Muchnik to Get Technology Post

by Bruce Hall

In an effort to increase Governor State University’s involvement in new cable and satellite media developments, Dr. Melvin M. Muchnik has been appointed “special assistant to the president for communications technology.” Muchnik, currently chairman of the Division of Communications, describes his new role: “I hope to capitalize on this technology. We think we are in a key position.”

There is a feeling that a lot of technology is rushing by us,” Muchnik remarked about the timing of his appointment. “We think we are in a key position to capitalize on this technology. We’ll be asked to be the university that is on the cutting edge and known for extending learning off-campus.”

“The president is showing a commitment to investing in ourselves.”

Twelve telecourses, using both free and cable systems, will be offered by the fall semester. One major telecourse, “Health Care Organizations,” has already been produced by GSU’s Instructional Communications Center and aired on Channel 20 in Chicago as well as nationwide. Last year over 800 GSU students registered for telecourses, and a second GSU produced course, “Science Teaching,” is being developed.

“Really the president is showing a commitment to investing in ourselves to plug the university and extend into advanced communications techniques, particularly, cable and satellite systems,” Muchnik explained. Telecommunications offerings run from teleclasses (simple videotaped class lectures) to telecourses, which may involve documentary style production.

GSU Welcomes New Students

Peggy G. Woodard, Coordinator of Guidance
Coordinator of Fall 1984 Orientation/Advisement Program
Office of Student Development

The Fall 1984 Orientation/Advisement Program for new students was held on August 7, 8, and 9. The date on which students attended the program was assigned according to the college of their major with the College of Business and Public Administration on August 7, Board of Governors and College of Health Professions on August 8, and College of Arts and Sciences and College of Education on August 9. The program was designed to familiarize new students with GSU’s educational facilities, services, physical layout of the campus, and to complete academic advisement and administration.

The Writing and Basic Mathematics Testing component was offered each afternoon of the Orientation/Advisement Program. Both current and newly admitted students took advantage of the availability of these testing dates.

The second program component began with a slide tape presentation by Richard Pride, Director of Admissions and was followed by a welcome address by Dr. Suzanne Prescott, Associate Vice-President for Academic Affairs. During her welcome Dr. Prescott impressed upon students the importance of communication between students and faculty, and the need to understand the requirements outlined in the course syllabus at the beginning of each course.

Following Dr. Prescott’s presentation, Frank Borelli, Dean of Student Affairs and Services talked with students regarding the importance of knowing their rights and responsibilities as a student at GSU.

Dean Borelli stressed the importance of knowing the material in the Student Handbook and encouraged students to seek assistance from the Student Affairs and Services staff should they have any questions or concerns.

While the students remained as a group in Engbretson Hall, presentations were made by Clark Delfer, Director of Financial Aid and Sarah Crawford, Registrar. The specific services provided by both of the units were presented and students were encouraged to seek assistance should they have any questions in these areas.

Following the Registar’s presentation the students were broken into small groups. At this time refreshments were served and staff from Student Activities and Student Affairs and Services talked with students regarding the services provided by their respective units.

Also, during the small group presentations current GSU students, employed as Student Counselors, talked with new students regarding student life at GSU. Some of the areas focused on by the student counselors were the aspects of GSU’s non-residential campus, integrated age groups, reasons for peer group support, and role conflicts that can occur for students when attempting to balance work and family roles with those of being a student.

Also, during this component of the program each student was given a packet of material. These materials included information regarding available services from each of the Student Affairs and Services units, an advance registration form, information on Student Study Plans, syllabus outline information, and a Director of Deans, College Division Chairpersons and Student Affairs and Services Unit Directors. Included in this packet was a handbook of common student concerns which included a referral source for each area of concern.

Along with developing new telecourses for university use, Muchnik will attempt to market GSU produced telecourses for use by outside businesses, industries, and government organizations. The first Chicago area commercial videotex system, "Keyfax," will become a part of GSU’s offerings with two terminals to be located in the university’s library.

"The new position will be an exciting challenge for me and the university.”

Keyfax, open to both students and faculty, will be used to retrieve information from all other computer sources nationwide that are linked to the system. It can also be employed to make airline reservations and Ticketron purchases, order flowers (using actual graphic pictures of available arrangements), locate reference and magazine information, obtain financial data, and play educational games.

While Dr. Muchnik is serving in a liaison between GSU’s telecourse services and the outside world, Ralph Kouse, Director of the Instructional Communications Center, and Joyce Newman, Telecourse Coordinator, will be completing the inside work on course development and sequencing.

