The people in these scenarios are not financial analysts or program directors — yet. They are representatives from the five Board of Governors of State Colleges and Universities (BOG) institutions who are participating in the BOG's Minority Internship Program, which allows minorities to examine public policy making in a variety of off-campus settings.

The program gives minority students the opportunity to gain practical experience while fulfilling their degree requirements. Interns are assigned to a spectrum of offices in the public and private sectors including the legislative staffs of the House and Senate of the Illinois General Assembly, the staffs of local, state and federal government agencies, private businesses and social service agencies.

Not only do these students gain practical experience and academic credit, they also get paid. Each intern receives a $1,000 monthly stipend during their internship.

Three GSU students are currently involved in the BOG minority student internship program.

Christina Alvarado is an undergrad in Media Communications. She served as an intern to State Representative Peg Breslin, Assistant House Majority Leader. Christina was assigned to a House State Transportation project for LaSalle County.

Dorothy Smith is a grad student in Public Administration. She was interiored to State Senator Earlene Collins and worked on Conditioning Section B housing.

Samuel Kibya is a Grad in Health Administration. He served his internship in the office of Senator Richard Newhouse working with the Chicago Health Department on Health Planning. Sam is also Vice President of the Student Senate.

Three students are also offered the chance to be interns with the Chicago Health Department.

For more information on the BOG Minority Internship Program contact Dr. Chermon Sesay, Coordinator Board of Governors Minority Internship Program Department of Economics/Political Science Chicago State University 95th Street at King Drive Chicago, IL 60628 (312) 955-2485

The Innovator is increasing its classified section. Beginning with the next issue we are offering readers the chance to place ads in the Innovator at the cost of one dollar! The ad could reach 7,000 people!

One issue Ten words One dollar

Use the handy form on page 11.
The INNOVATOR published by Governors State University in University Park, Illinois indicates that there is a very positive response to the recent dance as a tremendous success. Thank all of the people who helped to make the first S.O.C. dance a tremendous success. We hope that this will be the first of many such dances on campus. We hope that we will continue using it.

Ronald Young, Steger, thanks the extras that were required. The Student Organization Council takes this opportunity to thank all atomic energy, and to take advantage of the experience so that we can become more perfect if we want to continue using it.

Suzanne Oliver, Graphics Supervisor ICC Park Forest, states: "I’m opposed to atomic power so I see the accident as a real serious kind of thing that people aren’t taking seriously enough. I think the long term ramifications are going to be incredible. We should use this as a lesson to put money into research into getting power in other areas that won’t affect the environment.”

Sam Lapin, Media Communications G Chicago Heights, says: "I think it’s real clear that nobody knows what the effect of nuclear power is, and that there is absolutely no harness on any sort of accident once it occurs. I think that Chernobyl Americans become more aware of the dangers that are implicit in the use of nuclear power, then something good has come out of it.”

Our thanks to Carolyn Lueders for suggesting this issue’s question. If you have a question you would like to see asked in Cafe Comments, send it to Cafe Comments, Innovator, Room A1801. All questions used will be acknowledged in this space.

SOC thanks helpers

The Student Organization Council takes this opportunity to thank all of the people who helped to make the first S.O.C. dance a tremendous success. Thank you to:

- Alumni Association for donating the liquor.
- Physical Plant Operations for the great job of setting up and all the extras that were required.
- Student Life for going along with the committee recommendations.
- Dean Cathy and President Leo for okaying the recommendations.
- Ace for the great set-ups and the great great service.
- Decorating Committee for taking an otherwise dull room and giving it a festive atmosphere.
- To All Who Attended without you the evening would have been for naught.

We of the S.O.C. hope this will be the first of many such dances on campus. We hope that we will start a tradition that will be carried on for years. Again, THANKS TO EVERYONE!!!

P.S. We would be interested in hearing what you thought of the evening both pros and cons and how things could be improved. Address your comments to B. Winklowsky, Student Life.

Barts speaks

Dennis Barts, Sort Manager for United Parcel Service, spoke to the GSU Accounting Club on April 16. Barts explained what a company like UPS seeks in management candidates. He also discussed management qualities, commitments, and evaluation systems.

Ronald Young, Steger, thanks Dennis Barts, a sort manager with that firm after his speech to the Accounting Club. photos by Wallace Bailey Interviews by Sue Fagin in the GSU Cafeteria
Hey, Hey, It’s Half-Price Day

by Roxane Gesaco-Ryan
Associate Editor

"It’s a beautiful day for a ballgame" Cliche? Perhaps—but it really was a beautiful day.

