For yesterday is but a dream,
And tomorrow is only a vision,
But today well lived
Makes yesterday a dream of happiness
And tomorrow a vision of hope.

Vol. 7, No. 38

GLOWING GRADS . . .

A GSU grad student and an alumnus have each won local Emmy's given by the Chicago Chapter of the National Academy of Television Arts and Sciences.

Hector Perez, CCS grad student in the Media Communications Program, won his Emmy as producer of "Mexico Vibra En Chicago," an hour program revolving around the festivities of Mexico Independence Week. The program was submitted for the award by Channel 26, and was also seen on Channels 9 and 44. Hector heads his own advertising agency, Perez Advertising, and is President of Luron Productions which produced the Emmy award winning program.

Frank Jackson, Media Communications alumnus, won his second Emmy in as many years for producing "Commonground" with host Warner Saunders. The program was submitted for the Emmy by CBS station WBBM, Channel 2. In addition Jackson has credits for numerous locally produced Channel 2 programs, and is manager of community affairs for the station. GSU media communications student Pam Johnson of Kankakee acted as a production assistant on the award winning program. Last year Jackson won as producer of "Commonground" and graduate student Sheri Singer, associate producer of the nationally syndicated Phil Donohue Show, shared the honors in that program's winning of a national Emmy for a daytime talk program.

NATIONAL HEALTH PLANNING . . .

authority Sally Berger will speak at GSU June 22. Mrs. Berger is chairperson of the National Council on Health Planning and Development and the Chicago Commission for Health Planning and Resources Development.

Mrs. Berger will participate in the "Graduate Health Planning" class at 7:30 p.m. in Room A1102. For her appearance, the class will be open to other persons as well as regular students. The course is taught by Clyde Gardner, University Professor of Health Sciences.

ALCOHOLISM SCIENCES PROGRAM . . .

The GSU Alcoholism Sciences Community Advisory Council will meet Friday, June 23, 1978 at 9:30 a.m. in the EAS Commons Area. A presentation of the Alcoholism Sciences Program will be made by faculty members Linda Jones, Ann Fry, and Kenneth vanDoren.

Although basically an Advisory Council meeting, all interested GSU personnel and students are invited to attend.

INVITATION TO THE GSU COMMUNITY . . .

A Tutor Reception will be held on Wednesday, June 21, 1978, from 6:30 - 8:30 p.m. in the Center for Learning Assistance. At that time we, the staff and Advisory Board of the Center, wish to express our gratitude to the tutors who have made the Center a special place to learn.

Please join us.

ATTENTION FACULTY . . . The First Fall Faculty Meeting is scheduled for September 6, 1978. Mark your calendars now . . . further details to come.

GSU CLASSIFIED . . .

Vacant Civil Service Job Classifications as of June 15, 1978:

6/5/78	Secretary IV Steno	CEAS
6/12/78	Computer Aide II	A&R

POSITIONS OPEN . . .

Executive Assistant to the President. Provides internal liaison between Office of the President and University Wings, provides external liaison as assigned. J.D. or Ph.D.; experience in administration, university governance processes, university teaching. Application deadline 7/15/78.

University Lecturer of Human Services. Teach Social Services for Children, Social Change and Minority Groups and Team Work in Human Services. Temporary (1 year). M.S.W. and Ph.D. preferred. Application deadline 8/1/78.

University Professor of Human Services (2 positions) in College of Human Learning and Development. (1) Instruct students preparing to work with school age individuals with developmental and/or specific learning disabilities. Ph.D. preferred. Application deadline is 7/1/78. (2) Requires knowledge of Illinois Criminal Justice System and teaching experience. Ph.D. or LL.D. preferred. Deadline for application is 7/1/78.

University Professor of Environmental Planning in College of Environmental and Applied Sciences. Teaching upper division and Grad level. MA preferred. Application deadline 8/15/78.

University Professor of Management Information Systems (1st priority) or Marketing in College of Business and Public Service. Ph.D. or D.B.A. preferred. Deadline for application is 7/15/78.

