One Book, One University

One Book, One University cultivates a culture of reading and discussion in our community by bringing GSU faculty, staff and students together with community members. Reading great literature provokes us to think about ourselves, our environment, and our relationships. Talking about great literature with colleagues, friends, family, and neighbors often adds richness and depth to the experience of reading. The idea behind One Book, One University is to have many people, from different walks of life read the same book at the same time to create a kind of community book club.
