#### BORELLI DEAN OF STUDENTS . . .

Mr. Frank Borelli was named yesterday the Dean of Student Affairs and Services. Curtis McCray (Provost) made the announcement.

Borelli comes to Governors State from William Rainey Harper College in Palatine where he has been serving as Acting Dean of Student Services. Prior to his appointment as Acting Dean, he was for nine years Harper's Director of Student Activities. In these positions he was responsible for the coordination and management of the offices of financial aids, student activities, veterans' affairs, admissions and registration, food services, intercollegiate and intramural athletics and health services.

Before assuming his position at Harper, Borelli administered student service programs for Bemidji State College, Bemidji, Minnesota and for the State University College at Buffalo, N.Y.

Borelli holds a bachelor of arts degree in psychology and social science from the University of Minnesota at Duluth and a master of science in education with a specialization in college student personnel from Southern Illinois University. He is currently completing a doctorate in adult/continuing education at Northern Illinois University.

He has served on the youth commission of the village of Hoffman Estates and belongs to several professional organizations: the Adult Education Association, the Association of College Unions--International, the American Personnel and Guidance Association, the American College Personnel Association, and the National Association of Student Personnel Administrators.

When he assumes the deanship at Governors State in mid-September, Borelli will be responsible for the offices of admissions and records, financial aids, student services, veterans' affairs and health services.

Of his appointment Borelli stated, "I am excited about coming to Governors State when so many important initiatives are being planned and implemented. I am looking forward to working in that kind of environment."

In making the announcement, Dr. McCray remarked, "For two years we have been conducting a national search to find a person who could fill this position effectively. We recognize the position to be one of the more important in the University. Mr. Borelli represents a remarkable placement for us. Because of his exceptional performance over a period of ten years at Harper, a community college, we are confident that he will provide our senior level and graduate student body with a comprehensive and sensitive program of student services. We are delighted to announce Mr. Borelli's appointment."

POSITIONS OPEN . . .

Coordinator, Institutional Research--IR&P

Candidate expected to assume the leadership for the design and implementation of studies related to all aspects of the Univ. & is responsible for providing data for support of the University-wide planning process. Dennis Treadwell, a member of the "Chicago Company," toured with Governors State's USO group a few years ago.

SOME THOUGHTS TO REST WITH ON LABOR DAY . . .

A 1910 quotation from Samuel Gompers who was, for many years, president of the AF of L: "There is only one danger of the failure of constant and peaceful evolution for the elimination of all abnormal conditions under which workers are compelled to toil, and this danger is the possible failure of the wage earners to realize the necessity of more general and thorough organization in the unions of their respective trades. Such a failure beyond doubt would be taken advantage of by all the elements which prey upon and take advantage of the weak. And it is a source of great gratification that the workers have organized and federated so largely and comprehensively that there is little fear of a step backward. On the contrary, every evidence is shown that the toilers have awakened to the new found power of organized effort. Never before in the history of our country have they been so well organized as they are today."

**EVENTS**

HIGHLIGHTS OF THE WEEK . . .

<u>MONDAY, September 4, 1978</u>	LABOR DAY . . . UNIVERSITY CLOSED!
<u>TUESDAY, September 5</u>	FALL TRIMESTER BEGINS, BLOCKS 1 & 2
