Tuition to Increase 5%

Springfield, Illinois - For the first time since Spring 1989, trustees of the Board of Governors Universities have raised tuition for the system's 48,000 students.

At a regular meeting in Springfield, Illinois, the Board of Governors, Northeastern Illinois, and Western, approved a five percent increase effective next fall. The increase means students will pay $84 more per year to attend Chicago State, Eastern Illinois, Governors State, Northeastern Illinois, and Western.

"The only decisions this year are difficult ones," said Chancellor Thomas D. Layzell. "Given that we are facing a budget for next year that shows almost no growth, the tuition increase will allow us to just keep up with inflation."

The increase will raise almost three million dollars in revenue. However, Layzell said if the tax surcharge is not extended by the legislature, there will be an $11 million hold in the Board of Governors Universities budget.

GSU Graduate Named an All-American Scholar

The United States Achievement Academy announced today that Mr. Frederick H. Williams, a graduate of Governors State University has been named an All-American Scholar.

The USAA has established the All-American Scholar Award Program in order to offer deserved recognition to superior students who excel in the Academic disciplines. The All-American Scholar must earn a 3.3 or higher grade point average. Mr. Williams has a grade point average of 3.84 (4.0). He was a recent Master of Arts degree recipient from Governors State University, University Park, Illinois, with a major concentration in Political Science. He will teach at the university last week.

GSU Nursing Students Attend Nurse’s Lobby Day

By Maria A. Connolly, MSN, CRNP (Mac)

"Recognizing and supporting our scholars whether they are adults or youths is more important today than ever before in American history. Certainly, winners of the All-American Scholar Awards should be congratulated and appreciated for their dedication to excellence and achievement," said Dr. George Stevens, Executive Director of the United States Achievement Academy.

The Academy selects All-American Scholars upon the exclusive recommendations of teachers, counselors, and other qualified sponsors.

Mr. Williams was officially nominated to receive this award by Burton A. Collins, BGBA, Associate Dean, Student Development, Governors State University.

A resident of the Near North Side of Chicago, Illinois, for more than thirty years, Mr. Williams is the son of the late Mr. Harry and Mary Lee Williams, longtime residents of Cherokee, Kansas.

After a fun-filled day of lobbying, Speaker James Madigan, R-North Chicago, spoke to all the nurses from the Illinois Nurses’ Association and students. Later, a reception was sponsored by SNAP, (State Nurses Association Political Involvement in Illinois) and many of our local representatives, Terry Steiner, Richard Kelly, and the Governor Jim Edgar attended.

Our nursing students are learning to influence the policy-makers to promote better health care for all through the united act of the nursing profession.
University Police to Participate in 1991 Special Olympics

The Law Enforcement Torch Run for the Special Olympics is a series of intra-state/intra-nation races which take place in the spring and summer in the United States and countries around the world. Each Torch Run is organized by law enforcement personnel within the state or country in which it takes place. Law enforcement officials sponsor a group to carry the Special Olympics Torch, run intervals along a planned route (leg) covering most of the state or country to the site of the Opening Ceremonies of the Chapter or Special Olympics Games. In Illinois, this takes place in June, in Bloomington. Throughout the course of the Torch Run.

runners collect contributions from citizens and/or ask service groups, schools and businesses to raise funds in their behalf.

Last year for the first time, officers of the Department of Public Safety along with other members of the GSU community participated in this important event. As part of the 250 runners in "Leg 9" (our assigned part of the run) they assisted in achieving first place among the other 15 Illinois "legs" and helped raise $35,000 for the 1990 Special Olympics. This year Leg 9's goal is $40,000 for the Illinois Special Olympics. Runners in Bloomington this year will be held June 11th and 12th, with runners going through the GSU campus the morning of Wednesday, June 12th (exact time to be announced).

In addition to runner/participants who will personally approach any donations you might care to make for this worthy cause, please forward donations to Officer Debra Boyd, DPS. Checks should be made payable to the Illinois Special Olympics; all donations are tax deductible.