As a result of the new appointment, Dr. Muchnik will instruct only one fall course, a graduate seminar entitled "Contemporary Issues: New Communications Technology," and all of his advisees will be reassigned. Dr. Michael Purdy, Professor of Interpersonal Communications, will assume the role of Communications Division Chairman.

Congratulations to Dr. Muchnik for his promotion!"
Communicating Seminar Open to Students and Local Residents
by Marjone Owens

Young Y. Kim, University Professor of Communications, is the coordinator for the "Communicating Effectively" workshop that will be offered on September 28 (Friday) and September 29 (Saturday) at GSU.

It is being conducted by the Interpersonal Communication Division of the Department of Communication. According to Professor Kim, "Interpersonal Communication covers the various aspects of communication between all people, whether it's in business, sales, medicine, relationships, management and government."

The workshop is designed for students, staff, local business people and residents who are interested in improving their communication skills. It is scheduled so that participants will be able to take part in this specially-designed two-day workshop without interfering with their regularly scheduled classes.

Professor Kim stressed, "This is open to all students, not just communication majors. The workshop will also help students in business, teaching, counseling, management, sales, public relations, hospital management, nursing, social services, in any major where students want to increase their ability to communicate effectively."

The keynote speaker for the workshop is Dr. Charles R. Berger, PhD., Professor of Communications at Northwestern University. According to Kim, "Dr. Berger is a renowned scholar of interpersonal communication. He is the editor of one of the most prestigious journals in the communication field, THE HUMAN COMMUNICATION RESEARCH. He has also authored several books on the subject of communication, along with having written numerous articles on the subject. He is a well-known, dynamic speaker."

Along with Dr. Berger, five GSU representatives will conduct the workshop. Young Kim will give an overview of "Communicating Effectively," Michael Puddy, GSU Professor/Chair of Communication will discuss "Speaking and Listening." Ana Chong, GSU Professor of Communication will present "Interpersonal processes." Joyce Kennedy, GSU Professor of Communications, will be covering, "Small Group Processes," and Jagdish Dave, GSU Professor of Psychology in Education will talk on the subject of "Interpersonal Mediative Processes."

Professor Kim stressed, "The workshop will not be all lectures. Each session will have some kind of activity. Participants will have an opportunity to practice with hands-on experience which will be practical as well as interesting. Along with the lectures there will be films, slides and exercises."

Professor Kim is a graduate of Northwestern University. She is the editor of the INTERNATIONAL AND INTERCULTURAL ANNUAL, published by Sage Publications and the Speech Communication Association Kim has also written two books.

Vets' Club Victorious Over SOC Challengers
by Bruce Hall

Food, drink, laughter, good-natured jests, and, yes, even a bit of softball played at the 3rd Annual Student Organization Council (SOC) Softball Tournament at the GSU lakeside field.

When the shouting had died and the dust had cleared, the Vets' Club had scored its boast of being "the most active club on campus" by fielding full teams, while the Malaysian Club and the Psychology Club fielded partial teams.

After the opening game players from various teams were intermixed and three more intramural games were played. Between games a pep rally complete with hot dogs, hamburgers, and various side dishes was catered by the GSU cafeteria and paid for by the SOC.

Composed of five executive board members elected from its general council, the SOC serves as governing body for all GSU student clubs. One representative and one alternate are selected by each club to serve on the general council. Funding for the SOC is provided through student activity fees.

The tournament was open to teams from all 30 GSU student groups by organizing representative teams for the one-day tournament. Both the Vets' Club and the SOC fielded full teams, while the Malaysian Club and the Psychology Club fielded partial teams.

WHERE AM I?

Out of Minneapolis Minnesota I came
To Park Forest South Illinois
It was so strange that I asked
Where am I?

In the midst of a Prairie land.
In the beautiful Pains with the beautiful blue skies overhead
Where am I?

In the midst of 750 acres of blue velvet
In the heart of a land favored with beauty
Where am I?

Two beautiful lakes provide
pleasure for Lovers of Nature
And natural views for Lovers' pleasure
Where am I?

Paths for Joggers, and to go for a walk
Tails for Cyclists, and wild-life seekers
Provide a little more excitement
Where am I?
I began this intending to do a standard criticism of the Outdoor Folkfest that was held at "GSU on the Lake." I was going to mention Dave Rudolf's awful but hilarious jokes, the bluegrass virtuosity of Whetstone Run, undiminished by the groups being based in Pennsylvania, and the nostalgic feelings brought on by Tom Chapin's evocation of his brother Harry. I was going to write this but I couldn't.

I went to the Folkfest, not as a working reporter, but as a GSU student. I left my note pad at home, brought my family, and sat on the grass with everyone else. And I had fun!