First of all, I’ve been a White Sox fan since my family declared themselves Cub fans. (A family needs competitive attitudes.) Secondly, I haven’t been to a Sox game since the "Winning Ugly" year of 1983. Last but certainly not least, the fact that I was ready to watch "my" team slaughter the Yankees, on my brother’s birthday. (He is an EXTREME Cubs fan.)

Our little group of four drove down the Dan Ryan laughing all the way while describing past experiences at Sox Park. My favorite story was when Ron Santo was traded to the Sox and played third base—He didn’t do too well with Sox fans. He was used to the "well behaved" Cubs fans. Anyway, I was Seat Cushion Day, the fans were led off at Santo, and began cracking their seat cushions together in a loud protest. As the game went on, piles and piles of seat cushions were thrown on the field. It was crazy, slightly destructive but a lot of fun!

Our group passed up parking lots near the ball park that boasted hand printed signs of PARKING $5. Our driver swiftly drove into a lot with no sign at all. Of course, we were charged $10 for parking. That’s O.K. — we didn’t feel bad about getting ripped off, after all it was HALF-PRICE night! We were still ahead ... for a while.

We filed into Comiskey Park, bought a $2 program, and found our seats. As we sat down I noticed a slow roar starting quickly from the crowd. I also noticed that most of the fans sitting around us wore Yankee hats!
TOUCHING YOU
by Patricia Lieb
I will spend my life's
afternoon reaching to touch
you, while you, like a shadow
on the water, keep slipping
away. But wait, just you wait
until the sun goes down.

WORKING YOU INTO
A POEM
by Patricia Lieb
You want in a sexy poem,
huh?
Well, let me tell you
this, kid, when I get
my hands on you I will
hold you with more intense
than I am holding this
pen in my hand. I will
explore you, inch by
inch, feeling you
like the story in my head.
I will scribble over every
nerve
that excites you and makes
you breathe. I will work
you over good and proper,
and when I finish
I will tuck you away
between clean sheets, and,
at those times,
when the mood strikes,
I'll pull you out to edit

America's Colors
2000
by Roxane Geraci-Ryan
What have they done my
America,
to your beauty and your
charm?
Each time they took a little
chunk,
they said it would do no
harm.

What happened to the beauti­ful blue
of your skies, and lakes, and
streams?
What happened to the rain­bows
and the sunsets of my dreams.

What happened to the rain­
and greed,
Yer purple mountains maj­
and grey.

What have they done my
America, my America,

Astringent 
mony your beauty and your

Is that those men of power
that I cannot give to thee,
As my mother gave to me.

Somehow. Beautiful music had
somehow. Beautiful music had
somehow. Beautiful music had
somehow. Beautiful music had

Afternoon Delight

How lovely! As I hurried toward
the cafeteria past the rain
shrouded windows, the music of
a string quartet wafted toward me
and brightened the day.

Even munchers in the cafe­
teria were seen to pause, and
gaze dreamily at the four women
who

The only consolation I have
since they took it all away.
Is that those men of power
and greed,
who have all ceased to grow.
On grandad, dear grandad,
I must apologize to you.

A gala event!

On the evening of May 2, the Office of Student Life held its Eleventh Annual Student Leader Recognition Gala. From the champagne which began the evening to the SOC dance which ended it, warmth and fellowship flowed. It was a time for sharing, recognition, and fun.

photos by Wallace Bailey Jr., Denise McKay and Mike Wais
Compiled by Roxane Geraci-Ryan

"In This, I am" is the theme of a one-woman art exhibit by Betty Kott of Oak Park, a candidate for the master of arts degree at GSU. The oil paintings and graphite pastel drawings will hang in the university's Art Gallery from May 19 through May 28. The public is invited to an artist's reception from 5:30 to 7 p.m. on May 22. Gallery hours are 10:30 a.m. until 3:30 p.m. Mondays through Thursdays. Kott conceived the theme for her exhibit in 1979. "It represents the awakening in woman of personal needs and desires which have been sleeping, in a sense," the artist explained.

A recent publication of the Board of Governors of State Colleges and Universities (BOG) commends GSU for its involvement over the past two years. "We are especially proud of GSU which, with an enrollment increase of 14 percent over the past two years, is the most rapidly growing public university in Illinois," noted BOG Chair Evelyn Kaufman in the recent "A Letter from the Chairwoman" distributed throughout the state. Kaufman closed her report by noting that 1985 was "The Year of Education" for the BOG, and that 1986 is viewed as "The Year of Educational Progress."

