This Week at GSU

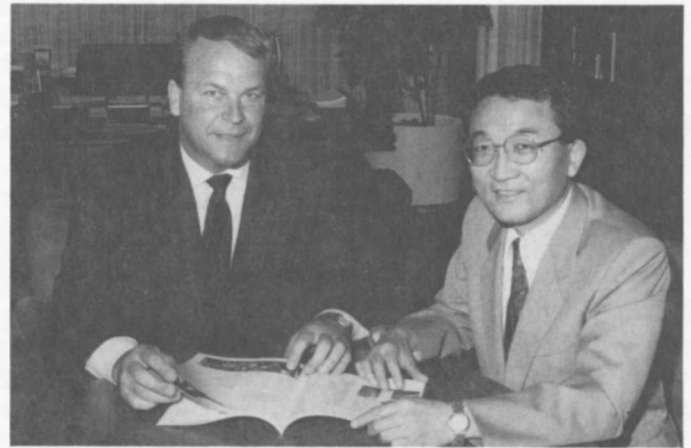

- 9 GSU Community Chorale Practice, 8 to 10 p.m., Music Recital Hall.
- 10 GSU Community Band Practice, 7:30 to 10 p.m., Theatre.
- 10 The Equitable TSA Table, 1 to 7 p.m., Hall of Governors.
- 10 GSU Community Band Practice, 7:30 to 10 p.m., Theatre.
- 11 University Singers, 3:30 to 6 p.m., Music Recital Hall.
- 13 Sculpture Park Tour, 1 to 3 p.m., Rain Location F1200.
- 13 "The Global Village Revisited," 9 a.m. to 5 p.m., Engbretson Hall.
- 14 University Competency Test, 8:30 a.m. to noon, Theatre.
- 14 "Trends in the Soviet Union," 9 a.m. to 5 p.m., Hall of Honors.
- 14 "Start Your Own Health Care Business," 9 a.m. to 1:30 p.m., E1401.
- 14 ACT Review Class, 9 a.m. to 1 p.m., E1601.

Foreign visitors are welcomed guests at GSU

Governors State University has become a stopping point for foreign visitors, recently welcoming guests from Japan, Korea, Britain and Italy.

Dr. Jerry Juska, a marketing professor in the College of Business and Public Administration, hosted a visit by Professor Yasuhiko Kobayashi

of Aoyama Gakuin University in Tokyo. The two had met earlier this year when Dr. Juska was in Japan as a representative at the International Housewares Show. During his visit Dr. Juska lectured before one of Kobayashi's marketing classes.

GSU's Dr. Jerry Juska and Professor Yasuhiko Kobayashi of Tokyo review marketing data.

Professor Kobayashi was unable to interact with students because he visited the GSU campus before fall classes were in session so he didn't get to interact with students. He plans a return visit to GSU in May 1990.

Dr. Sang-O Rhee, professor in the Division of Health Administration, organized the second annual workshop on the American health care system for 15 Korean health care officials.

Besides visiting the GSU campus, the 15 guests heard lectures by GSU

Committee recommends further study, no incinerator on campus at this time

The committee investigating the feasibility of a medical waste incinerator on campus is recommending further study and curriculum development within the parameters of current facilities.

The committee is also recommending to Dr. Leo Goodman-Malamuth II, university president, that GSU give no further consideration to building an incinerator on campus at this time, and instead follow the lead of the South Suburban Mayors and Managers' Association which is now studying the issue of locating a waste incinerator in the south suburban region.

BOG News

GSU faculty members and more than 1,500 colleagues at the four other BOG universities will see larger paychecks by the end of the month.

The Board of Governors of State Colleges and Universities this week officially approved the tentative agreement reached with union negotiators in late August. The union, University Professionals of Illinois, Local 4100 of the Illinois Federation of Teachers and the American Federation of Teachers (AFL-CIO), ratified the agreement last month.

The union is in the second year of a three-year contract with the board. The agreement is a wage re-opener and under its terms faculty and staff will receive overall average salary increases

Cafeteria Menu

(Week of October 9 to October 13)

Monday - Creole soup w/1 pkg crackers, chili con carne w/1 pkg crackers; Entree: pot roast beef, mostaccioli w/ meat sauce and garlic toast, wax beans and pimento, whipped potatoes.

Tuesday - Lima bean soup w/1 pkg crackers, chili con carne w/1 pkg crackers, Entree: roast turkey breast w/dressing, B.B.Q. beef sandwich, seasoned peas, candied sweet potatoes.

Wednesday - Cream of celery soup w/ 1 pkg crackers; chili con carne w/1 pkg crackers; Entree: roast pork w/ dressing and applesauce, Swedish meatballs, rice, roll and butter, mixed vegetables, oven browned potatoes.

Thursday - Garden vegetable soup w/ 1 pkg crackers; chili con carne w/1 pkg crackers; Entree: salisbury steak, fillet of chicken sandwich w/lettuce and tomato, green beans, whipped potatoes.