The GSU Department of Public Safety is proud to be part of Illinois Law Enforcement's quest in the upcoming 1991 Summer Special Olympics Games. In Illinois, this takes place in June, in Bloomington. Throughout the course of the Torch Run.

Professor Finds new way to Teach Geography

The dismal results of studies concerning the American's knowledge of geography motivated Professor W. Prince McLemore to conduct research pertaining to methods of teaching geography. He believes that the content should be taught in a variety of ways to capture a student's interests.

A primary interest of elementary and secondary school students is music, as indicated by the number of compact discs, music videos, cassette tapes, records and radios purchased by students. Although students wear headphones, carrying portable radios, and playing very loud music can be annoying to some adults, this behavior inspired Professor McLemore to develop a teaching approach for geography.

Since students are interested in music, teachers can use recorded songs as motivators for learning geography. Geography concepts and themes can be related to selected songs or parts of songs. Records are composed about bodies of water, deserts, mountains, valleys, cities, states, regions and countries.

Professor McLemore began his research by searching the literature for songs about places in the United States. He has done research in archives and libraries in Chicago, Maryland, Missouri, Mississippi and New York. He also sent questionnaires to tourist offices and state governments in all fifty states. From his research he has compiled a list of

117 recorded songs about cities and states in the United States. Currently he is researching recorded songs about European cities and countries such as Portugal, Spain, France, Italy, Ireland and the United Kingdom. Recorded songs about states are sought by surveying American and European associations and National Geographic as well as researching materials in archives and libraries.

During July 27 through August 3, 1991, Professor McLemore will visit the British Library in London, England to compile and categorize a list of recorded songs (popular, folk and patriotic) that can be used to motivate students to study and learn the geography of Portugal, Spain, France, Italy, Ireland and the United Kingdom.

Governors State University Research Highlights, May 1991

Farmers Market to Open

To Market, To Market we go. The Riverdale Farmers Market for 1991 will open Saturday, June 15 at 8 a.m. Fruits, vegetables, jams, plants, and flowers will be sold every Saturday from 8 a.m. to 1 p.m. till October 12.

Farmers from Wisconsin, Michigan and Indiana will be in the market. Riverdale Metra Lot, 144th and Atlantic, to sell their produce directly to the customer.

The market will be located at 144th and Chicago. The market is open from 9 a.m. to 1 p.m.

Workshop to be Given

"World-Perfect Introduction" will be offered on Saturdays, May 25 and June 1 from 9 a.m. to 4 p.m. The fee is $15.

Participants will learn to create, save, print and edit a word Perfect document. They will learn the basic commands and key strokes. They will also become familiar with the World Perfect word processing program. 

Yoga Instruction at the CCC

Karen Nielsen, the Campus Community Center yoga instructor, offers yoga instruction from noon to 1 p.m. Thursdays, May 15 through June 3. There is a $15 fee.

Campus Community Center fees vary. Members can join for one year for six months, or use a 10-visit pass. For registration information, call the Campus Community Center Campus Community Center at 708-534-5000 ext. 2214.

Anger control: At this moment Americans is in the midst of a deadly war that is being fought each and every day on the streets of our cities. It is so deadly that in just two years the number of times the public has been shot has increased by 100%. It is a war people have fought by law abiding citizens against an increasingly well armed group of criminals and societal/individual relics who infect violent and often senseless crimes against society. Our streets are filled with individuals who are capable of being used by these criminals are becoming more and more lethal. The ever popular Saturday Night Special has been replaced by the Assault Rifle, a weapon of choice. It appears that, in many instances, the criminals have more fire power at their disposal to break the law than those who have sworn to uphold the law, a fact that has been all too apparent to South Village Police Sergeant Mark Dellany. "The criminal element out there is no longer a match for us. They are the ones with the guns now," he says. "They have every type of weapon you can think of, from UZI's to AK-47 assault rifles. The average policeman on the street has only a standard 9 mm calibre revolver."

