and Trends in Education ................. 3
- EDEC 640 Psycholinguistics ....................................... 3
- EDEC 725 History and Philosophy of Early Childhood Education ........................................ 3
- EDEC 740 Seminar on Children-at-Risk ..................... 3
- EDEC 750 Interdisciplinary Team Process............... 3
- EDEC 805 Advanced Early Childhood Development ......................... 3
- EDUC 810 Educational Research ................................ 3
- EDUC 869 Research Project in Early Childhood ........ 3

Subtotal - 24 Hours

Specialization in Teaching with Certification in Early Childhood Education

To be recommended for certification by Governors State University, students must complete at least seventy-eight hours in general education and fifty-two units in professional education requirements in early childhood education. General education courses may include both lower- and upper-division course work. Students must earn a grade of “B” or better in EDEC 499, Student Teaching.

Students must also provide evidence of successful completion of the Illinois and United States Constitution examinations and meet other requirements for certification through approved programs listed in the Teacher Certification section in this catalog.

Required Courses for Specialization in Teaching with Certification

- EDEC 605 The Child in Family and Community ...... 3
- EDEC 610 Preprimary Curriculum Development in Early Childhood Education ..................... 3
- EDEC 615 Methods of Teaching Primary Reading, Writing and Language Arts 5
- EDEC 620 Methods of Teaching Science, Math, Social Studies, and Computer Use ...... 5
EDEC 625 Integrating Instruction in Early Childhood.......................... 3
EDEC 650 Methods of Teaching in the Arts .................................. 2
EDEC 818 Early Childhood Assessment ......................................... 3
EDEC 830 Practicum in Early Childhood Education: Infant/Toddler Level .................. 1
EDEC 840 Practicum in Early Childhood Education: Preschool Level .................. 1
EDEC 850 Practicum in Early Childhood Education: Primary Level .................. 1
EDEC 885 Practicum in Early Childhood Education: Primary Level .................. 1

Specialization Total - 28 Hours

Core and Teaching Specialization
Requirements ......................................................... 52 Hours

In addition students must:
1. Successfully complete student teaching (unless exempt) and
2. Be recommended for certification by Governors State University. To be recommended by Governors State University, students must apply for the certificate within one year of completing the program.

Specialization in Infant/Toddler Studies with an Endorsement in Early Intervention
Required Courses for Specialization:
The courses listed below, in addition to EDEC 860, Interdisciplinary Team Process (3) which is listed above under Core Requirements, comprise the course work needed for an endorsement in early intervention.

EDEC 760 Infant and Toddler Growth and Development, Normal and Atypical ........ 3
EDEC 770 Infant/Toddler Observation and Assessment ................................ 3
EDEC 780 Preventive Strategies and Intervention Methods ................................. 3
EDEC 790 Infant and Toddler Internship and Seminar .................................. 3

Total with Core and Early Intervention Requirements .................................. 36 Hours

Master of Arts in Educational Administration
The graduate major in Educational Administration provides background and specific skills necessary for employment as an elementary or secondary school principal, a supervisor, a curriculum consultant, or a department chairperson. The curriculum includes a number of courses that provide essential knowledge and skills for continued growth in positions of educational leadership.

Certification/Endorsement
Completion of this program and compliance with other requirements presented in the Teacher Certification section of this catalog leads to the Illinois Administrative Certificate with the General Administrative endorsement. Individuals applying for the certificate or the endorsement are subject to state testing requirements. Completion of the educational administration concentration meets the Chicago Board of Education course requirements for administrative and supervisory positions.

Special Admission Requirements
In addition to meeting university admission requirements, applicants must have a GPA of 2.75 or higher for the last 60 hours of undergraduate study and a GPA of 3.0 or higher in any graduate work attempted, a written recommendation from a school administrator or supervisor familiar with the applicant's work, and submission of a current teaching or school service personnel certificate.

Admission requires written verification by a district superintendent or personnel officer that the applicant has completed two years of full-time teaching or school service personnel work in a school approved by the Illinois State Board of Education as listed in Illinois Public School Districts and Schools or in Non-Public Schools List, or a school approved by the department of education in another state.

Note: Verification of experience in District No. 299 must be provided by the district's director of personnel.

Degree Requirements
Students must meet all university requirements for a master's degree.

In addition students must:
1. successfully complete supervised practica;
2. pass a comprehensive examination;
3. meet all other requirements listed in the “Student Handbook for the Cooperative Program in Educational Administration.”
I. Required Courses (33 Hours)
EDAD 601 Curriculum Development and Learning Theories ..................................... 3
EDAD 621 Foundations of School Administration and Organization .............. 3
EDAD 713 Human Relations and Leadership .......... 3
EDAD 724 School Supervision .................................... 3
EDAD 729 Research in Educational Administration ... 3
EDAD 731 Community Relations ......................... 3
EDAD 822 Elementary and Secondary School Administration ................................ .3
EDAD 832 School Finance .......................................... 3
EDAD 833 School Law ................................................ 3
EDAD 834 Practicum in Instructional Leadership and School Management I ......................... 3
EDAD 835 Practicum in Instructional Leadership and School Management II ....................... 3

II. Selectives (3 Hours)
With advisor's approval, select three hours from the following courses:
EDAD 618 The Adult Learner (3)
EDAD 836 Administration of School Personnel (3)
EDAD 838 Collective Negotiations (3)
EDAD 850 Seminar: Educational Policies and Issues (3)
EDCP 770 Administrative Uses of Microcomputers (3)
SPED 805 Administration and Supervision of Special Education (3)

III. Total - 36 Hours

Master of Arts in Multicategorical Special Education
The graduate major in Multicategorical Special Education prepares teachers to teach in special education programs for children identified with the following exceptionalities: learning disabilities, social/emotional disorders, and educable mental impairments. Graduates of the program are able to function effectively in special classrooms; resource rooms; and as consultants to educators, administrators, staff, and parents.

Additional information is included in the "Handbook for Graduate Students, Multicategorical Special Education," available in the Division of Education Advising Office.

Certification/Endorsement
The program is approved by the Illinois State Board of Education and leads to the Standard Special Certificate with endorsements in Mental Impairments, Learning Disabilities, and Social/Emotional Disorders.

Special Admission Requirements
In addition to meeting university admission requirements, applicants must:
1. submit a copy of a current standard teaching certificate;
2. have a GPA of 2.75 or higher in the last sixty hours of undergraduate study and a GPA of 3.0 or higher in all graduate work attempted; and
3. have completed SPED510, Survey of Exceptional Students, or an equivalent course.

Admission to Candidacy
After admission as a degree-seeking student, a student also must apply for candidacy. Application forms are available in the college office. To qualify for degree candidacy, a student must:
1. complete prerequisites for courses in the major;
2. complete twelve hours that include EDUC810 and SPED820 with a GPA of 3.0 or higher, with a grade of "C" or better in each course; and
3. pass a qualifying examination after completing the twelve hours specified in Part 2 but before completion of fifteen hours of course work.

Students who pass the examination will be admitted to candidacy and assigned to a faculty advisor in the appropriate specialization. Students who fail the examination may counsel with the coordinator of graduate studies about ways to improve the possibility of passing the examination on the next attempt. Qualifying exams can be retaken only once. Failure to pass this exam means that students will not be permitted to register in courses in the degree program.

Students must submit to the Division of Education Advising Office an application to take the examination by September 30 for fall trimester, January 31 for winter trimester, or May 31 for spring/summer trimester. The application certifies that all candidacy requirements have been met. Application forms are available in the Division of Education Advising Office.

Degree Requirements
Students must meet all university requirements for a master's degree.
In addition, students must:
1. maintain a GPA of 3.0 or higher, with a grade of "C" or better in each course;
2. apply a maximum of six hours of course credit from other accredited institutions toward the degree requirements, subject to approval by the faculty advisor and the coordinator of graduate studies;
3. complete all course work, including transfer credits, within six calendar years; and
118 SPECIAL EDUCATION

4. pass written comprehensive exams covering all course work.

II. Total - 37 Hours

Master of Arts in Psychology

The graduate major in Psychology prepares students for employment as researchers and evaluators in public and private settings; and teaching in community colleges and high schools (if appropriately certified). The program requires study in the traditional areas of psychology and permits intensive study in students’ area(s) of interest, including the preparation of a thesis under close faculty supervision.

Recommended Preparation

While an undergraduate major in psychology is strongly recommended, students without a psychology background may be admitted to the major and enroll for courses. Students must show evidence of having earned a grade of “B” or higher in the following prerequisites (or their equivalent): Personality Theories (PSYC410), Learning Cognition (PSYC422), Abnormal Psychology (PSYC430), Social Psychology (PSYC445), Child Development (PSYC512), Principles of Behavior Change (PSYC524), Research Methods (PSYC560), and Statistics (STAT468). These courses may not be used to fulfill degree requirements and may be taken at the undergraduate level or at another institution.

Admission Requirements

In addition to meeting university admission criteria, applicants must:

A. Already possess a baccalaureate degree from a regionally accredited college or university and be in good standing at the last school attended.

B. Have completed, with grades of “B” or higher, undergraduate courses at an accredited institution that are comparable to Personality Theories (PSYC410), Learning and Cognition (PSYC422), Abnormal Psychology (PSYC430), Social Psychology (PSYC445), Child Development (PSYC512), Research Methodology (PSYC560), and Statistics (STAT468). Please note, these courses are prerequisites and may not be used to fulfill degree requirements of the M.A. and may be taken at the undergraduate level or at another institution.

C. Have earned a grade point average (GPA) of at least 3.0 in the last 60 hours of undergraduate course work.

D. Have a score of at least 400 on the Psychology Specialty portion of the Graduate Record Exam (GRE).

E. Provide a statement of the applicant’s purpose in seeking a master’s degree in psychology in the thesis track and long-term goals.

F. Provide three letters of recommendation.

Admission to Candidacy

After admission as a degree-seeking student, a student must apply for candidacy. Application forms are available in the college office. Application for candidacy should be made within two weeks of the start of the trimester in which degree candidacy is sought. To qualify for candidacy, a student must:

1. complete all preparatory courses listed above with a grade of “B” or better;
2. complete PSYC821, PSYC826, PSYC828, and STAT860, with a grade of “B” or better; and
3. take the psychology portion of the Graduate Record Exam (GRE) after completing the four candidacy courses listed in Part 2 above. You can obtain information about taking the GRE from the Student Development Office (Ext. 4508) or by contacting the Educational Testing Service (ETS) in Evanston, Ill., [phone (847) 869-7700].

The candidacy committee will review the applications and inform the students of their candidacy status within six weeks of application. Candidacy review is one of several evaluative steps to help ensure program objectives are being satisfied and student outcomes are being reached. Students should refer to the “Division of Psychology and Counseling Student Handbook” for further details.
**Degree Requirements**

Students must meet all university requirements for a master’s degree.

In addition, students must:

1. maintain a GPA of 3.0 or higher, with a grade of “C” or better in each course and have no more than two courses with a grade of “C”;
2. complete STAT860 and PSYC890; and
3. receive positive endorsement from the thesis/project committee.

**I. Required Courses (29 Hours)**

**A. General Psychology (15 Hours)**

- PSYC 821 Graduate Seminar in Abnormal Psychology 3
- PSYC 826 Graduate Seminar in Social Psychology 3
- PSYC 828 Graduate Seminar in Cognitive Psychology 3
- PSYC 829 Graduate Seminar in Human Development 3
- PSYC 853 Human Neuropsychology I: Brain Function 3

**B. Methodology (14 Hours)**

- PSYC 890 Graduate Thesis/Project 4
- STAT 860 Advanced Statistics in Behavioral Science 3
- STAT 861 Computer Laboratory for Advanced Statistics 1
- PSYC 660 Graduate Research Methods 3
- PSYC 655 Thesis Preparation 3

**II. Selectives (Choose 9 hours from the courses listed below)**

- PSYC 523 Cognitive Development 3
- PSYC 524 Principles of Behavior Change 3
- PSYC 536 Motivation and Emotional Development 3
- PSYC 544 Theories and Treatment of Life Problems 4
- PSYC 555 Introduction to Therapy with Children 4
- PSYC 558 Introduction to Therapy with Adults 4
- PSYC 610 Measurements and Evaluation 3
- PSYC 615 Personality and Trait Assessment 3
- PSYC 630 Topics in Psychology: Thinking 3
- PSYC 720 Cultural Foundations of Life Span Development 3
- PSYC 822 Graduate Seminar in Human Memory 3
- PSYC 846 Individual Assessment I: School Age 3
- PSYC 847 Individual Assessment I: School Age Laboratory 1
- PSYC 857 Individual Assessment III: Personality 3
- COUN 630 Counseling Theories and Ethics 3

*Recommended only for those who have not yet decided between the Counseling and the master’s thesis programs.

**Recommended only for those who will complete the School Psychology certification program.

**III. Total - 38 Hours**

---

**Master of Arts in Psychology with a School Psychology Sequence**

The master or arts in Psychology with a sequence in School Psychology is designed for those students who seek to become competent practitioners, meeting the Illinois certification requirements. The program is approved by the Illinois State Board of Education for endorsement of the School Psychology certificate. Students electing this program will be prepared for certification as school psychologists in Illinois.

The School Psychology program is guided by the values of the division and school psychology faculty. These include respect for individual differences, the necessity for the consideration of multicultural issues in assessment and intervention, the importance of remediating the complete student and learning environment, and the importance of advocating for the rights of students.

Students pursuing preparation in School Psychology follow a rigorous program of studies in the areas of psychological foundations, assessment/interventions, and practicum/internship experiences. Course work is designed to provide appropriate knowledge and skills in the broad based areas of educational foundations; measurement, assessment and intervention; psychological foundations; and professional school psychology. In addition to specified courses, students pursuing this program complete a practicum and internship experience. The program requires extensive preparation necessitating a three year commitment in addition to the yearlong internship.

**Certification**

The school psychology sequence under this major is approved by the Illinois State Board of Education and leads to the School Service Certificate endorsed in School Psychology. Recommendation for the certificate is contingent upon satisfactory completion of all graduate course work and the internships in school psychology (PSYC920-921). Students applying for certification must pass Illinois certification tests in school psychology and basic skills.

**Recommended Preparation**

While an undergraduate major in psychology is strongly recommended, students without a psychology background may be admitted to the major and enroll for courses. However, all students must show evidence of having earned a grade of “B” or better in the following prerequisites (or their equivalent): Personality Theories (PSYC410), Learning Cognition (PSYC422), Abnormal Psychology (PSYC430), Social Psychology (PSYC445), Child Development (PSYC512), Principles of Behavior Change (PSYC524), Research Methods (PSYC560), and
Statistics (STAT468). This course work may be taken at the undergraduate level or at another institution. However, none of this course work may be used to fulfill degree requirements, and it will not count toward the minimum sixty graduate credit hours required in the school psychology program. For additional information refer to the “Division of Psychology and Counseling Student Handbook” available from the degree program advisor.

Admission Criteria
In addition to the Governors State University graduate application, applicants must submit the following in order to be considered for admission to the school psychology program:

1. Statement of reasons for pursuing a graduate school psychology program.
2. Three current letters of recommendation. Letters should be solicited from those who can speak to the student's academic performance such as advisors, past professors, etc.
3. Minimum undergraduate grade point of 3.0 on a 4.0 scale.
4. Applicants with a master's must have a 3.25 graduate GPA.

Note: Students with a GPA less than 3.0 may be admitted on a probationary basis. Factors considered may include a comparison of the student's GPA between the first two and the last two years of college, submission of test scores such as the GRE, Miller Analogies, or other objective evidence an applicant may choose to submit. Scores of the GRE (general test) or Miller's should be at the fifty percentile.

An application will not be reviewed until the file is complete. Applicants will be interviewed before the admissions decisions. As space in clinical course work and supervised practicum/internship is restricted, not all applicants are admitted to the program. Applications should be completed by June 15th for fall admission, October 15th for winter admission, and March 15th for spring/summer admission.

Admission to Candidacy
After admission as a degree-seeking student, a student must also apply for candidacy. Application forms are available in the division office. Application for candidacy should be made within two weeks of the start of the trimester in which degree candidacy is sought. To qualify for candidacy, a student must:

1. complete PSYC835, PSYC610, COUN810, and either PSYC826 or PSYC853 with a grade of "B" or better in each course; and
2. complete the application and submit transcripts verifying completion of the above course work.

The candidacy committee will review the applications and inform the students of their candidacy status within six weeks of application. Candidacy review is one of several evaluative steps to help ensure program objectives are being satisfied and student outcomes are being reached. Students should refer to the “Division of Psychology and Counseling Student Handbook” for further details.

Residency
In addition to the university residency requirement of a minimum of twenty-four credits toward the master's taken from the university, school psychology students must also complete nine hours of graduate work within one academic year.

Admission to Practicum
Enrollment in PSYC865, Practicum, requires prior admission to candidacy and meeting other requirements outlined for this program in the student handbook available from the program advisor. Application for the practicum in the winter trimester must be made by November 15 and by July 15 for the fall trimester. Ordinarily, the practicum is not offered in the summer. Admission to the practicum requires demonstration of professional knowledge and skills in the areas of assessment, consultation, and professional school psychology. Students should refer to the handbook for evaluation details. Priority in assignments is based on the date of achieving candidacy.

Degree Requirements
Students must meet all university requirements for a master's degree.

In addition, students must:
1. maintain a GPA of 3.0 or higher and have no more than two courses with a grade of “C.” In addition, students must earn no less than a “B” in PSYC846, PSYC847, PSYC848, PSYC857, and PSYC858;
2. complete PSYC865;
3. receive positive endorsement from the review committee; and
4. meet all other requirements for certification as stated in the “Division of Psychology and Counseling Student Handbook.”
Internship Requirement

After completing the degree requirements, students must complete the internships (PSYC920 and PSCY921). The internship experience is no less than one academic year of supervised experience (minimum of 1,200 clock-hours) in a public school approved as an internship site. Approval for beginning an internship is predicated on acceptable practicum evaluations and faculty review of the entire practicum experience, including a portfolio practicum packet.

The graduate degree programs in the College of Health Professions prepare students for a variety of employment opportunities in the health field, either through career changes or advancement within a profession. All majors provide extensive field experiences and exposure to, or participation in, research activities through a vast network of hospitals and medical centers in the Chicago region. Traditional lecture-discussion and seminar courses provide the theoretical bases for clinical and research experiences. The college also provides credit and noncredit continuing education courses and workshops for health professionals at many off-campus locations throughout the Chicago region.

ACCREDITATION

The graduate Nursing major is approved by the Illinois Department of Professional Regulation and accredited by the National League for Nursing.

The graduate Health Administration major is accredited by the Accrediting Commission on Education for Health Services Administration.

The graduate Communication Disorders major is accredited in Speech-Language Pathology by the American Speech-Language-Hearing Association (ASHA). It is also approved by the Illinois State Board of Education and leads to the Standard Special Certificate endorsed in Speech and Language Impaired. This major also meets the requirements for licensure in speech-language pathology in the state of Illinois.

DEGREE REQUIREMENTS FOR GRADUATE PROGRAMS
The university degree requirements for graduate programs are listed in the Master's Degree Requirements section of this catalog.
Requirements for specific degree programs follow.

Master of Health Science in Addictions Studies
The graduate major in Addictions Studies is designed to prepare individuals for leadership careers in the prevention and treatment of substance abuse. The curriculum is based on the premise that addictions are multi-factorial, requiring a multi-solution academic approach. As professionals in the field, students need theoretical and empirical knowledge drawn from diverse behavioral, health, and social sciences. As substance abuse specialists, students will need a theoretical knowledge of etiology and epidemiology, education and community health approaches to prevention, clinical reasoning in treatment, and a background in the political, legal, and historical development of the field. As leaders in the substance abuse field, students will be familiar with planning, managing, and evaluation of both treatment and prevention services.

Special Admissions Requirements
In addition to meeting university admission criteria, applicants must:
1. have a cumulative GPA of 2.5 or higher for all undergraduate courses;
2. have completed the following course work or their equivalent: six hours of study in the behavioral sciences (three hours must be in an introductory psychology course and the additional three hours in psychology, sociology, social work, or anthropology); six hours of biological sciences or chemistry; and a statistics or research methods course; PRE-REQUISITES: nine credit hours of addiction-related course work, including three credits in multicultural perspective (may be completed after admission to the program).

Applicants must provide documentation of equivalent course work to the advisor.

Recommended Preparation
An undergraduate major in one of the following fields is recommended: behavioral sciences, social work, or allied health disciplines. An undergraduate minor in addictions studies is suggested.

Admission to Candidacy
After admission as a degree-seeking student, a student must also apply for candidacy. Application forms are available in the program office. Application for candidacy should be made at the beginning of the trimester in which the student expects to fulfill the candidacy requirements. Until degree candidacy status is attained, a student will not be permitted to enroll in ADDS865, ADDS869, or ADDS880. To qualify for degree candidacy, a student must:
1. maintain a GPA of 3.0 or higher for all graduate courses attempted;
2. earn a grade of "B" or better in six of the following eight courses: ADDS610, ADDS720, ADDS815, ADDS821, ADDS825, ADDS835, ADDS845, and ADDS855.

More detailed candidacy information is available through the program office or the student's advisor.

Degree Requirements
Credit hours earned in Addictions Studies, Professional Development (ADPD) courses cannot be applied toward degree requirements.
Students must meet all university requirements for a master's degree.
I. Required Courses (26 Hours)
- ADDS 610 Psychopharmacology ................................ 3
- ADDS 720 Substance Abuse Prevention .................... 3
- ADDS 845 Clinical Models of Addiction .................... 3
- ADDS 815 Substance Abuse Counseling .................... 3
- ADDS 821 Group Techniques ..................................... 3
- ADDS 825 Etiology and Epidemiology of Substance Abuse ........................................ 3
- ADDS 835 Planning, Managing, and Evaluating Substance Abuse Programs ....................... 3
- ADDS 855 Seminar in Substance Abuse .................... 3
- ADDS 865 Internship Seminar ................................. 1
- ADDS 869 Comprehensive Examination .................... 1
- ADDS 880 Internship ................................................... 3

II. Career Selectives (3 Hours)
In consultation with advisor, select six hours from the courses that are appropriate to the student's career or educational goals.

III. Total - 32 Hours

Master of Health Science in Communication Disorders

The graduate major in Communication Disorders prepares students to work as professional speech-language pathologists in a variety of settings, including schools, hospitals, mental health centers, and private practice. Preparation is accomplished through extensive academic and external practicum experience.

Accreditation/Certification
The graduate program is accredited by the American Speech-Language-Hearing Association (ASHA). Graduates meet all academic and practicum requirements for the ASHA Certificate of Clinical Competence in Speech-Language Pathology. This major also meets the academic requirements for licensure in speech-language pathology in the state of Illinois.

The program is also approved by the Illinois State Board of Education and can lead to the Illinois Standard Special Certificate in Speech and Language Impaired. This teaching certificate is required for all speech-language pathologists employed in Illinois public schools. Students seeking teaching certification in this area must meet the Requirements for Certification through Approved Programs, the General Education Requirements and the Professional Education Requirements listed in the Teacher Certification section of this catalog.

The program in Communication Disorders is designed to serve part-time students. Students usually take six hours per trimester and three years to complete the program.

Special Admission Requirements
This program accepts a limited number of applicants and generally admits students only for the fall trimester. Students should apply for admission by March 1 of the year in which enrollment is sought. Applicants will be ranked for admission on the basis of academic potential. The number admitted will be based on the number of available openings in the program. Priority will be given to the applications of qualified Illinois residents. Applications for the winter or spring/summer trimesters or those seeking admission by petition will be considered only if warranted by openings in the program.

In addition to meeting university criteria, applicants must:
1. have completed a bachelor's degree in communication disorders at a university with regional accreditation;
2. have a GPA of 3.00 or higher for all undergraduate work attempted before receiving the baccalaureate degree;
3. have a GPA of 3.30 or higher for all courses attempted in communication disorders;
4. submit four letters that address the applicant's potential ability as a graduate student in communication disorders. At least three of the four letters must be from previous academic faculty in the major; and
5. have adequate speech, language, hearing, and interpersonal skills to function as a speech-language pathologist. Applicants will be admitted conditionally pending verification.

Recommended Preparation
Students planning to pursue the Standard Special Certificate in Speech and Language Impaired should have completed the general education and professional education requirements for that certificate specified in the Teacher Certification section of this catalog.

Thesis/Non-Thesis Option
As part of this degree program, students may choose either a thesis or non-thesis option.

In the thesis option, a student completes a master's project, prepares a formal thesis manuscript, and presents the study in a formal seminar. The thesis option would be appropriate for students who have focused research interests or who intend to pursue doctoral study. The thesis proposal must be approved before starting the practicum sequence.

In the non-thesis option, a student takes comprehensive examinations covering all communication disorders course work. The examination must be passed before starting the practicum sequence.
More information about these options is available through the Communication Disorders program director.

**Admission to Candidacy**

After completion of twelve graduate semester hours in Communication Disorders courses, a student must apply for candidacy. Application forms are available in the program office. Unsuccessful applicants will not be permitted to complete the degree program. To qualify for degree candidacy, a student must:

1. apply for candidacy in the trimester after completing twelve graduate credit hours in Communication Disorders courses;
2. have successfully completed two courses taught by different tenure-track faculty in Communication Disorders; and
3. have an approved study plan.

A student will be accepted as a graduate candidate if:

1. a minimum GPA of 3.0 was earned in the first twelve credits of graduate Communication Disorders courses;
2. no more than one grade of "C" was earned;
3. speech, language, and hearing abilities are acceptable;
4. interpersonal skills are appropriate for the profession; and
5. undergraduate requirements in the approved student study plan are completed.

Skill levels noted in items three and four above are evaluated based on the professional judgment of faculty through regular reviews of student progress.

More detailed candidacy information is available through the program office or the student’s advisor.

**Degree Requirements**

Students must meet all university requirements for a master’s degree. In addition, students must:

1. complete all degree requirements within five calendar years after beginning course work as a graduate degree-seeking student in Communication Disorders:
2. satisfactorily complete all practicum requirements in a variety of disorder areas. Information about these requirements is available through the Communication Disorders program director;
3. pass written comprehensive examinations or complete a graduate thesis/project;
4. earn no more than one grade of "C" in graduate Communication Disorders courses; and
5. pass the national examination (NESPAlPraxis) in speech-language pathology.

**Master of Health Administration**

The graduate major in Health Administration prepares students to assume middle management positions and, after the requisite years of experience, top executive positions in large health care institutions. The purpose of the major is to train administrators who will be able both to manage and develop various health service organizations and programs and also to facilitate improved health status and well being of individuals in their service area. Graduates of the master’s degree program find employment with hospitals, mental health institutions, HMOs, a variety of governmental and private health care programs, and alternative delivery systems.

**Accreditation**

The graduate program has been accredited since 1978 by the Accrediting Commission on Education for Health Services Administration (ACEHSA).
Special Admission Requirements
In addition to meeting university criteria, applicants must:
1. Have a GPA of 3.0 or higher for the last sixty hours of undergraduate course work, or a GPA of 3.0 or higher for six or more hours of graduate credit.
2. Submit three standard evaluation forms that support the applicant for graduate study in Health Administration. Evaluations must be from previous academic faculty in the major and/or from current or previous supervisors if employed, or the applicant may petition for a waiver or substitution of references if unemployed or out of school more than five years.
3. Submit a completed division questionnaire that is used for evaluation and advisement purposes.

Recommended Preparation
An undergraduate major in one of the following fields is recommended: health administration, business administration, allied health disciplines, behavioral sciences, or public administration. Students should have completed the following prerequisite course work within the last five years: three hours in Management Accounting for Health Care Organizations (ACCT402), three hours in statistics, three hours in economics (principles, microeconomics, or foundations), three hours of an undergraduate principles of management course, three hours in social science or policy analysis, and a course or workshop in computer literacy. Students without this course work may be admitted to the program, but can only enroll in graduate level courses in areas for which they have completed the prerequisite course work. Students may seek a waiver from prerequisites by submitting a written request with supporting documentation to their advisor for evaluation during their first trimester of enrollment.

Admission to Candidacy
After admission as a degree-seeking student, a student also must apply for candidacy. Application forms are available in the division office. Application for candidacy should be made at the beginning of the trimester in which the student expects to fulfill the candidacy requirements. Unsuccessful applicants to candidacy will not be permitted further registration in courses in the degree program. To qualify for degree candidacy, a student must:
1. Have earned a grade of "B" or better in five of the following seven courses: HLAD701, HLAD705, HLAD710, HLAD715, HLAD718, HLAD745, and HLAD755.
2. Complete all prerequisite course work listed above.
3. Apply for candidacy after earning a minimum of fifteen and a maximum of twenty-four graduate-level credit hours.
4. Demonstrate adequate oral and written communication abilities appropriate for the profession.
5. Demonstrate adequate interpersonal skills appropriate for the profession.

Skill levels noted in items four and five above are evaluated based on the professional judgment of the faculty and administrators through regular review of student progress.

More detailed candidacy information is available through the division office or the student's advisor.

Degree Requirements
Students must meet all university requirements for a master's degree.
In addition, a student must:
1. Apply no more than one course with a grade of "C" toward degree requirements.
2. Earn a grade of "B" or better in the practicum course (HLAD865 or HLAD880).
3. Repeat a course only once to meet degree requirements.
4. Complete a pregraduation survey.

1. Required Courses (51 Hours)
   HLAD 701 Medical Care in Society: Ethics, Health, and Leadership .................. 3
   HLAD 705 Applied Research Methods for Health Administration ...................... 3
   HLAD 710 Health Care Organization: Problems and Policies ......................... 3
   HLAD 715 Economics of Health Administration .................................. 3
   HLAD 718 Health Care Policy .................................................. 3

   HLAD 846 Health Care Financial Management II .................................. 3
   HLAD 850 Strategic Planning and Marketing for Health Administration ........... 3
   HLAD 855 Health Care Management II ............................................ 3
II. Practicum Option (3 Hours)

Select three hours:

- HLAD 865 Health Administration Field Experience (3)
- HLAD 880 Internship: Residency, multi-trimester, minimum of six months (3)

III. Total - 54 Hours

Master of Science in Nursing

The graduate major in Nursing provides a master’s degree program in advanced practice nursing for nurses who have a baccalaureate degree in nursing. The curriculum is designed for the commuting, full-time employed student who may complete the program on a part-time basis. The major is advanced clinical nursing practice in acute and chronic health care. Role preparation as clinical nurse specialists, nurse educators, and nurse administrators is also included. Students apply research concepts, theories, and skills in developing one of these functional roles in advanced nursing practice. Clinical nurse specialists use clinical expertise to improve the quality of client care in acute, chronic, or community health care environments. Nurse educators are prepared to teach nursing in associate or baccalaureate degree programs. Nurse administrators are prepared to assume beginning administrative positions in nursing service organizations.

Accreditation

The graduate program is accredited by the National League for Nursing and is approved by the Illinois Department of Professional Regulation.

Special Admission Requirements

In addition to meeting university admission criteria, applicants must:

1. have a baccalaureate degree with a major in nursing from a state-approved nursing program in a regionally-accredited college or university;
2. have completed the following undergraduate courses or their equivalent: three hours in Nursing Research (NURS400) within the past five years; three hours in Statistics (STAT468), and five hours in Nursing: Health Assessment (NURS330) within the past five years;
3. have taken the GRE General Test. Scores should be submitted at the time of application. Students who have not taken the GRE before admission must do so during their first trimester of enrollment in the major;
4. have verifiable employment as a registered professional nurse for at least two of the past five years, or have graduated from a baccalaureate nursing program within the last two calendar years. Applicants must have letter(s) verifying employment forwarded to the Office of Admissions by their employer(s);
5. have a current and valid license as a registered professional nurse in the state of Illinois;
6. have a cumulative GPA of 2.50 or higher in all undergraduate courses and a GPA of 3.0 or higher with a grade of "C" or better in all upper-division nursing courses. Applicants who do not meet the GPA requirements or who have graduated from nongraded baccalaureate programs must take the following battery of ACT-PEP nursing examinations and must achieve a score of forty-five or better in each of the following: Health Restoration: Area I (#425), Health Restoration: Area II (#477), Health Support: Area I (#530), Health Support: Area II (#577), and Professional Strategies, Nursing (#426). These examinations must be completed before admission to the major;
7. carry current nursing malpractice/liability insurance;
8. submit a one-page biographical sketch and a statement of personal goals for pursuing a graduate degree in nursing; and
9. submit two references using the university’s forms: one from a baccalaureate nursing faculty member and one from another professional nurse (non-faculty).

Applicants whose credentials are from countries other than the United States must have their credentials evaluated through the Office of Admissions. These applicants will be required to take and pass the TOEFL (Test of English as a Foreign Language) with a score of 550 or above.

Applicants must assume all responsibility for fees associated with testing.

All required credentials must be on file in the Office of Admissions before applicants can be admitted to the program.

Admission to Candidacy

After admission as a degree-seeking student, a student must also apply for candidacy. Application for candidacy should be made with the approval of one’s academic advisor at the completion of NURS785, at which time all candidacy requirements must be fulfilled. Admission to candidacy is required in order to enroll for additional nursing courses. To qualify for degree candidacy, a student must:

1. meet all conditions of admission and
2. complete NURS740, NURS750, NURS755, NURS780, and NURS785.
Degree Requirements

Students must meet all university requirements for a master's degree.

In addition, students must:

1. pass, during the last trimester of the student's program, an oral comprehensive examination over the major area of study. This examination may be repeated only once and
2. repeat only once any graduate nursing course in which an "F" is received.

I. Required Courses (41 Hours)

- NURS 740 Concepts in Advanced Nursing Practice .................................. 3
- NURS 750 Clinical Pathophysiology ................................................. 5
- NURS 755 Nursing Theories and Models ........................................... 3
- NURS 780 Advanced Health Assessment ............................................ 4
- NURS 785 Research for Advanced Nursing Practice ......................... 3
- NURS 801 Pharmacotherapeutic Nursing ......................................... 3
- NURS 804 Seminar and Practicum in Acute Care Nursing .................. 5
- NURS 805 Seminar and Practicum in Chronic Care Nursing ................ 5
- NURS 806 Nursing and Health Care Policy ....................................... 3

(With advisor's approval, students select one of the nursing functional areas listed below for a total of seven hours.)

Clinical Specialist

- NURS 820 Clinical Nurse Specialist .................................................. 3
- NURS 845 Seminar and Practicum for Clinical Specialists .................. 4

Nurse Educator

- NURS 830 Nurse Educator .......................................................... 3
- NURS 850 Seminar and Practicum for Nurse Educators ..................... 4

Nurse Administrator

- NURS 835 Nurse Administrator ..................................................... 3
- NURS 855 Seminar and Practicum for Nurse Administrators ............... 4

II. Thesis Option (3 Hours)

- NURS 890 Graduate Thesis/Project .................................................. 1-8

Students who have focused research interests or who intend to pursue doctoral study may wish to conduct formal thesis/project research. Students may begin in the sixth trimester by registering for NURS890 for one hour. A minimum of three hours is required. More information about this option is available from the academic advisor.

III. Total Hours Required - 41

With Thesis - 44

RN’s with a B.A. or B.S. Degree (Non-nursing) to M.S. Degree in Nursing, Option

Special Admission Requirements:

In addition to meeting university criteria, applicants must have:

1. RN licensure-registered State of Illinois.
2. Baccalaureate degree, non-nursing from a regionally accredited college or university.
3. Cumulative GPA of 3.0 on a 4.0 scale in all nursing and non-nursing undergraduate work.
4. Baccalaureate level, ACT-PEP nursing examination with a standard score of 45 in each area: Health Restoration - Area I (#425); Health Restoration - Area II (#477); Health Support - Area I (#530); Health Support - Area II (#577); and Professional Nursing (#426) for students who do not have a 3.0 on a 4.0 scale and for those who do not have a B.A./B.S. degree in nursing.
5. Lower-division credits (60 hours, 26 hours in nursing). If a student does not have any of these courses (for example, organic chemistry), he/she would be required to complete these upon acceptance (conditional acceptance).

Of the 19 credit hours of upper-division required general education courses, all hours can be transferred in with the following stipulations: must have ten hours of sciences, three hours of statistics, and six hours of upper-division courses.

Required nursing core courses are: NURS 304, Conceptual Basis for Professional Nursing Practice; NURS 320, Teaching Clients and Families; NURS 330, Health Assessment; NURS 400, Research Analysis; NURS 410, Principles of Management; NURS 420, Community Health Nursing; NURS 430, Episodic Nursing.

6. If the student is not successful in passing the baccalaureate level ACT-PEP nursing examinations (#425, #477, #530, #577, and #426) following the second repeat, the student will not be admitted to the graduate program.

7. The student must complete all baccalaureate level courses listed above and the GRE General Test before entering the graduate program.

8. The student must have verifiable employment as a registered nurse for at least two of the past five years. Have a letter of employment verification from employer sent to Governors State University, Office of Admissions.

9. Have current nursing malpractice/liability insurance.
10. Submit three letters of recommendation that provide evidence of leadership potential, work experience, and communication skills; two letters of recommendation must be submitted by the student's former college/university nursing professors and one from a non-education source.

11. Submit a one-page biographical sketch and a statement of personal goals for pursuing a graduate degree in Nursing.

Applicants whose credentials are from countries other than the United States must have their credentials evaluated through the Office of Admissions. These applicants will be required to take and pass the Test of English as a Foreign Language (TOEFL) with a score of 550 or above.

Applicants must assume all responsibility for fees associated with testing. All credentials must be submitted to the Office of Admissions. No applicants can be fully admitted to the program until all required credentials are on file in the Office of Admissions.

Students have potential of transferring in 29 upper-division hours towards their M.S. degree. However, if they do not have the required lower-division courses, they will need to take these (up to 13 upper-division hours, whatever lower-division credit they have) before progressing through the baccalaureate portion of the RN master of science program. The student who is successful in completing these requirements will progress into the master's program and will complete it as any other student would.

**SCHOOL NURSE CERTIFICATION PROGRAM (Type 73)**

**The Program**

The School Nurse Certification Program is offered by the Division of Nursing and Health Sciences in the College of Health Professions. It is a program of study leading to eligibility for a School Service Personnel Certificate, Type 73, with School Nurse Endorsement, issued by the Illinois State Board of Education. The program was developed according to the guidelines presented by the Illinois State Board of Education in the Manual for School Nurse Internship Programs (1992). The program at Governors State University is approved by the Illinois State Board of Education, Division of Professional Preparation and Department of Special Education.

**Admission Requirements**

1. Bachelor's degree, nursing or non-nursing.
2. Current Illinois Registered Professional Nursing license.
3. Evaluation of all college transcripts.
4. Cumulative GPA of 2.50.
5. Thirty semester hours of content specified by the Illinois State Board of Education (ISBE) for School Nurse Certification.

**Certification Requirements**

1. Student Study Plans based on transcript evaluation by the Division of Nursing and Health Sciences school nurse coordinator (to equal 30 semester hours required by ISBE).
2. Two nursing courses at GSU
   a. Nursing 600 - Special Topics in Nursing: Care of the School-Age Population (3 credit hours).
   b. Nursing 605 - Special Topics in Nursing: School Nurse Internship (5-8 credit hours).
3. Supervision by an approved certified school nurse in public school settings.
4. Certification tests administered by the Illinois State Board of Education following successful completion of the approved course work and internship.

**Illinois State Board of Education Specified Course Requirements**

The School Nurse Certification (Type 73) programs include 30 semester hours of required subject content: Introduction to Public Health Nursing Theory and Practice; Human Growth and Development; Introduction to Community Health Programs; Educational Psychology; Introductory Sociology; History and Philosophy of Education; and The Exceptional Child. (Additional recommended course work includes Guidance and Counseling, Mental Health, Health Education, Child and Adolescent Psychology, Nutrition, Social Case Work, Curriculum Design, and Communicative Skills.) Most of these are missing from basic nursing education. Course requirements determined to be needed following transcript evaluation may be selected from the approved Governors State University courses. Contact the school nurse coordinator in the Division of Nursing and Health Sciences for a list of approved course equivalents offered at GSU.
Master of Occupational Therapy
(M.O.T.)
The graduate professional degree in Occupational Therapy (Master in Occupational Therapy-M.O.T.) prepares students to assume general practice positions in occupational therapy in a variety of health, education, and social service delivery systems. This is an entry-level graduate degree. This new curriculum has been designed for the student who has a bachelor's degree (any major), appropriate prerequisite course work in the sciences, and a strong commitment to pursuing a rigorous full-time course of study in Occupational Therapy.

Accreditation
The Occupational Therapy program has applied for accreditation by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. AOTA's phone number is (301) 652-AOTA. Once accreditation of the program has been obtained, its graduates will be able to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an occupational therapist, registered (OTR). Most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination.

Special Admissions Requirements
In addition to meeting university admission criteria, applicants must have a bachelor's degree with the following prerequisite courses:

- General Biology with lab, 8 Hours
- General Chemistry with lab, 8 Hours
- Organic Chemistry (CHEM 322/323) with lab, 4 Hours
- Anatomy (BIOL 360/361) with lab, 4 Hours
- Physiology (BIOL 444/446/447) or BIOL 450/451, 4 Hours
- General Physics with lab (PHYS 352/353, PHYS 362/363), 8 Hours
- Statistics (STAT 520), 3 Hours
- Computer Science (CPSC 305 or MIS 301), 3 Hours
- General Psychology (PSYC 310), 3 hours
- Abnormal Psychology (PSYC 430), 3 Hours
- Developmental Psychology (PSYC 512), 3 Hours
- Art (ART 310 or ART 305), 3 Hours
- Orientation to Occupational Therapy (OCCT 440), 2 Hours

Students must have a minimum cumulative GPA of 2.75 and a minimum prerequisite GPA of 3.00. Students must complete a specific application form when applying to the program.

Information concerning the program and special application materials for the Occupational Therapy program are available from the GSU Office of Admissions:

Admissions Office
Governors State University
University Park, IL 60466
(708) 534-4490

Completed M.O.T. application packets are to be postmarked no later than May 2.

The M.O.T. program enrolls students in the fall trimester as master's prerequisite students en route to the Occupational Therapy program. Upon successful completion of all prerequisite course work and requirements, the students are then admitted into the M.O.T. program as graduate Occupational Therapy students.

Recommended Preparation
Students planning to pursue application into the M.O.T. program should complete a baccalaureate degree in any field of study and complete the above-stated prerequisite courses.

Admission to Candidacy
After admission as a degree-seeking student, a student must apply for candidacy. Application forms are available in the program office. Application for candidacy must be made at the beginning of the third trimester in which the student is enrolled in the major. Students must have completed at least twenty-four (24) credit hours before applying for candidacy and maintain a GPA of 3.0 or higher for all graduate courses attempted.

Degree Requirements
I. Full Prerequisite Courses (12)
   - HLAD 701 Medical Care Society: Ethics, Health, and Leadership .................. 3
   - BIOL 701/702 Gross Anatomy I ........................................... 4
   - BIOL 706 Physiology of Disease I ........................................ 2
   - PHYT 705/706 Movement Analysis I ......................................... 3

II. Required Courses (77 Hours)
   - BIOL 711/712 Gross Anatomy II ........................................... 4
   - BIOL 716 Physiology of Disease II ........................................ 3
   - PHYT 715/716 Movement Analysis II ........................................ 3
   - ** OCCT 720 Theories of Occupation ....................................... 3
   - ** OCCT 750/751 OT Process/Lab ........................................... 3
   - COMS 625 Interpersonal Communication .................................... 3
   - COMS 650 Organizational Communication, Change, and Development .... 3
The physical therapy professional provides for the technology throughout the curriculum. Resulting from injury, disease, disability, or other health conditions, movement dysfunction, and pain care, education, or human services team, they practice in cooperation and interdisciplinary practice by conducting courses with other programs, including Occupational therapy. Graduates are trained to assume general practice positions in physical therapy in a variety of settings, including hospitals, clinics, rehabilitation centers, school systems, sports medicine centers, extended care centers, and in-home care.

Accreditation

Governors State University is seeking accreditation by the Commission of Accreditation in Physical Therapy Education of the American Physical Therapy Association. At this writing, the program has submitted a Declaration of Intent to Apply for Accreditation, which is the formal application required in the pre-accreditation stage. Submission of the document does not assure that the program will be granted candidate for accreditation status nor does it assure the program will be granted initial accreditation.

Special Admissions Requirements

In addition to meeting university admission criteria, applicants must:

I. have a bachelor’s degree, any major, with a minimum cumulative GPA of 2.75 on a 4.0 scale.

II. have appropriate prerequisite course work with a minimum prerequisite GPA of 3.0 on a 4.0 scale. The following courses (in semester credit hours) or their equivalents are minimum prerequisites for entry into the M.P.T. program.

- General Biology with lab (8)
- General Chemistry with lab (8)
- CHEM 322/323, Organic Chemistry with lab (4)
- BIOL 360/361, Anatomy with lab (4)
- (Two semesters of lower division human anatomy and physiology with lab satisfies this requirement only.)
- BIOL 444/445/446/447 (6) or BIOL 450/451 (4), Human or Animal Physiology with lab
- PHYS 352/353 and PHYS 362/363, General Physics with lab (8)
- STAT 520, Statistics (3)
- CPSC 305 or MIS 301, Computer Information Systems (3)
- PSYC 310, General Psychology (3)
- PSYC 430, Abnormal Psychology (3)
- PSYC 512, Developmental Psychology (3)
- PHYT 320, Orientation to Physical Therapy (2)

III. submit a supplementary application packet which includes:

- official transcripts of all previous college-level work,
- background information form,
- official GRE scores,
- three letters of recommendation,
- a personal essay, and
- official TOEFL scores (if applicable).

IV. participate in personal interviews conducted by the admissions committee.
Applications for admission are due by January 31, and admissions decisions are made by April 15. Applications for admission are available from the GSU Admissions Office and the Physical Therapy Program Office. Due to accreditation guidelines and limited space availability, this program can only accept a limited number of students each year. Applicants will be ranked for admission on the basis of their academic potential and the admission’s criteria.

Admission to Candidacy

After an approved study plan is on file in the Physical Therapy Program Office, each student must apply for admission to candidacy. Application forms are available in the program office. Application for candidacy must be made at the beginning of the third trimester in which the student is enrolled and before participation in Clinical Practicum (PHYT 729). Students must have completed thirty credit hours with a minimum GPA of 3.0.

Curriculum

Building on a foundation in the basic sciences during the first year, the curriculum focuses on clinical and research skills during the second year. Clinical expertise and the presentation of original clinical research is emphasized during the third year. Clinical experiences complement the didactic instruction and provide exposure to a variety of clientele in a broad range of professional settings. Students develop universal skills and attitudes, including a commitment to lifelong learning, patient safety, management strategies, and professional behavior that can be applied to any clientele or health care setting.

Degree Requirements

Required Courses: (90 Hours)

A. Basic Sciences:
   BIOL 701 Gross Anatomy I .............................................. 3
   BIOL 702 Gross Anatomy I Lab ........................................ 1
   BIOL 706 Physiology of Disease I .................................... 2
   BIOL 711 Gross Anatomy II ............................................ 3

D. In addition to completing the required courses, students must also:
   1. satisfactorily complete all clinical internships in a variety of settings,
   2. complete and present a graduate research project, and
   3. pass a written comprehensive final examination.

Because of the new developing program status, courses may be modified. Students should work closely with advisors to complete their study plans.
Master of Social Work (M.S.W.)

The graduate Social Work degree (M.S.W.) prepares graduates for professional roles as workers, supervisors, and managers in the public and non-profit human services system, with emphasis on work with poor, disadvantaged, and vulnerable populations. Examples include neglected and abused children, poor and at-risk families, mentally ill persons, children and adults with disabilities, families dependent on public assistance programs, and persons suffering from critical and chronic illness with life disrupting consequences for themselves and their families. Students will acquire advanced knowledge and skills to intervene at the individual, small group, community, and organizational level, offering social work intervention, professional case management, and program, community and agency development.

The program will emphasize interorganizational, inter-system, and interdisciplinary collaboration to counter service fragmentation and stress community-based, neighborhood-based, and family-centered solutions. Courses and field experiences will offer opportunities to learn with and from students and faculty in related human services disciplines such as counseling, psychology, education, nursing, addictions studies, and criminal justice. Field internships in human services agencies will be a major component of the program. Settings will include publicly-supported social services such as the Department of Children and Family Services, Department of Mental Health and Developmental Disabilities, public health, and non-profit and for-profit agencies that serve poor and disadvantaged clients reliant on public support.

The program is offered on a part-time basis to reflect the needs of Governors State students and especially of returning employees of human service agencies. The program comprises course work and practicum, feasible for an employee to complete while continuing work, especially if some work-study fieldwork (i.e., performed in one’s employment setting) can be arranged.

The first year of the program will provide an introduction to generic skills of practice, supporting theory in human behavior, preparation for culturally competent social work, knowledge of policy and of professional history and organization. Themes of service integration, reform, and interdisciplinary teamwork will be stressed from the outset so that students come to see social work as one profession among many with specialized knowledge and skills but overlapping missions. The second and third years will allow students to concentrate in one of two areas, Child and Family Services or Health and Mental Health Services, choosing specialized courses, electives, and fieldwork. Where possible, the choice of electives and fieldwork will enable students to obtain joint or concurrent degrees, or certificates in other disciplines offered by the university.

Special Admissions Requirements

In addition to meeting the university’s admission criteria, students must have a strong foundation in the liberal arts, as evidenced by the ability to think critically about society, people and their problems, and expressions of culture and have a commitment to social work practice in the public and non-for-profit service sectors.

Applicants must also submit a separate application for admission to the M.S.W. program. This application will include an autobiographical essay and three letters of recommendation describing the applicant’s suitability for graduate social work education and practice. Applicants will also be interviewed as part of the admission process.

Information concerning the program and special application materials for the graduate in Social Work program are available from the GSU Office of Admissions:

Admissions Office
Governors State University
University Park, IL 60466
(708) 534-4490

The M.S.W. degree is slated to begin in Fall 1997.

Recommended Preparation

Students with baccalaureate degrees in undergraduate majors which provide a strong liberal arts foundation and/or a focus in the human services will have an appropriate educational background for graduate study in social work.

Students who have received a B.S.W. degree from a program accredited by the Council on Social Work Education may receive advanced standing. Students receiving advanced standing will be permitted to take selected advanced-level courses to avoid duplication of foundation material mastered at the B.S.W. level.

Prior learning experience credit will not be given for foundation course work or fieldwork in the M.S.W. program.

In addition to having an appropriate educational background, students should also be committed to practicing social work in the public human services and non-profit organizations serving populations and communities at risk.
Admission to Candidacy

After admission as a degree-seeking student, the student must apply for candidacy. Application forms are available in the program office. Application for candidacy must be made at the beginning of the third trimester in which the student is enrolled in the M.S.W. program. Students must have completed at least eighteen (18) credit hours before applying for candidacy and have maintained a 3.0 GPA or higher for all graduate courses attempted.

Degree Requirements

In addition to meeting the university's requirements for a master's degree, M.S.W. students must maintain a GPA of 3.0 for all graduate courses attempted; must earn a grade of "B" or better in identified core courses; must complete 1,024 hours of fieldwork; and must receive positive evaluations from their fieldwork.

Specific course listings for the degree were not available at the time this catalog was printed. See the program office for course listings and other degree requirements.
COURSE DESCRIPTIONS

The university uses a discipline-oriented course numbering system. Courses are identified by academic discipline (e.g., Accounting, Chemistry, Art, Biology). The following courses are arranged alphabetically by academic discipline and in ascending numerical order.

Course Numbering

The first digit of a course indicates scholastic level and also provides information regarding restriction to undergraduate and/or graduate student enrollment.

300-499 Upper-division undergraduate courses;

500-599 Courses open generally to both undergraduate and graduate students; credit awarded based on student level, and credit requirements differ for undergraduate versus graduate students;

600-799 Graduate level courses, open to undergraduate students only by permission of the deans or division chairs of the colleges in which the courses are offered;

800-999 Courses open to graduate students only.

Application to Degree Requirements

Credits earned in courses with the ADPD prefix cannot be applied toward degree requirements of the M.H.S. in Addictions Studies.

Credit earned in courses with the EDPD prefix cannot be applied toward degree requirements of the M.S. in Education.

Explanation of Course Descriptions

Variable Topics Courses.

These courses may be offered with different subjects and may be taken more than once. Consult the schedule of classes for the subject offered for that trimester. These courses are identified with the notation "..." after the title.

Credit Hours and Credit Options

Credit hours are shown in parentheses following the course title. Where courses are offered for variable credit, the range of credit hours is shown. Credit hours followed by "P/NC" are graded only on a pass/no credit basis.

Mediated Courses

Courses marked with ☐ may be offered in a televised format; those marked with ☐ may be offered as correspondence courses. Consult the schedule of classes to determine the format in which sections are offered during that trimester.

Description

Following the title line of each course is a brief statement describing the content of the course.

Course Prerequisites and Corequisites

A prerequisite is a course or other requirement that must be completed before registration in a particular course. In most cases, an equivalent transfer course may be substituted for a listed Governors State course prerequisite. A corequisite is a course that must be taken simultaneous with another course. These requirements are identified in italics following the course description. It is the responsibility of the student to comply with any prerequisites and corequisites for a course that he/she plans to take. Students lacking specified prerequisites are not eligible to enroll in that course.
Accounting

ACCT301 Financial Accounting (3)

ACCT302 Managerial Accounting (3)
Focuses on analysis of managerial accounting information needed for planning and control. Investigates the manner in which accounting can provide this information. Emphasizes accounting as a management information tool. Prerequisite: ACCT301.

ACCT331 Cost Accounting I (3)
Includes exposure to a broad range of cost accounting concepts and their terminology. Topics include how to identify, measure, and accumulate direct and indirect costs, how to apply burden, introduction to job costing systems, budgeting, cost-volume-profit relationships, and relevant costing. Prerequisite: ACCT302 or equivalent.

ACCT332 Cost Accounting II (3)
An advanced study of cost accounting and decision-making concepts, objectives, and terminology essential to the cost accountant's role in business. Topics include accounting for spoilage and waste, joint products and by-product costing, process costing, decision modeling, capital budgeting, operations management, non-manufacturing costing, applications of operations research methods, probabilities, transfer pricing, variances, and regression analysis. Prerequisite: ACCT331.

ACCT351 Intermediate Accounting I (3)
Focuses on the study of problems in financial accounting measurement, including an introduction to theory, present-value concepts and applications, current assets, including cash, receivable, and inventory valuation problems. Prerequisite: ACCT301.

ACCT352 Intermediate Accounting II (3)
Continuation of ACCT351. Focuses on the study of problems in financial accounting measurement, including plant and equipment, depreciation, intangible assets, current and long-term liabilities, and stockholder's equity, including earnings per share and investments. Prerequisite: ACCT351.

ACCT353 Intermediate Accounting III (3)
Focuses on topics in financial accounting measurement, including reporting of income taxes, accounting changes and correction of errors, revenue measurement, leases, pensions, cash flow, financial statement analysis, interim financial reports, and reporting for segments of a business enterprise. Prerequisites: ACCT351 and ACCT352.

ACCT402 Management Accounting for Health Care Organization (3)
Covers accounting concepts and their applications to health care organizations. Includes cost finding and cost analysis, ratio analysis and elementary reimbursement theory. Designed for health administration students and other students with an interest in this area.

ACCT410 Advanced Accounting (3)
Application of accounting practice for an understanding of the complexities comprising business and finance. Examines corporate combinations and the special applications of measurement and realization principles in such matters as consolidations, conglomerates, pooling of interests, and international operations. Prerequisite: ACCT353.

ACCT421 Tax Accounting I (3)
The study of individual income taxation. Students obtain a broad appreciation of the tax structure and its role, both as a source of revenue and as a device to control the economy. Prerequisite: ACCT301.

ACCT422 Tax Accounting II (3)
The study of business taxation. Topics include the tax consequences of the formation, operation, consolidation, and termination of business organizations. Prerequisite: ACCT421 or permission of instructor.

ACCT423 Estate Planning (3)
Covers basics needed for developing and updating an estate plan, its creation, conservation, and disposition. Includes topics on identifying and harmonizing life goals and life styles, trusts, wills, and federal estate and gift tax law. Prerequisite: ACCT421 or equivalent.

ACCT430 Accounting and Computer Integration (3)
An advanced exploration of the uses of computerized applications in the financial accounting area. The primary focus is on learning the capabilities of computer spreadsheet software and applying those capabilities to a wide variety of financial accounting situations. Other topics include demonstrations of a number of accounting and business databases, Internet services, commercial online services, and other computerized applications in accounting. Prerequisite: ACCT301.

ACCT431 Accounting and Computer Integration Advanced (3)
An advanced exploration of the uses of computerized applications in the financial accounting area. The primary focus is on applying the capabilities of computer spreadsheet software and computerized financial accounting software to a wide variety of financial accounting situations. Other topics may include demonstrations of a number of accounting and business databases, utility software, accounting related shareware and new developments in personal computing for accountants. Prerequisites: ACCT430 and ACCT353.

ACCT440 Audit Concepts and Standards (3)
Deals with the standards, concepts, objectives, techniques, reports, and ethics of both the independent and internal auditor. Special attention is given to statements on auditing standards, auditing procedures, statistical sampling, and EDP in auditing. Prerequisite: ACCT352 or permission of the instructor.
ACCT441 Advanced Auditing Concepts and Standards (3)
The study in greater depth and breadth of generally accepted auditing standards and their applications with emphasis on internal auditing, operational auditing, and integrity auditing. Special attention is given to computer fraud and investigation. Prerequisite: ACCT440.

ACCT452 Accounting Information Systems (3)
An overview of computerized accounting information systems analysis, design, and implementation. Internal controls in a computerized environment. Development and use of accounting information in business application areas. Prerequisites: MIS301 and ACCT353 or equivalent.

ACCT456 International Accounting (3)
A comparison of the similarities and differences in accounting principles and procedures between the United States and other countries. An examination of accounting for multinational entities. Prerequisites: ACCT352 and MGMT410 or permission of instructor.

ACCT470 Independent Study: . . . (3)
Independent study is intended to provide better students an opportunity to study a topic of their own choice in accounting under professional supervision. Only the student who is prepared to devote considerable time and effort should undertake an independent study. The student contemplating a course in independent study should first have in mind a definite area for investigation within accounting and an instructor to sponsor the work. Prerequisite: Permission of instructor and dean.

ACCT480 Internship: . . . (3)
Designed to provide accounting students with supervised practical experiences in applied settings. Prerequisite: Permission.

ACCT801 Accounting for Administrative Control (3)
Offers an in-depth exposure to the management control process, including organizing and evaluating data for decision making under conditions of uncertainty. M.B.A. students with a cost accounting background must take ACCT815, ACCT831, or ACCT861, instead of ACCT801, to satisfy the M.B.A. accounting requirement. A student's requirement will be determined during advisement. Prerequisite: ACCT301.

ACCT812 Advanced Financial Accounting Topics (3)
The study of corporate combinations and the special application of measurement and principles related to consolidations, conglomerates, pooling of interests, and international operations. Prerequisites: ACCT353 or equivalent. Students who have taken ACCT410 or equivalent may not use this course towards graduation requirements.

ACCT813 Seminar in Financial Accounting Theory & Practice (3)
Contemporary financial accounting issues, including liabilities, pensions, tax allocation, leases, price level reporting, investments, and capital transactions. Prerequisite: ACCT353 or equivalent.

ACCT815 Financial Statement Analysis (3)
Focuses on the use of published financial statements in evaluating business entities. Emphasis is on the evaluation and interpretation of economic events and financial information for purposes such as evaluating the entities' short and long-term debt paying potential and predicting the entities' potential for generating cash and income in the future. Computer based; analytical tools will be used throughout the course. Prerequisite: ACCT351 or equivalent.

ACCT820 Seminar in Tax Accounting & Research (3)
In-depth research using state-of-the-art, on-line tax services, concerning recent developments and cases in the area of taxation. Prerequisite: ACCT421 or equivalent.

