News and Events

Throw Down the Sash!

We are all eager to enjoy our winter break, but before you leave your work areas and offices, please remember to perform a few basic housekeeping chores.

If you do not need access to your office computer from home over break, turn it off. That will save energy and give IT a chance to perform upgrades without risk of losing any unsaved content.

Don't forget to close all windows and turn heating units to the low heat setting before leaving for break. This will protect your office and the offices below and beside yours from damages that may occur when frozen water pipes fracture and cause flooding.

One more thing – be sure to empty your refrigerator before you leave, so you don't return to work in January to find something unwanted growing where your sack lunch should be.

For more information, contact Facilities Development and Management at ext. 4515.

ZIP-a-dee-doo-da 60484

All GSU faculty and staff are reminded that the university's former ZIP code, 60466, was changed to 60484 on July 1, 2009.

Mailed materials bearing the old ZIP code can no longer be used and should be recycled immediately. All departments are encouraged to review all materials (i.e. business cards, website, envelopes, stationery/masthead, forms, marketing materials) to ensure that they have been changed to reflect the new ZIP code.

All departments doing business with outside entities are also responsible for informing those entities of the change for correspondence and billing purposes.

Cafeteria 2012

The cafeteria is closed for the year and will reopen and resume normal business hours on Tuesday, January 3.
