MESSAGE FROM THE ACTING DIRECTOR..

Faze I announces a new wrinkle. We are convinced, after much discussion, that we should expand, at least for a time. Faculty have approached us and asked about the possibility of a GSU quarterly in which professors might give extended reports on their latest research, exciting projects, teaching experiences, etc.

Each day we run into professors who exude enthusiasm for what they are doing but, compelled by our busy schedule, we seldom have time to listen for more than a few moments. Constant stimulation without satisfaction can be maddening!

Faze I doesn't want to see anyone go mad. Thus will we provide a vehicle for our faculty to present extended (1000-2000 words) reports on their work. As soon as the first materials are given us, Faze I will appear with an additional page devoted solely to such reports. In the event that this practice proves popular, we will investigate the possibility of a quarterly.

Faculty members--please interpret these few words, then, as a most enthusiastic invitation. We're at your service--and the sooner the better.

B.D.

THE DEAN

Leaps tall buildings in a single bound,
is more powerful than a locomotive,
is faster than a speeding bullet,
walks on water,
gives policy to God.

THE DEPARTMENT CHAIRMAN

Leaps short buildings in a single bound,
is more powerful than a switch engine,
is just as fast as a speeding bullet,
walks on water is sea if sea is calm,
talks with God.

THE PROFESSOR

Leaps short buildings with a running start
and favorable wind,
is almost as powerful as a switch engine,
is faster than a decelerating bullet,
walks on water in an indoor swimming pool,
talks with God if special request is approved.

THE INSTRUCTOR

Runs into buildings,
recognizes locomotives two out of three times,
is not issued ammunition,
can stay afloat with a life jacket,
talks to walls.

THE STUDENT

Falls over doorsteps when trying to enter
buildings,
says, "look at the choo-choo,"
wets himself with a water-pistol,
plays in mud puddles,
mumbles to himself.

THE DEPARTMENT SECRETARY

Lifts buildings and walks under them,
kicks locomotives off the tracks,
catches speeding bullets in her teeth and eats
them,
freezes water with a single glance,
She is God.