"Going Into Business" is a topic for a workshop to be held May 20 in connection with a small business fair at the Holiday Plaza in Matteson. The event is jointly sponsored by the Small Business Development Centers at GSU, Kankakee Community College, Moraine Valley Community College, and Prairie State College, and is being held to mark "Small Business Week." The fair will also feature informational booths on incubators and high technology transfers, exporting, counseling, training programs, advertising and marketing, insurance, loan packaging assistance and public sector programs. The workshop opens at 9 a.m. A luncheon session at 12:30 p.m. will close the program. The informational booths will be open from 9 a.m. to 3 p.m. Advance registration for the workshop is $25 and includes lunch. Registration at the door is $30. Registration information may be obtained by calling (312) 756-7052. Booths at the fair may be rented for $45, which also includes the workshop and luncheon fee. Information regarding booth availability may be had by calling (312) 534-5713.

A vocal master class will be held at GSU on May 17 under the guidance of Dr. Rudolf Strukoff, professor of voice and director of the GSU-Community Chorale and University Singers. The university chapter of Music Educators National Conference (MENC) is sponsoring the free class, which will be held from 1:30 until approximately 4:30 p.m. Study materials will be distributed at the class, and a bibliography for advanced reading also is available. More information may be obtained by calling Dr. Strukoff at ext. 2454 or 2461.

"Problems/Challenges Women Encounter During Mid-Life" will be the topic of a five week group discussion at GSU. The discussion will be facilitated by Gerry Keresletis with Peg Woodward, Counselor in Student Development. This group will be held for 5 consecutive Saturdays, beginning May 31, in room E120. If interested in joining the group, phone 534-5000 ext. 2142 before May 26, 1986.

"The South Cook County Small Business Development Center, located at GSU was recent recipient of a $70,000 state and federal grant. The money was awarded by the Illinois Department of Commerce and Community Affairs and the U.S. Small Business Administration "to provide management assistance, training and research for small businesses in the region," according to Chris Cochrane, center director. Further information regarding SBDC and its services may be obtained by calling the center office at (312) 534-5000, ext. 2210.

Increased viewing opportunities now are available for persons watching the GSU television channel on the Jones Intercable and Centel cable systems. According to Ed Flowers, electronics engineer in the university's Instructional Communications Center (ICC), approximately two hours per day of viewing time has been added for persons watching Jones' channel 46 and Centel's channel 37. Information regarding the television services available from GSU may be obtained by calling the ICC at (312) 534-5000, ext. 2204.

Eight GSU professors recently were involved with the 12th annual Third World Conference, held in Chicago. Dr. Roger K. Oden, professor of political science and chair for the Division of Intercultural Studies in the College of Arts and Sciences, was a co-chair of the Third World Conference Foundation. Other participating CAS faculty members included Dr. Lenore Ackerman, professor of Latin American Literature; Dr. Sam Enyia, professor of Communication; Dr. Ndiva Kofele-Kale, professor of Political Science; and Dr. Alma Walker-Vine, professor of English. GSU faculty members serving as advisors for the conference were Dr. Bethie Hagens, professor of Anthropology; Dr. Joyce Morishita, professor of Art; and Dr. Anthony Weil, professor of Philosophy. Further information may be obtained by calling the Third World Conference Foundation office at (312) 241-6688, or by contacting Dr. Oden at (312) 534-5000 ext. 2429.

Rose Green-Thomas, President of the National Association of Health Services Executives, Midwest Chapter, will lecture at GSU on May 21, at 8 p.m. in room F1200. She will talk about "Health Professional Training: Present and Future." The event is sponsored by the American College of Health Care Executives, GSU Chapter. All are welcome. For information contact Samuel Koby or Darrell Frazier in the Student Senate Office.

Civil Service Employee of the Month

Leslie Wells, Physical Plant Operations, Building Service

Leslie Wells, Physical Plant Operations, Building Service, is the May Civil Service Employee of the Month. At GSU for over eight years, Wells says it is a really nice place to work. He said he appreciates the fact that his boss, Sam Steele, takes a special interest in the problems of his employees, both professional and personal. "I work with a lovely staff," he said. "They're the best people in the world and we have a close family feeling."

"We try to help each other whenever we can," Wells concluded.

Informed of the award on a day off, Wells had called the office to talk to Steele. "I was shocked and honored," he said. "It really means a lot to be recognized.

Wells and Glenda, his wife of 22 years, have two daughters, one in junior high and one in high school. After graduation from Bloom High School, Wells served a stretch in the Navy. He enjoys bowling, dominos, spectator sports and raising tropical fish. This is the busiest time of the year for our housekeeping staff as they try to make GSU beautiful in time for the June commencement. Let's all try to help keep the campus neat and clean so Leslie Wells can keep on smiling a while longer."

Saturdays & Sundays 10 a.m. - 10 p.m.