ACCT822 Federal Income Taxation of Partnerships and Corporations (3)
The study of federal income taxation of partnerships and corporations. Topics include formation, operation, consolidation, and termination of business organizations. Prerequisite: ACCT421 or equivalent. Students who have taken ACCT422 or equivalent may not use this course towards graduation requirements.

ACCT823 Taxation of Gifts, Trusts, and Estates (3)
Federal transfer taxes applied to gifts and transfers at death. Income taxation of trusts and estates. Prerequisite: ACCT422 or equivalent. Students who have taken ACCT423 or equivalent may not use this course towards graduation requirements.

ACCT831 Seminar in Managerial Accounting Theory and Applications (3)
Formal models of management accounting issues; concepts of information; cost assessment; models of incentive contracting; integration of behavioral science; and management accounting. Contemporary topics in management accounting research. Includes agency theory and analytical managerial models. Prerequisites: ACCT331 and ACCT452, or equivalent.

ACCT841 Advanced Auditing (3)
In-depth study of professional standards and regulatory agencies; audit planning; evidence gathering and evaluation. Prerequisite: ACCT440 or equivalent. Students who have taken ACCT410 or equivalent may not use this course towards graduation requirements.

ACCT842 Seminar in Auditing Standards and Applications (3)
Studies role in society; professional auditing organizations; regulatory structure; performance standards and reviews; information and control systems evaluation; acquisition of evidence; materiality and risk judgments; nature of reporting obligation. Prerequisites: ACCT440 or equivalent.

ACCT843 Seminar in Internal and EDP Auditing (3)
An in-depth analysis of internal auditing problems and EDP auditing applications. Prerequisite: ACCT841.

ACCT851 Accounting Information Systems and Controls (3)
An in-depth analysis of concepts and principles of designing computer systems to perform accounting functions; applications of microcomputer accounting software packages. Prerequisite: ACCT452 or equivalent.
ACCT856 Seminar in International Accounting (3)
Financial accounting for international operations, multinational managerial accounting and control, comparative international accounting, international reporting issues, and international taxation are studied. Prerequisites: ACCT352 and ACCT456, or equivalent.

ACCT861 Governmental and Nonprofit Accounting (3)
Prepares an overview of accounting and financial reporting for state and local governmental units and nonprofit organizations. Prerequisites: ACCT301 or equivalent.

ACCT865 Integrative Perspective on Accounting Issues (3)
Synthesis of auditing, information systems, financial, managerial, and taxation accounting concepts. Accountant's responsibilities, ethics, and functions in organizations and society. Analysis and applications to business situations are presented. Prerequisites: ACCT331, ACCT421, ACCT813, ACCT842, and ACCT851.

ACCT870 Independent Study: . . . (3)
Independent study is intended to provide better students the opportunity to study a topic of their own choice in accounting under professional supervision. Only the student who is prepared to devote considerable time and effort should undertake an independent study. The student contemplating an independent study should first choose a definite area for investigation within accounting and an instructor to sponsor the work. Prerequisites: Permission of instructor and dean.

ACCT880 Internship: . . . (3)
Designed to provide accounting students with supervised practical experiences in applied settings. Prerequisites: Permission.

ACCT890 Graduate Thesis/Project: . . . (6) P/NCR
Provides an opportunity for intensive study of a problem chosen by the student. A candidate who is approved for the thesis option will be required to defend the thesis orally. The thesis option is limited to outstanding students who have been recommended by a minimum of two faculty in the College of Business and Public Administration and approved by the dean. Students interested in pursuing a doctorate degree in business should select the thesis option. Prerequisites: Permission; last trimester of student's program of study in graduate accounting.

Addictions Studies

ADDS340 A Study of Addiction (3)
Offered as a self-instructional correspondence course only. Provides an overview of the far-reaching problem of substance abuse in American society. Covers the causes, symptoms, manifestations, and treatment of substance abuse. Not open to addictions studies majors.

ADDS500 Substance Abuse: Current Concepts (3)
Offered in both lecture and televised format. Examines physiological, psychological, and sociological aspects of drug abuse and includes historical and contemporary patterns. Examines past and present substance abuse treatment modalities and analyzes factors and institutions at the local, state, and national level that affect the delivery of substance abuse services. Includes legal and ethical issues in substance abuse.

ADDS501 Addictions Counseling: A Multicultural Perspective (3)
Offered in both lecture and televised format. Multicultural influences on addictions and their treatment will be examined. Students will develop competencies to work with clients from diverse cultural backgrounds.

ADDS505 Addictions: Recovery Process (3)
The recovery process for substance abusers is examined, tracing the stages of the change process from the isolation of precontemplation through action to maintenance and relapse prevention. Students identify and learn specific intervention techniques for motivating and sustaining this process.

ADDS510 Women and Addictions (3)
Addresses issues of gender as they relate to addictions treatment. Focus is placed on the clinical strategies that are most effective for women clients.

ADDS512 Health Promotion (3)
Offered as a correspondence course only. Explores the factors influencing our current concepts of health and wellness. Examines new developments in maintaining optimal levels of wellness in society. Focuses upon health promotion programs in business and industry designed to reduce health risk.

ADDS515 Alcoholism and Drug Abuse: Self-Help Groups (3)
Focuses on the twelve steps and the twelve traditions of Alcoholics Anonymous, as well as the knowledge and skills necessary to refer family, friends, and/or clients to the appropriate self-help group effectively. Other self-help groups will be reviewed.

ADDS518 Substance Abuse: A Systems Approach (3)
Focuses on a systems approach to dealing with drug and alcohol abuse. A systems approach recognizes the impact of cultural, environmental, interpersonal, and intrapersonal influences upon the individual; recognizes individual differences among substance abusers; and develops differential treatment models that take these factors into account.

ADDS519 Screening, Referral, and Treatment Planning (3)
Provides an overview of screening, assessment, referral, and treatment planning for individuals with addiction-related problems. Examines assessment processes in conjunction with specific techniques and methods used with substance abusers.

ADDS522 Clinical Skills in Substance Abuse (3)
An introduction to the theories and techniques used in substance abuse clinical practice. Topics include assessment and diagnosis of substance use disorders, treatment planning, and direct clinical services to substance abusing clients.
ADDS526 The Adolescent Substance Abuser (3)
Offered in both lecture and televised formats.
Examines the prevalence of substance use and abuse in the schools; the etiology of such use/abuse; the pharmacology of abusable drugs as it relates to the physiological, psychological, and social development of youth; and methods of preventing, intervening, and/or treating substance use/abuse among youths, and adolescents. Designed for teachers, counselors, and administrators in K-12 schools, as well as parents and other interested members of the community.

ADDS530 Addictions and Criminal Justice (3)
Examines the interactions between the addictions treatment and criminal justice systems. Identifies the special issues that must be addressed to ensure effective treatment of addicted clients who are being served by the criminal justice system.

ADDS532 Alcoholism/Employee Assistance Programs in Business and Industry (3)
Offered as a self-instructional correspondence course. Overviews substance abuse problems affecting business and industry. Examines how to plan and implement a program designed to intervene before such problems become severe. Topics covered include work behaviors of drug and alcohol abusers, confrontation strategies, program development, supervisory training, and assessment and referral procedures.

ADDS610 Psychopharmacology (3)
Reviews the functions of the human nervous system before exploring the basic principles of psychopharmacology. For each classification of psychoactive drugs, students examine the historical patterns of use and development, the physiological mechanisms of action, and the various effects resulting from drug use.

ADDS625 Clinical Approaches to Substance Abuse: . . . (1-3)
Examines a current technique or emerging perspective to the treatment of addictions. Topics may include treatment interventions, client-treatment matching, treatment efficacy, special populations, and clinical issues. May be repeated for credit with a different topic. Prerequisite: ADDS522, ADDS519, or ADDS505 or equivalent.

ADDS630 Families and Addictions (3)
Provides an overview of the interactions between substance abuse and family dynamics. Students learn about the impact that drinking and drug use can have on family life. They also learn how family systems, in turn, may enable addictive drinking or drug use to continue.

ADDS720 Substance Abuse Prevention (3)

ADDS815 Substance Abuse Counseling (3)
Examines issues related to counseling clients with substance abuse problems. Focus is placed on the student's ability to use state-of-the-art methods for assessment, treatment, planning, client motivation, and behavior change. Prerequisites: ADDS522, ADDS519, or ADDS505 or equivalent.

ADDS821 Group Techniques (3)
Focuses on group approaches and techniques used in the prevention and treatment of substance abuse. Group process issues and dynamics will be reviewed. Group interventions will be demonstrated and practiced.

ADDS825 Etiology and Epidemiology of Substance Abuse (3)
Selected biological, psychological, and sociocultural perspectives on substance use and abuse are examined. Basic epidemiological research strategies are reviewed. Epidemiological studies on substance use and abuse are evaluated in terms of their implications for etiology, treatment, prevention, and program management.

ADDS835 Planning, Managing, and Evaluating Substance Abuse Programs (3)
Discusses the philosophy and historical development of alcoholism and drug abuse services. Reviews the processes involved in planning, managing, and evaluating programs. Topics include proposal writing and funding issues, needs assessment and community analysis, organizational development, leadership styles, decision making, personnel issues, and evaluation strategies.

ADDS845 Clinical Models of Addiction (3)
Examines evolving clinical theories and advanced clinical techniques used in substance abuse treatment. Cognitive, behavioral, psychodynamic, and pharmacological interventions as they pertain to substance abuse behavior change will be presented. Clinical interventions will be practiced. Prerequisite: ADDS825 or permission of instructor.

ADDS855 Seminar in Substance Abuse (3)
Examines current research models, trends, and new approaches in the field of substance abuse. Students will participate in topic selection, prepare and lead a review of related literature, offer critical analysis, and discuss the implications for current professional practices. Prerequisite: ADDS825 or permission of instructor.

ADDS865 Internship Seminar (1)
Problems and issues encountered by students during their internships are discussed. Clinical cases are presented and treatment interventions are critiqued. Prerequisite: Candidacy status. Corequisite: ADDS880.

ADDS869 Comprehensive Examination (1) P/N/C
Final course in the Addictions Studies major. Intended to assess students' ability to analyze, synthesize, and evaluate diverse content materials and apply their knowledge to selected issues and problems in the substance abuse field. Prerequisite: Candidacy.

ADDS870 Independent Study: . . . (1-8)
Individual reading, research, and/or project in addictions under the supervision of faculty. Prerequisite: Permission.

ADDS880 Internship: . . . (1-3)
Designed to provide the Addictions Studies major with supervised practical experiences in treatment, administration, research, prevention, or education in applied settings. Prerequisites: Candidacy and permission of instructor. Students seeking a clinical internship must complete ADDS845 before enrolling in the internship.
Credits earned in the following ADPD courses cannot be applied toward degree requirements of the M.H.S. in Addictions Studies.

**ADPD530 Current Topics in Alcoholism and Drug Abuse:**
(1-2) P/NC
Examines current and emerging topics, issues, or trends in the substance abuse field. May be repeated for credit with different topics.

**ADPD560 Sobriety Planning:**
(1) P/NC
Focuses on development of a structured recovery program and teaching the patient recovery skills necessary in maintaining abstinence. Deals with responses and attitudes necessary for remission and the relationship between AA and the professional counselor. Prerequisite: ADDS340.

**ADPD563 Impact of Alcoholism in the Workplace:**
(1) P/NC
Provides an overview of employee assistance programming and the many elements involved in this process. Emphasizes practical skills and applied knowledge, as well as necessary supporting theory. Includes research, theories, and their application in concrete organizational situations. Prerequisite: ADDS340.

**ADPD568 How to Talk to Children about Drinking:**
(1) P/NC
Provides an approach to communicating with children about drinking problems. Concentrates on four areas: dealing with children's anger, how a parent can resolve conflict, getting children to listen, and being a consultant to your child. The parent effectiveness theory of Dr. Thomas Gordon forms the basis for this course. Prerequisite: ADDS340.

**ADPD570 Diagnosing Alcoholism: Practical Guidelines:**
(1) P/NC
Provides an understanding of diagnostic methods for differentiating physiological alcoholism in the early, middle, and chronic stages. Also, deals with nonphysiological alcoholism and diagnosis of alcoholism when accompanied by other diseases. Prerequisite: ADDS340.

**ADPD572 Treating Alcoholism: Clinical Skills Training:**
(1) P/NC
Develops treatment skills for use with alcoholism clients in clinical settings. Prerequisite: ADDS340.

**ADPD573 Relapse Prevention:**
(1) P/NC
Focuses on the conceptual knowledge and skills necessary for relapse prevention and intervention with substance abuse clients. Prerequisite: ADDS340.

**ADPD574 Approaches to Family Recovery:**
(1) P/NC
Explores the contribution of family dynamics to the use and abuse of alcohol and other drugs. The importance and methods of family therapy are discussed in the context of substance abuse. Prerequisite: ADDS340.

**ADPD576 Workshop: Teenage Substance Abuse:**
(1) P/NC
Focuses on understanding prevention and treatment of substance abuse in teenagers.

**ADPD578 Educating the Alcoholism Patient:**
(1) P/NC
Identifies special learning needs of alcoholism patients and methods for meeting those needs. Analyzes what an alcoholism patient needs to know and why. Develops skills for designing and implementing patient education as a part of treatment. Prerequisite: ADDS340.

### Anthropology

**ANTH310 Trends in Cross-Cultural Analysis:**
(3)
This course acknowledges the centrality of race, culture and ethnicity, religion, and migration in the formation and development of diverse societies and emphasizes the importance of art, science, anthropology, and history as the 'story tellers' of human drama, truth, and change. Prerequisite: Introduction to Cultural Anthropology.

**ANTH411 Urban Anthropology:**
(3)
Emphasizes anthropological studies of people living in urban settings. Explores the potential use of cultural anthropological tools for understanding human life in urban settings in both developed and developing nations.

**ANTH470 Independent Study:**
(1-4)
Individual reading, research, and/or project in anthropology under the supervision of the faculty. Prerequisite: Permission.

**ANTH500 Anthropology in Film:**
(3)
Offered in both lecture and televised format. Introduction to world cultures, past and present, and to human nature through the use of classic ethnographic films. Focuses on the development of a cross-cultural understanding of central problems of human existence and how different peoples at different times solve them.

**ANTH750 Cognitive Anthropology:**
(3)
Examines the sociology of knowledge from a cross-cultural perspective, with emphasis upon social change and global environmental awareness.

**ANTH870 Graduate Research:**
(1-4)
Individual reading, research, and/or project in anthropology under the supervision of the faculty. Prerequisite: Permission.

### Art

Admission to many art studio courses requires instructor evaluation of portfolio.

**ART300 Interrelational Studies: Art and Music:**
(3)
A study of types of formal organizations in art and music, analogies between styles, and the relation between styles and history. Examines both correspondences and divergences in the history of art and music as they relate to the history of ideas.

**ART301 Photographic Foundations:**
(3)
Introduction to basic camera skills as they are used in the understanding and control of light and the production of images. Course covers basic darkroom processes to produce artistic monochromatic images. Student must have a 35 mm camera with manual adjustments.
ART302 Photography in Natural Light (3)
Uses the study of sensitometry and previsualization through the zone system to understand light/exposure management to create monochromatic prints of exceptional quality. Course covers other elements of natural light photography, including daylight flash techniques, window light, and the use of location reflectors. Archival keeping and presentation techniques are also covered. Students are required to have at least a 35 mm camera with manual controls. Prerequisite: ART301 or equivalent.

ART304 Drawing: Studio (3)
Explores a variety of drawing media and techniques. Emphasis on representational drawing and abstract drawing of still life and natural forms using the elements of value, line, shape, texture, and color. May be repeated with permission of instructor.

ART305 Drawing: Life Study (3)
Explores a variety of drawing media and techniques. Emphasis on representational drawing of the human form and drawing concepts and principles. May be repeated with approval of instructor. Prerequisite: Prior drawing or design course.

ART309 Stained Glass (3)
Explores the qualities of stained glass and light. Flat glass panels will be designed and constructed using both leaded and copper foil methods. Emphasizes stained glass as a fine art medium.

ART310 Ceramics (3)
Covers basic concepts of clay handling, including hand-building, wheel methods, glaze formulation, and firing techniques. May be repeated with approval of instructor.

ART325 Advanced Problems in Design (3)
Examines advanced problems of two- and three-dimensional design. Studio assignments focus on problem solving within various art media. Prerequisite: Prior drawing or design course.

ART360 Art Seminar: Concepts and Methods (3)
Explores artistic concepts, theories, and research methodology. Presentations and discussions apply standards of evaluation, theories of imitation and abstraction, expression, and decorum to specific art imagery.

ART435 Photographic Imaging Methods (3)
Presents the basis of modern photographic image making technologies. Investigates the physical and chemical foundations of the conventional photographic process, including the nature of light, human vision, and optics. The course also covers digital formation, color management in digital imaging, and elements of visual data processing by computers.

ART440 Photography in Artificial Light (3)
Course covers the use of electronic flash, quartz lighting, studio strobe techniques, and lighting management as they are applied to photographic portraiture, studio still life, and other objects in a studio environment. Course also covers view camera techniques and copy work. Prerequisite: ART301 or equivalent.

ART470 Independent Study: . . . (1-3)
Individual reading, research, and/or project in art under the supervision of the faculty. Prerequisite: Permission.

ART490 Senior Project (3)
Culminating project for Art majors to be taken in the last semester of undergraduate study. Students select any one or combination of art disciplines: art history, ceramics, design, digital imaging drawing, painting, photography, printmaking, or sculpture. Prerequisite: Permission.

ART500 Topics in Art: . . . (1-3)
A series of presentations using outside resources, specific developments, and skills; new creative approaches and issues are considered. Series may be repeated for different subjects. Prerequisite: Specific prerequisite(s) will vary depending on particular series.

ART501 Drawing: Advanced Life Study (3)
Develops the student's ability to render the human form representationally and abstractly. Students will work in charcoal, various chalks, pencils, and inks. Course may be repeated with approval of instructor. Prerequisite: Prior drawing or design.

ART502 Drawing: Combined Media (3)
Offers the advanced student drawing opportunities with combined media. Encourages alternative and exploratory methods. Emphasis on drawing as an independent art discipline. May be repeated with approval of instructor. Prerequisite: prior drawing or design.

ART505 Worlds of Art (3)
This Internet course compares art objects from differing contexts and diverse geographical world areas and contrasts the imagery, cultural circumstances, and world view within which the art was created and functioned. Class discussions include interaction with instructor and experts on particular objects as guest correspondents utilize a restricted listserv and the World Wide Web. Prerequisites: Library skills or previous course work in humanities or social sciences and sufficient computer network experience to communicate via the Internet.

ART509 Electronic Drawing and Design (3)
Focuses on the creative potential of computer graphics in art and design. Students work with PC and Macintosh computers, experimenting with a variety of imaging techniques. Prerequisite: ART325 or equivalent.

ART514 American Art: . . . (3)
A survey of colonial, 18th century, and 19th century architecture, painting, sculpture, decorative, and graphic arts. In addition to lectures and required readings, this course will include student research and oral presentations on selected topics. Prerequisite: Library skills or previous course work in humanities or social sciences or permission.

ART515 20th Century Art: Europe and the Americas (3)
Surveys 20th century art and architecture and familiarizes the student with the art, philosophies, socio-political, and intellectual climate of the period. Analyzes paintings, sculpture, graphic arts, and architecture from different cultural perspectives. Prerequisite: Library research skills or previous course work in arts, humanities, or social sciences.
ART516 Great Artists: . . . (3)
Provides an in-depth analysis of a select group of master artists. Examines the lives and works of eminent artists and the social, political, and artistic climate in which they worked. Also analyzes thematic and stylistic development, theoretical concerns of the artists, and their influence on other artists. Prerequisite: Library research skills or previous course work in the arts, humanities, or social sciences.

ART518 Women Artists: Europe and the Americas
A historical survey of Western female artists with special emphasis on artists of the 19th and 20th centuries. Examines the lives and works of eminent female artists and the social, political, and artistic climate in which they worked. There will be an analysis of the thematic and stylistic development and theoretical concerns of female artists and a comparative analysis between male and female expressions in the visual arts. Prerequisite: Library skills or previous course work in humanities and social sciences.

ART520 Art in Context: . . . (3)
Art objects from the European tradition before the 19th century are selected for study with a view to artistic theories, analysis of symbolic content, and sociological exploration. Prerequisite: Library research skills or previous course work in humanities or social sciences.

ART521 Art and Cultures of the South Pacific (3)
A survey of traditional art from the South Pacific, including the islands of Polynesia, Melanesia, Micronesia, and the island continent of Australia. Examines the stylistic classifications and ethnographic contexts. Prerequisite: Library research skills or previous course work in humanities or social sciences.

ART523 Pre-Columbian Art and Cultures: . . . (3)
Survey of the art and architecture of ancient America with reference to archaeology and early historic descriptions. Emphasizes specific regions listed in course subheading. Students may repeat this course for up to six hours under different subheadings. Prerequisite: Library research skills or previous course work in humanities and social sciences.

ART525 Native American Art and Societies (3)
A survey of North American Indian art from prehistoric contexts to the 19th century with attention to eastern United States, greater southwest, prairies, plains, and Pacific coast. Prerequisite: Library research skills or previous course work in humanities and social sciences.

ART527 African Art and Cultures: . . . (3)
Survey of art in African archaeology and the styles and functions of art in traditional societies of west or central Africa. Students may repeat this course for up to six hours under different subheadings. Prerequisite: Library research skills or previous course work in humanities and social sciences.

ART528 Digital Motion Graphics (3)
Digital motion graphics is a course designed for the advanced electronic imaging student to transform enhanced computer images into time line motion studies. Course covers the animation of digital images, the placement of images in a time sequence, the addition of a digitally captured and corrected sound track, and 3D title graphics. Prerequisite: ART509 or ART544.

ART530 Asian Art and Thought: . . . (3)
Art objects from the Far East or Indian Asia are selected for lectures, oral reports, and group discussion. The object's relation to specific contexts of human behavior is examined, as well as the ramifications of style in noting uniqueness and commonality. May be repeated for up to six hours under different subheadings. Prerequisite: Library research skills or previous course work in humanities and social sciences.

ART532 Sculpture: Multi-Level (3)
For students of varying levels of artistic development. Students explore a range of sculpture media and techniques. May be repeated with approval of instructor. Prerequisite: ART325 or equivalent.

ART533 Sculpture: Fiber, Clay, & Metal (3)
Emphasizes techniques of combined materials in three or more sculpture media. May be repeated with approval of instructor. Prerequisite: ART304 or 305 or equivalent.

ART534 Design for Electronic Publishing (3)
Course emphasizes digital design of documents for print or electronic publishing, including dynamic Web pages. Prerequisites: ART525 and ART509 or ART544.

ART535 Sculpture: Metal I (3)
Explores the problems of metal sculpture, forming, and fabrication techniques. May be repeated with approval of instructor. Prerequisite: ART304 or 305 or equivalent.

ART536 Sculpture: Metal II (3)
Continuation of ART535. Focuses on problems of metal casting, fusion welding, soldering, and brazing. Prerequisite: ART535.

ART541 Sculpture: Wood (3)
Enables students to work in three-dimensional wood medium and study both traditional and new approaches. Outside readings, gallery visits, and reports are required. Prerequisite: ART304 or 305 or equivalent.

ART542 History of Photography (3)
Surveys significant events, movements, and practitioners in the history of photography from 1826 to the present. Discusses technical and aesthetic issues. Prerequisite: Library research skills or previous course work in the arts, humanities, or social sciences.

ART543 Ceramic Sculpture (3)
Explores sculptural forms using the clay medium. Examines various clay bodies and glazing techniques. May be repeated with approval of instructor. Prerequisite: ART304 or 305 or equivalent.
ART544 Digital Photographic Imaging (3)
Introduces the use of digital processing for the purposes of enhancing photographic imagery as both a corrective device and as a means of creative aesthetic collage. Prerequisite: ART325 or equivalent.

ART545 Sculpture: Figure Modeling (3)
Emphasis on the human figure as a total form in both naturalism and abstraction. Techniques of clay building from amateur to plaster or wax castings are explored. Prerequisite: ART304 or 305 or equivalent.

ART546 Digital Imaging Workshop: ••• (1)
Advanced intensive course covering either smaller auxiliary imaging software or significant method upgrades. May be taken more than once. Prerequisite: ART509 or 544.

ART548 Creative Problems in Digital Imaging (3)
Course is designed to help students achieve aesthetic content surpassing the technical concerns of digitally generated media. Prerequisites: ART509 or 544.

ART549 Photography: Combined Color Processes (3)
Covers color theory and aesthetic practice using negative-to-positive and positive-to-positive printing methods. Emphasis on color balance, filtration, and the aesthetic use of color in imaging. Prerequisite: ART301 or equivalent.

ART554 Documentary Photography (3)
Exploration of one of conventional photography's mainstream traditions, the photographic document. Students will explore as groups or individually to produce a photographic documentary of the subject of their choice. Prerequisite: ART302.

ART555 Painting Composition (3)
For advanced painting students. Specifically emphasizes problems of composition, formal concerns, content, and stimulus. Allows each student maximum individual instruction in a formal group course. Course may be repeated with approval of instructor. Prerequisite: Prior drawing or design.

ART558 Painting & Drawing Composition (3)
For advanced undergraduate and graduate students in painting and drawing. Emphasizes problems of composition and relationship between painting and drawing. Students present a written proposal on the content of their paintings. Course may be repeated with approval of instructor. Prerequisite: Prior drawing or design.

ART561 Painting: Development of a Theme (3)
Emphasizes the development of a theme or motif in drawing and painting in producing a consistent body of work. May be repeated with approval of instructor. Prerequisite: Prior drawing and painting.

ART563 Painting: Multi-Level (3)
For students of varying levels of artistic development. Students expected to express themselves visually and demonstrate ability to analyze and criticize works in class discussion and individual proposals. May be repeated with approval of instructor. Prerequisite: Prior drawing and design.

ART571 Printmaking: Lithography (3)
Explores lithography techniques of crayon and wash, etching and printing procedures. Emphasis is placed on individual imagery. May be repeated with approval of instructor. Prerequisite: ART304 or 305.

ART572 Printmaking: Waterbase Silkscreen (3)
Explores the basic fundamentals of waterbase silkscreen printmaking. Includes some advanced techniques and concentrates on the artistic and creative application of the medium. Course may be repeated with approval of instructor. Prerequisite: ART304 or 305.

ART573 Printmaking: Relief (3)
The primary intent of the course is the development of the student's individual imagery through the process of black and white or color relief printmaking. Processes may include woodcut, linoleum block, and/or photopolymer plates. Emphasis will be placed on the planning, proofing, and reworking of the image, as well as short editioning. This course may be repeated for credit with permission of the instructor. Prerequisite: ART304 or 305.

ART574 Printmaking: Intaglio (3)
Examines techniques unique to intaglio printmaking, such as hard and soft ground etching, dry point, and aquatint. Emphasis is placed on original imagery through planning, proofing, and reworking to a consistent edition of prints. May be repeated with approval of instructor. Prerequisite: ART304 or 305.

ART581 Printmaking: Advanced Studio (2,3)
Offers an opportunity for advanced printmaking students to practice and improve printmaking techniques. Individual proposals required from each student will determine the nature of the work to be undertaken in the course. Course may be repeated with instructor approval. Prerequisite: ART304 or 305.

ART582 Printmaking: Combined Media (3)
Offers advanced printmaking students the opportunity to work simultaneously and collectively with various printmaking media. Alternative methods and experimentation are encouraged. May be repeated with approval of instructor. Prerequisites: Two courses in printmaking or permission of instructor.

ART585 Printmaking: Computer Applications (3)
This course allows advanced printmaking students to composite computer and hand-drawn imagery in silk-screen, lithographic, or intaglio prints. Students integrate computer derived imagery through photographic techniques to the printmaking matrix. Emphasis is on the creative application and combination of imagery. Prerequisites: ART509 or ART544 plus either ART571, ART572, or ART574.

ART605 Digital Mixed Media Techniques (3)
Course looks at alternate means of presenting digital imaging work including advanced motion sequencing, multimedia techniques, interactive viewer participation, development of a self-promotional Web page. Prerequisite: At least nine hours of digital imaging courses.

<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART609</td>
<td>Advanced Electronic Drawing and Design (3)</td>
<td>Students develop images using the more advanced techniques of paint software on both PC and Mac computers. Variants for each painting application are explored and each student compiles his or her own library of custom-made friskets, brushes, painting session recordings, and effects. Third party filters are explored in depth. Emphasizes personal creative output and cooperative computer ventures.</td>
<td>ART3325 or ART309 or ART544.</td>
</tr>
<tr>
<td>ART610</td>
<td>Sculpture: Advanced Studio (3)</td>
<td>Provides opportunity to work on long-term projects in a wide range of media utilizing a variety of techniques. May be repeated with approval of instructor.</td>
<td>ART304 or 305 and either ART535, 541, or 543.</td>
</tr>
<tr>
<td>ART615</td>
<td>Contemporary American Ideas and Cultures (3)</td>
<td>Examines artistic movements and theories of the Western world since 1945 with emphasis on European and American tradition. Studies contemporary artists, their philosophies, and the socio-political and intellectual climate of the period.</td>
<td>Previous art history course/undergraduates by permission.</td>
</tr>
<tr>
<td>ART644</td>
<td>Advanced Photographic Digital Imaging (3)</td>
<td>Introduces advanced levels of electronic manipulation and assemblage of photographic images. Students work through a series of exercises designed to build upon methods learned in ART544 and the incorporation of more sophisticated imagery and techniques to produce a higher level of aesthetic work.</td>
<td>ART544 and either Art 302 or ART440.</td>
</tr>
<tr>
<td>ART805</td>
<td>Art and Society (3)</td>
<td>Examines the behavioral aspects of artistic production and the use of art objects. Special emphasis is given to the role and status of artists in differing historical settings.</td>
<td>Previous art history course/undergraduates.</td>
</tr>
<tr>
<td>ART810</td>
<td>Studies in Art: . . . (3)</td>
<td>Offers graduate students the opportunity to do individualized research in a particular area of art history or art studio.</td>
<td>Permission.</td>
</tr>
<tr>
<td>ART820</td>
<td>Art Seminar: . . . (3)</td>
<td>Focuses on research approaches, theory, techniques, and materials related to special topics. Designed to prepare students for a professional life and career in art.</td>
<td>Permission.</td>
</tr>
<tr>
<td>ART830</td>
<td>Graduate Photography and Digital Imaging (3)</td>
<td>Specifically emphasizes the content elements of a photography project. Individual student proposals will determine the nature of the work that will then be critiqued and discussed in class sessions. Course may be repeated with approval of instructor.</td>
<td>Nine hours of graduate studio in photography or digital imaging.</td>
</tr>
<tr>
<td>ART855</td>
<td>Graduate Painting Composition (3)</td>
<td>Specifically emphasizes compositional elements in painting. Painting compositions will be achieved by a number of preparatory studies and sketches; final compositions are presented in the paintings. Course may be repeated with approval of instructor.</td>
<td>ART305 and either ART555 or ART558.</td>
</tr>
<tr>
<td>ART860</td>
<td>Graduate Printmaking (3)</td>
<td>Allows the student to perfect printmaking skills from intermediate through advanced level. Individual student proposals determine the nature of the work undertaken. May be repeated with approval of instructor.</td>
<td>Prerequisite: Permission.</td>
</tr>
<tr>
<td>Art 870</td>
<td>Graduate Research: . . . (1-3)</td>
<td>Individual reading, research, and/or project in art under the supervision of the faculty.</td>
<td>Prerequisite: Permission.</td>
</tr>
<tr>
<td>Art 890</td>
<td>Graduate Thesis/Project: . . . (1-3)</td>
<td>Provides the art major the opportunity to synthesize graduate work by developing and completing a thesis or project specific to the student's interests in art.</td>
<td>Prerequisite: Permission of graduate advisor.</td>

<tr>
<td>BIOL305</td>
<td>Biological Science Foundations I (3)</td>
<td>Covers cell structure and function and the processes of mitosis and meiosis. Cell respiration is also covered. Examines human biology, including development from conception to birth, and the structure and function of all major systems. Designed for non-science majors.</td>
<td>BIOL305 or BIOL306 or concurrent enrollment.</td>
</tr>
<tr>
<td>BIOL306</td>
<td>Biological Science Foundations II (3)</td>
<td>Covers plant structure and function and the process of photosynthesis. The operations of DNA and protein synthesis are examined. The concepts of Mendelian and non-Mendelian genetics are introduced, as well as the fundamental principles of ecology and evolution. Designed for non-science majors.</td>
<td>BIOL305 or BIOL306 or concurrent enrollment.</td>
</tr>
<tr>
<td>BIOL307</td>
<td>Biological Science Foundations Laboratory (1)</td>
<td>Provides a series of laboratory and/or field activities appropriate to the topics covered in BIOL 305 and 306. Emphasizes both knowledge and skills in laboratory operations. Designed for non-science majors.</td>
<td>BIOL305 or BIOL306 or concurrent enrollment.</td>
</tr>
<tr>
<td>BIOL308</td>
<td>Human Evolution (3)</td>
<td>Offered as a correspondence course only. Covers the principles of evolution and the history of evolutionary thought. Considers the development of biological anthropology and the human fossil record. Presents an account of human evolution based on an interpretation of the fossil record.</td>
<td>BIOL312 Human Genetics: Concepts and Technology (3)</td>
</tr>
<tr>
<td>BIOL312</td>
<td>Human Genetics: Concepts and Technology (3)</td>
<td>This science course for nonbiology majors considers the biological basis of human heredity by examining the principles of classical, molecular, and population genetics and their technological applications to current issues in medicine, conservation, reproduction, cancer, biotechnology, genetic engineering, and bioethics.</td>
<td>College Algebra or MATH320 and MATH322.</td>
</tr>
</tbody>
</table>
BIOL 316 Plant Diversity Lecture (2)
Covers the comparative life cycle adaptations found in the plant kingdom. Studies in detail all of the divisions, together with their associated classes and orders. Explores vegetative morphology of gametophytes and sporophytes, the processes of gametogenesis and sporogenesis, propagule dispersal, and methods of asexual reproduction. Illustrates and discusses in detail the life cycles of selected genera. Prerequisites: General biology or BIOL 305, and BIOL 306/307.

BIOL 317 Plant Diversity Laboratory (1)
Involves laboratory experiments and activities appropriate to the topics covered in BIOL 316. Specifically, prepared slides, preserved specimens, and live material are provided for laboratory study. These materials are comprised of selected genera representing the divisions, major classes, and orders of the plant kingdom. Corequisite: BIOL 316.

BIOL 320 Animal Diversity (2)
Covers the morphological diversity, life cycles, ecological relationships, and evolutionary adaptations found in the animal kingdom. Major animal phyla, together with their associated classes, are studied in detail. Prerequisites: General biology or BIOL 305, and BIOL 306/307. Corequisite: BIOL 321.

BIOL 321 Animal Diversity Laboratory (1)
Includes laboratory experiments and activities correlated with topics covered in BIOL 320. Prepared slides, preserved specimens, and live material are provided for laboratory study. These materials are comprised of selected genera representing major phyla of the animal kingdom. Prerequisites: General biology or BIOL 305, and BIOL 306/307. Corequisite: BIOL 320.

BIOL 322 Ecology (2)
Examines the interactions which determine the distribution and abundance of plants and animals in nature. The relationship among theoretical, laboratory, and field studies will be emphasized. Designed for science majors. Prerequisites: General biology or BIOL 305 and BIOL 306.

BIOL 323 Ecology Lab (1)
Provides field and laboratory experiences associated with BIOL 322. Corequisite: BIOL 322.

BIOL 340 Genetics (3)
Emphasizes the principles of classical and molecular genetics by examining Mendelian and non-Mendelian inheritance, linkage, gene structure, expression, mutation and regulation, genetic engineering, and microbial and population genetics. Prerequisites: General biology and CHEM 341/342.

BIOL 360 Comparative Anatomy (3)
Introduces the anatomy of the chordates, treating the structure and functioning of the major vertebrate organ systems from a comparative and evolutionary perspective. Prerequisites: Zoology and BIOL 320/321.

BIOL 361 Comparative Anatomy Laboratory (1)
Examines in detail the structure of the vertebrate body. Emphasizes the dissection of a series of vertebrate types. Corequisite: BIOL 360.

BIOL 370 Cell Biology (1)
Emphasizes the ultrastructure, biochemical composition, metabolism, and proliferation of cells and considers research techniques used to study cell structure and function. Prerequisites: General biology and CHEM 341/342.

BIOL 371 Cell Biology Laboratory (2)
Covers laboratory experiments and demonstrations associated with BIOL 370. Corequisite: BIOL 370.

BIOL 430 Microbiology (2)
Considers the function of microbial organisms in natural and disturbed environments, and introduces the basic morphology and physiology of microorganisms found in soil, air, and water. Primary emphasis is on the techniques for detecting, culturing, identifying, and controlling microorganisms. Prerequisites: General biology and chemistry. Corequisite: BIOL 31.

BIOL 431 Microbiology Laboratory (2)
Covers laboratory experiments associated with BIOL 430. Corequisite: BIOL 430.

BIOL 444 Human Physiology I (2)
Emphasizes the physiological principles of human health and disease by examining the cell and organ physiology of the nervous, muscular, blood, cardiovascular, and respiratory systems. Prerequisites: General biology or anatomy and physiology, general chemistry, and CHEM 322/323.

BIOL 445 Human Physiology II Laboratory (1)
Covers laboratory experiments associated with BIOL 444. Corequisite: BIOL 444.

BIOL 446 Human Physiology II (2)
Emphasizes the physiological principles of human health and disease by examining the cell and organ physiology of the digestive, renal, immunological, endocrine, and sensory systems. Prerequisite: BIOL 444.

BIOL 447 Human Physiology II Laboratory (1)
Covers laboratory experiments associated with BIOL 446. Corequisite: BIOL 446.

BIOL 450 Animal Physiology (3)
Emphasizes physiological principles by examining the cell and organ physiology of the nervous, muscular, blood, immunological, cardiovascular, digestive, respiratory, and excretory systems. Considers some comparative physiological adaptations among vertebrates. Prerequisites: BIOL 370/371 and CHEM 341/342.

BIOL 451 Animal Physiology Laboratory (1)
Covers laboratory experiments and demonstrations associated with BIOL 450. Corequisite: BIOL 450.

BIOL 455 Behavioral Ecology (3)
Introduction to the biology of animal behavior with focus on its evolutionary and ecological bases. Provides concepts necessary for more advanced study in the area. Prerequisite: General biology or BIOL 305/306.
BIOL460 Plant Physiology (3)
Covers the functional anatomy of cells and tissues of flowering plants. Regarding cells, emphasis is placed on the ultrastructure and function of the plant cell wall. Gross anatomy stresses the functional tissues of roots, stems, and leaves. Also covers the physiology of water relations, mineral nutrition, photosynthesis, and hormonal regulation of growth and development. Prerequisites: BIOL370, BIOL371, CHEM341/342, and concurrent enrollment in CHEM343/344 or permission.

BIOL461 Plant Physiology Laboratory (1)
Involves laboratory experiments and activities appropriate to the topics covered in BIOL460. Prepared slides and preserved specimens will be provided for laboratory investigation of the functional anatomy of flowering plants. A variety of experiments on photosynthesis, water potential, mineral nutrition, and hormonal control of growth and development will be performed. Corequisite: BIOL460.

BIOL470 Independent Study: . . . (1-4)
Individual reading, research, and/or project in biology under the supervision of the faculty. Prerequisite: Permission.

BIOL480 Internship: . . . (1-4)
Designed to provide biology students with supervised practical experiences in applied settings. Prerequisite: Permission.

BIOL510 Biological Literature (1)
Acquaints students with major sources in biological information literature and provides guidance and practice in their efficient utilization. Includes uses of indices, abstracts, the online catalog, computer database searching, and other sources to identify specific information resources in biology. Studies how information is organized and stored for retrieval. Includes online computer search of biological abstracts and the Internet. Prerequisites: General biology and general chemistry (two semesters each).

BIOL512 Human Genetics (3)
This nonmajors biology course considers the biological basis of human heredity, by examining the principles of classical, molecular, and population genetics and their application to current issues in human heredity, including inheritance disorders, sex determination, carcinogenesis and health, genetic engineering, genetic counseling, reproductive technologies, evolution, and bioethics. Prerequisites: College algebra; open to graduate Education majors only.

BIOL522 Ornithology (1)
Introduces ornithology, focusing on the basic morphology, physiology, ecology, and behavior of birds. Places particular emphasis on bird vocalizations, territoriality, life history data, and the structure of bird communities. Prerequisites: Zoology, BIOL320, and BIOL321; or permission of instructor.

BIOL522 Ornithology Laboratory (2)
Focuses on the identification of birds in the field by both visual and auditory characteristics. Weekly field trips allow students to become familiar with the majority of resident and migratory birds of Northeastern Illinois. Prerequisites: Zoology, BIOL320, BIOL321, BIOL522; or permission of instructor.

BIOL555 Mammalogy (2)
Emphasizes the common characteristics of mammals generally. Specific attention given to the mammals of the Great Lakes region in terms of distribution, morphology, physiology, and behavior. Prerequisite: BIOL322.

BIOL556 Mammalogy Laboratory (1)
Provides laboratory experiences associated with BIOL555. Corequisite: BIOL555.

BIOL560 Plant Systematics (2)
Covers various systems of classification from both modern and historical perspectives, the effect of evolutionary theory on systematics, for example, parallelism and convergence. Compares phylogenetic and natural systems. Introduces students to a variety of taxonomic keys covering broad and localized geographic areas. Prerequisite: General biology.

BIOL561 Plant Systematics Laboratory (1)

BIOL570 Immunology (3)
Introduces the concepts and terminology of the immune response, including humoral and cellular immunity, immunogenetics, tumor and transplantation immunity, serology, immunopathology, developmental and comparative immunobiology. Prerequisites: Either BIOL450/451 or BIOL444-447.

BIOL600 Environmental Science: Terrestrial Biology (2)
Weekend field course taught at Camp Sagawau. Identification of plants and local communities is used to develop understanding of regional environments; teaching applications are made. Designed as in-service course for teachers.

BIOL601 Environmental Science: Biological Field Science (2)
Field course offered at Camp Sagawau. Uses field methods of investigation to compare habitats and study variations in plant communities and the effects of pollution. Designed as in-service course for teachers. Prerequisite: BIOL600.

BIOL603 Environmental Science: Forest Investigations (2)
Field course offered at Camp Sagawau. Participants examine local forest communities using several methods of analysis, including point-quarter transects, age classification by correlation with diameter class, variable and fixed plot sampling, and evaluating influences of microclimate. Designed as in-service course for teachers. Prerequisite: BIOL601.

BIOL604 Environmental Science: Investigations in Limnology (2)
An intensive week of field investigation based at Camp Sagawau comparing elements of real limnological systems including rivulets, creeks, marshes, ponds, and lakes of lentic and lotic environments. Emphasizes characteristic macro-invertebrates, vertebrates, chemical and physical properties of aquatic environment — whether natural or influenced by human activities. Designed as in-service course for teachers. Prerequisite: BIOL601.
BIOL 610 Advanced Microbiology (1)
This course focuses on topics in recombinant DNA technology and pharmaceutical, agricultural, industrial, and environmental applications of biotechnology. Prerequisites: BIOL 430, BIOL 431, or equivalent. Corequisite: BIOL 611.

BIOL 611 Advanced Microbiology Laboratory (2)
This course consists of standard techniques used in recombinant DNA technology. Prerequisites: BIOL 430, BIOL 431, or equivalent. Corequisite: BIOL 610.

BIOL 622 Natural Areas Ecology (3)
Through readings and discussions, the course will attempt to synthesize several ecological subdisciplines, paying particular attention to landscape ecology. The primary emphasis will then be to apply the synthesis to restoration, preserve design, and environmentally sound land use practices. Topics covered will include the restoration of prairie, woodland, and wetland; the location, size, and shape of nature preserves; and methods used for identifying and linking natural areas. Prerequisite: BIOL 322 or equivalent and a basic understanding of ecological process and concepts.

BIOL 630 Aquatic Systems (2)
An integrated treatment of aquatic ecology which focuses on the chemical, physical, and biological processes which structure aquatic environments. The characteristics of the aquatic environment will be discussed in lectures, and observed in field studies and laboratory measurements. Students will participate on scientific teams to characterize local and/or regional aquatic ecosystems. Prerequisites: BIOL 322 and CHEM 315/316 or equivalents.

BIOL 631 Aquatic Systems Laboratory (2)
Provides field work and laboratory experiences appropriate to the topics covered in BIOL 630. Corequisite: BIOL 630.

BIOL 641 Toxicology (3)
Emphasizes toxicological principles by examining biological and chemical factors that influence toxicity, the impact of natural and synthetic toxins on the environment and health, toxicity testing protocols, regulations, and risk assessment. Prerequisites: Organic chemistry and either BIOL 450/451 or CHEM 546/545.

BIOL 657 Ecological Methods: Populations (2)
For graduate students of Environmental Biology. One of three courses on field methods in ecology. Covers basic field techniques, planning of field experiments, collection and analysis of data, and interpretation of results in the study of populations. Topics include the collection and analysis of capture-mark-recapture data, survival analysis, density estimation, analysis and quantification of population dynamics, the effects of predators on insect population dynamics, and the effects of herbivores on plant population dynamics. Prerequisites: BIOL 322 or equivalent and STAT 520 or equivalent; BIOL 455 and especially STAT 820 recommended.

BIOL 660 Ecological Methods: Communities (2)
For Environmental Biology students. One of three core courses on field methods in ecology. Covers basic field techniques, planning of field experiments, collection and analysis of data, and interpretation of results used in the study of natural communities. Topics will include landscape interpretation, topographic and vegetation mapping, analyses of forest communities, age structure in trees, and basic ordination techniques. Prerequisites: BIOL 322/323 or equivalent and STAT 520 or equivalent; STAT 820 recommended.

BIOL 665 Ecological Methods: Animal Behavior (2)
For Environmental Biology students. One of three core courses on field methods in ecology. Covers basic field techniques, planning of field experiments, collection and analysis of data, and interpretation of results used in the study of individual organisms and small groups. Topics include definition of data categories, sampling theory, checks on sampling reliability, use of radio-telemetry equipment of home-range/territory analysis, temporal patterning analysis, and analysis of vocalizations. Prerequisites: BIOL 322/323 or equivalent and STAT 520 or equivalent; BIOL 455 and STAT 820 recommended.

BIOL 701 Gross Anatomy I (3)
This course initiates a comprehensive study of human anatomy. An overview of each organ system is presented and the regional anatomy of much of the body is considered in detail. This course, which emphasizes the trunk, upper extremity, and reproductive systems, stresses the interrelationships of structure with function. Prerequisite: Admission into the Occupational Therapy program or the Physical Therapy program.

BIOL 702 Gross Anatomy I Laboratory (1)
Provides detailed dissection on human cadavers that parallels the topics covered in BIOL 701. Corequisite: BIOL 701.

BIOL 706 Physiology of Disease I (2)
This course is designed to begin with an introduction to histology and to continue with a study of normal physiology as contrasted with physiology as disease states appear and progress. Prerequisite: Admission into the Occupational Therapy program or the Physical Therapy program.

BIOL 711 Gross Anatomy II (3)
This course is a continuation of Gross Anatomy I (BIOL 701). The regional anatomy of the lower extremity, head, and neck are considered in detail. Prerequisites: BIOL 701/702.

BIOL 712 Gross Anatomy II Laboratory (1)
Provides detailed dissection on human cadavers that parallels the topics covered in BIOL 711. Corequisite: BIOL 711.
BIOL716 Physiology of Disease II (3)
This course continues to emphasize the cellular mechanisms fundamental to understanding the pathological changes inherent in the most common disease states. The impact of injury, the aging process, and pharmacological interventions on the practice of physical and occupational therapy are considered. Prerequisite: BIOL706.

BIOL726 Neuroscience I (2)
This course initiates a comprehensive study of the neurosciences, focusing on the neuroanatomy and neurophysiology of the central and peripheral nervous systems. Nervous system development, the structure and function of its cells, and the organization and function of the brain and spinal cord are emphasized. Laboratory studies will supplement the lecture material. Prerequisites: BIOL711/712.

BIOL746 Neuroscience II (2)
This course focuses on the neuroanatomy and neurophysiology of the sensory and motor systems, including visual and auditory systems, muscle and neuromuscular junctions, ascending and descending pathways, arousal, sleep, and diseases of the nervous system. Laboratory studies will supplement the lecture material. Prerequisite: BIOL726.

BIOL755 Field Studies: . . . (3)
In-depth participation in ongoing research on animal ecology being conducted by faculty. Covers the range of practical considerations in doing field research plus extensive focused field experience. Topic rotates year-to-year among faculty involved in animal studies. See listed professor for specific details. Prerequisites: BIOL322, BIOL657, BIOL660, and BIOL665 or permission of instructor.

BIOL810 Special Topics In: . . . (1-4)
Readings and discussions of selected, special topics in animal and/or plant ecology. Potential areas include evolution, population ecology, behavior, physiological ecology, or environmental/ethical issues. Prerequisite: Permission.

BIOL822 Population Ecology (3)
Studies the theoretical and applied aspects of animal population regulation. Readings cover population dynamics and interactions, regulations, age-structured populations, life history theory, and biocontrol. Population estimation techniques and analysis of mortality will be covered. Prerequisites: BIOL322 and BIOL455.

BIOL830 Plant Microenvironments (3)
Covers environmental (including pollutants) and endogenous mechanisms controlling the various phases typical of the flowering plant cycle, such as seed dormancy; seed germination; flowering; and fruit ripening. The phenomenology of each phase is studied along with its history and current state of research. Prerequisites: Organic chemistry and general or human physiology.

BIOL831 Plant Microenvironments Laboratory (1)
Students will participate in a series of laboratory and/or field projects appropriate to the topics covered in BIOL830. Each laboratory project will center on the physiology or specific phase in the flowering plant life cycle. Corequisite: concurrent enrollment in BIOL830.

BIOL850 Environmental Physiology (3)
Emphasizes the comparative physiology of specialized adaptations, including osmoregulation, thermoregulation, endocrinology, locomotion mechanics, energy expenditure, and sensory, respiratory, circulatory, altitude, and diving physiology. Environmental toxicology concepts will be examined where appropriate among specific vertebrates and invertebrates. Prerequisites: Organic chemistry and BIOL450/451 or equivalent.

BIOL851 Environmental Physiology Laboratory (1)
Covers laboratory experiments and demonstrations associated with Environmental Physiology lecture. BIOL850. Corequisite: concurrent enrollment in BIOL850.

BIOL870 Graduate Research: . . . (1-4)
Individual reading, research, and/or project in biology under the supervision of the faculty. Prerequisite: Permission.

BIOL880 Internship: . . . (1-4)
Designed to provide biology students with supervised practical experiences in applied settings. Prerequisite: Permission.

BIOL890 Graduate Thesis/Project: . . . (1-6)
Provides the biology student the opportunity to synthesize graduate work by developing and completing a thesis or project specific to the student's interests in biology. Prerequisite: Permission of advisor.

BIOL899 Thesis Presentation in Biology (1)
Students provide oral and written accounts of their theses. The oral accounts will be seminars on their research projects in a format similar to the presentation of papers at professional meetings. The written account will follow thesis guidelines for graduate level work. Students should enroll during the final trimester of their research or the following trimester. Prerequisite: Permission of advisor.

Business Law

BLAW320 Legal Environment of Administration (3)
Focuses on public law and the organization. Examines the organization's relationship to employees, customers/clients, competitors, governmental bodies, and the public interest. Discusses administrative law policy and procedure in such substantive areas as labor law, consumer protection, antitrust, securities law, and environmental protection.

BLAW325 Business Law I (3)
An introduction to the American legal system followed by study of the following substantive areas of law: contracts, personal property, bailments, sales, agency. The principles discussed are applicable to personal as well as business use, and non-business students wanting to become more knowledgeable "consumers of law" are encouraged to enroll.
CHEM306 Chemical Science Foundations I (3)
Introduces the fundamental principles of chemical science and examines material changes in our universe that are the result of chemical processes. Designed for non-science majors. Prerequisite: Intermediate algebra.

CHEM307 Chemical Science Foundations Laboratory (1)
Covers basic laboratory techniques as performed on a variety of samples. Illustrates fundamental chemical principles and environmental analyses through laboratory experiments. Designed for Elementary Education majors. Prerequisite: CHEM306.

CHEM308 Chemical Science Foundations II (3)
Continuation of CHEM306. Covers chemical reactions, equilibrium, reaction rates, carbon chemistry, and introduction to the chemistry of living systems. Prerequisite: CHEM306.

CHEM315 Analytical Chemistry (3)
Covers fundamental methods of chemical analysis. Discusses acid-base, solubility, and redox equilibrium, volumetric, gravimetric, potentiometric, and spectrophotometric analytical methods and separation techniques. Prerequisites: One year of freshman chemistry with laboratory, algebra. Corequisite: CHEM316.

CHEM316 Analytical Chemistry Laboratory (2)
Covers laboratory experiments associated with CHEM315. Classical laboratory techniques, including volumetric titrations, gravimetric analysis, potentiometry, spectrometric analysis, and chemical separations, are performed. Corequisite: CHEM315.

CHEM322 Introduction to Organic Chemistry (3)
One trimester survey course in organic chemistry designed for students in related fields. Organic functional groups are emphasized. Prerequisite: One year of general chemistry.

CHEM323 Introduction to Organic Chemistry Laboratory (1)
Covers laboratory experiments associated with CHEM322. Corequisite: CHEM322.

CHEM341 Organic Chemistry I: Lecture (3)
Covers applications of modern principles of chemistry to elucidate structure, reactivity, and physical and spectroscopic properties of organic compounds. Chemical bonds, molecular structure, functional groups, and stereochemistry of organic compounds and mechanisms of organic reactions are emphasized. Prerequisite: One year of general chemistry.

BLAW326 Business Law II (3)
The study of law relating to business organization and the financing of transactions. Topics include partnerships, corporations, securities regulation, commercial paper, credit, secured transactions, and bankruptcy. Prerequisite: BLAW325.

CHEM342 Organic Chemistry I: Laboratory (1)
Covers organic laboratory techniques (mostly microscale) including methods of separation, purification, and identification of organic compounds. Techniques include melting point determination, recrystallization, distillation, extraction, and chromatography. Also covers reactions and spectrophotometric (IR) properties of organic functional groups. Corequisite: CHEM341.

CHEM343 Organic Chemistry II: Lecture (3)
Continuation of CHEM341. Prerequisite: CHEM341.

CHEM344 Organic Chemistry II: Laboratory (1)
Covers organic laboratory techniques (mostly microscale) to perform reactions, synthesis, purification, and characterization of organic compounds. Includes spectrophotometric (IR, UV, and NMR) techniques. Corequisite: CHEM343.

CHEM366 Physical Chemistry I: Lecture (3)
Covers properties and theories of gases, mechanisms of atoms and molecules, molecular energies, and the laws of thermodynamics. Conducted in a lecture/problem-solving format. Prerequisites: Two semesters each of general chemistry, calculus and physics; and one semester of analytical chemistry.

CHEM367 Physical Chemistry I: Laboratory (1)
Laboratory experiments are performed covering molecular weight determinations using a high vacuum line, heats of solution using a solution calorimeter, heats of combustion using a bomb calorimeter, and elementary laboratory glass blowing. Prerequisite: CHEM366 or concurrent enrollment.

CHEM368 Physical Chemistry II: Lecture (3)
Continuation of CHEM366. Theory includes chemical equilibria, phase equilibria, and multi-component systems, elementary kinetics, elementary electrochemistry, and elementary photochemistry conducted in a lecture, problem-solving format. Prerequisite: CHEM366.

CHEM369 Physical Chemistry II: Laboratory (1)
Laboratory experiments are performed covering the determination of an equilibrium constant using a UV-VIS spectrophotometer, colligative properties using a freezing point depression and a boiling elevation apparatus, and kinetics using a polarimeter. Prerequisite: CHEM368 or concurrent enrollment.

CHEM426 Instrumental Analysis (3)
Surveys basic instrumental analysis, including gas chromatography, liquid chromatography, atomic absorption spectroscopy, infrared and ultraviolet spectroscopy and nuclear magnetic resonance spectrometry. Prerequisites: Two semesters of organic chemistry and one semester of analytical chemistry.

CHEM427 Instrumental Analysis Laboratory (1)
Covers laboratory experiments associated with CHEM426. Corequisite: CHEM426.
CHEM433 Advanced Inorganic Chemistry (3)
Focuses on the structure and bonding of inorganic compounds, extension of acid-base theory, coordination chemistry, and the descriptive chemistry of selected elements. A systematic approach based on the theoretical and empirical generalizations inherent in the periodic table. 
Prerequisite: CHEM368.

CHEM434 Advanced Inorganic Chemistry Laboratory (1)
An introduction to the experimental study of the synthesis, decomposition, and stability of a variety of inorganic compounds. Prerequisite: CHEM433 or concurrent enrollment.

CHEM450 Organic Synthesis and Structural Methods (2)
Covers organic laboratory techniques (mostly microscale) for organic structure determination by chemical and spectroscopic methods and synthesis of organic compounds. Includes spectrophotometric (IR, UV, and NMR) and inert atmosphere techniques. Prerequisite: One year of organic chemistry laboratory.

CHEM455 Chemical Literature (1)
Acquaints students with major sources in chemical information literature and provides guidance and practice in their efficient utilization. Includes use of indices, abstracts, the card catalog, computer database searching, and other sources to identify specific information resources in chemistry. Studies how information is organized and stored for retrieval as well as specialized data compilations such as the Sadtler Standard Spectra. Includes on-line computer search of chemical abstracts. Prerequisites: One year each of general chemistry and organic chemistry; open to chemistry majors only.

CHEM470 Independent Study: . . . (1-4)
Individual reading, research, and/or project in chemistry under the supervision of the faculty. 
Prerequisite: Permission.

CHEM480 Internship: . . . (1-4)
Designed to provide chemistry students with supervised practical experiences in applied settings. Prerequisites: CHEM344 and CHEM427 or permission.

CHEM490 Chemistry Research: . . . (1-3)
Laboratory or theoretical investigation of a problem in chemical research performed under the supervision of a faculty member. In the research setting students will further develop laboratory and analytical skills introduced in chemistry course work. Student research results will be presented in a written report, according to departmental guidelines, conference presentations strongly recommended. 
Prerequisites: One year of organic chemistry and instructor's permission.

CHEM501 Good Ozone, Bad Ozone (1)
A study of the role of ozone in the troposphere, where it is an air pollutant, and in the stratosphere, where it protects life on this planet from the ultraviolet radiation of the sun. The chemistry and atmospheric science of ozone and the ozone layer will be presented. National and international environmental policy will be examined. Prerequisite: College algebra or equivalent; general chemistry recommended.

CHEM505 Environmental Chemistry Lecture (3)
Covers chemical principles and their application to environmental problems. Topics include the source, chemical composition, nature, and effects of principal pollutants. Also covers the treatment and disposal of domestic and industrial waste and techniques for detecting and analyzing chemical pollutants. Prerequisites: CHEM343/344 and CHEM427 or permission.

CHEM506 Environmental Chemistry Laboratory (1)
Practical work with highly analytical chemistry content to monitor the environment. Analytical methods involve gathering and storage of environmental samples for chemical analysis; chromatographic and other techniques for the separation of chemical compounds; and computational methods for presenting analytical results and assessing their precision, accuracy, and significance. Prerequisite: CHEM505 or concurrent enrollment.

CHEM535 Industrial Chemistry (3)
A treatment of some reaction chemistry, chemical processes, thermodynamics, chemical equilibria, and kinetics that are important to the chemical industry. Fundamental principles and problems of the chemical industry will also be discussed. Prerequisite: CHEM366. Physical Chemistry.

