June 17, 1985

**EMPLOYEE OF THE MONTH IS NAMED** -- Ila Kline has been selected to receive the June Civil Service Employee of the Month Award. Ila is an administrative clerk in Physical Plant Operations (PPO). She joined the PPO staff in 1974 having previously worked in the university library since 1972.

Ila Kline

Ila is known to her office staff as a dedicated supervisor, coming in early most days and periodically staying late. She says she enjoys the variety and actually finds the problems and complaints to be an interesting part of her job. Some of the more challenging complaints involve dealing with heating and cooling problems, she says. Most university staff members, however, often don't understand how difficult it is to respond to various complaints involving heating and cooling problems, she says. Ila adds that employ-

ees in Physical Plant Operations are very supportive, and she has a great deal of respect for them.

In addition to her job at the university, Ila is working on a bachelor's degree in office administration. She recently transferred from Prairie State College to Governors State University.

She also manages to find time for many hobbies. For example, Ila has received about 40 ribbons at the Peotone Fair for her beautiful flowers. She has been an avid biker and has taken up jogging recently--already entering several races.

Ila feels that there are many benefits and opportunities for growth for employees at Governors State. She adds that the Employee of the Month program is good for morale and after being here so long she's pleased to be given the award. She says, "It's been a boost to my ego and self-confidence!"

**INSURANCE ENROLLMENT PERIOD ENDS SOON**--Employees receiving health insurance benefits may make changes in carrier or dependent coverage if desired.

Between now and June 30 state employees have the option to change how their health care will be provided for the next year. They may choose either the Blue Cross/Blue Shield plan or a Health Maintenance Organization membership. Health insurance benefits for dependents may also be changed.

Employees desiring to make changes should contact Lucille Porolli, benefits counselor, in Personnel. Any changes must be put in writing and received on or before June 26 by the Personnel Office.

Employees who wish to maintain present health coverage are not required to take any action.

**PUBLISHED** -- Dr. Elizabeth L. Brutvan (CHP), an article, "Personal Nutrition Improvement Contracts," published in **Nutrition Instructor's Network**, Spring 1985.....Dr. Sonya Monroe-Clay (CHP), a paper, "Community Teamwork in Education for Tomorrow;" also, selected for Resources in Education of the ERIC Clearinghouse on Educational Management.....Dr. Jeffrey S. Kaiser (CE), author of a text, **The Principalship**, published by Burgess Publishing Co. of Minneapolis; also, producer of the software package, "Handling Stress: A Skill for Managers and Employees," distributed through the Telelearning Corp. of San Francisco.....Dr. Melvyn N. Freed (CE), senior author and editor of **The Source Book of Educational Research and Information** to be published by Macmillan as a basic educational reference book; also, selected by the American Council on Education for its series of leadership books in higher education. Among contributors to the book are Dr. Robert Hess (CE), Dr. Carl Peterson (UL), and Dr. Krishna Balasubramonian, formerly in the College of Education. Freed has been informed that Random House Publishing Company wants to publish his videotape on achievement testing as well as the accompanying book.....Dr. Reino Hakala (CAS), an article published in the Feb. issue of **Journal of Chemical Education**.

GOV ARCHIVES

Noted entertainer Pearl Bailey (second from left) chats with Governors State University officials moments before delivering commencement remarks to graduates of the university's College of Business and Public Administration and College of Education on June 9. Listening are Dr. Dominick Bufalino (left) of the Board of Governors of State Colleges and Universities; Dr. Esthel Allen, a Governors State staff member on loan to the BOG office; and Dr. Leo Goodman-Malamuth II, president of Governors State University.

Dr. Jonas Salk, discoverer of the vaccine for the treatment of infantile paralysis, addresses Governors State University graduates at commencement exercises on June 8. Dr. Salk told graduates of the College of Arts and Sciences, the College of Health Professions and the Board of Governors Program that they are the ancestors of generations they are yet to build.

**BORELLI TAKES JOB AT WASHINGTON UNIVERSITY--**A seven-year veteran administrator at Governors State University will be leaving the institution this summer to assume a new post in the state of Washington.

Frank L. Borelli

Dr. Frank L. Borelli, dean of student affairs and services at the university since 1978, will become vice president of student services at Eastern Washington University in Cheney, Wash.

"We are sad to see our good friend Dr. Borelli leave Governors State University," said Dr. Leo Goodman-Malamuth II, university president. "He has performed an exceptionally fine service to this institution in the seven years he has been with us."

"On the other hand," the president continued, "we are proud of Frank as one of our own who has been tapped for more important opportunities and responsibilities."

A native of Duluth, Borelli received the baccalaureate degree from the University of Minnesota in 1961. He received the master's degree in education from Southern Illinois University in 1963, and the doctorate in education from Northern Illinois University in 1980.

Prior to joining the staff at Governors State, Dr. Borelli served ten years at William Rainey Harper College in Palatine, four years at Bemidji State University in Minnesota and two years at the State University College at Buffalo, N.Y.

He is a member of numerous professional organizations and has served as a presenter at various conferences and workshops throughout the Chicago region. He also is author of three major articles related to higher education.

Dr. Borelli and wife Elizabeth are parents of daughters Gina and Julie.

William H. Dodd, executive director of University Advancement, was very much surprised by the celebration which marked his recent birthday.