There's a line in an old Limeliters' song: "We laughed and sang the whole night long." And we did. We were there to have fun. So were the performers. The sky was clear, and if it got a tad chilly toward the end of the evening, well, no one really cared.

This summer has been a hectic one for many of us, trying to balance families, jobs, and classes without dropping any of them. For one evening, 400 of us were able to forget deadlines, uncompleted assignments, the dishes in the sink, and enjoy an event that had only one goal—to entertain.

Thank you Student Activities.

Random Observations

As we face the rigors of yet another presidential campaign I can't help but make a few random observations. I'm so glad the TV networks finally got wise and gave up gavel to gavel coverage of the conventions. They just haven't been fun since Sam Rayburn died. Don't you think the equal time rule has gone too far, when stations are afraid to run old Ronald Reagan movies, for fear of running afoul of it?

We now have a woman running for Vice-President, and this is a reasonable thing, but why this woman? Why is it people who fought over the double standard are now trying to create one to excuse Ferraro's faults?

Didn't you like it when they elected the Governor at the same time as the President? We got all those awful commericals out of the way at one time.

If Mondale had chosen Adlai Stevenson as "veep," would their slogan have been: "We are now wimps?"

Did you hate all the publicity given to a candidate's family? My ideal politician is an androgynous orphan, with no spouse or children.

Do the delegates to conventions really choose the candidates? From what I saw they (conventions) looked like two weeks of love-ins.

The obvious question arises. Why is it that people with the intelligence to make a good president also seem to be too smart to want the job?

A pet peeve is the supercilious commentators who come on right after a speech and tell you what you just heard. And finally, don't you just hate editors who waste your time with random observations?

WELCOME TO FALL TRIMESTER EVERYONE!

Dear Student Body:

As the incoming President of the Student Senate, I welcome you back to GSU. To those of you that I did talk with during Orientation, "Hello" and I hope you enjoyed your stay here. Those students that I didn't get to talk with, "Hello" also. Since the Administration didn't see fit to allow me the time to speak to GSU as a whole group, I would like to now.

One of my main goals is the formation of a Student Legal Service here on campus. The times that this person will be available, the number of visits allowed per student per trimester, and selection of the lawyer, have yet to be worked out.

My other project is the establishment of a radio station. To assist my project, I need your input on a survey, which I hope to have out after Registration.

One of my main goals is the formation of a Student Legal Service here on campus. The times that this person will be available, the number of visits allowed per student per trimester, and selection of the lawyer, have yet to be worked out.

My other project is the establishment of a radio station. To assist my project, I need your input on a survey, which I hope to have out after Registration.

Again, welcome to you all, and if you have any questions about anything that I can help you with, please feel free to ask me. Remember, I'm usually in the cafeteria, or in the Student Center Activity every day.

Larry R. Lulay
The GOVERNORS STATE UNIVERSITY CHILD CARE CENTER today announced the availability of free and reduced price meals for children meeting the approved eligibility criteria under the Child Care Food Program. They have adopted the following family size and income criteria for determining eligibility for the period of July 1, 1984 through June 30, 1985:

<table>
<thead>
<tr>
<th>Family Size</th>
<th>Level for Free Meals</th>
<th>Level for Reduced Price Meals</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>YEARLY</td>
<td>MONTHLY</td>
</tr>

I, too, attended Judith Ar- cana's commencement address (June 14, 1984) and share concern about some of the inappropriate and somewhat critical elements in Mr. Arcana's remarks, as well as a vitriolic attack on the campus women's resource center. I think it is important to emphasize the key points in Mr. Arcana's speech, as well as the response I have written below.

GSU is offering five courses at Thornwood High School in South Holland this fall. Two are Education courses, and three are in Social Work, and Marketing and Management.

All are three-hour courses. The Marketing and Management courses are only under-graduate and begin August 29. The others are both graduate and under-graduate or non-credit.

Fees run $80.75 graduate, $77.25 under grad, and $100 non-credit.

Details can be obtained from the office of Conferences & Workshops.

Announcements

Four courses are being offered at Amos Alonzo Stagg High School in Palos Hills. All four courses are for three hours of either graduate or under-graduate credit and begin the week of August 27.

Class offerings include: Major American Authors; Ethics In The Chicago Region; Color Photograph; The Negative Processes; and Technology of Social Change.

Further information is available from Sandy Mensch.

"Dollars and Sense" is the title of a series of six financial planning seminars being offered this fall.

The seminars are non-credit and an individual may enroll in all six or only one.

Further information is available from the office of Conferences & Workshops at ext. 2436.

The College of Business & Public Administration is sponsoring a workshop on "Financial Planning for the Closely Held Company" on Sept 11 at the Holiday Plaza in Matteson.