CHEM544 Biochemistry Lecture (3)
An introduction to the fundamentals of biochemistry, including chemistry of living organisms, structures of biomolecules, and a survey of metabolism. Prerequisite: One semester of organic chemistry or permission. Students who also have a degree requirement for physiology are strongly urged to take the physiology course before biochemistry.

CHEM545 Biochemistry: Laboratory (1)
Laboratory component of CHEM544. Corequisite: CHEM544.

CHEM550 Polymer Chemistry (3)
Introduction to polymer science covering basic concepts, basic structures, kinds of polymerization, copolymerization, stereochemistry, physical states and transitions, solubility, molecular weight, viscous flow, mechanical properties, structure-property relationships, degradation and stabilization, additives, analysis and identification, technology of plastics, fibers, elastomers, and coatings. Prerequisites: Organic and physical chemistry.

CHEM622 Chromatography (3)
Examines the theory of chromatographic separations with basic experimental work with thin-layer chromatography, gas-liquid chromatography, and high performance liquid chromatography. Prerequisites: Analytical and organic chemistry.

CHEM623 Chromatography Laboratory (1)
Covers laboratory experiments associated with CHEM622. Corequisite: CHEM622.
CHEM662 Organic Spectrochemistry Laboratory (2)  
Covers laboratory experiments associated with CHEM666. Hands-on experience with the A.A., UV-VIS, IR, NMR, and fluorescence spectrometers is available through comprehensive laboratory experiments. Corequisite: CHEM661.

CHEM663 Inorganic Spectrochemistry (2)  
A treatment of several important topics in inorganic spectroscopy. These topics include symmetry and group theory, electronic absorption, infrared, Raman, microwave, nuclear magnetic resonance, Mossbauer, and photoelectron spectroscopies. The application of these techniques to the characterization and determination of inorganic substances will be especially emphasized. Prerequisite: CHEM366.

CHEM664 Inorganic Spectrochemistry Laboratory (1)  
Practical experience with several important inorganic spectroscopic techniques. The techniques include electronic absorption spectroscopy, the method of continuous variations, infrared spectroscopy of solids and gases, NMR spectroscopy of organometallic and polyhydride compounds, Evans' method for the determination of magnetic moments, mass spectrometry, atomic absorption spectroscopy, and atomic emission spectroscopies. Corequisite: CHEM663.

CHEM744 Analytical Biochemistry (2)  
Presents basic procedures for cell fractionation and for isolation and characterization of biopolymers. Prerequisite: CHEM544.

CHEM745 Analytical Biochemistry Laboratory (1)  
Covers laboratory experiments associated with CHEM744. Students isolate organelles and biopolymers and characterize them by techniques that include photomicrography, spectrophotometry, polyacrylamide electrophoresis, fluorometry, nephelometry, and ultracentrifugation. Corequisite: CHEM744.

CHEM810 Special Topics: . . . (3)  
Examines specialized topics in chemistry. Topics will vary. May be repeated for credit. Prerequisites: Vary depending on topic selected.

CHEM822 Gas Chromatography/Mass Spectrometry (3)  
Examines the theory and practice of gas chromatography/mass spectrometry. Basic mass spectrometry will be discussed. Prerequisites: CHEM622/623. Corequisite: CHEM823.

CHEM823 Gas Chromatography/Mass Spectrometry Laboratory (1)  
Covers laboratory experiments associated with CHEM822. Prerequisites: CHEM622/623. Corequisite: CHEM822.

CHEM855 Electrochemistry (3)  
Introduces the theory and practice of electrochemical techniques with a focus on electroanalytical methods. Presents the techniques of potentiometry, conductance measurements, coulometry, and voltammetry. Includes new developments in electrochemical detection, spectroelectrochemical studies, and chemically modified electrodes. Prerequisites: CHEM368 and CHEM433.

CHEM856 Electrochemistry Laboratory (1)  
Covers laboratory experiments associated with CHEM855. Corequisite: CHEM855.

CHEM870 Graduate Research: . . . (1-4)  
Individual reading, research, and/or project in chemistry under the supervision of the faculty. Prerequisite: Permission.

CHEM880 Internship: . . . (1-4)  
Designed to provide chemistry students with supervised practical experiences in applied settings. Prerequisite: Permission.

CHEM890 Graduate Thesis/Project: . . . (1-6)  
Provides the chemistry student the opportunity to synthesize graduate work by developing and completing a thesis or project specific to the student's interests in chemistry. Students will either make a presentation in CHEM895 (project) or prepare a formal research seminar in CHEM899 (thesis). Prerequisite: Permission of advisor.

CHEM895 Chemistry Colloquium Series (1)  
Provides students with the opportunity to observe presentations by scientists from academia, industry, and government. Students are required to attend at least eight chemistry colloquia during their enrollment at GSU. This colloquium series serves as the forum for CHEM899, Presentation in Chemistry. Prerequisite: CHEM890, Graduate Thesis/Project.

CHEM899 Research Presentation in Chemistry (1)  
Students completing their graduate research will present a seminar on their research project in a format similar to a presentation of a paper at a professional meeting. Students should enroll during their final trimester of graduate research or the following trimester.

Communication Disorders

CDIS304 Phonetics (3)  
Studies the transcription of speech using the International Phonetic Alphabet and the manner, place, and type of articulation of each of the sounds of American speech.

CDIS305 Introduction to Sign Language (3)  
Designed to enable the student to acquire basic conversational sign language skills. Discusses deaf awareness and the different systems of signed communication.
CDIS306 Intermediate Sign Language (3)
Designed to facilitate development of intermediate to advanced-level conversational sign language skills.
Prerequisite: CDIS305 or permission of instructor.

CDIS307 Advanced Sign Language (3)
American Sign Language is the third most used language in the United States today. It is the native language of the American deaf. Students, who already have a comprehensive vocabulary, will learn how to use English (hearing) idioms and American Sign Language colloquialisms and idiomatic expressions. Students will engage in roundtable class conversation with the instructor, each other and visitors, deaf and hearing, to the classroom. This class will fine tune signing skills and clean up production and concept problems. It will also introduce interpreting skills and generally prepare the student for conversing and working with persons whose primary language is American Sign Language.

CDIS310 Introduction to Communication Disorders (3)
Study of the major types of communication disorders, their effects on the communicatively impaired individual, and basic remediation programs.

CDIS322 Speech and Language Development (3)
Study of the normal development of speech and language, the processes that affect this development, and basic concepts of linguistics and psycholinguistics.

CDIS330 Speech and Hearing Science (3)
Study of sound generation and transmission, measurement and analysis of sound, and psychophysical methods. Topics include psychoacoustics and speech production, acoustics, and perception.

CDIS345 Speech Physiology (3)
Examines the anatomy, physiology, and neurology of the process of respiration, resonance, phonation, and articulation in speech and language production. Prerequisite: CDIS310.

CDIS401 Articulation Disorders (3)
Study of normal and disordered articulation, including evaluation and management procedures for persons with articulation and phonological disorders. Prerequisites: CDIS304, CDIS310, and CDIS322.

CDIS410 Introduction to Audiology (3)
Covers the concepts, equipment, materials, and procedures involved in assessment of auditory function. Topics include anatomy, physiology, and pathology of the auditory system, basic auditory evaluation, physiological tests of the auditory system, hearing screening, and assessment of the pediatric population. Prerequisite: CDIS330.

CDIS435 Introduction to Childhood Language Disorders (3)
Introductory examination of the etiology, symptomatology, assessment, and remediation of language disorders in children and adolescents. Prerequisites: CDIS310 and CDIS322.

CDIS440 Sociolinguistics (3)
Study of major sociolinguistic concepts, multicultural issues, and American dialects.

CDIS450 Clinical Methods in Communication Disorders (3)
Examines principles and procedures of assessing and treating disorders of human communication. Prerequisite: CDIS310.

CDIS470 Independent Study: . . . (1-8)
Individual reading, research, and/or project in communication disorders under the supervision of the faculty. Prerequisite: Permission.

CDIS480 Internship: . . . (1-8)
Designed to provide the communication disorders student with supervised practical experiences in applied settings. Prerequisite: Permission.

CDIS510 Speech and Language Characteristics of Exceptional Students (3)
Study of normal and disordered speech and language development with special emphasis on aspects relevant to classroom teachers and special educators.

CDIS800 Current Trends in Public School Speech-Language Pathology (3)
Focuses on recent developments in diagnostic and therapeutic procedures as well as on professional issues such as Public Law 94-142. Designed for school speech pathologists. Prerequisite: Bachelor's or master's degree in speech pathology.

CDIS801 Recent Developments in Childhood Language Disorders (3)
Emphasizes current clinical practice in language disorders and related conditions. Review of recent literature and presentations will cover diagnostic and therapeutic procedures. Designed for speech-language pathologists. Prerequisite: Bachelor's or master's degree in speech pathology.

CDIS802 Scientific and Professional Foundations of Communication Disorders (3)
Develops bases for locating, analyzing, evaluating, producing, and communicating scholarly work in communication disorders, with special emphasis on the connection between clinical research and practice. Explores the historical bases of professional behavior and issues, with critical reference to the ASHA Code of Ethics. Prerequisite: Undergraduate degree in Communication Disorders.

CDIS805 Current Topics: . . . (3)
Explores current clinical and scientific issues in communication disorders. Designed for practicing speech-language pathologists and audiologists and focuses on significant topics in speech, language, and hearing. Topics will vary; may be repeated for credit. Prerequisites: Vary depending on topic.

CDIS810 Voice Disorders (3)
Reviews anatomy and physiology related to phonation. Examines etiology, diagnostic features, and treatment approaches for functional and organic voice disorders. Provides an introduction to laryngectomy rehabilitation. Prerequisite: Undergraduate degree in Communication Disorders or instructor's approval.
CDIS845 Aural Rehabilitation (3)
- Development of assessment and remediation procedures for auditorily impaired clients. Overview of amplification and counseling. Some sign language is included. Prerequisite: An undergraduate degree in Communication Disorders or instructor's approval.

CDIS840 Communication Disorders in Craniofacial Structures (3)
- Examines the historical, neuro-anatomical, etiological, and linguistic aspects of aphasia and related disorders that result from conditions such as stroke, traumatic brain injury, and dementia. Assessment and treatment are emphasized. Prerequisite: Undergraduate degree in Communication Disorders.

CDIS831 Language and Cognitive Disorders of Adults (3)
- Examines the diagnostic and consultative aspects of communication disorders associated with cleft lip and palate, congenital palatopharyngeal insufficiency, and syndromes of the head and neck. Examines anatomy, physiology, and embryology of the craniofacial structures. Prerequisite: Undergraduate degree in Communication Disorders or instructor's approval.

CDIS825 Fluency Disorders (3)
- Examines the various theories of stuttering and their corresponding therapies. Attention to current stuttering research, development, and implementation of a stuttering therapy program. Prerequisite: Undergraduate degree in Communication Disorders or instructor's approval.

CDIS828 Language Disorders of Children (3)
- Advanced examination of the etiology, symptomatology, assessment, and remediation of language disorders of children and adolescents. Includes application of linguistic, psycholinguistic, and cognitive models. Prerequisite: Undergraduate degree in Communication Disorders or instructor's approval.

CDIS818 Behavior Principles in Communication Disorders (3)
- Applies behavior principles to the evaluation and remediation of speech and language disorders. Presents methods of analyzing and recording communicative behavior. Emphasizes techniques of writing behavioral objectives and individual education plans for therapeutic intervention. Prerequisite: Undergraduate degree in Communication Disorders or instructor's approval.

CDIS805 Practicum in Audiology: Assessment (1)
- External practicum in audiometric assessment. May include screening, basic, or audiological evaluation. Prerequisites: Pass pre-practicum assessment. Pass comprehensive examination, or have thesis proposal approved. One graduate practicum in speech-language pathology. Permission from the practicum coordinator.

CDIS852 Practicum in Audiology: Rehabilitation (1)
- External practicum in rehabilitative audiology with hearing-impaired elementary school or high school students or hearing-impaired retarded young adults. Includes diagnosis, lesson planning, therapy, and report writing. Prerequisites: Pass pre-practicum assessment. Pass comprehensive examination or have thesis proposal approved. One graduate practicum in speech-language pathology. Permission from the practicum coordinator.

CDIS810 Independent Study: . . . (1-8)
- Students arrange individual reading, research, and/or project in communication disorders under the supervision of the faculty. Prerequisite: Permission.

CDIS880 Internship: . . . (1-8)
- Designed to provide the communication disorders student with supervised practical experience in applied settings. Prerequisite: Permission.

CDIS890 Graduate Thesis/Project: . . . (3)
- Provides the communication disorders student the opportunity to synthesize graduate work by developing and completing a thesis or project specific to the student's interests in communication disorders. Prerequisite: Permission of advisor.
Communication Studies

COMS300 Introduction to Communications (1)
Designed to serve as an introduction to undergraduate work in the communications fields. Covers careers, professional and research resources, and student support services. Should be taken in the first trimester of undergraduate work in communications.

COMS310 Concepts of Human Communication (3)
Offered in both lecture format and as a correspondence course. Examines the communication process on the basic levels and contexts of communication, intra-interpersonal, small group, and organizational communications. Examines verbal, nonverbal, and intercultural communication behaviors; recognizes vital electronic communication processes in light of their broad ramifications.

COMS330 Interpersonal Skills (3)
Focuses on face-to-face interaction and intergroup relations and combines knowledge about human communication with practice in interpersonal skills.

COMS339 Oral Communication Improvement (3)
Designed to enhance voice quality, articulation, and fluency in oral communication. Covers structure and function of the speech mechanism. Emphasis on improvement of voice, articulation, and fluency in public and interpersonal communication settings.

COMS420 Communication Research (3)
Explores basic concepts, terms, and procedures of communication research. Surveys research methods and instruments, their strengths, weaknesses, and applications. Students prepare and implement a research proposal.

COMS435 Persuasive Speaking (3)
Examines major theories of persuasion, especially as related to oral communication. Applies these theories to interpersonal, social, political, and organizational change. Students develop and present persuasive messages and study persuasive campaigns.

COMS450 Corporate and Community Communication Systems (3)
Examines communication networks and power structure corporations and communities. Investigates the assumptions of public and interpersonal messages in corporations and communities. Applies concepts and analyzes case studies.

COMS470 Independent Study: . . . (1-4)
Individual reading, research, and/or project in speech-communication studies under the supervision of the faculty. Prerequisite: Permission.

COMS480 Internship: . . . (1-4)
Designed to provide the speech-communication studies student with supervised, practical experiences in applied settings. Prerequisite: Permission.

COMS500 Introduction to Graduate Communications and Training (1)
Designed to serve as an introduction to graduate work in the communications human performance and training fields. Covers careers, professional and research resources, and student support services. Should be taken in the first trimester of graduate work in Communications and Training.

COMS505 Communication Workshop: . . . (1-3)
Designed to apply concepts of human communication to a specific social and professional setting. Topics of this workshop vary according to the specific content areas being covered. Focuses on developing in workshop participants practical knowledge and skills of communication that are crucial to a given social/professional context.

COMS530 Intrapersonal Communication (3)
Designed to explore theoretical and practical perspectives of the communication process within the individual. Explores aspects and influences of the physiological, symbolic, emotional, mental components of messages at many levels of consciousness as individuals attempt to understand themselves, their interactions, and their relationship to the environment. Prerequisite: COMS330 or equivalent.

COMS531 Listening (3)
Examines the styles of listening in communication and applies them in the different contexts of the communication process. Develops sensitivity and effective listening skills in human interaction.

COMS532 Nonverbal Communication (3)
Students examine nonverbal elements of human communication, consider body movement, space behavior, time orientation and management, and aesthetic and environmental factors. Students analyze interpersonal communication settings in terms of their nonverbal function, value, and meaning.

COMS533 Group Communication (3)
Examines principles of group interaction in the decision-making process, with emphasis on the dynamic effects of leadership style, risk taking, and feedback techniques. Involves theory and practice with groups.

COMS535 Debate and Public Advocacy (3)
Study of argumentation, that is, evidence, reasoning, and construction of briefs; practice in formal and informal forms of debate and public discourse on current public questions. Prerequisite: COMS435, a public speaking course or permission of instructor.

COMS538 Conflict Management (3)
Explores constructive conflict to initiate change on both macro and micro levels. Examines theories and techniques designed to facilitate the creative resolution of spontaneous and chronic conflicts on intrapersonal, interpersonal, group, and organizational levels. Also, applies communication theory and practice to effective conflict management in the workplace. Prerequisite: COMS330.
COMS540 Intercultural Communication (3)
Surveys communication transactions between members of differing cultures and studies of definitions, models, values, beliefs, customs, and attitudes that affect intercultural communication. Relates culture to social perception and communication patterns. Examines culture-specific as well as universal modes of communication and identifies factors that impede effective intercultural understanding.

COMS541 Culture and Communication Process (3)
Relates culture and verbal/nonverbal communication behaviors. Examines differences in customs, philosophy and religion, social institutions, language structure, values, and attitudes. Examines the future of intercultural communication.

COMS542 Gender Communication (3)
Designed to apply concepts of human communication to male/female interactions. The focus is on theoretical understanding and analysis of cultural differences, conflict management, listening, stereotypes, verbal and nonverbal differences. Students will be encouraged to develop experiential knowledge and practical skills in gender communication.

COMS550 Public Relations and Communication (3)
Study of public relations, its media, and messages. Students utilize case studies of public relations strategies in at least two organizations and design a campaign to improve the public image of an organization. Prerequisite: MCOM551.

COMS552 Communicating with Clients/Customers (3)
Focuses on interpersonal communication skills for effective management of customer/client relations. Identifies key characteristics of successful verbal and nonverbal skills essential to enhancing the quality of communication with customers/clients in service-oriented professions such as sales, marketing, legal counseling, financial counseling, social work, and food services.

COMS561 Technology and Human Communication (3)
Examines communication and computer technology in terms of their influence on society and the day-to-day living of citizens of technological societies. Studies the impact of communication and computers in such areas as business, industry, education, and the home and considers future trends.

COMS565 Advertising as Communication (3)
Examines the nature and process of communication as it relates to advertising.

COMS567 Advertising Strategy (3)
Draws from behavioral sciences concepts to explain consumer behavior and decision process models. Uses application research techniques to examine psychological, sociological, and cultural aspects of the consumer as related to advertising strategy.

COMS611 Philosophy of Human Communication (3)
Examines how and why we communicate from the perspectives of modern and postmodern philosophies. Studies various theories of communication and their philosophical foundations. Prerequisite: COMS310 or equivalent background.

COMS635 Interpersonal Communication (3)
Focuses on the importance of sensitivity to various communications. Examines feedback, empathy, levels of interdependence, perception, inference, observation, selectivity processes, and rumor transmission. Prerequisite: Graduate Occupational Therapy majors or permission of instructor.

COMS645 International Communications (3)
This course provides an introduction to a broad range of concepts and issues in the study of communication between and within the international systems, while focusing on culture and communication as essential components of international political and business organizations, diplomatic relations, and nation states. It examines differences in cultural mindsets, emphasizing the role of mass, interpersonal, and technological communication in international conflicts as well as in promoting cooperative actions.

COMS650 Organizational Communication, Change, and Development (3)
Analysis of the human elements in the functioning of an organization. Student will develop a plan to act as a change agent, apply organizational development techniques for instituting the change, and evaluate the results of the efforts. Prerequisite: Graduate Occupational Therapy majors or permission of instructor.

COMS651 Managing Communication Systems (3)
Students identify nine features, nine postulates, and four network diagrams of a functioning organization; apply at least one theoretical approach to improving the management of communication within an organization of their choice; and submit the suggestion for adoption by the members. Consists of simulations and seminar reports by students.

COMS805 Seminar in Communication Studies: . . . (1-3)
A graduate seminar exploring a selected issue in communication or a current perspective in communication studies. Will focus on theories and methods appropriate to the topic. Prerequisite: COMS810 or permission.

COMS810 Communication Theory (3)
Examines the concept of theory, investigates major theories of communication, and takes a critical approach to the evaluation of communication theories. Prerequisite: COMS310.

COMS815 Survey of Research Literature (3)
This course enables students to gain familiarity with the scope of research literature in the communication studies, media communication, and human performance and technology fields; develop an understanding of common research literature; and write an article.

COMS825 Graduate Communication Research (3)
Examines advanced methods of design and data analysis in communication research. Topics include field/lab research design, intercultural research problems, sampling reliability and validity tests, quantitative/qualitative analysis, bivariate/multivariate analysis, time series analysis, sociometric analysis, and report writing. Prerequisite: COMS 815 or permission.
COMS860 Communication Training (3)
Examine various approaches to developing and implementing communication training programs. Theories of interpersonal communication are utilized in identifying and evaluating interpersonal effectiveness. Particular emphasis is given to training programs that are designed to help individuals maximize effectiveness in dealing with members of different ethnic/cultural groups.

COMS861 Problems in Applied Communication (3)
This course provides an opportunity for students to utilize case study methods in synthesizing and applying communication theories and concepts in hypothetical and real-life situations in the professional environment. This course will provide opportunities for students to investigate, analyze, and propose solutions for actual problems in the professional setting. Prerequisite: Should be taken in the last half of the student's academic program.

COMS870 Graduate Research: . . . (1-4)
Individual reading, research, and/or project in communication studies under the supervision of the faculty. Prerequisite: Permission.

COMS880 Internship: . . . (1-4)
Designed to provide the communication studies student with supervised practical experiences in applied settings. Prerequisite: Permission.

COMS890 Graduate Thesis/Project: . . . (1-6)
Provides the communication studies student the opportunity to synthesize graduate work by developing and completing a thesis or project specific to the student's interests in interpersonal communication. Prerequisite: Permission of advisor.

Computer Education

See Education, Computer Education

Computer Science

CPSC305 Introduction to Computer Technology (3)
Covers computer hardware, software, applications, and future technology. Presents an overview of all aspects of computer technology via readings, videotapes, and microcomputer lab exercises. Major topics include evolution of the computer industry, interactive and batch processing systems, input and output processes and devices, information systems interfaces, internal processing and data representation, file organization and database concepts, data communication, application software, programming languages, operating systems and systems software, systems analysis and design, and computers in society. Provides extensive hands-on use of microcomputers. Introduces students to the BASIC language. Prerequisite: Satisfactory completion of the university's basic mathematics proficiency examination.

CPSC320 Computer Programming: QBASIC and Visual BASIC (3)
An introduction to computer programming in BASIC that includes writing numerous programs. Students will analyze problems, develop algorithms to solve these problems, and write well-documented BASIC programs corresponding to these algorithms using BASIC input/output operations, numeric and string constants and variables, control statements, arrays, functions and subroutine, and data files. Requires a substantial commitment of time for the completion of programming assignments. Prerequisite: MATH320, MATH325, or CPSC305.

CPSC330 Computer Programming: FORTRAN (3)
A first course in the use of the FORTRAN language. Technical and business applications will be studied. Students will write programs and solve them on both batch processing and time-shared computer systems. Requires a substantial commitment of time for the completion of programming assignments. Prerequisite: MATH325.

CPSC340 Computer Programming: Pascal (3)
Study of the Pascal programming language. Top-down structured programming technique will be taught. Topics include control statements, data types, control structures, arrays and strings, records and sets, nested structures and recursions. Requires a substantial commitment of time for the completion of programming assignments. Prerequisite: MATH325: College Algebra or equivalent.

CPSC342 Computer Programming: C (3)
An introduction to the C programming language, including its syntax, control structures, functions, data structures, and the use of pointers. Students will use the Turbo C compiler to write, run, and debug programs on IBM PC compatible computers. Emphasis will be placed on clarity and correctness of the resulting programs. Requires a substantial commitment of time for the completion of programming assignments. Prerequisite: MATH325: College Algebra.

CPSC345 Computer Programming: C++ (3)
The purpose of this course is to introduce the C++ programming language, including its syntax, control structures, functions, data structures, and the use of pointers. Students will use the Turbo C++ compiler to write, run, and debug programs on IBM PC compatible computers. Emphasis will be placed on clarity and correctness of the resulting programs. Requires a substantial commitment of time for the completion of programming assignments. Prerequisites: College algebra or equivalent and either CPSC340 or CPSC342.

CPSC351 Computer Programming: COBOL (3)
Presents the fundamentals of computer programming and the ANSI COBOL computer language. These fundamentals will be applied to various business and/or statistical situations. The course will also cover discussion of input/output devices, software considerations, and basic forms design. Requires a substantial commitment of time for the completion of programming assignments. Prerequisite: MIS301 or CPSC320.
CPSC360 Computer Programming: Basic Assembly Language (3)
Introduces IBM 370 mainframe assembly program language, the data representation inside the machine, the coding techniques, and debugging method. The environment used to run the assigned homework is IBM 4381 mainframe via network. Requires a substantial commitment of time for the completion of programming assignments. Prerequisite: At least one high level programming language.

CPSC365 Computer Programming: PC Assembler (3)
Introduces the 8088 microprocessor, information representation inside machine, 8088 assembly language (DEBUG, ASM, and MASM), the PC/BDOS, and the use of some BDOS functions to do I/O and file manipulations. The environment to run the assigned programs is an IBM PC or compatible computer. Requires a substantial commitment of time for the completion of programming assignments. Prerequisite: At least one high level programming language.

CPSC370 Software Engineering: Design and Analysis (3)
Introduction to the systems development process. Covers the system life cycle, current system documentation through use of classical and structural tools and techniques for describing process flows, data flows, data structures, file designs, input and output designs, and program specifications. Also covers information gathering and reporting activities and transition into systems analysis and design. Prerequisite: Any course in computer science or data processing.

CPSC405 Computer Organization (3)
Provides students with an understanding of the computer organization with examples of micro-, mini-, and mainframe architectures. Covers basic computer hardware components, micro-level operations and instructions, addressing techniques, macros, file I/O operations, program segmentation and linkage, and assembler construction with one-pass and two-pass assemblers. Prerequisites: Pascal programming language, CPSC360, or CPSC365, and MATH340.

CPSC415 Data Structures (3)
Advanced data structures with continuing emphasis on writing well-designed, structured programs. Major topics include arrays, stacks and queues, linked lists, trees, graphs, internal and external sorting, symbol tables, and files. Prerequisite: C++.

CPSC435 Operating Systems (3)
Covers the major concepts of operating system principles, the interrelationships between the operating system and the architecture of computer systems. Major topics are dynamic procedure activation, system structure, evaluation, memory management, process management, and recovery procedures. Prerequisite: CPSC405.

CPSC441 Introduction to Data Communications (3)

CPSC442 Introduction to Computer Networks (3)
A study of computer networks, including overview of network architectures, layer architectures, and the Open System Interconnection (OSI) reference model, routing and congestion control, protocols, local area networks, Integrated Services Digital Networks (ISDN), and network security. Prerequisite: CPSC435.

CPSC444 Computer Programming: Advanced Pascal (3)
This course covers advanced techniques for the creation of large application programs using Pascal. Emphasis will be placed on the design of the user interface. Topics will include operating system interrupts, in-line assembly language, and other techniques for the development of complex applications. Selected Pascal programming utilities also will be covered. Prerequisites: CPSC340 and CPSC415.

CPSC445 Database Systems (3)
Practical development of a database, i.e., requirement analysis, functional specifications, database design, and implementation are the main focus of the course. Topics include data redundancies, data independence, role and functionality of DBMS in database processing, database modeling using entity relationship and semantic object models, building relationships, relational model vs. network and hierarchical models, functional dependencies, normal forms, normalization, extracting the data model from database model, using Bachman diagram to document the data model, data dictionary, data integrity and data security rules, query languages: SQL and QBE, client/server architecture, and distributed databases. More emphasis is given to the fundamentals of database processing and design of the data model. Prerequisite: CPSC415.

CPSC446 Network Configuration and Integration (3)
This course explores networking by using a hands-on lab to instruct students how to design, install, configure, and troubleshoot a live network. Prerequisite: CPSC405.

CPSC450 Introduction to Algorithms (3)
Development and analysis of algorithms for problem solving in computer science. Emphasizes issues of complexity of algorithms, efficiency, and reliability. Includes as topics sorting, searching, approximation methods, and heuristics. Prerequisite: CPSC415.

CPSC452 Advanced COBOL and CICS for Business Applications (3)
Covers application program design, development, and implementation using common level CICS and advanced features of COBOL on IBM 4341. Emphasizes on-line CICS applications from a user's point of view. Students will create and run programs with the Virtual Machine/System Product. Prerequisite: CPSC351.

CPSC455 Organization of Programming Languages (3)
Covers the organization of programming languages, especially the run-time behavior of programs; introduces the formal study of programming languages, continues the development of problem solution and programming skills. Includes topics on language definition structure, data types and structures, control structures and data flow, run-time considerations, interpretive languages, lexical analysis, and parsing. Prerequisites: CPSC405, CPSC415, and MATH355.
CPSC458 Database Programming (3)
Covers advanced programming in a database environment using block structured languages, database query language interfaces, and program development languages. Prerequisite: CPSC445.

CPSC462 Numerical Algorithms (3)
Includes topics on floating-point arithmetic, direct and iterative methods for solving systems of linear equations, error analysis and norms, eigenvalues and eigenvectors, root-finding methods, polynomial interpolation, numerical differentiation and integration, and linear and nonlinear least squares. Introduction to subroutine packages. Students should allow ample time in their schedules for working with a computer outside of class. Prerequisites: MATH355 and either CPSC320, CPSC330, or CPSC340.

CPSC465 Software Engineering: Project (3)
Develops an engineering approach to the software life cycle of planning, development, and maintenance. Covers system definition, software scoping and estimation requirements analysis, modularity, information hiding, cohesion and coupling, software complexity, data flow and structure, design methodology, software testing, and maintenance methodology. Students will participate in a software engineering project to provide an applied focus for study. Prerequisites: CPSC370, CPSC415, and either CPSC435 or CPSC445.

CPSC470 Independent Study: . . . . (1-4)
Individual reading, research, and/or project in computer science under the supervision of the faculty. Prerequisite: Permission.

CPSC480 Internship: . . . . (1-4)
Designed to provide computer science students with supervised experiences in applied settings. Prerequisite: Permission.

CPSC505 Programming in LOGO (3)
Provides experience with the use of the graphical (TURTLE)GRAPHICS), character string, and numerical capabilities of the LOGO computer programming language. Emphasizes educational applications. Requires computer programming and substantial use of a computer outside the classroom. Prerequisite: Intermediate algebra or MATH320.

CPSC520 Windows Programming: Visual BASIC II (3)
This course explores the character and features of the event driven Visual BASIC programming language to create sophisticated Visual BASIC-based Windows applications to solve problems. This course covers user interface management system, design and implementation of on-line applications, report generations, and application development. The principal goal is to provide students with the most marketable skills together with fundamental concepts so that they can prepare themselves in the rapidly changing dynamic world of information technology. Prerequisite: CPSC320.

CPSC535 Introduction to the UNIX System (3)
With features fitting for mainframe systems down to microcomputers, UNIX is a dominant system today. This course provides a structured means for students who want to learn the state-of-the-art of the UNIX environment. Prerequisite: CPSC425.

CPSC548 Computer Programming: Java (3)
Introduces the Java programming language, including its syntax, control structure, methods, data structures, and graphical user interface components. Students will write, run, and debug programs to run directly on personal computers and over the Internet. Emphasis will be placed on clarity and correctness of the resulting programs. Prerequisite: CPSC345.

CPSC560 Computer Graphics (3)
A survey of hardware and software used for interactive computer graphics, with applications to various areas such as business graphics, art, and CAD systems. Topics include graphics hardware and packages for both mainframes and microcomputers, two- and three-dimensional graphics, windowing, clipping, transformations, hidden line removal, surface modeling, solid modeling, and graphics standardization (GKS, CORE, etc.). Students should be prepared to spend considerable time outside of class at a computer or terminal on homework assignments and the final project. Prerequisites: CPSC415 and MATH355.

CPSC605 AutoCAD (3) P/NC
Designed for the working professional in the field. Introduces the fundamental concepts of computer graphics, computer aided design, CAD hardware and software, and basic AutoCAD commands. AutoCAD concepts covered include entity drawing commands, edit and inquiry commands, utility and drawing aids, layers, dimensioning, crosshatching, three dimensional wireframing, slide shows, and customized menu. Special features of AutoCAD and AutoLISP also are covered. Cannot be taken for credit in addition to CPSC560. Prerequisite: Familiarity with PC-DOS.

CPSC610 Computing for Scientists (3)
This course will provide students in the sciences with the practical background they will need to apply computers to a wide variety of scientific endeavors. It will feature the study of word processing, spreadsheets, and databases with emphasis on those features of these common packages that will be most useful in their scientific work. In addition, students will be introduced to a number of more specialized scientific software packages.

CPSC630 Computer Architecture (3)
Introduces the organization and structuring of major hardware components of computers, the mechanics of information transfer and control within a digital computer system and the fundamentals of logic design. Includes topics on basic logic design, coding, number representation and arithmetic, and computer architecture. Prerequisite: CPSC405.
CPSC635 UNIX Programming (3)
This course concentrates on the programming interface that exists between the UNIX kernel and the applications software that runs in the UNIX environment. Library routines are also covered. Prerequisite: CPSC35.

CPSC642 Network Programming (3)
There has been an explosive growth in computer networks since the 1980s. The development of software to be used in these networks is still considered a mysterious art by some. The intent of this course is to concentrate on the development of software to use a computer network. This course provides the needed knowledge to develop networking software by studying numerous cases of existing network applications. Prerequisite: CPSC635: UNIX programming or equivalent system-level programming experience.

CPSC643 Computer Programming: Advanced C++ (3)
This course covers advanced techniques for the creation of application programs using the C++ language. Reviews common data structures as implemented in C++ and emphasizes the common techniques used in the design of modern application programs. Topics will include study of the run-time library functions, system calls, graphics, text displays, and selected programming utilities. Prerequisites: CPSC345 and CPSC415.

CPSC646 Windows Programming: Delphi (3)
This course covers the fundamentals of programming for the Microsoft Windows environment using Borland's Delphi, an object-oriented, graphical user interface version of their Pascal compiler. Topics will progress from simple, minimum Windows programs through the addition of various features common to Windows applications to the development of a final sophisticated Windows application. Weekly programming assignments will require students to explore the implementation of the various controls and options available in Delphi and their application to their final projects. Prerequisites: CPSC415. While a background in Pascal is helpful, experience in programming and a thorough familiarity with the Windows user interface is the essential preparation for the work in this course.

CPSC656 Object-Oriented Programming (3)
Introduces the basic concepts of object-oriented languages, including objects, classes, class attributes, methods, instantiation, parameterized classes, inheritance, multiple-inheritance, class hierarchy, typing, subtyping, garbage collection, and implementation issues. Includes an introduction to one or more languages. Prerequisites: CPSC415, CPSC455, and CPSC465.

CPSC660 Artificial Intelligence (3)
Covers artificial intelligence frameworks, methodology, and applications. Includes topics on AI problems and problem spaces, basic problem-solving methods, game playing, knowledge representation, planning systems, expert systems, natural language processing, perception, learning, and AI languages and systems. Prerequisites: CPSC415 and MATH355.

CPSC700 Software Development Tools (3)
Introduces the practical software tools used for the development of commercial software. Topics include the use of software tools for screen design, windows, graphics, file systems, sorting, memory management, and device drivers. In addition both hardware and software debugging aids will be discussed and demonstrated. Prerequisites: CPSC345 and CPSC465.

CPSC710 Fourth-Generation Languages and Beyond (3)
Introduces the concepts of nonprocedural, application generation languages. Topics include characterizations and classifications of fourth-generation languages, use of dialogues, action diagrams, program structure, natural language and graphic interfaces, decision support languages, prototyping, and sample systems such as FOCUS, IDEAL, MANTIS, RAMIS II, QBE, and SQL. Prerequisites: CPSC445 and CPSC465.

CPSC730 Comparative Computer Architecture (3)
Examines the architecture of an entire computing system. Topics include computer system design issues such as processor-memory-switch organization, arithmetic and non-arithmetic processing, control addressing, input/output, comparisons of specific examples of various solutions to computer system design problems, and novel computer organizations. Prerequisites: CPSC435 and CPSC630.

CPSC735 Advanced Operating Systems (3)
Examines operating system design concepts such as system requirements, reliability, security, parallel processing, system structure, and process communication. Specialized topics in decentralized operating systems will be surveyed. Prerequisite: CPSC435.

CPSC742 Advanced Computer Networks (3)
A system-oriented view of computer networking is used in order to explore the design principles of sound network design in this course. Providing an in-depth study of emerging technologies of data communication is the purpose of this course. The core material contains Internet-working, end-to-end protocol, congestion control, and high-speed networking. Open issues in those fields will be discussed. Prerequisite: CPSC442.

CPSC745 Database Development and Environments (3)
Examines practical design and implementation of database systems on fourth-generation, relational DBMS environments. Topics include conceptual design of database, logical and physical database design, functional dependencies and normal forms, nonprocedural and fourth-generation DBMS, SQL and the industry standards for Data Manipulation Language (DML), integrated and distributed DBMS, and LAN for PC based databases. Students will design and implement an actual database, using a relational DBMS such as FOCUS or ORACLE. Prerequisite: CPSC445.

CPSC750 Fourth-Generation Languages and Beyond (3)
Introduces the practical software tools used for the development of commercial software. Topics include the use of software tools for screen design, windows, graphics, file systems, sorting, memory management, and device drivers. In addition both hardware and software debugging aids will be discussed and demonstrated. Prerequisites: CPSC345 and CPSC465.
CPSC760 Computational Linear Algebra (3)
Examines direct and iterative computer solutions of linear systems and eigenvalue problems, with applications to linear programming, polynomial interpolation, Chebyshev minimax curve-fitting, iterative linear solution of nonlinear systems, nonlinear least-squares, and linear boundary value problems for differential equations. Compares standard numerical, interval, and symbolic manipulative methods. Standard numerical commercial software is used. Interval and symbolic programs are written by the student. 
Prerequisite: MATH440.

CPSC770 Numerical Analysis (3)
Examines computer interpolation of numerical data, splines, root-finding methods, nonlinear optimization, interpolatory differentiation and integration, Roll's differentiation arithmetic and the solution of ordinary nonlinear differential equations, nonlinear dynamical systems, and partial differential equations. Uses a combination of standard numerical, interval, symbolic, and graphical techniques. 
Standard numerical commercial software is used. Interval and symbolic programs are written by the student. 
Prerequisite: CPSC760 or MATH455 or calculus II.

CPSC777 Advanced Computer Graphics (3)
Examines three-dimensional computer graphics. Topics include algorithms for curves and surfaces, geometrical and image transformations, stereopsis, solid modeling, removal of hidden lines and surfaces, and surface modeling; design of interactive software and a simple graphics editor; programming of the mouse, light pen, digitizer, and plotter. 
CPSC560.

CPSC779 Computer Aided Design (3)
Introduces CAD as an application of computer graphics that replaces drafting tables with a computer. Topics include design of CAD systems, basic features of CAD systems, architectural design using CAD systems, mathematical foundation of CAD systems. Students will study several CAD environments such as AutoCAD, Versa-CAD, MicroCAD, and will develop various types of design drawings using AutoCAD. 
Prerequisite: CPSC560.

CPSC780 Scientific Computation (3)
Examines symbolic manipulation (computer algebra), interval methods, fuzzy sets, programming parallel processors, scientific computer graphics, and optimization and pattern recognition using simulated neural networks. Applies a combination of numerical, symbolic, and graphical techniques to the solution of nonlinear dynamical systems, including chaotic solutions with fractal geometries. Interval and symbolic programs are written by the student. 
Prerequisites: MATH440 and either MATH455 or CPSC760 or Calculus II.

CPSC790 Special Topics: ... (3)
Provides a forum for topics not presented in regularly scheduled courses. Topic may include languages and automata small scale computers, parallel distributed architectures, and database design. 
Prerequisites: Will vary depending on topic.

CPSC810 Formal Language and Application (3)
Presents formal languages and related automata. Emphasizes regular language and context free language. Topics include language, grammar, finite state and push down automata, the applications in DOS, UNIX systems, and compiler construction. 
Prerequisites: CPSC415, MATH340, and knowledge of Pascal and C++ programming languages.

CPSC812 Design of Compilers (3)
Introduces basic principles of compilers and compiler design, lexical analysis, finite state automata, context free grammars, parsing techniques, syntax directed translation, symbol tables, run time storage administration, error detection, optimization, data flow analysis, and code generation. A substantial programming project will be required. 
Prerequisites: CPSC455 and CPSC810.

CPSC815 Natural Language Processing (3)
Presents a multidisciplinary approach to the understanding of human languages, their grammar, syntax, and semantics, and the automatic processing of natural languages by computer. The potential of automated text translation from one human language into another, and problems such as visual text display and speech analysis and automatic synthesis is discussed. Emphasis is placed on potential applications to computerized processing of verbal and written text. Information from linguistics, psychology, artificial intelligence, and cognitive science is presented. 
Computer science tools and techniques that are presently available to deal with natural language processing are discussed. 
Prerequisites: CPSC465 and CPSC660.

CPSC820 Planning and Management of Software Projects (3)
Designed to expand on the principles of software engineering and software management as cost-effective tools in software development. Specifically, methods of systems engineering, modular design of complex software, and application of knowledge engineering principles that include the design of natural language interfaces will be discussed. Emphasis will be on design techniques, project planning, software integration, as well as maintenance and management of software. 
Prerequisite: CPSC465.

CPSC825 Expert Systems and Knowledge Engineering (3)
Presents a conceptual understanding of the principles of rule-based systems and practical development of mini expert systems. The concepts of neural networks also will be discussed as they pertain to expert systems development. 
Prerequisites: CPSC465 and CPSC660.

CPSC830 Microcomputer Architecture (3)
Microprogramming concepts are demonstrated on a typical microcomputer architecture. Topics include machine organization and operations such as register transfers, transformation, sequencing, memory organizations, and methods of implementing control functions in microinstructions. Technologies that make microprogramming viable and applications influenced by microcomputer architectures, such as implementations of high level languages, assembly language, and operation systems, will be examined. 
Prerequisites: CPSC435 and CPSC630.
CPSC835 Operating System Programming (3)
Specialized system programming techniques will be discussed, and topics focusing on operating system design, including system requirements, reliability, security, process communication, parallel processing, and system structure, will be implemented. Students will gain first hand experience in programming on the operating system level. Prerequisite: CPSC735.

CPSC840 Design and Analysis of Algorithms (3)
Presents techniques for design and analysis of algorithms. Emphasizes time and space complexity issues. Topics include searching, sorting, selection, graph problems, parallel algorithms, NP-complete problems, and approximation methods. Prerequisites: CPSC415 and MATH340.

CPSC845 Advanced Database Theory (3)
Provides students with an in-depth study of the sensitive issues on the theory of relational database design such as design methodology, concurrency control, data integrity, security, query optimization, and transaction processing. Prerequisites: CPSC445 and MATH340.

CPSC860 Advanced Artificial Intelligence (3)
Defines the characteristics of intelligence and discusses their implications to the development of intelligent machines. Pertinent concepts derived from brain research, psychobiology, cybernetics, systems research, and other disciplines will be discussed in relation to the subject matter. Prerequisite: CPSC660.

CPSC870 Graduate Research: ... (1-4)
Individual reading, research, and/or project in computer science under the supervision of the faculty. Prerequisite: Permission.

CPSC880 Internship: ... (1-4)
Designed to provide graduate Computer Science majors with supervised experiences in applied settings. Prerequisite: Permission.

CPSC890 Graduate Thesis/Project: ... (1-6)
Provides the Computer Science student with the opportunity to synthesize graduate work by developing and completing a thesis or project specific to the student's interests in computer science. The written portion will follow thesis guidelines for graduate level work. Prerequisite: Permission.

CPSC899 Thesis Presentation in Computer Science (1)
Students provide oral presentations of their theses in a format similar to that followed in the presentation of papers at professional meetings. Students will enroll during the final trimester of their research or the following trimester. Prerequisite: Permission of advisor.

Counseling

COUN470 Independent Study: ... (1-6)
Individual reading, research, and/or project in counseling under the supervision of the faculty. Prerequisites: Permission of instructor and division chairperson.

COUN470P Independent Study: ... (1-6) P/NC
Individual reading, research, and/or project in counseling under the supervision of the faculty. Prerequisites: Permission of instructor and division chairperson.

COUN510 Physical and Sexual Abuse of Children (3)
Provides an overview of the nature of child abuse. Includes legal and ethical issues involved in definition, identification and treatment, and current theories of causation and treatment.

COUN515 Death and Dying (3)
Examines current attitudes toward death and dying. Explores ways in which the professional helps the patient and family deal with a terminal illness.

COUN538 Workshop on Depression (2)
Study of the causes and cures of depression from the humanities/holistic view of human nature. Specific attention to transactional analysis, the redecision model.

COUN544 Introduction to Family Dynamics (3)
Provides a beginning understanding of the family as a social system and the concepts involved in family counseling. Students analyze their role in their own family system. Prerequisites: PSYC430 and PSYC544 or PSYC555.

COUN548 Alternate Approaches to Traditional Psychotherapy (3)
Introduces students to alternate therapeutic strategies such as body therapy, communication therapy, Gestalt therapy, neurolinguistic programming, and psychodrama.

COUN609 Issues in Counseling (1-3)
This course is designed to introduce students to topical social issues related to counseling. It is meant to expose students to critical issues, their possible solutions, and the most current thinking and research.

COUN620 Lifespan Developmental Issues (3)
Students will analyze and conceptualize human developmental themes from the perspective of various learning and personality theorists. The counseling process, interventions, and strategies will be addressed in relation to the topical issues presented in the class. Prerequisite: Graduate student status.

COUN630 Counseling Theories and Ethics (3)
Introduces students to the major theories in counseling and associated techniques, to ethical codes and standards, and to related legal issues and trends. Summaries of applicable research are covered.
COUN63 Community Counseling and Professional Orientation (3)
Introduces students to professional counseling practices in community settings. Examines the community counseling model and its application. Examines professional counseling roles, functions, standards, and activities. Includes visits to agencies. Prerequisite: Admission to M.A. in Counseling.

COUN636 Human Service Systems (3)
Examines organizational and administrative processes in human service systems. Considers various short- and long-range programs and their positive and negative effects.

COUN638 Introduction to School Services (3)
Examines the roles of school service personnel in the school environment. History, philosophy, trends, purposes, ethics, legal aspects, standards, and roles within the institution are examined. Students will explore the significance of classroom dynamics. Prerequisite: COUN630 or concurrent enrollment.

COUN725 Family Systems: Theory and Practice (3)
Introduces students to the theory, skills, and major approaches of family counseling, emphasizing the role of family systems in the maintenance of problem behavior. The decision of whether or not family counseling is the treatment of choice and the implications for intake methods are considered. Students will apply the concepts learned to a study of their own family that describes the dynamics involved. Ethical and training considerations are discussed.

COUN730 Life Style and Career Development (3)
Examines career development theories; occupational and educational information sources and systems; career and leisure counseling guidance and education; life style and career decision making; and career development program planning, resources, and evaluation. Prerequisite: Graduate student status.

COUN803 Information Services in Guidance (3)
Provides background for professionals (teachers, counselors, others) to organize vocational information, employment trends, and personal information for effective use by students and adults.

COUN810 Beginning Counseling and Human Relations Skills (3)
Provides students with experience in human relations laboratory, focusing on basic communication skills and the development of beginning counseling skills. Prerequisite: COUN630.

COUN826 Research Literature in Counseling and Psychotherapy (3)
Provides counselors and psychotherapists with methods and criteria to locate and evaluate research literature on counseling and psychotherapy. Emphasizes examination and understanding of research questions and findings. Prerequisites: PSYC544, PSYC560, or COUN630.

COUN837 Management of Counseling Programs (3)
Provides an overview of methods used in the management of counseling programs in schools, agencies, or businesses. Focuses on unique management skills needed by counseling practitioners.

COUN838 Counseling Employees in the Workplace (3)
Introduction to the concept of employee assistance programs. Deals with design, implementation, and evaluation of counseling programs in business and industry.

COUN840 Advanced Techniques: . . . (3)
Intensive study of specific advanced techniques or topics in the field of psychology and counseling. Allows students to work intensively in a specialized study area not normally available in the general curriculum. Topic dependent upon faculty expertise and student need. Prerequisite: COUN844 or COUN845 or permission.

COUN842 Practicum in Vocational Counseling (3)
Examines theories of career choice and decision-making process and methods of assisting clients in career development. Students will also administer and evaluate appropriate instruments and develop vocational counseling skills. Prerequisites: COUN730, PSYC610, and degree candidacy.

COUN844 Practicum in Individual Counseling: Child and Adolescent (3)
Focuses on the development and refinement of counseling skills required for working with children and adolescents. Emphasizes data gathering through observation, analysis of the counseling process, and the development of counseling and consultative strategies. Students will maintain ongoing counseling relationship with one child and one adolescent client. Prerequisites: COUN810 and degree candidacy.

COUN845 Practicum in Individual Counseling: Adult (3)
Application of theory and practice in individual counseling and therapy with adults. Prerequisites: COUN810 and degree candidacy.

COUN846 Reality Therapy (3)
Apply techniques and skills of reality therapy in counseling sessions with adults. Study concepts and orientations of Glasser, Harrington, and Haley toward mental health, including work with families. Prerequisite: COUN810 or COUN844.

COUN847 Group Dynamics and Intervention (3)
Application of basic knowledge of the roles, functions, and dynamics among group leaders and group participants; covers group process theory and the research pertaining to group process; students analyze the interaction within a group.

COUN851 Consultation and School Staff Development (3)
Examines theories, functions, and skills required of consultants in schools and other settings. Students will use consultation skills with client. Prerequisite: COUN630.

COUN852 Practicum in Group Counseling: Child and Adolescent (3)
Students will develop, analyze, and evaluate one ongoing counseling group for children and one ongoing counseling group for adolescents, and one psychosocial group for both. Prerequisites: COUN844 or COUN845 and degree candidacy.
COUN853 Parent Education: Prevention and Intervention (3)
Introduces students to dynamics of family interaction and methods of prevention and intervention in family problems. Students will conduct two family counseling sessions, analyze the family interaction, and propose remedial intervention. Prerequisite: COUN638.

COUN854 Advanced Individual Therapy Techniques: Child (3)
Covers advanced skills in using verbal and nonverbal techniques in individual therapy with children. Includes study of relevant theory, application of treatment techniques, and evaluation of their effectiveness. Prerequisite: COUN844.

COUN855 Assessment and Treatment Planning (3)
Covers interviewing and intake skills, including diagnostic assessment, psychosocial history, case notes, case summary, treatment format and planning, and evaluation of treatment effectiveness. Students are required to work with actual client(s). Prerequisite: COUN845 or permission.

COUN856 Practicum in Group Counseling: Adult (3)
Study and practice of basic interviewing skills and treatment techniques in group counseling or group therapy with adolescents and adults. Prerequisites: Completion or concurrent enrollment in COUN845 and degree candidacy.

COUN857 Behavior Therapy (3)
Advanced study and application of behavioral therapy techniques with adults and children. Prerequisite: COUN844 or COUN845.

COUN858 Development of School Counseling Programs (3)
Study of rationale and program for guidance services, special attention to analyzing, evaluating, and integrating administrative theory. Prerequisite: PSYC610 and degree candidacy.

COUN859 Family Counseling Techniques (3)
Study and practice of concepts and techniques of family counseling. Students demonstrate system's techniques with actual clients. Prerequisites: COUN725, COUN845, and degree candidacy.

COUN860 Marriage and Couple Counseling (3)
Deals with approaches to counseling that focus on couple interactions rather than individual pathology. Students demonstrate basic techniques of couple therapy with actual clients. Prerequisites: COUN844 and COUN845.

COUN861 Parent Study Group Leadership (3)
Student initiates, develops, conducts, and maintains a successful ten-week parent study group. Special emphasis on training parents to identify problems in the home and providing techniques to deal with them. Prerequisites: COUN638 and COUN853.

COUN862 Life Style Analysis (3)

COUN868 Counseling Internship I (3) PINC
Student is placed in an agency setting and expected to perform a variety of agency and counseling related activities for a minimum of 600 hours, including a minimum of 240 hours of direct client contact. Prerequisites: Degree candidacy and good academic standing.

COUN869 Counseling Internship II (3) PINC
Student is placed in an agency setting and expected to perform a variety of agency and counseling related activities for a minimum of 600 hours, including a minimum of 240 hours of direct client contact. Prerequisites: Degree candidacy and good academic standing.

COUN870 Independent Study: ... (1-6)
Individual reading, research, and/or project in counseling under supervision of faculty. Prerequisites: Permission of instructor and division chairperson.

COUN870P Independent Study: ... (1-6) PINC
Individual reading, research, and/or project in counseling under supervision of faculty. Prerequisites: Permission of instructor and division chairperson.

COUN881 Counseling Internship I: Marriage and Family Counseling (3) PINC
Student is placed in an agency setting and expected to perform a variety of agency and counseling related activities for a minimum of 600 hours, including a minimum of 240 hours of direct client contact. Prerequisites: COUN842, COUN845, COUN853, COUN858, COUN860, and six hours of required courses. Should be taken immediately before or concurrent with Counseling Internship II: Marriage and Family Counseling. Degree candidacy and good academic standing.

COUN882 Counseling Internship II: Marriage and Family Counseling (3) PINC
Student is placed in an agency setting and expected to perform a variety of agency and counseling related activities for a minimum of 600 hours, including a minimum of 240 hours of direct client contact. Prerequisites: Counseling Internship I: Marriage and Family Counseling or concurrent enrollment with permission of advisor and faculty; degree candidacy and good academic standing.

Criminal Justice

CJUS310 Criminal Justice Organization and Process (3)
Studies current structures and procedures of American criminal justice. Presents various comprehensive theories useful for analysis and understanding of the justice subsystems.

CJUS320 Correctional Process (3)
Examines research on the social/psychological effects of confinement. Studies the prison as a social system with its own norms and peculiarities. Critically analyzes similarities among prisons and other subsystems such as mental hospitals.
CJUS330 Juvenile Justice (3)
Explores the development of the juvenile court and the system of juvenile justice in the United States. Studies contemporary issues in juvenile justice and approaches to prevention, control, and treatment of delinquency.

CJUS345 Crime Causation Theories and Social Control (3)
Examines historical and current criminology theory and practice. Analyzes concepts and practices of crime and criminal behavior and society's response to them. Examines the law, offenders, victims, forms of crime, and the criminal justice system. Students will consider various aspects of criminology theory and formulate their own perspective that takes into account societal pressures and research about crime, rehabilitation, and recidivism.

CJUS355 Law Enforcement and the Community (3)
Topics and issues in the law enforcement process, police administration, police-community relations in the context of the multiethnic and multicultural urban communities.

CJUS360 Criminal Law and Procedure (3)
Examines the criminal procedure and prosecution of cases in the criminal courts for misdemeanor and felony charges. Examines issues related to criminal prosecution, the role of the functionaries, and the sentencing process.

CJUS420 Correctional Policy and Practice (3)
Analyzes current approaches used in federal, state, and local correctional and related agencies. Examines discrepancies between new theories implemented by criminal justice decision makers and the actual outcome of theoretical applications. Prerequisite: CJUS320 or permission.

CJUS450 Women and Minorities in Criminal Justice (3)
Examines the techniques and methodology of police investigations. Explores the use of current, hands-on, and practical law enforcement strategies to solve crimes. Prerequisite: CJUS310 and CJUS345.

CJUS451 Current Topics in Criminal Investigation (3)
Analyzes current approaches used in federal, state, and local correctional and related agencies. Examines discrepancies between new theories implemented by criminal justice decision makers and the actual outcome of theoretical applications. Prerequisite: CJUS320 or permission.

CJUS453 Computer Applications for Criminal Justice (3)
A review of the available resources and selected computer software applications for criminal justice professionals such as Spatial and Temporal Analysis of Crime (STAC), SHOWCASE, and other microcomputer software packages as they become available. Prerequisites: CJUS310 and CPSC305 or permission.

CJUS455 Critical Issues in Private Security and Justice (3)
Examines the field of private security, its growth, and development in the context of criminal justice. Examines issues related to the philosophy, operation, individual privacy, organizational, and community factors from a human rights perspective. Prerequisite: CJUS310 or permission.

CJUS460 Judicial Process and Constitutional Issues in Criminal Justice (3)
Includes a survey of jurisdiction, organization, policies, and procedures of courts and the judicial system. Examines issues related to the administration of criminal justice from arrest to incarceration or release. Prerequisite: CJUS 360.

CJUS465 Non-Western Criminal Justice Systems (3)
Examines the criminal justice systems of selected non-Western cultures from a comparative perspective. A survey of the organizational, administrative, and philosophical principles of criminal justice systems from the non-Western world. Prerequisite: CJUS310 or permission.

CJUS470 Independent Study: . . . (3)
Independent study is intended to provide better students the opportunity to study a topic of their choice in criminal justice under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation within criminal justice and an instructor to sponsor the work. Prerequisites: Permission of instructor and dean.

CJUS480 Internship: . . . (3)
Designed to combine individual career counseling and work outside of the classroom in combination with institutional learning settings. Prerequisites: Permission of advisor and cooperative education coordinator.

CJUS510 Topics in Criminal Justice: . . . (1-3)
In-depth analysis of contemporary justice related issues and topics. Prerequisite: CJUS310 or permission.

CJUS520 Substance Abuse in the Criminal Justice System (3)
This course is designed to introduce the student to the issue of substance abuse treatment within the context of the criminal justice system. The differing goals of the criminal justice system and the treatment system will be discussed. The course will discuss at what stages of the criminal justice system and the treatment system will be discussed. The importance of continuity of care and linkages to needed services for such clients will be emphasized. Finally, the significance of relapse and recovery and other special issues which relate to the criminal justice client will be addressed. Prerequisite: Permission of instructor.

CJUS525 Violence Interruption Process (3)
Examines the emerging perspectives on the violence interruption process in the criminal justice system. This might include assessment, treatment planning, provision of services, and evaluation of outcomes.

CJUS540 Leadership and Management in Justice (3)
Examines leadership styles, functions, knowledge, and skills in relation to leadership and management positions in the justice, social, or political agencies of today. Moves from theoretical studies to practical approaches of leadership. Prerequisite: CJUS310.
CJUS555 Justice System Planning and Crime Prevention (3)
Explores the planning process and introduces students to the examination of critical issues in criminal justice planning. Prerequisite: CJUS310 or permission.

CJUS560 Justice System Research, Design, and Change (3)
Development of a research study in a public service agency. Includes conceptualization of research methodologies, and skills to design and implement a social change strategy. Prerequisite: Statistics or SOSC450.

Economics

ECON301 Principles of Microeconomics (3)
Studies price formation, demand, and production decisions. Examines the individual and interrelated behavior of consumers, firms, and industries. Prerequisite: successful completion of Intermediate Algebra or passing of the appropriate level of the university proficiency examination or permission of instructor.

ECON302 Principles of Macroeconomics (3)
Offered in both lecture and televised format. Studies the economy as a whole, dealing with economic data, behavior, and theory at the aggregate level of the economy. Examines income, output, employment, prices, and other variables in terms of their measurement, determination, and policy implications. Prerequisite: successful completion of Intermediate Algebra or passing of the appropriate level of the university proficiency examination or permission of instructor.

ECON310 Consumer Economics (3)
Study of the changing role of consumers, the consumption of goods and services, and the alternatives open to the consumer in the economic environment. Prerequisites: ECON301 and ECON302.

ECON325 Comparative Economic Theory (3)
Comparative analysis of contemporary economic theories, their evolution, and current impact. Prerequisites: ECON301 and ECON302.

ECON350 Money and Banking (3)
Studies the U.S. monetary system in the areas of money, institutions, and policy. Concentrates on analysis of money and its functions, the mechanics of the commercial banking system and its determination of the money supply, Federal Reserve system's functions and policy instruments, the impact and effectiveness of monetary policy on the public, commercial banks and the treasury, and its overall impact on the economy. Prerequisites: ECON301 and ECON302.