In his view, it is an argument that appears to be supported by the figures. In the United States, and roughly 60 percent of them will involve firearms. Hand guns alone will account for 75 percent of all firearm-related homicides. Including suicides and accidental shootings, more than 100,000 people will die and thousands more will be injured by firearms this year.

During the past five years, a number of violent shooting outbreaks have brought into question the validity of our gun control laws. Since 1988, Laurie Wasserman Dann, a young woman with a long history of psychiatric problems, walked into an elementary school in a Wisconsin town. Within two minutes she had shot and killed two young girls and herself. Despite the fact that during the same time the shooting sad songs had ended children were wounded, one of them fatally, tragically, all of the victims were living in the United States. As we discussed earlier, our United States's gun laws are an ineffective deterrent to violent crime. As a result of this, a frightened public and every day on the streets of our cities, and every day on the streets of our cities, and every day on the streets of our cities.

Some states, is likely. In most other democratic societies, laws governing the ownership of firearms are more strict. In Germany, for example, the process of acquiring a firearm has been made more complicated, and making it more comprehensive. We can only hope that the effort will be successful in deterring the epidemic of violence on our Nation's streets.

Charles Anderson, who used a legally registered handgun has nearly quadrupled.

The pistol used at the Stockton massacre. It was found in the possession of a friend of the victim. It was the primary reason why more people were attacked with shotguns in the past years a number of violent shooting outbreaks have brought into question the validity of our gun control laws. Since 1988, Laurie Wasserman Dann, a young woman with a long history of psychiatric problems, walked into an elementary school in a Wisconsin town. Within two minutes she had shot and killed two young girls and herself. Career Designs

‘Hot’ Jobs Defined

by Dan Amari

World Report, in its publication, "Best Jobs for the Future," identifies the hottest career tracks in twenty professions, from accounting to waste management:

Hot Track
International Accountant
Software Developer
Management Consultant
Environmental Engineer
Financial Planner
Health Services Administrator
Human Resources Director
Corporate Bankruptcy Lawyer
Quality Manager
International Marketing
Internet
Fund-raising Coordinator
Geriatric Nurse
Paralegal
Chef
Buyer, Specialty Store
Pharmaceutical Representative
Biomedical Researcher
Special Education Recycling Coordinator

Other hot track areas include:
ACCOUNTING: Federal government, public, private, and corporate.
COMPUTER: Systems integration, systems analyst, information systems specialist.
CONSULTING: Information systems, production management, health care and environment.
ENGINEERING: Electrical engineering.
FINANCE: Corporate controller, financial services marketer.
HEALTH CARE: Corporate health care cost manager.
HUMAN RESOURCES: Director of training, employee assistance manager, human resources, information specialist.
LAW: International corporate lawyer.
MANUFACTURING: Manufacturing engineer.

Marketing: director of marketing research, sales manager, medical technologist.

MEDICINE: Cardiologist, gastroenterologist, oncologist, pulmonologist, radiologist.
NONPROFIT: Fund raising consultant, donor researcher.
NURSING: Home health nurse, medical-surgical and intensive care nurses.
PARAPROFESSIONAL, physican assistant, medical technologist.
RESTAURANT: Institutional chef, fast food restaurant manager.
RETAILING: Merchandise manager, home furnishing and apparel designers.
SALES: Diagnostics representatives.
SCIENCE RESEARCH: Geneticist researcher.
TEACHING: Occupational and physical therapists, bilingual, math and science teachers.
WASTE MANAGEMENT: Marketing analysts, chemists and engineers in hazardous waste disposal.

Obviously, this brief listing of jobs cannot do justice to all of the areas of job and career growth in the world of work. If you'd like to explore other possibilities, we recommend you consult three books in the Office of Career Services: "Emerging Careers: New Occupations for the Year 2000 and Beyond," the Occupational Outlook Handbook, and specifically for the job outlook for Illinois, "The Careers of Illinois and Chicago Land: Horizons Occupational Information 1981." Delving more specifically into occupational areas is also possible by utilizing the career resource library in the Office. We invite you to make use of these resources as you explore those jobs that may be right for you. Happy hunting.