The noncredit workshop will run from 9 am to 5 pm and include information on tax deductibles, fringe benefits, personal tax reduction vehicles, business planing and management continuity alternatives, and estate tax reduction methods.

Further information is available from the office of Conferences & Workshops at ext. 2436.

We have a winner! Jackie Flynn successfully identified our "Mystery Woman" as Sandy Broadbent. She is among the winners of a series of "Building a Financial Plan in Today's Market." Other winners include: "Introduction to Multinational Business," "Creative Woman," "Breakfast with Computers," and "A Second Language: Classes will be all levels, and will include such skills as paragraph writing, and reading the language found in newspapers.

For further information contact Betty Heron at 756-3110, ext. 1.

For further information about the courses contact Sandy Mensch at the Office of Special Programs & Continuing Education, ext. 2121.

GSU has another publication of which many people are not aware. The "Creative Woman" is a literary magazine edited by Dr. Helen Hughes of Human Learning & Development. The current issue is a poetry issue.

Anyone wishing to contribute or subscribe to this publication should contact Helen Hughes at ext. 2524.

GSU INNOVATOR

Dr. Donald H. Haider, former budget director and chief financial officer of the city of Chicago, will be principle speaker at a conference on economic development to be held on October 10. The conference, West Economic Development South of Chicago, will be held at the Holiday Plaza in Matteson.

Another topic will be "An Analysis of Current Economic Development Activities in the Region South of Chicago." Other topics to be covered will include "Partnerships Require Team Play," "How Pittsburgh Coped with Economic Change," "The Elgin Story," and others.

The conference may be attended for one hour of either graduate or under-graduate credit.

Further information is available from the office of Conferences & Workshops at ext. 2436.

For further information contact Betty Heron at 756-3110, ext. 721.

Beginning September 11 and 12 Prairie State College will be offering face-to-face classes in English-as-a-Second-Language. Classes will be all levels, and will include such skills as paragraph writing, and reading the language found in newspapers.

For further information contact Betty Heron at 756-3110, ext. 721.

A weekly weight control group is being offered by the Office of Student Development. Led by a counselor, the group will meet on Wednesday mornings from 10 a.m. to noon throughout the fall trimester. The first session is on Wednesday, September 5. To register, contact the Office of Student Development, ext. 2413.

Daily Calendar

AUGUST 29:

Theology for Lunch: "Religious Dimensions of Literature." Dr. Anthony Wie, GSU, Honors Dining Room 12 noon.

Small Business Seminar: "Motivating Employee in a Small Business." CBPA Conference Room, 7:30 p.m.

SEPT. 3:

Holiday, Labor Day

SEPT. 4-28:

Art Exhibit: Sculptures by John Payne, GSU Sculptor in Residence. Art Gallery 10:30 am - 3:30 pm, Monday-Thursday.

SEPT. 4:

"Dollars and Sense: Seminar to Improve the Quality of Your Financial Decisions. Beginning a Financial Plan in Today's Markets." Room to be announced, 7 pm - 9 pm.

SEPT. 5:

Small Business Seminar: "Quality Control for the Small Manufacturer." CBPA Conference Room, 7 pm - 9:30 pm.

General orientation session for fall trimester telecourses/teleclasses for south suburban students. Room to be announced, 7:30 pm.

Weight Control Group: Plan to lose weight. Register at the Student Development Center. First session, Weds. 10 am - 12 pm.

SEPT. 7:

Artists reception for photographers Gail Kaplan, Janice Bell and Gloria DeFilipps. Brust, Infinity Gallery, 5:30 pm.

SEPT. 7-8:

SEPT. 7-28:

SEPT. 8:

Orientation sessions for independent-study by correspondence students at GSU: Engbretson Hall, 8, 9, 30 am and 11 am.

General orientation session for fall trimester telecourses/teleclasses for students unable to attend Sept. 5 session. Room to be announced, 9:30 am.

SEPT. 10:

General orientation session for fall trimester telecourses/teleclasses for north suburban students, GSU/Dempster Development Center, 7:30 pm.

SEPT. 11:

"Financial Planning for the Closely Held Company." Techniques and current information for developing business and tax strategies. Holiday Plaza, Matteson, Ill. 9 am - 5 pm.

SEPT. 12:

SEPT. 13:

GSU Chapter, Phi Delta Kappa: "Politics and Education." Tivoli II, 6:30 pm.

Evening Child Care Offered

Evening classes are convenient for working students, but for the working parent, another problem still exists. Who will watch the kids? Good babysitters are sparse. When one can be found, they are expensive. GSU, however, offers a solution to this ongoing problem.

