TIME WARP...Governors State University recently received a message from unidentified individuals living in the year 2020. The message read, "Profoundest apologies. Human error by one of our operatives recently resulted in the 'passing back' of one of our ceremonial obelisks to your time on your campus. We have retrieved our obelisk which now graces the year 2020, as is fitting. Best wishes from 34 years in the future.

"P.S. We couldn't help but notice several objects in the vicinity of our obelisk similar to it in vision and creativity. We laud you for your progressive and venturesome spirit."

EMPLOYEE OF THE MONTH IS CHOSEN...Congratulations to **Jean Coughlin**, secretary for the Board of Governors degree program, who was selected to be Employee of the Month of September.

Jean started working at Governors State University in 1978 as a secretary for the personnel office. She was excited about working in the BOG degree program office since it required a great deal of student contact. She has found that the enjoyment of a satisfied student is one of the highlights of her workday. In fact, it was a student, **Donna Timmermans**, who nominated Jean for the award.

When **Barbara Clark** presented Jean with the check for \$50 and the letter of appreciation, Jean was completely surprised. She said, "It gave me a sense of fulfillment to know that a student thought enough of my service to express thanks in this way."

Jean also has contributed her time and talent to the university by serving on the Civil Service Affairs Committee and participating in the yearly Alumni Phonathon. In addition, she co-chairs and serves as recorder for the Employee Assistance Program Oversight Committee.

Jean spends some of her free time as editor of Wild on Weekends (WOW), a newsletter for widows and widowers.

BRONZE CASTING DEMONSTRATION GIVEN OCT. 16...A bronze casting demonstration by **Joseph Rejholec**, art faculty member at Thornton Community College, is scheduled to take place as part of the Festival of the Arts. The demonstration will be held on Oct. 16 from 9 to 10 a.m. in Room 4139 at Thornton Community College.

Rejholec, three-dimensional design, sculpture and art jewelry instructor, will present a slide lecture on the preparation of the cire perdue technique used in bronze casting. Spurring, investing, burn out and finishing will be explained. A piece will be poured and followed by a question and answer period.

The festival is offered as a free public service, and amateur and professional artists and students have been invited to participate.

SILK-SCREEN ARTIST DEMONSTRATES NEW TECHNIQUE...**Nancy McGee**, nationally known artist and pioneer in the development of water-based silk-screen printing will present a workshop in conjunction with the second annual Festival of the Arts. The artist, who is a serigraphy and lithography teacher at the Milwaukee Institute of Art and Design, will demonstrate her unique serigraphic process utilizing water-based inks at 4:30 p.m. on Oct. 17 in the Printmaking Studio at the university.

To provide students with a safer alternative to traditional, toxic solvent-based screen printing, the Milwaukee Institute of Art and Design hired McGee to research all water-based methods and develop a professional quality, non-toxic alternative for fine-art screen printers. After two years of extensive work, supported in part with a Wisconsin Arts Board grant, McGee's results led the school to switch exclusively to the aqueous system.

McGee continues to create her own art with the water-based inks. Her twenty-panel serigraph, "Wallpaper Rainbow," won top honors and the **Frank G. Logan** Award at the Chicago Art Institute's 1981 Prints and Multiples exhibition. "Wallpaper Rainbow" then traveled with the show to seven museums, including the National Academy of Design in New York and the Smithsonian's National Museum of American Art in Washington, D.C.

CERAMICIST PRESENTS WORKSHOP DURING FESTIVAL OF THE ARTS...**Pat McGarry**, the chairwoman of the art faculty at Thornton Community College, will present a lecture and demonstration on Raku, the Japanese method of firing ceramics. The festival is sponsored by the Division of Fine and Performing Arts of the College of Arts and Sciences at Governors State. Planned for Oct. 16 to 18, the festival involves a wide variety of both professional and amateur performing and visual artists.

McGarry's presentation will take place at Thornton Community College from 10:15 a.m. to 12:15 p.m. on Oct. 16 in Room 4135. The ceramicist will demonstrate the technique of Raku firing in an outdoor studio setting and will emphasize the effect of this firing technique on various glazes. Participants will be given a bisque ware piece to glaze and then will take part in the firing process.

There will be a \$5 charge to cover the cost of materials used during the workshop. To participate in the workshop, please contact the Division of Fine and Performing Arts at extension 2461.