ECON410 Intermediate Macroeconomics (3)
Deals with the aggregate level of economic activity. Analyses the methodology of national income accounts, development of goods, money and labor markets, and the impact and effect of policy instruments. Uses models to develop the interdependence of markets in the determination of the aggregate level of economic activity. Prerequisites: ECON301 and ECON302.

ECON420 Managerial Economics: The Economics of the Firm (3)
Deals with analysis and theoretical constructs of microeconomics applied to managerial decision making. Emphasizes consumer demand, production and cost analysis, business behavior, market performance, and growth equilibrium. Prerequisites: ECON301, ECON302, MATH335, and STAT362.

ECON430 International Trade and Commercial Policy (3)
Investigates international trade theory and commercial policy theory with empirical applications. Also examined are exchange rates and open economy macroeconomics, which include national income accounting and the balance of payments. Prerequisites: ECON301 and ECON302.

ECON435 Comparative Economic Systems (3)
Study of differences between popular political labels and sets of factors that actually distinguish working economic systems. Prerequisites: ECON301 and ECON302.

ECON470 Independent Study: . . . (3)
Independent study is intended to provide better students an opportunity to study a topic of their choice in economics under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation within economics and an instructor to sponsor the work. Prerequisites: Permission of instructor and dean.

ECON480 Internship: . . . (3)
Designed to provide economics students with supervised practical experiences in applied settings. Prerequisite: Permission.

ECON501 Foundations of Economics (3)
Study of the concepts of macro- and microeconomics at an advanced level. Satisfies the economics prerequisites for the M.B.A. This course does not apply as a graduate level course toward the M.B.A. degree. Prerequisites: MATH325 and graduate student status.

ECON520 Special Topics in Economic Education (1)
Acquaints students with economic education materials; demonstrates methods of teaching economics concepts, with emphasis on decision making models, critical thinking skills, and cost benefit analysis. Prerequisites: Certified teacher or permission of the instructor.

ECON533 Economic Development in Latin America (3)
Study of the economic struggles of the Latin American peoples through an analysis of the role the economy has played in the past and is now playing in the modernization process, in the political process, and in the culture of Latin America.

ECON60 Consumer Economics for Teachers (3)
Features an in-depth study of consumer topics. Includes credit, purchasing, insurance, investments, money management, and an overview of the American economic system. Prerequisite: Nonteachers require permission of instructor.
ECON701 Teaching Current Economic Issues (3)
Focuses on current microeconomic and macroeconomic issues. Features readings and instructional materials on important economic issues. Topics may include unemployment, inflation, taxation, social security, minimum wage laws, health care, the budget deficit, welfare reform, and international trade. Features speakers and field trips.

ECON702 Strategies for Teaching Economics in the Elementary Classroom (3)
Covers basic principles of economics and explores methods of teaching those principles of economics to students in kindergarten through sixth grades. Utilizes exemplary national curriculum projects that are designed to teach economics to elementary school children.

ECON703 Strategies for Entrepreneurship Education (3)
Examines entrepreneurship education models at the state and national levels. Examines the contribution of entrepreneurs to the United States economy by using case studies, speakers, and field trips. Examines and analyzes current curriculum materials in entrepreneurship education.

ECON704 Current Global Economic Problems (3)
Examines the theory and practice of international trade and economic development. Focuses on world trade and the conduct of commerce among individuals, firms, and governments. Topics include comparative and absolute advantage, free trade, protectionism, balance of payments, exchange rates, and factors influencing economic development. Examines the latest curriculum materials for teaching about international trade. Features speakers and field trips.

ECON705 The Role of Labor in a Changing Economy (3)
Analyzes changes in the United States economy and how these changes affect labor-management relations and future career options. Emphasizes the history and development of the labor movement, wage determination, and government policies on labor-management relations. Explores current problems in labor-management relations. Examines current curriculum materials designed to teach about labor-management relations.

ECON706 Public Finance and Taxation for Teachers (3)
Analyzes federal, state, and local taxes, and government programs. Develops criteria to judge what activities government should perform and how it should carry them out. Evaluates the effectiveness of government policies such as subsidies, taxes, and the provision of collective goods. Examines the latest high school curriculum materials on taxation and government finance.

ECON707 Teaching about Money, Banking, and Monetary Policy (3)
Analyzes the U.S. banking system, the Federal Reserve system, and the effectiveness of the monetary policy. Students will interact with policy makers and educational consultants from the Federal Reserve Bank of Chicago and will examine and critique curriculum materials designed to teach about money, banking, and monetary policy.

ECON801 Problems in Managerial Economics (3)
Applies microeconomics theories to the problem of most efficient use of resources within and between the organization and the economic system. Utilizes macroeconomics theories to forecast the future economic environment. Studies compromising techniques to reach an optimum of objectives when maximization remains elusive. Prerequisites: ECON301, ECON302, MATH355, and STAT362.

ECON810 Labor Economics (3)
Study of the development and structure of the labor movement, wage determination, and public policy toward labor. Prerequisites: ECON301 and ECON302.

ECON815 Economic Development (3)
Deals with economic development as a progressive division of labor. Includes progressive technological specialization and its effect upon economic development. Prerequisites: ECON410 and ECON420.

ECON841 Macroeconomics for Teachers (3)
Provides in-depth coverage of macroeconomic concepts such as measuring economic performance, public finance, inflation, unemployment, fiscal policy, and monetary policy. Emphasizes various theories on controlling the economy such as Keynesian, Monetarist, supply management, and rational expectations. Prerequisite: Two years teaching experience while holding an ISBE teaching certification.

ECON842 Microeconomics for Teachers (3)
Provides in-depth coverage of microeconomic concepts such as markets and prices, supply and demand, competition and market structure, market failures, and the role of government. Emphasizes methods of teaching these concepts to high school students. Prerequisite: Two years teaching experience while holding an ISBE teaching certification.

ECON843 Developing an Advanced Placement Economics Curriculum (3)
Designed to prepare teachers to teach an advanced placement economics course. Emphasizes strategies for teaching the college principles course at the high school level. Utilizes the Advanced Placement Instructional Package published by the Joint Council on Economics Education. Teachers of older high school economics courses would find this course useful.

ECON870 Independent Study: . . . (3)
Independent study is intended to provide better students an opportunity to study a topic of their choice in economics under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation within economics and an instructor to sponsor the work. Prerequisites: Permission of instructor and dean.
EDUC 320 Educational Psychology: Child Growth and Development (3)
Examines physical growth patterns and cognitive and social-emotional development of children from natural and guided viewpoints. Emphasizes application of this knowledge in planning, implementing, and assessing student activities. Requires fifteen clock-hours of fieldwork.

EDUC 434 Teaching Secondary School Science (3)
Science and science teaching are directly related by their goals and methods. Students examine the nature of science from historical, philosophical, and sociological perspectives, then elect to either develop skills in teaching science by inquiry or go more deeply into the ethics and sociological impact of science. Requires thirty-five hours of clinical experience. Prerequisites: EDUC 310, EDUC 433, PSYC 320, and SPED 510 or permission.

EDUC 440 Educational Psychology: Psychology Applied to Teaching (3)
Examines learning processes and their relationships to task complexity and developmental levels, including those of disabled students. Surveys major views of learning and motivation, including their foundations. Emphasizes applications of this knowledge in classroom settings. Must be taken before or concurrently with student teaching. Prerequisite: EDUC 320 or equivalent by examination.

EDUC 465 Methods of Teaching English (3)
Focuses on the various components of the secondary school English curriculum in which students should develop competencies to meet the full range of responsibilities of the teacher of English. Includes study in the English language, literature, composition, listening, and reading emphases. This course is appropriate for those students who plan to teach English in the secondary school or teach language arts in the elementary school. Prerequisites: twenty-five hours of English, EDUC 310, PSYC 320, and SPED 510.

EDUC 470 Independent Study: . . . (1-6)
Individual reading, research, and/or project in education under the supervision of a faculty member. Deals with content not available in organized courses. Prerequisite: Permission of instructor and division chairperson.

EDUC 499 Student Teaching: . . . (9)
Provides the teacher candidate with directed experiences in planning, organizing, and instructing pupils within a regular classroom of an Illinois public school. A student is supervised by a Governors State University faculty member and a school-based cooperating teacher. Includes twelve weeks of full-time classroom experience. Prerequisite: Admission to Student Teaching; contact coordinator of field experiences.
EDUC520 Developmental Reading in Middle and Secondary Schools (3)
Focuses upon continuation of developmental strategies appropriate for readers in grades six to twelve. Emphasis is upon instruction highlighting skill development in utilization of prior experiences, word knowledge, reading comprehension, reference usage, analysis of literature, and motivation of the adolescent reader. Prerequisites: Open to English majors, elementary education majors admitted to Teacher Education, or graduate students.

EDUC535 Education of Minorities in the U.S. (3)
Examines the history of the schooling of ethnic and racial minority groups in urban America. Focuses on both the public and parochial schools in the acculturation of minority children and adults. Presents ethnic case histories of educational achievement and historical background of issues such as mental testing, desegregation, and tracking.

EDUC540 Educational Psychology: Early Adolescent Psychology Applied to Teaching (3)
Examines middle school level philosophy, structure, and goals, based on the psychology of early adolescence. Analysis of developmentally appropriate curriculum, instruction, and support systems at the middle school level. Current teacher roles examined. Prerequisite: EDUC330 or its equivalent by proficiency examination.

EDUC543 Curriculum and Instruction in the Middle Schools (3)
As the needs of the early adolescent learner are unique, so too must the curriculum and instruction be unique to meet the learners' needs. This course will explore the curriculum and instructional needs and models for the early adolescent learner.

EDUC565 Behavior Problems in the Classroom (3)
Deals with behavior and attitudes in the classroom. Emphasizes diagnosis and change of typical behavior problems experienced by teachers.

EDUC620 Advanced Developmental Reading Instruction (3)
Examines the nature of the reading process and developmental influences on growth in reading. Examines instructional decision-making processes in reading curriculum development, student placement, and classroom practice. Explores the match between student reading needs and instruction and extends teachers' knowledge of best practice. Examines the place of reading instruction in overall literacy development. Prerequisite: Three hours in undergraduate reading methods.

EDUC625 Models and Strategies for Science Education (3)
Explores advanced methods for teaching science at the elementary, junior, and high school level. The learning cycle and other modes to promote critical thinking in science students will be examined. Students will develop teaching materials based on models reviewed during the course.

EDUC630 Issues and Trends in Education (3)
Explores current issues and trends in education. Emphasizes structural, empirical, and decision-making processes in schools. This course is intended to prepare students for writing at the graduate level.

EDUC632 Teaching Mathematics to Low-Achieving Students (3)
Examines the characteristics and needs of low achieving students. Explores content and teaching strategies and emphasizes diagnostic/evaluative procedures. Prerequisite: An undergraduate mathematics education course or EDUC640.

EDUC640 Teaching and Learning Mathematics (3)
Examines methods of teaching mathematical concepts in elementary and junior high schools based on learning theory, historical trends in mathematics education, and current research. Includes the roles of concrete materials, textbooks, and diagnosis in the teaching of mathematics. Prerequisite: An undergraduate mathematics education course.

EDUC650 Topics in Education: ... (1-3)
Experts in the field present selected topics covering new developments in the field of education. Includes discussion of the topics and the implications for theory and practice. Participants have an opportunity to discuss the new developments and, where appropriate, apply techniques and skills. Prerequisites: Vary depending on topic.

EDUC700 Instructional Design (3)
Provides an extensive exploration and analysis of instructional design strategies. Covers such topics as design theories, needs assessment, scope and sequence of course topics, and selection of appropriate instructional materials and evaluation strategies. Prerequisite: EDUC825.

EDUC701 Science of Teaching: Teaching Learning Processes (3)
Examines critical decisions teachers make, provides theoretical perspective to inform this decision making, and provides opportunity to gain experience in identifying and critiquing elements of decision making. Prerequisite: Practicing elementary and secondary teacher.

EDUC703 Science of Teaching: Application of Processes and Principles (3)
Focuses on application of theoretical and practical learning acquired in previous courses in this sequence. Focuses on developing the understanding and skills necessary to analyze teaching behavior with emphasis on predicting and evaluating teaching outcomes. Prerequisite: EDPD702 or EDUC816.

EDUC704 Science of Teaching: Conferencing Skills (3)
Focuses on the application of analytical skills and knowledge acquired in previous courses in this series to conferencing with other teachers regarding their teaching performance. Includes the application of communicative theory to conferencing. Prerequisite: EDUC703.

EDUC705 Science of Teaching: Internship (3)
Provides students an opportunity to identify and develop solutions to problems with the management of curriculum and their personnel instructional skill development within the context of their own teaching situations. Prerequisites: EDUC704 and a GPA of 3.0 or better in all graduate work attempted.
EDUC712 Developmental Issues in Language Arts Instruction (3)
Prepares the major theories and determinants of human development. Traces the course of cognitive and linguistic development. Focuses on instructional decision making in language arts instruction.

EDUC714 Evaluating Learning in the Language Arts (3)
Examines measurement of reading and writing performance and oral language development. Critiques instruments and approaches for measuring cognitive and linguistic growth in language arts contexts.

EDUC716 Developing Writing Models from Children's Literature (3)
Examines structural principles of literature; relates literary theory to the processes of comprehension and composition; develops alternate models for using literature as the center of classroom oral and written composition activities. Prerequisites: ENGL531 or equivalent and EDUC719.

EDUC718 Teacher As Writer (3)
Introduces students to the domain of writing from a personal and professional perspective. Emphasizes teacher as model writer for students in schools. Develops successful written self-expression. Develops the ability to write for publication.

EDUC719 Teaching Writing in the Classroom (3)
Assists classroom teachers in developing a yearlong written composition program for students. Leads students from pre-writing experiences to finished compositions, stories, and reports. Applies current theory and research in writing to classroom processes through which students acquire writing skills.

EDUC726 Aerospace Education (3)
Focuses on materials and equipment available to teachers at all grade levels for integrating space education into science and other school subjects. Materials on space education from NASA, FAA, and private industry will be used in developing classroom lessons. Area resources and materials will be utilized throughout the course.

EDUC732 Issues in Math Curriculum and Instruction (3)
Examines selected issues relating to curriculum, instruction, and learning processes in school mathematics. Issues may include the place of computation in mathematics curriculum, mathematics anxiety, and use of calculators and computers in mathematics instruction. Prerequisite: EDUC640.

EDUC733 Innovation Processes in Education (3)
Develops capabilities for successful application of the principles/strategies that facilitate and improve learning and that introduce, implement, and manage innovation in educational systems.

EDUC739 Teaching Higher Order Thinking Skills (3)
Investigates the relationship between thinking and writing skills; explores teacher behaviors that stimulate higher order thinking skills; and demonstrates classroom activities promoting generation and organization of ideas in oral and written composition assignments.

EDUC742 Health Concerns of Classroom Teachers (3)
Prepares concepts of preventive health and intervention based on ecological principles. Focuses on drugs, reproduction, nutrition, disease, and safety. Requires five to ten hours of fieldwork.

EDUC810 Educational Research (3)
Develops literacy in use of the literature of educational research. Leads to development of research problems and methods to study the problems. Not available for credit to students who have received credit for EDAD729.

EDUC815 Socio-Cultural Factors and Students' Learning (3)
Examines the interaction of sociological and cultural factors as these relate to students’ ability to learn. Examines the implications for school administrators and teachers.

EDUC816 Applied Educational Psychology (3)
Examines behavioral and cognitive views of learning and motivation. Assists in understanding views of learning underlying educational practices. Emphasizes application of knowledge of learning and motivation in educational settings. Prerequisite: three hours of undergraduate educational psychology.

EDUC818 Teaching Mathematical Problem Solving and Critical Thinking (3)
Examines problem-solving processes related to teaching mathematics and science. Presents a variety of techniques for identifying problem situations, developing problem-solving techniques, and determining the reasonableness of results. Emphasizes questioning techniques for developing critical thinking. Prerequisite: EDUC640.

EDUC820 Teaching Problem Solving in Science (3)
Participants will utilize their own science textbooks as a starting point for developing activities. Problem solving techniques and critical thinking skills will be used in developing science/technology/society activities which focus on attaining the state goals. Participants will be required to show a correlation between the model learning objectives, the state goals, and indicate how problem solving and/or critical thinking were used in their products.

EDUC824 Academic Evaluation and Assessment (3)
Introduces the student to the selection and construction of classroom assessment instruments. The student learns how to write test items, how to match test items with learning behaviors and objectives, how to ensure objectivity, reliability, and validity in constructing tests, and how to compute test statistics.

EDUC825 Curriculum Development (3)
Identifies factors and processes considered in curriculum planning, instructional design, and development. Includes the assessment of plans for organization of the curriculum and the theory and application of curriculum principles. Students participate in the curriculum development process both in groups and individually.

EDUC827 Issues in Social Studies Education (3)
Examines developments and trends in teaching social studies. Evaluates controversial issues in social studies. Analyzes global education, problems of democracy, and the place of teaching about the future in social studies.
EDUC830 Science, Technology, and Education (3)
Emphasizes the use of environmental education materials to teach basic ecological concepts. Existing environmental education materials such as "Environmental Education: A Process Approach," OBIS, and "Project Learning Tree" will be used to develop science lessons. Students will learn how to use school grounds and park areas along with environmental education materials.

EDUC831 Strategies for Teaching Geometry (3)
Examines the scope and sequence of geometric content in the elementary and junior high school mathematics curriculum. Explores the strategies and activities for teaching geometry and measurement concepts and their application in the real world. Prerequisite: EDUC640.

EDUC833 Teaching Mathematics to Mathematically Able Students (3)
Examines the identification and teaching of mathematically able students. Explores appropriate teaching techniques, enrichment activities, and programs that meet the special needs of the mathematically able. Prerequisite: EDUC640.

EDUC834 Developing and Supervising Reading Programs (3)
Discusses elements of the total reading program and responsibilities of educational personnel involved in reading instructional delivery. Strengthens strategies for identifying weaknesses in the reading program and for initiating reading improvements. Prerequisite: EDUC860 or permission of instructor.

EDUC835 Integrating Language Arts across the Curriculum (3)
Examines the ways in which students can use writing as a tool for content area learning; reviews research findings underlying an integrated approach to learning; illustrates specific language-across-the-curriculum methods. Prerequisites: EDUC712 and EDUC719 or permission of instructor.

EDUC838 Supervising Language Arts Instruction (3)
Analyzes the characteristics of effective language arts instruction; presents curriculum development strategies for defining and evaluating language arts objectives; defines role expectations and builds competencies for the task of school language arts coordination; provides theory and practice in implementing professional growth experiences for classroom teachers. Prerequisites: EDUC825 and EDUC835 or permission of instructor.

EDUC842 Reading Diagnosis (3)
Identifies factors that inhibit success in reading and analyzes resultant reading difficulties. Strengthens skills in diagnostic procedures in classroom settings. Prerequisite: EDUC6520 or EDUC848.

EDUC845 Quantitative and Qualitative Designs in Educational Research (3)
Provides students with a working knowledge of practical research design skills in qualitative methodologies. Emphasis is on developing a working proficiency in design techniques. Prerequisites: EDUC810 and competency in introductory statistics.

EDUC846 Reading Remediation in the Classroom (3)
Reviews and extends students' skills in the use and critical evaluation of teaching methods and materials for remedying reading difficulties in the classroom. Emphasizes development of teacher-made as well as the use of commercially produced materials. Prerequisite: EDUC842 or SPED619.

EDUC848 Teaching Reading in the Content Areas (3)
Examines text and reader qualities that make content area reading difficult for developing readers. Explores instructional strategies that can facilitate content area learning by reading. Develops procedures for diagnosing readiness for content area instruction and procedures for facilitating learning by reading. Prerequisite: One course in reading.

EDUC852 Advanced Methods of Teaching Social Studies (3)
Focuses on citizens as decision-makers in a democratic society. Evaluates controversial issues in teaching social studies. Analyzes problems of democracy, global education, and societal values in teaching social studies.

EDUC860 Practicum in Reading (3)
Provides a supervised clinical practicum experience in diagnostic and remedial tutorial work for disabled readers in elementary schools. Meets the ISBE requirements for partial fulfillment of the reading specialist qualification. Prerequisite: EDUC846.

EDUC865 Graduate Seminar in Education (3)
Reviews selected current topics in education. Requires the writing of a research paper related to the student's field of study. Prerequisites: Completion of twenty-seven semester-hours of study and admission to candidacy in the M.A. in Education.

EDUC869 Research Project in: (Specialization) (3) PINC
Provides students with opportunities to apply research skills in solving practical educational problems. With faculty supervision in their specializations, students develop researchable problems related to their interests, review related literature, and collect and analyze data to answer the problems. Examples of acceptable projects are action research projects, case studies with individual learners, evaluation studies using defined criteria, and surveys that produce data for the analyses of problems. Prerequisites: Admission to candidacy, at least twenty-seven hours in master's program, and advisor approval.

EDUC870 Independent Study: . . . (1-6)
Individual reading, research, and/or project in education under the supervision of the faculty. Prerequisites: Permission of instructor and division chairperson.

EDUC890 Thesis I in: (Specialization) (3) PINC
Provides students with opportunities to initiate in-depth, supervised research in their areas of interest. Complete proposals and Chapters 1 and 2 (including the review of literature) are required. Prerequisites: EDUC845 or STAT860 or concurrent enrollment, admission to candidacy, at least twenty-seven hours in master's program, and advisor approval. See program options under M.A. in Education for other prerequisites.
EDUC891 Thesis II in: (Specialization) (3) P/NC
Allows students to complete their research initiated in Thesis I. Thesis II culminates with successful oral defense of the research. Prerequisite: EDUC890.

Education - Administration

EDAD601 Curriculum Development and Learning Theories (3)
An analysis of the basic determinants of curriculum; factors influencing design, current trends, and school reforms, including experimental programs and practices. Theories and methods of learning and models of teaching in the classroom will be emphasized as they relate to sociological and cultural factors of all children and minority children from different social and ethnic backgrounds. Special education programs are included. Methods are outlined for evaluating the effectiveness of curricula and programs. Prerequisites: EDAD621; open to educational administration majors only.

EDAD618 The Adult Learner (3)
An examination of demographic changes focusing attention on adults as well as stages and phases of adult life and adult characteristics as a framework for effective planning, programming, and marketing of adult education. Prerequisite: Graduate status.

EDAD621 Foundations of School Administration and Organization (3)
Introduction to the study of educational administration with emphasis upon the nature of the administrative process, administrative theory, and long-range planning and personnel management: overview of structure, governance, policy of public education, and school reforms at the local, state, and federal levels, including legal, business, financial, and the political, social, and cultural contexts of schools. Administration of schools and programs, including multicultural student populations and exceptional children. Prerequisites: Graduate status and twelve hours of professional education.

EDAD713 Human Relations and Leadership (3)
Study of principles of leadership from historical, research, and application perspectives. Focuses on management behavior, leadership relations, group interaction, organizational dynamics, power, change, and diversity. Designed for students of administration, supervisors, administrators, and school service personnel. Prerequisite: EDAD621.

EDAD724 School Supervision (3)
An analysis of the components of supervisory behavior in education and their influence upon the participants in the process of supervision; human and technical skills in personnel management; organizational factors affecting the performance of the supervisor; problematic areas within educational institutions; and their influence on supervisory behavior. Practical aspects of program and personnel evaluation; improvement of school learning climate; and academic achievement will be emphasized as they relate to school reform and to both multicultural and exceptional populations. Prerequisite: EDAD621.

EDAD729 Research in Educational Administration (3)
Develops skills in research design, including problem statements, hypotheses formulation, population/sample selection, data collection, and statistical analysis and interpretation. Historical, descriptive, causal-comparative, correlational, and experimental studies will be developed as they relate to effective schools and administrative research. Not available for credit to students who have received credit for EDUC810. Prerequisite: EDAD621; open to educational administration majors only.

EDAD731 Community Relations (3)
An analysis of the role of educational policy in the modern community, community power structure and resources, the social and political context; and the principles of community relations in the context of social change, including group processes, multicultural and multiethnic understanding, the needs of exceptional students, interagency cooperation, funding, and evaluation. Students are provided opportunities to develop materials for use in their institutions. Prerequisite: EDAD621.

EDAD820 The Community College (3)
Studies the community college as a unique type of educational institution. Surveys the historical development, philosophical bases, control, curriculum, and students in the community college system. Prerequisite: EDAD621.

EDAD822 Elementary and Secondary School Administration (3)
A practical examination of elementary and secondary school with emphasis upon the role of the principal in noncurricular problem solving. Food services, health services, individual personnel problem solving, working with cooperative educational service agencies, conflict management, leading meetings, special education administration, and his/her relationship with personnel: administrative behavior analyzed in terms of tasks and processes that aid in improving educational programs. School climate and quality learning environment and academic excellence, staff development, curriculum development, finance, action research; opportunity to solve problems with simulated material that includes an emphasis on program and personnel evaluation. Social and cultural factors and special education programs will be analyzed. Prerequisite: EDAD621.

EDAD823 Community College Administration (3)
Examines college administration in different areas of college operations. Focuses on policy-setting processes. Prerequisites: EDAD621 and EDAD820.

EDAD832 School Finance (3)
Primary focus on the financing of Illinois public schools. The theoretical background and legal bases of public school finance and the application of those theories to various school finance models. Budget analysis, state aid mechanisms, taxing and auditing processes, and legal foundations in relation to salary, transportation, contracts, liability, and managing facilities will be emphasized. Practicing consultants and school business managers, case studies, and simulated materials will be used to highlight practical applications. Prerequisite: EDAD621.
EDAD833 School Law (3)
Includes an analysis of selected general legal principles, case and statute law, and law-making agencies affecting Illinois public schools, including special education. Key content areas include the legal system; role of federal, state, and local governments; the legislative processes; school governance; policies, rules, and regulations; church and state; civil rights; student and parent rights and responsibilities; teacher rights and responsibilities; collective negotiations, torts, and contracts; and legal research. Content is designed for the practical application of school law. Prerequisites: EDAD621 and EDAD729.

EDAD834 Practicum in Instructional Leadership and School Management I (3) P/NC
The major purpose of the practicum is to provide the student with a supervised experience in the functions and duties associated with instructional leadership and school management. Each student will participate in administrative activities related to instructional leadership one term and school management the other term. Examples of tasks include staff and curriculum development, pupil personnel services, establishing and maintaining effective learning environments, implementation of policy, business, and facilities management, and community relations. Prerequisites: Completion of twenty-one hours of required courses.

EDAD835 Practicum in Instructional Leadership and School Management II (3) P/NC
The major purpose of the practicum is to provide the student with a supervised experience in the functions and duties associated with instructional leadership and school management. Each student will participate in administrative activities related to instructional leadership one term and school management the other term. Examples of tasks include staff and curriculum development, pupil personnel services, establishing and maintaining effective learning environments, implementation of policy, business, and facilities management, and community relations. Prerequisites: Completion of twenty-four hours of required courses.

EDAD836 Administration of School Personnel (3)
Provides a general understanding of personnel functions in education. Decision making and problem solving involving school personnel and supervision will be emphasized. Functions of recruitment, assignment, development, coordination, compensation, appraisal, negotiations, inservice education, motivation, and dismissal are included. Prerequisite: EDAD621.

EDAD838 Collective Negotiations (3)
The development and establishment of collective bargaining with school district groups. Presentation of historical, sociological, and legal perspectives, and current issues in educational collective bargaining, roles of individuals in the bargaining process, and effects in public sector. Participation in simulated collective bargaining exercises to prepare for negotiations, the use of table tactics and strategies, and dealing with impasse resolution and the impact on school budgets. Prerequisite: EDAD621.

EDAD842 The Politics of Education (3)
Examines school systems as politically-influenced entities. Topics include the politics of school governance, strategies of lobbying and negotiation, policy development and implementation, and the use of power, influence, and authority. Focuses on the relationship of these topics to system problems such as diminishing resources and dropping achievement. Students will apply political skills through role-playing and simulation. Prerequisite: Permission of dean of the College of Education.

EDAD845 Practicum in School Business Management (3) P/NC
The major purpose of the field practicum is to provide the student with a supervised experience in the functions and duties associated with school business management and operations. Students will participate in activities related to development and implementation of school business procedures, budget development, transportation, computer operations, and management of non-certificated personnel. Prerequisite: Completion of twenty-four hours of required courses.

EDAD850 Seminar: Educational Policies and Issues (3)
Provides an understanding of educational policies at the state, local, and federal levels. Includes legal and political issues involving state and federal educational programs for bilingual and handicapped students. Prerequisite: EDAD621.

EDAD860 The Dynamics of Maintaining and Improving School Climate (3)
Examines the dynamics of the relationship among school administration, the community, and the teacher's union and provides strategies for affecting productive working relations among these and other involved groups. The superintendent's role as mediator, negotiator, problem solver, and strategist is treated as it relates to influencing the school atmosphere. Prerequisites: Experience as school administrator and permission of dean of the College of Education.

Education - Bilingual-Bicultural

BBED510 Introduction to Bilingual-Bicultural Communication (3)
Introduces students to issues of bilingualism, bidialectism, language development, language attitudes, non-verbal communication in bilingual settings, and language assessment. These issues are directly related to the student's own experience through assessment of the student's linguistic proficiency. Prerequisites: Successful completion of the university writing proficiency exam and the College of Education's reading proficiency exam or permission. Students must have a minimum level of bilingual competency for participation in this course, as determined by the scores on the pretest.
BBED520 Foundations of Bilingual and ESL Education (3)
Present an interdisciplinary overview of the history, philosophy, sociology, culture, psychology, and legislation of the field. Deals with current issues of importance to bilingual-bicultural education. Requires ten clock-hours of field experience. Prerequisites: BBED510 and EDUC310 or permission of instructor.

BBED525 Assessment of Bilingual Students (3)
Studies current trends in testing and the specific role of tests in the bilingual classroom. Examines selection and interpretation of language, achievement, diagnostic, and intellectual assessments for limited English proficient students. Also discusses current trends and issues relevant to assessment of bilingual students. Prerequisite: BBED520 or permission of instructor.

BBED530 Methods and Materials for Teaching in Bilingual Programs (3)
Prepares students to function effectively in a bilingual classroom. Identifies and examines specialized instructional strategies, materials, and evaluation stemming from various theories of teaching and learning. Introduces students to curriculum development, including the development of culturally relevant units and lesson plans. Requires ten clock-hours of field experience. Prerequisites: BBED520 and EDPD370 or permission of instructor.

BBED535 Methods of Teaching Reading and Language Arts to Bilingual-Bicultural Students (3)
Prepares students to teach language arts and reading in Spanish, as well as English as a second language to Spanish speaking, limited English proficient students. Focuses on planning and implementing reading strategies for the following three methods: onomatopoetic, global, and eclectic, and applies the principles of linguistics to the teaching of English pronunciation, structure, and vocabulary to non-native speakers of English. Requires ten clock-hours of fieldwork. Prerequisite: BBED525.

BBED538 Cross-Cultural Education (3)
An overview of the ethnic minority groups in the United States and their impact on the school curriculum. Reviews concepts, methods, techniques, materials, and resources as applied to school settings.

BBED610 Practicum in Bilingual and ESL Education (3)
Provides a supervised field experience in bilingual education for limited English proficiency students. Includes experiences in language proficiency assessment and development of curriculum in reading, teaching English as a second language, and other selected subject areas. Requires ninety clock-hours of fieldwork and fulfills the clinical experience requirements of the state for approval in transitional bilingual education. Prerequisites: BBED525 and ENGL508 or permission.

BBED740 Psychological Implications of Bilingual-Bicultural Education (3)
Identifies factors, problems, materials, and instructional strategies appropriate to the education of bilingual-bicultural children.

BBED793 Spanish Language Arts Instruction (2,3)
Develops Spanish language skills of listening, speaking, reading, and writing for Spanish-speaking children. Students diagnose and remediate language interference in the first and second language.

BBED797 Reading Strategies in the Bilingual and ESL Classroom (3)
Develops and enhances knowledge and skills associated with instruction of reading in the bilingual classroom. Students will plan and implement reading strategies. Requires five to ten clock-hours of fieldwork.

Education - Computer Education

EDCP500 Introduction to Microcomputers in Education (3)
Examines the impact and use of microcomputers in today's educational system, particularly as they apply to the introduction, use, and evaluation of the microcomputer as an instructional and managerial aid. Students discuss and apply strategies for assessing needs and the selection of hardware and software at an introductory level.

EDCP610 Evaluating Software for Instruction (3)
Enhances the student's ability to select and use microcomputer software and hardware. Activities center around the development of selection criteria for software. Students experience a hands-on approach to judging and selecting microcomputer software to meet educational objectives and needs. Prerequisite: EDCP500 or permission of the instructor.

EDCP620 Programming in QBASIC and Visual BASIC (3)
Provides a fundamental level of working knowledge of computers and computer programming. Presents a general introduction to computing concepts, operations, and programming. Requires completion of a project on a topic acceptable to the instructor. Prerequisite: EDCP300 or permission of the instructor.

EDCP630 Programming in Pascal (3)
Introductory study of the Pascal programming language. Focuses on top-down, structured programming techniques. Topics include control statements, data type control structures, arrays and subscripts, records and sets, nested structures, and recursion. Requires completion of a project. Prerequisite: MATH320 or MATH 325 or CPSC305.

EDCP640 Programming in C++ (3)
The purpose of this course is to introduce the C++ programming language, including its syntax, control structures, functions, data structures, and the use of pointers. Students will use the Turbo C/C++ compiler to write, run, and debug programs on IBM PC compatible computers. Emphasis will be placed on clarity and correctness of the resulting programs. Requires a substantial commitment of time for the completion of programming assignments. Prerequisites: College algebra and either CPSC340 or CPSC342.
Developing instruction by combining media into interactive course. Presentations utilizing both hardware and software students to these forms of media and provides experience in animation, and sound on a given topic. This course exposes capabilities for the use of multimedia in instruction have described a variety of hardware and software used alone or in combination to provide text, still images, digitized animation, and sound on a given topic. This course exposes students to these forms of media and provides experience in developing instruction by combining media into interactive presentations utilizing both hardware and software resources. Prerequisite: EDCP610 and one programming course.

EDCP820 Telecommunications in Education (3)
This course is an exploration of the use of computers for communicating with other learners across the world. It also explores the use of telecommunications in the teaching and learning process. With knowledge doubling every five to seven years, it makes sense to examine ways to learn and find information rather than memorize a set of finite facts. This course focuses on the potential for learning outside the walls of the school building. Prerequisite: EDCP500 or prior computer experience.

EDCP850 Integrating Microcomputer-Based Education (3)
Provides students with a synthesis of computer education issues. Topics include uses and abuses of microcomputers, future roles of microcomputers, educational staffing and training issues, hardware and software costs analyses, promoting computer literacy, and other related issues. Prerequisite: EDCP610.

EDCP850 Practicum in Microcomputer Education (3)
Provides supervised practicum experience in microcomputer education and instruction. Students work with learners in either a classroom, laboratory, or computer camp setting, assisting the learners in developing proficiency in either the use of microcomputers or skill development in a subject area through the use of a microcomputer. Prerequisite: EDCP850.

Education - Early Childhood

EDEC310 Growth and Development of Young Children (3)
Surveys theories and research about children's growth and development from birth through eight years of age. Includes attention to cultural diversity as related to child rearing patterns and development. Causes and characteristics of developmental anomalies are reviewed. Requires 15 hours of field work.

EDEC322 Speech and Language Development (3)
Focuses on the communication and language development of young children, developmentally appropriate practices for facilitating young children's construction of language, creating quality language-learning environments, and the relationship between language and literacy. Prerequisite: EDEC310.

EDEC325 Preprimary Curriculum Development (3)
Introduces techniques for individualizing instruction in specified content areas for infants, toddlers, and preschoolers. Introduces curriculum development and content related to language and emergent literacy, manipulates, sensorial materials, blocks, dramatic play, the arts, movement, math, science, and social studies. Examines approaches to working with culturally diverse children, the selection and use of appropriate assessment procedures, and inclusion of special needs children. Prerequisites: SPED510, EDEC310, EDEC322, or equivalent in speech and language development. Corequisite: EDEC326 Lab A.
EDEC326 Early Childhood Education Laboratory A (1) P/NCR
Provides field experience in infant/toddler and preschool settings. Provides opportunities for students to make, implement, and evaluate decisions under supervision in teaching subject areas associated with EDEC325. Requires thirty clock-hours of supervised fieldwork. Prerequisites: SPED510 or equivalent, EDEC310, EDEC322, or equivalent in speech and language development. Corequisite: EDEC325.

EDEC330 Early Childhood Education Laboratory 1 (1) P/NCR
Provides opportunities for students to make, implement, and evaluate decisions under supervision in teaching reading, writing, and language arts. Requires teaching small groups of primary grade students. Requires 30 clock-hours of supervised fieldwork. Prerequisites: Admission to Teacher Education, SPED510, or equivalent, EDEC310, EDEC322, or equivalent in speech and language development. Corequisite: EDEC340.

EDEC340 Methods of Teaching Primary Reading, Writing, and Language Arts (5)
Introduces preservice teachers to content, methods, and materials for teaching reading and language arts at the primary level. Includes approaches for working with culturally diverse children and special needs children. Prerequisites: SPED510 or equivalent, EDEC310, EDEC322, or equivalent in speech and language development. Corequisite: EDEC330 Lab 1.

EDEC410 Foundations of Early Childhood Education (2)
Investigates historical and philosophical bases for early childhood education. Examines contemporary models, examines the impact of current issues on educational decision-making, and explores options in early childhood education for the future.

EDEC415 Child and Family in the Community (3)
Overview of the cultural differences, child-rearing practices, communication patterns, experiences of families, and the life stresses that affect young children and their views of self and others in family, school, and community. Explores ways in which the schools can provide services to families and identifies support networks in the community. Prerequisite: EDEC310.

EDEC430 Early Childhood Education Lab 2 (1) P/NCR
Provides opportunities for students to make, implement, and evaluate decisions under supervision in teaching math, science, social studies, and computer use. Requires 30 clock-hours of field experience. Prerequisites: SPED510, EDEC 310, MATH 320, MATH 322. Corequisite: EDEC440.

EDEC440 Methods of Teaching Math, Science, Social Studies, and Computer Use at the Primary Level (5)
Introduces prospective teachers to content, methods and materials for teaching primary math, science, and social studies. Includes student acquisition of computer skills in accessing the information Web and selecting skill and knowledge building programs suitable for the primary grades. Prerequisite: Admission to Teacher Education, SPED510, EDEC310, MATH320, MATH322. Corequisite: EDEC430, Lab 2.

EDEC499 Student Teaching in Early Childhood Education (12)
Provides the teacher candidate with directed experiences in planning, organizing, and instructing children within a primary classroom and within a preschool classroom in public schools. A student is supervised in both placements by a Governors State University faculty member and a school-based cooperating teacher. Includes 15 weeks of full-time classroom experience. Prerequisites: Meeting division and collegial requirements for student teaching eligibility, verification of passing Illinois or U.S. Constitution examination, or equivalent courses. Contact coordinator of field experiences.

EDEC510 Integrating Instruction in Early Childhood Education (3)
Prepares teachers to create holistic learning environments for children through planning the physical and social/emotional classroom environment. Includes exploration of techniques in establishing interest centers, attention to children’s peer relationships and need for community, appropriate scheduling of classroom activity, and opportunity for children to work on extended projects that include a variety of subject matter domains. Examines program models that have contributed to early childhood education. Primary emphasis on preschool and kindergarten children. Includes attention to culturally diverse populations and special needs children. Prerequisites: EDEC310, EDEC 326, and EDEC325.

EDEC520 Beginning Writing and Reading Instruction (3)
Introduces preservice teachers to content, methodology, and materials for teaching reading and language arts at the preschool and kindergarten through third grade levels. Explores options for making instructional decisions. Prerequisites: A course or LAS420. Prerequisite: LAS 420.

EDEC540 Methods of Teaching in the Arts (2)
Introduces music and art methods and related disciplines such as dance, movement, and drama for the preschool and primary levels. Includes attention to culturally diverse populations and special needs children. Prerequisites: EDEC310 and EDEC325; a general education art/music course or LAS420.

EDEC605 The Child in Family and Community (3)
Focuses on the child’s experience in families and communities, including cultural differences, child-rearing practices, communication patterns, and life stress as it affects the young child and his or her view of self and others. Explores current literature to assess ways in which schools can be responsive to the needs of families and communities. Identifies support networks in the community. Requires ten clock-hours of fieldwork. Prerequisites: EDUC310 and EDEC305.
EDEC610 Preprimary Curriculum Development in Early Childhood Education (3)
Analyze techniques for individualizing instruction in specified content areas for infants, toddlers, and preschoolers. Analyzes and evaluates curriculum development and content related to language and emergent literacy, manipulatives, sensorial materials, blocks, dramatic play, the arts, movement, math, science, and social studies. Critiques approaches to working with culturally diverse children and the inclusion of special needs children. Prerequisites: SPED510, EDEC805, EDEC640. Corequisite: EDEC840.

EDEC615 Methods of Teaching Primary Reading, Writing, and Language Arts (5)
Introduces prospective teachers to content, methods, and materials for teaching reading, writing, and language arts at the primary level. Includes approaches for working with culturally diverse children and special needs children. Prerequisites: SPED510 or equivalent, EDEC805, EDEC640, or equivalent in speech and language development. Corequisite: EDEC850.

EDEC620 Methods of Teaching Primary Science, Math, Social Studies, and Computer Use (5)
Introduces prospective teachers to content, methods, and materials for teaching, analyzing, and evaluating science, math, social studies, and computer use with primary aged children (kindergarten through third grade) within a community school context. Prerequisites: EDEC805, EDEC725, SPED510. Corequisite: EDEC855.

EDEC625 Integrating Instruction in Early Childhood Education (3)
Prepares teachers to create holistic learning environments for children through planning the physical and socio/emotional classroom environment. Includes exploration, analysis, and evaluation of techniques in establishing interest centers, attention to children's peer relationships and need for community, appropriate scheduling of classroom activity, and opportunity for children to work on extended projects that include a variety of subject matter domains. Examines program models that have contributed to early childhood education. Primary emphasis on preschool and kindergarten children. Includes attention to culturally diverse populations and special needs children. Prerequisites: EDEC805 and EDEC610.

EDEC640 Psycholinguistics (3)
Presents theories and research in the field of psycholinguistics, focusing on language development models and the reciprocal relationship between language and cognitive development. Prerequisite: EDEC805.

EDEC650 Methods of Teaching in the Arts (2)
Introduces and evaluates music and art methods and related disciplines such as dance, movement, and drama for the preschool and primary levels. Includes attention to culturally diverse populations and special needs children. Prerequisite: EDEC 805.

EDEC725 History and Philosophy of Early Childhood Education (3)
Investigates the status of young children in history, focusing on the development of early childhood education in western Europe. Traces various influences on the development of early childhood educational practices in America and explores emerging cross-cultural exchanges between Eastern and Western early childhood educators.

EDEC738 Health and Nutrition for the Young Child (3)
Reviews the relevant literature and research on the effects of nutritional factors on physical and cognitive development. Examines educational implications.

EDEC740 Seminar on Children and Families at Risk (3)
Explores the role of "high risk" social, cognitive, and physical environments on families and children. Implications for practice are examined. Prerequisite: EDEC805.

EDEC750 Interdisciplinary Team Process (3)
Introduces students to the leadership, team building, and social skills required for effective communication with families, children, colleagues, administration, and other agencies. Emphasizes strategies for building effective relationships and systems that operate and serve children and families holistically, respectfully, and intelligently. Strategies to promote interdisciplinary collaboration are incorporated. Prerequisite: EDEC805.

EDEC760 Infant and Toddler Growth and Development, Normal and Atypical (3)
Introduces students to in-depth knowledge of infant development, including the developmental patterns of infants at risk. Includes an understanding of the developmental processes of cognitive, social, emotional, communication, and motor development across and within cultural contexts.

EDEC770 Infant and Toddler Observation and Assessment (3)
Takes a developmental and contextual approach to observation of infants and toddlers. Students are trained to focus on underlying developmental processes, rather than on the appearance of individual milestones in cognitive, language, motor, social, and emotional development.

EDEC780 Preventive Strategies and Intervention Methods (3)
Focuses on the design and implementation of family-centered services, including prenatal intervention. Students develop skill in naturalistic interventions to support infant development which fits into ongoing family patterns and builds on those already existing strengths in the family and infant.

EDEC790 Infant and Toddler Internship and Seminar (3)
Supervised participation in a setting serving infants and their families. Includes a weekly seminar exploring methods for relating to and intervening successfully with infants and their families.
EDEC805 Advanced Early Childhood Development (3)
Emphasizes important theories and research in infancy and early childhood development. Covers both the classical papers that have strongly influenced the field and recently published works that reflect the current state of knowledge of cognitive, social, and emotional development. Focuses on development of the normal child, but linkage to special educational areas is provided. Prerequisite: Undergraduate course in child development.

EDEC818 Early Childhood Assessment (3)
Studies the history and issues of early childhood assessment. Provides experiences in selecting, administering, and interpreting various assessment techniques and materials. Prerequisite: EDEC805.

EDEC830 Practicum in Early Childhood Education: Infant/Toddler Level (1) P/N/C
Under supervision, provides students with experience in observing and assessing the development of infants and toddlers, assist in developing and maintaining an appropriate educational environment, planning appropriate learning experiences for the very young child, and delivering teaching episodes. Requires 30 clock-hours of field experience. Prerequisites: EDEC805, EQUI510 or equivalent, EDEC310, EQUI322 or equivalent. Corequisite: EDEC605. Open only to students in M.A. program in Early Childhood Education.

EDEC840 Practicum in Early Childhood Education: Preschool Level (1) P/N/C
Under supervision, students gain experience in observing and assessing the development of preschool-aged children, assist in developing and maintaining an appropriate educational environment, and create and deliver teaching episodes. Requires 30 clock-hours of field experience. Prerequisite: EDEC805, EDEC725, EQUI510. Corequisite: EDEC610. Open only to students in M.A. program in Early Childhood Education.

EDEC850 Practicum in Early Childhood Education: Primary Level (1) P/N/C
Under supervision, students gain experiences in observing and assessing the development of children, assist in developing and maintaining an appropriate educational environment, and create and deliver teaching episodes in reading, writing, and the language arts. Requires 30 hours of field experience. Prerequisite: EDEC805, EDEC725, EQUI510. Corequisite: EDEC615.

EDEC885 Practicum in Early Childhood Education: Primary Level (1) P/N/C
Under supervision, students gain experience in observing and assessing the development of children in the primary grades, assist in developing and maintaining an appropriate educational environment, and create and deliver teaching episodes in math, science, social studies, and computer use. Requires thirty clock-hours of field experience. Prerequisites: EDEC805, EDEC725, EQUI510. Corequisite: EDEC620.

Education - Elementary Education

ELED301 Teaching Laboratory I (1) P/N/C
Provides opportunities for students to make, implement, and evaluate decisions under supervision in teaching reading and language arts. Requires teaching small groups of elementary students. Requires thirty clock-hours of fieldwork. Prerequisites: Admission to Teacher Education and EDUC321. Corequisites: ELED302 and ELED303.

ELED302 Teaching Language Arts in Elementary Schools (3)
Introduces prospective teachers to content, methodology, and materials for elementary school language arts. Explores options for making instructional decisions. Prerequisites: Admission to Teacher Education, EDUC320, EDUC321, and ENGL501. Corequisites: ELED301 and ELED303.

ELED303 Developmental Reading in Elementary Schools (3)
Introduces prospective teachers to content, methodology, and materials for elementary school reading. Explores options for making instructional decisions. Prerequisites: Admission to Teacher Education, EDUC320, and EDUC321. Corequisites: ELED301 and ELED302.

ELED401 Teaching Laboratory II (1) P/N/C
Provides opportunities for students to make, implement, and evaluate decisions under supervision in teaching mathematics, science, and social studies. Requires teaching small groups of elementary students. Requires thirty clock-hours of fieldwork. Prerequisites: Admission to Teacher Education, EDUC321, and ELED301. Corequisites: ELED460 and ELED466 and either ELED463 or ELED464.

ELED450 Corrective Reading Instruction (2)
Introduces prospective teachers to content, methods, and materials for corrective reading instruction. Explores options for making instructional decisions for students who are experiencing minor reading problems. Must be taken before or concurrently with student teaching. Prerequisites: Admission to Teacher Education and ELED303.

ELED460 Teaching Science in Elementary Schools (3)
Introduces prospective teachers to content, methods, and materials for elementary school science. Explores options for making instructional decisions. Prerequisites: Admission to Teacher Education, EDUC321, and courses in biological and physical sciences to total twelve hours. Corequisites: ELED463 and ELED466.

ELED463 Teaching Mathematics in Elementary Schools (3)
Introduces prospective teachers to content, methods, and materials for elementary school mathematics. Explores options for making instructional decisions. Prerequisites: Admission to Teacher Education, EDUC321, MATH320, and MATH322. Corequisites: ELED401, ELED460, and ELED466.
EDPD464 Teaching Mathematics in the Intermediate and Middle Grades (3)
Introduces prospective teachers to content, methods, and materials for upper-elementary and junior high school mathematics. Explores options for making instructional decisions. Prerequisites: MATH320, MATH322, and twelve hours of college level mathematics.

EDPD466 Teaching Social Studies in Elementary Schools (2)
Introduces prospective teachers to content, methods, and materials for elementary school social studies. Explores options for making instructional decisions. Prerequisites: Admission to Teacher Education, EDUC321, U.S. government, and American history. Corequisites: ELED401, ELED460, and ELED466.

Education - Professional Development

Credits earned in the following EDPD courses cannot be applied toward degree requirements of the M.A. in Education.

EDPD370 Methods of Teaching (3)
Provides the student with linkage between theory, philosophy, and methodology. Introduces the prospective teacher to the foundations of methodology and to the myriad decisions that teachers have to make. Apprises students of a variety of approaches to lesson planning and unit planning, with special emphasis on the needs of culturally diverse students. Includes ten clock-hours of field experience.

EDPD380 Methods of Teaching Language Arts (3)
Introduces the prospective teacher to programs of language arts instruction at the elementary level, including methods, materials, goals, and management strategies for teaching oral and written communication, spelling, composition, and handwriting. Prerequisites: Satisfactory completion of university requirements for writing, PSYC320, EDUC310, EDPD370, and either ENGL501 or ENGL531; or concurrent enrollment in a general methods course.

EDPD424 Methods of Teaching Elementary Math (3)
Introduces prospective teachers to the content, methodology, and instructional materials for elementary school mathematics programs. Emphasizes application of knowledge from learning theory, diagnostic/prescriptive teaching, and individual differences in selecting, organizing, and presenting mathematical content for elementary school children. Prerequisites: EDUC310, PSYC320, EDPD370, and MATH322.

EDPD426 Methods of Teaching Reading (3)
Surveys the various phases of reading in their relation to a modern program of education and the place of reading in the curriculum. Emphasizes modern practices in the classroom teaching of reading. Prerequisites: EDUC310, PSYC320, and EDPD370; or concurrent enrollment in a general methods class.

EDPD511 Sharing Nature with Children (1)
Develops awareness, understanding, and appreciation of nature while acquainting teachers and youth leaders with outdoor activities that can be used with groups. Through active participation in an extended outdoor education/recreation experience, teachers and youth leaders become familiar with a wide variety of activities.

EDPD610 Writing across the Curriculum (1)
Examines the many ways in which students can use writing as a tool for content area learning. Participants in the class will develop activities that allow students to write down observations, notes, and questions to write up field trips, class projects, and events, and to write out directions, explanations, and problems. Explores cross-disciplinary themes as a vehicle for integrating various content areas. Prerequisite: At least one undergraduate or graduate class in language arts.

EDPD621 Seasonal Science Methods: Autumn (1) P/N/C
Examines the structures and patterns found in the natural world during autumn. Includes using dichotomous keys for plant and insect identification, astronomy of the fall skies, examination of a restored prairie, migratory bird identification, and mapping skills. Techniques for monitoring a natural site will be presented. Offers classroom activities in mathematics, literature, and related arts. A weekend field study course designed for elementary teachers.

EDPD622 Seasonal Science Methods: Spring (1) P/N/C
An outdoor education workshop providing the background information and activities for exploring the emergence aspects of the spring season. Weather, astronomy, pond water, plant identification, animal studies, and literature related to spring will be covered. A weekend field study course designed for elementary teachers.

EDPD623 Seasonal Science Methods: Summer (1) P/N/C
An outdoor education workshop providing background information and activities for exploring the emergence aspects of the summer season. Weather, astronomy, pond water, plant identification, animal studies, and literature related to summer will be covered. A weekend field study course designed for elementary teachers.

EDPD624 Seasonal Science Methods: Winter (1) P/N/C
An outdoor education workshop exploring the unique opportunities for wonder, delight, and mystery allowed only by winter. Activities in tracking, winter literature, energy implications, astronomy, snow, ice, and tree and twig identification will be presented. A weekend field study course designed for elementary teachers.

EDPD630 Environmental Education Methods: Forest Ecology (2)
This is a field course offered at the Forest Preserve District of Will County's Environmental Learning Center in Mokena. Utilizing an 1,800-acre forest preserve as an outdoor laboratory, this course emphasizes first-hand observations and direct experiences. The course is designed to give educators, both formal and informal, the knowledge and confidence for conducting educationally related investigations in a forest environment. Prerequisite: Designed as in-service for practicing teachers, environmental educators, and environmental volunteers.
EDPD650 Topics in Professional Development: . . . (1-3)
Provides a series of skill- or competency-based training sessions directly related to improving the actual delivery, management, or reporting of classroom learning experiences for children and adolescents. Prerequisites: Vary according to topic.

EDPD702 Science of Teaching: Teaching Learning Principles (3)
Focuses on the instructional process. Presents the concepts of motivation, reinforcement, and learning theory and the application of these concepts in classroom teaching. Prerequisite: EDUC701 or concurrent enrollment.

**Education - Special Education**

SPED510 Survey of Students with Exceptionalities (3)
Offered in both lecture and televised formats. Introduces study of various exceptionalities, including learning disabilities and their impact on classroom learning. Focuses on methods for mainstreaming children with exceptionalities and considers legal requirements, policies, and directions in special education. Requires fifteen clock-hours of fieldwork.

SPED600 Identification and Characteristics of Students Who Are Gifted (3)
Identifies the most common characteristics of students who are gifted and talented. Analyzes the reliability and validity of various techniques used in gifted student identification. Presents an overview of fundamental gifted teaching philosophies. Proposes problems encountered in gifted programs, as well as possible solutions. Stresses the need and importance of gifted programs in the current educational system. Requires ten clock-hours of fieldwork.

SPED610 Survey of Teaching-Learning Models for Gifted Education (3)
Presents teaching-learning models that are used in the development of a program for the gifted. Discusses the role of critical enrichment education programs. Evaluates the appropriate use and proper application of various program models. Requires ten clock-hours of fieldwork.

SPED619 Psychological Diagnosis of Learners with Exceptionalities (3)
Examines basic assumptions, assessment procedures, techniques, and instruments in the evaluation of individuals with special needs. Emphasizes prescriptive ability, assessment, and potential level of functioning. Requires twenty clock-hours of fieldwork. Prerequisite: SPED510.

SPED621 Developing Programs in Schools for Students Who Are Gifted (3)
Proposes the concept of curriculum differentiation for those who are gifted. Outlines a program initiation framework. Provides a step-by-step procedure for planning and implementing gifted programming. Requires ten clock-hours of fieldwork. Prerequisites: SPED600 and SPED610.

SPED650 Topics in Special Education: . . . (1-3)
Involves experts in special education addressing selected topics of current concern in the field. Discusses implications both for theory and practice. Participants have an opportunity to discuss the topics and, where appropriate, apply techniques and skills.

SPED805 Administration and Supervision of Special Education (3)
Provides an overview of the functions, responsibilities, and problems in the organization, administration, and supervision of special education programs at the federal, state, and local levels. Emphasizes current rules and regulations. Prerequisites: Open to Multicategorical Special Education, Educational Administration, Psychology, and Speech majors only.

SPED820 Learning Characteristics of LD, MI, and S/ED Students (3)
Investigates the cognitive and psychomotor abilities of students who are identified with learning disabilities, mental impairments, or social/emotional disorders. Requires thirty clock-hours of fieldwork. Prerequisites: SPED510; open to Multicategorical Special Education majors only.

SPED831 Behavioral Characteristics of LD, MI, and S/ED (3)
Examines the social-affective development across the continuum of behaviors of learning disabilities, mental impairments, or social/emotional disorders. Investigates theoretical approaches utilized in identification of exceptionalities. Requires twenty clock-hours of fieldwork. Prerequisites: SPED820 or concurrent enrollment; open to Multicategorical Special Education majors only.

SPED835 Methods for Teaching LD, EMI, and S/ED (3)
Investigates advanced methods and teaching techniques for use with learning disabilities, educable mental impairments, and social/emotional disorders. Examines strategies for curriculum development and writing IEPs. Requires twenty clock-hours of fieldwork. Prerequisites: SPED619 and SPED831; open to Multicategorical Special Education majors only.

SPED840 Special Education Practicum I (1)
Provides professional experience in designing, implementing, and evaluating instructional intervention. Requires preparation of a case study, an IEP, and thirty clock-hours of fieldwork. Prerequisites: SPED820, SPED831, and completion or concurrent enrollment in SPED619 and SPED835; open to Multicategorical Special Education majors only.

SPED850 Practicum II (1)
Provides advanced professional experience in designing and implementing instructional and behavioral intervention for exceptional children in multicategorical special education settings. Requires thirty clock-hours of fieldwork. Prerequisites: SPED820, SPED831, and completion or concurrent enrollment in SPED619 and SPED835; open to Multicategorical Special Education majors only.
SPED860 Collaboration Skills for Teachers and Support Personnel (3)
Provides teachers and other school personnel with collaborative models to enhance student and classroom performance. Presents a systematic, collaborative problem-solving approach for creating alternative instructional strategies. Focuses on observation, instructional and data collection techniques, parent collaboration, intervention development, program evaluation, and accountability. Requires fifteen clock-hours of field experience. Prerequisite: SPED510.

SPED863 Special Education Practicum III (1)
Provides advanced professional experience in discipline and behavior management with an emphasis on educating adolescents with exceptionalities in secondary programs. Requires participation in the implementation of behavioral management activities and thirty clock-hours of fieldwork. Prerequisites: SPED840 and SPED850; open to Multicategorical Special Education majors only.

SPED865 Graduate Seminar in Multicategorical Special Education (4) P/NC
Examines current trends and issues in multicategorical special education. Explores contemporary philosophies of educating mildly disabled students, instructional alternatives, and service delivery programs. Serves as culminating project for the graduate Education degree in MCSE. Prerequisites: SPED835 and EDUC810; completion of at least thirty credit-hours in the Multicategorical Special Education major.

English

ENGL301 Composition: Structure and Style (3)
Covers the structure of standard English, from the basics of punctuation to sophisticated questions of usage and style. This course is designed to reinforce the students' command of the English language and their ability to write for other, content-specific courses and in the workplace. Prerequisites: two lower-division English composition courses.

ENGL310 Writing Principles (3)
Offered as a correspondence course only. Emphasizes principles, techniques, form, and style in writing.

ENGL311 English Literature I (3)
Surveys a selection of literary masterpieces from Anglo-Saxon origins through the Middle Ages and the English Renaissance to the Restoration and eighteenth century.

ENGL312 English Literature II (3)
Surveys a selection of literary masterpieces in English literature from the Romantic period through the Victorian and Modern periods to the present. Prerequisites: ENGL311 or equivalent.

ENGL321 American Literature I (3)
Focuses on the major writers, works, and related background in American literature before 1865.

ENGL322 American Literature II (3)
Focuses on the major writers, works, and related background in American literature, 1865 -1945. Prerequisite: ENGL321 or equivalent.

ENGL330 Studies in Literature (3)
Brings literature into the life of the educated citizen. Students will study consequential works of English, American, and world literature as a prologue to a lifetime of reading.

