University Archives

Time capsule

To be opened in Spring 2075. A time capsule was buried in the Hall of Governors during the Dedication ceremony. "Designed to provide a glimpse of the culture that founded this university, the contents should contain representative articles and media that will be overlooked or lost in 100 years. Letters of opinion, papers, news articles, commercials are examples of material being sought. The aim of the project is to show the variety of opinion and mood of the early 1970s. Dave Wight (College of Cultural Studies) was the Coordinator.
