THE 6% AX: GSU CUTS BACK - TELEPHONED FROM SPRINGFIELD BY BILL ENGBRETSON..On Wednesday, June 18, the House Appropriations Committee voted "do pass" on the first reading of the Board of Governors appropriations bill at the level recommended by the BHE in January. That bill includes the GSU budget. It is our understanding that Governor Walker's proposed 6% cutback will go into operation by some "impoundment" procedure to be established by the democratic leadership in the House and the Senate. Internally, our earlier budget based on the 5.4% increase as recommended by the BHE is almost finalized. Since the Governor's speech of last Wednesday, we have developed budget alternative #2, the 6% cutback level, which will be completed hopefully by next Tuesday. It is my expectancy that we will have to operate on the 6% cutback level, which is a functional decrease in the general revenue portion of our budget for FY76. This makes our proposed gain in the income fund doubly crucial, if we are to be able to expend the funds appropriated for the next fiscal year.

Our goal in deliberating over the proposed 6% cutback was to retain our permanent employees who are not on "soft money" grants and to preserve our proposed salary increases. We can attain these goals in our alternative #2 plan, although we have had to cut back most replacement and new positions and reduce all other lines in the budget to absolutely minimal levels. We will need to continue to conserve everything that we can to accommodate our increased enrollment and to protect our salary increases. I call upon your cooperation to these desirable ends.

We will keep you informed as well as we are able as matters in Springfield proceed.

SUMMER THEATER TRYOUTS...for GSU's Summer Repertory Theater Program have been scheduled for June 23, 24, and 25 at 1 p.m. and 7 p.m. in the Drama Workshop. Two plays will be alternately presented in the program: a modern version of Lewis Carroll's "Alice in Wonderland," designed to entertain and intrigue adults as well as children, and Tennessee William's award-winning success, "The Glass Menagerie." Both adults and junior and senior high school students will make up the varied cast of "Alice in Wonderland," while the four roles in "The Glass Menagerie" offer adult actors and actresses a provocative challenge.

"Alice in Wonderland" will be directed by Temmie Gilbert and David Reeve and "The Glass Menagerie" by Mel Slott, all professors of theater at GSU. The plays will be presented in the GSU theater August 8 thru August 24. For further info concerning auditions, call ext. 2119.

In 1965 there were 23 campuses operated in 16 districts, all but one of which was also a common school district. There are now 48 campuses in the state operated by 39 independent community college districts. In 1965 student enrollment was 66,217. This year there are 327,710 students, 267,179 of whom are enrolled in instructional credit classes. Some 60,000 are in noncredit community education classes. Full-time students in credit courses numbered 78,817 and 188,362 are part-time students. During FY74 community college cost per credit hour on a statewide basis was \$52.24. Local taxes provided 43.1% of the costs; state taxes, 36.7%; student tuition, 16.1%; federal funds, 2.5%; and other sources, 1.6%...That The Journal of Higher Education comments on the competence-based curriculum of GSU in an article "What is a Competence-based Curriculum in the Liberal Arts" by Bob Knott of Mars Hill College in North Carolina.
