If there comes a little thaw,
Still the air is chill and raw,
Here and there a patch of snow,
Dirtier than the ground below,
Dribbles down a marshy flood;
Ankle-deep you stick in mud
In the meadows while you sing,
"This is Spring."
C. P. CRANCH—*A Spring Grawl*

GSU: go, save, use

About 300 people reading this newspaper are currently enrolled as students at Governors State University in Park Forest South. They represent about 10 percent of the GSU student body.

Another 234 people living in this area have already graduated from the senior college and many others from this area have taken courses there previously. Many others in this area travel Interstate 57 to the college to attend some of the many special events provided free of charge or at very low admission fees.

With transportation costs and tuition continually escalating, it seems logical that many more people in this area will find

GSU is a viable alternative to traveling to other universities more distant and more expensive.

For those who are not aware, GSU offers courses for juniors and seniors in college working on an undergraduate degree and advanced courses for those seeking a master's degree. If your family is looking for an option to the high cost of higher education, go to GSU and see how you can use it to get that degree and save money. In many cases, GSU is not only an alternative, it is the only option that is practical.

And contrary to any rumors you might have heard, it is not closing down.