Joe Jackson
"Looks Sharp"

by Michael Trapp

If you've travelled from the terse cynicism of LOOK SHARP (1979), through the lazily-up-get-down-edges of JUMPIN'/ JIVE (1981), then you know that a new album from Joe Jackson promises to be something different. The recent release of BIG WORLD indicates that Jackson's musical sleeve is not wearing thin.

Perhaps you'll be amused by a two-album set that includes only three sides of music (side four glides smoothly through 30 seconds of uninterrupted silence. But not to worry, I don't think they care for that).

You may be interested to find that the prints are in yellow in seven different languages -- including English.

If you have a more technical orientation, you'll be impressed that this collection was recorded live, direct to two-track digital master, with no post-production mixing or overdubbing.

But, if you're one of those people who buy albums because they like good music, BIG WORLD is for you.

From kindergarten to first grade, to high school, then college. After graduation with a Bachelor's degree you crave for masters and then you go in for your doctorate. By the time you get your doctorate degree, you'll think you're done reading. But wait, with the passage of time you will discover that your previous field of study is no longer in demand in the labor market, then you think of another career, or something close by.

Life is really amusing. I can't understand it yet. God actually knows. I set my eyes at the Sreams as they flow into the Rivers and how the Rivers flow into the Ocean, but there is no sight of and seeing the good things of Nature. I set my ears to listen to the Fool and the Wise and there was no satisfaction to the utterances of either group.

I set my bow towards another Labor, accumulation of wealth and satisfaction. Do I call this a virtue? I work, earn money and accumulate wealth and would not be satisfied. The wealth I seem to accumulate now sooner or later goes to the bad. I am not rich enough for some other things which appear to me but are old to others. So while I am acquiring others' old ideas, others are acquiring my old ideas; that is why I call this a vicious circle. In fact, after all there is nothing new under the sun. What is new to you may be old to you and what is new to me is old to you. That is how I see Life.

You haven't been around if you have not yet come to realize the magnificence of the rock of 'Right and Wrong.' (All My Children has already adopted this one as a background tune for Edna's discourses.)

Other songs that have received air-play include "Flow into the Rivers" and "The Jet Set". A heavy reverb song that brings back memories of Go-Go boots and My Three Sons returns.

BIG WORLD stays consistent with its enigmatic title. The collection is a collage of different musical flavors, as evidenced in the liner note "(It's All Big World) a twanging, smoky, black soul number." We Can't Live Together"

BIG WORLD is truly an outstanding musical effort which will appeal to many different tastes. But, those who are familiar with Jackson will really appreciate the glimpses of a sonic side we have rarely seen. BIG WORLD places Joe in his most accessible position yet. And it's an acquaintance well worth making.
School in Palos Hills. The communication studies course of "Drugs in the School" will meet from 8 a.m. to 2:30 p.m. on Mondays from July 7 through July 17. "National Economics Issues Forum" meets from 9 a.m. to 10:20 a.m. on Mondays through Fridays from June 23 to July 7, and "Trade Offs: Aid to Elementary Teachers" will run from 9 a.m. to 1:30 p.m. Mondays through Fridays from July 7 to 18. "Astronomy in the Classroom" meets from 1 to 9:30 p.m. on June 20 and 27.

Seven courses will be offered at Amos Alonzo High School in Palos Hills. The communication studies course of "Interpersonal Skills" will meet from 7 to 10 p.m. on Tuesdays from May 10 to Aug. 12, and the health professions education course of "Health Education Program Planning" will meet from 5 to 9 p.m. on Tuesdays and Thursdays from June 26 to Aug. 14.

Education courses at Stagg will be "Reading Diagnosis" from 6:30 to 10 p.m. on Thursday from May 15 through Aug. 7, and "Teaching Mathematics to Low Achieving Students" from 9:30 a.m. to 10 p.m. on Wednesdays from May 12 through Aug. 5. How to meet the high cost of higher education.

Get a low cost student loan regardless of your family income!

With a Park Forest Federal PLUS Loan, your parents can borrow up to $3,000 per academic year for a maximum of 5 years, regardless of your family income! And the special low interest rate makes it affordable for any income!

Students can qualify for a Park Forest Federal IGLP Loan if your family income does not exceed $30,000. In some cases students may qualify even when family income is higher. Our Illinois Guaranteed Loan Program offers direct, inexpensive loans to students. Undergrads can borrow $2,500 per academic year for up to 5 years, and those who go on to graduate school can borrow an additional $5,000 per year, up to a maximum of $25,000 for their total education.

And at the low rate of 8%, Park Forest Federal's IGLP Loan is a bargain for any student! Plus, we'll allow up to 10 years to pay it back and you needn't worry about that until after you leave school.

So before you take out a student loan, make sure you do your homework. Stop in or call us to find out how we can help you meet the high cost of higher education with low interest student loans that really make the grade!
