Dinner, Show & Dessert packages available
For tickets & information call (708) 798-9171

The Cancer Support Center is a place where people can find information, support and encouragement to help them live better with a cancer diagnosis. Services include: educational workshops, support groups led by professional staff, wellness programs and a state of the art resource center. The Center currently serves over 250 people per month from 70 Chicago Southland and Northwest Indiana communities. All services are provided free of charge thanks to the generosity of these communities.