This professionally staffed center received a State License from the Department of Children and Family Services in 1981. The staff consists of the director, Gerri Dalton, evening staff, and aides, who are always present in teacher ratios. The center's purpose is to provide an atmosphere which is friendly, clean, happy, and safe for all children.

Although the Child Care Center performs a special service for evening students, the evening staff is really faced with a difficult task. Dalton states that, "Evening teachers have a more difficult job because they have to find activities to interest children ages two through twelve." Morning teachers have only preschoolers during the regular school year.

The center is open Monday thru Thursday, 8 a.m. - 10 p.m., Friday, 8 a.m. - 5 p.m. and Saturday, subject to enrollment. The Mastercharge and Visa are now accepted. The center requires that all children register and submit a medical form.

A parent orientation session is held before the beginning of a class. The class size is limited to eighteen. The first half hour is spent in the gym doing stretching and strengthening exercises. The rest of the hour involves getting the child acquainted with the water and learning basic movements. There are four categories according to age. Kermit the Tadpole (infant to walking), Kermit the Frog (walking to 24 months), Cookie Monster (2 years and up) and Tadpole Gym and Swim (3 thru kindergarten). Small children are also grouped according to their swimming ability.

The fall and winter classes are seven weeks long while summer sessions last five weeks. Pre-registration is required. Two activities are scheduled for the coming fall. The first one begins the week of September 10th and the second is scheduled for the week of October 29th. Member registration will be held Tuesday August 21; non-members may register on Friday August 24 for the first session. Additional dates for registration are scheduled for the October classes. The fee for members is $17.00 and $35.00 for non-members. GSU students and faculty are eligible for discount membership rates.

For further information about this and other programs contact the YMCA office at 534-5800.

The primary objectives involved in the pre-school swimming program at the YMCA at Governors State University are to teach personal safety and develop physical skills in order to provide the child with a positive self image.

According to Debbie Kuramitsi, Associate Program Director for the Y's swim programs, preschool swim instruction can begin as early as three months of age—as long as the infant can hold its head up, and has developed the necessary motor skills to handle the water. "Actual swimming instruction doesn't begin until age two," says Kuramitsi, "This is when the child can begin to spit water out, hold on to the poolside and the overall motor skills are improved. The parents' involvement is crucial; in fact it's mandatory until a child can swim 2 feet with only the aid of a flotation belt."

A parent orientation session is held before the beginning of a class. The class size is limited to eighteen. The first half hour is spent in the gym doing stretching and strengthening exercises. The rest of the hour involves getting the child acquainted with the water and teaching basic movements. There are four categories according to age. Kermit the Tadpole (infant to walking), Kermit the Frog (walking to 24 months), Cookie Monster (2 years and up) and Tadpole Gym and Swim (3 thru kindergarten). Small children are also grouped according to their swimming ability.

Although there has been much controversy concerning the use of flotation devices in swimming instruction, Y instructors use either a belt or "swimmys," also known as water wings. Many feel that the child becomes unduly dependent on these devices and they become a crutch. But the Y's position is to emphasize safety and prevention. The instruction manual notes that the instructor is also a coach; it goes on to explain that sometimes it's harder to free the child from that dependency than it is of a flotation device. The fall and winter classes are seven weeks long while summer sessions last five weeks. Pre-registration is required. Two activities are scheduled for the coming fall. The first one begins the week of September 10th and the second is scheduled for the week of October 29th. CLA Offers Student Support Programs

The Center for Learning Assistance, in an effort to provide support to GSU students, has developed a variety of academic support programs designed to assist GSU students in their studies.

Tutors are available in basic skill areas and many course-related areas, including grammar, composition, writing research papers, test-taking and study skills, accounting, economics, algebra, calculus, and computer programming.

The CLA also offers a variety of proﬁl and non-print materials that may be used for self-study. Handout materials that students can take with them are also available. Diagnostic testing in reading, grammar, composition, and mathematics is also available to help students identify their strengths and weaknesses before beginning a program of study.

Effective Fall 1984, the CLA is offering free writing samples to students who want to assess their strengths and weaknesses before beginning a program of study.

The CLA is also offering free workshops designed to help students prepare for the University proficiency tests. The CLA is offering free testing. The CLA is located on A Balcony, near the YMCA Hours are Monday through Thursday, 9 am - 5 pm; Friday, 9 am - 5 pm; and Saturday by appointment.

On June 7, 1984, we converged in Springfield for the third Universities Lobby Day of the current legislative session. High on the UI's lobbying agenda was increased funding for Illinois Public Universities, including salary increases and full funding for State Universities Retirement System. We met at 10 a.m. in the State House Inn (1 block from the Capitol) for a brief orientation. We were given fact sheets on the State Universities funding situation. Finally, in groups of ten, we met with State Representatives to discuss, our feelings, present fact sheets, and ask for their support. Most state representatives were available for our presentation. Those that were not available were left fact sheets and a brief note asking for their support in our concerns.

