F A Z E F O C U S O N . . . THE GRADING POLICY PROGRESS

(Editor's Note: The proposed grading policy has been approved by the University Assembly and is now under consideration by the President, before being presented to the Board of Governors. The new grading system is expected to be in effect for Fall Trimester, 1979. The following information is excerpted from the proposal as approved by the UA April 19th.)

- I. At the completion of the work for a course, a letter grade will be determined by the instructor. The basis for each grade shall be clearly defined in the course syllabus.
- II. The following letter grades shall be used: A, B, C, D, U, P, and other temporary codes such as I for incomplete and W for withdrawal.
- III. Programs may request to use a pass/incomplete grade for all students for a specified course if the giving of grades can be demonstrated as a problem for the learning environment.
- IV. An undergraduate student may take any graded elective course on a pass/incomplete basis up to a maximum of 12 units of credit. (Several qualifications are listed pertaining to this option.)
- V. The completion of the work for a course shall be within these limits: A) The student has one Trimester after the end of the Trimester in which the course is listed to turn in unfinished work. Beyond that time, the existing ERP Policy will continue. B) Once a grade has been recorded by the instructor, additional work cannot be submitted to raise the grade. C) A student may re-enroll in a course.
- VI. A graduate student must maintain a "B" (3.0) average to be in good standing. An undergraduate must maintain a "C" (2.0) average to be in good standing. Students cannot graduate if not in good standing. A student not in good standing for two consecutive Trimesters, while enrolled, shall be suspended for academic reasons for one year.
- VII. Students may request either or both of two transcripts: A) An official transcript listing work completed; B) An official transcript listing all course work registered for, corresponding grades or status, and grade point average.
- VIII. A period of transition is to be provided for students registered for course work prior to the Fall Trimester, 1979. A) A student registered for zero or more units during the Spring/Summer Trimester, 1979, can choose to remain under the existing grading policy of pass/incomplete as long as continuously enrolled or until graduation, and must remain under it if on academic probation. The existing good standing policy also shall apply for the same period. B) All students admitted or readmitted for the Fall Trimester, 1979, and thereafter shall fall under the new policy.
- IX. The drop period shall be extended to the fourteenth week of a sixteen-week course and the seventh week of an eight-week course.