Friday - Specials will be posted in the cafeteria.

Entrees include vegetable, potato, roll and butter.

(Menu subject to change)

Administrative Profile

BOG director moves into different spotlight

By Marilyn Thomas

Long before GSU made TV stars of its professors, **Dr. Otis Lawrence** was on the airwaves teaching science classes for the Oklahoma City Public Schools.

In 1957, when television was in its infancy, the school system was awarded a Ford Foundation grant to develop instruction using the new medium.

After being named the "Outstanding Science Teacher" in the school system, Dr. Lawrence was selected the teacher/host of the television instruction series. He taught chemistry, physics and general science.

Dr. Otis Lawrence

By today's standards the shows would be considered crude. There were no sets or props. Dr. Lawrence looked directly into the camera and talked.

The shows aired not only in the general Oklahoma City area but also into the rural areas. Dr. Lawrence and another teacher designed portable teaching kits for distribution in the rural areas so the teachers and students could follow the experiments and class lessons.

After his television successes, Dr. Lawrence was named science supervisor and then director of curriculum for the schools. In 1972, after 22 years with the Oklahoma City Schools system, Dr. Lawrence resigned his position to begin a new career at GSU. His first GSU position was science education faculty member in the College of Environmental and Applied Sciences.

At GSU Dr. Lawrence found his work no longer limited to teaching. He served as the college's liaison for a variety of committees and curriculum studies, for

a time he was the assistant dean, and then in 1978, he was named director of the Board of Governors Degree Program.

Because of his familiarity with the program, it was probably fitting that Dr. Lawrence got the job. In 1973 he was one of the organizing committee members that helped establish the program at GSU.

"I worked on that with **Bob Press, Betty Stanley, Dixon Bush and Paula Wolff**. We were representatives from each of the colleges," he said. Together the group set GSU procedures that followed administrative guidelines set by the BOG office in Springfield.

The BOG degree program is usually done in tandem with Credit through the Evaluation of Experiential Learning (CEEL), which is the other program Dr. Lawrence directs. Many of our adult students have abilities gained through work experiences that often earn them college credit. Several use those credits for the 60 credit-hours they need to enroll in the BOG program.

The BOG program allows students to transfer up to 80 lower-division college credits and all upper-division credits, and to complete a degree through correspondence courses, teleclasses and telecourses, workshop credits or regular classroom courses.

"I don't think the underlying approach (of the BOG program) has changed since 1973, Dr. Lawrence said. "Our basic philosophy is that it's an adult learner program for those 25 and older."

GSU has awarded 1,809 BOG degrees the past 16 years.

Dr. Lawrence and his wife, **Vivian**, have a daughter, **Veotis Thurman Lawrence**, who lives in Pasadena, Calif. Her son, **Daren**, spends summers with his grandparents in University Park.

The Grapevine

Zalewski to display ceramics at Crete Art Fair

This year's Crete Art Fair will feature ceramic pieces by **Ellen Zalewski** of the Business Office. The Park Forest resident will be one of 200 artists and craftsmen displaying their specialty pieces at Balmoral Park Racetrack from 11 a.m. to 5 p.m. Oct. 14 and 15.

Over the 20 years that she has been making ceramics Ellen has done a host of subjects. For the art fair she'll have her Halloween and Christmas holiday pieces on display.

CHP prof appointed as association chairperson

Professor Susanne Hildebrand of the Division of Communication Disorders has been appointed chairperson of the supervision committee of the Illinois Speech-Language-Hearing Association. This new committee will work with individuals who are involved with student practicum programs and other supervision roles.

She will serve a one-year term. Susanne has been a member of ISLHA for 15 years and has been a convention committee volunteer. This is her first chairperson appointment.

Garret serving as consultant to Board of Education

Dr. George Garret, professor in the College of Education, is serving as a consultant to the Illinois State Board of Education assisting in the development of a training module on instructional leadership for school board members. The program will help improve the expertise of local school board members in formulating policies and practices to support the instructional leadership role of school administrators.

Annuitants Association elects officers for 1989-90

Retired GSU faculty member **Dr. Helen Hughes** has been elected president of the GSU chapter of the State Universities Annuitants Association.

Serving with her for the 1989-90 year are **Dr. Dan Bernd** of the College of Arts and Science as vice president; **Ardis Pribyl** as secretary; **Bonnie Ahlberg** as treasurer; **Adlean Harris** as director, and **Tom Deem, Lee Albrecht** and **Mildred Toberman** as delegates.

The association's next meeting will be at 5 p.m. Nov. 3 in the Hall of Honors.

Press, Green to lead Fall Colloquia programs

The GSU Colloquia Series for Fall 1989 is set to begin Oct. 18 at 3 p.m. when **Professor Robert Press** from the College of Education discusses "Induction: Whose Responsibility?" The program will be in Engbretson Hall. His presentation and discussion focuses on the emerging relationship between teacher training institutions such as GSU and the public schools.