By 4 p.m. we met again in the State House Inn for debriefing. All together we talked to 92 legislators and left messages and materials for 48 others.

While the final revenue picture remains cloudy, we are in a good position to receive increased revenues, if the economic situation of the state improves.

I tell our lobby efforts were well received and very productive. I would like to see more GSU students participate as a lobby volunteer group next year.

Where there is a will, there is always (usually) a way.

CLA Announces Fall Hours

Effective as of August 17, 1984 CLA is altering the hours from 2 p.m. - 4 p.m. on Tuesday to 10 a.m. - 2 p.m. on Monday through Thursday. Students wishing to meet with a CLA staff member to review the GSU writing sample. Students should call ext. 238 for an appointment during this period. Students who are unable to come to the CLA at this time may use the CLA's self-study program. The CLA is located on A Balcony, near the YMCA. Hours are Monday through Thursday, 9 am - 5 pm; Friday, 9 am - 5 pm; and Saturday by appointment.

Richard Dunn, BGO legal counsel, reported that the Illinois Supreme Court has issued an opinion that all "actions against the board must be brought to trial in the Court of Claims." Dunn called this a "landmark decision.

"Although no action was taken to implement the recommendation, GSU was recommended to receive a new phone system. The meeting, held on the Eastern Illinois University campus, was highlighted by a robotics demonstration by Eastern's school of technology. Dr. John Messer stated that his program, industrial technology, is one of only two accredited in Illinois. He used microprocessor interfacing to make two small industrial robots do a variety of tasks.

The meeting, held on the Eastern Illinois University campus, was highlighted by a robotics demonstration by Eastern's school of technology. Dr. John Messer stated that his program, industrial technology, is one of only two accredited in Illinois. He used microprocessor interfacing to make two small industrial robots do a variety of tasks.

Machine Assists Analysis

by Frances Tenbroeck

GSU is one of the few universities in the region to offer a degree in analytical chemistry. "It's a big boost to the analytical chemistry program," said Dr. Edward C. Heflin, Science Division Chairman. "We found the money for us to purchase the instrument for the curriculum."

Dr. Joseph Addison, Professor of Physical Science, said, "It's a big boost to the analytical chemistry program, and it will put us in a strong position when we apply for research grants."

The GCMS works well for both teaching and research, Addison said, because its automatic mode, ideal for teaching, can be changed to manual by the researcher. The desk-size, computerized Shimadzu GCMS QP 100 quick- ly separates complex organic compounds into their molecular components. Its printer indicates what a sample consists of and in what amounts. The data, which are displayed on the monitor, may be stored on a floppy disk.

Dr. Addison said the GCMS is useful in detecting pesticides in soil and pollutants in air or water.

"Chemical analysis with the GCMS develops into an art," Dr. Addison said. "The more you do, the more you become familiar with interpretation. We are very appreciative of the university's strong commitment to teaching and research."

Various fields that use GCMS equipment are medicine, pharmacy, biochemistry, biology, agriculture, environmental chemistry, and environmental analysis.

BOG Passes Budget

by Sue Fagin

At its July 20 meeting, the Board of Governors approved an operating budget of $173 million, an increase of $20 million over the expected 1985 appropriation. The budget included $19 million for GSU, a 13.3 percent over 1985's budget.

The Board also passed salary increases for the university president and the BOG Executive Director. The increases bring the salary of the university president up to $70,416. The Executive Director's salary is now $75,000.

In other action, the board approved an increase of an estate to Center Cable Television of Illinois. The estate will enable programs originating at GSU to be broadcast to the communities Center serves.

The meeting was held on the Eastern Illinois University campus, was highlighted by a robotics demonstration by Eastern's school of technology. Dr. John Messer stated that his program, industrial technology, is one of only two accredited in Illinois. He used microprocessor interfacing to make two small industrial robots do a variety of tasks.

The INNOVATOR is expanding its staff. We have openings in the following categories:

- SPECIALIST FOR NEWS
- ADVERTISING MANAGER
- EDITOR
- PHOTOJOURNALIST
- PROOFREADER
- WRITING REPRESENTATIVE
- COMMISSIONED POSITIONS

If you are interested, submit a resume to Susan Fagin, Managing Editor, Innovator.
A panel discussion on the topic "Politics & Education" will be the highlight of the first Phi Delta Kappa dinner program.

