GSU STUDENTS...employed by or applying to the Chicago Board of Education will be granted joint master's degrees by GSU and Northeastern Illinois University. Approval by BOG resolved the problem of the Chicago Board of Education not recognizing graduates of master's degree programs from GSU despite progress being made toward accreditation. Pres. ENGBRETSON reported: "This action will be in force until such time as GSU is accredited by North Central Association (expected Spring, 1975), and it is retroactive for those master's degree students already affected by the Chicago Board's policy. The North Central Association of Colleges and Secondary Schools is apprised of this action, and has indicated that it will in no way affect the accreditation status of the institutions and agency involved."

"Then, find out what you must know in order to do it well.

"Make your teachers teach you that."