ENGL384 Interdisciplinary Composition Workshop (3)
This course addresses the requirements of writing in the various disciplines. Conventions of writing in the humanities, business, social sciences, and sciences will be examined. Particular attention will be given to developing the types of arguments pertinent to the various fields and presentation of those arguments in the accepted form for the discipline, in written and oral form. Prerequisites: None, but ENGL301 is strongly suggested.

ENGL400 Advanced Composition (3)
Advanced Composition is a course in critical reading, critical thinking, research, and writing. Tackling this enterprise by a combination of four approaches, we will 1) study composition techniques, rhetorical principles, and questions of usage; 2) analyze samples of professional writing; 3) practice writing and rewriting to acquire a habit of literate expression; and 4) share our own work and respond helpfully to the work of others. Prerequisite: ENGL301 or permission of the instructor.

ENGL410 Studies in Rhetoric (3)
Emphasizes a singular aspect of rhetoric: classical rhetoric; the relationship of composition theory and literature; and research in rhetoric, composition, and computing. Focuses also on the student's ability to write analytically about the readings.

ENGL420 Modern American Poetry: Voices and Visions (3)
Offered in televised format only. An introductory literature course emphasizing relationships of the poets, their influence on each other and on those who followed them, and their place in American literature. Compares and contrasts the American vernacular voice with modern European idiom, the democratic image of society with the poet as a privileged visionary, and the poetry of social conscience with a poetry of metaphysical rumination.

ENGL421 Writing Poetry (3)
Integrated poetry study with directed practice in the writing of poetry. Special attention is paid to the types and structures available to the poetry writer. Prerequisites: ENGL301, ENGL420, or equivalent.

ENGL470 Independent Study: . . . (1-4)
Individual reading, research, and/or project in English under the supervision of the faculty. Prerequisite: Permission.
ENGL501 Introduction to Linguistics (3)
Provides a comprehensive introduction to the ways in which linguistics describe language, focusing especially on English. Explores all levels of linguistic structure from sound (phonetics and phonology) to meaning and use (semantics and pragmatics). Examines major issues and subdisciplines in the systematic study of language, including dialects, prescriptivism, and language abuse, style, historical change, usage and definitions of standards, and the differences between speech and writing. Prerequisite: ENGL301 or equivalent.

ENGL505 Modern English Grammar (3)
This course is designed to introduce students to modern English grammar. It will treat grammar as a theoretical discovery procedure for learning about language relationships and how people use language to make meaning. Usage will be a topic for regular discussion. Because most students enrolled in the course are considering a career in education, the course also will address the role of grammar in the classroom.

ENGL508 Teaching English As a Second Language (3)
Application of linguistic principles and various methods of language instruction to the teaching of English language skills to individuals learning English as a second language. Emphasizes techniques for effective utilization of first language skills in second language learning. Curricula and materials will be examined.

ENGL509 Interdisciplinary Composition Practicum (3)
Students in this course will have taken ENGL384, interdisciplinary Composition, and will have a good understanding of the conventions of writing for the various disciplines. In ENGL509, the student will focus on his or her chosen field and work closely with a mentor currently working within that discipline. Written work will therefore be the practical result of research and work within the student's discipline. Prerequisites: ENGL384 and permission of instructor.

ENGL510 Major English Authors: . . . (3)
Concentrated study of selected authors. Students may take course for credit more than once, because the authors selected change from year to year. Prerequisite: Literature survey course.

ENGL511 African Novel (3)
A critical analysis of the literature written by selected major African writers. Prerequisite: Literature survey course or equivalent.

ENGL512 Black Literature I: 1760-1900 (3)
Offered as a correspondence course only. Generally surveys black prose from colonial period to 1900. Covers a wide variety of works from several genres, with a major emphasis on prose embracing the slave narratives and early black fiction. Prerequisite: Literature survey course or equivalent. This course does not substitute for ENGL 515 Major Black Authors.

ENGL513 Black Literature II: 1900-1941 (3)
Provides a model for approaching black literature from a variety of literary and sociocultural perspectives, with a special emphasis on the Harlem renaissance and major authors, including Paul Laurence Dunbar, Charles Chesnutt, and James Weldon Johnson. Prerequisite: A literature survey course.

ENGL514 Black Literature III: 1941-Present (3)
Continuation of Black Literature II. Embraces all genres and extends chronologically from World War II to the present. The main focus is on authors such as Wright, Baldwin, Ellison, Margaret Walker, Alice Walker, and Toni Morrison, as well as African-American writers of the Civil Rights Movement. Prerequisite: Literature survey course or equivalent. This course does not substitute for ENGL 515 Major Black Authors.

ENGL515 Major Black Authors: . . . (3)
Individual black writers will be studied in-depth. Students may register in this course for credit more than once as the authors studied vary from year to year. Prerequisite: American literature survey course or equivalent.

ENGL520 Major American Authors: . . . (3)
Individual American writers will be studied in-depth. Students may take course for credit more than once, as the authors studied vary from year to year. Prerequisite: American literature survey courses or equivalent.

ENGL521 Comparative Latin American Literature (3)
Studies the Latin American novel. Covers major writers of different Latin American countries and the poetry of protest and revolution in the 20th century. Prerequisite: Literature survey courses or equivalent.

ENGL524 Contemporary American Literature (3)
Focuses on the major writers, works, and related background in American literature after 1945. Prerequisites: ENGL321 and ENGL322 or equivalent.

ENGL525 Advanced Writing II: Interdisciplinary Writing Workshop (3)
An advanced writing course for students who want further work in editing their own writing and improving its style. Will treat issues of style and revision in a workshop environment. Open to students in all disciplines. Prerequisite: ENGL301 or equivalent.

ENGL526 Technical Writing I (3)
Study, discussion, and writing of technical descriptions and processes, business communications and correspondence, formal and informal proposals, and reports. Prerequisites: ENGL301 or permission of instructor.

ENGL527 A, B, C, D Technical Writing II: Computer Sciences; Technical Writing II: Health Industry; Technical Writing II: Business Applications; Technical Writing II: Sciences (3)
ENGL527 (A-D) is designed as a continuation of ENGL526. Students will apply the basics learned in that introductory course to the specific applications necessary for given general fields. Prerequisites: Technical Writing I. Other courses as listed by the instructor.
ENGL528 Advanced Technical Writing (3)
Students will apply what they have learned in the introductory course and the field-focused course. The class will be made up of students who have chosen differing pathways. In helping each other during this course, students will have an opportunity to refine their own skills and learn from their peers in other fields. Prerequisite: Technical Writing II or permission of the instructor.

ENGL531 Literature for Children and Adolescents (3)
Offered in both lecture and televised formats. Introduces the student to the variety of literature available for children and adolescents. Examines establishing criteria for selection of literature for children and adolescents, including criteria related to reading levels, student interests, quality of materials, and psychological, cultural, and social issues. Prerequisite: Literature survey courses.

ENGL532 Literature of Immigrant Children (3)
Readings and analysis of fiction produced by the immigrant children, the white ethnics, who emigrated to the U.S. in the late 19th century. Set in context with mainstream American writers and black American literature. Prerequisite: Literature survey courses or equivalent.

ENGL535 Literature and History: ... (3)
Explores the relationships among ideas that have political, social, and historical importance and the developments in history for which these ideas have consequences. Topics vary and include the 1920s and modern Europe (19th and 20th centuries). Prerequisite: Literature survey courses or permission of instructor.

ENGL540 Bible As Literature in Social Context (3)
Introduces the diverse literary genres of biblical literature in their social/cultural setting. Utilizes the recent knowledge of archeology, linguistics, and Near Eastern studies. Prerequisite: Literature survey courses or permission of instructor.

ENGL541 Chinese Literature and Culture (3)
Introduces Chinese culture through the progress and splendor of its literature. Emphasizes the different literary genres presented by the major writers of China, the structures of the language, and their varying native influences on Chinese culture. Prerequisite: Literature survey courses or permission of instructor.

ENGL542 Literary Criticism (3)
Examines major approaches to criticism as a means of critiquing literature from a variety of perspectives on a variety of levels. Prerequisite: Literature survey course.

ENGL545 Persuasion Analysis (3)
Studies modern persuasion techniques used by advertising, political parties, and the government. Examines specific counter-propaganda techniques. Designed primarily for high school teachers who teach persuasion and propaganda analysis, consumer education, and the like. Prerequisite: ENGL301 or equivalent.

ENGL550 Technical and Professional Communications (3)
Examines through case studies and professional documents the numerous and varied forms of written and spoken communication in business and the professions. Emphasizes the importance of all aspects of communication in contemporary industry, business, and, where applicable, health sciences, computer technology, and other professions. Prerequisite: ENGL301 or equivalent.

ENGL551 Shakespeare's Plays (3)
Offered in both lecture and televised formats. Reading and analysis of Shakespeare's plays, including history plays, comedies, tragedies, and romances. Prerequisite: English literature survey courses or equivalent. English majors must take this course in lecture discussion format.

ENGL555 Native American Literature I (3)
This course serves as an introduction to the events, issues, and concerns attending the historical interactions between Native Americans and Euro-Americans in North America. Prerequisite: American literature survey course or equivalent.

ENGL556 Native American Literature II (3)
This course examines a representative sample of the best fiction produced by Native American authors in this, as well as translations of stories from native oral tradition. Prerequisite: American literature survey course or equivalent.

ENGL557 Native American Literature III: Contemporary Fiction (3)
This course is an introduction to the fictional literature produced by Native Americans. Modes of discourse and the impact of Native American cultures, concerns, and philosophy on the fiction will be the primary foci of the course. Prerequisite: Literature survey course or equivalent.

ENGL558 Contemporary Native American Authors (3)
This telecourse is an introduction to the fictional literature produced by contemporary Native Americans. The authors of the works studied were guests for the taping segments. Modes of discourse and the impact of Native American cultures, concerns, and philosophy on the fiction and poetry of these authors are the primary foci of the course. Prerequisite: Literature survey course or equivalent.

ENGL559 Native Americans in Film (3)
Examines the use of the stereotypical "celluloid Indian" in films of the last 100 years. Special attention will be paid to the political and social ramifications of the representation of Native Americans. Prerequisite: Literature survey course or equivalent.

ENGL560 Philosophical Themes in Contemporary Literature (3)
Examines philosophical ideas embodied in literary works of art and presents a methodology of thematic studies in literature. Prerequisites: Literature survey courses or equivalent.
ENGL 562 Literary Genre: . . . (3)
Examines the form, content, and history of the development of the various genres of literature in English, including poetry, dramatic literature, narrative fiction, the essay, and modern variations. This is a variable offering and may be taken more than once under different subtitles. Prerequisite: Literature survey courses or equivalent.

ENGL 570 Rhetorical Theory and Practice (3)
Examines the history of rhetoric and composition and contemporary issues in theoretical theory and pedagogical practice. Develops the student’s abilities as a writer. Prerequisite: ENGL 301 or equivalent.

ENGL 572 Computers and Composition (3)
Focuses on the use of word processing and computer-aided instruction as part of the writing process. Where possible, students will review available software (CAI) packages. Prerequisite: ENGL 301 or equivalent.

ENGL 575 The Short Story: Crossing Cultures (3)
Examines the short story as genre and analyzes the ways in which writers from a variety of backgrounds and contexts make meaning. Encourages analytic responses to the texts that help to understand and cross-cultural boundaries. Prerequisite: A 300 or above literature course.

ENGL 580 Special Topics: . . . (1-3)
Experts in the field present selected topics in writing, language, and literature. Includes discussion of the topics and implications for theory and practices. Because of varying topics, this course may be taken more than once. Prerequisite: ENGL 301 or equivalent. (Prerequisites may vary according to course topic.)

ENGL 585 Film: Analysis, Criticism, Ideologies (3)
Asks that we examine, analyze, and, where appropriate, “read against” a canon of American and foreign films using contexts from social, political, and literary-critical theory. Prerequisites: ENGL 311, ENGL 312, ENGL 321, ENGL 322, or another literature course.

ENGL 592 Historical Studies in the English Language (3)
Focuses on the historical development of English language studies. Emphasizes the major contemporary theories of grammar, including structural, transformational, tagmemic, and traditional. Also examines two major approaches to language, psycholinguistic and sociolinguistic. Prerequisite: ENGL 501.

ENGL 600 Research Techniques (3)
Instruction and practicum in research techniques ranging from basic library skills to advanced methods of information storage and retrieval. Prerequisites: Graduate student status, literature survey course.

ENGL 620 Women in Latin American Literature (3)
Studies literary works produced by women in Latin America. Includes a critical analysis of other works that reflect the role women play in society. Prerequisite: Graduate student status.

ENGL 690 Pro-Seminar for Teachers of Writing (3)
Emphasizes the methods and practice of teaching writing. Focuses on methods of motivating students, pre-writing, free writing, style development, revision, and evaluation. Prerequisite: Graduate student status.

ENGL 830 Seminar: Rhetorical and Critical Theory (3)
Focuses on extensive readings in a major area of composition, rhetorical and critical theory. Where appropriate, seminar participants will investigate the relationship of theory to college-level practice. Prerequisites: Graduate student status, ENGL 542, ENGL 570, or permission of instructor.

ENGL 840 Seminar: Philosophy in Literature (3)
Focuses on philosophical themes in literature. Offers a forum at an advanced level where thematic studies are the focus of investigation in literary works. Prerequisites: Graduate student status, literature survey courses or equivalent.

ENGL 845 Seminar: English Literature (3)
Studies a selected period, theme, or author of English literature, including Medieval, English Renaissance, Restoration and Eighteenth Century, Romantic and Victorian, Modern and Post-Modern. Literature of a period is related to historical, political, social, and religious currents of the times. Prerequisites: ENGL 311 and 312 or equivalent, graduate student status.

FINANCE 185

FIN 301 Principles of Financial Management (3)
Deals with theory and practice of the financial management function in planning, raising, and directing the efficient allocation of funds within the firm. Prerequisites: ACCT 301 and STAT 361. Recommend students have background in algebra and familiarity with graphing techniques.

FIN 310 Estate and Personal Planning (2)
Focuses on the development of a financial plan for identifying long-term goals through budget and spending plans. Cannot be used to meet degree requirements of the B.A. in Business Administration.
FIN420 Advanced Corporate Finance (3)
Focuses on the application of financial management tools and techniques. The case study method is used to cover such topics as profit planning, leverage analysis, working capital management, capital budgeting, and valuation of the firm. 
Prerequisite: FIN301.

FIN425 International Financial Management (3)
Focuses on international aspects of financial management. Particular emphasis is placed on control of exchange rate and financing multinational corporations. 
Prerequisites: FIN301 and MGMT410 or permission of instructor.

FIN436 Financial Options and Futures (3)
The study of modern concepts and issues in financial options and futures markets. Emphasis on risk management in financial institutions and applications in corporate finance and funds management.
Prerequisite: FIN301.

FIN440 Insurance and Risk Management (3)
Analyzes the nature and scope of the various risk exposures generally facing individuals and profit and nonprofit organizations. Examines alternate methods of dealing with risk exposures, including the use of insurance as a risk-handling device. Features topics on personal risks, property risks, third-party liability risks, and the nature and types of insurance contracts. Students will learn to apply risk management techniques to their professional and personal affairs.
Prerequisite: FIN301.

FIN455 Financial Institutions and Markets (3)
This course focuses on both the financial system and its important players. Topics include operation of the securities markets, determination of interest rates, characteristics of important financial instruments, portfolio policies of financial institutions, and the effect of government's regulation on the financial system.
Prerequisites: FIN301 and ECON301.

FIN460 Investments (3)
Involves study of the principles of investment securities with varying degrees of risk and return. Includes topics on investment risk, historical risk-return relationships, valuation of alternative financial instruments, technical analysis, procedures of the securities industry, formula investing, tax considerations, investment companies, and personal investment policy.
Prerequisite: FIN301.

FIN465 Advanced Investments (3)
A review of investment and portfolio management theory. The objective will be to develop superior long-term investment strategies. Current literature will be reviewed.
Prerequisite: FIN460.

FIN470 Independent Study: . . . (3)
Independent study is intended to provide better students with the opportunity to study a topic of their choice in finance under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation within finance and an instructor to sponsor the work.
Prerequisites: Permission of instructor and dean.

FIN480 Internship: . . . (3)
Designed to provide finance students with supervised practical experiences in applied settings. 
Prerequisite: Permission.

FIN801 Problems in Financial Management (3)
Covers the problems faced by the financial officer in management of funds in the business firm. Emphasizes developing skills and techniques to implement capital expenditure policies, solving short-term and long-term financing problems, and establishing dividend policies.
Prerequisites: FIN301, MATH355, and STAT361.

FIN830 Financial Markets (3)
Covers analysis of financial markets with emphasis on understanding and predicting interest rates and stock prices. Includes topics on structure and behavior of interest rates, flow of funds analysis, operation of security markets, portfolio policies of financial institutions, effect of monetary and fiscal policies of financial markets, capital market theory, and measurement of market efficiency.
Prerequisite: FIN801.

FIN850 Investments (3)
Studies the principles of investment in securities with varying degrees of risk and return. Includes topics on investment risk, historical risk-return relationships, valuation of alternative financial instruments, technical analysis, procedures of the securities industry, formula investing, tax considerations, investment companies, and personal investment policy.
Prerequisite: FIN801.

FIN855 Problems in Analysis of Financial Statements (3)
Focuses on the problems faced by the financial officer in management of funds in the business firm. Emphasizes developing skills and techniques to implement capital expenditure policies, solving short-term and long-term financing problems, and establishing dividend policies.
Prerequisites: FIN301 and STAT361.

FIN860 Financial Institutions (3)
Covers analysis of financial institutions with emphasis on understanding and predicting interest rates and stock prices. Includes topics on structure and behavior of interest rates, flow of funds analysis, operation of security markets, portfolio policies of financial institutions, effect of monetary and fiscal policies of financial markets, capital market theory, and measurement of market efficiency.
Prerequisite: FIN801.

FIN865 Advanced Financial Management (3)
An intensive study of theories and analytical tools with emphasis on their application to the solution of various financial problems of business firms. Includes topics on working capital management, capital expenditure decisions, estimation of the cost of capital, and dividend policy decisions.
Prerequisites: FIN801 and STAT362.
Geography

GEOG310 Physical Geography (3)
Features investigations into the natural systems of the earth and their relationship to human activities. Includes examinations of the earth's energy, water, and nutrient balances and how these balances influence and are influenced by human activities. Examines soils, climates, hydrology, tectonic activity, landforms, vegetation from a global as well as urban perspective. Emphasizes understanding the various natural systems and how they relate to the built environment.

GEOG320 North American Geography (3)
Examines the spatial and environmental aspects of economic activity. Covers the economics of prehistory and continues through the origin of agriculture and cities. Investigates aspects of the global and regional economy, including urban systems, agricultural systems, forestry, mineral resources, and ocean resources.

GEOG405 World Regional Geography (3)
This teleclass, produced by PBS and Annenberg/CPB, builds an understanding of geography by examining the eleven regions of the world, their characteristics, and their interconnections. Perspectives from physical, political, historical, economic, and cultural geography are used. It also provides an examination of the many geographic forces currently at work in shaping the complex features of the world's civilizations and environments and insights into a range of global geographic issues and global change.

Health Administration

HLAD325 Health Care Organization (3)
Provides an understanding of how health care is organized in the United States and the way it is provided to consumers.

HLAD340 Medical Sociology (3)
Applies sociological knowledge, concepts, and methodologies to health care processes for the purpose of enhancing the understanding of health administrators on the dynamics of interaction between patients and providers.

HLAD450 Health Planning (3)
Introduces students to health planning concepts, methods, and data sources useful in developing community and institutional health plans. Prerequisite: HLAD325.

HLAD455 Management in the Health Care Setting (3)
Examines the management, environment, and personnel of diverse health care facilities. Emphasis is placed upon applying descriptive information to various operational situations and problems encountered by junior or mid-level managers. Prerequisites: HLAD325 and MGMT301.

HLAD460 Health Care Economics (3)
Applies economic analysis to health and health care services. Examines the concept of health as human capital. Investigates special features of the supply, demand, distribution, and economic impact of health care delivery. Prerequisites: HLAD325 and ECON301.

HLAD465 Legal Aspects of Health Care (3)
Discusses legal implications and ramifications of conduct in health services administration. Introduces principles of administrative law that form the foundation of decision-making processes in the health services arena. Prerequisite: HLAD325.

HLAD468 Institutional Management for Health Care Organizations (3)
Designed to be the capstone course for the Bachelor of Health Administration. Discusses reading and research in the areas of health care, as well as investigation of administrative situations in health care settings. Prerequisites: Most courses before practicum. Capstone course.

HLAD470 Independent Study: . . . (1-8)
Individual reading, research, and/or project in health administration under the supervision of the faculty. Prerequisite: Permission.

HLAD480 Internship: . . . (1-8)
Designed to provide health administration students with supervised practical experiences in applied settings. Prerequisite: Permission.
HLAD490 Health Administration Practicum (3)
Provides the student with a terminal experience integrating classroom learning and the field of practice. Reinforces and reviews competencies gained in health administration and gives students an opportunity to achieve professional growth and administrative skills. Prerequisites: Permission of instructor at least three months in advance and completion of all required courses.

HLAD503 Human Resource Management (3)
Focuses on human resource management, program, and policies. Addresses recruitment of health professionals, manpower requirements, staffing, training and development and governmental staffing regulation for health care organizations. Examines methods of developing leadership in supervisory health managers, issues of compensation administration, and specific labor and HRM law governing health care institutions. This course is also structured to prepare students for the long-term care administrators’ licensing exam. Prerequisites: HLAD325 and MGMT301.

HLAD520 Introduction to Long-Term Care (3)
Provides a basic orientation to the long-term care continuum, including both nursing homes and noninstitutional alternatives, such as home health agencies and adult day care. Examines the long-term care needs of the chronically ill and disabled, and actual and proposed public policy responses to those needs.

HLAD525 Nursing Home Administration (3)
Examines principles in the management of skilled nursing facilities and related institutions for the chronically ill and disabled. Explores issues in the regulation and reimbursement of nursing homes in Illinois.

HLAD530 Introduction to Managed Care (3)
Provides an overview to managed care as it is evolving in the United States. Emphasis is placed on mainstream programs experiencing substantial success in the marketplace. Topics include the history of managed care, operating procedures and techniques employed by managed care plans, and relationships with physicians, employers, and members. Prerequisites: HLAD325 and MGMT301.

HLAD582 Current Topics in Health Administration: (1-3)
Covers various topics relevant to current developments in health administration field such as managed care, reengineering, patient-centered care, TQM/CQI, disease management, budgeting, finance, personnel, planning, task analysis, team building, changing work force, health care paradigm shift, and many other topics.

HLAD630 Health Administration: Lecture Series (1-3)
Health practitioners discuss many of the issues and problems of the contemporary American health care delivery system. Major topics include the role of government, value and ethical considerations, the hospital and the consumer, and issues of manpower, financing, and quality of care. Prerequisite: Health Administration students or permission. Auditors are encouraged and welcome.

HLAD701 Medical Care in Society: Ethics, Health, and Leadership (3)
Overview of the field focusing on the social, behavioral, and ethical aspects of the health system. Covers such topics as epidemiology, health, and illness, the sick role, the utilization of health services, and the determinant of health. The course will focus on emerging trends in health administration, such as the need to understand the ethical implications of resource issues and the requirement of acquiring leadership skills to help reform the health care system from within. Prerequisite: Students in the Occupational Therapy and Physical Therapy programs may take this course. Other students need instructor’s permission.

HLAD705 Applied Research Methods for Health Administration (3)
Examines the application of research methods to the administrator’s decision-making process. Topics covered include the relevance of research for policy decision making; common measures and statistics used by health administrators; the application of various research methods to health administration; an introduction to computer statistical software packages; and an introduction to information systems. Prerequisite: STAT468; may be taken concurrently with HLAD701.

HLAD710 Health Care Organization: Problems and Policies (3)
Reviews and analyzes the structure of U.S. health care services and delivery in terms of health and health services, organization of health service care, health care facilities, manpower, financing, expenditure, government programs, coordination, regulation, and competition and a new integrated system. May be taken concurrently with HLAD701.

HLAD715 Economics of Health Administration (3)
Study and application of the methods and approaches of economic analysis to the management of health care organizations and markets and issues of efficiency, quality, and equality in health care delivery. Prerequisite: ECON301 or competency in basic economic concepts.

HLAD718 Health Care Policy (3)
 Enables the student to describe, analyze, evaluate, and apply basic policy approaches to both American and international health care issues. Presents students with implementation skills for ethically managing power relations in a turbulent health care marketplace. Prerequisites: POLS302; may be taken concurrently with HLAD701.

HLAD740 Health Care Financial Management I (3)
Provides an overview of the primary facets of health care financial management. Includes such topics as budgeting, working capital management, intermediate reimbursement theory, financing indigent care, tax-exempt status, internal audit and control, and cost containment. Prerequisites: ACCT402 and HLAD701.
HLAD745 Organizational Theories in Health Administration (3)
Studies organizational and managerial theories relevant and unique to effective administration of health care institutions. Organization is perceived as an open system that requires constant interaction with environment. Prerequisites: MGMT301 or a course in principles of management. May be taken concurrently with HLAD701.

HLAD755 Health Care Management I (3)
Presents the principle concepts of health care management. Addresses the historical evolution of the community health care institution and examines how the history and evolution of the community health care institution is intertwined into the current trends in health care administration. Quality assurance and organized delivery systems are addressed. Class discussion and case studies are used. Students will also learn how to analyze a health care entity or department. Prerequisites: MGMT301 and HLAD745.

HLAD806 Quantitative Decision-Making for Health Administration (3)
This course emphasizes the conceptual framework and the practical application of various decision-making techniques relevant to the health administration field. The focus of the course is on developing sophisticated decision-making models utilizing available computer software that enable the administrator to achieve organizational goals in an efficient manner. Prerequisite: MIS725.

HLAD820 Health Care Program Planning and Evaluation (3)
Study of specific topics in planning and evaluating health care programs. Special attention to the concept of program, program planning, analysis of evaluation system models, measurement, advantages and disadvantages of internal and external evaluation, and analysis and critique of published evaluations.

HLAD823 Total Quality Management/Continuous Quality Improvement (3)
Presents the principal concepts of health care quality management through readings, case studies, and analysis of actual institutional quality programs. The course addresses the topics of quality assurance, total quality management, continuous quality improvement, TQM tools, JACHO accreditation standards, and patient satisfaction. Prerequisite: HLAD735.

HLAD835 Health Care Human Resource Management (3)
Focuses on human resource management, programs, and policies. Addresses recruitment of health professionals, manpower requirements, staffing, training, development, examination of qualifications standards, performance appraisals, and employee morale. Examines methods of developing leadership in supervisory health managers, issues of compensation administration, and specific labor and HRM law governing health care institutions. Applies TQM and ethics theories to the HRM process. Prerequisite: HLAD755.

HLAD837 Health Care Law (3)
Focuses on corporate administrative and regulatory law significant for health services administration. Examines such issues as informed consent, joint ventures, mergers and acquisitions, medical staff issues, and liability. Prerequisite: HLAD740.

HLAD846 Health Care: Financial Management II (3)
Focuses on theory and applications for such topics as capital financing, managed care contracting, physician contracts, equity financing, and performance reporting and analysis for specific health care entities. Prerequisite: HLAD740.

HLAD850 Strategic Planning and Marketing for Health Administration (3)
Covers the strategic planning process in the competitive health care field, including alternative delivery systems. Focuses on definition of mission, external analysis, goal achievement, and generation of alternatives and their selection. Marketing of specific health care entities, theories and practices is discussed. Prerequisites: HLAD740, HLAD806, HLAD820, and HLAD846.

HLAD855 Health Care Management II (3)
Capstone course in the graduate degree in Health Administration. Focuses on the effective administration of health care facilities and systems. Covers the administrator's role in the application of such areas as finance, law, quantitative methods, human resource management, administrator/medical staff relations, and ethics. Case studies are used. Students also prepare a mini care plan from the health care setting. Prerequisites: HLAD806, HLAD820, HLAD823, HLAD835, HLAD837, HLAD846, and HLAD850.

HLAD865 Health Administration Field Experience (3)
Students apply theories and principles of classroom learning in health care facility. The field experiences provide opportunities for development, integration, and reinforcement of competence. The student will be required to attend six or more seminars held throughout the trimester to integrate program objectives and the field experience topic. Prerequisites: Permission of instructor at least three months in advance. Prerequisite: HLAD855.

HLAD870 Independent Study: . . . (1-8)
Individual reading, research, and/or project in health administration under the supervision of the faculty. Prerequisite: Permission.

HLAD880 Internship: . . . (1-8)
Period of structured, preceptor-directed experience in the practice of health administration in a setting appropriate to the student's career goals. The course is taken after completion of all other course work, but before conferring of the degree. Prerequisites: Permission of instructor at least four months in advance.

HLAD890 Graduate Thesis/Project: . . . (1-8)
Provides the health administration student an opportunity to synthesize graduate course work by developing and completing a thesis or project specific to the student's interests in health administration. Prerequisite: Permission of advisor and instructor.
Health Professions Education

**HLPE315 Health Professions Education Instruction (3)**

Designed to introduce health professions students to the skills and processes involved in health professions education in both clinical and didactic settings. Develops skills in planning, delivering, and evaluating health professions education programs. Prerequisite: Nursing majors or permission.

**HLPE620 Current Trends and Issues in Health (3)**

Explores current trends and issues in health education. Focuses upon present and projected educational policy issues affecting educational institutions.

**HLPE630 Special Issues in Community Health (3)**

Emphasizes organizational patterns and functions of voluntary and government health agencies. Details role of the school health team in the analysis of community health programs in the greater Chicago area.

**HLPE802 School Health Programs (3)**

Presents an overview of the principles, philosophy, and development of school health programs in the U.S. Emphasizes the concepts of "healthful school living" and community participation in school health programs. Focuses on developing a team framework among teachers, health service personnel, parents, and pupils. Prerequisite: Students must be certified teachers or have permission of the instructor.

**HLPE815 Assessment of Health Instruction (3)**

Examines assessment procedures employed in health education and allied health training programs. Emphasizes the development of valid and reliable instruments to assess health behaviors, attitudes, and skills. Prerequisite: Permission of instructor.

**HLPE820 Continuing Education in Health (3)**

Focuses on how the rapid pace of new discoveries in health, disease, treatment, and rehabilitation makes continuing education essential for everyone working in health fields. Develops skills in planning, delivering, and evaluating continuing education in health. Emphasis on developing change agent skills, motivation of others to update their knowledge and skills, involving colleagues in continuing education activities. Prerequisite: Graduate student status.

**HLPE825 Values Clarification Techniques in Health (3)**

Utilizes people's attitudes, values, and beliefs in the process of health education. Teaches techniques for involving learners' motivation and values in health education with opportunity to develop and try them out. Class meetings in which students develop and present values clarification applications for review and appraisal. Values clarification is now widely recognized as an essential tool in health education. Prerequisite: Graduate student status.

**HLPE860 Practicum in Health Profession Education (3)**

Designed to provide Health Professions Education majors with supervised, practical experiences in appropriate settings. Students planning to enroll should contact the instructor at least one month in advance of enrolling so that a suitable placement can be arranged. Prerequisite: Permission of instructor.

Health Sciences

**HLSC305 Contemporary Health Issues (3)**

Offered in televised format only. Identifies and examines major health issues of our time. Designed to counteract apathy, dispel myths, and provide accurate information upon which to make decisions affecting individual and social health. National leaders representing a range of thought and documentary film footage are utilized.

**HLSC470 Independent Study: . . . (1-8)**

Individual reading, research, and/or project in the health sciences under the supervision of the faculty. Prerequisite: Permission.

**HLSC480 Internship: . . . (1-8)**

Designed to provide students in the health sciences with supervised practical experiences in applied settings. Prerequisite: Permission.

**HLSC550 Computer Application: Medical Terminology (1)**

This course is a mandatory prerequisite class for all students seeking admission to the Master of Occupational Therapy Program. This is an independent, self-paced course that allows the student opportunity to become familiar with a wide range of medical terms. A programmed text incorporated with a system of computer-based education is used as the method of learning.

**HLSC605 Health Risk Appraisal (1)**

Workshop designed to offer an in-depth review of the psychosocial factors influencing personal wellness. Students will be introduced to strategies and techniques employed in health risk appraisals. A comprehensive, computerized wellness inventory will be employed in the assessment of personal lifestyle factors associated with health risks.

**HLSC610 Nutrition (3)**

Offered in both lecture and televised formats.

Provides knowledge necessary for nutrition and diet therapy. Discusses cultural, economic, and social factors of food habits.

**HLSC820 Epidemiology (3)**

Advanced health concept course covering human ecology of diseases in groups and communities, consumer health sources in dealing with epidemiology problems, indices of community health and their usefulness to health centers, schools, and community health programs, and promotion of healthful living on a group and community basis. Prerequisite: Students must meet the qualification for graduate student status.

**HLSC850 Special Topics in: . . . (1-4)**

Examines advanced specialized interdisciplinary topics in health sciences. Topics will vary. May be repeated for credit. Individual reading, research, and/or project in the health sciences under the supervision of the faculty. Prerequisites: Vary depending on topic selected.

**HLSC870 Independent Study: . . . (1-8)**

Individual reading, research, and/or project in the health sciences under the supervision of the faculty. Prerequisite: Permission.
HIST501 The History of Illinois and Its Constitution (3)
A historical examination of the political, constitutional, and social history of the state of Illinois from 1700 to the present.

HIST505 Modern African History (3)
This course will survey the significant themes in African history since 1800, examining pre-colonial African societies, European mercantilism, colonial political economies, resistance and the rise of African nationalism, and questions concerning liberation and revolution in Africa today. Historical texts, novels, films, and guest speakers will be used to promote a deeper understanding of the continent, its people, and their struggles.

HIST510 Ascent of Man (3)
Based on an award winning BBC television series written and narrated by the late scientist Jacob Bronowski. Provides a panoramic view of nature and the focus that led to the emergence of human intelligence with its cultural and intellectual achievement.

HIST515 Modern U.S. History: 1900-1945 (3)
U.S. domestic history and the role of the United States in world affairs from 1900-1945, including progressivism, imperialism, the New Deal, and World War II.

HIST516 Issues in Modern U.S. History: . . . (3)
The approach of this course is inclusive and focuses on the issues of the Post-World War II era and beyond. It provides a context for in-depth study of more recent events, with an emphasis on content, methodology, and potential applications of U.S. history. Prerequisite: HIST310 or HIST311.

HIST520 American Urban History (3)
Provides a historical examination of the process of modernization and its effect on the American city and people. Emphasizes migration and mobility, family roles, machine politics, and various reform movements.

HIST525 Readings in American History: . . . (3)
Student selects a topic in American history from a prescribed list, reads a number of designated works on that topic, and answers several essay-type final examination questions.

HIST530 Modern Middle Eastern History (3)
Examines Islamic civilization since the age of European expansion, imperialism, westernization, nationalism, and modernization; covers Arab countries and Israel, Iran, and Turkey.

HIST534 Modern Chinese History (3)
Offered in both lecture and televised formats. Study of general development of Chinese history with special emphasis on the period since 1840. Student will conduct two individual research projects; one of the imperial past up to the end of the Ming Dynasty, and the other on the modern period.

HIST540 Black Experience in the U.S. (3)
Surveys black experience from 1500-1941. Emphasizes the various aspects of slavery, the Civil War, reconstruction, and the black experience during World War I and World War II periods.

HIST541 Black Women in American History (3)
A socio-historical study of the black woman from slavery to 1970. An examination of the role she has played in the black struggle and her contributions to their survival.

HIST542 Caribbean History (3)
Studies comparative colonial patterns in the Caribbean. Emphasizes the development of slave populations, social systems, and the concept of hierarchy in the Caribbean.

HIST544 History of Civil Rights (3)
Offered in both lecture and televised formats. Examines the black struggle to secure human and civil rights in the United States. Black protest, court decisions, and legislation after 1955 are emphasized.
HIST545 American Negro Slavery (3)
A general survey of the traditional interpretations of black slavery in America and an attempt to assess them in the light of recent studies.

HIST547 Latin American History (3)
Surveys the major periods in Latin American history. Describes and analyzes the major economic, political, social, and cultural structures of pre-Columbian, colonial, and modern Latin America.

HIST550 Women in American History (3)
Offered in both lecture format and as a correspondence course. Examines the history of American women from the colonial period to the present with special emphasis on how and in what ways the status of women has changed.

HIST565 Europe in the Twentieth Century (3)
Examines the political, economic, social, cultural, and diplomatic history of Europe in the twentieth century. Addresses the themes of industrialization, nationalism, colonialism, totalitarianism, the post-World War II division of Europe, and the geo-political trends toward unification.

HIST720 Philosophy of History (3)
Deals with patterns in the history of mankind. Explores nature of historical change, value, purpose, and meaning of various historical phases.

HIST780 Local History: Resources and Methods (3)
An examination of basic resources and methods for local and community history. Students will be involved with specific research projects.

HIST830 Graduate Seminar in Historical Studies (3)
Examines the nature of history by reading and evaluating two or more designated works on selected topics in American history.

HIST840 Research in African-American History (3)
 Addresses serious research upon significant topics and issues related to the black experience in the United States and Western hemisphere.

HIST870 Graduate Research:... (1-4)
Individual reading, research, and/or project in history under the supervision of the faculty. Prerequisite: Permission.

Human Performance and Training

HP&T510 Introduction to Human Performance and Training (1)
This course enables students to analyze the field of educational technology, human resource development, instructional development, and training. Includes what professionals do, definitions, associations, periodicals, current issues, and self-assessment on competencies. Course requirements include joining a professional association related to the field and attending a local meeting of a professional association related to the field.

HP&T520 Training Product Design (3)
Students design, produce, and evaluate a half-hour instructional product. Includes goal analysis, learner entry characteristics, behavioral objectives, criterion-referenced tests, instructional strategy, media selection, prototype production, prototype tryout, and revision.

HP&T522 Training Topics:... (1-3)
Offers study in various topics as applied to the training field. Subject matter may include stand-up training techniques, identifying and analyzing performance problems, examining the role of the computer in the training field, and television and its use in training.

HP&T755 Computer Based Training I (3)
Enables student to analyze the components of a Computer Based Training (CBT) system; write CBT storyboards and flowcharts, and program a short CBT lesson. Includes broad exposure to theories and models of computer-based training. Prerequisite: HP&T520.

HP&T810 Training Course Development (3)
Enables students to develop specifications for a complete training course, including all components from HP&T520 plus needs analysis, environmental analysis, detailed job/task analysis, concept elaboration, learning hierarchies, enabling objectives, course, unit, and lesson maps, events of instruction, and implementation plan. Prerequisite: HP&T520.

HP&T815 Training Techniques (3)
Enables students to conduct instructor-led training sessions, including following predesigned instructor roles and tasks, developing lesson plans, applying appropriate training techniques for individual and group situations, and selecting and using media in training presentations.

HP&T820 Principles of Message Design (3)
Applies principles of message design to instructional strategies, media selection, and materials specifications. Emphasizes perception, memory, attitude change, adult learning, and text design. Prerequisites: HP&T510 and HP&T520.

HP&T821 Scriptwriting for Instruction and Training (3)
Students design and develop a variety of scripts for instructional and training products, including audio, video, workbooks, and classroom presentations. Includes combining instructional development skills with principles of message design, script writing formats, and client specifications. Prerequisites: HP&T520, HP&T755, and either HP&T810 or HP&T815.

HP&T825 Research in Human Performance and Training (3)
This course will enable students to research and evaluate topics in instructional and training technology. Prerequisite: eighteen credit-hours in HP&T.
HP&T847 Evaluation/Cost Benefit Analysis in Human Performance and Training (3)
Focuses on evaluation of a training product, course, or other intervention. Includes formative and summative evaluation and cost benefit analysis. On basis of evaluation data, students prepare report, calculate cost benefit, and suggest revisions to a course, product, or intervention. Prerequisite: HP&T810.

HP&T852 Solving Performance Problems (3)
Enables students to identify and analyze problems in organizations that are performance rather than training-based. Focuses on information, resource, and incentive solutions to these problems. Students apply performance engineering theory to a real situation and write a report identifying the problems and proposing solutions. Prerequisite: HP&T810.

HP&T856 Consulting Teamwork in Human Performance and Training (3)
Students work as a member of an instructional development team to develop and evaluate a training package. Includes working closely with subject matter experts. Prerequisite: HP&T810.

HP&T858 Project Management in Human Performance and Training (3)
Examines role of project management in organizations. Emphasizes defining the project, developing time management network, estimating efforts and costs, scheduling resources, writing project plans, and tracking projects. Prerequisite: HP&T810.

HP&T860 Seminar: Human Performance and Training in Business (1)
Enables students to analyze how the business and industry environment is affected by the bottom line profit motive and how instructional and training techniques must be modified and adapted to that context. Analyzes the roles each professional plays in the development of training/HRD programs in a business and industry environment. Prerequisites: At least three HP&T courses.

HP&T861 Performance in Organizations (3)
This course provides a practical framework for understanding how components in an organization interrelate and how that relation affects performance analysis and improvement. Prerequisite: Eighteen credit hours in HP&T.

HP&T865 Advanced Field Project (1)
Provides Human Performance and Training students with opportunities to apply specific career skills/interests in a business, industrial, medical, or educational setting. Prerequisites: Minimum nine graduate hours in HP&T and permission.

HP&T870 Graduate Research: . . . (1-4)
Individual reading, research, and/or project in Human Performance and Training under the supervision of the faculty. Prerequisite: Permission.

HP&T880 Internship: . . . (1-4)
Designed to provide Human Performance and Training students with supervised practical experiences in applied settings. Prerequisite: Permission.

HP&T891 Human Performance and Training Master's Project I (2)
Includes design of a project in a real setting, including proposal and appropriate design components. Covers synthesis and application of theory and advanced methods learned in the curriculum. Prerequisites: At least twenty-five graduate hours in HP&T.

HP&T892 Human Performance and Training Master's Project II (2)
Further development of synthesis and application of methods begun in HP&T891. Prerequisite: HP&T891 or concurrent enrollment.

Integrative Studies

IS300 Scientific Research and Knowledge Production (3)
This course examines the ways in which people of different cultures and societies have historically used different sources of "knowledge" to address their questions. Prerequisites: At least one course in physical science, one in social science, and one history course are required.

IS310 Perspectives on the Physical and Natural Sciences (3)
This course provides an introduction to the relationships between the physical or natural sciences and other disciplines such as public administration, economics, and health administration. Topics include the relationships between science and law, business, government, public health, and religion. Fundamental aspects of science, such as the scientific process and scientific models are also presented. Prerequisite: One semester of first-year biology.

IS320 Humanity and Human Dynamics: A Comparative Study (3)
This course examines social and cultural development in a comparative framework. The emphasis is on interdisciplinary theory and approaches concerned with the articulation of collective human consciousness, the political economy, and collective action as they relate to constructing the past and present. Prerequisite: Introduction to social anthropology or introduction to sociology.

IS330 The Measure of Knowledge: Quantitative Research Methods (3)
This course develops skills in research design for policy formation. It is an applied course which investigates the variety of statistical models used in research: analysis of variance models, regression models and qualitative models. One aspect of the course will concentrate on the framing of statistical models to fit the types of analysis encountered in social research. A second emphasis will be upon the interpretation of statistical results deriving from tests of the various models. Prerequisite: SOSC450 or IS300.

IS340 New Technology and Us (3)
This course is designed for students in the Integrative Studies major, but all students who are curious about the direction our societies are taking and who want to study technological development from diverse points of view are encouraged to enroll. Prerequisites: All lower-division, general education requirements should be completed before enrolling in this course.
IS350 Literature of the Environment (3)
Literature of the Environment is structured to involve the student in many forms of dialogue on issues pertinent to humanity’s relationship with Earth. By reading works by writers from diverse fields and by writing in response, the student will gain a better understanding of our planet and its needs and a better control of writing in response to learning. Prerequisite: At least one college-level course in composition and rhetoric.

IS360 Examining the Barriers: Studies in Race, Class, and Gender (3)
This course offers an in-depth study of the politics, economics, and social implications of race, class, and gender. Focuses on the ways the discourses of race, class, and gender are produced as well as on the ways these discourse patterns orchestrate the relations among peoples’ everyday lives and the various social/political institutions that govern them. Investigates ways of reproducing, resisting, and/or reforming existing discourse/power structures. Prerequisites: All lower-division, general education requirements should be completed before enrolling for this class.

IS370 Environmental Studies: A Case Studies Approach (3)
This course uses a case study approach to involve students in the characterization and analysis of selected local, regional, and global environmental issues. Connections and relationships among the case studies and generalized environmental issues will be developed. Prerequisites: College biology and college chemistry and/or physical science or equivalent, introduction to computer technology or equivalent.

IS400 Computer Assisted Applications for Problem Solving (3)
This course is an interdisciplinary course of study that will give students a sound grasp of analytical methods and skills for analyzing, maintaining, and interpreting various types of data used in the areas of social studies, history studies, environmental studies, and the physical and natural sciences. Prerequisite: First-year natural/physical science.

IS410 Worlds of Art (Internet Course) (3)
This course compares objects from seven differing contexts and diverse geographical world areas and contrasts the imagery, cultural circumstances, and the world view within which the art was created and in which it functioned. Class discussions include interaction with instructor and experts on particular objects as guest correspondents. (Guest correspondents will interact in a virtual classroom through a special LISTSERV depending upon access of the correspondent.)

IS420 Communication Technology and Culture (3)
While not the only major change agent in society, communication technology is certainly one of the most significant, omnipresent, and potentially insidious forces at work in the cultural environment. As students we learn how to talk, read, write, and listen, but nowhere do we get training in using the most pervasive communication medium in our culture, communication technology. A broad range of communication technology permeates our lives, including work, leisure, and our social relationships; we need a critical understanding of how to use this technology rather than be used by it. Prerequisite: Introduction to communication and/or sociology.

IS430 Global Political Transformation and Economic Integration (3)
This course is an integrated analysis of the processes and issues found in international global politics and economy with an emphasis on substantive topics in selected areas of the world. In particular, we will consider the contrasting paradigms of “political realism” and “complex interdependency.” The purpose of this course is to familiarize the student with the complex and interdependent world in which we live. In so doing, we will study the various levels at which nation-states interact and “connect” all the peoples in the world.

IS485 Senior Project Development (3)
This course is designed to prepare the student to undertake the Senior Project, which is the capstone or culminating experience for Integrative Studies majors. In the project students are required to integrate their course work experience in the context of action in the world at large, an experience which may take any of several forms, including but not limited to goal-oriented international and/or cross-cultural travel, work in the community, or completion of a research project in the sciences, humanities, or arts. The specific direction taken for the senior project will be decided by the student in consultation with the professors overseeing this project development course. Faculty will work closely with the student to prepare him or her to pursue effectively the senior project during the next trimester. Prerequisites: IS300, IS310, and IS320.

IS490 Senior Project (3)
The Senior Project is designed as a capstone or culminating experience for Integrative Studies majors. Students are required to integrate their course work experience in the context of action in the world at large. The experience may take any of several forms, including but not limited to goal-oriented international and/or cross-cultural travel, work in the community, or completion of a research project in the sciences, humanities, or arts. The specific direction taken will be decided by the student in consultation with the professors overseeing the Senior Project Development course. Prerequisite: Completion of IS485, Senior Project Development.
Intercultural Studies

ICS320 Dynamics of the Spanish Language (3)
Study of the Spanish language at both beginning and advanced levels of understanding. Focuses on different approaches and techniques to increase fluency in a second language.

ICS440 Chinese Language and Culture I (3)
China is developing both socially and economically at a rapid pace and is becoming more and more open to the outside world. In this sense, more and more connections are bound to occur between the U.S. and China. Therefore, the learning of Chinese language and culture will not only enhance the student’s ability to communicate in Chinese, but also promote the student’s understanding of Chinese culture and society. It will also give students a chance to enrich their own experience in language learning and the ability to communicate interculturally.

ICSS30 Third World Conference (1-3)
Weekend conference using workshops and seminars to focus on socio-political, humanistic, and historical policy problems and issues of third world communities in national, interregional, and international contexts.

ICSS32 African Politics (3)
Examines the problem of social and political change on the African continent. Evaluates selected paradigms and concepts in terms of the historical scope and range of national and interregional situations.

ICSS40 Hispanic Experience in the U.S. (3)
Examines the historical process that led to Latino migration to the United States. Focuses on the economic, political, social, and cultural conditions that shape the life of the Latino in American society.

ICSS41 Ethnicity, Culture, and Politics (3)
Examines the interrelations between ethnicity, culture, and politics in American political life. Examines these concepts in an effort to understand culture, society, race, ethnicity, and their relationship to politics and society.

ICSS47 Cultural Geography (3)
Includes a discussion of the nature of culture and surveys the main distribution of the populations of the human race and their broad distinguishing characteristics and cultures. Traces the global movement of populations together with the movement of their cultural influences among other peoples and cultures.

ICSS48 African Civilizations (3)
Offered in both lecture and televised formats and as a correspondence course. A study of African people and their various cultural differences. Focuses on correcting misconceptions of Africa and the Africans through readings from a wide selection of publications.

ICSS50 Topics in Geography: World History and Geography (3)
Develops a critical awareness of the relationship of geography to major events and periods in world history. Integrates basic concepts and methods in geography (nature, culture, region, area, localization, scale, evolution, map-reading, and quantification) in a critique and comparison of major historical constructs (society, resource, diffusion, race, environmental determinism, and social breakdown and disintegration).

Liberal Arts and Sciences

LAS410 Investigations in the Social Sciences (3)
Examines the major debates over the dominant paradigms that guide the various social research disciplines, e.g., history, sociology, political science, and economics. In particular, the status of social knowledge, theories of “human nature,” the social basis of collective action, the role of the state, and the sources of social diversity and historical change will be considered. Prerequisites: Nine hours of course work in social science.

LAS420 Investigations in the Humanities (3)
Examines investigatory procedures and explanatory logic used in treating art, literature, and music. Emphasis will be placed on specific artists, composers, and literary figures with reference to the creative process. Prerequisite: Nine hours of course work in art, music, and/or literature.

LAS430 Investigations in Scientific Thought (3)
Examines the development of scientific concepts from the ancient Greeks to the present, focusing on how scientists think and work their thought processes, their approaches to problem solving, the roles of conjecture and intuition, and the role of serendipity. Contributions of individual scientists and schools of scientific thought are critically evaluated, and the importance of science in contemporary society is assessed. Prerequisites: Nine hours of course work in science and six hours of course work in mathematics.

LAS440 Investigations in Mathematical Thought (3)
Examines the development of mathematical concepts from the ancient Greeks to the present. Contributions of individual mathematicians and schools of mathematical thought are critically evaluated, and the importance of mathematics in modern culture is appraised. Prerequisites: Nine hours of course work in science and six hours of course work in mathematics.
Management

MGMT301 Introduction to Management Strategies (3)
Offered in both lecture and televised formats. Introduces classical management, behavioral, and management science. Reviews the fundamental functions of management emphasizing the interrelationships among planning, organizing, directing, and controlling. Both the impact of organizations upon participants and the impact of participants upon organizations are studied. Examines systems approach to solving operational problems.

MGMT320 Human Resource Management (3)
Acquaints the student with concepts and techniques of the human resource management process. Emphasizes ways to increase organizational group and personal effectiveness, as well as enhancing the quality of organizational life and using the human resources available. Prerequisite: MGMT301.

MGMT340 Production Management (3)
Offered in both lecture and televised formats. Discusses applications of management science and analysis to the production function. Emphasizes operations management as it relates to product development, plant location and layout, production cost analysis, work measurement, work simplification, safety management, and quality control. Prerequisite: STAT361.

MGMT342 Job Design and Measurement (3)
Presents a comprehensive treatment of basic principles of verbal and nonverbal business communications, including business letters, memoranda, reports, oral communication, and technical report writing. Prerequisite: ENGL301.

MGMT360 Business Communications (3)
Reviews the various internal and external sources and techniques of training the work force and provides the opportunity for students to develop and implement at least one training product. Considers problems of compensation and fringe benefits in times of high inflation. Prerequisite: MGMT320.

MGMT410 International Business (3)
Presents an introduction and overview of the economic, social, and political aspects of international/multinational business theory and practice. Provides a foundation for students who wish to acquire greater knowledge and expertise in this rapidly expanding field. Prerequisite: MGMT301 or permission of instructor.

MGMT421 Labor Relations (3)
Introduces the study of management-union relations and the problems that arise for the enterprise in the managing of the union relationship as part of the human resource management function. Considers the structure, aims, and objectives of the union institution; the manner in which management deals with unions, management structure, and objectives in collective bargaining; the resolution of management-union disputes; and government regulation of collective bargaining. Prerequisite: MGMT301.

MGMT422 Behavioral Research in Business (3)
Designed to assist students who have had only a limited background in research and statistics. Emphasizes the language of research and the practical application of research designs to business. Prerequisite: STAT361.

MGMT423 Compensation and Incentive Systems (3)
Deals with a wide range of pay theories together with certain precise methods of building compensation scales. Introduces the pay survey and requires development of an individual project. Considers problems of compensation and fringe benefits in times of high inflation. Prerequisites: MGMT320.

MGMT425 Labor Markets (3)
Analysis of labor force, labor supply, wages, and unemployment in terms of labor marketing experience and current theories. Appraisal of effects of unions and government policies on the economic position of labor. Prerequisites: ECON301 and ECON302.

MGMT426 Human Resource Training and Management Development (3)
Reviews the various internal and external sources and techniques of training the work force and provides the opportunity for students to develop and implement at least one training product. Prerequisite: MGMT301.

MGMT430 Small Business Administration (3)
Focuses on understanding the principles and techniques of management in relation to a small business. Studies fundamental aspects of the managerial process, including planning, organizing, staffing, directing, and controlling. Studies marketing, finance, and computers as they relate to small business. Prerequisite: MGMT301 or permission of instructor.
MGMT432 Quality Management (3)
Provides an introduction to the economic and management aspects of quality control of products and processes.
Statistical concepts and tools related to the design and implementation of acceptance sampling plans and control charts for statistical process control will be discussed. Topics covered include control charts for variables (x- and r-charts), control charts for attributes (p- and c-charts), operating characteristic (OC) curves, producer and consumer risks, lot tolerance percent defective, acceptance quality level, quality circles, quality assurance, etc. Prerequisites: MGMT301 and STAT361.

MGMT442 Materials and Logistics Management (3)
Focuses on purchasing, operations, and transportation/physical distribution management functions. Prerequisite: MGMT340.

MGMT443 Production and Inventory Control Systems (3)
Considers the concepts and methods for planning, scheduling, and controlling manufacturing operations. Includes machine loading, applications for short-run production, and continuous production. Studies tooling, equipment, and production of manufactured and processed products. Presents applications of the management science method, including forecasting demand, scheduling production, controlling inventories, linear programming, waiting line, simulation, and statistical techniques for controlling production. Prerequisite: MGMT340.

MGMT445 Seminar in Production and Operations Management (3)
Focuses attention on the application of quantitative analysis, systems analysis, and other dynamic techniques to current operations problems. Readings, problems, classroom discussions, and group participation are required of all students. Individualized projects are possible that will be presented and evaluated in group sessions. Open to seniors only. Prerequisite: MGMT340.

MGMT455 International Business Strategy and Technology Management (3)
Management of financial, human, operations resources, and technological innovation in international contexts. Focuses on the design and implementation of corporate strategies and performance measurement. Prerequisite: MGMT410 or permission of instructor.

MGMT469 Business Policy (3)
This capstone course of the B.A. in Business Administration is designed to integrate the various functional areas of business and administration through case discussion that applies management, finance, production, marketing, economics, and accounting principles to solving business problems. Prerequisite: Last course in undergraduate program: open to degree-seeking CBPA students only. Apply for enrollment in CBPA Academic Advising Office.

MGMT470 Independent Study: . . . (3)
Independent study is intended to provide better students the opportunity to study a topic of their choice in management under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation within management and an instructor to sponsor the work. Prerequisites: Permission of instructor and dean.

MGMT480 Internship: . . . (3)
Designed to provide management students with supervised practical experiences in applied settings. Prerequisite: Permission of instructor and dean.

MGMT510 Foundations of Managerial Statistics (3)
Provides the graduate student with sufficient statistical background for the M.B.A. Includes descriptive statistics, sampling procedures, interval estimations, significance testing, correlation, regression, and the analysis of variance. The course is fast-paced and intensive. Students desiring a more leisurely introduction to the subject should take Statistics for Management I and II. Prerequisite: MATH325.

MGMT511 Statistical Data Processing for Business (3)
Deals with the systematic collection, analysis, and interpretation of business data. Topics include principles of measurement, concept of statistical design of experiments, sampling methods, handling missing data, efficient coding, and analysis using package programs. Approximately fifty percent of course time will be devoted to computer applications. Prerequisites: STAT362. MGMT510 or permission.

MGMT515 Administration of Non-Profit Organizations (3)
Stresses the relationship between the principles of business administration management and institutional management. Emphasizes the differences in goal setting and attainment and dependence upon different sources for their funds. Discusses the importance of volunteerism for a broad base of support and validation of need. Prerequisite: MGMT301 or permission of instructor.

MGMT520 Managing Automated Office Systems (3)
Applies principles of management and organization to automated (electronic) offices. Addresses the effects of integrated office systems on the organizational structure, basic office functions, the employees, and physical environment of the office. Prerequisites: MIS370 and MGMT301.

MGMT540 Business Ethics and Social Responsibility (3)
Explores the role of the corporation in modern society and its responsibilities to the public, government, and the economic and social well-being of the nation. Prerequisite: MGMT301 or permission.

MGMT550 Topics in Management: . . . (1-3)
Presents selected topics in the private and public sectors. May be repeated for credit with different topics. Prerequisites vary by topic.
MGMT850 Business Policy and Strategy (3)
Capstone course of the M.B.A. degree designed to integrate the various operating functions of a business. Shows the business as a system and demonstrates those special coordinating skills and knowledge that are necessary at the upper levels of an organization. Uses case analysis and assigned readings. Prerequisite: Last trimester of student's program; open to degree-seeking CBPA students only. Apply for enrollment in CBPA Academic Advising Office.

MGMT850 Business Instructional Internship (3)
Designed to provide vocational education teachers the opportunity to study modern business and industrial practices through a supervised experience in the private sector. Prerequisite: Occupational and vocational education teachers.

MGMT851 Innovative Methods in Occupational Programs (3)
Explores current research and teaching practices relating to the development and classroom use of individualized instruction, large-group and small-group methods, audio-visual techniques, games, and other modes of innovative instruction in business education. Assesses value and relevance of innovative methods in vocational education.

MGMT852 Organization and Administration of Cooperative Occupational Programs (3)
This is the first of two courses required for high school teacher-coordinators to be certified with the Illinois State Vocational Education Department. Deals with designing and implementing a total cooperative education program, including curricula. Discusses vocational education laws, identifying and securing training sites, preparing an effective training plan, and implementing effective public relations.

MGMT853 Coordinating Techniques of Cooperative Vocational Education Programs (3)
This is the second of two courses required for high school teacher-coordinators to be certified with the Illinois State Vocational Education Department. Focuses on the development of program policy, functioning with school and community personnel, and recruitment and selection of students. Also includes location and development of training stations, placement of students, and legal considerations and related instructions.

MGMT854 Vocational Planning for Special Needs Population (3)
Emphasizes employment opportunities, community agencies, legal aspects, and academic areas that are significant in the life of the mentally handicapped individual within the community.

MGMT855 Leadership Dynamics (3)
This course is designed to give the student an understanding of the leadership task in modern organizations. It is a skills oriented approach though the material will be linked to theory. Thus we will concentrate on application and implementation by combining lectures and readings with in class case analyses and group exercises. Prerequisite: MGMT301.
MGMT860 Issues in Public and Private Management (3)
An advanced study of organizational issues such as leadership and organizational change. Students apply the ideas to public or private organizations. **Prerequisite:** MGMT810.