Assistant Director for Fiscal Affairs, Illinois Board of Higher Education. Involves analysis of operating budget requests from institutions and agencies; MA or a min. 3 years experience in budget or policy analysis required. Application deadline is 6/30/78. Send to: Richard D. Wagner, Illinois Board of Higher Education, 500 Reisch Building, 4 West Old Capitol Square, Springfield, IL 62701.

For more info, contact Personnel, x2194.

FREE SEMINARS . . .

are being conducted by GSU at the Chicago Heights Public Library in cooperation with Jesse Banda and staff of the Migrant Council. Community Services began the seminars June 8 at 7 p.m. to continue for seven consecutive Thursdays.

Participating in the seminars from GSU are Theresa Duron, Daniel Mendoza, both of the College of Cultural Studies; Manuel Chavez, College of Business and Public Service, and O. W. Goldenstein, College of Human Learning and Development.

Other visiting professors will also participate.

PUBLISHED . . .

William P. McLemore discusses interaction between the teacher and the student who is a discipline problem in The Clearing House, a national professional education journal for middle, junior high, and senior high school educators with his article on "Interaction Self-Assessment of Discipline Problems."

TIP TRAYS & MARBLES . . .

The current exhibit of antique collectibles on display outside the LRC doors is on loan from the Kaplans.

Mimi Kaplan has a number of change trays on display, also known as tip trays or pin trays. They were used to return change to customers and as receivers of small household items. Many are in mint condition, and a few are reproductions.

Mimi's son Joe has loaned a selected number of marbles from his collection which includes clay, glass and mica marbles as well as sulphide marbles from China. Ex-marble players in their 50's will recognize the "mibs", a machine made marble introduced in the 1920's.

MENU-OF-THE-WEEK . . .

- Mon Chicken Veg.; Swiss Steak; Enchiladas; Baked Ham Sand., Pars. Pot., Brussel Sprouts.
- Tues French Onion; Fried Chicken; Beef Stew Roast Beef Sand.; Whip. Pot., Green Beans.
- Wed Tomato Rice; Fried Fish Fillet; Salisbury Steak; Pastrami Sand.; Oven Brn. Pot., Corn.
- Thurs Minestrone; Corned Beef & Cab.; Johnny Marzetti Cass.; Chili Dog; Whip. Pot., Peas.
- Fri Beef Noodle; Fried Fish Fillet; Macaroni & Ham; Grilled Ham & Cheese; Lyonnaise Pot., French Gr. Beans.

GSUings . . . CHRIS LIEBSCHER (BPS) speaking on "Energy Related to Housing" to the Shriners at the Homewood Sheraton, co-sponsored by GSU and the HF Board of Realtors . . . BETTY STANLEY (BOG) conducting a faculty workshop on Experiential Learning at Franklin University, Columbus, Ohio . . . PRESIDENT LEO GOODMAN-MALAMUTH (PO) and DEAN ROY COGDELL, PRINCE McLEMORE, MARVIN BROTTMAN, and CONSTANCE SHORTER (all HLD) participating in a recognition awards dinner honoring 43 cooperating school teachers and principals for their professional service to GSU's UTE program . . . Linda PURCELL (BARBARA, PROV.O.) participating in the Star Publications All-Star Classic basketball game for graduating seniors as a member of the East squad, representing Crete-Monee H.S. . . . Congrats to MARGE SHARP (HLD) on the election of daughter Erica as the first and only teenager to the National Youth Alternative Program . . . DON DOUGLAS (EAS) being admitted to the Harvard University Management Development Program. Don will attend the Institute for Educational Management in Cambridge, Mass . . .

ACCOLADES . . .

to Acorn, a monthly newsletter on energy alternatives edited by Bethe Hagens (EAS). Recently reviewed in Harvard University's journal Science, Technology and Human Values the publication was described as a "crisply edited newsletter that regularly attends to policy analyses and educational efforts." . . . and to GSU's Monumental Art Display, praised in a recent Sun-Times article as "remarkable art that sits in splendid remoteness on the prairie of the GSU campus."

CRAZY CALLS . . .