The Air Force needs you. As an Air Force nurse officer, you can enjoy great benefits, including complete medical and dental care. Plus 30 days vacation with pay per year and ongoing professional and personal opportunities to advance. Bachelor's degree required. Serve your country while you serve your career.

Counselor's Column  
DO YOU HEAR WHAT I'M SAYING?  
by Judi Hings

Communication is not merely by words alone. Tone of voice, choice of words, bodily posture all communicate a variety of messages. Two persons may say, “Good morning” to each other and convey a number of messages. One “Good morning” may indicate supplication, awareness of subordinate status, anxiety as to how the greeting will be received. The other may convey condescension, supplication. Awareness of subordinate status, anxiety as to whether the perceptual screen of the other distorts the message he attempted to convey.

Each of us is concerned with developing and maintaining our self-image. Communications that are heard as threatening our image are received with a fight or flight response. Conversely, communications that are heard as affirming our self-image are received with an open response.

“hear” what we want to hear, either subconsciously or consciously. Thus the complexity of both sending and receiving sets make communication a difficult human act. Of the many messages the individual may communicate, many of which he is unaware, he cannot know which are received by the other, or whether the perceptual screen of the other distorts the message he attempted to convey.

Each of us is concerned with developing and maintaining our self-image. Communications that are "heard" as threatening our image of ourselves and the image we have of the other person are responded to by defensive or aggressive reactions, even though the sender was not consciously aware that he was threatening the self-image of the other. As a result neither listener can trust the other to respond to the images from which the other speaks. Both talk past each other. Communication breaks down and misunderstandings begin. Good listeners are hard to find. Are you hearing what's being said or what you think was said?

Fellowship to Continue Through Summer

INTERVARSITY CHRISTIAN FELLOWSHIP will continue meetings 1st and 3rd Wednesdays from 12:30-1:00 p.m. throughout the Spring/Summer term. The meetings will be held in the Student Life meeting room, A 1804. A picnic is being planned on June 6th, 1991, watch kiosk for further announcements of the details. Please send ideas for activities and prayer requests to Nancy Anderson, care of the Office of Student Life. God bless you.

Question:  
Have You Seen Any Wildlife On The GSU Campus?

Photos by Lorettie Calceterra

Mom; I'm Bored!

Don't let this familiar saying haunt you this summer. Enroll your children in the Student Life Child Care Program's Older Children Summer Day Camp. This program is specifically designed with the elementary school age child in mind, six through 13 years of age. Activities will promote creativity and individuality. Thus the complexity of both sending and receiving sets make communication a difficult human act. Of the many messages the individual may communicate, many of which he is unaware, he cannot know which are received by the other, or whether the perceptual screen of the other distorts the message he attempted to convey.

Each of us is concerned with developing and maintaining our self-image. Communications that are "heard" as threatening our image of ourselves and the image we have of the other person are responded to by defensive or aggressive reactions, even though the sender was not consciously aware that he was threatening the self-image of the other. As a result neither listener can trust the other to respond to the images from which the other speaks. Both talk past each other. Communication breaks down and misunderstandings begin. Good listeners are hard to find. Are you hearing what's being said or what you think was said?

Campus Community Center offers Classes For Seniors

The Campus Community Center at Governors State University will offer aquacise, adult swimming and yoga, and senior citizen exercise and aquacise classes. The public can enroll in any of these programs by joining the Campus Community Center. Wendy Jaffe and Vicki Pence are instructors for aquacise classes now through Aug 19. Additional sessions have been added. Classes will meet from 11 a.m. to noon Monday, Wednesday and Friday; 1 to 2 p.m. Tuesday and Thursday; 9:30 to 10:30 a.m. Tues-

day and Thursday; 7:30 to 8:30 p.m. Monday and Wednesday; and 12:00 p.m. Sunday. The fees are $13.75 or $15, depending on the session. Adult swim instruction is offered from 9:00 a.m. to 10:00 a.m. and 11:00 a.m. to 12:00 p.m. Saturdays and 7:30 to 8:30 p.m. Tuesdays. There is a $25 fee. Senior classes with Arta Dickerson include exercises from 1:30 to 2:30 p.m. on Monday, Wednesday and Friday, or aquacise from 1:45 to 2:15 p.m. or from 3:30 to 3 p.m. Monday, Wednesday and Friday. There is a $25 fee per session.