MGMT865 Advanced Topics in Management: . . . (1-3)
A graduate seminar exploring selected contemporary issues in the private and public sectors. May be repeated for credit with different topics. **Prerequisites** vary by topic.

MGMT870 Independent Study: . . . (3)
Independent study is intended to provide better students an opportunity to study a topic of their choice in management under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation in management and an instructor to sponsor the work. **Prerequisites:** Permission of instructor and dean.

MGMT880 Internship: . . . (3)
Designed to provide management students with supervised experiences in applied settings. **Prerequisites:** Permission of instructor and dean.

MGMT890 Graduate Thesis/Project: . . . (6) PINC
Provides an opportunity for intensive study of a problem chosen by the student. A candidate who is approved for the thesis option will be required to defend the thesis orally. The thesis option is limited to outstanding students who have been recommended by a minimum of two faculty in the College of Business and Public Administration and approved by the dean. Students interested in pursuing a doctorate in business should select the thesis option. **Prerequisites:** Permission; last trimester of M.B.A. student's program of study.

Management Information Systems

MIS301 Basics of Information Technology (3)
Provides an introduction to the use of computers in business data processing, including introductory concepts of computer technology. Includes hands-on experience with various microcomputer software packages, focusing on student use of electronic spreadsheet, word-processing, and graphics software.

MIS310 Word Processing Applications: . . . (1)
Provides information on applications of word processing packages. See schedule for specific package covered. Credits earned in this course may not be applied toward degree requirements of the undergraduate majors in Business and Administration, Business and Technology, Computer Sciences, Criminal Justice, and Public Administration. **Prerequisite:** Familiarity with DOS on IBM microcomputers and/or PC compatibles.

MIS320 Spreadsheet Applications: . . . (1)
Provides information on applications of spreadsheet packages. See schedule for specific package covered. Credits earned in this course may not be applied toward degree requirements of the undergraduate majors in Business and Administration, Business and Technology, Computer Science, Criminal Justice, and Public Administration. **Prerequisite:** Familiarity with DOS on IBM microcomputers and/or PC compatibles.

MIS330 Database Applications: . . . (1)
Provides information on database management packages. See schedule for specific package covered. Credits earned in this course may not be applied toward degree requirements of the undergraduate majors in Business and Administration, Business and Technology, Computer Science, Criminal Justice, and Public Administration. **Prerequisite:** Familiarity with DOS on IBM microcomputers and/or PC compatibles.

MIS340 Prototyping and Business Systems Development (3)
Introduction to systems prototyping, a method for extracting, presenting, and refining a business user's needs by building a working model with the help of software tools. **Prerequisites:** MIS370 and corequisite (or prerequisite) of MIS420.

MIS410 Software Evaluation (3)
Deals with methodologies and strategies for the review and evaluation of selected applications packages. Emphasizes the procedures to evaluate packages and the related costs and efficiencies in the business context. **Prerequisite:** MIS370.

MIS420 Business Information Retrieval and Database Management (3)
Introduction to the management of database systems. Management problem solving will be related to the output of the databases to include the development of business strategies, competitive analysis, internal analysis of cost, and other selected business subjects. Commercial software will be reviewed for performance and advantage. This course will cut across functional management lines and show a relationship between the external and internal environment and the business firm. **Prerequisites:** STAT362 and MIS370.

MIS430 Business Simulation and Modeling (3)
Introduction to the uses of computers and microcomputers in creating models of business systems and simulations of business system outcomes. Covers the place of management gaming and the development of heuristic models. Introduces use of simulation languages, such as GPSS or SIMAN. **Prerequisites:** STAT362 and MIS370.
MIS440 Telecommunications and Distributed Data Systems (3)
Discussion of the fundamental terminology and operations of a data communication network, including interactive systems, distributed data processing, word processing, and local area networks. Prerequisites: MIS401 and MIS420.

MIS460 Introduction to Management Sciences (3)
Surveys the fundamentals of quantitative approaches to management decisions, including linear programming, forecasting, queuing, and inventory systems. Applications focus on business problems at an elementary level. Prerequisite: STAT362.

MIS465 Information Systems Project Management (3)
Capstone course of the MIS concentration designed to provide experiences similar to those encountered in MIS professional practice. The primary objective of this course is to integrate various concepts learned in other MIS and management courses in the context of designing, implementing, documenting, and testing a computer-based MIS project. This course will expose students to ethical concerns of the MIS profession and will emphasize strong project management and communication (oral and written) skills. Prerequisites: MIS420 and MIS430, MIS440 or concurrent enrollment.

MIS470 Independent Study (1-3)
Independent study is intended to provide better students the opportunity to study a topic of their choice in management under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation within management information systems and an instructor to sponsor the work. Prerequisites: Permission of instructor and dean.

MIS480 Internship: ... (3)
Designed to provide the management information systems student with supervised practical experiences in applied settings. Prerequisite: Permission.

MIS515 Forecasting Techniques (3)
Presents modern forecasting methods, including horizontal, trend, quadratic, adaptive smoothing, trigonometric and seasonal forecasting models, adaptive control, and Box-Jenkins models. Examines forecast errors and tracking models and uses and abuses of forecasting. Prerequisite: STAT362 or MGMT510.

MIS550 Topics in MIS ... (1-3)
This course is designed to help the student to understand how business is conducted on the Internet. The student is introduced to a variety of Internet business tools (electronic mail, Gopher, World Wide Web, FTP, Telnet, etc.). Through hands-on lab exercises, the student gains the know-how to dive in and explore the Internet confidently. The course discusses how to choose appropriate Internet software tools for various applications, and teaches how to create, implement, and maintain business applications with these tools.

MIS610 Information Systems for Managers (3)
Provides an introduction to the use of computers to manage and analyze information in business and public administration. This includes introductory concepts of computer technology and management of information systems, concepts of systems analysis and problem solving, and extensive hands-on experience with various microcomputer software packages. Prerequisite: MIS301 or permission of instructor.

MIS725 Management Information Systems for Health Administration (3)
Investigates the current status of MIS in health administration. Prepares students for the computer assisted management process of the future. Includes microcomputer applications for administrators, systems analysis and design, and computer selection strategies. Knowledge of basic computer science is desirable. Prerequisites: Computer literacy, HLAD705, and HLAD710.

MIS830 Problems in Management Information Systems (3)
Studies the application of the computer to managing the information system of organizations. Examines information requirements and systems and use of the information structure as a basis for the most effective use of the computer. Prerequisites: MIS370 or MIS610.

MIS870 Independent Study (1-3)
Independent Study is intended to provide better students an opportunity to study a topic of their choice in management under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation in management information systems and an instructor to sponsor the work. Prerequisite: Permission of instructor or dean.

MIS880 Internship: ... (3)
Designed to provide the management information systems student with supervised practical experiences in applied settings. Prerequisite: Permission.

Marketing

MKTG301 Introduction to Marketing Management (3)
Offered in both lecture and televised formats. Introduces the managerial approach to marketing. Includes study of markets, institutions, and the environment in which business and non-business enterprises operate. Emphasizes marketing decision process regarding the marketing mix, marketing program, and selected applications. Prerequisite: ECON301.

MKTG320 Consumer Behavior (3)
Draws on the behavioral sciences to provide insight into consumer needs, wants, and behavior in the marketplace. Emphasizes how the manager in business and non-business organizations can build an understanding of the individual consumer into the marketing decisions of goods and/or services. Provides an overview of the role of consumer research. Prerequisite: MKTG301.
MKTG430 Managing Market Strategies (3)
Considers the need to generate and evaluate product and price strategies. Topics typically include market analysis, market segmentation and positioning, market measurement and forecasting, product life cycles, new product, product line and portfolio decisions, brand and warranty decisions, pricing for seasonal demand shifts, pricing to deter entry of rivals, pricing for segmented markets and for multi-market and multi-product firms, internal pricing, and after-product pricing, and psychological considerations in retail pricing. Lectures are supplemented by problems, cases, and/or a simulation exercise. Prerequisite: MKTG301.

MKTG440 Marketing Logistics and Distribution (3)
Deals with the role of distribution in the marketing mix of product, price, and promotion, with emphasis on channel structure and logistical decisions. Topics include exchange and market intermediaries, types of channels and their use, structure of retailing and wholesaling, selectivity and the degree of directness in channel decisions, customer service decisions, inventory management, transportation modes, warehousing decisions, and sales forecasting. Lectures will be supplemented by problems and/or cases. Prerequisites: STAT361 and MKTG301.

MKTG445 International Marketing Strategies (3)
Marketing management of international operations. Focuses on specific managerial decisions encountered in marketing in different cultures. Prerequisite: MGMT410 or permission of instructor.

MKTG450 Promotional Strategies (3)
Considers the development and implementation of the various elements of the marketing communications program. Advertising, personal selling, publicity, public relations, and sales promotion are examined as the basis for developing effective policies and strategies for communicating with markets. Opportunities are provided to examine the marketing communications problems of non-business as well as business operations. Prerequisite: MKTG301.

MKTG460 Marketing Research (3)
Studies the research process as an aid to planning and decision making in marketing management. Topics include the role of research and information systems in defining and planning research needs, obtaining marketing information, and identifying target markets. Attention also given to product and advertising research and market and sales analysis. Prerequisites: MKTG301 and STAT361.

MKTG470 Independent Study . . . (3)
Independent study is intended to provide better students the opportunity to study a topic of their choice in marketing under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation within marketing and an instructor to sponsor the work. Prerequisites: Permission of instructor and dean.

MKTG480 Internship . . . (3)
Designed to provide marketing students with supervised practical experiences in applied settings. Prerequisite: Permission.

MKTG570 Sales Organizations (3)
Concerned with the design, development, and analysis of sales organizations, sales department relations, personnel management in the selling field, sales budgets, and cost analysis and their impact on the sales organization, and sales territories and quotas. Includes the role of the sales executive in coordinating and controlling the marketing mix. Considers current issues related to sales organizations. Prerequisite: MKTG301.

MKTG572 Business to Business Marketing (3)
Examines planning, organizing, and controlling organizational marketing activities. Studies new products and services and how they are marketed. Includes classification of products and customers, buying procedures, applications of new product development and planning procedures, sales engineering, marketing research, pricing practices, promotion applications, logistics, after sale service, and other topics. Prerequisite: MKTG301.

MKTG580 Marketing for Nonprofit Organizations (3)
An introduction to marketing concepts and tools and their applications to nonprofit organizations. Compares and contrasts different aspects of non-business and business marketing. Considers the impact of publics and the environment in developing non-business marketing programs. Prerequisite: MKTG301.

MKTG801 Problems in Marketing Management (3)
Reviews the marketing decision process with emphasis on recognition and analysis of marketing problems, generation and evaluation of alternative solutions, and development of plans and strategies for implementing chosen solutions. Provides an overview of current issues and developments in marketing. Prerequisite: MKTG301.

MKTG805 Buyer Behavior (3)
Review of the literature of buyer behavior with emphasis on central concepts and methods. An advanced treatment of motivations, perceptions, demographics, buyer search for information, models of buyer behavior, consumerism, and public policy is provided. Prerequisite: MKTG430 or MKTG801.

MKTG810 Marketing Information: Methods and Analysis (3)
An advanced treatment of the various methods in which a marketing research problem can be addressed. Develops recognition and appreciation of the environmental factors and their impact on marketing information. Focuses on the creative application and critical evaluation of the procedures of marketing information through the use of case method and research projects. Prerequisite: MKTG450 or MKTG801.

MKTG820 International Marketing (3)
Examines the role of marketing in economic development. Covers several contemporary issues in international marketing, including the impact of multi-national corporations on the world economy. Discusses different techniques of entering international markets, the basic elements underlying the development of an international marketing mix, and the forms of organization used in international marketing. Prerequisite: MKTG801.
MKTG870 Independent Study: . . . (3)
Independent study is intended to provide better students an opportunity to study a topic of their choice in marketing under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation within marketing and an instructor to sponsor the work. Prerequisites: Permission of instructor and dean.

MKTG880 Internship: . . . (3)
Designed to provide marketing students with supervised, practical experiences in applied settings. Prerequisite: Permission.

MKTG890 Graduate Thesis/Project: . . . (3) P/NC
Provides an opportunity for intensive study of a problem chosen by the student. A candidate who is approved for the thesis option will be required to defend the thesis orally. The thesis option is limited to outstanding students who have been recommended by a minimum of two faculty in the College of Business and Public Administration and approved by the dean. Students interested in pursuing a doctorate in business should select the thesis option. Prerequisites: Permission; last trimester of M.B.A. student's program of study.

Mathematics

MATH320 Mathematical Structures and Concepts I (3)
An introductory, content-oriented mathematics course, including problem solving, sets, numeration systems, integers, rational numbers, ratios, and proportions. Prerequisite: Satisfactory completion of the university basic mathematics proficiency examination.

MATH322 Mathematical Structures and Concepts II (3)
Topics include informal logic, problem solving, informal geometry, transformation geometry, tesselations, measurement, probability, and statistics. Prerequisite: MATH320.

MATH325 College Algebra (3)
Review of algebra, including factoring and operations with polynomials; exponents and radicals; first and second degree equations and inequalities; absolute value; rational, exponential, logarithmic, inverse functions, and graphs. Designed to prepare students for statistics and/or applied calculus courses. Prerequisite: Intermediate algebra or satisfactory completion of the university basic mathematics proficiency examination.

MATH330 Geometry (3)
Covers topics in geometry selected from modern elementary geometry, including transformations, Euclidean constructions, introduction to projective and non-Euclidean geometries and geometric aspects of plane trigonometry. Prerequisites: High school geometry, MATH320, and MATH325.

MATH340 Discrete Mathematics (3)
An introduction to mathematical induction, sets, relations, functions, Venn diagrams, truth tables, propositional calculus, combinatorics, graphs, directed graphs, Boolean algebra, lattices, difference equations, recursion, discrete probability, random numbers, queues, algorithms, and representations of algorithms. Prerequisite: MATH320 or MATH325.

MATH355 Applied Calculus (3)
A survey course for business students and others needing only one course in calculus. Covers basic concepts, methods, and applications of differential and integral calculus. The entering student should have a solid command of algebraic and graphical methods. Theory is presented and illustrated with examples drawn from business, economics, and natural systems. The course provides a foundation for more advanced courses in calculus, economics, science, and operations research. Prerequisite: MATH325 or satisfactory completion of the university basic mathematics proficiency examination.

MATH440 Linear Algebra (3)
An introduction to linear algebra and matrices. Topics include systems of equations, determinants, vector spaces, subspaces, linear independence and bases, linear transformations and matrices, rank, nullity, diagonalization, and quadratic forms. Includes discussion of applications of matrices in economics, linear programming, graph theory, game theory, statistics, and/or numerical analysis. Prerequisite: MATH355.

MATH450 Principles of Operations Research (3)
Introduction to the principles and methods of operations research. Draws upon calculus, statistics, and probability as prerequisites. Topics include the systems approach, linear programming, queueing theory, inventory theory, decision analysis, PERT/CPM, integer programming, and simulation. Prerequisites: MATH340, MATH355, and STAT521.

MATH455 Differential Equations (3)
A basic course in differential equations covering existence, uniqueness, homogeneous equations, first order and simple higher order equations, linear constant coefficient equations, and simultaneous equations. Introduction to numerical analysis concepts and available computer packages for numerical solutions. Prerequisites: MATH340, MATH355; MATH440 is recommended.

MATH470 Independent Study: . . . (1-4)
Individual reading, research, and/or project in mathematics under the supervision of the faculty. Prerequisite: Permission.

MATH870 Graduate Research: . . . (1-4)
Individual reading, research, and/or project in mathematics under the supervision of the faculty. Prerequisite: Permission.
Media Communications

MCOM420 Media and Society (3)  
Surveys the development and influence of the mass media, including print, broadcasting, and film. Examines psychological, social, cultural, political, and economic impact of media.

MCOM440 Television Production (4)  
Presents fundamental production techniques in color studio. Students design, write, and produce basic formats increasing in complexity; crew all positions, including camera, lighting, audio, video switcher; and demonstrate creative ability.

MCOM450 Writing for Print Media (3)  
Presents basic skills relevant to working for weekly or daily newspapers, magazines, house organs, and public relations channels. Emphasizes conventional journalistic style and structure and includes editing, copy editing, and writing of captions and headlines.

MCOM468 Senior Seminar (3)  
The capstone undergraduate course presents discussions of contemporary communication issues as well as group and individual student projects.

MCOM470 Independent Study: ... (1-4)  
Individual reading, research, and/or project in media communications under the supervision of the faculty. Prerequisite: Permission.

MCOM480 Internship: ... (1-4)  
Designed to provide the media communications student with supervised practical experiences in applied settings, both on and off campus. Students may work in specialized areas in Governors State University's Communications Services Center. May be repeated. Prerequisites: Prior production courses in area of work and permission.

MCOM505 Media Symposium: ... (1) PINC  
A workshop exploring selected issues in depth. Faculty of the media program are joined by media professionals, social critics, community leaders, and public officials as well as other university faculty.

MCOM510 Theory and History of a Free Press (3)  

MCOM511 Communications Ethics (3)  
Examines the principles of personal, public, and media ethics. Historical and contemporary approaches to ethical behavior are explored. Current issues serve as a focus for class discussion and assignments.

MCOM512 Media Communications Law (3)  
Examines, details, and evaluates various contemporary issues in media law from the perspective of the communicator. Includes free speech principles, First Amendment issues, libel, broadcast regulation, right of privacy, copyright, fair trial/free press.

MCOM520 Audio Production (4)  
Production in the audio medium. Students learn correct studio and remote production procedures, editing, and mixing on media laboratory equipment. Seven projects are produced for student portfolios.

MCOM525 Desktop Publishing (3)  
This course is intended to serve as an introduction to computerized graphic arts production for art, communications, and other majors. While the computer and desktop publishing software have put very powerful design and page layout tools into the hands of a broad range of users, few of these users have had any training in art, text, visual, and layout design. The result of this is often technically sophisticated but naive output. To help users of these technologies produce work that is both competent and imaginative, this course will serve as a survey of available production techniques as well as a basic introduction to the principles of text, visual, and layout design.

MCOM531 Writing for Radio and Television (3)  
Exercises and script writing for radio and television.

MCOM532 Writing for Film and Television (3)  
Advanced script writing class for students who understand terminology, production fundamentals, and creating visual sequences for film. Prerequisite: Writing class in film and television, or experience in script writing for film or television.

MCOM534 Video Production Editing (3)  
Provides students with in-depth video editing in VHS and S-VHS formats. Prerequisite: MCOM 440 or permission.

MCOM535 Television: Remote Techniques (3)  
Considers non-studio production using portable video equipment. Provides practical experience in both remote shooting and editing. Prerequisites: MCOM440, MCOM534, or permission.

MCOM539 Advanced Television Production (4)  
Emphasizes advanced video production techniques as well as a basic introduction to the principles of text, visual, and layout design. The result of this is often technically sophisticated but naive output. To help users of these technologies produce work that is both competent and imaginative, this course will serve as a survey of available production techniques as well as a basic introduction to the principles of text, visual, and layout design.

MCOM540 Film Seminar: ... (3)  
A workshop exploring selected issues in depth. Faculty of the media program are joined by media professionals, social critics, community leaders, and public officials as well as other university faculty.

MCOM542 Film and TV Documentary (3)  
Examines style and influence of key documentary filmmakers. Identifies film techniques used to document events. Analyzes issues in documentary filmmaking. Describes effects documentary film has on perception of events and issues.

MCOM546 Advanced Video Editing (3)  
Advanced video editing techniques for students who have completed basic video production and editing. Students will work in Media Lab with computer editor, video toaster, and A/B roll equipment. Prerequisites: Basic video production (MCOM440) and basic video editing (MCOM534) or permission.
MCOM548 On-Air Performance (3)
Provides students with direction and constructive critique of on-mike and on-camera performance and affords non-performers an awareness of the problems faced by on-air talent.

MCOM550 Newswriting and Reporting (3)
Emphasizes interviewing and research skills. Covers speeches and meetings, single and multi-source articles.

MCOM551 Introduction to Public Relations (3)
Introduces the beginning student to the public relations profession and to the tools used by practitioners. Presents the history and philosophy of public relations, and trains the student in the techniques of preparing public relations plans to satisfy the needs of both private businesses and public institutions/organizations. Prerequisite: MCOM550 or permission.

MCOM552 Public Relations Case Studies (3)
Provides an in-depth study of several actual public relations cases. Exposes students to a series of imaginary public relations situations that permit students to develop their own solutions and approaches to the problems that have been related in the various scenarios. Prerequisite: MCOM551.

MCOM555 Broadcast Journalism (3)
Principles and practices for the broadcast journalist. Translates theory into practical experience by covering stories for radio and television. Laboratory experiences, including electronic news gathering (ENG), are an essential part of the course. Prerequisite: Prior journalism course.

MCOM560 Women in the Media (3)
Examines historical and contemporary role of women communicators—reporters, publishers, editors, broadcasters, and filmmakers. Analyzes image of women as expressed in American media, both general and women’s media, from 17th century to present.

MCOM565 Broadcasting in America (3)
Examines the development, structure, content, context, and influences of the broadcast media.

MCOM 566 Broadcast Programming History (3)
A comprehensive examination of the history and trends in American radio and television from 1920 to the present. Original source material is used.

MCOM567 Children and Television (3)
Explores children’s television programming and its impact. Evaluates such programming in terms of its production quality, social values, and educational entertainment values. Identifies resources of children’s television viewing in relation to development of the child.

MCOM570 Media Workshops: . . . (1-4)
Specific media technologies, skills, and issues are considered in a series of workshops using outside resources. Workshops may be repeated for different subjects. Prerequisites: Will vary depending upon specificity of particular workshop.

MCOM601 Creative Dramatics Workshop (1-3)
Offered in televised format only. Introduces the creative dramatics process to classroom teachers for use in many subject areas. Includes explanation, demonstration, and discussion of theater games, exercises, and other techniques that will help provide sensory experiences for children and contribute to a more humanistic approach to education. Prerequisite: Graduate standing or permission of instructor.

MCOM630 Television Directing (4)
Studio-oriented course on the techniques of television directing. Focuses on television aesthetics and unique aspects of medium. Prerequisites: MCOM440, MCOM539, or permission.

MCOM651 Investigative and Specialized Reporting (3)
Analyzes and applies investigative reporting approaches and techniques, emphasizing interviewing and scientific research methods. Covers several beats, including education, science, business, crime, politics, and urban affairs. Prerequisite: Prior journalism course work or experience.

MCOM660 Non-Broadcast Television Operations (3)
Provides students with experience in non-broadcast TV in corporate operations, including services provided by departments in businesses, industries, educational institutions, medical facilities, and government departments (including the military). Emphasizes the uses of non-broadcast TV for instruction, information, promotion, public relations training, employee orientations, production controls, and corporate communication. Incorporates several field trips and guest speakers to address issues. Prerequisite: MCOM440.

MCOM740 Trends in Communications Technologies (3)
Examines emerging communications technologies, applications and issues, including converging digital technologies and multi-media; the Internet and World Wide Web; communications satellites; video distribution systems including cable, video cassettes and disks; and virtual reality. Also considers programming and content planned or available.

MCOM750 Feature and Review Writing (3)
Advanced writing for students interested in staff or freelance careers in professional journalism. Lab work may be published and emphasizes the interrelationship of style and content. Covers profiles, color stories, and reviews of various arts and media. Prerequisite: Prior journalism course work or experience or permission.

MCOM755 Media Management (3)
Examines management of broadcasting, cablecasting, and corporate media. Focuses on management functions in various-sized markets, including personnel, programming, community relations, and promotion. Also considers emerging challenges to managers, such as impact of new technologies and changing laws and regulations.

MCOM803 Contemporary Issues: . . . (3)
A graduate seminar exploring a selected issue in media, communication, or popular culture. May be repeated for credit.
Selected disease states are presented along with pertinent clinical laboratory data. Quality control procedures are explained. Chemistry techniques, mathematics, and instrumentation are emphasized. Conditions of the various cellular elements of the blood are considered, including erythrocytes, leukocytes, thrombocytes, and their precursors. The anemias and leukemias are emphasized with case studies to correlate laboratory results with pathophysiology. Also covered are the collection and handling of specimens and antibiotic susceptibility testing. Prerequisite: Medical technology majors.

MEDT330 Practicum II (3)
One of a series of practica in clinical laboratory science procedure. Includes quality assurance, instrument maintenance, performance of basic diagnostic tests, problem solving, and test interpretation. Prerequisites: Medical technology majors and evidence of health insurance coverage.

MEDT331 Renal Physiology and Body Fluid Analyses (1)
Urinary tract structure, function, and pathology are presented and correlated with urine laboratory findings. Introduces urine pregnancy testing, analyses of several body fluids, and the principles of their testing. Prerequisite: MEDT321.

MEDT350 Practicum III (3)
One of a series of practica in clinical laboratory science procedure. Includes quality assurance, instrument maintenance, performance of basic diagnostic tests, problem solving, and test interpretation. Prerequisites: MEDT330 and evidence of health insurance coverage.

MEDT351 Blood Bank I (1)
An introduction to immunohematology, the blood group systems, donor procurement, and compatibility testing. Study of the immunohematological concepts and their application to the appropriate selection of blood or blood components for patient administration. Prerequisite: MEDT340.

MEDT353 Phlebotomy Techniques I (1) P/N/C
Focuses on methods for obtaining blood specimens skillfully and properly in various health area environments and emphasizes appropriate professional behavior while performing this task. Also covers blood specimen quality and associated prelaboratory and laboratory variables. Prerequisites: Medical technology majors and evidence of health insurance coverage.

MEDT410 Hematology II (2)
A continued study of the cellular elements of blood with an emphasis on the hematologic disorders of erythrocytes, leukocytes, thrombocytes, and their precursors. The anemias and leukemias are emphasized with case studies to correlate laboratory results with pathophysiology. Prerequisite: MEDT321.

MEDT420 Practicum IV (4)
One of a series of practica in clinical laboratory science procedure. Includes quality assurance, instrument maintenance, performance of diagnostic tests, problem solving, and test interpretation. Provides supervised clinical laboratory experience in a health care setting. Prerequisites: MEDT350 and evidence of health insurance coverage.
MEDT421 Hemostasis (1)
Presents the theoretical concepts of hemostasis and coagulation testing. Inherited and acquired disorders are discussed as well as the principles of anticoagulant therapy. Prerequisite: MEDT321.

MEDT423 Clinical Microbiology II (2)
Emphasis is on theoretical principles of the methods used for the isolation and identification of anaerobic bacteria and fungi. The disease patterns produced by the anaerobes and fungi groups are studied. Course also covers parasitology, serology, and virology with emphasis on the correlation of the human immune response with laboratory procedures. Prerequisite: MEDT323.

MEDT430 Practicum V (4)
One of a series of practica in clinical laboratory science procedure. Includes quality assurance, instrument maintenance, performance of diagnostic tests, problem solving, and interpretation. Provides supervised clinical laboratory experience in a health care setting. Prerequisites: MEDT420 and evidence of health insurance coverage.

MEDT432 Blood Bank II (2)
The immunohematological concepts covered in Blood Bank I will be applied to problems in compatibility testing, antibody identification, hemolytic disease of the newborn, and prenatal testing. Prerequisite: MEDT351.

MEDT433 Clinical Chemistry II (2)
Explores advanced topics in clinical chemistry. Prerequisite: MEDT322.

MEDT435 Topics in Clinical Laboratory Science Education (2)
Students will have the opportunity to develop skills in teaching didactic and clinical areas. Skills in cognitive, psychomotor, and affective evaluation will be explored. Prerequisite: Medical technology majors or permission.

MEDT440 Practicum VI: Special Project (2)
This course is the last in a series of practica that cover the skills and theory of clinical laboratory science. Students will design, participate in, and evaluate a laboratory practicum project individually tailored to each student's career interests. Prerequisites: MEDT430 and evidence of health insurance coverage.

MEDT441 Phlebotomy Techniques II (1) P/N/C
Involves practice of the basic techniques learned in Phlebotomy I and expands upon them to assess difficult venipuncture situations. Emphasizes the use of standard and specialized phlebotomy equipment and the drawing of special procedures. Prerequisites: MEDT353 and evidence of health insurance coverage.

MEDT450 Professional Issues in Clinical Laboratory Science (1)
Students will discuss and develop strategies to deal with interpersonal conflicts and explore leadership styles. Certification, employment trends, and other professional issues will be reviewed. An overview of research methods will be given. Prerequisite: Medical technology majors.

MEDT465 Laboratory Management (2)
Addresses important areas within the scope of today's clinical laboratory manager. Prerequisite: MEDT430 or permission.

MEDT466 Certification Review (1) P/N/C
A series of review classes designed to prepare the student for certification examinations in the field of clinical laboratory science. Also may be used as method for updating knowledge of current clinical laboratory practice. Prerequisite: Medical technology majors or permission.

Music

MUS303 Survey of Music History (3)
Offered in both lecture and televised formats. Designed to give students a basic grasp of the historical periods of music and to provide understanding of the types, forms, and styles of music literature. The history of music is approached in a quasi-chronological framework beginning with the common practice period, working through baroque, classical, romantic and twentieth century periods. Medieval and Renaissance periods are studied selectively.

MUS320 20th Century Music (3)
Studies music during the early history of the twentieth century. Includes post-romanticism, impressionism, and nationalism.

MUS410 African-American Music (3)
Offered in both lecture and televised formats. A survey of various modes of musical expression characterizing the black man's contributions to American culture. Covers west African sounds (1619-1800), jazz, spiritual, gospel, and contemporary soul.

Nursing

NURS304 Conceptual Basis for Professional Nursing (3)
Emphasizes professional approaches to nursing practices and builds upon rather than duplicates education received in a basic nursing program. Focuses on a conceptual approach in exploring dimensions of practice and client care issues, reflecting nursing's strategic position and ability to influence decisions and policies relative to social, ethical, political, legal, and economic environments. Prerequisite: Fulfillment of requirements for admission to the B.S. in Nursing or classification as a conditional degree-seeking or special nondegree-seeking student.
NURS306 Gerontological Nursing: Health Promotion for Older Adults (3)
Focuses on theories, concepts, and practices of primary and tertiary prevention among aging adults living in community settings. Physiological, psychosocial, and cultural factors related to aging, as well as chronic illnesses that affect people in later maturity, are explored. The nursing process with the aging adult is emphasized, and resources that assist the elderly in health care are examined. The interdisciplinary nature of gerontological theory and practice is explored. Prerequisites: Admission to the Nursing Program and completion or concurrent enrollment in NURS304.

NURS311 Collaboration in Nursing (3)
Focuses on collaboration among health care professionals in the delivery of health care and its impact on professional nursing practice. Further examines the role of the professional nurse functioning in the health care delivery system in a changing society. Explores the emerging role of the nurse from a historical perspective. Prerequisite: NURS304.

NURS320 Teaching Individuals, Families, and Communities (3)
Designed to develop the knowledge and skills of the teaching/learning process in nursing as applied to various client-centered health problems. Objectives are prepared for teaching and evaluating client learning. Prerequisite: NURS304.

NURS330 Nursing: Health Assessment (5)
Designed to develop skill in the physical, social, and psychological assessment of clients. Provides both theoretical and technical background in examination and diagnosis. Faculty supervised on-campus laboratory practice is done weekly using models and students in the course as subjects. Off-campus clinical component allows students, under faculty supervision, to validate learned skills on well clients in selected health care settings. Prerequisites: BIOL444, BIOL446, PHIL386, NURS304, NURS311, and NURS320.

NURS400 Nursing Research: Analysis and Utilization (3)
Provides an introduction to the methods, development, accomplishments, needs, and trends of nursing research. Emphasis is placed on developing the student's ability to analyze and apply the products of nursing research. Prerequisites: PHIL386, STAT468, and NURS330.

NURS410 Management in Nursing Care (3)
A study of the nurse manager's roles, functions, and responsibilities in professional nursing practice. Selected theories and principles of management styles are analyzed in relation to their effects on clients, families, and co-workers. Prerequisite: NURS330.

NURS420 Community Health Nursing (7)
This senior-level course focuses on the family, the community, public health, and nursing service directed to meet the needs of each of these entities. Faculty supervised clinical experiences are conducted through local community health nursing agencies and other varied community health settings. The roles and functions of the nurse in the distributive setting are developed during home visits and other nursing situations. Concepts of adaptation, change, communication, role, and others are emphasized within a systems framework. Prerequisites: NURS311, NURS320, NURS330, and NURS410 or concurrent enrollment, permission of instructor.

NURS430 Episodic Nursing (7)
Emphasis on the development of the nurse's role and function in episodic settings where patients of all ages are experiencing life-threatening illnesses. Theories of stress, psychosocial support systems, communication, and role development constitute the foundation for clinical practice. Prerequisites: NURS330; NURS410, or concurrent enrollment; and permission of instructor.

NURS440 Nursing Seminar and Practicum (4)
Students engage in terminal integrating experience that will demonstrate the use of a variety of learning experiences for initiating and implementing change in nursing practice and client care of all ages in episodic or distributive settings. Students develop and present a project demonstrating integration and proficiency in all nursing program competencies. Research findings are used. Prerequisites: All major nursing courses, STAT468, and permission of instructor.

NURS470 Independent Study: . . . (1-8)
Individual reading, research, and/or project in nursing under the supervision of the faculty. Prerequisite: Permission.

NURS480 Internship: . . . (1-8)
Designed to provide nursing students with supervised practical experiences in applied settings. Prerequisite: Permission.

NURS500 Foundations of Critical Care Nursing (3)
This course is designed to introduce students to basic theory and practice and facilitates preparation for the critical care certification exam (CCRN) offered by AACN and/or the advanced cardiac life support (ACLS) certification offered by the American Heart Association. Prerequisites: Current RN licensure; CPR certification.

NURS600 Special Topics in Nursing: Health Care of the School-Age Population (3)
Seminar for registered nurses preparing for Illinois Type 73 School Nurse Certification. Focuses on issues and concerns for the educational preparation required of school nurses for a comprehensive school health program. Emphasis is on the roles and functions of the school nurse in meeting the needs of school-aged populations within the context of the school-health program in kindergarten through grade 12 environments. Prerequisites: Approved nurse certification program study plan, signed contract with school nurse supervisor; completion of other state mandated course work; or verification by transcript evaluation. Instructor approval for students not in the certification program.
NURS605 Special Topics in Nursing: School Nurse Internship (5-8)
Supervised activities in school health settings tailored to the individual intern's needs in preparing for Illinois Type 73 school nurse certification. Primary placement will be in a public school setting with a previously approved certified school nurse. Prerequisites: Completion of required didactic course work. Nursing 600 may be taken concurrently. No other exceptions.

NURS740 Concepts in Advanced Practice Nursing (3)
Integrates conceptual complexities of health maintenance, promotion, and restoration, incorporating knowledge from biological, behavioral, cultural, and environmental sciences, nursing, and research dynamics. Evaluates multidimensional health care client needs with nursing interventions throughout the life span and along the health-illness continuum. Focus is on knowledge, concepts, and clinical judgments needed in advanced practice nursing. Prerequisite: Graduate nursing majors.

NURS750 Advanced Clinical Pathophysiology (5)
Analysis of mechanistic and regulatory deficits in altered physiological states. Emphasis is on cellular events as related to various pathological conditions and their multisystem effects on clients encountered in advanced practice nursing. Prerequisite: Graduate nursing majors or consent of the professor.

NURS755 Nursing Theories and Models (3)
Systematic examination of theories and concepts common to all nursing practice. Analysis of the general systems approach as a basis for developing a theoretical framework for nursing practice. Students develop models for clinical nursing practice incorporating the concepts of health promotion, restoration, and maintenance. Prerequisites: NURS740 and NURS750.

NURS780 Advanced Health Assessment (4)
Builds upon cognitive and assessment skills developed in a basic comprehensive physical assessment course. Focus is on interviewing and examining adult and pediatric clients to diagnose potential and actual health problems. Prerequisites: NURS740 and NURS750.

NURS785 Research for Advanced Nursing Practice (3)
Integration of research methodology, nursing theory, and statistics to formulate a proposal for conducting a pilot study to identify strengths and weaknesses in the intended design, sample population, and data collection instrument. Prerequisites: NURS755 and NURS780.

NURS801 Pharmacotherapeutic Nursing (3)
Prepares the advanced practice nurse to manage and evaluate drug therapies in clients who experience acute or chronic health problems. Focuses on pharmacotherapeutics and pharmacokinetics of drugs used with clients in advanced nursing practice. Prerequisite: Admission to degree candidacy or permission of the professor.

NURS804 Seminar and Practicum in Acute Care Nursing (5)
Management of the health/illness status of acutely ill clients through application of advanced knowledge and skills in nursing, health assessment, pathophysiology, pharmacology, and case management processes. Prerequisite: Admission to degree candidacy.

NURS805 Seminar and Practicum in Chronic Care Nursing (5)
Management of the health/illness status of chronically ill clients through application of advanced knowledge and skills in nursing, health assessment, pathophysiology, pharmacology, case management processes, and acute care. Prerequisites: NURS801 and NURS804.

NURS806 Nursing and Health Care Policy (3)
Analysis of changing economic, sociopolitical, legislative, and organizational systems that shape health care policies and the impact these policies have on the nursing profession and the nation's health care systems. Examines the opportunities, obligations, and limitations the nursing profession has in formulating health care policies. Prerequisites: NURS801 and NURS804.

NURS820 Clinical Nurse Specialist (3)
An examination of historical, theoretical, and conceptual bases of CNS role development, advanced practice, and evaluation. Emphasis on subroles and competencies of the CNS as expert practitioner, consultant, educator, researcher, collaborator, and clinical leader. Students develop a CNS model which defines, promotes, and supports advanced practice for clients with acute or chronic health care needs. Prerequisites: NURS805 and NURS806.

NURS830 Nurse Educator (3)
Provides preparation for teaching nursing in a variety of institutional settings. Includes topics on the nature of higher education, nursing education, and faculty roles. Explores curriculum designs, the instructional process, evaluation, and issues in nursing education. Prerequisites: NURS805 and NURS806.

NURS835 Nurse Administrator (3)
Explores the history and trends in nursing administration. Emphasizes theoretical approaches to the process of nursing administration within the organizational framework of nursing services utilizing the decision-making process and the concepts of human behavior. Prerequisites: NURS805 and NURS806.

NURS845 Seminar and Practicum for Clinical Specialists (4)
Provides graduate students with field experiences implementing the role of clinical nurse specialist. Students work with acutely and chronically ill clients incorporating advanced practice models in a variety of health care settings with a clinical nurse specialist and faculty supervision. Prerequisites: NURS820 and permission of the professor.

NURS850 Seminar and Practicum for Nurse Educators (4)
Involves students experimenting with various teaching/learning theories and strategies in selected nursing education settings. Focuses on implementation of the role of teacher and its application to nursing education systems. Concurrent seminars focus on functions unique to the nurse educator. Prerequisites: NURS830 and permission of the professor.
**NURS855 Seminar and Practicum for Nurse Administrators (4)**
Focuses on the implementation of the role of the nursing administrator in selected health care agencies. Concurrent seminars focus on functions unique to nursing administrative roles. Prerequisite: NURS855 and permission of the professor.

**NURS870 Independent Study: . . . (1-8)**
Individual reading, research, and/or project in nursing under the supervision of the faculty. Prerequisite: Permission.

**NURS880 Internship: . . . (1-8)**
Designed to provide nursing students with supervised practical experiences in applied settings. Prerequisite: Permission.

**NURS890 Graduate Thesis/Project: . . . (1-8) P/NC**
Provides the nursing student the opportunity to synthesize graduate course work by developing and completing a thesis or project specific to the student's interests in nursing. Prerequisites: Degree candidacy and permission of thesis advisor.

### Occupational Therapy

**OCCT440 Orientation to Occupational Therapy (2)**
This course is a mandatory prerequisite class for all students interested in admission to the Master of Occupational Therapy Program. This course is designed to introduce the student to the field and profession of occupational therapy, with specific emphasis on the history of the profession, the various areas of practice, and the impact of current health care trends. Personal characteristics and qualities, team values and concepts, and professional standards, ethics, and terminology will be discussed.

**OCCT720 Theories of Occupation (3)**
Examines the meaning and history of occupation. Presents a critical overview of concepts, models and paradigms of the past, present, and future effects upon occupational therapy practice. Explores the components of theory and the relationship to clinical thinking in the practice of occupational therapy. Prerequisite: Admission to the Occupational Therapy Program.

**OCCT725 Advanced Special Topics (3)**
Course will explore specific topics, issues, intervention, approaches, and new developments in occupational therapy and related areas. Prerequisite: Graduate Occupational Therapy majors.

**OCCT730 Team Theory and Practice with Level I Practicum (4)**
This course provides the student with the concept of a 'team'. Topics will cover teaming with other OTR's and COTA's, interdisciplinary teaming in medical, school, residential and vocational settings, the third party payer as part of the team, as well as person/client centered teaming. The nature, concerns, roles, and process of teams will be discussed. Lecture and Level I fieldwork. Prerequisite: Graduate Occupational Therapy majors.

**OCCT740 Psychosocial Knowledge (3)**
Reviews psychosocial disorders and various theories and conceptual models utilized for intervention. Examines how various psychological, social, and behavioral components of psychosocial disorders affect occupational performance. Includes psychosocial aspects of the family, physical illness, and cultural perspectives of mental health. Also reviews the theoretical roots of the practice of psychosocial occupational therapy. Prerequisite: Admission to the Occupational Therapy Program.

**OCCT750 Occupational Therapy Process (3)**
This course defines assessment and will demonstrate to the student how to set parameters for evaluation criteria needed to determine intervention. It will begin with the basis of activity and analyses and observation skills following a continuum of the assessment process. Students will become aware of various quantitative and qualitative evaluation methods providing a repertoire of tests and measurements to choose from depending on what is being assessed. Prerequisite: Admission to the Occupational Therapy Program.

**OCCT760 Human Development and Performance/Lab I (3)**
The study of normal human development from prenatal through adolescence stressing the aspects of physical and motor development as well as psychological, sensory, perceptual, cognitive, and social interactions. Prerequisite: Graduate Occupational Therapy and Physical Therapy majors or permission of instructor.

**OCCT770 Human Development and Performance/Lab II (3)**
The study of normal human development from early adulthood through senescence and death. This course will stress aspects of physical and motor development, as well as psychological, sensory, perceptual, cognitive, and social interactions. Prerequisite: OCCT760.

**OCCT780 Methods and Statistics for Clinical Research (2)**
This course is designed to provide the student with the research background and tools to design clinical research in occupational therapy. Prerequisite: Admission to the Occupational Therapy Program.

**OCCT800 Occupational Therapy Assessment and Intervention I with Level I Fieldwork (5)**
Assessment/intervention for infants and children through adolescence will be provided. Identification, etiology, progression and prognosis of congenital, developmental, medical, and psychosocial influences upon occupational performance are examined. This course will cover the assessment process, including needs identification, the use of specific evaluation procedures, and documentation. Specific emphasis is placed on the role of the occupational therapist in various service delivery settings (i.e., early childhood and school practice). Lecture, lab, and fieldwork. Prerequisite: Admission to the Occupational Therapy Program.
*OCCT810 Occupational Therapy Assessment and Intervention II with Level I Fieldwork (5)
Assessment/intervention for young adults through senescence. Identification, etiology, progression, and prognosis of congenital, developmental, medical, and psychosocial influences upon occupational performance are examined (i.e., CVA, TBI, Guillain-Barre, Multiple Sclerosis, Post-Polio Syndrome, other neurological conditions, orthopedic conditions, hand injuries, immunological conditions such as rheumatic diseases, HIV, psychiatric disorders, such as stress and neurosis). Assessment process, including needs identification, the use of specific evaluation procedures with focus on biopsychosocial and biomechanical approaches and documentation. Specific emphasis is placed on the role of the occupational therapist in various service delivery settings (i.e., acute, subacute, rehabilitation, outpatient, home health, and other community based programs). Lecture, lab, and Level I fieldwork. Prerequisite: OCCT800 Occupational Therapy Assessment and Intervention I and graduate Occupational Therapy majors.

*OCCT820 Assistive Technology (2)
Course designed for trimester blocks 2 and 3 with introductory focus on light to high technology intervention for independence in activities of daily living, communication, mobility, work and control of the environment. Emphasis will focus on the assessment criteria to determine goals and the need for assistive technology, as well as the occupational therapist's role in assessment and intervention. Catalog surveys, available equipment, basic fabrication, assembly and repair skill (i.e., dressing, feeding, grooming, communication products, toys, and simple switch interfaces) will be explored. The student will have the opportunity to try various pieces of assistive technology and to observe individuals using this technology. The role of the rehabilitation engineer, rehabilitation technology supplier, assistive technology supplier, and assistive technology provider will be introduced. Lecture and lab. Prerequisite: Graduate Occupational Therapy majors.

*OCCT830 Models of Health (3)
Reviews definitions of health, including that of the World Health Organization. Examines models of disability. Explores concepts of health, wellness, illness, disease, prevention, and holistic health, as well as how each impacts on occupational therapy practice. Prerequisite: Permission.

*OCCT840 Managing Occupational Therapy Services (4)
Introduction to the basic principles of managing occupational therapy services. Supervision, staffing, planning, budgeting, quality management, program design, and management will be presented. The role of the occupational therapist as a team member and case manager will be explored. Prerequisite: Graduate Occupational Therapy majors.

*OCCT860 Methods: Strategies and Tools for Intervention (2)
Course designed for trimester blocks 2 and 3 for an introduction to the general principals of orthotics/prosthetics and environmental adaptation/ergonomics. Emphasis is placed on evaluating, fabricating, and training in the use of orthotic devices. Basic clinical problem-solving skills are reinforced in the context of orthotic and prosthetic management of use. Course will also focus on the environment and environmental influences that affect a person's performance. Students engage in evaluating, adapting, and developing a plan that provides a safe and optimum living environment. Methods include lecture, discussion, and laboratory. Prerequisite: Graduate Occupational Therapy majors.

*OCCT865 Occupational Therapy Level II Fieldwork A (6)
Twelve weeks, full-time or equivalent, designed to provide occupational therapy students with supervised practical experiences in applied settings. Prerequisite: Graduate Occupational Therapy majors.

*OCCT868 Occupational Therapy Level II Fieldwork B (6)
Twelve weeks, full-time or equivalent, designed to provide occupational therapy students with supervised practical experiences in applied settings. Prerequisite: Graduate Occupational Therapy majors.

*OCCT870 Independent Research Study (1)
Implementation of a master's project. Self-directed activities will culminate in a formal presentation of project results. Students will present in a professional format, such as a scientific poster or manuscript for publication. Prerequisite: Graduate Occupational Therapy majors.

Note: Courses are subject to change given the developing status of the Occupational Therapy Program.

*Pending approval of the University Curriculum Committee.

Philosophy

PHIL301 Studies in Philosophy (3)
Explores basic judgments on the nature of man, society, government, and the universe with a view toward clarifying the issues that lie at the core of controversy.

PHIL311 Studies in Religion (3)
Offered in televised format only.
A review of various approaches to religion: philosophical, theological, sociological, psychological. Discussion of the differing forms of religion, theories on their origins, and comparative views of the major world religions.

PHIL330 Ethics in Health Care (3)
Presents some of the major ethical problems confronting society, the health care system, and the health care administrator. Each student will be encouraged to synthesize a personal professional philosophy to deal with the ethical dilemmas inherent in health services delivery.
PHIL371 Theory of Knowledge (3)
Designed specifically to assist students in achieving knowledge related to the philosophical and scientific view of knowledge. Organized into two distinct parts: Part I, the nature of knowledge, considers the various philosophical interpretations of knowledge and the process of knowing; Part II, evolution, is devoted to a study of the history of evolutionary thought as an example of the development of scientific knowledge.

PHIL386 Logic (3)
A study of the basic structure and principles of valid deduction and warranted induction and application of such knowledge in the analysis and assessment of public issues found in the mass media.

PHIL470 Independent Study: . . . (1-4)
Individual reading, research, and/or project in philosophy under the supervision of the faculty. Prerequisite: Permission.

PHIL501 Age of Enlightenment I (3)
Offered in televised format only. Explores the culture of the eighteenth century Age of Reason at its height through the close study of a number of major texts and of certain leading figures. The "texts" consist not only of works of literature, philosophy, and history but also of paintings and musical compositions.

PHIL502 Age of Enlightenment II (3)
Offered in televised format only. Continuation of PHIL501.

PHIL524 Chinese Thought (3)
A study of the major Chinese thinkers and their writings.

PHIL533 Aesthetics (3)
Analyzes the concepts of meaning, communication, and truth in art. Deals with the identification and definition of a work of art, the criteria or judgment of excellence, the nature of the aesthetic experience, and the place of art in human experience.

PHIL542 Ethics (3)
An in-depth examination of the controversial moral dilemmas perplexing modern Americans. Eight scholarly writers explore the dilemmas surrounding such issues as crime and punishment, political and business ethics, and individual behavior.

Physical Therapy

PHYT701 Patient Care Fundamentals (2)
This course is designed to provide the student with basic patient care skills necessary for any treatment in physical therapy. These include medical terminology, basic communication skills, documentation, vital signs, positioning, draping, the biomechanics of moving, lifting and transferring patients, ambulatory aids, wheelchairs, activities of daily living, and aseptic techniques. Prerequisite: Open only to Physical Therapy majors.

PHYT702 Patient Care Fundamentals Laboratory (1)
This course is designed to provide the student with an opportunity to observe, practice, and become proficient in the performance of basic patient care skills utilized in all physical therapy treatments that were covered in PHYT701. Corequisite: PHYT701.

PHYT705 Movement Analysis I (2)
This course is designed to complement Gross Anatomy I (BIOL701/702) by applying the knowledge of structures to their participation in human movement. This course examines the static and dynamic relationships between the function and structure of the musculoskeletal system under normal and abnormal conditions. Emphasis is placed on movement performed with the torso and upper extremities and their application to specific joint, region and/or whole body movements. Prerequisite: Admission into the Occupational Therapy program or the Physical Therapy program.

PHYT706 Movement Analysis I Laboratory (1)
This course is designed to complement Gross Anatomy I and Movement Analysis I by providing hands-on experience with the kinesiological and biomechanical principles covered in PHYT705. Will include surface anatomy and development of palpation skills. Corequisite: PHYT705.

PHYT711 Foundations of Therapeutic Exercise (2)
This course is designed to complement both the Movement Analysis and Clinical Orthopedics courses. The focus is on implementation of tools used for the evaluation of biomechanical principles and basic orthopedic evaluation. These will include the use of palpation, massage, range of motion, goniometric evaluation, and muscle testing. Information will be presented in multiple formats, including lecture, demonstration, and laboratory practice. Clinical case studies will be a component of this course. Prerequisites: PHYT701/702.

PHYT715 Movement Analysis II (2)
This course is a continuation of Movement Analysis I and similarly is designed to complement Gross Anatomy II (BIOL711/712) by applying the knowledge of structures to their participation in human movement. Emphasis is placed on movement performed with the pelvis and lower extremities and their application to specific joint, region and/or whole body movements. This course concludes with an in-depth analysis of human posture and gait patterns. Prerequisites: PHYT705/706.

PHYT716 Movement Analysis II Laboratory (1)
This course provides the student with the hands-on experience to apply the kinesiological and biomechanical principles covered in PHYT715. Corequisite: PHYT715.

PHYT717 Clinical Orthopedics I (2)
This course provides the student with the foundations of orthopedic physical therapy evaluation and differential diagnosis of musculoskeletal problems. Using a regional approach, students will learn the signs, symptoms, and special tests for common musculoskeletal problems. Clinical case studies and critical thinking exercises will be integral parts of this course. Prerequisites: PHYT705/706.
PHYT718 Clinical Orthopedics I Laboratory (1)
This course allows students the opportunity to practice and perfect the necessary evaluative palpation, special tests, and assessments appropriate to orthopedic physical therapy. Student will develop their own scheme for evaluating orthopedic dysfunction. Clinical case studies and critical thinking exercises will be integral parts of this course.
Corequisite: PHYT717.

PHYT728 Physical and Electrical Agents in Physical Therapy (3)
This course provides the student with the theory and clinical application of physical therapy modalities, including, but not limited to, heat, ultrasound, hydrotherapy, and cryotherapy. This course also overviews current electrotherapy techniques, including biofeedback, electrical stimulation, and electrophysiologic testing of muscles and nerves. Course includes lecture, demonstration, and laboratory practice.
Prerequisites: BIOL706, BIOL716, PHYT701/702.

PHYT729 Clinical Practicum (1)
For this clinical experience, emphasis will be on the application of basic physical therapy evaluation skills as covered in Foundations of Therapeutic Exercise and Clinical Orthopedics I. Students will be supervised by licensed physical therapists at affiliating facilities off-campus. Students will prepare an in-depth case study of a patient integrating material from all their previous course work and how it applies to the care of that patient. This is a two-week, full-time experience, for a total of 80 clinical hours.
Prerequisites: PHYT711, PHYT717/718, and PHYT728.

PHYT737 Clinical Orthopedics II (3)
Through a regional approach to the body, the student will learn current theory and treatment techniques for orthopedic dysfunction. Current literature supporting or refuting specific theories or techniques will also be studied to support the scientific basis for intervention. Clinical case studies and critical thinking problems will be included.
Prerequisites: PHYT717/718.

PHYT738 Clinical Orthopedics II Laboratory (1)
This course allows students the opportunity to practice and develop skill in the application of therapeutic techniques appropriate to orthopedic physical therapy. Clinical case studies and critical thinking exercises will be integral parts of this course.
Corequisite: PHYT737.

PHYT742 Psychomotor Development Throughout the Lifespan (4)
This course deals with the psychomotor and psychosocial processes of human growth and development throughout the lifespan. The course will follow a chronological orientation that focuses on the integration of the physical, emotional, cognitive, and social factors contributing to the development of the individual. Emphasis will be placed on the development of motor control, the appearance and integration of postural reflexes, reactions, and primitive movement patterns and their changes throughout the lifespan.
Prerequisites: BIOL701/702.

PHYT743 Research in Physical Therapy Practice (3)
This course is designed to provide the student with the fundamental research background and tools to design basic clinical research in allied health. Research methods and statistical designs used in clinical research will be introduced. The student will develop a research question, begin with the related literature review, and develop the research design in preparation for conducting the research.
Prerequisite: PHYT729.

PHYT745 Exercise Physiology (2)
This course examines the physiological response to acute and chronic bouts of exercise in apparently healthy individuals, as well as individuals with disease and special needs. A systems approach will be utilized, which will serve as the foundation for designing an appropriate exercise program for any patient referred to the physical therapist.
Prerequisite: BIOL716.

PHYT755 Cardiopulmonary Physical Therapy (3)
This course introduces the physical therapy student to cardiopulmonary disorders across the lifespan. Anatomy, physiology, and pathology of the cardiopulmonary system are reviewed. Emphasis is on physical therapy management of the cardiopulmonary patient from critical care through wellness programs. The role of the physical therapist in the health care team is defined.
Prerequisite: PHYT745.

PHYT756 Neuroscience Therapeutics I (4)
This is the first of a two-course series designed to provide the student with the necessary background information, rationale, and treatment techniques appropriate for treating patients with neurological impairments.
Prerequisites: BIOL746, PHYT701/702.

PHYT757 Neuroscience Therapeutics I Laboratory (2)
In this laboratory accompaniment to PHYT756, the student will have the opportunity for supervised instruction and practice in handling patients with neurological impairments.
Corequisite: PHYT756.

PHYT760 Interaction and Education for Patient Care (4)
This course provides the student with an overview of the effects of illness and disability on patients, family, and society. Background information regarding values clarification, moral dilemmas, and communication will be a focus of study. The psychology of death and dying, professional relationships, conflict, resolution, and stress within the professional interaction will be discussed. Educational theories and learning styles impacting on patient education and professional ethics will also be discussed.
Prerequisites: PHYT737/738, PHYT742, PHYT756/757.

PHYT766 Neuroscience Therapeutics II (2)
This is the second of a two course series designed to provide the student with the necessary background information, rationale, and treatment techniques for treating patients with neurological impairments.
Prerequisites: PHYT756/757.

PHYT767 Neuroscience Therapeutics II Laboratory (1)
This laboratory accompaniment to PHYT766, the student will have an opportunity for supervised instruction and practice in handling patients with neurological impairments.
Corequisite: PHYT756.
PHYT801 Clinical Internship I (4)
This course is representative of a supervised clinical experience in patient evaluation, program planning, and delivery of physical therapy services in an acute care setting. This internship is a full-time experience for nine weeks. Students will be supervised by qualified, licensed physical therapists at affiliating facilities off campus. Prerequisites: PHYT784, PHYT788.

PHYT803 Clinical Internship II (4)
This course is representative of a supervised clinical experience in patient evaluation, program planning, and delivery of physical therapy services in an orthopedic or neurologic setting. This internship is a full-time experience for nine weeks. Students will be supervised by qualified, licensed physical therapists at affiliating facilities off campus. Prerequisites: PHYT784, PHYT788.

PHYT805 Clinical Internship III (4)
This course is representative of a supervised clinical experience in patient evaluation, program planning, and delivery of physical therapy services in orthopedics or neurologic setting, whichever setting has not yet been completed. This internship is a full-time experience for nine weeks. Students will be supervised by qualified, licensed physical therapists at affiliating facilities off campus. Prerequisites: PHYST784, PHYT788.

**Physics**

PHYS302 Physical Science Foundations (3)
Covers major principles and concepts in physical science that govern the universe and help the non-science major gain experience with scientific processes and problem solving. Topics include measurement, forces, motion, work and energy, heat, electricity, and nuclear physics.

PHYS303 Physical Science Foundations Laboratory (1)
Provides hands-on experience illustrating some of the basic principles of physical science, including techniques that help in making meaningful observations and measurements. Prerequisite: PHYS302 or concurrent enrollment.

PHYS325 Energy and Problems of a Technical Society (3)
The fundamental theories of energy, the physical laws describing its conservation and interconversion, and the use of energy in society are discussed in this course. The commercial forms of energy, extraction of mineral resources, and environmental impacts are discussed. Prerequisite: College algebra or equivalent.

PHYS352 Intermediate Physics I (3)
Topics include kinematics, forces, energy, rotational motion, fluid properties, thermodynamics, and wave properties. Prerequisite: MATH325.

PHYS353 Intermediate Physics I Laboratory (1)
deals with planning and conducting measurements, forces, motion, pressure, heat, surface tension, and waves. Corequisite: PHYS352.

PHYS362 Intermediate Physics II (3)
The areas of physics covered in this course include electricity, magnetism, light, and optics. Prerequisite: PHYS352.

PHYS363 Intermediate Physics II Laboratory (1)
Laboratory investigation is necessary to give the student experience in obtaining answers by making first-hand observations and appropriate measurements. The investigation may involve finding the value of a physical quantity, or it may involve the search for a relationship between two or more variables' quantities. Prerequisite: PHYS362 or concurrent enrollment.

PHYS500 Charting the Night Sky (2)
A study of the celestial sphere and the relations between the apparent motions of the sun, moon, and planets with respect to the stars. Emphasis is placed on how to locate and identify bright stars, constellations, and planets in the night sky.
PHYS501 Astronomy in the Classroom (1)
Survey workshop on astronomy includes the major physical components of the universe, including planets, stars, constellations, and galaxies. Discusses and demonstrates methods for including astronomy in the science curriculum. Identifies sources for obtaining free and inexpensive astronomy materials.

PHYS502 Introduction to Archaeoastronomy (1)
Introduces concepts related to lunar and solar eclipses, appearance of the night sky at varying latitudes from the North Pole to the equator, apparent uses of Stonehenge, and ancient astronomical practices in North America and Central America.

PHYS503 Introduction to Cosmology: The Big Bang (1)
This course will focus on the big bang, the modern version of creation, a topic of fascination since the dawn of human history. The class will begin with the observational evidence for the expanding universe that was obtained in the early 20th century by Edwin Hubble through, and including the latest results from, the Cosmic Background Explorer satellite.