The Psychology & Counseling Club will hold its next meeting on Tuesday, Sept. 11, from 3 p.m. to 4 p.m. in room D-3301. The program will feature Dave Crispin discussing Transactional Analysis. Everyone is welcome.

The S.A.M. (Society for the Advancement of Management) is operating the Book Exchange this trimester. Students are encouraged to bring their used books to the third floor S.A.M. office. S.A.M. members will sell them at reduced prices for the students. We can also buy cut-rate books or handy reference guides for the coming trimester.

Community College Transfers Low

by Emila Nast

Only one out of every seven community college students nationwide will obtain a four-year college education.

According to an article in the July 30 issue of The Christian Science Monitor, the transfer prospect is worse for minority students even though they make up a significant percentage of the community college population. Only about 13% of blacks and Hispanics transfer to four-year schools.

The problem seems to stem from a lack of coordination between community colleges and four-year schools. Early planning and up-to-date information are crucial for prospective transfers but not always readily available. In California, the Mexican-American Legal Defense and Educational Fund and Public Advocates, a San Francisco based public interest law firm has filed a petition in an effort to force the state to address the issue. The petition requests that community colleges have mandatory counseling for transfer students, agreements by state colleges and universities to accept more transfers, and clarification and streamlining of transfer policies. The petitioners are also asking for enforcement of current acts in California statutes that require public institutions to reserve spaces for transfer students.

According to one source, community colleges are being asked to handle so many more areas outside the traditional definition of higher education that the academic student is being neglected. They are now responsible for remedial work, vocational training and adult education. MALDEF hopes to bring people together without having to resort to legal action, according to Ronald Vera, attorney for MALDEF.

GSU Student Publishes Local Newspaper

What do Rupert Murdoch and Donna Tieman have in common? They both own newspapers. GSU Journalism student Donna Tieman is now the owner-publisher of the Hometown Journal Star. The first editions of the Hometown Journal Star came out just a few weeks ago to rave reviews. The paper, which is written and composed in Tieman's kitchen, is a monthly. It is distributed free to residents of Hometown.

GSU reported that the university has entered an agreement with the Central Cable Television Company of Illinois to maintain an educational television channel for the nine communities served by the company. "We are working in cooperation with Prairie State and Thornton Community Colleges in providing Centel with programming," explained Cheryl Pasalic, TV Traffic and Supervisor for the ICC. "We will be showing the tapes for the other schools, thereby becoming the head-end for this region," Pasalic said.

The arrangement among the three participating in-districts, GSU, Prairie State and Thornton, is the first of its kind in the state. Hazel Crest has areas within both college districts.

The costs for the joint promotional activities will be shared among the three participating institutions, GSU, Prairie State and Thornton. The arrangement among the three schools calls for students to enroll in lower division courses at their local community college, and for students to register for upper division courses through GSU. More GSU telecourse information is available through the Office of Special Programs and Continuing Education at 534-5000, extension 2319.

The Psychology & Counseling Club will hold its next meeting on Tuesday, Sept. 11, from 3 p.m. to 4 p.m. in room D-3301. The program will feature Dave Crispin discussing Transactional Analysis. Everyone is welcome.

The S.A.M. (Society for the Advancement of Management) is operating the Book Exchange this trimester. Students are encouraged to bring their used books to the third floor S.A.M. office. Have you ever made a list of things in life for which school did not prepare you adequately? Many adults wish that they had been able to attend class regularly. The minimal number of scheduled classes has also been taped on an area college campus. Marjorie Owens, a 1975 graduate of the college, is a member of the firm. Many of you in the GSU community already know me from my previous associations with GSU, which began when I became a student here in 1975. I received a master's degree in communication science in 1977. From 1979 to 1983, I taught statistics in the College of Human Learning and Development, now the College of Education. I still teach a telecourse in child development through the Office of Special Programs, and last fall I was elected to the GSU Alumni Board of Directors.

Investing is serious business. It can be complex and time-consuming. Oddly enough, most of us learn and work all our lives to make money, but almost no training is given to keeping money. I hope this column will help you make the most of the assets that you have. Feel free to drop me a line if you have a question about anything I've written. I'll be happy to explain or elaborate. Also, if you would like to suggest a topic for a future column, be sure to let me know.

Questions or comments can be directed to me in care of: The Innovator Governors State University University Park, Ill 60466 Attn: Pamela Hiligoss Woodward or call 534-5000, ext. 2140.
Student Development will present workshops on various topics that can help you in your career. Contact "Weingross Group Control" on Wednesdays at 10 a.m. First impressions do count, so make sure you are dressed appropriately. If you anticipate job hunting some months down the road, now is the time to do something about those extra pounds. Phone 534-5400, ext. 241 for more information.