Predictably, the information line receives a variety of questions about the University. Most are routine, but many queries leave the information office more puzzled than the caller. Recent head scratchers include: "Does GSU have a Polo Club?" . . . "Where is the motocross track?" (for dirt bikes) . . . or, "Where does Geology for Lunch meet?" The prize goes however, to the individual who called the University last week asking for GSU's phone number !! !

New radar to keep closer watch for tornadoes

By Lloyd Green

The Chicago area is expected to get more warning time on tornadoes starting Monday, when three new advanced radar units go into operation here.

The units not only detect tornadoes within severe thunderstorms but are expected to be useful in predicting flash floods and in spotting weather that might endanger aircraft.

The so-called Doppler radar units have been tested for two years at the government's National Severe Storms Center at Norman, Okla. Tornadoes there have been "seen" inside storm clouds 20 minutes before the swirling masses became visible to ground observers.

A 20-minute warning, of course, could save lives of persons in a tornado's path.

The new units cost about \$1 million each and resemble giant white pumpkins. They have been set up at O'Hare Airport, at Governors State University in Park Forest South and on a farm near Yorkville in Kendall County.

Although each is capable of scanning an area 200 miles in diameter, they will concentrate mainly on the Chicago area. This is the first metropolitan area in the nation to get such units.

At present, the National Weather Service usually must wait for public reports of the sighting of funnel clouds before issuing tornado warnings.

BUT WEATHER EXPERTS say that not only are public reports unreliable, but if a funnel comes down in a populated zone, the warning time is zero.

Although conventional radar at times shows "hook echoes"—a fishhook-like image on the screen—as an indication of tornadoes, this has been found to be inaccurate about two-thirds of the time, said Donald W. Burgess, director of the Norman project.

Like conventional radar, the Doppler system—named for famed German physicist Christian Doppler who experimented with sound waves—gets sound reflections from water droplets and ice crystals within a storm. But unlike conventional radar, the Doppler units can tell how fast the reflective particles are moving toward or away from the radar antenna. This is done with the use of computers that feed instantaneous information to radar screens.

The new radar also can zero in on a particular area where formation of tornadoes is suspected.

A second screen at each radar site reveals the intensity and velocity of the swirling storm field.

The units have no direct connection to the National Weather Service here, although local weather observers—along with area residents—will benefit from them. The units were obtained mainly for research through the efforts of Dr. T. Theodore Fujita, a professor of meteorology at the University of Chicago.

EVENTS

SATURDAY, June 17

8:30 a.m. - 3:30 p.m. Area Service Center Workshop (EH)
10:30 a.m. - 12:00 noon Introduction to BOG program (B1106)

SUNDAY, June 18

FATHER'S DAY

MONDAY, June 19

8:30 a.m. - 3:30 p.m. Area Service Center Workshop (EH)
9:30 a.m. ICC Production Meeting (ICC Preview Room)
10:00 a.m. - 11:00 a.m. Vice Presidents' Meeting (PCA)

TUESDAY, June 20

8:30 a.m. - 3:30 p.m. Area Service Center Workshop (EH)
2:00 p.m. - 4:00 p.m. Academic Council (PCA)

WEDNESDAY, June 21

SUMMER BEGINS!

8:30 a.m. - 3:30 p.m. Area Service Center Workshop (EH)
1:30 p.m. - 3:00 p.m. Human Services Committee (B2105)

THURSDAY, June 22

8:30 a.m. - 3:30 p.m. Area Service Center Workshop (EH)
8:30 a.m. - 10:00 a.m. SHS Coordinating Council Meeting (A2234)
10:00 a.m. - 12:00 noon EAS Faculty Meeting (A1102)
7:30 p.m. - 9:00 p.m. Sally Berger will speak to Prof. Gardner's SHS class (A1102)
Open to everyone.

FRIDAY, June 23

8:30 a.m. - 3:30 p.m. Area Service Center Workshop (EH)
9:30 a.m. Community Advisory Council public presentation of Alcoholism
Sciences Program (EAS Commons). University students and
employees invited to attend.
7:30 p.m. Electronic Music Concert (MRH)