The Oct. 31 guest will be **Dr. Paul Green** from the College of Business and Public Administration discussing "South Africa's Political Future: An Eyewitness Perspective." Dr. Green spent two weeks in South Africa in early September assessing the country's new government. His discussion will begin at noon in the Hall of Honors.

GSUings...

...**Dr. Paul O'Brien** of the College of Business and Public Administration being interviewed by *Barter News* magazine for the article "Accountants View Trade Dollar Exchange as Simply Another Business Transaction"...**Dr. Dominic Candeloro** of the Office of Conferences and Workshops writing a review of the book "Puerto Rican Chicago" for the *Illinois Historical Journal*...**Professor Paul Schranz** of the College of Arts and Sciences writing an article for the magazine *Perfect Color Printing* on previsualizing procedures for customizing color reversal film exposure and development...**Dr. Joyce Morishita** of the College of Arts and Sciences concluding an art show with the Illinois Artists Exhibition and showing works in a regional show of pieces by women artists at the South Bend Art Center and at a show at the Campanile Modern Gallery in Chicago...**Dr. Gail Kempster** of the College of Health Professions co-authoring the article "Statistical Differentiation of Tracheoesophageal Speech Produced Under Four Prosthetic/Occlusion Speaking Conditions" for the September issue of *Journal of Speech and Hearing Research*...**Dr. Winfried Rudloff** of the College of Arts and Sciences authoring the article "Phonetic Primitives as Basis for a Universal Computer Code" in the magazine *Advances in Computer Science* and the article "Proposal for a Systems Approach to Universal Education" in the magazine *Advances in Systems Research and Cybernetics*...**Dr. Arthur Bourgeois**, chairman of the Division of Fine and Performing Arts in the College of Arts and Sciences, serving as a member of the jury for the 34th annual Park Forest Art Fair in September...**John Ostenburg**, director of university relations, being named president of the South/Southwest Communicators.

Condolences

Retired employee **Robert Hartmann** died Sept. 26. He was employed in Physical Plant Operations until his retirement in 1985 and was GSU's first "Employee of the Month."

GSU summer host to visitors from four foreign nations

(Continued from page 1)

faculty members **Donna Gellatly** and **Dr. Brian Malec**. The Koreans also visited health care facilities, including Little Company of Mary Hospital, Suburban Heights Medical Center and Loyola University Medical Center.

Brian Booth, rector of Lancashire Polytechnic Institute in England, came to GSU to learn the American university strategic planning model first-hand from **Dr. Virginio Piucci**, vice president of Administration and Planning.

BOG News

(Continued from page 2)

of 9.94 percent, retroactive to September 1.

The cost of the contract to the board is approximately \$6,297,500 with funding coming as a result of the income tax increase passed by the Illinois General Assembly earlier this summer.

With the increase, the average faculty salary in the BOG System is now \$38,700.

The increase allows the board to make progress in one of its budget priorities. According to the Board of Higher Education, faculty salaries in the BOG have historically been the lowest in the state, lagging behind those of faculty at peer institutions by more than 13 percent.

Dr. Piucci met **Booth** in 1988 during a visit to Great Britain to lecture to members of the higher education community. **Booth** is gathering information in connection with the British government's revamping of its educational system by removing polytechnics from a locally operated system -- similar to our junior colleges -- and placing them under the direction of national governing boards.

Paolo Menziatti, a member of the Italian Parliament, was the guest of **Dr. Dominic Candeloro** of the Office of Conferences and Workshops. **Menziatti**, from the seaport town of San Benedetto del Tronto, was in the area visiting friends when he was introduced to **Dr. Candeloro** who invited him to campus.

Menziatti was especially interested in the concepts of adult education and a commuter campus, and he was very impressed by our telecommunications system and the cleanliness of the GSU buildings and grounds.

Staff Directory Changes

Jeanne Murphy, new secretary III, transcribing, for the College of Education and the College of Business and Public Administration Advising Office, may be reached on extension 2241, 2242 or 2243. • Delete **Tanya Myles** from your staff directory.

Committee reports

(Continued from page 1)

The committee's recommendations were finalized at an Oct. 3 meeting on campus.

Dr. Efraim Gil's 100-page report on medical waste incineration was accepted by the committee. The report focused on the need for medical waste incineration, research approaches of incineration, best sources for conducting the research, risk assessment of medical waste incineration and methods used to maintain the lowest risks possible from a working incinerator.

In his report **Dr. Gil** concluded that incineration is the most practical approach to destroying medical waste, and that universities are considered appropriate institutions to conduct research on incineration because they tend to remain objective.

At the same time, **Dr. Gil's** research found no availability of instrumentation used to accurately read dioxin levels emitted from the burning of medical waste plastics, or the technology that allows for continuous monitoring of emissions from incinerators are not available.

Committee members agreed there is a serious need for continued research into medical waste incineration, a need for reduction of the non-biodegradable waste, including the amount and types of plastics used, and a need for new approaches to waste disposal that can be developed by universities.