The U.S. Government is actively recruiting people to work overseas in the Department of Commerce, or the Information Agency. Over the hall people joining have at least a Bachelors degree. Many have professional work experience ranging from early twenties to middle thirties. Information and applications are available in Placement Office. Salaries start around $20,000. Deadline to apply is Oct. 19, 1984.

Thirteen to nineteen outstanding Americans will be selected for the White House Fellowships. Information is available in Placement Office with a Dec. 1, 1984 deadline.

August 27, 1984

In July, BOG Representative Mike Blackburn and I (Sue Fagin), visited the GSU satellite campus at Dempster. This was the first in a planned series of visits to off-campus locations. The visits are intended to encourage off-campus student involvement in campus life and confirm to the students that they are part of the University. At Dempster we were fortunate to be able to meet and talk to a group of students. The response was gratifying.

Dear Sue:

Thank you for your invitation to take an active part in expressing ourselves in the editorial section, this letter is to address our concerns regarding the fall course listings offered at the satellite locations.

As professional educators, we believe the fall schedule does not fulfill our needs. We are disappointed in the fact that there is a drastic reduction of courses offered in a concentrated time-frame format. Because of job-related commitments, we find it impossible to attend semester-long classes. From past experiences, we have found that these concentrated courses (weekend, after-school, and week-long formats) have provided us with greater learning experiences through continuous reinforced learning that provide total immersion in the learning process. An entire Masters Program offered at satellite locations would attract a larger enrollment for Governors State University. Presently students are being forced to attend other institutions to meet their needs.

To continue to meet our needs for quality education, we hope these suggestions will be implemented when making future scheduling decisions.

Sincerely,

Thomas Muhickett

Resume Help Available

by Frances Tenbroeck

Sending out scores of resumes is a common step in finding the ideal job. With no single resume format that suits all, students often need all the help they can get.

Every fall and spring, the Placement Office gives a resume development workshop to all those interested. Besides giving resume tips, workshops may cover interviewing techniques, using videotape for quick feedback. The workshops are well attended, according to Mary Hughes, placement officer.

Hughes said, "A resume is a marketing package. It should tell as well as sell. You should not just list places and dates, but you should emphasize achievements."

For example, since GSU offers more credits than most schools, they should emphasize these credits, Hughes said. Also, potential employees should point out positive effects of their work and ideas.

Students need not wait for scheduled workshops or for the day before graduation to start thinking about a resume. If five or more students in a major express interest, the Placement Office will hold a special resume session tailored for them.

Hughes also recommends frequent resume updating, possibly every six months. She said, "Some people say to start preparing for your next job as soon as you start your present one. "It's a good idea to drop notes to yourself as reminders of activities, accomplishments," Hughes added, "because people tend to forget.

For more costly help in creating a resume, specialists can be found. Chicago's Yellow Pages lists 46 resume services that promise everything from "writing and layout" to "same day type-setting."

The video resume is a unique job hunt technique created by William Van Dyke, a Creative resident. Van Dyke videotaped himself in a short presentation that he could mail to prospective employers along with his written resume.

While the job he got did not result from the video resume, Van Dyke thought enough of his idea to try marketing it. He produced about 50 videotapes, and at least one "client" received a quick job offer.

Van Dyke proposed starting a video resume service at GSU last spring, but Hughes didn't think his system was ready. Stressing the immediate feedback and human contact in a direct interview, she said, "An impression is made within the first 30 seconds. In a direct interview you can observe and correct problems as you go." Whether you depend on the Placement Office or resume service, whether you stay with tradition or send along a videotape, your presentation should be "concise, precise and consistent," Hughes said.

Newly professional nurses introduced: Left to right: Jean Frigo, Gayle Grady, Deb Jerz, Maria Skoun-Dianos and Annie Lawrence. Photo by Mike Blackburn.

In late June, the Professional Nurse's Association held an annual recognition banquet at Glenwood Oaks Restaurant. Honors were bestowed on outstanding 1984 graduates in both the Bachelor's and Master's of Science in Nursing programs.

Laura Devin and Cheryl Che­
mers were recognized in "Who's Who in American Colleges and Universities."

College of Health Profession's awards went to Donna Savage and Caroline Miguirono.

Annie Lawrence Carr of the Division of Nursing addressed the group.

New officers introduced at the banquet were Jean Frigo, Gayle Grady, Deb Jerz, Maria Skoun-Dianos, and Annie Lawrence.

Correction

In last issue's story on Dr. Warren Carter, we incorrectly identified Samuel Cross as the person who presented the memory book to Dr. Carter. The book was created and presented by Johnine Malvin. Samuel Cross was just holding it.

We apologize for the error.