PHYS504 Stars and Nebulas (1)
Covers the laws of nature that govern the behavior and properties of stars and the universe. Includes how stars are born, live, and die.

PHYS507 Galaxies and Quasars (1)
Focuses on the historical and current theories about the origin and structure of the universe. Examines properties of galaxies and quasars.

PHYS510 Black Holes, Quasars, and the Universe (1)
Covers the death of stars, from white dwarfs and neutron stars to black holes. Also included will be a study of the violent explosions that rock the central regions of many galaxies, as well as the relationship of exploding galaxies to quasars.

PHYS512 Intelligent Life in the Universe (1)
Explores questions such as the following: What is meant by life? Does life exist on other planets? Do we have planetary neighbors? Who will be the first to make contact? What will their interest in us be?

PHYS514 Telescopes and Observatories (1)
Introduces concepts related to optics and operation of reflecting and refracting telescopes. Students learn how to determine the resolving power and light gathering ability of a telescope.

PHYS516 Halley's Comet (1)
A study of the early ideas about comets, origin and behavior of comets, and Halley's comet.

PHYS518 Inner Solar System: The Terrestrial Planets (1)
A study of the planets Mercury, Venus, Earth, and Mars. Emphasis placed on understanding the basic properties of the planets, how they were formed, their atmospheres, and the natural satellites of Earth and Mars.

PHYS520 The Outer Solar System: The Jovian Planets (1)
A study of the planets Jupiter, Saturn, Uranus, and Pluto. Emphasis will be placed on understanding the basic properties of the planets, how they differ from the terrestrial planets, and the natural satellites of each planet.

PHYS525 Energy, Resources, and Society (3)
Covers various methods of energy production and the environmental effects of each. Discusses the extraction and utilization of the world's major mineral resources and effects of their use. Examines the effects of various energy sources upon our environment, U.S. standards of living and energy, and resource utilization. Designed for non-science majors. Prerequisite: MATH225, college algebra or equivalent. Enrollment restricted to degree seeking students enrolled in the M.A. in Education program.

Political and Justice Studies

POJS610 Race, Class, Polities, and Justice (3)
Examines the political participation of under-represented groups in American politics, including blacks, Latinos, Asians, women, and Jewish Americans. Various modes of political participation, including voter participation, lobbying, campaign contributions, rallies, and protests activities, and other forms of political participation and exclusion that affect policy and distribution along lines of race and class will be considered.

POJS615 Civil and Human Rights (3)
This course examines, from both domestic and international perspectives, civil and human rights within the context of legal and social equality and the broad contexts of culture and justice. It explores issues and policies in economic, ideological, and institutional contexts across cultures, and examines the nature, substance, source and place, and politics of human rights. It also examines the theoretical challenges posed to international human rights policy by arguments of radical cultural relativism and political realism, as well as the challenges and opportunities diversity has provided for women and other minorities.

POJS620 Models for Community Conflict Resolution (3)
This course examines the emerging theories and perspectives on violence and community conflict. Students will also study the political, social, and psychological aspects of violence and community conflict within a range of fear and trust extension contexts. Emphasis will be placed on the formulation of general frameworks to promote new research activities. Prerequisite: CJUS525 or advisor permission.

POJS632 Political Sociology (3)
Examines the social, economic, and political bases of power in America. Emphasizes pluralist and elitist theories, class analysis, community power, social control, and structural approaches to studying power. Focuses on analysis of the American political system as a resource for change and an obstacle to change with particular reference to contemporary social movements.

POJS705 Law, Society, and Public Policy (3)
Discussion of basic aspects of law, analysis of selected public policy topics, and the effects of judicial decisions upon the formation of public policy.
POJS709 Gender, Political Culture, and the Law (3)
This course explores the relation between political culture, the political process, and policy making and emphasizes women's rights not only as a legal question, but as a question of definition and justice. It also explores feminist legal theory as a framework of analysis, i.e., feminist perspectives on politics, crime, leadership, and social change and feminism.

POJS715 U.S. Foreign Policy (3)
Examines the processes by which United States foreign policy is formulated and implemented, including the role of public opinion, bureaucratic rivalry, and White House/State Department decision-making processes. The nature of American foreign policies with respect to both the major regions of the world and key functional problems is emphasized.

POJS718 Public Opinion and American Democracy (3)
The nature and measurement of public opinion, political communication, and its influence on elections, and political behavior in relation to the mass media are examined. Prerequisite: SOSC450.

POJS720 Elites and American Democracy (3)
Examines theories and justification of elitism. Deals with comparative political elites, the interrelationship between recruitment, circulation, and democratic accountability in American politics.

POJS725 American Political Behavior (3)
Examines the role of interest groups and parties as they affect American voter behavior. Emphasis will be placed on the recent interpretations of party realignments and realignments in state and national elections and on the role and participation patterns of the various ethnic minorities in American politics from WWII to the present.

POJS735 Third World in Global Development (3)
Examines the North/South dichotomy and the contemporary changes in the third world in global relations and development. Differentiation in and among the various regions in the third world will also be analyzed.

POJS750 Survey Research I: Theory (3)
Explores the selection of problems appropriate for analysis through survey design and analysis, the method of cross-sectional analysis, diagnostics, tests of fit, significance, model specification, and writing the survey research report. The growing use of survey research by academics, mass media, business, interest groups, and political candidates will be highlighted. Prerequisite: SOSC450.

POJS751 Survey Research II: Application (3)
The theoretical constructs of survey research are applied, and advanced applications are studied through the implementation of a survey research design project. Prerequisite: POJS750.

POJS806 Comparative Urban Redevelopment (3)
Analyzes the redevelopment of older American cities in comparative context. Draws upon examples of older non-American cities for theoretical understanding and conceptual clarity.

POJS810 Seminar: Labor Force Participation (3)
Uses labor market techniques to show job stratification in urban communities. Examines mechanisms to increase employment growth along with issues of labor migration.

POJS815 Theories and Approaches to Political and Justice Studies (3)
Examines the basic theories and approaches to the study of political and justice studies, including theories of the state, class, race and gender conflict and general issues of distribution in society. Prerequisite: Students must have either a social science or criminal justice background or take POLS505 or CJUS310.

POJS820 The Presidency, Congress, and the Courts (3)
Examines the historical and legal evolution of the presidency, Congress, and the courts in the American political process. The development of bureaucracy also will be explored. Prerequisite: POJS820.

POJS821 American Government and Policy (3)
Focuses on how basic institutions of American government-executive, legislative, and judicial-interact in the process of public policy formulation, implementation, and evaluation. Issues are examined from an intergovernmental perspective in a constantly changing federalist structure. The ethical dimensions of public policy decisions and actions of policy makers are explored. Prerequisite: POJS820.

POJS824 Intergovernmental Relations (3)
Analysis of the relationships between and among the various governmental units at the federal, state, and local levels in the context of American federalism. Special topics in intergovernmental relations will be discussed from year to year. Prerequisite: POJS820.

POJS830 Comparative Political and Justice Systems I (3)
Examines general comparative approaches to politics and justice in post-industrial, industrial, and emerging states. Topics studied include the nature of power structure, political development and culture, economic strategies, and leadership. Prerequisites: POLS505 or CJUS465, or permission of instructor.

POJS831 Comparative Political and Justice Systems II (3)
Examines political institutions and selected policy areas and processes of governments in Western and Eastern Europe. Relationships between various state systems and policy outputs will be analyzed. Prerequisite: POJS830.

POJS835 Topics in American Politics and Policy: ... (3)
Current theories, approaches, and policies concerning the United States are considered.

POJS836 Topics in Comparative Politics and International Relations: ... (3)
Current theories, approaches, and issues concerning the global system are investigated. Prerequisite: POJS830 or permission of instructor.

POJS837 Topics in Justice Studies: ... (3)
Current theories, approaches, and issues concerning justice in society are investigated. Prerequisite: Any core requirement or permission of instructor.
POJS841 Research Methods (3)
The uses and objectives of empirical research in social sciences, the principal assumptions underlying the approach, and the major controversies surrounding it are examined. The role of theory in empirical research and research design and the principal methods of data collection and data analysis in the social sciences are discussed. Prerequisite: SOSC450 or permission of instructor.

POJS 845 International Law and Organization (3)
Examination of the underlying principles of international law and the evolving organizational structure of the global system. The role of nation-states, intergovernmental and nongovernmental organizations are considered. Prerequisites: POJS830, POLS311, POLS336, or permission of instructor.

POJS869 Directed Readings: (3)
Supervised readings on the theory, methods, and approaches of the political science areas of American politics, public policy, justice studies, comparative politics, and international relations. Prerequisite: Completion of core requirements.

POJS870 Graduate Research: (1-4)
Individual reading, research, and/or project in political science under the supervision of the faculty. Prerequisite: Permission.

POJS880 Internship: (1-4)
Designed to provide political science students with supervised practical experiences in applied settings. Prerequisite: Permission.

POJS885 Internship Project (6)
Designed to provide political justice studies students with supervised practical experiences in applied settings. This includes the application of the students knowledge and skills in a culmination experience approved by a faculty committee and resulting in a final paper which will be publicly presented. Prerequisites: Candidacy and advisor permission.

POJS889 Board of Governors Minority Internship Program (1-9)
Designed to provide graduate Board of Governors minority interns with supervised experiences in federal, state, local, and corporate settings in areas such as intergovernmental relation, policy analysis, and decision making. Prerequisite: Permission of instructor.

POJS890 Graduate Thesis/Project (3)
Provides a forum for in-depth analysis of the selected topics of master's degree candidates. Hypothesis formation, operational procedures, and the foundation of each student's thesis/project will be publicly presented and discussed. Prerequisites: POJS815, POJS820, POJS821, POJS830, and POJS841.

Political Science

POLS301 Principles of Political Science (3)
Comprehensive analysis of the nature of politics, contemporary approaches to the study of political science, issues in political geography, and a review of the issues and problems faced by federal, state, and local governments under the impact of modern conditions.

POLS302 American National Government (3)
Examines U.S. governmental institutions, the informal pressures that influence them, and the policies produced by the governing process.

POLS310 International Organizations (3)
Deals with the complexities of international affairs and those factors that affect them. Focuses on the role of governmental and nongovernmental organizational mechanisms in the relations of nations.

POLS311 Transformation of the Global System (3)
Integrated analysis of processes and issues in international politics, with emphasis on substantive topics in selected sections of the world. Prerequisite: International relations recommended.

POLS320 Local Governmental Systems (3)
Examines local government in the United States. Emphasizes the legal basis and functioning of local jurisdictions in Illinois.

POLS355 Health Care and Politics (3)
Study of federal, state, and local legislative, regulatory, and political processes, and their effect on the health care system and its professions. Deals with ways to interact with those processes.

POLS440 Constitutional Law: Civil Liberties (3)
Uses U.S. Supreme Court decisions to examine the fundamental civil liberties guaranteed to the American people. Emphasizes how the court accommodates constitutional doctrines to changing public values. Prerequisite: POLS302.

POLS460 Political Theory (3)
Introduces the fundamental questions of politics and the state as developed by selected political philosophers from the Greeks through the present. Emphasizes concepts of democracy, power, individual freedom, the state, and obligations of citizens and rulers with relevance to current political developments. Prerequisite: POLS302 or permission.

POLS470 Independent Study: (1-4)
Individual reading, research, and/or project in political science under the supervision of the faculty. Prerequisite: Permission.

POLS480 Internship: (1-4)
Designed to provide political science students with supervised practical experiences in applied settings. Prerequisite: Permission.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Prerequisite</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS505</td>
<td>Principles and Theories in Political Studies (3)</td>
<td>Designed to introduce students to the major traditional and contemporary principles and theoretical foundations of political science. Can serve as a substitute for POLS301 and POLS302 toward meeting preparatory requirements for the M.A. in Political and Justice Studies. Prerequisite: Introduction to political studies.</td>
</tr>
<tr>
<td>POLS510</td>
<td>Topics in Political Science: ... (1-3)</td>
<td>Deals with topics of current interest, exploring several aspects of the topic using a variety of methodologies from the discipline of political science.</td>
</tr>
<tr>
<td>POLS515</td>
<td>Contemporary Political Thought (3)</td>
<td>Provides an overview of nineteenth and twentieth century political thought, including socialism, nationalism, fascism, libertarianism, and feminism. Prerequisite: Any upper-division political science or philosophy course.</td>
</tr>
<tr>
<td>POLS520</td>
<td>U.S. and Illinois Elections (3)</td>
<td>Studies elections in Chicago, the suburbs, the state, and the nation. Examines current trends and includes participation of past or present elected officials. Prerequisite: POLS302 or permission.</td>
</tr>
<tr>
<td>POLS530</td>
<td>The Chicago Political Tradition (1)</td>
<td>Examines past and current politics in the city of Chicago. Analyzes thoroughly twentieth century Chicago mayors. Prerequisite: POLS302 or permission.</td>
</tr>
<tr>
<td>POLS531</td>
<td>Readings, Black Politics, and the American Political System (3)</td>
<td>A study of the patterns of black politics in the development of African-American participation in the American political and economic systems.</td>
</tr>
<tr>
<td>POLS536</td>
<td>Problems in International Politics (3)</td>
<td>Examines the behavior of and interaction between nation states at the global level to understand the problems that are confronted in the international political system.</td>
</tr>
<tr>
<td>POLS538</td>
<td>Urban Politics (3)</td>
<td>Offered in both lecture format and as a correspondence course. Analyzes critical issues of urbanization confronting American political institutions. Provides an overview of the nature and scope of the urban polity and provides a conceptual framework for analyzing and evaluating the critical issues in American urban areas.</td>
</tr>
<tr>
<td>POLS540</td>
<td>Political Economy of Urban Development (3)</td>
<td>This course will identify underlying assumptions and their implications for how patterns of urban development are explained, it will examine specific recent trends in urban change. This will include post-World War II developments as seen in the fiscal crisis of the '70s, restructuring of the '80s, and the increasing internationalization of the economy and the rise of global cities. Prerequisite: Instructor's permission.</td>
</tr>
<tr>
<td>POLS549</td>
<td>Board of Governors Minority Internship Program (1-12)</td>
<td>Designed to provide undergraduate Board of Governors minority interns with supervised experiences in federal, state, local, and corporate settings in areas such as policy analysis and corporate relations. Prerequisite: Permission of instructor.</td>
</tr>
<tr>
<td>POLS563</td>
<td>Seminar: Comparative Urban Future (3)</td>
<td>Analyzes problems of urban processes and redevelopment as they relate to central city minorities. Discussed within a comparative and futuristic perspective.</td>
</tr>
<tr>
<td>POLS737</td>
<td>Political Geography (3)</td>
<td>A review and extension of theoretical constructs in political geography where problems arise when the boundaries of sovereign states fail to separate national groups and when corporate limits fail to encompass all segments of a metropolis. Prerequisite: Social science background.</td>
</tr>
<tr>
<td>POLS845</td>
<td>International Law and Organization (3)</td>
<td>Examination of the fundamental rules of international law and its relation to the state and the individual. Discussion of cases, statutes, and treaties is included. Prerequisite: POLS830.</td>
</tr>
<tr>
<td>PSYC310</td>
<td>Principles of Psychology (3)</td>
<td>Offered in both lecture and televised formats. Provides a comprehensive overview of psychology. Presents concepts, theories, and data from various subfields in psychology, including sensation-perception, learning, memory, personality, abnormal, social, developmental, and physiological.</td>
</tr>
<tr>
<td>PSYC320</td>
<td>Educational Psychology (3)</td>
<td>Helps teachers and educators develop a better understanding of how children develop and learn and how teachers/educators facilitate these processes. Systematic testing of learning theories is explored with particular reference to effects of culture on learning. Improves the students' ability to identify, select, organize, and evaluate instructional methods and materials. Students are expected to spend ten hours in classroom situations exclusive of class time.</td>
</tr>
<tr>
<td>PSYC340</td>
<td>Industrial Psychology (3)</td>
<td>Introductory course in industrial psychology that examines psychological research and theory that relates to the following topics: personnel evaluation, personnel selection, personality and interest factors, equal employment opportunity, personnel training and work motivation, human factors in job design, and leadership.</td>
</tr>
<tr>
<td>PSYC410</td>
<td>Personality Theories (3)</td>
<td>Offered in both lecture and televised formats. Involves the comparative study of nineteenth and twentieth century psychodynamic, behaviorist, and humanist theorists on the nature of the person. Considers personality from a variety of theoretical viewpoints. Prerequisite: PSYC310.</td>
</tr>
<tr>
<td>PSYC412</td>
<td>Laboratory in Transactional Analysis (2) P/NC</td>
<td>Students learn the major theory and concepts of transactional analysis and apply these to their own behavior.</td>
</tr>
</tbody>
</table>
PSYC422 Learning Cognition (3)
Examines limitations of short-term memory, transfer of information to long-term memory, organization of knowledge, and the nature of cognitive processes. 
Prerequisite: PSYC310.

PSYC430 Abnormal Psychology (3)
Covers the recognition, classification, development, and prognosis of the range of human problems usually defined as psychiatric disorders. Focuses on difficulties in currently used systems of defining and classifying human problems in adaptation and adjustment. Examines the medical model assumptions underlying the most widely used diagnostic system. Prerequisite: PSYC310.

PSYC435 Personality and Patterns of Adjustment (3)
Examines how various schools of psychology differ in their explanation and treatment of the many forms of psychological distress that confront us in our personal lives in the workplace and in society. Guides the potential user in asking the right questions and making intelligent decisions in seeking professional mental health assistance.

PSYC440 History and Systems of Psychology (3)
Surveys the major theories of psychology and their relationship to current professional practices. The focus of the course is to enable students to understand and compare the origin and development of different psychological perspectives in terms of metatheoretical issues. Prerequisite: PSYC410.

PSYC445 Social Psychology (3)
Offered in both lecture and televised formats. Evaluation of methods of inquiry and identification of levels of analysis as applied to problems of thought and behavior in American society. Study of interpersonal relations and communications, social power, persuasion, decision making, attitude change, and group membership. Prerequisite: PSYC410.

PSYC446 Psychological Issues and Values (3)
Discussion and exploration of social values, psychological issues, and personal responses to a variety of social issues. Includes cross-cultural differences in values, living with a life-threatening illness, death, unemployment, child abuse and neglect, battered women, divorce, substance abuse, mental illness, and others. Visits to agencies providing services will occur outside of class.

PSYC447 Characteristics of Human Sexuality (3) P/NCC
Focuses on general aspects of human sexuality with an emphasis on interpersonal relationships and psychosocial functions.

PSYC460 Professional Standards in Human Service and Research (3)
Focuses on ethical principles and standards in human service and research professions. Deals with application to hypothetical situations involving professionals, research subjects, and clients. Studies various values, philosophical positions, and legal cases.

PSYC470 Independent Study: . . . (1-6) P/NCC
Individual reading, research, and/or project in psychology under the supervision of the faculty. Prerequisites: Permission of instructor and division chairperson.

PSYC470P Independent Study: . . . (1-6) P/NCC
Individual reading, research, and/or project in psychology under the supervision of the faculty. Prerequisites: Permission of instructor and division chairperson.

PSYC480 Field Experience: . . . (3)
Provides the opportunity to apply and assess theoretical psychological concepts in agency and business settings under the supervision of faculty. Prerequisites: Permission of advisor, course work in personality, abnormal psychology, and theories and treatment of life problems, and twelve additional hours in B.A. in Psychology and/or mental health concentration requirements.

PSYC505 Introduction to Stress Management (3)
Focuses on identifying and assessing the various causes of physical, mental, and emotional stress at home and on the job, recognizing the body's early warning signals of stress overload, understanding the impact of stress on physical and mental disorders, and learning effective methods of reducing stress.

PSYC506 Laboratory in Personal Stress Management (2)
Focuses on the individual's internal and external stresses and theories and methods of reducing stress such as lifestyle, exercise, and nutrition.

PSYC510 Adolescence (3)
Investigates the major issues of adolescence and questions the stereotypical view. Critically reviews research with special attention to identity, intimacy, sex roles, and family dynamics. Focuses on normal adolescent development, but also surveys pathological outcomes.

PSYC512 Child Development (3)
Offered in both lecture and televised formats. Covers theories related to cognitive, emotional, and physical growth of children. Focuses on prenatal issues and the availability of children's resources in the community.

PSYC514 Understanding Men (3)
Draws upon knowledge from social sciences, history, and other fields to understand male sex roles and stereotypes and their effects upon men's health, emotional development, male-female relationships, sexuality, fatherhood, friendships, and work.

PSYC515 Adulthood (3)
Offered in both lecture and televised formats. Presents theories of adult development as they relate to major problems of adulthood. Investigates the availability of resources for adult development in local communities.

PSYC516 Seasons of Life (3)
Offered in televised format only. An introductory life-span course that helps students place cognitive, affective, and physical development in the broader perspective of the whole life-span and in the context of a complex global culture rapidly undergoing change. A variety of materials are used from the fields of psychology, sociology, anthropology, and education, touching on some of the most provocative and important issues that we face in this historical period.
PSYCS19 Psychosocial Aspects of Aging (3)
Studies basic concepts and theories of aging. Evaluates the impact of social, biological, and psychological variables on aging adults. Analyzes lifestyle of older adults and examines community resources for the aged.

PSYCS23 Cognitive Development (4)
Examines modes of representation, relation of language and thought, comprehension, and meaning as they develop from childhood to adulthood.

PSYCS24 Principles of Behavior Change (3)
Study of theory and procedures of behavior modification. Includes case materials from psychology, education, and special education. Prerequisite: PSYC310.

PSYCS25 Brain and Behavior (3)
Offered in televised format only. Provides a comprehensive understanding of the human brain and its functions. It is particularly suited for psychology majors and others who are interested in brain behavior relationships. Prerequisite: PSYC310.

PSYCS27 Laboratory in Personal Growth (2) P/N
Identification of personal growth issues in terms of life goals and priorities. Intrapersonal communication processes identify and examine meaning assigned to various objects or events in student's life.

PSYCS29 Psychology of Women (3)
Study of the effects of physiological and psychological variables on the behavior of women. Includes dependence, aggression, self-esteem, and motive to achieve. Discusses social and mental health issues currently affecting women's welfare.

PSYCS31 Laboratory in Interpersonal Growth (2) P/N
Students identify their interpersonal communication strengths and areas of difficulties and examine the interpersonal communication processes through which they initiate, maintain, and terminate relationships.

PSYCS32 Laboratory in Assertiveness Training (3) P/N
Examines concepts of assertion training and development of cognitive and behavioristic skills to replace maladaptive responses. Provides reinforcement and social networks to ensure the continuity of newly acquired behaviors. Prerequisite: Permission.

PSYCS33 Advanced Experimental Psychology (3)
Presents an in-depth coverage of research designs used in experimental psychology. Includes selected readings of published research from various content areas in psychology, memory, learning, social psychology, and perception.

PSYCS36 Motivation and Emotional Development (4)
Examines and applies theories of motivation, moral development, and emotional development.

PSYCS37 Psychology of Human Consciousness (3)
Study of the nature and functioning of the human mind. Considers major modes of human consciousness, means of extending human consciousness, and therapeutic applications.

PSYCS38 Laboratory in Feelings and Meanings (3)
Study of understanding and responding to confusing communication. Activities clarify hidden meanings and feelings and teach more honest communication in school, medical, business, and social settings.

PSYCS39 Institution and Experience of Motherhood (3)
Covers both historical and contemporary writing on mothers and motherhood. Considers the variety of ways in which the role of motherhood has been viewed. Studies the impact of motherhood on the psychology of the individual. Includes case material, field interviews, and (for graduate students) the development of a research design. Prerequisite: An introductory course in psychology or other social science.

PSYCS43 Eastern Perspectives on Psychotherapy (3)
Presents psychodramatic techniques utilized for resolving emotional and interpersonal difficulties. Prerequisites: PSYC544, PSYC555, and PSYC544.

PSYCS44 Theories and Treatment of Life Problems (3)
Presents psychodramatic techniques utilized for resolving emotional and interpersonal difficulties. Prerequisites: PSYC544, PSYC555, and PSYC544.

PSYCS45 Introduction to Short-Term Dynamics Psychotherapy (3)
Presents concepts, models, and techniques of short-term dynamics psychotherapy; its advantages over the traditional long-term model; and its usefulness within a social context. Students will read, discuss, and apply various models to select diagnostic categories. Prerequisite: PSYC410.

PSYCS55 Introduction to Therapy with Children (4)
Introduction to emotional difficulties and life stresses in children in various settings. Emphasis on clinical interview and play therapy. Naturalistic observation of children in various settings. Relevant to psychology, special education, and psychiatric nursing. Prerequisite: PSYC544.

PSYCS56 Theories and Treatment of Emotional Disturbance in Children II (4)
Reviews the relevant literature on etiology and treatment. Students work with children with emotional difficulties under close supervision. Includes case consultations and case conferences. Prerequisites: PSYC544, PSYC555, and permission.

PSYCS58 Introduction to Therapy with Adults (4)

PSYCS59 Psychodrama (3)
Presents psychodramatic techniques utilized for resolving emotional and interpersonal difficulties. Prerequisites: PSYC527, PSYC531, or permission.
PSYC655 Thesis Preparation (3)

Students will engage in the research process in preparation for completing a master's thesis project. Organizational strategies and specific tasks that are part of the thesis process will be discussed. The outcome of the class will be to write a master's thesis prospectus approximately six to seven pages in length which will meet departmental requirements and enable prospective committee members to ascertain the nature of the research project. Prerequisites: PSYC560, STAT468, or equivalents.

PSYC660 Graduate Research Methods (3)

This course is intended to help you develop your ability to conduct research in the social sciences. Emphasis is placed on the explicit statement of a research hypothesis, the relation of the research design to both the stated hypothesis and the proposed statistical analyses, and the limitations that research design places on the conclusions that can be drawn from the data. Topics include causality, validity, randomized experiments, quasi-experiments, and time series analyses. Prerequisites: PSYC560 and STAT468.

PSYC720 Social and Cultural Foundations (3)

Study of the nature and needs of diverse groups in the context of societal changes and trends. Socioeconomic, multicultural, and subgroup changes and conflicts are considered. Social issues and trends in a multicultural and diverse society are examined. Prerequisites: Graduate student status and one developmental psychology course.

PSYC806 Cognitive Development: Implications for Instruction (3)

Examines the nature and development of human condition from early childhood to adulthood. Studies the implications of cognitive development for instruction and instructional materials assessment and development. Prerequisite: A course in human growth and development.

PSYC815 Learning Processes: Adults (3)

Investigates the factors influencing attitudinal and behavioral change in adulthood. Includes an overview of current learning theories of three major schools of psychology. Examines how these learning theories affect the adult learning process. Prerequisite: Three hours of psychology or learning theory.

PSYC820 Graduate Seminar in Psychoanalytic Theory (3)

Offers advanced students the opportunity to explore current thinking in psychoanalytic theory and treatment. Emphasizes the application of ego psychology and self-psychology to therapeutic technique. Provides a brief review of classical Freudian theory, but students are expected to have had some introduction to this material. Prerequisites: COUN630, PSYC410, PSYC430, or PSYC544.

PSYC821 Graduate Seminar in Abnormal Psychology (3)

Diagnostic categories selected for in-depth study of the literature conceptualizing a problem, its development, and various treatment recommendations. Focuses on evaluation of research approaches and findings. Prerequisite: Either one of the following: COUN630, PSYC430, PSYC544; or overview of diagnostic categories.
PSYC822 Seminar in Human Memory (3)
Provides students with an in-depth exposure to a single substantive area in the domain of experimental psychology. Studies research and theory in the area of human memory.

PSYC824 Graduate Seminar in the History of Psychology (3)
Covers a wide range of systems of psychological thought responsible for modern conceptions of human learning and development, clinical psychology, and social psychology.

PSYC825 Imaging Process in Psychotherapy (3)
Examines imagery as a basic capacity possessing enormous potential for therapeutic communication. Includes topics on relationship between imagery, fantasy, and other basic psychological processes. Students study the nature and structure of imaging process, explore the implications of guided as well as spontaneous imagery for therapeutic communication, apply imaging process to selected therapeutic contexts, and assess effectiveness of such applications. Prerequisite: COUN844, COUN846, or permission.

PSYC826 Graduate Seminar in Social Psychology (3)
Integrates theories and principles of social psychology with emphasis on the effect of ecological factors on the behavior of individuals, groups, and corporations. Prerequisite: PSYC445.

PSYC827 Human Sexuality (3)
Examines sexual dysfunctions in terms of interpersonal and intrapersonal communication disturbances. Identifies interpersonal communication. Prerequisite: PSYC827.

PSYC828 Graduate Seminar in Cognitive Psychology (3)
Examines recent theoretical developments in cognitive psychology. Emphasizes the areas of visual perception, concept formation, and language comprehension. Prerequisite: PSYC422.

PSYC829 Graduate Seminar in Human Development (3)
Provides students with up-to-date research in the developmental area. Integrates developmental issues at all stages of life. Provides students with links between theoretical and applied issues of development. Prerequisite: One developmental course or permission of instructor.

PSYC831 Therapeutic Communication (3)
Defines psychopathology in terms of interpersonal and intrapersonal communication disturbances. Identifies therapist interventions that improve the quality of interpersonal communication. Prerequisite: COUN810 or permission.

PSYC835 Roles and Issues in School Psychology (3)
Introduction to the discipline of school psychology. Covers various roles and functions in the school-based practice of school psychology. Includes coverage of the history, organization and operation of the schools, professional standards, and ethical and legal issues.

PSYC846 Individual Assessment I: School Age (3)
Focuses on the individual assessment of a multiculturally diverse population of school-age children. Covers norm-referenced assessment, including intelligence and achievement, and curriculum-based assessment. Includes coverage of observational assessment and introduction to psychological report writing. Prerequisites: PSYC610 and concurrent enrollment in PSYC847.

PSYC847 Individual Assessment I: School Age Laboratory (2)
To be taken concurrently with PSYC846. Provides individual observation and feedback to students as they learn the administration of different tests. Prerequisites: PSYC610 and concurrent enrollment in PSYC846.

PSYC848 Individual Assessment II: Preschool (3)
Focuses on the screening and assessment of infants and preschool age children. Skill development for in-depth assessment, intervention, and development of family service plans. Prerequisites: PSYC846 and PSYC847.

PSYC853 Human Neuropsychology I: Brain Function (3)
Explores the theories and analysis of brain function, structure, and brain behavior relationships. Prerequisite: PSYC610.

PSYC854 Human Neuropsychology II: Clinical Assessment (3)
Covers the administration, scoring, and interpretation of standardized procedures in diagnosis of brain damage. Integrates findings with other assessment techniques. Trains students in the Halstead-Reitan and/or Luria methods. Prerequisite: PSYC853.

PSYC857 Individual Assessment III: Personality (3)
Covers the assessment of social/emotional functioning and personality, including necessary skills and knowledge problems referred to the school psychologist. Behavior rating scales, observation, and projective techniques are covered. Includes recommendations for intervention. Prerequisites: PSYC410 and PSYC610.

PSYC858 Advanced Seminar in Assessment and Intervention (2)
Covers advanced assessment and intervention strategies for assessing and remediating educational needs of culturally diverse students. Report writing, norm-referenced testing, curriculum-based assessment, and direct/indirect interventions are emphasized. Prerequisites: PSYC846, PSYC847, PSYC857, and SPED619.

PSYC865 Practicum in School Psychology (4) P/NC
Practice in a school setting. Participation in direct and indirect interventions, including assessment intervention, counseling, and behavior management and consultation. Direct experience with organization and operation of the schools. Prerequisites: COUN844 or COUN853, COUN851, PSYC846, PSYC847, PSYC848, PSYC857, PSYC858, and SPED619.

</thead>
<tbody>
<tr>
<td>PSYC870</td>
<td>Independent Study: (1-6)</td>
<td>Individual reading, research, and/or project in psychology under the supervision of the faculty. <strong>Prerequisites:</strong> Permission of instructor and division chairperson.</td>
</tr>
<tr>
<td>PSYC870P</td>
<td>Independent Study: (1-6) P/N/C</td>
<td>Individual reading, research, and/or project in psychology under the supervision of the faculty. <strong>Prerequisites:</strong> Permission of instructor and division chairperson.</td>
</tr>
<tr>
<td>PSYC880</td>
<td>Internship: (1-6) P/N/C</td>
<td>Designed to provide students in psychology with supervised practical experiences in applied settings. <strong>Prerequisite:</strong> Permission.</td>
</tr>
<tr>
<td>PSYC890</td>
<td>Graduate Thesis/Project: (4) P/N/C</td>
<td>Student works closely with advisor and/or three faculty members (principal advisor, secondary advisor in specialty area, scope advisor outside specialty area) developing and completing original thesis/project proposal. <strong>Prerequisite:</strong> Permission of advisor or committee.</td>
</tr>
<tr>
<td>PSYC920</td>
<td>Internship in School Psychology I (3) P/N/C</td>
<td>Full-time placement in a school setting under the direct supervision of a school psychologist. Taken after completion of the M.A. in Psychology. Enrollment only after acceptance by an approved internship site. <strong>Prerequisite:</strong> Completion of the M.A. in Psychology with the school psychology certificate option.</td>
</tr>
<tr>
<td>PSYC921</td>
<td>Internship in School Psychology II (3) P/N/C</td>
<td>Full-time placement in a school setting under the direct supervision of a school psychologist. Taken after completion of the M.A. in Psychology. Enrollment only after acceptance by an approved internship site. <strong>Prerequisite:</strong> Completion of PSYC920.</td>
</tr>
<tr>
<td>PADM301</td>
<td>Introduction to Public Administration (3)</td>
<td>Offered in both lecture format and as a correspondence course. Examines theories, history, and current issues of administration in government.</td>
</tr>
<tr>
<td>PADM420</td>
<td>Public Personnel Administration (3)</td>
<td>Studies and evaluates principles, practices, and problems of personnel administration in government. <strong>Prerequisite:</strong> PADM301 or permission.</td>
</tr>
<tr>
<td>PADM430</td>
<td>Planning Theory (3)</td>
<td>Seminar discussion of the various practical, theoretical, and ethical problems and issues now facing the design professions. Includes demands for greater concern for &quot;user behavior&quot; and &quot;user needs,&quot; collaboration between design professionals and behavioral scientists, and control of behavior through design. <strong>Prerequisite:</strong> PADM301 or permission.</td>
</tr>
<tr>
<td>PADM435</td>
<td>Public Policy Analysis (3)</td>
<td>Introduces students to conceptual models for understanding government policy making and implementation. Provides information about various governmental policies. <strong>Prerequisite:</strong> PADM301 or permission.</td>
</tr>
<tr>
<td>PADM450</td>
<td>Introduction to Urban Planning (3)</td>
<td>Provides an introduction to urban planning, a history of its efforts, and a review of the elements in professional practice today. <strong>Prerequisite:</strong> PADM301 or permission.</td>
</tr>
<tr>
<td>PADM455</td>
<td>Local Government Planning (3)</td>
<td>Study and analysis of current methods, techniques, and practices of land use oriented urban planning. Emphasizes current land use control in urban planning, including zoning, subdivision control, site planning, transportation planning, and the general plan. Covers population, economic, and land use studies, quantitative methods, and social services planning. <strong>Prerequisite:</strong> PADM301 or permission.</td>
</tr>
<tr>
<td>PADM460</td>
<td>Public Finance and Budgeting (3)</td>
<td>Surveys the structure, processes, politics, economics, and operational public administrative aspects of government revenue and expenditure policy. Provides students with an introduction and overview of public budgeting processes and problems emphasizing the role of the public administrators and other government officials in deciding and resolving issues of revenue and expenditure policy.</td>
</tr>
<tr>
<td>PADM470</td>
<td>Independent Study: (3)</td>
<td>Independent study is intended to provide better students an opportunity to study a topic of their choice in public administration under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation within public administration and an instructor to sponsor the work. <strong>Prerequisites:</strong> Permission of instructor and dean.</td>
</tr>
<tr>
<td>PADM480</td>
<td>Internship: (3)</td>
<td>Designed to combine individual career counseling and work outside of the classroom with institutional learning settings. <strong>Prerequisite:</strong> Permission.</td>
</tr>
<tr>
<td>PADM500</td>
<td>Workshops on Zoning and Planning: (1) P/N/C</td>
<td>Designed for citizen planners and professional zoning administrators to provide introduction to key concepts and to develop basic skills. Includes special topics on zoning and planning. <strong>Prerequisite:</strong> Permission.</td>
</tr>
<tr>
<td>PADM505</td>
<td>Economics of Urban Planning (3)</td>
<td>Analyzes various economic factors impacting on the planning process. Includes economics of urbanization, forces of supply and demand in urban lands, the building industry, the real estate market, cyclical fluctuations, rents and prices, problems of housing, urban redevelopment, real estate investment, economic notions of welfare, and counteraction of market failure in the supply of public goods. <strong>Prerequisite:</strong> PADM301 or permission.</td>
</tr>
</tbody>
</table>
PADM508 Using Microcomputers in Planning (2)
Introduces the use of microcomputers in planning.
Emphasizes the use of existing application programs and the microcomputer as a tool to assist planners and other local government officials with the performance of their duties. Covers word processing, database management, and spreadsheet analysis as related to planning. Prerequisite: PADM301 or permission.

PADM510 Government and the Public (3)
Studies the communication and human relations problems between government and the people it serves. Emphasizes efforts to alleviate the problems. Prerequisite: PADM301 or permission.

PADM520 Urban Growth Management (3)
Investigates how communities control the rate, timing, location, and size of development. Includes review of a series of community growth management plans and regulations. Prerequisite: PADM301 or permission.

PADM521 Suburban Policy Issues (3)
Studies the substance of federal, state, and regional public policies as they affect suburban communities. Includes techniques used by municipal officials to deal with these issues and other strictly local issues. Ordinarily, public and private sector experts participate. Prerequisite: PADM301 or permission.

PADM536 Environmental Land Use Planning (3)
Examines ecological design methods and land use control techniques for resolving the conflict between land development and environmental protection. Considers use control and preservation techniques for sensitive lands. Prerequisite: PADM301 or permission.

PADM540 Planning Methodology (3)
Reviews and explores the role of selected planning and evaluation methods in the overall planning process. Includes topics on goals and attitude surveys; assessing probability and utility; frameworks for land use; environmental, economic, and social impact of development plans; cost-benefit analysis; and the planning balance sheet. Prerequisite: PADM450.

PADM545 Regional Planning (3)
Broad coverage of regional planning, its basic concepts, techniques of analysis, and planning methods. Prerequisite: PADM301 or permission.

PADM 550 Topics in Public Administration: ... (3)
This course focuses on the culture of the German nation, its business arrangements, government, history, and language. Participants study in Germany.

PADM560 Administrative Law (3)
Describes the processes, procedures, and legal limitations under which government agencies make, officials carry out, and courts review administrative orders, rules, and regulations. A significant part of the course is devoted to the issue of government officials' liability. Prerequisite: PADM301 or permission.

PADM580 Public Safety Administration (3)
Studies the administration of public safety departments, especially police departments. Includes topics on organization structure, personnel, communication, community relations, and relations among police and fire services. Prerequisite: PADM301 or permission.

PADM584 Law Enforcement and the Constitution (3)
Examines the requirements and limitations imposed upon the law enforcement process by the Constitution. Emphasizes the U.S. Supreme Court's interpretations of the fourth, fifth, sixth, and fourteenth amendments. Prerequisite: POLS302 or permission.

PADM585 Practicum in Urban Planning (3)
An experiment in concentrated planning education for advanced students in planning. A workshop based, problem-solving experience designed to consist of supervised field research and development projects on behalf of community groups that have requested specific technical assistance. Provides enhanced professional education through the clinical application of professional planning skills. Prerequisites: PADM301, PADM450, and permission.

PADM801 Concepts and Issues in Public Administration (3)
Provides an overview for the study of public policy and administration. Designed to develop an appreciation for the vocabulary of the field, to increase the student's understanding of public agencies and their role within the American democratic structure, and to develop an increased awareness and understanding of the individual role within public agencies. Prerequisite: PADM301 or permission.

PADM802 Economic Analysis in Public Administration (3)
This is an advanced level study of economic principles and practices as applied in public administration. Its focus is on the economic aspects of the urban dynamic, including the evolution of the urban economy, the relationship between the urban economy and public finance, imports, exports, and import substitution in the urban economy, the design of effective strategies for urban economic development, and the application of various urban economic analyses for public administrators. Prerequisites: PADM301, STAT361, and STAT 362 or MGMT510.

PADM810 Seminar in Public Human Resource Administration (3)
An advanced level course that studies and evaluates principles and practices, and problems of human resource administration in government. The course focuses on the perspectives of human resource management, equal employment opportunity, analyzing and staffing jobs, compensation, training and development and employee and labor relations. Prerequisite: PADM301.

PADM812 Seminar in Public Budgeting (3)
Examines advanced questions about budgeting in government, including various revenues, expenditure, and debt. Emphasizes development of knowledge and skills necessary to prepare and defend a sound financial plan in the public sector, including understanding of essential concepts and rules of government accounting and the use of computer spreadsheets to analyze and present financial data. Also includes application of economic theories to government budget decisions. Prerequisite: PADM802.
PADM814 The Dynamic of the Public Policy Process (3)

An analysis of the policy formulation process, using current issues in federal, state, and local government to illustrate the dynamic nature of the process and factors influencing decision makers. Prerequisite: PADM301 or permission of instructor.

PADM820 The Dynamic of the Public Seminar in Urban Government (3)

Examines advanced questions about the functioning of urban governments in America. Prerequisite: PADM301 or permission.

PADM840 Seminar in Public Policy (3)

Examines advanced questions about the development of public policy. Prerequisite: PADM301 or permission.

PADM851 Seminar in Public Planning (3)

Deals with a series of case study problems reflecting contemporary planning issues. Uses a multidisciplinary approach to case study analysis. Emphasizes energy, environmental, social, and economic planning. Prerequisite: PADM301 or permission.

PADM852 Seminar in Research Methods (3)

Introduces students to a variety of standard research methods. Deals with developing research instruments and using and analyzing research techniques. Includes application and interpretation of statistics. Prerequisites: MGMT310 or STAT361 and STAT 362; completion of twenty-one graduate hours in the M.P.A. degree.

PADM855 Master’s Research Paper (3) P/NC

For public administration students who are working on their research projects. Advanced standing as an M.P.A. student required for registration. Prerequisite: Permission of instructor.

PADM860 Advanced Topics in Public Administration (3)

An investigation of the forces and motivations which contributed to revisionism and the rise of totalitarian movements after World War I, led to global war, and influenced the course of the conflict to its bitter end in 1945. Special attention will be given to such phenomena as nationalism, totalitarianism, and total war as they related to World War II and to the decisions which shaped the post-war world. Prerequisite: PADM301 or permission of instructor.

PADM865 Problems in Applied Public Management (3)

A capstone course designed to draw upon all the knowledge and skills acquired in the curriculum. Students will complete a small number of major cases studies in the format of management consultant’s reports diagnosing, analyzing, and proposing solutions for actual or hypothetical organizations’ problems. Prerequisites: Completion of M.P.A. required courses and PADM852.

PADM870 Practicum (3)

A demonstration of the ability to apply advanced management knowledge and skills through the accomplishment of a substantial project, task, or set of tasks in an administrative agency. Requires both performance of the task(s) and completion of a major written report thereon, approved by three faculty members. A final course option of the M.P.A. program. Prerequisite: Permission.

PADM870 Independent Study: . . . (3)

Independent study is intended to provide better students an opportunity to study a topic of their choice in public administration under professional supervision. Only students prepared to devote considerable time and effort should undertake an independent study. Students contemplating an independent study should first choose a definite area for investigation within public administration and an instructor to sponsor the work. Prerequisites: Permission of instructor and dean.

PADM880 Internship: . . . (3)

Designed to combine individual career counseling and work outside of the classroom in combination with institutional learning settings. Prerequisite: Permission.

PADM890 Graduate Thesis/Project: . . . (3) P/NC

Provides an opportunity for intensive study of a problem chosen by the student. A candidate who is approved for the thesis option will be required to defend the thesis orally. The thesis option is limited to outstanding students who have been recommended by a minimum of two faculty in the College of Business and Public Administration and approved by the dean. Prerequisite: Permission of advisor and/or committee.

Social Sciences

SOSC311 Survey of Social Science (3)

Offered as a correspondence course only. Examination of the organizing principles and methods of the basic social sciences.

SOSC450 Social Science Research: Design and Methodology (3)

Overview of methods that political scientists and sociologists employ to collect and analyze current data. Ethics in social research, formulating research questions, survey and experimental design, interviewing, sampling, direct observation, content analysis, evaluation research, and critiques of science methods. Prerequisites: POLS301 and SOC301.

SOSC460 Insights: Public/Private Connections (3)

This course allows students to enter into a dialogue with seasoned and accomplished people, INSIGHTS Scholars, about the ways in which their professional and personal lives have intertwined. Discussions with these visitors to our campus (and/or our visits to their worksites), will give students in this course the opportunity to analyze how the distinction between “public” and “private” has come to be socially constructed, that is, made “real” by our beliefs and actions about it.

SOSC470 Independent Study: . . . (1-4)

Individual reading, research, and/or project in social sciences under the supervision of the faculty. Prerequisite: Permission.

SOSC480 Internship: . . . (1-4)

Designed to provide the social sciences student with supervised practical experiences in applied settings. Prerequisite: Permission.
SOCW320 Social Welfare Services and Professional Roles (3)
This course explores the historical development and foundations of the field of social welfare, including major legislation. Professional concerns related to values, skills, knowledge, policies, programs, methods, practice, and licensing are analyzed. Prerequisite: Complete the American History requirement or permission of instructor.

SOCW330 Social Work Perspectives on Human Behavior (3)
Designed to help students integrate and apply an ecological perspective on human behavior to professional social work practice situations. Explores systems thinking, human diversity, social science theory, and relevant physical science concepts. Prerequisite: SOCW320 or concurrent enrollment in SOCW320. Completion of the human biology, psychology, sociology, and anthropology requirements, or permission of instructor.

SOCW380 Social Work Practice: Ethics, Values, and Interviewing (3)
Designed to provide students with an in-depth examination of the generalist approach. Core social work values are explicated and explored in relation to practice situations. Students learn basic interviewing skills and core interactional skills. They also examine social work ethics. Prerequisites: SOCW320 and SOCW350. Corequisite: SOCW390.

SOCW390 Field Practicum and Proseminar I (3)
Provides students with an agency practice experience early in their program enabling them to become familiar with actual practice settings and to assess career goals. An integrating seminar meets on campus weekly. Prerequisites: SOCW320 and SOCW350. Corequisite: SOCW390.

SOCW415 Field Practicum Assessment and Planning (1)
Students explore potential field placement sites, interview social work professionals, review generalist social work competencies, prepare biographical profiles, assess personal strengths and weaknesses, and plan for the practicum experience. This course is to be taken before enrolling in SOCW490. Prerequisites: Completion of all practice courses and approval process with field practicum coordinator.

SOCW444 Social Work Practice: Intervention Strategies I (3)
Focuses on formulation and implementation of intervention at the small system level of individuals and families. Problem assessment, goal development, selection, and application of methods of intervention within the context of a generalist model. Prerequisites: SOCW380 and SOCW390.

SOCW445 Social Work Practice: Intervention Strategies II (3)
Examines the group, organization, and community from the perspective of the practitioner’s use of self as a facilitator of group and social system processes and as a method of intervention and change. Emphasis will be placed on program design for mutual aid utilizing the general method of social work practice. Prerequisite: SOCW444.
SOCW455 Human Diversity: Myths, Realities, and Opportunities (3)
Emphasizes understanding of the experience of human diversity. Examines belief systems and behaviors such as racism, sexism, ageism and other myths and biases which affect life chances, lifestyles, and psychosocial development. Identifies social work principles, values, and perspectives which promote social justice and the elimination of oppression. Encourages self-assessment and provides opportunities for improving competence in cross-cultural exchanges.

SOCW459 Law for Human Service Professionals (3)
Includes the study of legal issues, procedures, and selected legislation relevant to professional practice in the human services. Examines the use of legal authority in the provision of services in the areas of income maintenance, justice, child protection, family services, divorce counseling, and other areas requiring knowledge of legal issues and processes. Prerequisites: Completion of twelve hours in major field or permission of instructor.

SOCW465 Research in the Health and Human Services (3)
Provides research orientation necessary for effective direct service and professional practice in the health and human services. Emphasizes being an intelligent consumer of research. Students are provided knowledge and strategies for measuring and evaluating their professional practice. Appropriate for students in social work, nursing, addictions studies, and other health and human service programs. Prerequisite: STAT468 or equivalent.

SOCW470 Independent Study: . . . (1-8)
Individual reading, research, and/or project in social work under supervision of faculty. Prerequisite: Permission.

SOCW480 Internship: . . . (1-8)
Designed to provide students in social work with supervised practical experiences in applied settings. Prerequisite: Permission.

SOCW490 Field Practicum and Proseminar II (6)
Advanced 400 clock-hour practice experience designed for application and integration by students of principles, methods, and skills of the generalist model. Students are placed in an approved agency following successful completion of a practicum application process. Includes a seminar with other students in placement for sharing and synthesis of the field experience. Prerequisites: Open to social work majors only; completion of required social work courses, including SOCW415. Students must have a signed practicum approval form on file before they will be permitted to register.

SOCW500 Topics in Social Work: . . . (1-4)
Specific topics, issues, intervention, and service approaches, and new developments in social work and related areas are considered in a series of workshops. Opportunities for participants to have personal contact with noted social work scholars and practitioners are provided. Consult schedule for terms offered.

SOCW510 Social Welfare Policy: Issues and Processes (3)
Examination of social welfare policy perspectives particularly as they reflect values, interests, and political processes. Contemporary social service programs and policies are reviewed. Analysis models and strategies are reviewed and applied. Prerequisites: Complete the macroeconomics and political science requirements, or permission of instructor.

SOCW530 Urban Dynamics (3)
Offered in a televised format and as a correspondence course. Examines the metropolitan community as a complex environment in which most human services are delivered; explores and compares the interrelationship of urban forces, survey research, and community practice; and provides students with the experience of applying community theory to social problem analysis by developing and assessing community profiles for prioritizing community based services.

SOCW565 Interprofessional Teamwork in the Health and Human Services (3)
Designed for the health or human services student interested in understanding the team model of service delivery. Examines teams and teamwork and provides opportunities to develop team practice and team analysis skills that are applied both in class, agency, and other organization situations. Field visits required. Students in any field will also acquire useful knowledge and skills. Prerequisite: Completion of nine hours in major field.

SOCW570 Social Work in Health Care (3)
Focuses on how social workers in hospitals, clinics, and other health systems assist people in making better use of health care facilities, in preventing illness, in dealing with the impact of illness and disability on themselves and their families, and in preserving their health. Emphasizes the necessity for effective collaboration with other health professionals on interdisciplinary health teams for optimum services.

SOCW575 Children and Families: Problems, Issues, and Services (3)
Examines the organization of child welfare programs and the existing set of social services designed to help the child and his/her family. Considers the effects of economic, social, and political developments upon past and present services. Explores future planning of services for children.

SOCW595 Management and Supervision in the Human Services (3)
Selective methods course in management/social administration focusing on the classical and behavioral schools of management and covering the functions of planning, organizing, controlling, supervising, charting, communicating, designing, evaluating, leading, problem-solving, and decision-making. Examines the ethical dilemmas in administering not-for-profit human service programs in an ever-changing free market economy in the U.S. Students learn to analyze an organization and apply change and development strategies.
Sociology

SOC301 Sociology of Institutions and Cultures (3)
Comprehensive analysis of concepts and methods of sociology applied to social issues and processes, characteristics of social organizations, issues in demography and geography, influence of culture, and principles of stability and change. Prerequisite: Introduction to sociology.

SOC310 Principles of Urban Studies (3)
Offered as a correspondence course only. Presents an interdisciplinary study of basic principles and dynamics in the development of our increasingly urban world. Features focus on the worldwide process of urbanization, urban lifestyles, and some of the common elements in the cities in America and other areas of the world.

SOC470 Independent Study: . . . (1-4)
Individual reading, research, and/or project in sociology under the supervision of the faculty. Prerequisite: Permission.

SOC510 Topics in Sociology: . . . (3)
In-depth analysis of special issues in contemporary society from a sociological perspective will be the focus of this course. Guest lectures, field trips, and document analysis will supplement research and reading assignments. Projected topics include the family and state policy, late capitalism and the welfare state, contemporary sociological theory, and legal and social implications of reproductive technologies.

SOC522 Family History: Legacies (3)
Offered as a correspondence course only. An audio course on family history in the United States from 1607 to 1870. Each of eighteen half-hour audio programs covers a different topic in the history of women and families, with commentaries by leading scholars. Emphasizes the diverse experiences of ordinary people as it examines change in both the ideals and the reality of family life.

SOC525 Community Organization/Community Development (3)
Analyzes notions of power, community structure, community development, and their implications for community organization and renewal.

SOC540 Sociology of the Family (3)
Examines the historical roots of changes in contemporary family life. Focuses on class variation in American family life, implications of beliefs about sex roles for marital and parental roles, manifestations of pathology in family life, and connections between political issues and changes in family life.

SOC551 Sociology of Ethnic Relations (3)
Analyzes ethnicity as a dimension of social stratification and its implications for inter- and intra-group conflict.

SOC585 Work and Family Life (3)
Examines historical and contemporary ideologies about the relation between work and family life. Explores effects of constraints of work roles on family life and of family life on work roles. Emphasizes issues associated with labor market segmentation, class variation, distinctions between dual and one-career families, and alternatives to traditional family/work patterns.

SOC805 Seminar: Sociological Theory (3)
Analyzes the contributions of major theorists and schools in sociology starting with Marx, Durkheim, and Weber and moving on to later developments in structural/functionalist, symbolic interactionist, neo-Marxian, phenomenological, ethnomethodological, exchange, and other theories. Prerequisites: Undergraduate course work in social theory, research, and methods.

SOC815 Seminar: Social Organizations and Institutions (3)
Examination of recent research on selected aspects of social organization (e.g., stratification) and institutions (e.g., religion, family, government). Prerequisite: SOC805 or permission.

SOC825 Seminar: Social Change and Modernization (3)
A historical examination of the processes of social change and modernization in American life. Particular emphasis on migration and mobility, family roles, and the growth of urbanization. Prerequisite: SOC805 or permission.

SOC835 Seminar: Sociological Research (3)
Course will cover theory construction literature from sociology, varieties of research involving human subjects, and substantive varieties of social research. SPSS and related programs will be utilized as tools for participating in directed research activities. Prerequisites: STAT468 and SOC805; and either SOC815 or SOC825 or permission.

SOC870 Graduate Research: . . . (1-4)
Individual reading or research in sociology under the supervision of the faculty. Prerequisite: SOC835 or permission.

SOC880 Internship: . . . (1-4)
Designed to provide students in sociology with supervised, practical experiences in applied settings. Prerequisite: Permission.

SOC890 Graduate Thesis/Project (3)
Provides the student in sociology the opportunity to synthesize graduate course work by developing and completing a thesis or project specific to the student's interests. Prerequisites: Permission of advisor and thesis/project director and SOC870.

Special Education

See Education-Special Education
Statistics

STAT361 Statistics for Management I (3)
Covers the basic topics of applied statistics, including the sample mean and variance, random variables, elementary finite probability, the binomial and normal distributions, sampling, point and interval estimation, control charts, and hypothesis testing as they apply in business situations. Prerequisite: Intermediate algebra or passing computational examinations.

STAT362 Statistics for Management II (3)
A continuation of STAT361. Topics covered include analysis of variance, regression, correlation, time series, indexing, nonparametric statistics, bivariate distributions, and chi-square tests. Students make extensive use of a statistical computer package in the analysis of data and application of statistical tests as they apply in business situations. Prerequisite: STAT361.

STAT468 Statistics (3)
Offered in both lecture and televised formats. Provides an introduction to statistics and covers such topics as the standard normal distribution, descriptive statistics, chi-square, t-test, correlational techniques, and one-way analysis of variance. Focuses on analysis of data most often collected by individuals in psychology, education, special education, and other social sciences. Prerequisite: Satisfactory completion of all three university math proficiency exams or completion of intermediate or college algebra with a “B” or better.

STAT469 Statistics Laboratory (1)
The course is intended to develop basic computer skills for selection and application of descriptive and inferential statistical procedures. Emphasis is placed on the organization, analysis, and interpretation of research data from the social sciences. Descriptive topics include data organization, distribution characteristics, indices of central tendency, and variability. Inferential topics include sampling, hypothesis testing, and analysis of variance. Prerequisites: Concurrent registration in STAT468, knowledge of at least one computer operating system (e.g., DOS, Windows, Macintosh).

STAT520 Statistical Methods (3)
A survey for graduate and undergraduate students with sufficient statistical background for professional programs in which basic familiarity with statistics is needed. The topics covered include descriptive statistics, probability, sampling, estimation, hypothesis testing, regression and correlation, analysis of variance, and chi-square. The course is fast-paced and intensive. Prerequisite: MATH325 or satisfactory completion of the university basic mathematics proficiency examination.

STAT611 Data Analysis in the Social Sciences Using SPSS (3)
An introduction to accessing and analyzing quantitative data for students in the social and behavioral sciences.

STAT810 Statistical Process Quality Control (3)
Concentrates on process control relying heavily upon control charts as tools to improve quality and productivity. Prerequisite: Algebra or written permission of instructor.

STAT820 Experimental Design for the Natural Sciences (4)
For graduate students of environmental biology or analytical chemistry. Covers research designs from simple to factorial.

STAT861 Advanced Statistics Laboratory (1)
The course is intended to develop basic computer skills for selection and application of descriptive and inferential statistical procedures. Emphasis is placed on the organization, analysis, and interpretation of research data from the social sciences. Descriptive topics include data organization, distribution characteristics, indices of central tendency, and variability. Inferential topics include sampling, hypothesis testing, and analysis of variance. Inferential topics include t-tests, correlation and regression analysis of variance, and multivariate ANOVA. Prerequisites: STAT468, Graduate Research Methods (PSYC660).
APPENDIX

Student Records Policy

Governors State University maintains individual records and information about students for the purpose of providing educational, vocational, and personal services to the student. As required by the Family Educational Rights and Privacy Act of 1974, the following policy outlines procedures for access to student records. The policy is intended to ensure the confidentiality of student education records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate or misleading data. The policy is published in the university catalog. Copies also are available in the Office of the Registrar.

Definitions

A student is defined as a person who is or has been enrolled at Governors State University on campus and/or off campus, and for whom the university maintains education records. The term "enrolled" is defined as having registered and paid fees. The definition includes enrollment in mediated instruction courses, independent study, and correspondence study. For the purpose of this policy only, any student attending Governors State University will be considered to be an adult and to have sole control over the release of his/her information except as provided in this policy.

Education records are those records, files, documents, and other materials which contain information, recorded in any way, including but not limited to handwriting, print, tape, film, diskette, microfilm, and microfiche, that are directly related to a student and are maintained by Governors State University or any subunit or by any party acting for the university. The term does not include the following:

1. Personal records of instructional, supervisory, and administrative personnel, and educational personnel ancillary to those persons, which are kept in the sole possession of the maker thereof and are not accessible or revealed to any other person except a temporary substitute.
2. Records of the Department of Public Safety which are maintained apart from education records, maintained solely for law enforcement purposes, and disclosed only to law enforcement officials of the same jurisdiction. For the purpose of this policy, the Governors State University Public Safety Office will be treated as an outside agency, and the education records of students will not be disclosed to this office except with the written consent of the student or pursuant to other permitted exceptions specified by this policy.
3. Employment records, made and maintained in the normal course of business, that relate exclusively to an individual in his/her capacity as an employee and are not available for use for any other purpose, so long as they are maintained separately from any education record. Records relating to an individual in attendance at Governors State University who is employed as a result of his/her status as a student are considered education records and are not excepted under this definition.
4. Records of a physician, psychologist, or other recognized professional or paraprofessional acting in his or her professional capacity or assisting in a paraprofessional capacity which are used only in connection with treatment and are not disclosed to individuals other than those providing the treatment. For the purpose of this definition, "treatment" does not include remedial educational activities or activities that are part of the university's program of instruction.
5. Records which contain only information relating to a person after that person is no longer a student at Governors State University, such as alumni files.