Concerns may be made to the Alzheimer's Association, 79 E. Lake, Chicago, IL 60601, or (708) 857-7787 or (708) 425-4050 for more information.

WORK WITH CHILDREN
P.A.R. 1991

Permanent full-time, part-time, and substitute Assistant Director, Teacher and Assistant Teacher positions are available at Child- ren's World Learning Center's 36 suburban Chicago locations. Chicago area students have flexibility to work around their fall 1991 class schedule. Education students gain experience working professionally with children.

Find your fall job today! For more information, please call: (708) 556-6012.

This issue of the GSU Innovator covers events happening on the Chicago campus during the summer of 1991. This newsletter is published cooperatively by the office of Student Life and the Office of Public Relations. The editor is Wendy Jaffe. Address all correspondence to the Office of Student Life, Governors State University, University Park, Illinois 60463. Subscriptions are free and are sent to students, faculty, and staff of Governors State University.
Third Airport Alliance Announces ‘green grass’ Site Support

"Enough information has been released through the airport study process to make it clear that a Third Regional Airport must be built, and it must be possible, and that such a facility must be located at a green grass site," was the com-

ment made by Third Airport Alliance (TAA) Chairman Don Goff, at a meeting of that organization on Thursday, February 5th in Normal.

The TAA, an alliance of legislators who advocate for a third airport that serves central Illinois, the Southern Illinois University at Carbondale, Macomb, Charleston, Normal or other university communities. That’s not true. It affects every community in Illinois." 

The state’s financial condition has placed Illinois education at all levels on the edge of a precipice," Northern Illinois University President John La Tourette warned.

"There is a tendency for some to think this issue affects only Champaign-Urbana or DeKalb, Carbondale, Macomb, Charleston. Normal or other university communities. That’s not true. It affects every community in Illinois." 

The consultant firm of TAMS is currently working on a Third Regional Airport site selection/master plan under the auspices of the states of Illinois and Indiana, the city of Chicago, and the Federal Aviation Administration.

"We know that the TAMS con-

guidelines for getting

remaining vacation days will be as pleasant as the first. You can go back to school with a healthy glow instead of an icy peel.

Because Florida is closer to the equator than many northern states, the sun is more intense and the particles in the air that reflect the sun’s rays can be more powerful. If you used SPF less than 15 or SPF 10, you may move on down the SPF ladder asking for public higher education.

Guidelines for Getting

Free Motorcycle Instruction at PSC

Day 2 — Continue with the same SPF you used on Day 1.

Day 3 — If you started with a SPF higher than 15, drop down to 15. If you started with 15, stay there one more day.

Day 4 — Depending on your natural skin tone and the color of your Florida base tan, you may move on down the SPF ladder as follows:

Fair to medium — Drop down to SPF 10

Medium to light tan — Try SPF 10 or

Tan to olive skin — Should be safe with SPF 3 or 6

Deep tan to dark skin — Use SPF 4.

Day 4 and beyond — Follow Day 4 advice for the rest of your stay.

As your tan increases, drop your SPF gradually so that you maintain a beautiful tan with no burning or peeling.

Neediest Children's Fund
Fills Penny Cup

For the past four years the students and staff of GSU have been making contributions to the "Neediest Children Christmas Fund" with the help of our own Santa's helper, Virginia Cunningham. Virginia is cashier in the cafeteria and the custodian of the little cup by the register. This little cup gets the pennies and spare change that the kind and gentle among us often deposit. Last year we managed to raise $2100 for the kids. This year the goal is $2300. As of May 21 Virginia has collected $825. Yes, Virginia there is a Santa Claus. He resides in the heart and soul of the GSU population. This is a very worthy cause so please help Virginia reach her goal this year. Keep putting that spare change in the little cup!
