"Now let's be absolutely certain I have this all straight. Your taxes, regardless of circumstances, are not--I repeat not--to be used for waging war, manufacturing munitions, financing espionage, or for any other activity designed to subvert the legitimate democratic aspirations of peoples at home or abroad. Rather, these moneys will be spent to reduce poverty, advance education, fight pollution, and, in short, to do whatever is necessary to improve the human lot and make this planet a viable habitat for mankind once again."
