- c. We must comply because of Title IV fund requirements so +/- grades are mandatory and we must conform to what is currently within our catalog. We must adhere to this policy. The policy has not yet been signed off as an interim policy but will be soon. For courses currently in the queue, we will approve what they have submitted, with the message that they will have to fill in +/- grading system as it is written in the current catalog. These will need to be submitted to the division/department chairs to confirm they are in compliance for the summer term. Once the policy gets posted, anyone who submits after that date will have to have the +/- grades in the scale. This is for both undergraduate and graduate. Colleen asked us to review final statement in the email Catherine sent 2/11/21 and get back to her with our comments as soon as possible before next meeting [for posting on the UCC webpage].