Student information means any information contained in an education record as defined above.

Personally identifiable information includes but is not limited to the following:

1. The name of a student, the student's parent, student's spouse, or other family member.
2. The address of the student or the student's family.
3. A personal identifier such as the student's social security number or student number.
4. A list of personal characteristics which would make the student's identity easily traceable.
5. Other information that would make the student's identity easily traceable.
Directory information means information contained in the education record of a student which would not generally be considered harmful or an invasion of privacy if disclosed. Governors State University defines the following as directory information:

1. Student name
2. Student address(es) and telephone number(s)
3. Classification (graduate or undergraduate)
4. College and major field of study/concentration/minor
5. Previous institutions attended
6. Date of birth
7. Participation in officially recognized activities
8. Dates of attendance
9. Degrees conferred, with dates
10. Current term hours enrolled and full-time/part-time status
11. Awards, honors, and achievements (including distinguished academic performance), with dates
12. Pictures

Disclosure means to permit access to or the release, transfer, or other communication of education records, or the personally identifiable information contained in those records, to any party by any means, including orally, in writing, or electronically.

Identification, Description, and Location of Records

Academic Records. The Office of the Registrar maintains records relating to the student’s application for admission or readmission to the university, transfer credit evaluation, and other data pertinent to the student’s admissibility. This office also maintains the official academic record of a student. It is a cumulative history of the student’s admission, registration, and academic performance. Certain demographic and biographic information is also kept for identification, for enrollment, and research-related purposes, or as required for reporting purposes. For information concerning these records, contact the registrar, Office of the Registrar, Ext. 4500.

Academic records may also be maintained in collegial units and divisions. For information concerning these records, contact the appropriate unit as follows:

- Dean, College of Arts and Sciences, Ext. 4101
- Dean, College of Business and Public Administration, Ext. 4930
- Dean, College of Education, Ext. 4050
- Dean, College of Health Professions, Ext. 4388
- Director, Board of Governors B.A. Degree Program, Ext. 4092
- Dean, Center for Extended Learning and Communications Services, Ext. 5410

Financial Records. Units within the Business Office maintain financial records that relate to the payment and accounting of tuition, fees, and other charges. They also maintain records related to student loans, grants, or other forms of financial assistance received. For information concerning these records, contact the following:

- Director of Business Operations, (708) 534-5000, Ext. 5050
- Accounting, (708) 534-5000, Ext. 5060
- Cashier, (708) 534-4055
- Collections, (708) 534-4054

The Office of Financial Aid maintains records of students receiving loans, grants, VA benefits, or other forms of aid along with scholarship information and some academic data. It also maintains records pertinent to student employment. For information concerning these records, contact the following:

- Director of Financial Aid, (708) 534-4480.

Counseling/Testing/Tutoring Records. The Division of Student Development maintains records of services rendered by that office. For information concerning these records, contact the following:

- Director of Student Development, (708) 235-3961
- Division of Student Development, (708) 534-4508
- Center for Learning Assistance, (708) 534-4508

Disciplinary Records. The Office of the Dean of Student Affairs and Services maintains records of disciplinary action which has been taken against a student. For information concerning these records, contact the following:

- Dean of Student Affairs and Services, (708) 534-4045

Career-Related Records and Job Placement Records.
The Office of Career Services maintains records for those students who use its services. This information consists of self-completed resumes, various personal references, and academic transcripts furnished by the student. It is distributed to potential employers. For information concerning these records, contact the following:

- Director of Career Services, (708) 534-5000, Ext. 5080
- University Job Locator, (708) 534-5000, Ext. 5700
Access to Records

Right to Inspect or Review Education Records.
Governors State University students have the right to physically review their education records in the presence of a designated university representative. Where necessary, explanation and interpretation of the record will be provided by qualified university personnel.

The student may be required to submit the request in writing to the appropriate office and will be required to present appropriate identification.

The appropriate office shall comply with the request within a reasonable amount of time, not to exceed forty-five days after receipt of the request.

Original records may not be removed from any office where they are maintained.

Students may have copies made of their education record, upon payment of an appropriate charge established by the university, except in the following cases:

1. Copies of transcripts from other educational institutions will be provided only if the original source of those transcripts is no longer available or if going to the original source would cause undue hardship as determined by the university.

2. In cases where an administrative hold has been placed on a student’s record, the student may view such records but will not be able to obtain a copy of said record until the hold has been properly removed.

Limitations on Right to Inspect or Review. Students may not inspect or review the following:

1. Financial records submitted by their parents.

2. Confidential letters or materials placed in records before January 1, 1975, as long as they are used only for the purposes for which they were written.

3. Confidential letters or materials placed in records after January 1, 1975, if the student has voluntarily submitted a written waiver. Such letters and statements must relate to the student’s admission to the university, application for employment, or receipt of an honor or honorary recognition. If the student has waived the right of inspection, the university will provide the student, upon request, the names of the individuals who provided the letters and statements of recommendation. A waiver may be revoked with respect to any actions occurring after the revocation. A revocation must be made in writing.

4. If an education record contains information about more than one student, that record may be censored to protect the identity of the other person(s) named in the record.

Basic Policy Regarding Disclosure of Information from Education Records

Disclosure Not Requiring Prior Consent. The appropriate record-keeping office shall obtain the written consent of the student before disclosing personally identifiable information from the student’s records except in the case of directory information or disclosures to:

1. The student himself/herself.

2. University personnel who the institution has determined to have legitimate educational interests. The sufficiency of the need for student information will be determined by the head of the unit from which the records are sought.

University personnel are those members of the institution who act in the student’s educational interest within the limitations of their need to know and which may include faculty, administrators, clerical and professional employees, and other persons who manage student record information. Legitimate educational interest means the demonstrated need to know to permit the performance of their assigned duties and responsibilities, including, but not limited to, teaching, research, academic advising, record-keeping, and various student support services.

Student information supplied, in any format or medium, to any Governors State University personnel or units is provided on the basis that it is needed to permit their necessary functioning. All members of the faculty, administration, and clerical staff must respect the confidentiality of student information they require in the course of their work. They are bound by the conditions outlined in this policy statement relative to the release of student information. All GSU personnel should be alert to refer promptly to the appropriate unit’s requests for transcripts, certifications, or other information. They should restrict their responses to acknowledging, when appropriate, the receipt of requests for student information germane to their area of responsibility.

3. Officials of other schools in which the student seeks or intends to enroll, or in which the student is currently enrolled or receiving services from, if there is a legitimate need. The sufficiency of the need will be determined by the head of the unit from which the records are requested. The university will make a reasonable attempt to notify the student before disclosure. A copy of any information sent will be provided to the student upon request.
4. Faculty or staff conducting student characteristics research, providing the research project has the written approval of the academic dean or vice president sponsoring the research and providing that guarantees are made that no personally identifiable information will be published or released.

5. Certain state or federal representatives specified by law for the sole purpose of evaluation and auditing of governmentally funded programs in which the university participates, with the guarantee that the identity of the students will be protected and that the information will be destroyed when no longer needed for the purposes for which it was provided.

6. State and local officials or authorities, if a state statute adopted before November 19, 1974, specifically requires disclosure.

7. Organizations conducting studies for, or on behalf of, state or federal educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, with the guarantee that the identity of the student will be protected and that the information will be destroyed when no longer needed for the purposes for which the study was conducted.

8. In connection with financial aid for which the student has applied or received, if the information is needed to determine eligibility for the aid, to determine the amount of the aid, to determine the conditions for the aid, or to enforce the terms and conditions of the aid.

9. Accrediting organizations to carry out their accrediting function, with the guarantee that the identity of the student will be protected.

10. Appropriate persons in connection with an emergency, if knowledge of such information is necessary to protect the health or safety of a student or other persons.

11. In compliance with a judicial order or lawfully issued subpoena. The university will make a reasonable effort to notify the student in advance of compliance.

Disclosure Requiring Prior Consent. Except as listed in the above section, all requests for student information other than directory information must be accompanied by the written consent of the student.

When disclosure is made pursuant to this section, the appropriate record-keeping office will, upon request, provide the student a copy of the records which were disclosed.

The university will disclose personally identifiable information from the education records of a student only on the condition that the party to whom the disclosure is made will not further disclose the information without the student's written consent, except in the disclosure of directory information. The university will, except for the disclosure of directory information, inform the party to whom disclosure is made of the obligation to obtain the student's consent before further disclosure to other parties.

Disclosure of Directory Information. Directory information pertaining to individual students may be released at the discretion of the university. The definition of directory information will be published in the university catalog or other designated publication each academic year. Students may notify the university in writing if they do not want directory information disclosed without prior written consent. The request for not disclosing information will be honored until otherwise notified by the student in writing.

The procedural requirements of this section do not apply to the disclosure of directory information from the education records of an individual who is no longer enrolled at the university.

All recipients of student information within the university are required to comply with this policy. Directory information or lists of student information will never be knowingly provided to any requesting party for commercial or political purposes. If a student directory is published, it will be equally available to all.

Records of Disclosure Made. The university shall maintain a record of each request for access to and each disclosure of personally identifiable information from the education records of each student. The record of disclosure shall be maintained with the education record as long as the records are maintained. The record of disclosure shall include the following:

1. The parties who have requested or received personally identifiable information.

2. The legitimate interests the parties had in requesting or obtaining the information.

Records of disclosure are not required to be kept in the record of a student when the request was from, or the disclosure was to, the student himself/herself, a university or school official as defined in “Disclosure Not Requiring Prior Consent” above, a party with written consent from the student, or a party seeking directory information.
Challenging the Contents of an Education Record

Purpose. A student has the right to challenge the content of an education record on the ground that he/she believes that it is inaccurate, misleading, or otherwise in violation of his/her privacy or other rights and to have inserted on the record his/her written explanation of its contents.

NOTE: Academic grievances are covered in the university's "Grievance Procedures for Academic Matters" and not by this policy.

Procedure. To initiate a challenge to the education record, the student shall, within sixty (60) days after he/she has inspected and reviewed the record in question for the first time, file with the university office responsible for maintaining such records, a written request for correction, on a form specified by the university. Within thirty (30) days following receipt of such request, the unit head or his/her designee, shall review the record in question with the student and either order the correction or deletion of such alleged inaccurate, misleading, or otherwise inappropriate data as specified in the request or notify the student of the right to a hearing at which the student and other persons directly involved in the establishment of the record shall have an opportunity to present evidence to support or refute the contention that the data specified in the request are inaccurate, misleading, or otherwise inappropriate.

Hearing. The student will be given written notice sent to his/her last known address of the time and place of such hearing not less than ten (10) days in advance. The hearing will be conducted by a university representative who does not have a direct interest in the outcome. The student may challenge the hearing officer. Any disagreement regarding the hearing officer will be resolved by the appropriate vice president.

The student shall have the right to attend the hearing, to be advised by an individual of his/her choice at his/her own expense, including an attorney, and to call witnesses in his/her behalf. The student shall be notified in writing of the decision within ten (10) days following the hearing or within five (5) days of a decision without a hearing. Such decision is final. The decision shall be based solely on the evidence presented at the hearing and shall include a summary of the evidence and reasons for the decision.

If the decisions are unsatisfactory to the student, the student may place in the education record statements commenting on the information in the records or statements setting forth any reasons for disagreeing with the decisions of the hearing panels. The statements will be placed in the education record, maintained as part of the student's record, and released whenever the record in question is disclosed.

A hearing may not be requested by a student to contest the assignment of a grade; however, a hearing may be requested to contest whether or not the assigned grade was recorded accurately in the education records of the student.

Right to File Complaints

If a student thinks that his/her rights have been violated, he/she should first file a complaint with the head of the unit which maintains the records in question.

If, after exhausting all internal remedies available within the university, the student still thinks that his/her rights have been violated, written complaints can be filed with the following office:

Family Policy and Regulations Office
U.S. Department of Education
Washington, D.C. 20202

A written complaint to the Family Policy and Regulations Office must contain specific allegations of fact which have led the student to believe that a violation of the Family Educational Rights and Privacy Act has occurred.

The Family Policy and Regulations Office will notify the complainant and the university of the receipt of the complaint and an investigation will follow.

Destruction/Disposal of Records

The university may dispose of records when they are no longer necessary in accordance with the university record retention schedule. However, if under the terms of this policy, a student has requested access to the record or has formally challenged the record, the record shall not be destroyed until access has been granted or until a decision has been rendered.

Explanations placed in the record and the record of disclosure of information must be maintained as long as the record to which it pertains is maintained.

Persons in charge of student records should ensure that only pertinent items are retained in a student's record.

Residency Status for Tuition Purposes

Definitions

For purposes of this regulation, the following definitions pertain.

An "adult student" is a student who is 18 or more years of age.

A "minor student" is a student who is less than 18 years of age.

An "emancipated minor student" is a completely self-supporting student who is less than 18 years of age.
Marriage or active military service shall be regarded as affecting the emancipation of minors, whether male or female, for the purposes of this regulation.

"Residence" means legal domicile. Voter registration, filing of tax returns, proper license and registration for driving or ownership of a vehicle, and other such transactions may verify intent of residence in a state. Neither length of university attendance nor continued presence in the university community during vacation periods shall be construed to be proof of Illinois residence. Except as otherwise provided in this regulation, no parent or legal or natural guardian will be considered a resident unless the parent or guardian maintains a bona fide and permanent residence in Illinois, except when temporarily absent from Illinois, with no intention of changing his or her legal residence to some other state or country.

**Residency Determination**

Each university shall determine the residency status of each student enrolled in the university for the purpose of determining whether the student is assessed in-state or out-of-state tuition. Each applicant for admission to the university shall submit at the time of application evidence for determination of residency. The office responsible for admissions shall make a determination of residency status.

If a nonresident is classified in error as a resident, a change in tuition charges shall be applicable beginning with the term following reclassification. If the erroneous resident classification is caused by false information submitted by the student, a change in tuition charges shall be applicable for each term in which tuition charges were based on such false information. In addition, the student who has submitted false information may be subject to appropriate disciplinary action.

If a resident is classified by error as a nonresident, a change in tuition charges shall be applicable during the term in which the reclassification occurs, provided that the student has filed a written request for review in accordance with this regulation.

**Residency Requirements**

**Adult Students.** To be considered a resident, an adult student must have been a bona fide resident of Illinois for a period of at least six consecutive months immediately preceding the beginning of any term for which the individual registers at the university and must continue to maintain a bona fide residence in Illinois. In the case of adult students who reside with their parents (or one of them if only one parent is living or the parents are separated or divorced), the student will be considered a resident if the parents have established and are maintaining a bona fide residence in Illinois.

**Minor Students.** The residence of a minor student shall be considered to be the same as and change with any of the following:

1. That of the minor's parents if they are living together, or the living parent if one is deceased;
2. If the parents are separated or divorced, that of the parent to whom custody of the minor has been awarded by court decree or order, or in the absence of a court decree or order, that of the father unless the minor has continuously resided with the mother for a period of at least six consecutive months immediately preceding the minor's registration at the university, in which case the minor's registration shall be considered to be that of the mother;
3. If the minor has been legally adopted, that of the adoptive parents, and, in the event the adoptive parents become divorced or separated, that of the adoptive parent whose residence would govern under the foregoing rules if the parent had been a natural parent;
4. That of the legally appointed guardian of the person; or
5. That of a "natural" guardian such as a grandparent, adult brother or adult sister, adult uncle or aunt, or other adult with whom the minor has resided and by whom the minor has been supported for a period of at least six consecutive months immediately preceding the minor's registration at the university for any term if the minor's parents are deceased or have abandoned the minor and if no legal guardian of the minor has been appointed and qualified.

**Emancipated Minors.** If emancipated minors actually reside in Illinois, such minors shall be considered residents even though their parents or guardians may not reside in Illinois. Emancipated minors who are completely self-supporting shall be considered residents if they have maintained a dwelling place within Illinois for a period of at least six consecutive months immediately preceding the beginning of any term for which they register at the university. Emancipated minors who reside with their parents and whose parents (or one of them if one parent is living or the parents are separated or divorced) have established and are maintaining a bona fide Illinois residence shall be regarded as residents.

**Minor Children of Parents Transferred Outside the United States.** The minor children of persons who have resided in Illinois for at least twelve consecutive months immediately prior to a transfer by their employers to some location outside of the United States shall be considered residents. This rule shall apply, however, only when the minor children of such parents enroll in the university within five years of the time their parents are transferred by their employer to a location outside the United States.
Married Student. A nonresident student, whether minor or adult, who is married to a person who meets and complies with all of the applicable requirements of these regulations to establish residence status, shall be classified as a resident.

Armed Forces Personnel. Nonresidents of Illinois who are on active duty with one of the services of the Armed Forces of the United States, who are stationed in Illinois, and who submit evidence of such service and station, as well as the spouses and dependent children of such persons, shall be considered residents as long as such persons remain stationed in Illinois and the spouses and/or dependent children of such persons also reside in Illinois. If such persons are transferred to a post outside the continental United States, but such persons remain registered at the university, residency status shall continue until such time as these persons are stationed within a state other than Illinois but within the continental United States.

Staff Members of the University, Allied Agencies, and Faculty of State-Supported Institutions in Illinois. Staff members of the university and allied agencies and faculties of state-supported institutions of higher education in Illinois, holding appointment of at least one-quarter time, and their spouses and dependent children, shall be treated as residents.

Teachers in Public and Private Illinois Schools. Teachers in public and private elementary and secondary schools of Illinois shall, if subject to payment of tuition, be assessed at the resident rate during any term in which they hold an appointment of at least one-quarter time, including the summer session immediately following the term in which the appointment was effective.

Residency Status Appeal Procedure

Students who take exception to their residency status classification shall pay the tuition assessed but may file a claim in writing to the university office responsible for reconsideration of residency status. The written claim must be filed within thirty (30) calendar days from the date of the tuition bill or the student loses all rights to a change of residency status for the term in question. If the student is dissatisfied with the ruling in response to the written claim made within said period, the student may file a written appeal within ten (10) calendar days of receipt of the decision to the responsible university office. Such written appeals shall be forwarded to the appropriate university vice president who shall consider all evidence submitted in connection with the case and render a decision which shall be final.

Special Situations

Upon recommendation of the president/Board of Trustees, in special situations, grant resident status to categories of persons otherwise classified as nonresidents under this regulation.
FACULTY AND ADMINISTRATION

Glen Abbott
Assistant to the President/Affirmative Action Officer
B.A., State University of New York, Binghamton, 1972
M.A.T., State University of New York, Binghamton, 1973

Joseph B. Addison
University Professor of Physical Science, CAS
B.S., University of New Brunswick, 1972
Ph.D., University of New Brunswick, 1976

David Ainsworth
Coordinator of Instructional Development, CELCS
University Professor of Instructional Communications
M.A., University of St. Andrews, 1961
Ph.D., University of Southern California, 1970

James A. Alexander
Vice President, Administration and Planning
B.A., Yale University, 1975
J.D., Yale University, 1978

Joanne Amanis
University Professor of Reading/Language Arts, CE
B.S., University of Nebraska, Omaha, 1961
M.S.T., The University of Chicago, 1975
Ph.D., The University of Chicago, 1981

Anthony Andrews
University Professor of Economics, CBPA and CAS
B.A., Hampton Institute, Virginia, 1968
M.A., University of Pennsylvania, 1970
M.A., University of Kansas, 1971
Ph.D., University of Pennsylvania, 1991

Jane Andringa
University Professor of Special Education, CE
B.A., The University of Chicago, 1962
M.A., Chicago State University, 1975
C.A.S., National College of Education, 1983
Ph.D., Loyola University, 1995

Mary Arnold
University Professor of Counseling, CE
B.A., Johnson C. Smith University, 1970
M.A., Appalachian State University, 1976
Ph.D., University of Iowa, 1989

Timothy P. Arr
Director, Business Operations
B.A., University of Dallas, 1972

Teresa Barrios-Auld
University Professor of Policy Analysis/Latin American Studies, CAS
B.A., University of Illinois, Chicago, 1970
M.A., University of Illinois, Chicago, 1974

Tobin Barrozo
Provost/Vice President for Academic Affairs
B.A., San Francisco State University, 1965
Ph.D., Stanford University, 1978

Pamela Bax
University Professor of Counseling, SD
B.A., National Lewis University, 1985
M.S., Chicago State University, 1991

Ralph Bell
University Professor of Health Administration, CHP
B.A., University of South Florida, 1975
M.A., University of Illinois, Chicago, 1977
Ph.D., University of Illinois, Chicago, 1981

Carolyn Benjamin
Learning Assistance Center Counselor, CLA
B.A., Indiana State Teachers College, 1959
M.A., Indiana State Teachers College, 1962

Rachel O. Berg
University Professor of Psychology and Counseling, CE
B.A., The University of Chicago, 1962
M.A., The University of Chicago, 1963
Ph.D., The University of Chicago, 1972

Mary Bernd
Director, Extended Learning Credit Programming, CELCS
B.A., Mount Holyoke College, 1963

Michael Blackburn
Assistant Director, Student Life
B.A., Governors State University, 1984
M.A., Governors State University, 1985

Gregory Blevins
University Professor of Alcoholism Science, CHP
B.S., Western Michigan University, 1970
M.A., Western Michigan University, 1974
Ph.D., Western Michigan University, 1979

David Blood
University Professor of Education, CE
B.S., Illinois State University, 1971
M.A., Governors State University, 1974
Ed.D., Illinois State University, 1984

Eugene Blue
University Professor of Accounting, CBPA
B.A., Kalamazoo College, 1972
ABD, Michigan State University

Jay W. Boersma
University Professor of Photography, CAS
B.A., Columbia College, 1973
M.F.A., Rhode Island School of Design, 1976

William Bolin
University Professor of Social Work, CHP
B.S., Kentucky State University, 1964
M.S.W., University of Illinois, 1967

Mary Bookwalter
University Professor of Printmaking and Design, CAS
B.S.E., Emporia State University, 1966
M.A., Eastern Illinois University, 1982
M.F.A., Northern Illinois University, 1984

Arthur Bourgeois
University Professor of Art History, CAS
B.S., Wayne State University, 1971
M.A., Wayne State University, 1972
Ph.D., Indiana University, 1979

Richard Bradberry
Director, University Library
B.S., Alabama State University, 1973
M.S.L.C., Atlanta University, 1974
Ph.D., University of Michigan, 1988
Teresa Brobeck
University Professor of Communication Disorders, CHP
B.S.E., Indiana University, 1981
M.A., Indiana University, 1983
Ph.D., University of Iowa, 1996

Ronald L. Brubaker
University Professor of Computer Science, CAS
B.A., Cornell College, 1960
M.A., Princeton University, 1962
Ph.D., Princeton University, 1966

Lamanda Brunson-Kidd
Coordinator, Student Organizations, SL
B.S., University of Wisconsin, Oshkosh, 1983
M.D.H.R., National College of Education, 1989

Denise Bukovan
Special Project Manager, CBPA
B.M., State University of New York, Potsdam, 1976
M.P.A., State University of New York, Albany, 1992

Richard Burd
Professional Photographer, CELCS
University Professor of Photography
B.S., University of Wisconsin, 1965
M.S., Illinois Institute of Technology, 1970

David R. Burgest
University Professor of Social Work, CHP
B.A., Paine College, 1965
M.S.W., Wayne State University, 1968
Ph.D., Syracuse University, 1974

Linda Buyer
University Professor of Psychology, CE
B.A., University of Illinois at Chicago, 1979
M.A., University of Illinois at Chicago, 1985
Ph.D., University of Illinois at Chicago, 1989

Elizabeth Cada
University Professor of Occupational Therapy, CHP
B.S., Colorado State University, 1974
M.S., George Williams College, 1981
OTRL, Certified/Licensed in Illinois, Occupational Therapist
FAOTA Fellow of the American Occupational Therapy Association

D. Jon Carlson
University Professor of Counseling, CE
B.S., Southern Illinois University, 1967
M.S., Southern Illinois University, 1968
Ed.D., Wayne State University, 1971
Psy.D., Alfred Adler Institute, 1990

Cynthia Carr
University Professor of Occupational Therapy, CHP
B.S., Mount Mary College, 1976
M.S., University of Illinois Medical Center, 1988
OTRL, Certified/Licensed in Illinois, Occupational Therapist

Patricia A. Carter
Dean, Student Affairs and Services
B.S., Tennessee State University, 1967
M.A., Michigan State University, 1981
Ph.D., Michigan State University, 1981

Diane Casey
Librarian, UL
University Professor of Library Science
B.A., State University of New York, 1970
M.A., Ohio State University, 1972
M.Div., Trinity Lutheran Seminary, 1985
M.L.S., Kent State University, 1991

Edwin D. Cohn
Chairperson, Division of Science
University Professor of Physical Science, CAS
B.S., Villanova University, 1968
Ph.D., The Pennsylvania State University, 1971

Lisa Chang
University Professor of Education, CE
B.S., Taiwan Normal University, 1967
Ed.M., State University of New York, 1971
Ph.D., Cornell University at Ithaca, 1979

Christine Cochrane
Director, Small Business Development Center
B.A., University of Wisconsin, 1970
M.A., Governors State University, 1974

Clementine M. Coleman
University Professor of Health Administration, CHP
B.S., Roosevelt University, 1964
M.A., Governors State University, 1974

Burton Collins
University Professor of Counseling, CE
B.A., Langston University, 1963
M.A., Governors State University, 1974

Barbara Coan
Librarian, UL
University Professor of Library Science
B.A., University of Tennessee, Knoxville, 1959
M.L.S., University of Illinois, 1965
M.A., Governors State University, 1989

Judith Ann Cooney
University Professor of Psychology and Counseling, CE
B.S., Indiana University, 1964
M.S., Indiana University, 1967
Ed.D., Indiana University, 1978

William Craig
Admissions Counselor, ASR
B.A., Bowling Green State University, 1966
M.A., Northern Illinois University, 1969

Larry Cross
University Professor of Education, CE
B.A., Stullman College, 1966
M.Ed., University of Illinois, 1970
Ph.D., University of Illinois, 1984

Cynthia Cruz
Coordinator of Community College Relations, SAS
B.A., University of Illinois, Urbana, 1988
M.E., University of Illinois, Chicago, 1993

Lowell W. Culver
University Professor of Public Administration, CBPA
B.A., California State University, San Diego, 1954
M.A., University of California, Los Angeles, 1957
Ph.D., University of Southern California, 1967

David V. Curtis
University Professor of Management, CBPA
B.A., University of California, 1963
M.A., University of Denver, 1965
Ph.D., Stanford University, 1972

Karen D'Arcy
University Professor of Analytical Chemistry, CAS
B.A., University of Northern Colorado, 1979
Ph.D., Portland State University, 1984
Tommy Dascenzo  
Director, Student Life  
A.A., Olive Harvey College, 1971  
B.A., Governors State University, 1973  
M.A., Governors State University, 1976  
M.A., Governors State University, 1993

Jagdish Davé  
University Professor of Psychology and Counseling, CE  
B.A., Bombay University, India, 1946  
B.Ed., Gujarat University, India, 1954  
M.Ed., Gujarat University, India, 1956  
M.A., The University of Chicago, 1960  
Ph.D., The University of Chicago, 1964  
Psy.D., Illinois School of Professional Psychology, 1992

Michael Dimitroff  
University Professor of Psychology, CE  
A.B., Indiana University, 1966  
M.S., Indiana University, 1971  
Ph.D., Purdue University, 1975

Vincent Donahue Jr.  
Special Project Manager, CELCS  
B.A., DePaul University, 1980

Robert Donaldson  
University Professor of Public Administration, CBPA  
B.S., Florida A&M University, 1963  
M.P.A., Roosevelt University, 1973  
M.Ph., Roosevelt University, 1975  
Ed.D., Western Michigan University, 1977

Margaret Donohue  
Special Project Manager, CELCS  
B.A., Governors State University, 1980  
M.A., Governors State University, 1988

Arthur Durant  
University Professor of Health Administration, CHP  
B.A., Howard University, 1972  
M.A., The University of Chicago, 1978  
Ph.D., Brandeis University, 1993

Constance L. Edwards  
University Professor of Nursing, CHP  
B.S.N., Tuskegee Institute, 1966  
M.S., University of Colorado, 1970  
Ph.D., University of Illinois, Chicago, 1996

Virginia Eysenbach  
Coordinator, University Publications, PA  
B.A., University of Illinois, Chicago, 1968  
M.A., Governors State University, 1991

Richard H. Finkley  
University Professor of Business Law, CBPA  
B.S., Southern Illinois University, 1972  
J.D., University of Texas, 1975  
M.B.A., Southern Illinois University, 1977

Gary E. Fisk  
Director, Communications Services  
University Professor of Television and Media Production Management, CELCS  
B.S., Colorado State University, 1966  
M.A., Michigan State University, 1969

Richard Fosberg  
University Professor of Finance, CBPA  
B.B.A., Southwest Texas State University, 1976  
M.B.A., Texas A&M University, 1978  
Ph.D., Texas A&M University, 1988

Carolyn M. Fraser  
University Professor of Nursing, CHP  
B.S.N., DePaul University, 1959  
M.S.N., DePaul University, 1963  
Ed.D., Northern Illinois University, 1983

Lawrence Freeman  
Interim Dean, College of Education  
B.A., North Park College, 1962  
M.A., University of Nebraska, 1964  
Ph.D., University of Nebraska, 1968

Donald Fricker  
University Professor of Management Information Systems, CBPA  
B.A., Southern Illinois University, 1978  
M.B.A., Illinois Institute of Technology, 1984

George Garrett  
University Professor of Educational Administration, CE  
B.S., Southwestern College, 1966  
B.S.E., Henderson State University, 1970  
M.S.E., East Texas State University, 1973  
Ed.D., East Texas State University, 1978

Mary J. Geis  
University Professor of Nursing, CHP  
B.S., St. Xavier College, 1959  
M.S.N., University of California, 1961  
M.A., University of Kansas, 1979  
M.Ph., University of Kansas, 1981  
Ph.D., University of Kansas, 1985

Donna Gellaty  
University Professor of Health Administration, CHP  
B.S., DePaul University, 1969  
M.B.A., DePaul University, 1972  
C.P.A., State of Illinois, 1973

Efraim Gil  
University Professor of Public Administration, CBPA  
B.A., San Jose State University, 1964  
M.C.P., University of Cincinnati, 1966  
Ph.D., University of Illinois, Chicago, 1981

Ann Glasscock  
Documents Librarian, UL  
University Professor of Library Science  
B.A., University of Wisconsin, 1965  
M.A.L.S., University of Wisconsin, 1966  
Certificate of Advanced Study in Library Science, The University of Chicago, 1980

Olzman W. Goldenstein  
Chairperson, Division of Liberal Arts  
University Professor of Criminal Justice, CAS  
B.A., Carthage College, 1959  
M.Div., Chicago Lutheran Theological Seminary, 1962  
Ph.D., Union Graduate School, West, 1979

Mercedes Graf  
University Professor of School Psychology, CE  
B.S., Loyola University, 1961  
M.S.Ed., Chicago State University, 1964  
Ed.D., University of Illinois, Urbana, 1979

Paul Green  
Director, Institute for Public Policy and Administration, CBPA  
B.A., University of Illinois, 1964  
M.A., The University of Chicago, 1966  
Ph.D., The University of Chicago, 1975

Julie Gude  
Executive Director, Information Technology Services  
B.S., Southern Illinois University, Carbondale, 1964
Peter Gunther  
University Professor of Environmental Science, CAS  
B.S., St. John's University, 1965  
M.S., Niagara University, 1967  
Ph.D., The Pennsylvania State University, 1972

Judith Gustavson  
Coordinator of Academic Advising, CBPA  
B.A., Governors State University, 1966  
M.A.B.A., Governors State University, 1979  
Michael Hanei  
Director of Technical Services, ITS  
B.S., Southern Illinois University, Edwardsville, 1972

Reino W. Hakala  
University Professor of Mathematical, Physical, and  
Environmental Sciences, CAS  
A.B., Columbia University, 1946  
M.A., Columbia University, 1947  
Ph.D., Syracuse University, 1965

Elizabeth Hansen-Shaw  
Librarian, UL  
University Professor of Library Science  
B.A., Western Illinois University, 1971  
M.A., University of South Florida, 1979

Michael Hassett  
Director, Physical Plant Operations  
B.S., Northern Illinois University, 1972  
M.B.A., Governors State University, 1987

Darlene Hawkins  
University Professor of Psychology and Counseling, CE  
B.A., DePaul University, 1983  
Ph.D., Illinois Institute of Technology, 1993

Edward Hefer  
University Professor of Health Administration, CHP  
B.S., Arizona State University, 1959  
M.P.H., Syracuse University, 1985  
Ph.D., Syracuse University, 1985

Lisa Hendrickson  
Admissions Counselor, ASR  
B.S., Northern Illinois University, 1989  
M.A., Governors State University, 1995

Lee Hertzman  
University Professor of Health Science, CHP  
B.A., Oberlin College, 1961  
M.P.H., University of Michigan, 1965  
Ph.D., University of Illinois, 1972  
M.B.A., The University of Chicago, 1984

Susanne Hildebrand  
University Professor of Communication Disorders, CHP  
B.S., Northern Illinois University, 1968  
M.S., University of Illinois, 1969

Deborah Holdstein  
University Professor of English and Rhetoric, CAS  
B.A., Northwestern University, 1973  
A.M., University of Illinois, 1975  
Ph.D., University of Illinois, 1978

Glenna Howell  
University Professor of Reading and Language Arts, CE  
B.A., University of Missouri, Kansas City, 1970  
M.A., University of Missouri, Kansas City, 1973  
Ph.D., University of Missouri, Kansas City, 1978

Mary E. Howes  
Interim Dean, CBPA  
University Professor of Management  
Diploma, Vancouver Community College, 1974  
M.B.A., University of Kansas, 1978  
Ph.D., University of Kansas, 1981

Dora Hubbard  
Registrar  
B.A., Southern Illinois University, 1970  
M.A., Governors State University, 1974

Rosemary Huelt  
Director, Alumni Relations  
B.S.Ed., Chicago State University, 1975  
M.S.Ed., Chicago State University, 1980

Debra Huntley  
University Professor of Psychology, CE  
B.A., University of Minnesota, 1981  
M.A., University of Houston, 1985  
Ph.D., University of Houston, 1987

Akkand M. Isaac  
Acting Chairperson, Division of Management/Administrative  
Sciences/Marketing/Public Administration, CBPA  
University Professor of Management Information Systems,  
CBPA  
B.S., Kerala University, 1954  
M.S., Lehigh University, 1967  
Ph.D., Lehigh University, 1969

Anthony Jackson  
Chairperson, Division of Accounting/Finance/Economics,  
CBPA  
B.B.A., University of Cincinnati, 1968  
M.B.A., The University of Chicago, 1970  
Ph.D., University of Cincinnati, 1985

Melissa Jones  
University Professor of Psychology and Counseling, CE  
B.A., University of Texas, Austin, 1975  
M.Ed., Hardin Simmons University, 1992  
Ph.D., University of North Texas, 1996

Jeffrey Kaiser  
University Professor of Educational Administration, CE  
A.S., State University of New York, Buffalo, 1964  
B.S., State University of New York, Buffalo, 1966  
Ed.M., State University of New York, Buffalo, 1969  
S.E.A., State University of New York, Buffalo, 1972  
Ph.D., State University of New York, Buffalo, 1973

Philip Karpik  
University Professor of Accounting, CBPA  
B.S., University of Pennsylvania, 1973  
M.B.A., Syracuse University, 1975  
M.S., Syracuse University, 1976  
Ph.D., Syracuse University, 1986

Maribeth Montgomery Kasik  
Acting Chairperson, Division of Education, CE  
University Professor of Special Education, CE  
B.S., Southern Illinois University, 1973  
M.Ed., University of Illinois, 1978  
Ph.D., Southern Illinois University, 1983

Marsha Katz  
University Professor of Management, CBPA  
B.A., State University of New York at Stony Brook, 1969  
M.A., Michigan State University, 1971  
Ph.D., Michigan State University, 1978
Thomas J. Kelly  
University Professor of Urban History, CAS  
B.A., John Carroll University, 1962  
M.A., University of Illinois, 1965  
Ph.D., University of Illinois, 1971

Joyce Kennedy  
University Professor of Communication, CAS  
B.A., Harris Teachers College, 1965  
M.Ed., St. Louis University, 1968  
Ph.D., Michigan State University, 1975

Jacquelyn Kilpatrick  
University Professor of English Literature and Composition, CAS  
B.A., California State University, Fresno, 1979  
M.A., California State University, Fresno, 1981  
Ph.D., University of California, Santa Cruz, 1996

Mohammed Khaata  
University Professor of Science Education, CAS  
B.A., Moorhead State University, 1966  
M.S., North Dakota State University, 1968  
Ph.D., University of Iowa, 1974

Diane Kjos  
University Professor of Psychology and Counseling, CE  
B.S., Syracuse University, 1973  
M.A., Governors State University, 1974  
Ph.D., Loyola University of Chicago, 1980

Phyllis Klingensmith  
Co-director, Physical Therapy Program, CHP  
University Professor of Physiology, CAS  
B.S., Pennsylvania State University, 1979  
M.S., Ohio State University, 1981  
Ph.D., Purdue University, 1984

Jacqueline Klosak  
University Professor of Criminal Justice, CAS  
B.A., Valparaiso University, 1985  
M.S., University of Louisville, 1986

Ana C. Kong  
University Professor of Communication, CAS  
B.S., Far Eastern University, Manila, 1962  
M.S., University of Illinois, 1969  
Ph.D., University of Illinois, 1973

Georgia Kosmoski  
University Professor of Educational Administration, CE  
B.S., Indiana University, 1972  
M.S., Purdue University, 1975  
Ph.D., Purdue University, 1989

Frances Kostarelos  
University Professor of Liberal Studies and Anthropology, CAS  
B.A., The University of Chicago, 1980  
M.A., The University of Chicago, 1981  
Ph.D., The University of Chicago, 1989

Patricia Koutouzas  
University Professor of English and Secondary Education, CAS  
B.A., Valparaiso University, 1970  
M.A., Governors State University, 1989

Damon Krug  
University Professor of Psychology and Counseling, CE  
B.A., Hanover College, 1985  
M.A., Ball State University, 1987  
Ph.D., Ball State University, 1990

William J. Kryspin  
Director, Institutional Research  
B.A., St. Mary's College, 1964  
M.S., Purdue University, 1972  
Ph.D., Purdue University, 1974

Shailendra Kumar  
University Professor of Organic Chemistry, CAS  
B.S., University of Delhi, 1971  
M.S., University of Delhi, 1973  
Ph.D., University of Missouri, 1981

Anthony Labriola  
University Professor of Television Production, CELCS  
B.A., University of Illinois, 1972  
M.A., Ohio University, 1978

Mary Lanigan  
University Professor of Communication and Training, CAS  
B.A., University Illinois, Urbana, 1986  
M.S., Illinois State University, 1988  
M.S., Indiana University, 1994  
M.S., Indiana University, 1995

Annie L. Lawrence  
Chairperson, Division of Nursing and Health Sciences, CHP  
University Professor of Nursing  
Certificate Public Health Nursing, Loyola University of Chicago, 1952  
B.S.N.Ed., DePaul University, 1953  
M.S.N.Ed., DePaul University, 1957  
Ed.D., Illinois State University, 1987

Robert E. Leftwich  
University Professor of Nursing, CHP  
B.S.N., Baylor University, 1963  
M.S., Northern Illinois University, 1970  
Ph.D., Clayton University, 1977

Mari Ellen Leverence  
University Librarian, UL  
University Professor of Library Science  
B.S., Eastern Illinois University, 1971  
M.S.E., Southern Illinois University, 1974  
M.L.S., Rosary College, 1990

Larry Levinson  
University Professor of Political Science, CAS  
B.A., Washington University, St. Louis, 1974  
M.A., University of Wisconsin, Madison, 1975  
Ph.D., The University of Chicago, 1987

Andre Lewis  
Admissions Counselor, ASR  
B.A., Governors State University, 1992

Judith A. Lewis  
University Professor of Alcoholism Sciences, CHP  
B.A., University of Michigan, 1960  
M.A., Eastern Michigan University, 1963  
M.A., Eastern Michigan University, 1965  
Ph.D., University of Michigan, 1970

Michael D. Lewis  
University Professor of Psychology and Counseling, CE  
B.S., Eastern Michigan University, 1962  
M.A., Eastern Michigan University, 1964  
Ph.D., University of Michigan, 1969

Jagan Lingamneni  
University Professor of Criminal Justice, CAS  
B.Sc., A.P. Agricultural College, 1962  
M.Sc., A.P. Agricultural University, 1965  
Ph.D., Michigan State University, 1972  
M.S.C.E., University of Alabama in Birmingham, 1979
Benjamin Lowe  
University Professor of Education, CE  
B.A., University of Birmingham, 1966  
M.S., University of Wisconsin, 1968  
Ph.D., University of Wisconsin, 1970  
M.Ed., University of Illinois, Chicago, 1986  

John Lowe III  
University Professor of Communication Disorders, CHP  
B.S., Eastern Illinois University, 1964  
M.A., University of Illinois, 1966  
Ph.D., University of Illinois, 1969  

Jay Lubinsky  
University Professor of Communication Disorders, CHP  
B.A., Brooklyn College, 1967  
M.S., Brooklyn College, 1972  
Ph.D., Case Western Reserve University, 1977  

Gail L. Lutz  
Director of Human Resources  
B.A., DePaul University, 1978  
M.A., University of Illinois, Springfield  

Zafer A. Malik  
University Professor of Management, CBPA  
M.S., Union College, 1967  
Ph.D., Rensselaer Polytechnic Institute, 1974  

James Mussey  
University Professor of Health Administration, CHP  
B.A., McMurry College, 1963  
M.P.A., University of Missouri, 1969  

David Matteson  
University Professor of Psychology and Counseling, CE  
B.A., Alfred University, 1960  
B.D., Colgate Rochester Divinity School, 1964  
Ph.D., Boston University, 1968  

Dale F. Max  
University Professor of Business Administration, CBPA  
B.S., Wartburg College, 1966  
M.S., University of Wisconsin, 1968  
Ph.D., University of Iowa, 1972  

Sandra A. Mayfield  
University Professor of Communication Disorders, CHP  
B.S., Colorado State University, 1971  
M.A., Case Western Reserve University, 1972  
Ph.D., University of Wisconsin-Madison, 1980  

Kelly McCarthy  
University Professor of Counseling, SD  
B.A., University of Illinois, Chicago, 1980  
M.A., DePaul University, 1990  

Diane McClellan  
University Professor of Early Childhood Education, CE  
B.A., University of California, Berkeley, 1970  
M.A., Governors State University, 1976  
Ph.D., University of Illinois, Urbana, 1991  

Holly McCracken  
External Programs Manager, CELCS  
B.A., Illinois Wesleyan University, 1977  
M.A., University of Illinois, Springfield, 1990  

Nancy McKeating  
University Legal Counsel, A&P  
B.S., Northern Illinois University, 1973  
J.D., Northern Illinois University, 1978  

Cheryl Mejta  
University Professor of Alcoholism Sciences, CHP  
Special Projects Manager, CHP  
B.S., Bradley University, 1973  
M.A., Bradley University, 1974  
Ph.D., Illinois Institute of Technology, 1981  

Jon E. Mendelson  
University Professor of Environmental Science, CAS  
B.A., Harvard University, 1962  
M.A., University of Wisconsin, 1968  
Ph.D., University of Wisconsin, 1972  

Salvador Mendoza  
Admissions Counselor, ASR  
B.S., Chicago State University, 1990  

John Meyer  
University Professor of Computer Education, CE  
B.S., Findlay College, 1971  
M.Ed., University of Toledo, 1976  
Ph.D., Ohio University, 1991  

C. Edward Miller  
University Professor of Life Science, CAS  
B.A., Northern Illinois University, 1966  
M.A., Northern Illinois University, 1969  
Ph.D., Northern Illinois University, 1972  

Donald W. Miller  
University Professor of Economics, CBPA  
A.B., Indiana University, 1964  
M.B.A., Roosevelt University, 1969  
Ed.D., Northern Illinois University, 1978  

Irwin Miller  
University Professor of Health Administration, CHP  
B.A., New York University, 1966  
M.A., The University of Chicago, 1970  
M.P.H., University of North Carolina, 1973  
Ph.D., The Union Institute, 1992  

Gregory Moehring  
University Professor of Inorganic Chemistry, CAS  
B.S., Western Washington University, 1981  
Ph.D., Purdue University, 1987  

Joyce Mohberg  
University Professor of Life Science, CAS  
B.S., North Dakota State University, 1953  
M.S., North Dakota State University, 1955  
M.S., University of Wisconsin, 1957  
Ph.D., University of Wisconsin, 1962  

Sonya Monroe  
University Professor of Social Work, CHP  
B.A., University of Illinois, 1959  
M.S.W., University of Illinois, 1961  
Ed.D., Western Michigan University, 1981  

Joyce C. Morishita  
University Professor of Art, CAS  
B.A., Northwestern University, 1965  
M.A., Northwestern University, 1966  
Ph.D., Northwestern University, 1979  

Lydia Morrow  
Librarian, UL  
University Professor of Library Science  
B.S., University of Wisconsin, Parkside, 1985  
M.L.I.S., University of Wisconsin, Milwaukee, 1988  
M.B.A., Governors State University, 1993
Cheryl Mroz
University Professor of Nursing, CHP
B.S., St. Xavier University, 1975
M.S., St. Xavier University, 1978
Ph.D., Loyola University, 1992

Melvyn M. Muchnik
University Professor of Communication, CAS
B.S., University of Maryland, 1960
M.A., University of Maryland, 1966
Ph.D., University of Denver, 1973

Rashidah J. Muhammad
University Professor of English and Secondary Education, CAS
B.A., Michigan State University, 1989
M.A., Michigan State University, 1991
Ph.D., Michigan State University, 1995

Kathy Murphy
Special Project Manager, CBPA
B.S., Roosevelt University, 1985

Charles Nebes
Coordinator, Information Systems, ITS
B.S., University of Illinois, 1971

Margaret Neumann
University Professor of Management Information Systems, CBPA
B.S., University of Southern Mississippi, 1980
M.S., University of Southern Mississippi, 1984
Ph.D., University of Texas at Arlington, 1991

Paul O'Brien
University Professor of Accounting, CBPA
B.S., Millikin University, 1959
M.B.A., The University of Chicago, 1963
C.P.A., State of Illinois, 1964
Ph.D., Illinois Institute of Technology, 1978

Roger K. Oden
Dean, College of Arts and Sciences
University Professor of Political Science, CAS
B.A., North Carolina Central University, 1970
M.A., The University of Chicago, 1972
Ph.D., The University of Chicago, 1977

Charles L. Olson
University Professor of Business Administration, CBPA
B.S., Boston University, 1960
M.B.A., Boston University, 1961
M.B.A., The University of Chicago, 1972

Philip Oraviec
Director of Public Safety
B.A., University of Illinois, Chicago, 1971

Roger Paris
Director, Contract and Training Services
B.A., University of Illinois, 1969
M.A., Governors State University, 1985

Soon-Ok Park
University Professor of Computer Science, CAS
B.S., Sogang University, Korea, 1979
M.S., Marquette University, 1983
Ph.D., Illinois Institute of Technology, 1994

David Parmenter
University Professor of Production Management, CBPA
B.A., University of Arizona, 1980
M.B.A., University of Arizona, 1983
Ph.D., University of Arizona, 1992

June O. Patton
University Professor of History, CAS
B.A., Roosevelt University, 1967
M.A., Roosevelt University, 1968
M.S.T., The University of Chicago, 1971
Ph.D., The University of Chicago, 1980

John Payne
Sculptor in Residence
University Professor of Sculpture/Ceramics, CAS
B.A., Beloit College, 1959
M.S., University of Wisconsin, 1961
M.F.A., University of Wisconsin, 1969

Walter Perkins
University Professor of Media Communications, CAS
B.S., Bradley University, 1970
J.D., DePaul University, 1978

Karen Peterson
University Professor of Education, CE
B.A., Elmhurst College, 1971
M.A., Governors State University, 1975
Ph.D., Vanderbilt University, 1995

Sally Petrelli
Learning Technologies Manager, CELCS
University Professor of Instructional Communication
Ph.B., The University of Chicago, 1948
M.A., Governors State University, 1979

David Prasse
University Professor of School Psychology, CE
B.A., Hanover College, 1969
M.S., Indiana State University, 1973
Ph.D., Indiana State University, 1975

Suzanne Prescott
University Professor of Human Development, CE
B.A., Lake Forest College, 1963
M.A., The University of Chicago, 1965
Ph.D., The University of Chicago, 1974

Robert P. Press
University Professor of Education, CE
B.A., Antioch College, 1960
M.A., New York University, 1962

Linda Proudfoot
University Professor of Mathematics and Computer Education, CE
B.A., University of Northern Iowa, 1970
M.A., University of Northern Iowa, 1971
Ph.D., Indiana University, 1980

Michael Purdy
University Professor of Communication, CAS
B.S., State University of New York at Albany, 1967
M.S., Kansas State University, 1969
Ph.D., Ohio University, 1973

Amy Quaid
Coordinator, Debt Management, FA
B.A., Illinois State University, 1993

Hugh Rank
University Professor of English Literature, CAS
B.A., University of Notre Dame, 1954
M.A., University of Notre Dame, 1955
Ph.D., University of Notre Dame, 1969

Patti Regan
University Professor of Occupational Therapy, CHP
B.A., Illinois Benedictine University
M.S., Rush University
OTR/L Certified/Licensed in Illinois, Occupational Therapist
Vinicio H. Reyes
University Professor of Bilingual/Bicultural Education, CE
L.I.C., Catholic University of Ecuador, 1957
L.I.C., Catholic University of Ecuador, 1960
M.Ed., Loyola University of Chicago, 1968
Ph.D., Loyola University of Chicago, 1975

Sang-O Rhee
Chairperson, Division of Health Administration and Human Services
University Professor of Health Administration, CHP
B.A., Seoul National University, 1965
B.A., Oklahoma City University, 1966
M.S.W., University of Michigan, 1968
M.A., University of Michigan, 1970
Ph.D., University of Michigan, 1975

Colleen Rock
Special Project Manager, Provost's Office
B.A., Governors State University, 1993

Carlos Rodriguez
University Professor of Marketing and International Business, CBPA
B.Sc., Universidad Nacional de Ingenieria UNI, Peru, 1981
M.B.A., Escuela de Administracion de Negocios para Graduados, ESAN, Peru, 1981
M.Sc., The Pennsylvania State University, 1988
Ph.D., The Pennsylvania State University, 1994

Cecilia Rokuske
Dean, College of Health Professions
B.A., Mount Marty College, 1975
M.A., University of Nebraska, 1976
Ed. D., University of South Dakota, 1983

Winfried Rudloff
University Professor of Computer Science, CAS
Diploma, University of Hamburg, Germany, 1952
Diploma, University of Heidelberg, Germany, 1959
Ph.D., Illinois Institute of Technology, 1965

Therese Sage
Director of Financial Aid, SAS
B.A., Saint Xavier College, 1988
M.P.A., University of Illinois at Chicago, 1994

Paul R. Schranz
University Professor of Photography, CAS
B.F.A., Ohio University, 1970
M.A., Governors State University, 1973
M.F.A., Northern Illinois University, 1978

Janice B. Schultz
Associate Director for Academic Personnel, HR
B.A., North Central College, 1972
M.A., Governors State University, 1989

El Segui
University Professor of Media Communications, CAS
B.A., Columbia College, 1963
M.A., New York University, 1965

Brandon Senter
Associate Vice President for Development
B.S., St. Louis University, 1977
M.P.A., St. Louis University, 1983

Ali Setork
University Professor of Computer Science, CAS
B.A., Abadan Institute of Technology, 1974
M.S., Brown University, 1976
Ph.D., Southern Illinois University, 1983

Farouk Shaaban
University Professor of Business Administration, CBPA
B.C., Alexandria University, 1960
M.S., Southern Illinois University, 1966
Ph.D., University of Illinois, 1972

Aida Sheikib
University Professor of Business Administration, CBPA
B.A., Alexandria University, 1960
M.B.A., Indiana University, 1964
Ph.D., University of Illinois, 1970
C.M.A., Institute of Management Accounting, 1975
C.P.A., State of Tennessee, 1976

Yun-Yau Shih
University Professor of Computer Science, CAS
B.S., Tunghai Christian University, Taiwan, 1983
M.S., State University of New York, Binghamton, 1987
Ph.D., State University of New York, Binghamton, 1994

Glenna Shive
Director of BOG Degree Program and Director of Assessment of Experiential Education, CELCS
B.A., Temple University, 1972
M.A., Temple University, 1977
Ph.D., Temple University, 1979

Nancy Shlaes
Librarian, UL
University Professor of Library Science
B.S., University of Illinois, 1977
M.L.S., Rosary College, 1987
M.S., Governors State University, 1993

Jessica Skorupa
Outreach Counselor, SD
University Professor of Counseling
B.B.A., Loyola University, 1982
M.Ed., Loyola University, 1988
Ph.D., Loyola University, 1995

Joyce Sligar
University Professor of Physical Therapy, CHP
B.S., University of Missouri, 1967
M.B.A., Governors State University, 1989

David Sparks
Learning Assistance Center Counselor, CLA
B.A., Lewis University, 1978
M.B.A., University of Cincinnati, 1980

Michael Steinbeck
University Professor of Communication, CAS
B.A., DePaul University, 1961
M.A., Northwestern University, 1968
Ed.D., Northern Illinois University, 1980

Adalma Stevens
Director of Support Services, ITS
B.A., Sangamon State University, 1974

Kay Stinson
Assistant to the President

Carl P. Stover
University Professor of Public Administration, CBPA
B.A., Stanford University, 1969
M.A., University of Minnesota, 1973
Ph.D., University of Minnesota, 1978

David Saddick
University Professor of Education, CE
B.S., Illinois State University, 1965
M.A., University of Northern Colorado, 1966
Ph.D., University of Northern Colorado, 1969
Medha Sukhatme  
Coordinator of University Computing Services  
B.Sc., University of Bombay, India, 1965  
M.S., Northeastern University, 1967  
M.S., Massachusetts Institute of Technology, 1971  
Master’s Diploma, Cambridge University, England, 1977

William Toner  
University Professor of Public Administration, CBPA  
B.A., California State University, Fullerton, 1970  
M.P.A., California State University, Fullerton, 1971

Michael Toney  
Executive Director for Enrollment Services, SAS  
B.A., University of Illinois, 1973  
M.A., Northeastern Illinois University, 1977  
Ed.D., Roosevelt University, 1996

D. Sharifa Townsend  
University Professor of Early Childhood Education, CE  
B.A., University of the Pacific, 1976  
M.A., University of the Pacific, 1977

Jacqueline Trubac  
University Planner, Institutional Research  
B.A., Governors State University, 1986  
M.A., Governors State University, 1988

Ann Vendrely  
Co-director, Physical Therapy Program  
Academic Coordinator of Clinical Education  
University Professor of Physical Therapy, CHP  
B.A., Goshen College, 1985  
M.S., University of Indianapolis, 1987

Walter Verdooren  
Director, Corporate and Foundation Giving  
B.A., Augustana College, 1983  
M.A., Yale University, 1985  
M.A., University of Illinois, Chicago, 1995

Richard J. Verweyl  
University Professor of Management, CBPA  
B.A., University of Notre Dame, 1956  
M.A., Loyola University of Chicago, 1963  
B.A., Indiana University, 1966  
Ph.D., Indiana University, 1971

Amerill Wang  
University Professor of Nursing, CHP  
B.S.N., Philippine Christian University, 1965  
M.A., University of the Philippines, 1968  
Ed.D., Columbia University, 1974

Mary Washington  
University Professor of Accounting, CBPA  
B.S., San Diego State University, 1973  
M.B.A., University of San Diego, 1981  
Ph.D., University of Southern California, 1987

Anthony Wei  
University Professor of Philosophy and History, CAS  
B.A., Salesian University, 1958  
M.A., Salesian University, 1962  
S.S.L., Pontifical Biblical Institute, 1964  
Ph.D., University of Freiburg, 1969  
M.L.S., University of Pittsburgh, 1971

Detmer (D.J.) Wells  
Coordinator, Marketing and Promotion Services, PA  
B.S., Northwestern University, 1986

Walter Wentz  
University Professor of Health Administration, CHP  
B.A., University of Iowa, 1949  
M.A., University of Iowa, 1950  
Ph.D., University of Iowa, 1963

Sandra Whitaker  
University Professor of Psychology, CE  
B.A., Wayne State University, 1959  
M.A., Wayne State University, 1967  
Ph.D., Michigan State University, 1972

Kenneth F. Wieg  
University Professor of Psychology and Counseling, CE  
B.B.A., University of Wisconsin, 1948  
B.D., Northwestern Lutheran Theological Seminary, 1951  
M.S., University of Oregon, 1967  
Ph.D., University of Oregon, 1973

William Wilkinson  
University Professor of Marketing, CBPA  
B.A., Washington and Lee University, 1971  
M.S., Yale University, 1973  
M.P.H., Yale University, 1975  
Ph.D., Yale University, 1975  
M.B.A., The University of Chicago, 1982

James Williams  
University Professor/Coordinator, Writing Across the Curriculum  
B.A., San Jose State University, 1971  
M.A., San Jose State University, 1975  
Ph.D., University of Southern California, 1983

B. Eugene Wilson  
University Professor of Psychology, CBPA  
B.A., University of Nevada, 1967  
Ph.D., University of Nevada, 1971

Lonn A. Wolf  
University Professor of Psychology and Counseling, CE  
B.A., The University of Chicago, 1970  
M.S., Yale University, 1973  
Ph.D., Yale University, 1975

Paula Wolff  
President  
B.A., Smith College, 1967  
M.A., The University of Chicago, 1969  
Ph.D., The University of Chicago, 1972

Kong-Cheng Wong  
University Professor of Computer Science, CAS  
B.S., National Central University (Taiwan), 1977  
M.S., University of Colorado, 1984  
M.S., State University of New York, Binghamton, 1985  
Ph.D., State University of New York, Binghamton, 1989

Peggy G. Woodard  
Director of Student Development  
B.A., Southern Illinois University, 1973  
M.S.E., Northern Illinois University, 1979  
Ph.D., Loyola University, 1993

Addison Woodward  
Chairperson, Division of Psychology and Counseling, CE  
University Professor of Psychology  
B.S., C.W. Post College, 1964  
M.A., Connecticut College, 1966  
Ph.D., University of Toronto, 1968

William S. Yacullo  
University Professor of Communication Disorders, CHP  
B.S., Elmhurst College, 1974  
M.A., Northwestern University, 1976  
Ph.D., University of Iowa, 1982
John Yunger  
University Professor of Biology, CAS  
B.S., Western Michigan University, 1987  
M.S., Western Michigan University, 1990  
Ph.D., Northern Illinois University, 1996  

Leon Zaborowski  
Dean, CELCS  
B.S., University of Wisconsin, 1966  
Ph.D., University of Idaho, 1970  

Leon J. Zalewski  
University Professor of Science Education, CE  
B.S., California State College of Pennsylvania, 1965  
M.Ed., Indiana University of Pennsylvania, 1969  
Ph.D., University of Iowa, 1974  

Pamela Zener  
Learning Assistance Center Counselor, CLA  
B.A., Indiana University, 1969  

Shensheng Zhao  
University Professor of Computer Science, CAS  
B.S., Beijing University, 1969  
M.S., Old Dominion University, 1986  
Ph.D., Old Dominion University, 1990  

Constance Zonka  
Director of Public Affairs  
B.A., University of Florida, 1958  
M.A., The University of Chicago, 1960
