Vol. 5, No. 24

MESSAGE FROM THE PRESIDENT...There have continued to be complaints from students and faculty about unsupervised children who cause disturbances during class hours. These children are brought to campus by parents who are attending classes and are left to their own devices for three to six hours at a stretch. I again solicit your cooperation and ask that you not bring children to the campus unless you are prepared to supervise them. If children are causing a disturbance in the future, the parent will be called out of the classroom and asked to deal with the problem. We do not wish to embarrass anyone, but at the same time we must not allow the disruptions to continue. Your cooperation in helping us with this problem will be appreciated.
