FAMED PIANIST TO BE GUEST ARTIST AT GSU... Grant Johannesen, concert pianist, will be the guest artist with the GSU String Quartet at the second annual President's Concert on May 5 to benefit the University's Community College Scholarship Fund. Johannesen has made national and/or international tours with the New York Philharmonic, the Boston Symphony and the Cleveland Orchestra and has cut more than 50 recordings. He will play a Beethoven sonata and will join with the Quartet for Brahms's Piano Quintet in F minor, Op. 34. The Quartet will open the program with a transcription for strings of the familiar Eine Kleine Nachtmusik by Mozart. The program is under the sponsorship of the GSU Foundation. "Our goal is to raise \$7,000 for the fund, which currently is supporting scholarships for 12 top scholars from seven community colleges in our region," according to Leo Goodman-Malamuth, GSU president. Tickets for the benefit performance are \$50 per person. For reservations, contact William Dodd, chief executive officer of the Foundation, at (312) 534-5000, x2122.

GSU AWARDED \$404,000 GRANT . . . GSU has received two grants totaling \$404,000 for training of personnel of the Illinois Dept. of Corrections. Two hundred eighty-one correctional counselors, community residential counselors and community parole counselors will receive training in areas specified by the Dept. of Corrections. Under the direction of Terri Schwartz, university professor of psychology and project director, GSU will conduct 11 weeks of training in Chicago and Springfield. Schwartz says that GSU was awarded the grants based on proposals which were a collaborative effort between the College of Human Learning and Development and the Office of Special Programs and Continuing Education. They were submitted to the Illinois Dept. of Corrections and approved by the Dept. of Public Aid as the Title XX administering agency for the state.

GOVERNORS STATE UNIVERSITY . . .

Like living inside an amoeba,
restructuring itself, in churning flux,
walls constantly changing,
appearing here, disappearing
there, almost daily
the building grows, and ungrows,
walls fuse and merge,
metamorphosing almost whimlike
as semi-structures within
superstructures ebb and flow.

Have I taught here for years?
I'm not quite sure. I recognize
a wall or two from Spring,
but wasn't it there last Fall?

So too, my mind (from living here so long?)
reforms, remakes itself from a few
gaudy fragments in its kaleidoscope.
